Interior Sub-Commission.

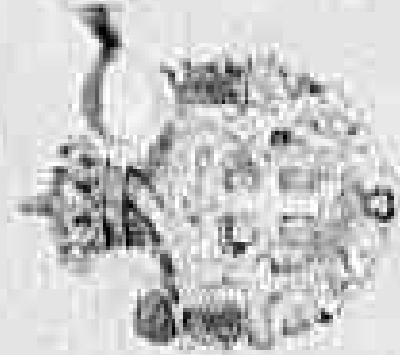

We are returning you the attached list brought up to date, with the exclusion of the present movement of prefects.

This Ministry is perfectly aware that the question of reorganizing the layout of the prefectures must be taken in hand, especially in regard to the unoccupied posts of vice-prefect vicar and inspector.

As soon as the Ministerial services have been put in order, with the appointment of general directors, and the personnel reorganized, the situation of the personnel of the prefectures will also be studied and solved thoroughly and rapidly.

Si restituisce l'unito elenco aggiornato fino al movimento di prefetti in corso escluso.

Questo Ministero si rende conto perfettamente che occorre affrontare la questione del riordinamento dei quadri delle prefetture, specie per quanto riguarda i posti scoperti di vice prefetto vicario e ispettore.

Non appena, con la nomina dei direttori generali, si sarà provveduto ad un assessment dei servizi del Ministero e alla riorganizzazione del personale, sarà affrontata e risolta in modo organico e collettivo anche la situazione del personale delle prefetture.

SUBJECT: Vacancies among Prefects and Vice-Prefects

TO : His Excellency the Minister of the Interior

Your Excellency:

1. I enclose herewith a list showing the vacancies which, as far as my information goes, exist in the offices of Prefect, Vice-Prefect Vicar and Vice-Prefect Inspector in the provinces of liberated Italy. You may recollect that we discussed this subject at our interview on 14 July.
2. I understand you are about to notify me formally of a number of proposals for the movement of Prefects and the promotion of Vice-Prefects, particulars of which were given to my staff officer by His Excellency BERTUCCI yesterday. These proposals, when approved, will materially ease the situation as to Prefects. The list of course takes no account of these proposals.
3. Many vacancies in the office of Vice-Prefect remain to be filled, and I must repeat to Your Excellency the view of the Allied Control Commission that vacancies such as these are seriously dislocating the local administration in liberated Italy and that every effort should be made to fill them as soon as possible by the promotion and transfer of young and energetic officials.
4. The list is accurate as far as my records show but I may not have the latest information as to some provinces in the south. I should therefore be grateful if you would have it compared with the records at the Ministry and brought up to date if and where necessary. For this purpose, two copies are enclosed so that one can be returned to me corrected.
5. The provinces marked * are newly liberated provinces as to which I have not yet received full information from Allied Military Government.

*Extract from Notes of Meeting with Prime Minister Bonomi and
Col. R.G. SPICER on 14-7-1944*

5. Vacancies among Prefects and Vice-Prefects - Col Spicer drew attention to these vacancies and particularly with regard to Vice-Prefects (Vicario and Ispettore). He expressed the view that the shortage was throwing excessive work on the Prefects and that the Civil administration was being adversely affected as a result. He suggested that the Ministry should give the subject their urgent attention and enquired if the shortage of Vice-Prefects could be overcome by the promotion of suitable and energetic men from the minor ranks. The Prime Minister agreed with the situation as above expressed and with Col Spicer's views and suggestions. It was arranged that Col Spicer should send a list of all known X vacancies for the Ministry's attention.
6. Ex-Prefects of Sicily - Reference was made to certain ex-Prefects of Sicily who were removed from office by AMI some of whom had, with AGC approval since been re-employed by the Italian Government in reduced rank. Col Spicer expressed his views and stated that he would bring the matter forward for reconsideration.
7. Contacts with Ministry - It was agreed that for the disposal of business requiring personal contact with the Ministry, Col Spicer would deal with Under-Secretary Canavari, Staff Officers would deal with Sorrentino and Camera.
8. Conference ended at 12:50.

1. With reference to the personal conversation with myself and Colonel Cripps, I forward for your information a copy of our personnel card in regard to Prefect Dott. Guido Tasburro of Matera.
2. I would state two things:
 - (1) The supply of career officials in Royal Italy is extremely short.
 - (2) The Italian Government are objecting strongly in Royal Italy to the appointment of any individual to the senior appointments of Vice Prefect or Prefect who are not trained administrators.
3. In regard to Dr. Tasburro, there was a tremendous drive on the part of the Italian Government to remove Tasburro when they were handed back the territory. This was firmly resisted by the Allied Control Commission in view of the high standards of reports received in his regard, and it would be a complete reversal of policy now to remove him.
4. My knowledge of Prefects which is fairly extensive, although Dott. Tasburro may undoubtedly be a "little man", he is possibly amongst the first ten Prefects in efficiency that has been brought to my notice in the whole of Royal Italy.
5. As regards the two Sindaci which you mentioned, Gallilelli, Domenico of Terracina, and Salomono, Luigi of Stigliano, I will bring both the names of these individuals to the notice of the Italian Government on your recommendation, and I am grateful to you for the information.
6. In regards to the last mentioned individuals, I should be grateful if you would instruct one of your staff officers to send me the fullest possible particulars of them in accordance with the card which I am enclosing herewith in regard to Tasburro.

SUBJECT: Local Government Officials.

My dear Hancock,

I should be personally extremely grateful if you could help me over these cards. I am quite prepared to withdraw my first request and to reduce them to the prefects and vice-prefects of your nine provinces. This means 27 in all. The manner in which other areas have done it is to hand over the cards themselves to the officials as if it were a scheda personale and instruct them to fill up the front. I enclose a quantity of forms for that purpose.

This in itself gives us a certain amount of useful information but the important point is to get the appraisal of the provincial Commissioner and your concurrence or revision if possible on the back. This of course cannot be done until the card has been handed back by the prefect or Vice-prefect concerned.

In my dealings with the Ministry of the Interior, these cards prepared on the lines indicated above have already proved themselves invaluable and your personal direction and help in this matter would fill a blank in my card index system and I find my position difficult without this who's who or reference.

I really should be appreciative of your help in this matter.

Yours sincerely,

Lt. Colonel A.N. Hancock,
Regional Commissioner,
Region I.

SUBJECT: Italian Officials - Local Government

TO : RC & RG Section (Civil Affairs)

1. I attach copy of letter of 23 April, ACC/42/3/Int which was addressed to the Liaison Officer, Interior Sub-Commission, Region I. It was so addressed in view of a letter REG 014.12 of 8 April signed by a 2nd Lt Amoroso, "Liaison Officer, Interior Sub-Commission".
2. I now understand from the minutes signed on the file by Captain Temple, subsequent to a conversation with Captain Talbot, that Region I has replied to RC & RG objecting to the volume of work involved by our request and suggesting that the Minister of Interior should furnish such information.
3. We have endeavored to telephone Sicily, but the line is not sufficiently clear to carry out an intelligent conversation.
4. An important point of this Sub-Commission's basic work is to build up appraisal of local government officials who are holding senior appointments. It is, of course, manifestly impossible to obtain a confidential report on such officials from the Minister of Interior, as suggested.
5. What is required is the Provincial Commissioner's appraisal confirmed if and when possible by the Regional Commissioner.
6. The Executive Commissioner himself has seen our card index and I am most anxious that this should be expanded and made more valuable as time goes on.
7. The total number of officials with whom we are more concerned is 107. There are 9 provinces in Sicily, and if the matter were decentralized, it should not be a heavy burden if each RC dealt with his own prefect.
8. My only alternative is to send one of my extremely limited staff to Sicily for this purpose, since I am quite certain that these records are of vital importance.
9. The details of the card can be furnished by the Italian officials themselves and has been done in other areas apparently without much difficulty. The appraisal is then subsequently inserted in the back of the card by the RC and, if possible, added to or confirmed by the RG.

I have known Dr. Ottaviano for 29 days only, therefore am not fully conversant with this gentleman.

I find him to be very willing to co-operate with the Allied Forces.

Whether he has a strong character is open to doubt.

He held an office under the old Fascist regime in Rome but seems on the surface to be Anti-Fascist.

I do not think he has the confidence of all the Mayors.

I think he is working under difficulties and that the Anti-Fascist Concentration are watching him very closely and therefore he has not got the confidence in himself that he should have.

1. I have been informed that NAITANA, acting Prefect of the Province made the following remark in the presence of witnesses during a discussion on the general situation in the Island. He said, "With the arrival of the Allies has come disorder and starvation. In fact the Anglo-Americans are our enemies." I have been informed of this by a person who was present at the time, and corroboration can be obtained if necessary.

2. NAITANA is not known to have had direct Fascist connections in the past and had no rank or honours in the PNF.

3. Criticism is general throughout the Province at his lack of interest and negligence in the administration. Dr. Puligheddu, President of the Province is in possession of a list of the deliberations of the Provincial Council. This shows that in nearly every case, the Prefect has shelved the matters under discussion and it is the opinion of the President that he, NAITANA, is not suitable for the important post that he holds. This was also the opinion of Mocchi, former Prefect of Nuoro and now Prefect of Cagliari.

4. It is also a matter of general comment that NAITANA receives presents of food, etc, from the wealthy landowners in the Province, and in particular, flour from the local millers, Guiso Gallisai.

5. The Alimentation Section found that the severe milk shortage in the town of Nuoro was due to the fact that the large producers were not supplying the quantity of milk that they were obliged to do. In fact, in many cases they were supplying none at all. The matter was reported to the Questore who obtained the necessary evidence, but NAITANA has withheld his consent to

In fact, in many cases they were supplying none at all. The matter was reported to the Questore who ~~ordered~~ ordered the necessary evidence, but MAITANA has withheld his consent to the prosecution. The chief offender in this matter is a certain Egidio Poddù, of Orgosolo, a wealthy man and personal friend of MAITANA. The reason that the milk has not been delivered to Nuoro is that it has been used to make cheese which is a far more profitable operation.

6. Shortly after MAITANA had been appointed acting Prefect he requisitioned for his personal use 65 kgs. of tomato concentration which it had been previously determined should be assigned to the hospitals and the poor. When this was ~~assessed~~ assessed MAITANA said that the concentration had been requisitioned by employees at the Prefecture without his knowledge, and that he would punish the person responsible and return the tomato to the hospital. The officer in charge of the stores stated that the requisition had been signed by the Prefect, and there is no record of the tomato being returned.

Subject: Italian cabinet members: GUIDO JUNG

Undersecretary of State : FINANCE.

Origin: Palermo, Sicily, of German Jewish extration.

His father emigrated from Germany and made a large fortune in international trade. The Jung family is considered one of the wealthiest of Sicily.

He fought in the war 1915-18 and was decorated for valour.

Because of his international connections, was sent as a delegate to the peace conference.

One of the first Sicilians to become a Fascist.

Was included in the official list of members of Parliament which was to be approved of at the so-called elections of 1926.

Was under-secretary, then minister of Finance, succeeding Volpi who had refused to raise the rate of exchange of the Lira. The defense of the Lira at the rate of 90 is attributed to him.

When he resigned from his ministry, he managed to spread the rumor that he had fallen in disgrace in order to win over the sympathy of the Sicilians who were angry at him because of his complete lack of interest in the Sicilian needs and problems during the time he served in office. However, his interests in Libya flourished, and there is no evidence of his being at odds with the Fascist chiefs.

He abjured his Jewish faith and became a Catholic just before the anti-Jewish legislation in Italy and enjoyed the privilege of discrimination. Strangely enough he overlooked the status of his children who were expelled from school on the basis of these laws.

It is difficult to ascertain whether he took advantage of his position in the Fascist party to further his interests, since he was already very wealthy before taking office.

As soon as he took contact with the Brindisi government he was sent over to Naples to start a campaign in favour of the King (mission entrusted to him by Duke Acquarone, minister of the Royal house). He approached various political leaders but was received coldly, since he is considered largely responsible for Mussolini's financial policy. He then established contact with General Basso and Dino Philippon who started the Monarchist movement.

Under-secretary of State to the PRESIDENCY
(in charge of Cabinet policies of a general character and of coordination between ministries).

Born in Florence of Jewish origin. About 60 years old.
Doctor at Law. Wealthy family.

Fought in 1915-18 war as an Artillery officer. Decorated in 1921 on the Fascist ticket, which he supported financially. However in the House he remained with the Liberal group.

He participated to the "Aventino", and so acquired the reputation of an anti-Fascist.

After this he travelled in France where he tried to establish contact with the anti-Fascist groups but never was trusted by them.

At the time of the Ethiopian war he once more befriended the Fascists, considering it a patriotic duty.

He became strongly anti-Fascist when racial laws were instituted.

In 1939 for his unfriendly attitude towards Fascism he was confined in Ventotene Island where ~~XXCIAL LAW~~ he was however treated with every consideration, for which he frequently obtained permission to visit in Italy.

He was liberated at the time of the fall of Fascism, but was received coldly by the anti-Fascist groups.

He established himself in Bari where he was used by Marshal Badoglio in an attempt at establishing an agreement between the various political parties and the government. He tried to accomplish this mission with the help of Guido Jung and Filippo Salvi. Having failed all along the line, he started several monarchist movements going as far as using Fascist elements and re-constituting together with Ave. Solimene of Naples Masonic lodges for propaganda purposes.

He is now the most hated political figure among the anti Fascist political parties.

Native of Mantova, Doctor at Law. About 65 years old.
Unitarian socialist Deputy, elected in the 1919 elections, especially
in view of his conduct during the war 15-18, where he was many times decorated for
bravery.

Lieutenant Colonel in the Alpine Troops.
Fervent antifascist, in 1925 organized an attempt on Mussolini's life,
in accord with General Capello, with a certain Niccolosi and others belonging princi-
pally to the Masons.

He was betrayed by a certain Quaglia, whom Z. had as his man of confi-
dence, brought before a Court and sentenced to 30 years detention.

He was in the Penitentiary of Viterbo, at Volterra, then on the Island
of Ponza. In 1935 Mussolini had a subsidy given to the daughter of Z., so that she
might continue her University studies; and Z. wrote him a letter of thanks and
devotion; he wrote another letter in 1939, always of devoted gratitude and admira-
tion (these letters were read on Radio Roma in January 44).

He came out of confinement shortly before the fall of Mussolini, remai-
ning at Ponza. He came to Southern Italy with the Allied troops, and returned to
head the Socialist Party, of which he was named a member of the Directorate.
Most active Mason, before the Congress of Bari he sustained the thesis of collabo-
ration.

Appointed by Marshal Badoglio to take part in the Ministry, he subordina-
ted his acceptance to have a political post; and so has been created the Purification
Commission.

Physically he feels strongly the long years of detention and has shown
himself deprived of coherence, although externally he appears very decided and ener-
getic.

SUBJECT: Intelligence on Local Government Officials.

TO : Director, Information Division, Main Hq. Naples.

1. I have your letter reference 2127/Info of 23 February 1944 and note that you have a fair amount of intelligence on the above mentioned subject.

2. I regret that as there are only three officers at present in this Sub-Commission, it is impossible to send an officer to visit your headquarters and make an inspection of all the records, but so soon as the staff is augmented, this will be arranged.

3. Information regarding the officials (who surely do not number "many hundreds") referred to, is urgently required and if meantime you could arrange for your staff to forward such particulars as you have of Prefects and Vice-Prefects, it would be of great assistance to this Sub-Commission and much appreciated.

TO : Lt. Colonel R.G.B. SPICER - Interior Sub-Commission - ACC

1. I regret that this office can find no trace of any forms upon which we were to supply the Interior Sub-Commission with particulars of Administrative Officials in Palermo. To the best of my knowledge, Major Ballinger had these forms and must have taken them with him. If copies of these forms are sent here, I will see to it that they are properly filled out.

2. We have in mind a successor to take my place when I join Colonel Charles Poletti in Naples, and he will be instructed as to his duties.

3. Returns for provinces other than Palermo can also be made through the Liaison officer, although in both cases it would seem to me that this is now a function that the Italian Government could perform through its own channels.

SUBJECT: Lists of Local Government Officials

TO : RCAO, Region I

1. I shall be grateful for your assistance in connection with the above, the position of which is as follows:
2. This Sub-Commission is preparing lists of information as to various Italian officials engaged in Provincial and Communal administration. *1-1-44*
3. A preliminary draft of the information sheet to contain the above data was sent to liaison officers with Regions I and II on 30 December 1943 for completion in respect of one Province only, it being intended to use such form as a test, and to issue it later with any desired amendments for all Provinces.
4. The return for Palermo has not yet been received through the lack of a regular liaison officer with you. I hope to appoint one as soon as my present shortage of officer personnel is remedied.
5. In the meantime it would be appreciated if you could ascertain whether the form has been completed, and if so, to dispatch it.
6. I am most anxious to send out the forms for the remaining provinces. Their completion is obviously a liaison officer's duty, but it occurs to me that all, or most, of the required information is already in your files. I fully recognize that you have enough work on hand without additional *files*, but in view of the present difficulties, I shall be glad to have your views as to the possibility of the remaining forms being completed in your office in the event of the appointment of a liaison officer being held up.

FOR ACTION

I.

1. Will you please maintain for every province, the returns of the administrative officials in a separate file? They will be kept in alphabetical order, irrespective of Regions, in order that a document affecting any province may be produced immediately. I note that the sheet 3 of Major McSweeney's return for the Province of Brindisi is missing. ✓

2. The suggestions contained in 2nd Lt Ziegler's report of 7 Jan '44, have received no attention since the letter passed through my hands. This letter is flagged. In the future, please provide a blank sheet for remarks, additionally to the pro-forma. Additionally, add to the new sheet that will be made, under the words "Population (1936)", "present estimated population", and add a note to the effect that these figures will be obtained from the Sindaco or Commissario Prefetizio. ✓

3. In order that this system should be efficient, each Liaison Officer should be instructed to prepare this in duplicate, one of which he will retain in his own possession. Every quarter, a return of changes in regard to any province will be called for from him, and such changes will be entered onto our HQ form, or a new form will be made out, incorporating such changes.

II.

recalled
1. I am very worried that the card index system seems to have come to a full stop since Capt Elliott's departure. This is definitely the work of the clerical section, and it should be given full attention as soon as possible.

42/3/12
2. The instructions in this regard are contained in a letter of 21 Jan '44 in the file ACC/42 int. In my opinion, this important foundation of the Interior Sub-Commission deserves a file entirely on its own dealing with the filing cabinet system. I am not interested in other officials who are not officials of Local Government. I trust that you will find time at an early opportunity to give this matter concentrated attention.

OFFICE MEMORANDUM

SUBJECT: Card index of local government officials.

1. Instructions on Preparation of Cards.

1. For each official listed on the information sheets sent in by liaison officers, two cards shall be prepared as follows:

a. Standard-Size Information Card, with blanks filled in to the extent of information available. Normally, this will include name, honorary or professional title, and position held. Subsequent returns from liaison officers will also show date of appointment to present position.

(1) The first, or left hand box, on the card will contain information as to the position held, designated by the appropriate symbol, name of province or commune, and date of appointment, where known. Thus, for the prefect of Matera, appointed 11 November 1943, the entry would be

P - Matera
11/11/43 -

For the sindaco of the commune of Brice, the entry would be

S - Brice C.

(The letter "C" is used to designate a commune, as distinguished from a province)

(2) The second, or right-hand box, will contain information identifying the Region, Province, and the page and line of the information sheet from which the information was obtained. Thus:

II - Matera
1 - b - (2)

42/349

Note: Unless the same name appears in more than one place, cite only the line where it first appears.

- b. Half-size Index Card to contain only the information appearing on the first line of the card, and the first line of each box. Thus:

SAMBURRO, Guido, Dott.

I - Matera

II - Matera

When the Information Card contains either full or partial information as to the official's education, career and other qualifications, the notation "Inf" will be added in the upper right-hand corner of the Index Card.

2. There is attached hereto, as Appendix A, an "Explanation of Symbols" to be used in the preparation, as well as the interpretation, of the cards. These symbols are to be used to designate both the position presently held, and those previously held (shown under the heading "career"). Abbreviations and symbols should be used wherever possible.
3. There are also attached, as Exhibits B and C respectively, sample forms of Information Cards and Index Cards.
4. As further experience is acquired in the summarizing and filling in of biographical data on the Information Cards, it will be possible to arrive at a suitable format which can then be printed on the blanks. Until such time, it will be necessary to continue to make up the blank forms in typewriting.

B. Instructions on Filing of Cards:

1. The Index Cards will be filed in a single complete series, in strict alphabetical sequence.
2. The Information Cards will, for the present, be filed in order by Regions, (with a separate division, designated "R" for the four provinces under the Royal Government).
 - a. Within each regional division in the file, the following sequence will be followed:
 - (1) Major subdivisions will be the provinces of the Region, in alphabetical order.
 - (2) In each provincial subdivision, officials of the province will be grouped first, followed by the communes of the province in alphabetical order.
 - (3) Within each provincial or communal grouping,

the cards will be arranged in alphabetical order according to names of the officials.

- b. Regional divisions, and provincial and communal subdivisions will be separated by suitably marked dividers—either of wood or of pasteboard.
3. When and if, Regional organization is eliminated under AGC or under the Italian government, all provincial divisions will be arranged in alphabetical order.
4. A separate major subdivision will be maintained for retired or discharged officials.
- a. When information is received that an official is removed or retires from office, the date of termination of service shall be noted in the left-hand box, as follows:
- C 2 - Matera
10/20/43
1/15/44
- The circumstances of such removal or retirement will be noted on the reverse of the card, under "Remarks".
- b. The Information Card itself will be removed from the active file and placed in the "ex" file, in alphabetical order by name of official.
- c. The notation "ex" will be inserted in the upper right-hand corner of the Index Card.
5. When an official is promoted or transferred to another local government office, the new position will be shown in the left-hand box, immediately following the position last held.

SUBJECT: List of Local Government Officials for the Province of Matera

To : Lt. Col. R.G.B. Spicer, Interior Sub-Commission
AMG, HQ. Naples.

1. Ref. your letter of 30 December 1943. *on file 35*
2. I am enclosing the filled in sheets as per your request and I trust they are satisfactory.
3. I would like to make the following observations:
 - a. It seems to me that it would be a good idea to have the date of appointment of each official listed so that one could tell at a glance whether the official is an old one, an AMG appointee, or what. ✓
 - b. It also seems to me that there should be a place (either at the end of the list or at the end of each page) for "Remarks" which might seem pertinent. For example: in the list I am submitting the following should be noted. First, that the Vice Prefect also assumes the duties of the Vice Prefect Inspector as there is only one official for both offices. Second, that while in my official report on the Province of Matera of 28 December 1943 I have listed at least one Councillor for the Province, Dr. ZEVIO GARCIA, he was dismissed on 5 January 1944 because of his past Fascist activities which he could not, it seems, overcome. Third, that certain officials listed (see sheet 2,c, Cabinet) actually perform no function of any significance. Such a Remark column would help to provide a running commentary and so keep these lists up to date and useful. ✓
 - c. It also seems that if the census figure is to have any value at all it should be as of a date much later than 1936. I know that no official census has been made recently but as all the communes are essentially small, a figure could be given by the appropriate officials which would at least have the same value as the 1936 figure. ✓
4. I make these observations because if these lists are to be useful they should give complete information on a current basis and not only as of the date posted on the list. In short, they should stand by themselves as a document on the subject without any need of referring to others. ||
5. I am enclosing also a copy of all the communes in the Province of Matera with their population figures in the hope that it might serve some purpose.
