25 July 45	Dr. DeCecco of the Ministry called up and referred to their letter dated 3 July 1945 (See Vol. 17), last paragraph. Director. 1. Dott. De Cecco brought 7 sealed envelopes which he stated contained the examination papers for secretaries and instructions. I gave him at his request a receipt for same. The Ministry would like them delivered as soon as possible as the examinations are to take place next month (11th + 12th June). Envelopes are for Ravenna, Portofino, Pavia, Lucca, Forlì, Ferrara, and Ancona. He said that they would probably hold examinations in the other provinces in the fall when things are more settled. 2. MEMORANDUM OF COMPLAINT FROM THE PROVINCE OF FORLÌ
ABOUT THE EXAMINATIONS FOR THE TITLE OF COMMUNAL SECRETARY.

X the 20th June 1945

To the Ministry of Interior

On the days 11, 12 and 13th June 1945, the examinations for the title of Communal secretary were held at the Prefecture of Forlì.

One should see what exams! However, it is very clear that the officials of the Prefecture have no sense of consideration, nor they were able, during the recent events, to build themselves up a conscience of honesty. Their protection is much too evident for those candidates who had well bribed them and given them all sorts of goods. In the examination room, for many of these candidates, it only was a question of passing time while for others it was hard work and greatest effort, all for the best.

No control for the "protected". They could carry with them laws, ready done compositions of a Bolognese school, regulations, texts and anything good for consultation, while to the other candidates even the consultation of the text allowed by the State was denied, since the Prefecture of Forlì never bothered to put such text at the disposal of the candidates, as it should have done. But this is not all. The officials charged with the supervision during the exams, completed their "work" by reading every now and then the compositions of their "protected candidates" and hinting to whether said compositions were correct or not. During the period of the exams, many candidates requested the Prefecture to allow them to consult the texts of laws, but the three days passed without they were supplied.

And what will be the result of the examinations?

That the majority of the "clever copists" will get through, while the others who really had to do by themselves, without even being able to ask for an advice, will fail. Nevertheless it remains understood that the latter will be the best officials. It is just really bad luck.

The Ministry may carry out the necessary enquiries to check the contents of this statement. The writer has well seen everything and can say it openly.

Secretary functions.

ROME

Following to the request of AC/HQ we hereby enclose the draft of D.M. by which in the Provinces of Northern Italy, recently liberated a supplementary session of examinations, for the "Patente di Segretario Comunale", will be opened. The written examinations for the same title have already been made in the other Provinces of the Kingdom in the days 11th, 12th and 13th June 1945.

In the draft hereby enclosed, the dates of examination have not been fixed because, since the decree, according to present law, must be published in the Gazzetta Ufficiale at least 3 months before the date fixed for the exams, there cannot be held before October.

We therefore await for the attached draft, on which the date of examination shall have to be indicated, to be returned to us. Said exams, for the above reasons, cannot be held on the 12th, 13th and 14th August as proposed by the AC/HQ.

OGGETTO Esami di abilitazione alle funzioni di segretario comunale.

In relazione alla richiesta di codesto Quartiere Generale, si trasmette lo schema del decreto ministeriale col quale si indica, nella provincia del Nord, recentemente liberate, una sessione suppletiva di esami per il conferimento della patente di segretario comunale, le cui prove scritte sono state già espletate dalle altre circoscrizioni del Regno nei giorni 11, 12, e 13 giugno.

Nello schema di decreto che si unisce, non sono stati fissati i giorni in cui gli esami stessi debbono aver luogo, però, dato che il decreto che li bandisce deve, a norma delle disposizioni vigenti, essere pubblicato nella Gazzetta Ufficiale almeno tre mesi prima dei giorni stabiliti per gli esami, essi non potranno tenersi prima del prossimo mese di ottobre.

Your Excellency:

1. Reference is made to the Ministry's letter No. 17200-E (Dir. Gen. Amm. Civ.) dated 7 June.
2. It is agreed that a later date should be fixed for the holding of these examinations in the provinces of the North. It is considered that they should be so held as soon as the necessary arrangements can be made. Subject to what is said below, it might be possible to hold them on 12, 13 and 14 August.
3. The date to be fixed, however, depends upon the making and promulgation in sufficient time of the necessary legislative provision. As to this, it has been decided to request the Ministry to make a Ministerial Decree for the purpose, which the Allied Commission would cause to be made applicable in Military Government Territory in the usual way.
4. Will the Ministry, therefore, please forward for consideration by this Sub Commission a draft of such a Decree as soon as possible.
5. The Decree must, of course, contain a clause stating that in territory not yet subject to the administration of the Italian Government the Decree shall come into effect on the date when it is put into effect by Allied Military Government.

SUBJECT: Examinations for "patente" of Communal
Secretary.

16 May 1945

TO : Distribution as below.

1. The Ministry of the Interior has decreed that the examinations for the "patente" of Communal Secretary are to be held in the Prefectures of Italian Government territory on 11, 12 and 13 June. This HQ has agreed with the Italian Government that these examinations shall also be held on the same dates at Prefectures in Military Government Territory. The earning of the "patente" by examination entitles the successful candidates to apply to the Ministry to be placed on the roll of Communal Secretaries, after which they may be assigned to a Commune.
2. The general shortage of Communal Secretaries is known to HQs and RCs. It is hoped that the holding of these examinations will do something towards meeting this problem.
3. There are accordingly enclosed with this letter, and in sealed envelopes, a circular of the Ministry of the Interior addressed to the Prefects on the subject of examinations, together with examination papers. Will RCs please hand these to the Prefects, assuring themselves that the seal on the outer envelope is intact.
4. For purposes of censorship, the seals in one case--Ancona--have been broken and afterwards resealed by this Sub Commission, which has satisfied itself that there is nothing objectionable in the contents. It is suggested that RCs and RCs may assume the unobjectionable character of the contents of the other envelopes. The Italian law in the matter requires that the examination papers remain sealed until the morning of the first day of the examinations, when they are opened in the presence of the candidates.

Your Excellency:

1. I refer to Local Government Sub Commission's letter of 24 February under the reference indicated above suggesting that the examinations for the "patente" of Communal Secretary (the dates for which in Italian Government Territory are fixed by Ministerial Decree of 11th January 1945) might also be held in Military Government Territory.
2. The Ministry thereupon made the Decree of 12th March which appears at No. 41 of the Official Gazette and sent a copy of it to the Sub Commission with the letter 17200.E/1015 (Dir. Gen. Amm. Civile) dated the same day. This Decree was made without previous consultation with the Sub Commission as to its drafting; and its wording has caused considerable difficulty. As it stands, the Decree purports to legislate directly for Military Government Territory. Moreover, the quotation in the second recital of a letter from the Sub Commission makes it appear that the letter in question is an authority for the Italian Government to legislate in Military Government Territory, which is not so. In this particular instance, all misunderstanding could have been avoided if the original Decree of 11th January had not been limited to Italian Government Territory, and if before that Decree was made, the Ministry had consulted the Sub Commission as to its application in Military Government Territory.
3. The difficulties which arise from Decrees which appear to legislate directly for AMG Territory were pointed out in a letter addressed by the Chief Commissioner to Your Excellency in your capacity of President of the Council of Ministers of 9th March, to which you replied on 22nd March to the effect that the desired instructions had been given for the avoidance of these difficulties.
4. In the special circumstances of the case and in order to avoid a postponement of the date of the examinations, it has been decided not to withhold implementation of the Decree of 12th March. I feel it only fair to point out, however, that the Allied Commission will not necessarily be able to do this in any future cases of a similar kind.

- 2 -

5. As to the future, I feel sure that the close cooperation that has obtained between us in administrative matters can be extended to legislation. To that end, I would propose that:

(1) when a legislative provision is being drafted in your Ministry, consideration should be given then to the possibility of the provision having application in Military Government Territory.

(2) If in the opinion of the Italian Government it is desirable that the legislation contemplated should apply in Military Government Territory, then the legislative provision must contain the substance of the clause referred to in the Chief Commissioner's letter above-mentioned, of which I annex a copy as slightly revised.

(3) If Local Government Sub Commission has itself suggested the contemplated legislation, then the draft of it should please be sent to them before the decree is made, so that we can be satisfied that the decree does correspond to the Sub Commission's proposals.

(4) In addition, it would be opportune for the Ministry to let the Sub Commission see the drafts of proposed decrees of major importance in order that an understanding as to their application in Military Government Territory can be reached before such decrees are made and published.

6. It is evident, I think, that it is to the interest of the Italian Government themselves to adopt these proposals. We are endeavouring to ensure continuity of law and of administration between Military and Italian Government Territory, so as to prepare for the smooth passage of territory to Italian control. If you will please give instructions to the officials of your Ministry for the observance of the suggestions made in this letter, both your task and mine will, I feel sure, be appreciably simplified.

1. Your attention is drawn to the wording of DM of 12 Mar 45 appearing in G. U. No. 41 (Examinations for Communal Secretaries) indicating that this decree shall also "be operative in provinces which are or may become subject to Allied Military Government."

P. 26 on 4/13/45

2. You are referred to VP's instructions AC/4010/2/L of 1 Mar 45 by which all sub-commissions were requested to "ensure that all decrees which are intended to apply to AME Territory should contain the words set out in paragraph 4" of the said instructions.

P. 5 on 4/13/45

3. The contention that the wording of DM of 12 Mar 45 has been expressly authorized by your letter AC.4/5/2/10 of 24 Feb 45 does not alter the fact that the Italian Government has no authority to enact legislation in AME Territory and that legislation enacted by the Government remains inoperative in such territory unless expressly implemented by order of AMG.

4. Please arrange for the DM to be amended in accordance with VP's instructions above mentioned.

Your Excellency:

1. I refer to the Ministerial Decree of 11 January, published in Gazzetta Ufficiale No. 15 of 3 February, whereby the 11th, 12th and 13th of June next are fixed for the holding of examinations for the "patente" or communal secretary. This was mentioned by Major Williams to Cav. CAMERA yesterday morning.
2. It is observed that the Decree is so drafted that the examination will only be held on the 11th, 12th and 13th June next in those provinces which on that date have passed to the jurisdiction of the Italian Government. There may well be a number of provinces still under Allied Military Government at that date, and it has occurred to me that it might be well to provide that these examinations can be held in these provinces also.
3. A number of indications have reached this Sub Commission lately that there is a general shortage of trained communal secretaries in Military Government provinces. Any steps, therefore, that would help to increase the supply of such officials would be welcome. The holding of these examinations for the "patente" should be a step in this direction.
4. I suggest, therefore, that the Ministry might take the requisite steps to alter their Decree so that it can be made applicable (by the usual disposition of the Allied Commission--printed in the Gazzetta Ufficiale) to provinces under Allied Military Government. I would also suggest that consideration be given to what other steps could usefully be taken towards increasing the number of trained communal secretaries available. Any suggestions that the Ministry can make for this purpose will be promptly and favourably considered here, and every assistance possible given to carry them out.
