The general policy of promotion should I consider be left in the hands of the Italian Government for after all it is their affair and they understand the system in which it is based. At the same time I consider that they should be asked to investigate all cases of the same nature as that reported in 1-5- and give them their sympathetic consideration.

This Sub-Commission favors the principle that appointments of Italian State Officials in occupied territory be of a temporary nature only in order to avoid as far as possible any dislocation of the Italian Civil Service grades of seniority, salaries, pensions etc., as being part of the Administrative Law of Italy.

Where vacancies have been filled or promotions made, the Italian Ministry concerned is invited to produce a suitable official to fill the post, and failing that, promotion is then made only as a temporary measure without prejudice to eventual adjustment by the Italian Administration on taking back the territory.

In cases such as the one under review the Sub-Commission agrees with the procedure administered in para 3 of letter No 774 of file from Telecommunications.

- 1 Reference your 348/5/Ca. of 29 Mar 44.

The views of all Admin Sub Comms have been ascertained and the consensus of opinion (with which I concur) is that promotion of Italian officials must be left in Italian hands.

- 2 Cases in which victimisation on party grounds is alleged should be investigated at a Regional level but finding the true motives for a mans being passed over at a date long past, will not be easy; a mere allegation of victimisation is not sufficient.

- 3 Each case should be considered on its merits. Where victimisation is proved, submission of the case to the Italian Government by the appropriate Sub Commission should be of material assistance in obtaining an equitable decision.

- 4 It is agreed that a conference is desirable, in this section the following Sub Commissions are interested:

Subject: Promotion of Italian State Employees.
Reference: TS/4/7/13 : 24th March, 1944.

1. The enclosed letter and attachments are forwarded.
2. As the Telecommunications and Posts service is only one of many State agencies which are concerned, it would appear that the policy to be adopted in such cases will have to be stated by your office.
3. My own views are that, as it will not be possible at present to restore full normal promotion in areas not under Italian Government control, each case should be dealt with on its merits, and, where action appears to be justified, the case should be investigated by the appropriate officer on the staff of the Region and forwarded through the Regional Commissioner to the Sub-Commission concerned for transmission to the Italian Government for such action as it considers suitable.
4. The case in question does appear to justify such action, and, if you concur, I will have the facts checked as far as possible by the Telecommunications Officer or Region III, and will then deal with the Italian Government over the matter.

SUBJECT: Request of deputy Director
Cav. Gioffre Luigi.
Col. Poletti.

I send you the enclosed request given to me by this Deputy Director Cav. Luigi Gioffre'.

In addition I may add that he is a very good Officer who, just on months of August and September of past year, was hoping promotion to VII rank, but which the war suspended. He always assisted validly the undersigned in every difficult occasion with technical competence submitting to every sacrifice.

For those reasons I beg you to examine benevolently his request.

The Director
(E. Rossi).

TO: Lt. Colonel Charles Foletti Regional Commissioner

I, undersigned, Luigi Gioffre' first controller of telegraphs of the State, am 55 years old and I have 35 years of service. Within 4 years I shall reach the pension limit. 16 years ago I was one of the ten winners of the sole merit competition for 50 posts of second controller of group A (managing career 9 degree). I am one of the few civil officers who have obtained this rank by a competition, one of the very few who have sustained their examination on the telegraphic programme rather than the postal or bookkeeping programme.

According the law. N. 2395 of the 11th Nov. 1923 my appointment was dated 1925.

Having always refused to become a Fascist, I was transferred four times during eight years, ending in utter ruin.

I was vice-manager of the telegraph office of Naples, technical manager of the telegraph office of Turin, vice-manager and regent of telegraphic construction office of Salerno, principal manager of the telegraphic construction office of Messina during the most difficult period of the war. On my request I was transferred to Naples as vice-manager of the telegraphic constructions office of this town. I was teacher in several courses of lessons for telegraphic staff. Among my technical publications there is the sole treatise on the multiple Bausot system.

In 1932 I was obliged to request the inscription to the P.N. Fascist, but I got the advancement only after having remained 12 years in 9th degree, while some other candidates the same competition, and other 23 civil officers, without having my seniority or coming from inferior classes, without having sustained any examination and having never had managing ranks, reached quickly the 6th degree.

In the last September after having I remained 6 years in the 5th degree, the Ministry had to promote me to the 7th degree, having I reached the seniority limit. But owing to the emergency, which stopped up every communication with Rome, it was impossible to have notice of the above promotion.
