It is agreed that the indemnité grammelien disengagements résidence was never actually granted. A decision had been made to grant his indemnity but action was suspended because of the immaturity of the ~~problem~~ issue of the decree fixing new salary scales. This decree D.L. 13 March, 1945 n. 116 (J.O. n. 43, 10th April, 1945) has retrospective effect from 16 February, 1945 and was implemented in Ancône Province by G.V. 28 April 1945 n. 51. By Art. 8 of his decree the indemnité grammelien disengagements résidence was suppressed.

To C.A. Section / Applications of this nature are objectionable, regardless, and should not be encouraged. If State officials feel they have legitimate claims they should be made to the Regional Finance Office. It is no contempt with the local circumstances and capable of taking suitable action. It is to be remembered that the Indian officials in this area are particularly troublesome and seek, by agitation, to gain some preferential treatment. Such attempts to stifle decisions cause nothing but dissatisfaction and unrest in other parts. as the treatment of public employees is not dealt with on an individual basis but on a general basis.

On the points raised in the complaint, Bureau is not in area in which the indemnity for offense belated (bombardment) is legally payable although it is understood that the indemnity for bombing damage has been recently authorized by Regional Order. The payment of the 'fine' of \$1000 of 2000 lire was authorized on 14th March, and an indication of 1500 lire on new salary increases was authorized on 12th March. The Regional Finance Office was authorized similar letters from this sub. Commission.

Major R.H. Temple. Deputy Director, Local Government Sub-Commission.
Mr. Rice, interpreting.

1. Oath of Sindaci.

Dr. Catenacci said that he wanted to present the new Vice-Chief of Cabinet of the Ministry, Dr. Pino.

Dr. Catenacci then stated that he had been requested by the President of the Council of Ministers, Prof. Parri, to discuss the following matter. Although he had no special cases in mind, Parri believed that the question as to the oath to be taken by sindaci had presented itself. Parri wished that AMG would not force the issue of taking the oath of loyalty to the king as prescribed by the 1915 law but that it let the matter rest until the territory was returned to the jurisdiction of the Italian Government. Dr. Catenacci was informed by Colonel Cripps that this was precisely the attitude that had been taken in the instances where the matter had come up and that we would conform with the request retaining that position.

2. Payment of Prefectural employees, Venezia Giulia.

663

4/20
Dr. Catenacci stated that the Ministry had been visited by a group of former officials from Trieste, Pola and Gorizia. These officials stated that they represented many functionaries who had been suspended from office. These officials were receiving about 30 lire a day and were near to starvation point. Dr. Catenacci said that the Ministry would like to send a representative to a neighbouring province such as Udine to give money to these people periodically as they came to that province from the Venezia Giulia territory. He pointed out that in Pola the prefecture had been abolished and was in fact located in territory outside. He was particularly grieved about the people from Trieste on the outskirts of Pola who seemed to be abandoned. It was pointed out to Catenacci that Trieste and territory outside the comune of Pola was under the protection of Yugo-Slavia and not under AMG. Furthermore, Colonel Cripps indicated that he doubted whether the presence of a "paymaster" at Udine was a good solution to the problem. He asked for a written statement as to the matter on receipt of which he would take it up with higher authority. The implications, it was pointed out, were political and democratic. Dr. Catenacci promised to have such a statement sent.

3. Cassellario Giudiziale.

Major Temple then described briefly his visit of the day before to the

-2-

38A

the Cassellario Giudiziale Centrale at Rome and described the filing conditions there as very disorderly and could quite understand the reason for great delay in providing extracts of criminal records for purposes of excluding people from electoral lists.

4. Provincial Commissions for disfranchisement of fascists - electoral lists.

Major Temple then briefly outlined the substance of his conference with Dr. Vicenzi of the Electoral Service of the Ministry on August 25th. He pointed out that we were anxiously awaiting a statement from the government as to what they wanted to do about the appointment of provincial commissions referred to in article 8 of decree No. 159 whose function was to draw up lists of former fascists to be excluded from the electoral registers. Dr. Catenacci promised to see that this matter was disposed of immediately.

Subject : Employees of Public Institutions in the Provinces administered
by the Allied Military Government.

Numerous reports are reaching this Ministry underlining the dissatisfaction felt by employees of Public Institutions in the provinces administered by the Allied Military Government owing to the fact that the end of the year bonus and other allowances and increases in wages granted by the Italian Government have not been extended there.

In some provinces, as for instance at Ancona, such state of unrest showed itself also in public demonstrations and meetings of employees.

In order to avoid the continuance and spreading of such dissatisfaction and possible disturbances of the public order, your Sub Commission is kindly asked to take the matter up with the competent Finance Sub Commission with a view of promptly bringing back the situation to normality.

OGGETTO Dipendenti degli Enti pubblici nelle
province amministrate dal Governo Militare
Alleato.

Pervengono a questo Ministero numerose segnalazioni del malcontento dei dipendenti degli Enti pubblici nelle provincie amministrate dal Governo Militare Alleato per la mancata estensione della gratifica di fine anno e delle altre provvidenze ed aumenti di competenze disposte dal Governo Italiano.

In qualche provincia, come ad esempio ad Ancona, tale stato di disagio è stato manifestato anche pubblicamente in dimostrazioni e riunioni di impiegati.

Allo scopo di evitare il persistere ed il diffondersi di tale malumore ed eventuali turbative dell'ordine pubblico, si prega vivamente codesta Sottocommissione di voler interessare la competente Sottocommissione di Finanza per una pronta normalizzazione della situazione.

1. The Italian Government has passed the following (and other) legislation for the financial improvement of economic conditions of State and private employees:

RUL No. 18/2 of 6 Dec 43

RUL No. 23/1 of 7 Dec 43

DIL No. 303 of 2 Nov 44

DIL No. 307 of 9 Nov 44

DIL No. 328 of 18 Nov 44.

2. These decrees provide for wage increases and allowances commencing at dates other than the effective date of commencement of operation of the law and in the case of the first two decrees for payments retrospective to 1 Nov 43.

3. In the provinces of FRIULI and FRIULI, Provisional orders have already been issued bringing the above five decrees into operation, but without retroactive effect.

4. It has been decided that in the remaining provinces of Northern Italy, these five decrees will either not be implemented at all or will be implemented without the full retrospective date as stated hereafter.

5. RUL No. 18/2 of 6 Dec 43 will be implemented in the territory, but the increases and allowances granted by this decree will be retroactive only to the date of liberation of the provincial capital. The same principle applies to other financial decrees which are enumerated in para. 10 hereof.

6. The decision whether or not to implement RUL No. 23/1 of 7 Dec 43, DIL No. 303 of 2 Nov 44, DIL No. 307 of 9 Nov 44 and DIL No. 328 of 18 Nov 44, will depend upon the economic conditions found in any particular locality after liberation. In accordance with the wishes of the Italian Government, it has been decided to exclude these decrees from immediate implementation. If, however, the Provincial Commissioner of any Province considers that the economic conditions of that Province require the operation of all or any of these decrees, he may recommend to this Hq (Labor Sub-Commission) that they be brought into effect and that payments thereunder be made from any date which he considers appropriate provided such date is not earlier than the liberation of the provincial capital.

1. The Italian Government has passed the following (and other) legislation for the financial improvement of economic conditions of State and private employees:

- RDL No. 18/E of 6 Dec 43
- RDL No. 22/E of 7 Dec 43
- DLL No. 303 of 2 Nov 44
- DLL No. 307 of 3 Nov 44
- DLL No. 328 of 15 Nov 44.

2. These decrees provide for wage increases and allowances commencing at dates other than the effective date of commencement of operation of the law and in the case of the first two decrees for payments retrospective to 1 Nov 43.

3. In the provinces of FOGGIA and BAVINZA, provincial orders have already been issued bringing the above five decrees into operation, but without retroactive effect.

4. It has been decided that in the remaining provinces of Northern Italy, these five decrees will either not be implemented at all or will be implemented without the full retrospective dates as stated hereafter.

5. RDL No. 18/E of 6 Dec 43 will be implemented in the territory, but the increases and allowances granted by this decree will be retroactive only to the date of liberation of the provincial capital. The same principle applies to other financial decrees which are enumerated in para. 10 b hereof.

6. The decision whether or not to implement RDL No. 23/E of 7 Dec 43, DLL No. 303 of 2 Nov 44, DLL No. 307 of 3 Nov 44 and DLL No. 328 of 15 Nov 44, will depend upon the economic conditions found in any particular locality after liberation. In accordance with the wishes of the Italian Government, it has been decided to exclude these decrees from immediate implementation. If, however, the Provincial Commissioner of any province considers that the economic conditions of that province require the operation of all or any of these decrees, he may recommend to this HQ (Labor Sub-Commission) that they be brought into effect and that payments thereunder be made from any date which he considers appropriate provided such date is not earlier than the liberation of the provincial capital.

7. In order to give effect to these decisions it has been necessary to devise a particular form of implementation order for publication in the Gazzetta Ufficiale. The purpose of this order is to prevent the automatic operation of the full retrospective effect of the decrees which any simple implementation order would produce.

8. This implementation order involves the publication by the Provincial Commissioner of a Provincial Order notifying the effective date upon which payment shall start under RDL No. 18/E of 6 Dec 43 and under certain other decrees mentioned in para. 10 b hereof. This date will be the date of liberation of the provincial capital.

If the Provincial Commissioner requests and obtains permission to bring into operation all or some of the decrees mentioned in para. 6, he will have to

issue a further Provincial Order to this effect. The date of commencement of payments must be stated. This can be at the discretion of the Provincial Commissioner but must not be earlier than the date of liberation of the provincial capital.

9. It is pointed out that considerable difficulties are likely to be caused if an attempt is made to bring these decrees or any of them into operation in any province by means of a Special Provincial Order published before the official procedure for the implementation of Italian decrees has become operative in that province. It is strongly recommended that the implementation procedure be brought into operation in all areas at or before the time when it is desired to give effect to these decrees. If, however, it is considered essential to give effect to the decrees at a date when the general implementation procedure cannot be put into operation then application for leave to do so will be submitted to this Ho together with the proposed form of Provincial Order.

10. Attention is also drawn to certain other decrees of a financial nature which have been enacted by the Italian Government:

a. D.L. No. 13 of 25 Jan 45 provided a thirteenth month payment for employees during the year 1944. It is intended that this payment should be granted in the provinces of FORLI and RAVENNA, but that in provinces to be occupied in the future the decree will be excluded from operation. This decree is, therefore, specifically excluded in the northern areas.

b. R.D. No. 12 of 13 Jan 44
R.D. No. 103 of 23 Mar 44
R.D. No. 113 of 13 Apr 44
R.D. No. 121 of 23 Mar 44
R.D. No. 122 of 5 Apr 44
R.D. No. 131 of 9 May 44
R.D. No. 156 of 2 Jun 44
D.L. No. 276 of 20 Jul 44
D.L. No. 301 of 19 Oct 44
D.L. No. 351 of 19 Oct 44
D.L. No. 360 of 19 Oct 44
D.L. No. 386 of 2 Nov 44
Decree of 28 Sept 44
D.L. No. 400 of 1 Dec 44
D.L. No. 424 of 5 Nov 44
D.L. No. 434 of 22 Nov 44
D.L. No. 28 of 4 Jan 45.

These decrees all create or increase pay or allowances to various classes of employees of the public administration, and all provide for payments with retrospective dates. These decrees will all be implemented in AS Territory, but the payments will date from the liberation of the provincial capital.

c. D.L. No. 58 of 1 March 45 introduced an economic price in place of a political price for bread and pasta. This decree will not be implemented in RAVENNA or FORLI or in any future territory.

sentinal to give effect to the decrees at a date when the general implementation procedure cannot be put into operation then application for leave to do so will be submitted to this HQ together with the proposed form of Provincial Order.

10. Attention is also drawn to certain other decrees of a financial nature which have been enacted by the Italian Government:

a. D.L. No. 13 of 25 Jan 45 provided a thirteenth month payment for employees during the year 1944. It is intended that this payment should be granted in the provinces of FORLI and RAVENNA, but that in provinces to be occupied in the future the decree will be excluded from operation. This decree is, therefore, specifically excluded in the northern areas.

DLL No. 424 of 5 Nov 44
DLL No. 434 of 22 Nov 44
DLL No. 28 of 4 Jan 45.

These decrees all create or increase pay or allowances to various classes of employees of the public administration, and all provide for payments with retroactive dates. These decrees will all be implemented in AMG Territory, but the payments will date from the liberation of the provincial capital.

c. D.L. No. 38 of 1 March 45 introduced an economic price in place of a political price for bread and paste. This decree will not be implemented in RAVENNA or FORLI or in any future territory.

11. The Italian Government is understood to be considering further legislation for salaries, wages and allowances. It is not, however, the present intention of the Government to publish a consolidated text of all legislation so that it will be necessary to refer to all the existing decrees to calculate the total salaries and allowances payable. This will apply in AMG Territory as much as in Italian Government Territory.

12. Attached hereto are copies of:

a. The implementation order to be published in Gazzetta Ufficiale to give effect to the decisions set out above;

b. Form of Provincial Order to be issued by Provincial Commissioners at the time when the procedure for the implementation of Italian decrees is

brought into effect, which will fix the date for the commencement of payments under all the decrees above mentioned excluding RDL 23/B, DLL 303, DLL 307 and DLL 325.

2. Form of Provincial Order to be used if this Hq on the recommendation of the SGLO or Regional Commissioner authorizes the implementation of RDL No. 23/B, DLL No. 303, DLL No. 307 and/or DLL No. 325. It is framed to implement all three decrees, but can of course be modified to implement one or two only.

13. This directive cancels directive AC/4039/5/L of 2 January 1945 concerning the implementation of DLL No. 325.

In order that convenient measures should be taken and kindly asking a prompt intervention, we communicate to the Prefect of Siena has pointed out that on account of the failure of paying out the end of the year bonus there exists a remarkable dissatisfaction among the civil servants of that province whose economic conditions do not allow any delay in the collection of moneys due.

SUBJECT : Economic Situation of Officials in Ancona

30 March 1945

TO : His Excellency the Minister of Interior.

Your Excellency :

1. I refer to your letter 8347/3609 dated 16th March 1945 on the subject of the economic situation of officials in Ancona, and your telegram 6538 N 10234 GAB. re. Macerata.

2. The Finance Sub Commission state that claims of this sort should be made by the officials concerned to the Provincial Finance Officer of their Province who is conversant with the local circumstances and capable of taking suitable action. They also say that Ancona is not an area in which the *indennita' per offese belliche* is legally payable although it is understood that the *indennita' giornaliera di angustissima residenza* has been recently authorized by Regional Order.

3. The payment of the fine d'anno bonus of 2000 lire was authorized on 19th March, and an anticipation of 1500 lire on new salary increases was authorized on 23rd March, for all Provinces under A.M.G., and the Regional Finance Officers have been notified to this effect.

SUBJECT: Note of conference with VP GA Section.

DATE : 29 March 1945

1. I discussed with the VP the question of movement of personnel and related the high-lights of the interview I had with Dott. BARRUCCI on 27 March, as recorded at fo. p. 19A.
2. With regard to the proposal of BARRUCCI on doubling the financial allowances to officials in AMG Territory, the VP stated that he knew that as a matter of policy, the Finance Sub Commission will not agree to increase the allowances any further. However, if the Italian Government prepare a Decree which would authorize any increases in AMG Territory, AG would approve the measure and take steps to put it into effect.
3. On the question of messing, the VP indicated that so far as the drawing of American rations is concerned, regulations definitely prevented that. With British rations, the restriction was not so great, but there would be very much difficulty in drawing rations. The VP also stated that he thought that the Food Sub Commission would not favor the drawing of extra rations by this class of persons—namely, officials—because the straining point had been reached on the whole ration problem because of the increase of still other groups such as laborers. However, even though he was not prepared to support the drawing of extra rations, he agreed that we might discuss the matter with Col. Legg of the Food Sub Commission. From a general standpoint, the VP thought that the officials were no more entitled to extra rations in AMG Territory than they were in Italian territory. He agreed, however, that this was a practical issue which did not involve such spiritual values as loyalty, cooperation and sacrifice.
4. The VP said that there was an AMG mess for the officials in Salerno. None has been established in Rome, but Col. Demaree could give me the details about the Salerno mess. The VP wondered why it was not possible for Prefects themselves to organize messes of their own. They could collect the ration cards and, for at least certain meals, organize a general mess, charging a sufficient amount to defray expenses. A combined operation of this sort might enable them to do more with their food than individuals drawing separate rations might do.
5. In any event, the above two matters—namely, finances and messing—would not be discussed further with the Italian Government until we received their formal plan in writing. In the meantime, we might explore the situation of finances and messing with the Finance and Food Sub Commissions, respectively.
6. Incidentally, the matter of putting into effect the Decrees making increases I have entrusted to Capt. Cunningham for investigation.

NOTES ON INTERVIEW with H.A. BERRUTI and Dott. GARDIA.

Subject: Provision of Italian Officials.

INTERVIEWED BY: Major R.R. Temple, Chief Executive Officer, Local Government
Sub Commissioner and Captain R.I. Cunningham.

DATE: 27 March, 1965.

INTERVIEWER: Signore Arrigo NERI.

1. Major Temple said he was raising again the old question of delays in filling positions in Headquarters. The Local Government Sub Commissioner was continually getting complaints from National Civil Servants on this subject. He gave R.R. a list of names of the outstanding cases and asked if a case of MARRAS where a Brigadier General had been asked for on 25th October 1964 and the position had not been filled yet. Other cases such as LUNARDI and LUNARDI were also mentioned.

2. H.A. Berruti said he would examine the list carefully. He could only repeat what had been said before. A lot of delay was due to people being sick. When people were sick the Ministry could not discharge them and indeed they were on short of personnel that they didn't know what to do.

3. Major Temple said he didn't know what could be done to justify a name of disqualification into some of these officials. The National Civil Servants only looked for positions and for any reason or whether the position was not good.

4. Berruti said it was a very difficult situation. The Ministry was encouraging these officials to serve in every way possible. They were given special allowances and other considerations if they agreed.

5. Major Temple then mentioned the case of MARRAS. He had visited the P.O. of Casasco and personally pressed him to accept MARRAS as V.P.V. who was supposed to be standing by ready to move in Rome. If he had promised the P.O. that MARRAS would be sent to Casasco as soon as he (Maj. Temple) got back to Rome. The Ministry was asked for him on 24th March and so far he hadn't reported to this S/O.

6. Both Berruti and Guardia said MARRAS would report tomorrow (28th March).

7. Major Temple explained that he did not want H.A. Berruti or Dott. Guardia to think that they were being blamed in any way for these delays. It was the officials themselves who were to blame.

8. Berruti said he appreciated this.

9. Major Temple then mentioned the new plan for provision of officials (645 North). Under this plan a minimum of correspondence should be required but if officials continued to cause delays the position would become impossible when the front border and the fourth opened up. The Vice President had asked Major Temple to get this Smalling here to sign on on him the importance and urgency of the position.

645

1. Major Temple said he was raising again the old question of delays in filling positions in Desfontaines. The Local Government Sub-Commission was continually getting complaints from Desfontaines on this subject. He gave R.S. a list of some of the outstanding cases and asked the case of AUCOM where a Madagascar case had been called for on 25th February 1961 and the position had not been filled yet. Other cases such as Egypt and Italy were also mentioned.
2. R.S. Berruti said he would examine the list carefully. He could only repeat what had been said before. A lot of delay was due to people giving sick. When people went sick the Ministry could not change them and indeed they were so short of personnel that they didn't know what to do.
3. Major Temple said he didn't know what could be done to limit a number of Desfontaines from some of these officials. The National Commission only looked for results and for one reason or another the result was not good.
4. Berruti said it was a very difficult situation. The Ministry were encouraging these officials to move in every way possible. They were given special allowances and other considerations if they moved.
5. Major Temple then mentioned the case of PENTIMELLI. He had visited the P.C. of Gresseto and personally pressed him to accept Pentimelli as P.C.V. who was supposed to be starting by ready to move in June. If he had promised the P.C. that Pentimelli would be sent to Gresseto as soon as he (Maj. Temple) got back to Rome. The Ministry was asked for him on 24th March and so far he hadn't reported to this C/C.
6. Both Berruti and Cesare said Pentimelli would report tomorrow (26th March).
7. Major Temple explained that he did not want R.S. Berruti or Dott. Cesare to think that they were being blamed in any way for these delays. It was the officials themselves who were to blame.
8. Berruti said he appreciated this.
9. Major Temple then mentioned the new plan for provision of officials 645. He said, under this plan a minimum of circumstances should be required but if officials continued to come delay the position would become insupportable when the front bench and the fourth opened up. He said President had asked Major Temple to get the Desfontaines to move to improve on the situation and urgency of the position.
10. Berruti asked if the Sub-Commission had any proposals to make for improving the situation.
11. Major Temple suggested at a time limit after which nominations would be imposed on an official who failed to move.
12. Dott. Cesare replied that if they had enough officials for the posts there would be no trouble but the great shortage of officials had made it very difficult to get any action. Officials were prepared to risk being named never then go to the fourth where conditions are very hard as they can't find lodgings or food and have to leave their families behind thus adding to their heavy expenses. He suggested that the financial conditions of Italian Government officials in A.M.C. territory should be improved in order to make the job more attractive. He suggested that the names of C/C should double the present allowance given to officials in AMC territory.

Interview on : Provision of Italian Officials (Continued)

replied

13. If Major Temple said he would present my main proposition to the Ministry/ to make to the proper authorities. This high Commission was worried about a possible breakdown in administration when the North was liberated and would help in every way possible. This was the reason for asking H. F. Berretti to come along again to discuss this matter.

14. Berretti said A.M.C. should give more encouragement to officials sent to A.M.C. territories. Double their allowances and, above all, establish a base for the officials. He suggested that they should be allowed to participate in existing A.M.C. operations. Berretti referred to in some terms, he said, all personnel of the Ministry were sent by A.M.C.

15. Major Temple promised to take inquiries about it in suggestion. He realized that the chief difficulty in getting officials to move was an economic one.

16. Berretti said that if there were principles for feeding and paying officials was put in operation the Ministry of Interior could, with a clear conscience, enforce strict discipline on the officials who failed to move when ordered. It seemed they were not happy about taking to strict measures as conditions were so bad.

17. Major Temple asked H.A. to send a brief item on the financial problems and he would present it to the proper authorities. In the meantime would H. A. look over the list of outstanding cases and see if some of them could not be cleared by the end of the week.

18. Berretti agreed to this. He pointed out that all the financial improvement decreed by the Italian Government for their officials had not been enforced in A.M.C. territory. This was having very bad results as officials were naturally unwilling to move if it meant a reduction in their allowances. If A.M.C. made conditions sufficiently attractive there would be no difficulty in getting Italian professionals staffed.

19. Major Temple said that the question of the implementation in A.M.C. territory of the financial decrees mentioned had already been taken up with the Labour Ministry. They had been asked to have it done as quickly as possible and he would bring the matter up again with them. He thanked H. F. Berretti and left. Berretti for seeing along and having this discussion.

SUBJECT: Italian State Employees in AMG Territory

TO : All Regional Finance Officers and
Senior Finance Officers.

1. It has been decided that all establishment questions affecting individual members of the Italian civil service at present employed in AMG territory shall in future be dealt with by direct correspondence between the parent ministry and the dependent provincial State office. This arrangement is limited to matters having individual application only, for example, seniority in grade, promotion, increments of salary, rates of travelling and subsistence allowances, retirement and pension, marriage and birth premiums, etc.
2. In AMG territory no instructions or directions of general application affecting a section or category of officials may be issued without prior consent of the Allied Commission. Hence the grant of any general increase in pay or allowances, or of any bonus or indemnity to a group or section of employees must be approved by the Allied Commission.
3. Where salary, wage or pension changes of general application have been authorized in Italian Government territory, other than by decree, and it is considered desirable that like treatment shall be applied in AMG territory, the proper Italian ministry will furnish copies of the relative circular or instruction to the Finance Sub-Commission. If extension to AMG territory is approved the circular instructions will be sent through Allied official channels to Regional Finance Officers for delivery to the respective provincial State offices. By this arrangement Finance Officers will know that the salary or pension changes are authorized in AMG territory, and the instructions will be delivered without postal delays.
4. These arrangements do not confer on the Italian Government any authority to finance provincial State offices or to issue credit or direct payment orders in AMG territory; except as already provided for expenditures chargeable to the budgets of the Ministries of War, Marine and Air, the State Railways, the State Monopoly and to capitolo 202 in the budget of the Ministry of the Treasury.

SUBJECT: Payment of Prefects, etc.

TO : Col R. G. H. Spicer, Director, Int. S/C

FROM : Captain C. G. R. Williams, Int. S/C

1. I saw Dr. Camera yesterday and among other matters, asked him what the exact procedure was under which a Prefect (and other officials of the Prefecture) got payment of their emoluments: the point was also discussed when we afterwards went in to see Dr. Berruti.

2. The position in Italian Govt Territory is as follows:

- (i) The Prefect is appointed by Royal Decree.
- (ii) This is sent to the "Corte dei Conti" for registration. After registration, the Ragioneria Centrale of the Ministry of Interior forwards a copy to the Tesoreria Provinciale of the Province to which the Prefect has been appointed. The Tesoreria Provinciale is the local branch of the Bank of Italy in the provincial capital.
- (iii) The Tesoreria Provinciale then fills in a "nota modello" (i.e., a form), which is sent to the Economo of the Prefettura. The Economo is one of the Ragionieri of the Prefettura responsible for the salaries of the Prefectural staff. The purpose of the "nota modello" is to signify that the Provincial Treasury has been notified of the Prefect's appointment and is in a position to pay him.
- (iv) Every month, the Economo fills out another form listing the officials of the Prefettura (from the Prefect downwards) and the emoluments to which they are entitled.
- (v) This form he sends to the Tesoreria Provinciale. They examine and see that it agrees with their records; on it they pay the Prefect and the others - either by check or crediting their accounts, etc.

3. As to Military Govt Territory, Berruti and Camera agreed that a copy of the SC's (or SCAO's) Order appointing a Prefect should be sent to the Provincial Treasury as this Order takes the place of the Royal Decree.

4. I thought this would be sufficient: but they said that the SC or SCAO ought also to send an authorization to the Provincial Treasury to pay the Prefect's emolument out of the "contabilita' speciale". This is a sort of "urgent payments account" which every Prefecture has and out of which special urgent payments are made without having to wait for the proper financial authorization.

5. The point seems to be that the SC Order of appointment will not go through the "Corte dei Conti" and the Ragioneria Centrale at the Ministry, as do Royal Decrees appointing Prefects, and therefore, the Prefect's pay cannot come out of the ordinary state funds. This is quite understandable and there is, in fact, an analogy in the General Rate Fund of the Municipal Corporation in England. This is quite an elaborate procedure laid down by statute as to how

628

(15A)

- 2 -

general payments are to be made out of a general rate fund. To meet cases of special urgency, Borough Treasurers have some form of account which they could operate immediately; they account at regular intervals to the Borough Finance Committee for their spendings out of their special account; and if the spendings are approved, their special account is filled up again by means of a payment out of the general rate fund.

6. Berruti and Camera promised to set the whole thing out with their suggestions in a letter to you.

7. There was some talk about our form for appointing a Prefect and how far it was equivalent to a Royal Decree. I have no fears on this score because when I drafted the form, I had before me specimens of the forms of Royal Decrees used by the Italian Govt and based the form upon them. I promised Berruti, however, that we would send a specimen of the form; and he will write when he has received and considered it. I have written accordingly with a copy of the

form - see #14 in file

SUBJECT: Salaries of Officials in Forward Areas.

TO : Col R. G. B. Snider, Director, Interior S/C

FROM : Captain A. V. H. Lewis, Staff Officer, Interior S/C

1. The income of officials with whom this Sub-Commission are concerned is derived from the following sources:

1. Salary
2. Indemnita' di Missione
3. "Representation" allowance
4. Family allowance

2. SALARIES

The amount of salary with the increases effected by the R.D.L. of 6 December 1943 is contained in Table 1 with letter 24 February on file 1/43 (In practice the actual monthly stipend is slightly in excess of that shown to make up a round figure, e.g., Prefect, 3rd Grade receives 6250 not 6055. For all practical purposes, the figures in the table can be accepted and the Ministry confirm that no further increases have been made.)

3. INDENNITA' DI MISSIONE

In peace time, if a prefectural official had occasion to travel or go to another place in connection with his work, he received the amounts in this schedule varying with his grade (see 4A on file 4/20). On returning to his usual station, his normal salary continued to be paid. In June last the Ministry noted that this indemnita' should be made applicable to an official who was sent from his present job to take over an appointment in a forward area on account of the additional expenses and difficulties involved. This meant applying the principle of the indemnita' which was not ordinarily applicable in these circumstances, because the official concerned was taking up a permanent job and not necessarily intending to return.

It was agreed that arrangements were made whereby when officials were transferred the Ministry of Interior was to notify the Ministry of Finance, who in turn were to communicate the information to the Finance Sub-Commission. The latter were to arrange for the appropriate Intendente di Finanza to be advised accordingly. Dr. Camera was not sure if officials in question were getting the benefit of this arrangement. Proserpio and Litoria have recently received theirs. Dr. Camera suggests that the indemnita' amounts should continue until, say, the province is restored at which time it could be said that a more normal state had returned justifying the return of the official to his previous normal salary.

623

- 2 -

5. "REPRESENTATION" ALLOWANCE

It is a sum paid for entertainment and such other additional expense to which a Prefect may be put. It varies between 500 to 1,000 per month according to the size of the town.

6. FAMILY ALLOWANCE

Family allowances are as follows:

Married, with no children	.247	not monthly

" 2 children	.346	" "

Your Sub-Commission has pointed out that the salaries of all the Reg. Prefects appointed to the provinces under the control of the AMG, should, for reasons of equality, be the same for every grade of the office; and that the irregularity of paying a Governing Prefect, who has not made that his career, the salary of grade IV (Prefect 2nd class) while a Governing Prefect by career receives the wages and active service allowance for the number of years of enrolment in the P.N.F., and not corresponding to the office he actually holds, be removed.

This Ministry, having examined the question, agrees with the opinion of your Sub-Commission. We will therefore comply with this principle, paying to all the Governing Prefects without exception, within the territory controlled by the AMG, the wages, the active service allowance and in general, all the allowances pertaining to Prefects 2nd class (grade IV group A), as from 1st September inst.

Will you then kindly inform the Governing Prefects of the provinces controlled by the AMG of this decision.

SUBJECT: Officials for liberated provinces.

TO : His Excellency, Signor S. Aldisio, Minister of Interior

Your Excellency:

1. I refer to your letter of the 2nd June, No. 3470.
2. I consider it essential for satisfactory arrangements to be made which will prevent any of the officials in question from experiencing financial difficulties.
3. I entirely agree with your proposal.
4. To give effect thereto I would suggest that you let us have particulars of the scale of allowances and payments to which such officials are entitled when "on mission".
5. On receipt of these particulars (which I understand are known as "missioni") I will arrange for them to be forwarded to the AMC authorities with the necessary orders to ensure that the appropriate amounts are paid by the particular administration in AMC territory to which any official may be transferred under these emergency arrangements.
6. The enclosed schedule headed "Indennita' di Missione Giornaliera al Netto" which your Department supplied me in connection with Commissari, etc., may contain the required particulars. Will you kindly confirm. If it is applicable please state if it contains all the allowances to which officials "on mission" are entitled.
