ALLIED FORCE HEADQUARTERS

Military Government Section

July 19, 1943.

MEMORANDUM ON PREPARATION FOR POST-HUSKY OPERATIONS

A. POST-HUSKY PLANNING

1. The Commander-in-Chief has directed that preparations be made for an invasion of Southern ITALY when upon the completion of HUSKY such an operation becomes practicable. It is assumed that the occupation will include all the territory up to a line north of Rome which for convenience is taken to be the Northern boundary of the regions of LAZIO, UMBRIA and the MARCHES.

2. This would involve the establishment of an Allied Military Government of Occupied Territory-a task much greater and more exacting than that for the island of SICILY. An estimate of the situation must take account not merely of directing the provincial and local administration in the field, but also of supervising so much of the national administration as remains concentrated at ROME. It would be the duty of the Military Government to put the machinery of government into running order as promptly as possible and to make the resources and industry of the country available in the Allied effort.

3. Experience has conclusively demonstrated the need for careful preparatory work before establishing such a government. Uncertainty of purpose or bungling execution would invite invidious comparison with the Fascist State and make democratic Government appear at a disadvantage. On the other hand, a competent and effective administration would contribute greatly to the prestige of the Allies. The preparation and execution of the plan for HUSKY will prove of great value in subsequent operations.

B. BASIS AND STRUCTURE OF MILITARY GOVERNMENT

4. It is envisaged that the Military Government would operate through a Headquarters and Regional Administrations.

A scheme of 6 regions is suggested which, including SICILY, would group existing and traditional units as follows:

Region No. 1	Sicily	4,000,000 population
Region No. 2	Calabria, Lucania and Puglia	4,862,000 "
Region No. 3	Campania	3,645,000 "
Region No. 4	Abruzzi and Lazio	4,189,000 "
Region No. 5	Umbria and the Marches	1,966,000 "
Region No. 6	Sardinia	1,000,000 "

0764

2. This would involve the establishment of an Allied Military Government of Occupied Territory-a task much greater and more exacting than that for the island of SICILY. An estimate of the situation must take account not merely of directing the provincial and local administration in the field, but also of supervising so much of the national administration as remains concentrated at ROME. It would be the duty of the Military Government to put the machinery of government into running order as promptly as possible and to make the resources and industry of the country available in the Allied effort.
3. Experience has conclusively demonstrated the need for careful preparatory work before establishing such a government. Uncertainty of purpose or bungling execution would invite invidious comparison with the Fascist State and make democratic Government appear at a disadvantage. On the other hand, a competent and effective administration would contribute greatly to the prestige of the Allies. The preparation and execution of the plan for MUSKY will prove of great value in subsequent operations.

B. BASIS AND STRUCTURE OF MILITARY GOVERNMENT

4. It is envisaged that the Military Government would operate through a Headquarters and Regional Administrations.

A scheme of 6 regions is suggested which, including SICILY, would group existing and traditional units as follows:

Region No. 1	Sicily	4,000,000 population
Region No. 2	Calabria, Lucania and Puglia	4,862,000 "
Region No. 3	Compania	3,645,000 "
Region No. 4	Abruzzi and Lazio	4,189,000 "
Region No. 5	Umbria and the Marches	1,966,000 "
Region No. 6	Sardinia	1,000,000 "
TOTAL		19,662,000

5. The Headquarters staff should be of such a character and extent as to be able to operate the entire national administration. It is suggested that the necessary functions could be performed by a staff headed by a Chief Civil Affairs Officer and a Deputy Chief Civil Affairs Officer, with a Headquarters organized as shown in Section III. The chart there set out calls for a Chief of Staff and two Deputy Chiefs of Staff. Work would be allocated between the two Deputies as proved most convenient, but it is suggested that one might be responsible for contact with the Staff at Headquarters and the other for communications with personnel in the field. There would also be two Headquarters Commandants, British and American, responsible to the Chiefs of Staff. They would be charged with the administration of personnel and property for their respective services.
6. In addition to this general administration the work at Headquarters would be divided among 11 sections as follows:

SECRET

Equals British MOST SECRET

SECRET

- 2 -

Equatorial British
Financial
Public Health and Welfare
Public Safety
Agriculture
Transportation, Communication and Utilities
Economics and Supply
Labor
Education and Fine Arts
Information
Property Control

The table in Section IV indicates the functions of the several Sections, and the Ministries and Agencies of the Italian Government to which they correspond.

7. It is also proposed that there be advisors on Italian foreign and colonial affairs, whose function would be to maintain relations with the Ministry of Foreign Affairs and Ministry of Colonies during the period of occupation. While these departments will be inactive their archives and certain skeleton personnel should be kept available.

Similar provision should be made for the Ministry of War, Marine and Aeronautics, but this matter will be handled by representatives of the combat branches.

8. It is estimated that the following personnel would be required for the administration of ALMOT Headquarters:

C.C.A.O.	)	25
D.C.C.A.O.	)	70
Chief of Staff	)	40
Deputies and Administrative Staffs	)	35
Legal	)	25
Financial	)	46
Public Health and Welfare	)	25
Public Safety	)	15
Agriculture	)	10
Transportation, Communication and Utilities	)	41
Economics and Supply	)	15
Labor	)	15
Education and Fine Arts	)	10
Information	)	41
Property Control	)	15
TOTAL		417

It is contemplated that ALMOT Sicily, with some recruitment in North Africa, will provide personnel for Region II as well as Region I, and also 42 officers towards the main Headquarters.

G. REGIONAL ORGANIZATION

9. It is proposed that the administration of each region be in charge of a Regional Civil Affairs Officer with a staff including experts representing each of the 11 Staff Sections. Subject to policy directives from ALMOT Headquarters, the command would be responsible for their respective sec-

colonial affairs, whose function would be to maintain relations with the Ministry of Foreign Affairs and Ministry of Colonies during the period of occupation. While these departments will be inactive their archives and certain skeleton personnel should be kept available.

Similar provision should be made for the Ministry of War, Marine and Aeronautics, but this matter will be handled by representatives of the combat branches.

8. It is estimated that the following personnel would be required for the administration of ALGOT Headquarters:

C.C.A.O.	)	
D.C.C.A.O.	)	
Chief of Staff	)	70
Deputies and Administrative Staffs	)	
Legal		25
Financial		70
Public Health and Welfare		40
Public Safety		35
Agriculture		25
Transportation, Communication and Utilities		46
Economics and Supply		25
Labor		15
Education and Fine Arts		10
Information		41
Property Control		<u>15</u>

TOTAL 417

It is contemplated that ALGOT Sicily, with some recruitment in North Africa, will provide personnel for Region II as well as Region I, and also 42 officers towards the main Headquarters.

G. REGIONAL ORGANIZATION

9. It is proposed that the administration of each region be in charge of a Regional Civil Affairs Officer with a staff including experts representing each of the 11 Staff Sections. Subject to policy directives from ALGOT Headquarters, the experts would be responsible for their respective sections in the regional headquarters.

Difficulties of communication and transport during a military occupation make such a regional decentralization advisable.

10. The total personnel estimated to be required for the administration in the field is as follows:

Regional C.C.A.C.s and Administrative Staffs	79
Staff Section Personnel	
Legal	38
Financial	66
Public Health and Welfare	41
Public Safety	32
Agriculture	29
Transportation, Communication and Utilities	24
Economics and Supply	39
Labor	<u>15</u>

C.A.O.s	290
C.O.s	287
TOTAL	978

A chart showing the distribution of personnel as between the several regions is shown in Section VII.

D. QUALIFICATIONS FOR PERSONNEL

11. The qualifications for the specialist posts are generally apparent from the title and nature of their duties. Obviously, operating on the national level the highest qualifications must be sought. The division heads should be chosen sufficiently in advance to permit their being consulted in the selection of their subordinates.

12. The importance and responsibility of the functions of personnel on the higher level is reflected in the ranks which it is proposed to assign, which are higher than those set for Sicily. The Table of Organization is set up with the C.C.A.O. and his Deputy as Major Generals. A detailed statement of requirements is attached as Section XXIII.

The Chief of Staff, two Deputy Chiefs of Staff, the heads of five of the most important Staff Sections, and the Regional C.A.O.s would all be of the rank of Colonel or above.

A summary of proposed ranks for officers on the national and regional levels is set forth in Section VIII. The supporting schedules are as follows:

Recapitulation by Division and Ranks, National Headquarters Section IX.

Recapitulation of Personnel - National Headquarters Section X.

Recapitulation by Division and Ranks, in the several Regions

Section XI to XV.

Combined Personnel, National and Regional Headquarters, Section XVI.

E. PLANNING STAFF

13. The preparation of a scheme of military government with the assembling of the requisite personnel calls for particular attention to timing. A planning staff of men in key positions should first be brought together. Experience shows that in some sections, such as the Legal, Financial, and Supply, the preliminary work is much heavier than in others, such as Property Control. It is helpful to have both British and American officers present in the earlier phases in order to reconcile any divergencies in views before too many papers have been drafted. Many of the procedures will have been tested in HUSKY, but the magnitude of the operations now projected leaves novel and important questions to be studied.

14. The first priority for the staff should be:

1. The first priority for the staff should be:

heads should be chosen sufficiently in advance to permit their names to be consulted in the selection of their subordinates.

12. The importance and responsibility of the functions of personnel on the higher level is reflected in the ranks which it is proposed to assign, which are higher than those set for Sicily. The Table of Organization is set up with the C.C.A.O. and his Deputy as Major Generals. A detailed statement of requirements is attached as Section XIII.

The Chief of Staff, two Deputy Chiefs of Staff, the heads of five of the most important Staff Sections, and the Regional C.A.O.s would all be of the rank of Colonel or above.

A summary of proposed ranks for officers on the national and regional levels is set forth in Section VIII. The supporting schedules are as follows:

Recapitulation by Division and Ranks, National Headquarters Section IX.

Recapitulation of Personnel - National Headquarters Section X.

Recapitulation by Division and Ranks, in the several Regions

Section XI to XV.

Combined Personnel, National and Regional Headquarters, Section XVI.

E. PLANNING STAFF

13. The preparation of a scheme of military government with the assembling of the requisite personnel calls for particular attention to timing. A planning staff of men in key positions should first be brought together. Experience shows that in some sections, such as the Legal, Financial, and Supply, the preliminary work is much heavier than in others, such as Property Control. It is helpful to have both British and American officers present in the earlier phases in order to reconcile any divergencies in views before too many papers have been drafted. Many of the procedures will have been tested in HUSKY, but the magnitude of the operations now projected leaves novel and important questions to be studied.

14. The first priority for the staff planning includes:

(1) 2 Senior officers, 1 American and 1 British, for planning.

It is proposed that of these the Chief of Staff should be one. They should have experience in military government or a significant grasp of the matter to lay out the framework of the basic plan.

(2) Legal Officer.

He should familiarize himself with the legal papers for Sicily and should be equipped to do both drafting and general advisory work.

(3) Financial Officers.

At least four financial officers should be assigned to the early phases, whose respective responsibilities would be:

- (i) general supervision
- (ii) accounting and arrangements with combat units
- (iii) currency and financial policy, and
- (iv) systems

from the title and nature of their duties. Obviously, operating on the national level the highest qualifications must be sought. The division heads should be chosen sufficiently in advance to permit their being consulted in the selection of their subordinates.

12. The importance and responsibility of the functions of personnel on the higher level is reflected in the ranks which it is proposed to assign, which are higher than those set for Sicily. The Table of Organization is set up with the C.C.A.O. and his Deputy as Major Generals. A detailed statement of requirements is attached as Section XXIII.

The Chief of Staff, two Deputy Chiefs of Staff, the heads of five of the most important Staff Sections, and the Regional C.A.O.s would all be of the rank of Colonel or above.

A summary of proposed ranks for officers on the national and regional levels is set forth in Section VIII. The supporting schedules are as follows:

Recapitulation by Division and Ranks, National Headquarters Section IX.

Recapitulation of Personnel - National Headquarters Section X.
Recapitulation by Division and Ranks, in the several Regions Section XI to XV.

Combined Personnel, National and Regional Headquarters, Section XVI.

E. PLANNING STAFF

13. The preparation of a scheme of military government with the assembling of the requisite personnel calls for particular attention to timing. (4) Economics and Supply

This officer should have a wide experience of supply problems. He should be supported by two other officers with knowledge of industry and supply. An approximate estimate of the food requirements of the area is set out in Section XVII and XVIII, but the subject will require further detailed study. The important requirements for medical stores is estimated in Section XIX, and for coal in Section XX.

(5) Public Safety

This officer should combine practical police experience with imagination and the ability to plan.

(6) Public Health

Preferably a high official from Government service, with administrative as distinguished from medical qualifications. He should be assisted by a qualified doctor.

(7) Administration and Supply for AIGOT.

Experienced Army officers are required, two from each Army. They should be attached early in the planning for the work on the TO/WE and Table of Basic Allowances, and for making the necessary arrangements for personnel and transportation.

F. ADAPTABILITY TO POSSIBLE EVENTUALITIES

15. A scheme for military government, like all plans, should be capable of modification to meet the situation as it presents itself. This points to the need for recruiting personnel of high capacity and elastic mind. A change in circumstances might require a sudden shift in the type of control imposed upon the hostile nation.

In particular, the contingency should be borne in mind that the resistance of the Italian people may snap and some revolutionary change take place. It may be approached by some Governmental Authority suing for peace and giving promise of its ability to direct the political and economic life of Italy along acceptable lines. In such case it might be advantageous to come to terms with the new Government and instead of imposing an AIGOT upon Italy to establish a Commission of Control to supervise the administration. From the personnel thus trained for AIGOT suitable officers would be available in connection with such a Commission.

G. IMPLEMENTATION

16. Following the approval of the Combined Chiefs of Staff the necessary steps are now being taken to proceed with planning on the above lines, and

this officer should combine practical police experience with imagination and the ability to plan.

(6) Public Health

Preferably a high official from Government service, with administrative as distinguished from medical qualifications. He should be assisted by a qualified doctor.

(7) Administration and Supply for AMGOT.

Experienced Army officers are required, two from each Army. They should be attached early in the planning for the work on the TO/IE and Table of Basic Allowances, and for making the necessary arrangements for personnel and transportation.

F. ADAPTABILITY TO POSSIBLE EVENTUALITIES

15. A scheme for military government, like all plans, should be capable of modification to meet the situation as it presents itself. This points to the need for recruiting personnel of high capacity and elastic mind. A change in circumstances might require a sudden shift in the type of control imposed upon the hostile nation.

In particular, the contingency should be borne in mind that the resistance of the Italian people may snap and some revolutionary change take place. We may be approached by some Governmental Authority suing for peace and giving promise of its ability to direct the political and economic life of Italy along acceptable lines. In such case it might be advantageous to come to terms with the new Government and instead of imposing an AMGOT upon Italy to establish a Commission of Control to supervise the administration. From the personnel thus trained for AMGOT suitable officers would be available in connection with such a Commission.

G. IMPLEMENTATION

16. Following the approval of the Combined Chiefs of Staff the necessary steps are now being taken to proceed with planning on the above lines, and necessary steps to obtain the personnel are being taken. A detailed plan as in the case of Sicily will be completed as soon as possible.

CIVILIAN REQUIREMENTS

SECTION XVII

I INTRODUCTION.

The estimation of civilian requirements is limited to the following general items: (a) Foodstuffs, (b) Medical Supplies, (c) Clothing, (d) Soap, (e) Matches, (f) Coal, (g) Petroleum products. Calculations are based on arbitrary assumptions and designed solely to arrive at rough total amounts for procurement and stockpiling. Regional planning staffs, in conjunction with the other Task Force Staffs, will determine the need of particular areas in detail and phase the requirements in accordance with tactical plans. Items of supply desired by the Regional Planning staffs, other than those included herein, will be requisitioned only after coordination with the Military Government Section, A.F.H.Q.

II Assumptions and Bases of Calculation of Civilian Requirements.

A. Foodstuffs.

(1) General. Estimates were derived by calculation of the number of persons in the entire area requiring a complete ration. The estimates are divided into two three month periods, beginning with D day. The general assumption is made that Regions 2, 3, 4, and 5 will be completely occupied 45 days after D day and, for purposes of calculating the population in occupied territory during the first three months period, that the population is evenly distributed and that the rate of progress will be completely uniform throughout the operation. For this purpose a basic supplemental ration of flour (16 oz), dehydrated soup (2 oz)

ning staffs, in conjunction with the other Task Force Staffs, will determine the need of particular areas in detail and phase the requirements in accordance with tactical plans. Items of supply desired by the Regional Planning staffs, other than those included herein, will be requisitioned only after coordination with the Military Government Section, A.F.H.Q.

II Assumptions and Bases of Calculation of Civilian Requirements.

A. Foodstuffs.

(1) General. Estimates were derived by calculation of the number of persons in the entire area requiring a complete ration. The estimates are divided into two three month periods, beginning with D day. The general assumption is made that Regions 2, 3, 4, and 5 will be completely occupied 45 days after D day and, for purposes of calculating the population in occupied territory during the first three months period, that the population is evenly distributed and that the rate of progress will be completely uniform throughout the operation. For this purpose a basic supplemental ration of flour (16 oz), dehydrated soup (2 oz) dried vegetables (2 oz) and cheese ($\frac{1}{2}$ oz) was used. This ration is not proposed as a daily issue, since the ~~280~~ ²⁸⁰ be usually sold under the rationing system and may be spread over much more than the calculated percentage of the population. Sugar and milk are included as supplement to the basic ration.

(2) Basic Supplemental Ration. It is estimated that the basic ration foods will be required for approximately 15 per cent of the population during the first three months of the operation.

SECRET

Equals British MOST SECRET

This estimate was reduced to 10 per cent for the second three month period. No account was taken of the difference in needs as between urban and rural areas, since this can best be done by the Regional planning staffs in relation to definite tactical plans.

- (3) Sugar and Milk. Sufficient sugar is included to provide one half of the regular monthly allowance of 500 grms per person. It is not expected that sugar will be imported during the first ninety days of occupancy. Milk was calculated to provide a ration of 2 oz for 10 per cent of the population, primarily small children and nursing or pregnant mothers.

B. Medical Supplies. Computed in terms of special units for civilian aid during military occupancy prepared in the Surgeon General's Office. These units are (1) CAD Basic Medical (2) CAD Obstetrical Bag (3) CAD Supplemental Tropical (4) CAD Supplemental Biological (5) Quartermaster Sanitary Supplies (6) Engineer Corps Sanitary Supplies. One unit of each type is required for population of 100,000 for one month. The Surgeon General's Office also estimates that the medical supply requirement for at least 5/13 of the population of occupied territory will have to be imported. These general conclusions are accepted, but with the following modifications to reduce amounts wherever practicable.

- (1) 5/18 instead of 5/13 used as proportion of population in accordance with decision for HUSKY due to similarity of post of the area to HORRIFIED.

person. It is not expected that sugar will be imported during the first ninety days of occupancy. Milk was calculated to provide a ration of 2 oz for 10 per cent of the population, primarily small children and nursing or pregnant mothers.

B. Medical Supplies. Computed in terms of special units for civilian aid during military occupancy prepared in the Surgeon General's Office. These units are (1) CAD Basic Medical (2) CAD Obstetrical Bag (3) CAD Supplemental Tropical (4) CAD Supplemental Biological (5) Quartermaster Sanitary Supplies (6) Engineer Corps Sanitary Supplies. One unit of each type is required for population of 100,000 for one month. The Surgeon General's Office also estimates that the medical supply requirement for at least 5/13 of the population of occupied territory will have to be imported. These general conclusions are accepted, but with the following modifications to reduce amounts wherever practicable.

- (1) 5/18 instead of 5/13 used as proportion of population in accordance with decision for HUSKY due to similarity of most of the area to HORRIFIED.
- (2) Only 2/3 of the estimated number of CAD Obstetrical Bags is included for the first three month period because the supply of such items is not likely to be 36000 short as general medical supplies.
- (3) Only 2/3 of estimated number of CAD Supplemental Tropical units and 1/3 of Engineer Corps Sanitary Supplies included since neither period is in the malarial season.

SECRET

Equals British MOST SECRET

SECRET

Equals British MOST SECRET

(4) Only one Supplemental Biological Unit is included because of short supply situation and necessity for refrigeration. This unit to be held in North Africa for emergency.

C. Clothing. Estimated that 5 per cent of population will require clothing due to destruction of homes and other refugee conditions. Clothing to be of general types on basis of four pounds per person. Detailed estimates of types and quantities will be prepared on the basis of circumstances found to exist upon occupancy.

D. Matches and Soap. An emergency supply of safety matches (household size) is provided on the basis of one box per each ten persons during the initial period of occupation. Sufficient soap is included to provide an allowance of 2 oz per person per month for the entire population.

E. Coal. Based on continuance in operation at or near the normal peace time level of the following users: (1) Steam Railways (2) Gas Works (3) Electric Plants (4) Cement Plants (5) Food Industries. Addition allowances are made for domestic consumption and the operation of other industries at a reduced level.

F. Petroleum. Fuel and lubricants are calculated on an ascending scale during three periods of sixty days each. Petroleum products are provided for the operation of (1) less than 5 percent of passenger cars (2) 40 percent of trucks (3) one-third of the buses (4) 10 percent of motor-cycles (5) 50 percent of agricultural tractors (6) lubricants for 400,000 horse drawn vehicles (7) greatly reduced industrial activity but with account taken of desirability of the production

Detailed estimates of types and quantities will be prepared on the basis of circumstances found to exist upon occupancy.

D. Matches and Soap. An emergency supply of safety matches (household size) is provided on the basis of one box per each ten persons during the initial period of occupation. Sufficient soap is included to provide an allowance of 2 oz per person per month for the entire population.

E. Coal. Based on continuance in operation at or near the normal peace time level of the following users: (1) Steam Railways (2) Gas Works (3) Electric Plants (4) Cement Plants (5) Food Industries. Addition allowances are made for domestic consumption and the operation of other industries at a reduced level.

F. Petroleum. Fuel and lubricants are calculated on an ascending scale during three periods of sixty days each. Petroleum products are provided for the operation of (1) less than 5 percent of passenger cars (2) 40 percent of trucks (3) one-third of the buses (4) 10 percent of motor-cycles (5) 50 percent of agricultural tractors (6) lubricants for 400,000 horse drawn vehicles (7) greatly reduced industrial activity but with account taken of desirability of the production of exportable goods needed by the Allies (8) One-half gallon kerosene per month for total of 1,000,000 households for general home use (9) gradual increase in rail traffic from no operation during first ^{260 days} 260 days to 50 per cent of normal during third period of 60 days (10) 80 percent of all public utilities (11) only slightly reduced operation of harbours craft and port facilities.

SHIPPING LIMITATIONS.

Although the amounts set out below have been submitted to the U.S. and U.K. as the minimum requirements, the following monthly schedule has been imposed as a maximum for calling forward these supplies. The reductions are based on a 25 percent cut in all items except coal, which is reduced to 50 percent for the 1st three months period and to 40 percent for the 2nd period. The greater reduction for the 2nd period is based on the expectations of an advance northward, which will necessitate a spread of available shipping.

SECTION XVII

NATIONAL HEADQUARTERS STAFF QUALIFICATIONS

JCOAO - American - Major General - This officer will require the highest qualification as an administrator and have had wide experience in government, the Army, or other public service.

Chief of Staff - American -
Brigadier General

An officer with extensive experience and large executive capacity. The wider his background the more able he will be to deal with the diversity of subjects he will meet.

Deputy Chief of Staff - American -
Brigadier General

An officer with a wide background in administration, either public or otherwise. In capacities and experience he should supplement the Chief of Staff.

Deputy Chief of Staff - Interior
British - Brigadier

Same as American Deputy Chief of Staff except that administration will not require so much technical knowledge and therefore a wider field could be covered. He should be a man used to controlling large staffs.

Administrative Staff - Lt. Colonel
British

A first class staff officer, thoroughly trained, with flexible mind. He will head up the military bureau in the planning stage.

Administrative Staff - Major -
British - (1)

As above. His duties will include the drafting of orders and their issuance. Civilian experience an advantage.

Administrative Captain - American

Personal assistant to Chief of Staff. Preferably a man selected by the latter.

Administrative Staff - Captain
American

A man of slight military or civilian background, C.S. a lawyer will be suitable.

Legal Division - Headquarters
Staff - Chief Legal Officer

A lawyer with high professional standing, judicial mind, and a capacity for dealing with public affairs. Administration and international experience would be an added advantage. He will encounter problems far beyond the range of a lawyer's general practice.

Deputy Chief Legal Officer -
Colonel - British

A distinguished barrister who has had either political or administrative experience would be suitable.

Chief Counsel - (1) - American

The prime requisite is a wide knowledge of problems that's general principles of law, and particularly international law, are to be applied to the various problems of military operations. It

Financial Division.

Chief of Finance Officer
British Brigadier

An officer with a wide background in administration, either public or otherwise. In capacities and experience he should supplement the Chief of Staff.

Some no American Deputy Chief of Staff except that administration will not require so much technical knowledge and therefore a wider field could be envisaged. He should be a man used to controlling large staffs.

A first class staff officer, thoroughly trained, with flexible mind. He will meet up the military bureau in the planning stage.

As above. His division will include the drafting of orders and their issuance. Civilian experience an advantage.

Personal assistant to Chief of Staff. Preferably a man selected by the latter.

A man of either military or civilian background, a.s., a lawyer will be suitable.

A lawyer with high professional attainments, judicial mind, and a capacity for dealing with public affairs. Administration and international experience would be an added advantage. He will encounter problems far beyond the range of a lawyer's general practice.

A distinguished barrister who has had either political or administrative experience would be suitable.

The prime requisite is a wide knowledge on problems where several principles of law, and particularly international law, are to be applied to the many problems of military occupation. In appropriate cases he will have to apply the international law, civil or penal. He must be an accurate draftsman of state papers. It is not a good equivalent in foreign languages, although the better.

A lawyer with discriminating judgement and excellent legal education, familiar with public law, whose functions would be to render opinions.

2598

Should be a senior officer from the Treasury- alternatively of the standing of a chairman or deputy chairman of one of the big five banks.

SECTION XIII

Deputy Chief Financial Officer
Colonel - American

A man with executive experience either in public finance or in banking. It is important that the CFO or his Deputy should have had Treasury experience.

Chief of Accounting Section -
Colonel - British

Should either be a senior official from the Assistant General's Department or, alternatively, a partner in a large firm of accountants with government experience.

Chief of Revenue Section -
Colonel - American

A man with senior experience in a revenue system, either Federal or State.

Controller of Financial Institutions -
Colonel - American

Should be in command of a large bank with international relations.

Staff Captain - British (1)

Preferably should be selected by above.

Public Health.

Director - British

Preferably a high official from the Ministry of Health with administrative as well as technical qualifications.

Public Health Section - Major
American

Should be qualified either to be specialized in Public Health, or in the U.S. Public Health Service or in corporate employment.

Public Safety Division

Commissioner - Brigadier General
American

Preferably the head of a state city police force who has shown outstanding success in order activities in U.S.A.

Superintendent - Civil Police
American - (1)

A man with practical police experience and the ability rapidly to absorb and investigate a force as conditions are required. He will be able to do the experience of force.

Staff Captain - British

Should be from the metropolitan or a leading police force and should have acted as personal assistant to a commander of the police.

Agriculture Director - Colonel
American

This position may need to be added as it the right man is to be obtained. It is of the greatest importance to get a man who has been responsible for large scale agriculture planning in the past, and who has the capability of mind to deal with Mediterranean countries.

Colonel - American	Should be an executive of a large bank with international relations.	Preferably should be selected by above.
Controller of Financial Institutions - American - Colonel		
Staff Captain - British (1)		
Public Health.		
Director - British	Preferable a high official from the Ministry of Health with administrative rather than medical qualifications.	
Public Health Section - Major American	Should be qualified doctor who has experience in Public Health, either in the U.S. or in the Health Service or in comparable employment.	
Public Safety Division		
Commissioner - Brigadier General American	Preferably the head of a great city police force who has shown outstanding success as chief executive in U.S.A.	
Superintendent - Civil Police American - (1)	A man with practical police experience and the ability rapidly to absorb or to organize a force as conditions may require. He will need to have the experience of a chief.	
Staff Captain - British	Should be from the metropolitan or a leading police force and should have acted as personal assistant to a commander of the police.	
Agriculture Director - Colonel American	This position may be as to be avoided up if the right man is to be obtained. It is of the greatest importance to get a man who has been responsible for large scale agriculture planning in the past, and who has the flexibility of mind to deal with Mediterranean Countries.	
Staff Captain to above.	Should have administrative experience in agriculture and an agricultural background.	2597
Director of Transportation, etc. British - Brigadier- (1)	Preferably a general manager of one of the railways or a prominent official in the Ministry of Transport.	
Chief, Railroad Section (1) Colonel - British	An important executive of a big railway with administrative experience, U.S. or Southern Railway.	
Staff Captain	To above might be proposed by Chief.	
Chief Utilities Section - (1) Colonel - British	Should be managing director of utilities with wide network. Preferably background in industrial utilities, rather than in gas or water.

SECTION XIII

Division of Economics - Director
of Economics - Colonel + (1)
American

Should have experience in coordinating a production
board or similar government organization would
be suitable.

Requirements - Major - American

Should have experience of commerce. Must be
organizer and have ability to estimate needs and
prepare schedules.

Chief, Industry And Resources (1)
British

Should have industrial experience preferably
either in chemical or non-ferrous metal world.
Administration experience essential.

Labor - Colonel - British- (1)

Should have administrative labor experience and
suitable standing preferably from Ministry of Labor.

Chief, Man-Power or Personnel Manager
Division Staff - Lt. Colonel American.

Experience with labor desirable or could be
staff director of railway company or other
large concern.

Education - Colonel - American (1)

A man with experience in education, such as univer-
sity president or as a school administrator. Mil-
itary government, it should be borne in mind, is a
transitory matter; it is not desired that this
conception be seized to superimpose Italy an educa-
tional system peculiar to either of the neighboring
countries. The system must deal not only with
primary and secondary education, but with the
universities and with fine arts as well. A repre-
sentative of the best in American education should
therefore be selected.

Property Controller - Colonel
British

A converted accountant or commercial lawyer with
wide experience.

Deputy Controller Allied and Enemy
Property - Lt. Colonel - British

Qualifications generally similar to those for
Property Controller.

Information Director - American
Colonel - (1)

A man experienced in journalism, broadcasting or
other medium of publication.

Intelligence - Staff Chief -
British Major

Must be competent to prepare plans in advance,
might have FBI or foreign office background.

Chief - Press Section - Staff
American - Lt. Colonel (1)

Requires international knowledge of press handling.
Would be drawn from government.

Headquarters Military Administration

Personnel Officer (1) American

Must have experience of G-1 and "M" work.

2552

Laber - Colonel - British- (1)

Should have administrative labor experience and suitable standing preferably from Ministry of Labor.

Chief, Man-Power or Personnel Manager
Division Staff - Lt. Colonel American.

Experience with labor desirable or could be staff director of railway company or other large concern.

Education - Colonel - American (1)

A man with experience in education, such as university president or as a school administrator. Military government, if should be borne in mind, is a transitory matter; it is not desired that this occasion be seized to import upon Italy an educational system peculiar to either of the conquering countries. The nation must deal not only with primary and secondary education, but with the university and with fine arts as well. A representative of the best in American education should therefore be selected.

Property Controller - Colonel
British

A chartered accountant or commercial lawyer with wide experience.

Deputy Controller Allied and Enemy
Property - Lt. Colonel - British

Qualifications generally similar to those for Property Controller.

Information Director - American
Colonel - (1)

A man experienced in journalism, broadcasting or other medium of publication.

Intelligence - Staff Chief -
British Major

Must be competent to prepare plans in advance, might have FBI or foreign office background.

Chief - Press Section - Staff
American - Lt. Colonel (1)

Requires international knowledge of press handling. Would be drawn from government.

Headquarters Military Administration

Personnel Officer (1) American
(1) British

Must have experience of G-1 and "M" work. Precise rank unimportant.

2566

REGIONAL HEADQUARTERS.

LOGAO - Brigadier General -
American or Brigadier -
British

This to be man used to command, but must not be a disciplinarian only. Successful divisional commander who has over age might be considered. Otherwise a man who has made a position for himself by public service and administration rather than politics. In England the same military background would apply. In civilian life an ex-Colonial Governor or good chairman of County Council might be qualified. Knowledge of Italy and of the Italian language is an advantage, but not essential.

- 4 -

Deputy to DCCAO - Colonel

A man who has had wide administrative experience
background in government organization. He should
be very active and hard working, know how to deal
with personnel problems and how to coordinate
complicated offices. A really first class staff
officer might fill this position.

Major -

A military staff officer with "M" or office back-
ground who should act as Military Secretary to the
DCCAO.

Captains -

Need not be professional soldiers but some military
or staff experience an advantage. General back-
ground of business or profession with the former
probably the best suited.

Major -

Captains -

complicated offices. A really first class staff office might fill this position.

A military staff officer with "A" or office background who should act as Military Secretary to the DCSA.

Need not be professional soldiers but some military or staff experience an advantage. General background of business or profession with the former probably the best suited.
