CENTRAL REFERENCE LIBRARY
ALLIED CONTROL COMMISSION

(Information Division)

1 April 1944

FOREWORD

A Library Reading Room is at the disposal of all military and Civilian officials of the Allied Control Commission for study or perusal of documents, reports, intelligence material, and publications of general information. The Reading Room is also available to accredited representatives of other Allied agencies.

It is hoped to obtain a collection of the best recent books in English on Italy and adjacent regions and on post-war settlement by British and American publishers.

Supplements to the catalogue will be issued periodically.

The numbers in **boldface type**, which are the library accession numbers, are used as the **call numbers**. The prefix **CR** or **UD** (which should be used with the call numbers) indicates Classified Registry or **Unregistered Document**.

In addition to the material listed in this catalogue, the Central Reference Library holds:

1. The **Enciclopedia Italiana** (Treccani), 37 volumes.
2. The **Gazzetta Ufficiale**, from 1939 onwards, with its important supplements including the **Bollettino Mensile di Statistica** and the **Bollettino dei Prezzi**.
3. Much information and reading material on Italy gathered locally.

INTER OFFICE MEMO TO: Lt. Col. R. G. B. SPICER

SUBJECT: Available books and treatises on local government in Salerno.

1. Attached hereto are two lists showing the books and treatises available in Salerno. I spoke to Capt C. D. Matthews, in charge of the library in the Palace of Justice, and consulted Dr. Andrea Sinno, Director of the Provincial Library, on this matter.

2. Library List "A", contained bibliography of books in the library in the Palace of Justice (Room 6, Main Floor). I have checked off the title of works which seem to pertain to local government, for our purposes. Capt Matthews informs me that additional material comes in periodically.

3. Library List "B" contains books available at the Biblioteca Provinciale di Salerno. This library is in a state of repair at the present time, and much of the material is scattered all over the place. Oddly enough, there is no subject index of the material - only an index by author's name. I spent some time with Dr. Sinno and managed to prepare the attached list "B". There are other treatises and law reviews in the library, but it is impossible to indicate whether any of them are of any value to us.
