No 3 Diatrict Routine Order, No 205, Serial No 14 dated 1 July 44, is republished for information.

There have been a great many cases recently of interuption to long distance telephone, and telegraph communications due to telegraph poles being knocked down by vehicles.

Long distance communications can only be provided in the first instance by means of copper wire built on pole routes of either heavy or light construction.

The knocking down of one pole usually causes several bays to collaspse, and not only is considerable expenditure of time, and labour necessary to restore the route, but further delay is caused by the electrical realignment of the carrier equipment which provides the long distance telephonic facilities.

771. PARCEL POST-FRUIT.

G.R.O. 548, Serial No 24, dated 16 June 44 is republished for information.

1. A large proportion of the fruit in parcels despatched by troops in this Command arrives in the U.K. unfit for consumption, and has to be destroyed. Apart from the waste of senders money, and the disappointment suffered by the persons to whom the parcels are addressed, the rotted fruit causes serious damage to other postal packets, and mail bags.
2. The principle causes of damage, and decay are:-
   (a) Inadequate, and unsuitable packing. Experience shows that the thin wooden boxes frequently used for packing are totally inadequate.
   (B) The dispatch of soft fruit, particularly oranges, and lemons in a ripe condition. Fruit parcels are liable to take several weeksin transit to U.K. and fruit should therefor be despatched green.
3. In order to reduce wastage to a minimum, the ARMY Postal Service will NOT in future accept parcels addressed to the U.K. and Eire, containing fruit, unless the following conditions are complied with:-
   (a) Fresh Figs, Peaches, Plums, Cherries and other perishable fruits must not be enclosed.
   (b) Oranges, and lemons must be packed in a green or unripe condition.
   (c) No other fruit commodity, material or article will be enclosed.
   (d) The fruit should be packed in stout wicker baskets. If wooden boxes are used, they should be of stout manufacture with small holes in the sides for ventilation,
   (e) Each fruit should be wrapped in tissue or soft paper, and baskets or boxes lined with soft packing material, such as straw or wood shaving
   (f) Particulars of the contents, and the value must be shewn on the outside of each parcel. A slip should be enclosed showing the name and address of the sender, and the person to whom the parcel is being sent. Letters will not be enclosed.
   (g) The label should be boldly marked "FRUIT ONLY".
4. If, due to non-compliance with the above instructions, fruit parcels continue to damage other postal packets in transit, it may be necessary to prohibit the sending of fruit parcels by post to U.K.

No 3 District Routine Order, No 193 Serial No 13 dated 20 June 44 is republished for the information of all concerned.

1. It has been found that officers when censoring letters have sometimes added comments of their own.

2. Officers who censor letters are forbidden to add any comments, with or without the consent of the writer. Commanding Officers will draw the attention of all officers to G.R.O. 99/44 Part IV para 24 reproduced below:-

Any matter contravening censorship regulations must be made completely illegib or the letter returned to the writer for re-writing.
The most effective method is excision by scissors or razor blade, but in the case of Airgraphs and Air Letters, or where excision is likely to destroy harmless matter on the other side of the page, the unit censors may obliterate by overwriting with close coils in ink, or indelible pencil.
Unit censors will bear in mind that ineffective deletion defeats its own end by directing particular attention to the censorable matter. No comments of any description will be written on letters by Unit Officers".

625. RELATIONS WITH ITALIANS.

94 Sub Area Order No.307 Serial No.21 dated 26 May 44, is republished for the information of all concerned.

1. A considerable number of cases have occurred where troops of the Allied Forces have come into conflict with the Italian Carabinieri. In several instances the Carabinieri have used their arms, with fatal results.

2. It should be very clearly understood by all ranks that cases of this nature will be judged strictly upon their merits. The Carabinieri have important responsibilities. If Allied soldiers molest them, or interfere with them in the course of their duties, they should not expect any different treatment from that which they would receive if they gave similar trouble to Military Police of the Allied Forces.

3. On the whole the Italian Carabinieri have behaved well and constitute an important factor in the maintenance of order among the civilian population. So long as they carry out their responsibilities in a correct manner, the Commander-in-Chief wishes them to be given support, and he directs that suitable punishment should be meted out to any ill-disciplined soldiers who misbehave towards them.

G.R.O. 302/44 is republished for information and strict compliance;-

1. When two or more other ranks are walking out and pass an officer or officers,all the other ranks will salute as laid down in King's Regulations, 1940,para.955 (a),and the Manual of Elementary Drill (All Arms),1935,Section 74.

2. A salute made to two or more officers in a street or other public place out of doors will be returned by all officers saluted. In camps, unit lines,clubs or on parade,the salute will be returned by the senior officer only.

3. When two or more British officers meet an Allied officer or officers,all British officers will either salute or acknowledge the salute of the Allied officers,as the case may be. The rank of the British or Allied officers is immaterial.

The badges of rank of Allied Military Forces should be studied by all ranks.

4 All ranks will salute officers of higher rank in cars which display authorised flags or stars. The latter distinguishing signs, which are uncovered when the officer is travelling,consist of red metal plates with one or more stars according to rank displayed on the front and rear of car.

5. Saluting dates from the time of armour,the salute representing the motion of a knight raising the visor of his helmet with the open hand to the front showing that,though raised,it contained no missile.

The practice of combining (eyes right) or (eyes left) with the salute originated from the olden days,when it was the privilege of men-at-arms to look their superior in the face,while others must pass with downcast eyes.

The salute is,therefore,a recognition of comradeship and mutual trust between men-at-arms; it is,at the same time,an acknowledgment of discipline and has become a visible indication of common allegiance which all ranks owe to the Crown and its service.

The standard of saluting is,therefore an indication of the esprit-de-corps of units and formations. History,and the experience of the present war,have proved that high esprit-de-corps and good discipline increase the military efficiency of units and formations.

The recognition of comradeship and mutual trust inherent in the salute must be mutual and not onesided,e.g.both parties must look each other in the eyes,and officers receiving the salute must return it in a smart, soldierly and orthodox manner. The slovenly return of a salute cannot but breed slovenliness. The officer will therefore,return the salute in a proper manner and will invariably look the giver in the eyes.

178. ANTI-FLY MEASURES

1. With the advent of the warmer weather in March and April fly-breeding will take place on an ever increasing scale. The Italian is quite as capable of spreading disease as his North African and Middle Eastern counterparts. It is therefore certain, that, unless vigorous action is taken both now and right through the summer months, serious losses of manpower due to Diarrhoea and Dysentery will occur in the Allied Forces.

2. The spread of infection is from the faeces of infected persons to the food of healthy persons.

3. This is the cycle which must be broken and the various steps which must be taken to break it are outlined below. These steps may be conveniently divided into four groups.

(i) Preventing Flies Breeding.

Flies breed in dirt, in refuse, manure and any scrap of rotting food. While we cannot prevent fly-breeding in ITALY we can ensure that none takes place in Military Camps. All refuse will therefore be stored in fly-proof swill bins till it can be burned, and camps will be kept scrupulously clean.

(ii) Preventing Flies From Becoming Infected.

Latrines must be properly constructed and maintained in good order. Indiscriminate defaecation both among military and civilain personnel should be firmly dealt with.

(iii) Preventing Flies From Passing Infection.

This is probably the most important of all steps to be taken. It can be summed up as 'Keep All Food Covered at all Times'. Fly-proof food stores and preparation rooms must be made or improvised. Cooks, mess orderlies and troops themselves must get into the habit of covering food. It must be realised by all, that if the fly cannot get at the food then Dysentery will not be spread.

(iv) Killing as many Flies as Possible.

This can be done most profitably by:-

(a) Swatting - Fly-swats are issued up to 10% of the strength. These swats should be in continuous use.

(b) Trapping - There are various types of traps of which the most useful are the Bruton bos traps and fly-papers. Model trpps are being constructed by 1 Fd Hyg Sec and Units will manufacture their own traps using these models as a guide.

(c) Flitting - The regular use of Flysol or its equivalent in cookhouses and Dining Rooms will keep the number of flies

(c) Flitting - The regular use of Flysol or its equivalent in cookhouses and Dining Rooms will keep the number of flies in these places down to a minimum.

'Fly-killing' to be effective must be organised, and organised fly-killing is extremely effective indeed.

4. Each Unit should appoint an Anti-Fly Officer who will have charge of the whole anti-fly activities of the Unit. Unit Anti-Malaria Squads can assist considerably in this respect. The fight against the fly however, is not a one man job. Unless every officer, N.C.O. and man in each unit makes the matter his own personal duty, then the anti-fly campaign is bound to be a failure.

5. The D.A.D.H. H.Q., 94 Sub Area and Fd Hygiene Section personnel are always available to give advice and help wherever necessary.

Application forms will be obtained from the office at the rear of the Information Desk.

98. OFFICERS' FIELD ADVANCES.

(1) Recovery of Field Advances to Officers has in the past been made from subsequent issues of pay by Officer i/c Army Pay Office (Officers Accounts) Manchester, or by the Army Agents. (b) Applications will be made periodically to Officers' banks for repayment of subsequent advances.

(3) Should banks be unable to meet claims under paragraph 2 above because of insufficient funds or any other reason, recovery will be made from future issues of pay at source. In such cases it may be necessary to issue orders for an Officer's cash drawings to be restricted until the outstanding charges have been cleared.

3. PAY - DEBTOR BALANCES.

General Routine Order No.59, dated 28 Jan 44, is republished for information.

1. The Army Council have drawn attention to the fact that accounts of personnel serving overseas reveal an increasing number of abnormally large debtor balances. In a number of cases individual debts exceed 100 Pounds.

2. It would appear that certain Officers serving overseas whose duty it is to make payments to soldiers show little or no regard for their personal responsibilities in regulating the amounts paid out to individuals.

3. The attention of every Officer will be drawn to his responsibility. In the absence of official knowledge of the state of the soldier's account, an Officer has no authority to make a payment in excess of the net rate of pay shown in AB 64 Part 11. If he does so he may be called upon to make good from his own pay, any resulting loss to the public.

4. The Council desire to make it clear to all Officers that write-off a debt on a soldier's account does NOT preclude subsequent consideration of whether the Officer or Officers responsible for the over payments should make good the loss of public funds.

5. It is pointed out to the recipients of excessive cash issues that the rates of pay shown in AB 64 Part 11 are for the guidance of the soldier as well as the paying officer. A soldier who falls heavily into debt through accepting cash payments, which on the evidence of his pay book are clearly excessive must not expect relief shchlas is given to soldiers who fall into debt through causes beyond their control.

155. INSURANCE. (Uniform, Equipment & Personal Effects - Officers)

(1) Necessity For Insurance.

All Officers are warned of the advisability of insuring their uniform, equipment and personal effects against ordinary risks of civil life (e.g. fire, theft, loss in transit and ordinary warding and air risks) Even in operational areas, these risks, unless attributable to enemy action, can be covered by such insurance.

The necessity for effecting such insurance arises from the fact that compensation from army funds is only payable in cases where the risk cannot be covered by insurance.

The regulations governing compensation are "Allowance Regulations, 1938, Section 15" which may be seen at the Office of the O.C. British Detachment.

(2) Loss of Money.

Compensation for loss of money is not admissable from Army Funds.

(3) War Risks by Sea or Air.

Compensation for loss of uniform, equipment and certain other effects detailed in A.C.I. 1422 of 1941 (which may be seen at the Office of the O.C. British Detachment), by war risks, when they are being conveyed by sea or air at Government expense, is payable from Army Funds under the conditions laid down in that A.C.I. Such compensation is not payable in respect of consumable stores and articles of luxury, which should be covered by insurance. No insurance is, however, necessary in respect of the articles covered by the A.C.I.

(4) Loss by Enemy Action in the United Kingdom.

Free cover for loss of, or damage to personal effects by enemy action in the United Kingdom is provided, within certain limits, by the War Damage Act. Cover beyond these limits must be obtained by insurance under the Act. Full particulars of the provisions of the Act (including the limits of free cover) are contained in A.C.I. 1422 of 1941 (see para 3) to which reference should be made. Advances of compensation under the Act for loss of, or damage to necessary military uniform and equipment, are made from Army Funds under the conditions laid down in that A.C.I.

315. MALARIA

The following extract from No. 1 District Routine Orders is published for information:-

"It is of the utmost importance that all Troops should realise that the adult female Mosquitoes hibernate during the Winter and should be on their guard against them. In October when the first heavy rains begin and the temperature falls they will fly as far as two or three miles from their breeding places and infest houses before settling down for the winter. October is the peak month for Malignant Malaria. As there is no such thing as mosquito-proofed buildings, every officer and man must ensure that his Mosquito Net is fool-proof and also that anti-mosquito spraying is regularly carried out, especially in Messes and Recreation Huts."

316. CLIMATE (CHILLS)

The following extract from No. 1 District Routine Orders is published for information:-

"During the month of November the temperature mounts by day and falls by night. The chief danger period of each day is just after sun-down when there is a sharp drop in temperature. Clothing is primarily intended for the protection of the body against cold. The K.D. shirt alone is not enough to ward off a chill with its resulting intestinal upset and period in Hospital. As soon as the sun goes down All Ranks must put on their jersey pullover. There is a good percentage of wool in the jersey pullover, and as it contains air spaces, it keeps the body surrounded with air of an even temperature and chilling is thus avoided.

317. CIVILIAN PAY

1. Reference Daily Routine Order No. 294 dated 12 Nov 43, times and place for the payment of civilian employees are as follows:-

The attention of the Medical Officer is drawn to General Routine Order No 566 dated 29 Oct 43, which can be seen at the Camp Office.

306. WAR SERVICE GRANTS.

General Routine Order No 567 dated 29 Oct 43 is re-published for information:-

(1) Reference A.C.I. 238/41. It is notified for information that remittances and voluntary allotments are not taken into account in assessing War Service Grants, and therefore do not affect any grant in issue to a soldier's dependant.

(2) An increase in a soldier's rate of pay may, however, result in the reduction of the amount of a War Service Grant. If a soldier, as a result of an increase of pay, makes a remittance, or makes or increases a voluntary allotment, to his dependent, he should understand that any reduction which may be made in the amount of a War Service Grant in issue is due only to the increase in his rate of pay, and is in no way connected with the making of the remittance or voluntary allotment.

307. OFFICERS' FIELD ALLOWANCE.

General Routine Order No 568 dated 29 Oct 43 is re-published for information:-

(1) Recovery of Field Advances to Officers has in the past been made from subsequent issues of pay by Officer i/c Army Pay Office (Officers' Accounts), Manchester, or by the Army Agents. In cases where outstanding advances exceeded entitlement to pay, recovery was made through Officers' banking accounts in certain cases.

(2) This arrangement has not in practice proved satisfactory, and long delays have occurred in debting Officers' accounts.

From an early date the following system will operate:-

(a) Application will be made to Officers' banks for repayment of all outstanding advances.

(b) Application will be made periodically to Officers' banks for repayment of subsequent advances.

No application will be made during the month in which the advance is drawn.

(3) Should banks be unable to meet claims under paragraph 2 above because of insufficient funds or any other reason, recovery will be made from future issues of pay at source. In such cases it may be necessary to issue orders for an Officers' cash drawing to be restricted until the outstanding charges have been cleared.

Particular care must be taken by Officers who operate a joint account with their wife or other person at home, to ensure that their account is sufficiently in credit to meet any field advances drawn by them.
