970. IMPORTATION OF DOGS INTO GREAT BRITAIN.

GRO No.464, dated 28 June 46, is published below for information and guidance of all concerned.

Applications were invited in GRO 1327/45 for licences to import dogs into Great Britain under the provision of SI 1148/45 (a summary of which appeared as No.166 in the series "Notice Board Information").

Owing to the limited quarantine accommodation in UK, applications have been far in excess of the number of licences allotted to CMF by the War Office, who are unable to increase the quota at the present time. In fact 153 licences have been so allotted against over 900 applications.

CONTINUED ON SHEET 2.

Declassified E.O. 12356 Section 3.3/NND No. 785021

For this reason no further applications should be submitted, and applications received after 1 Aug will be returned.

On 1 Aug a priority list for the allocation of licences is being established based upon length of ownership, and this list will remain firm. Outstanding applicants will be informed of their position on the list by DD V and RS BEA.

Applicants who are low on the priority list

(a) Should bear in mind the large number of outstanding applications as compared with the small number of licences allotted eg, thirty eight licences were allocated to CMF for the period 1 Apr 46 to 1 Jul 46.

(b) May make application for licences to the Ministry of Agriculture and Fisheries, WHITEHALL, LONDON, S.W.1. In this connection they should note that:-

(i) No military assistance can be given for the despatch of the dog.
(ii) Dogs are not permitted to travel over BERLOC or on AD transport.
(iii) Civil quarantine charges in UK range, according to the size of the dog, from 16 to 25 shillings weekly for a period of six months.

In fairness to others, applicants whose dogs are no longer available or who decide to withdraw their applications in the military scheme, should notify DD V and RS, Headquarters, British Troops AUSTRIA, CMF, at the earliest opportunity.

941. V.D. DISCIPLINE.

Daily Routine Order No.592, dated 25 Apr 46, is repeated below for information and strict compliance of all concerned.

(a) Concealment.

In accordance with King's Regulations,1940, para 555, a soldier who is suffering from V.D. must report himself sick without delay.

Concealment of the disease delays treatment and causes a loss of man-power to the Army.

Concealment is a serious crime and will henceforth be dealt with by COURT MARTIAL in all cases, charges being preferred under Section 11 of the Army Act.

(b) Financial Penalties.

Owing to the prevalence of V.D. in this theatre it is of the utmost importance that all ranks should be acquainted with the possible financial consequences of contracting the disease due to their own fault.

(i) Hospital Charges. - A soldier admitted to a hospital on account of V.D. or its effects due to his own fault is required to pay hospital charges of 10d a day after the first 30 days of treatment in hospital (vide ACI 1348/44).

(ii) Loss of pay (Non-Treatment). - Where a soldier is suffering from V.D. or its effects due to his own fault and is unable to carry out his normal duties he will be reclassified as laid down in para 16 (b) Army Order 14/43. This means in effect that he loses what was formerly known as "War Time & Special Proficiency Pay". In addition he is not entitled to the initial grant of any increase of pay for length of service in accordance with para 8 of Army Order 14/43. Full particulars are given in GRO 617/43.

Loss of Paid Acting Rank. - Paid acting rank is relinquished from the date of leaving the unit on account of sickness. Soldiers who revert to Private or equivalent rank suffering from V.D. as above are not appointed Lance Corporal or Lance-Bombardier on such relinquishment as in other cases. GRO 707/43 refers.

(c) Preventives.

Condoms are now available at any time, free of charge, from the British M.I. Room, Headquarters Building.

(d) Prophylactic Certificates.

In accordance with RAC letter ref 26AI, dated 25 Sep 44, all ranks who expose themselves to infection by V.D. are compelled to apply preventive measures and to obtain and retain a PROPHYLACTIC certificate to the effect that such measures have been carried out.

Any man who contracts V.D. and is unable to produce such a certificate will be dealt with for disobeying this order.

(e) Bounds.

In accordance with RAC General Order No.3, dated 22 Jun 44, all houses of prostitution within Rome Area Command are hereby placed OUT OF BOUNDS.

934. RESPONSIBILITY FOR TURNED IN AND KEPT EQUIPMENT.

GRO No.417, dated 14 June 46, is withdrawn hereafter.

AGI 786/44 is re-issued for information and compliance.

A number of cases have occurred in which many of public and regimental funds has been stolen because the cash box, cupboard or drawer in which it was placed has been kept in a room which remained unoccupied for considerable periods, especially at night.

CONTINUED ON SHEET 2.

2802

Declassified E.O. 12356 Section 3.3/NND No. 785021

Officers who hold public and regimental funds are responsible for the safeguarding of money of these funds, and the fact that a safe is not provided does not in any way relieve officers of this responsibility. Balances of cash should never be retained unless unavoidable. If it is essential that some cash should be held, the amount should be as small as possible. Where a cash balance is held and no safe is available, it must be kept in a properly secured box, which in turn must be handed to the custody of a guard every time there is a possibility of it being left unattended, particularly at night. To have a soldier sleeping in an office safeguard, since the occupant may occasionally leave the office untenanted.

Failure to take adequate steps to safeguard public and regimental money renders the officer responsible for its safe custody liable to make good any loss occasioned by his negligence.

935. EXAMINATION - ARMY FIRST CLASS AND SPECIAL CERTIFICATES OF EDUCATION.

GRO No.447, dated 21 Jun 46, is repeated below.

Examinations for the Army First Class Certificate of Education and the Army Special Certificate of Education will be held in October 1946, for the benefit of regular soldiers who have partly qualified for either of these certificates. Any candidate who has already passed in one or more subjects of the Army First Class Certificate of Education may enter for either or both of these examinations.

915. RAAU - "AT YOUR SERVICE".

The following is published in conjunction with RAAC Weekly Administrative Bulletin s/n 14, item 103, dated 18 Jun 46.

A number of letters from individual soldiers making complaints in connection with alleged military injustices and wrongs are being received by the "At Your Service" department of the "Union Jack".

"At Your Service" exists to answer genuine enquiries for information, and any letters of complaint with regard to military matters will be ignored.

The intention is to discourage individuals airing personal grievances on ordinary military matters, such as those relating to pay or discipline.

It is not possible to lay down any "hard and fast" line of demarcation, but it is evident from letters being received by "At Your Service" column that an increasing number ask questions of a nature which should be answered by COs.

Any OR of this HQ wishing to make a complaint, will ask for an interview with the O.C. through the R.S.M., at any time.

All men desirous of employment will be required to complete a Pre-War Form in triplicate as given at Appendix "A" to CRO 400/46, which will be forwarded direct to Para. 2. The War Office, when the question of their suitability for release will be considered in conjunction with the Ministry of Fuel and Power. No release will be effected unless express War Office instructions are received.

The following men are not eligible for release under this scheme:-

(a) Regular Soldiers with a Colour Service liability.
(b) Persons of Signals, R Signals, or Armament Artificers REME.
(c) Those undergoing training at an OCTU or pre-OCTU with a view to being commissioned.
(d) Aliens enlisted outside UK.
(e) Those of Medical Category OTHER THAN A1, A2, or A3.
(f) Those with less than 12 month's service at the time of application.

All released will remain liable to recall (under War Office instructions only) until the end of the emergency should the military situation so demand or on the recommendation of the Ministry of Labour for non-compliance with directions given by that Ministry should they leave the work for which they were released before the time they would have been released in the ordinary way in Class B/1. After that date, provided that not less than six months have elapsed since the actual date of release, liability to recall on account of leaving employment will cease and men will be subject only to such control as may apply to other civilians in any particular form of employment.

852. ACCOMMODATION - TRANSIT PERSONNEL - NAPLES.

For the information of ORs of this HQ. proceeding to Naples on duty or leave, it is notified that the Naples Liaison Group has no ORs' Mess of its own neither is there any spare bedding or beds in the ORs' billets at Naples.

Arrangements have been made for the Courier driver from this HQ. to be fed at HQ. No.5 Ports Operating Group, Villa Maria, Posillipo, where ORs of Naples Liaison Group are rationed.

Therefore if any OR of this HQ. other than the Courier driver, proceeds to Naples on duty, he must first draw sufficient rations from the Detachment Ration Store to last him for the period he expects to stay in Naples, otherwise he will be accomodated at No.3 Transit Camp on production of proper Travel Orders.

853. V.D. DISCIPLINE.

The following extract of GRO No.783/45, is published for information.

The penicillin treatment of Venereal Disease produces in many cases such successful results that the impression has been created, and is now widespread, that these diseases are no longer of a serious nature. A review of the results of penicillin treatment shows that even with this drug, treatment must be undertaken at the earliest possible moment if cure is to be obtained.

In particular is this true of syphilis, a disease with a high incidence and widespread among the civilian populations of Italy and Greece. Unless treatment is undertaken immediately symptons appear, relapse of the disease in an infectious form may occur within a few months. The late complications of syphilis when treatment is delayed are as serious as ever.

It is therefore strongly emphasized upon all troops that the successful treatment of Venereal Disease still depends upon early diagnosis and that they must report sick as soon as the first signs of the disease arise.

All ORs desirous of drawing pay on the forthcoming Pay Parade, will hand in their A.B.64 Part II to the Orderly Room by 1800 hrs., Monday: 27 May 46. The amount required will be entered in the pay book (IN PENCIL) by the individual, entries will NOT be in ink.

Unless an OR has been "Out of Station" NO pay books will be accepted after the time stated above.

To facilitate conversion of payments in lire to sterling for charge to soldiers' accounts, all ORs will state the amount required in multiples of 45 lire, i.e. 900, 945, 990 etc.

(b) Casual Payments.

The practice of ORs drawing casual payments, except for an absolutely essential reason, will cease forthwith.

In consequence, the only Pay Days will be the recognized fortnightly periods.

ORs are reminded that it is in their own interests to draw sufficient money in accordance with what their account can stand, on the fortnightly Pay Parades, to cover their holidays and other liabilities until the following Pay Day.

757. FOOD ECONOMY.

The following extract of RAMC Routine Order No.116, dated 9 May 46, is published for information, guidance and compliance of all.

In spite of considerable publicity it is thought that the genuine gravity of the world food situation is not sufficiently realized by all ranks. The Prime Minister has directed that stringent precautions must be taken to prevent any form of food wastage, and the Army Council has instructed that renewed efforts must be made to improve the economy measures already applicable in this theatre.

CONTINUED ON SHEET 2.

Declassified E.O. 12356 Section 3.3/NND No. 785021

2776

All ranks will have seen that, except through Black Market channels, civilian populations are existing on the barest minimum of food and this situation is likely to become worse. Large areas are liable to be reduced to near famine conditions and the results may cause not only widespread disease and starvation but may also entail the spreading of disease to British populations; this is quite apart from the serious political factors involved among all countries.

The UK is privileged in having the support of the British Empire for its food supplies. In spite of this, rations in the UK have lately been further reduced.

The Army is particularly priviliged in having its food supply guaranteed in very adequate ration scale and in addition is given latitude to provide meals in Clubs and Canteens. Any abuse of this privilege, in failing to prevent waste or to exercise every economy, can therefore only be regarded as a breach of trust which will reflect adversely on the civilian rations at home and the availability of food to meet the minimum requirements of other countries in order to prevent famine and disease.

It may not appear to the individual that an isolated instance of waste or extravagance can affect the overall situation but the cumulative effect of individual actions can have far-reaching results. Every member of His Majesty's Army must realise that he has a duty to effect every possible economy and negligence will be treated as a very serious offence.

758. POTENTIAL APTC INSTRUCTORS' COURSES.

The following extract of GHQ No.345, dated 17 May 46, is published for information.

Vacancies exist for Serjeant Instructors in the Army Physical Training Corps.

APTC personnel are posted or attached to units, where they are responsible for assisting COs in the organization and supervision of PT and games. Candidates must possess good power of leadership and a high standard of military conduct. Previous experience in physical training is not essential, but good games players often prove to be of the right type.

Candidates must have the following qualifications:-

(a) Be of Medical category A1,

(b) Be of Age/Service Group 52 or later. Personnel of Age/Service Groups earlier than 52 must, in the event of passing the course, be willing to defer their release for at least one year.

With effect from 1 Jun 46, qualifying courses for candidates from this theatre are to be held at the Army School of Physical Training, ALDERSHOT. There will, however, be a preliminary test at the PT and Sports Centre, UDINE, from which all unsuccessful candidates will be returned to their units.

On conclusion of the course at ALDERSHOT, all candidates will be returned to this theatre. Successful candidates will be transferred to APTC on arrival and any unsuccessful candidates returned to their units.

Anyone requiring further information, report to the Orderly Room (Room 9).

748. OVERSEA SETTLEMENT IN AUSTRALIA.

An Agreement has been made between the United Kingdom Government and the Commonwealth of Australia concerning settlement in Australia. Under this Agreement suitable British men and women who have served in the Armed Forces during the period of the recent war or men who have served in the Merchant Navy in that period, and their dependants, who wish to settle in Australia and whom the Australian Government are willing to receive, will be granted free passages to Australia.

Anyone sufficiently interested and requiring further information, may report to the Orderly Room (Room 9) where they will be allowed to read a pamphlet issued by the Ministry of Labour and National Service, which describes in detail particulars of this scheme.

749. INFECTIVE HEPATITIS (JAUNDICE).

The following is published in conjunction with RAAF Routine Order No.108, dated 9 May 46, for information and guidance.

There has recently been a noticeable increase in this disease which may be the forerunner of a serious epidemic. The cause of the disease is as yet unknown but it is thought to be a virus infection which is spread by nose and throat "droplets", for instance, on drinking cups, glasses and so forth, and possibly through the agency of flies.

Overcrowding in billets, poor ventilation during sleeping hours, chill, physical strain and any conditions liable to lower resistence are predisposing factors.

The following preventive measures will be complied with:-

(a) Glasses, in all messes, canteens, etc. will, after each time of use, be dipped and well rinsed in a strong solution of Water Sterilizing Powder (one teaspoonful of WSP to a bucket of water), and thereafter washed in drinking water. The WSP solution will be replaced with fresh solution every hour of use.

(b) All mugs and cups, and other food utensils, will be washed and sterilized by the three-container method.

(c) Cookhouses and food services, generally will be kept up to the highest hygienic standard at all times.

(d) A vigorous campaign will be waged against flies.

(e) Personnel will be dispersed as widely as possible in sleeping quarters (a MINIMUM of 30 sq ft per man will be aimed at), and full precautions taken against droplet infections.

Personnel will, wherever possible, use their own drinking utensils.

750. CERTIFICATES RECORDING AWARDS OF MENTIONS-IN- DESPATCHES.

The following is an extract of GRO 1269/45.

Officers who have not received their certificates, should write to the Under-Secretary of State, War Office (MS3), stating the address to which they wish their certificates to be sent, and if possible, the date of the London Gazette in which the announcement appeared.

Other ranks who have been awarded Mentions-in-Despatches and have since been released, should apply to their Record Offices.

" The British Government has appealed for the support given to the National Savings Movement during the war to be continued in the future, so that the greatest possible aid may be given to the economic rehabilitation of our country during the period of reconstruction which faces us.

Post war savings are urgently needed for this great task. Moreover these savings are a sound investment for the soldier. They are an insurance against financial difficulties which may arise after his return to civil life.

The Savings Bank Scheme.

There are two methods by which a soldier can deposit money in the Post Office Savings Bank:-

(b) by remitting a specific sum at any time by means of a remittance form.

Under this scheme National Savings Certificates may be purchased outright by one o the following methods:-

(a) Purchase through Pay Accounts.

(b) Purchase through Units.

727. PREVENTION OF FOOD-BORNE AND WATER-BORNE DISEASES.

The following is published in conjunction with GRO No.315, dated 3 May 46, for information, guidance and compliance of all.

Dysentery, typhoid fever, food-poisoning, and allied diarrhoeal diseases, as well as various kinds of worm infestations, have caused a considerable toll of sickness among troops in the past, and are likely to cause a serious drain on the already depleted manpower in this theatre unless adequate precautions are taken.

The above diseases form a group of which the methods of spread are essentially the same in each disease-namely, by the consumption of food and drink which has been contaminated by the hands or the excretions of infected persons and carriers either directly, or through the agency of flies.

The following preventive measures will be observed at all times, particularly during the coming months.

(a) Fly destruction.

Fly destruction by spraying, swatting and trapping will be energetically carried out.

(b) Eating utensils.

There will be proper facilities for washing and sterilising all eating utensils, not only in cookhouses but in all messes, clubs, bars and canteens. Three suitable containers, such as galvanized iron cans or tin boilers, will be provided and placed in line.

CONTINUED ON SHEET 2.

1520

Declassified E.O. 12356 Section 3.3/NND No. 785021

The first two will contain hot soapy water and soda if available. The third will contain plain water which must be kept continuous boiling during the entire period of use. Alternatively, the first container will contain the hot soapy water, preferably boiling, the second will contain cold water with a teaspoon of WSP in every two gallons of water, while the third will contain clean water to rinse away the WSP solution. The utensils will be washed and sterilised by dipping them into each container in turn after use. Cups glasses and plates will then be stacked upside down to prevent settling of dust and flies.

(c) Food poisoning.

Cases of food poisoning have occurred due to the consumption of food from "blown" tins.

All tins will be carefully examined before being opened and in any cases of doubt they will not be issued until the opinion of a medical or hygiene officer has been obtained.

Blown tins are those of which the ends are convex, bulged or domed, instead of being concave or drawn in.

(d) Fruit and vegetables.

The following methods of treatments of all uncooked vegetables and fruit (other than thick skinned fruit, eg. oranges) will be adopted:-

Except in the case of Regular Personnel, British officers and other ranks, of British Service or of Colonial Forces administered by the War Office (including Dominion nationals and Dual British and foreign nationals) commissioned or enlisted in the UK or abroad who are normally residents outside the UK or EIRE and who have completed three years and two months service (including any service with the British Naval or Air Forces) outside their country or normal residence, are eligible for:—

(b) those who have deferred their release under Release Regulations, para 326, will continue to be eligible for DOMCOL, provided the requisite length of service remains to be served. They will not be eligible for release until the end of the period of deferment, except as in sub-para (c) below;

(c) where the date of qualification for DOMCOL is so near to the end of the period of deferment that it would be uneconomical to grant DOMCOL leave, individuals will be given the option of serving to the end of the period of deferment or of being repatriated and released, the decision as to whether or not repatriation and release should be approved, resting with GHQ CMF;

(d) para 1 (a) (ii) and para 2 (a) and (c) above will be subject to the conditions that the individual is eligible for repatriation under existing rules and is returning to his country of ordinary domicile outside the UK, CHANNEL ISLANDS, ISLE of MAN or EIRE;

(e) regular personnel will be eligible for DOMCOL leave provided the date of qualification for DOMCOL is not so near to the date of completion of Colour Service or of becoming eligible for release, whichever is later, as to make it uneconomical to grant such leave.

3. Non-Regular personnel who have been granted DOMCOL leave and have returned to duty, unless they have deferred their release, will be eligible for repatriation and release with Class "A" benefits under Release Regulations, para 327, if they so desire.

4. Non-Regular personnel now on DOMCOL leave will be eligible for immediate release if they so desire on application by the individual to the War Office (DEMOB I) through the British Army staff in the country concerned or British Military Attache in countries where there is no British Army Staff.

(b) Where applications for repatriation have already been submitted, details as required in para 5 (a) (i) and (ii) above will be forwarded immediately to AI, GHQ CMF.

6. Leave destination is limited to places within areas controlled by British or Dominion authorities. The previous sanction of the authority concerned will be obtained by GHQ before despatch.

Leave to the UK for personnel not normally resident there is not permitted.

7. Leave to foreign countries will not be considered unless the individual has a very strong claim.

8. From date of re-embarkation the individual will be deemed to commence a fresh tour of service abroad limited to a maximum period of two years. Personnel whose Age/Service Release Groups are called forward for release during this two years period will be released with their Age/Service Release Groups.

9. (a) Leave vacancies will not be filled nor promotion granted unless considered essential by local Divisional or equivalent commanders under their delegated powers. The sole authority for postings and promotions of officers in X (I) List units will remain as heretofore, GHQ CMF, in accordance with GRO 303/45.

(b) Where authority is obtained to fill a vacancy by promotion the following provisions will take effect:—

(ii) Temporary rank will be retained by officers throughout the period of absence from unit or appointment notwithstanding the fact that the appropriate rank may be granted to the substitute.

(c) Where authority to fill the vacancy is NOT obtained, the officer or soldier who performs the duties of the officer or soldier on leave will have no claim to be promoted to the rank appropriate to the duties performed. The officer or soldier on leave will retain any temporary and paid acting rank or lance appointment throughout the whole period of leave absence from their units.

(d) (i) Authority to fill a vacancy will be obtained before the officer or soldier proceeds on leave.

(ii) If for any very exceptional reason the necessity to fill a vacancy should arise after the officer or soldier has left his unit or appointment and authority is granted, this fact will be reported by signal in the case of officers direct to GHQ CMF copy to GHQ 2nd Echelon, and in the case of other ranks direct to GHQ 2nd Echelon.

(e) Although his original period of leave may be extended, any officer or soldier remaining due to return overseas under leave conditions will retain acting rank. If it is decided that an officer or soldier will NOT return overseas, his acting rank will be relinquished on the date on which it is decided he will not return to this theatre. Units will be notified the date of relinquishment by GHQ 2nd Echelon by means of Part II Orders reporting SOS to Home Establishment.

(f) Officers and other ranks for whom substitutes have been found will on return be re-absorbed into their former vacancies wef date of rejoining their unit or formation in this theatre.

10. Officers and other ranks in receipt of African and Colonial Forces rates of pay proceeding on DOMCOL will remain on these rates until after expiry of the travelling and leave period and will then revert to Pay Warrant rates, unless immediately absorbed into their previous or similar appointments.

315. Prevention of Food-borne and Water-borne Diseases

1. Dysentery, typhoid fever, food-poisoning, and allied diarrhoeal diseases, as well as various kinds of worm infestations, have caused a considerable toll

1554

Declassified E.O. 12356 Section 3.3/NND No. 785021

of sickness among troops in the past, and are likely to cause a serious drain on the already depleted manpower in this theatre unless adequate precautions are taken.

2. The above diseases form a group of which the methods of spread are essentially the same in each disease—namely, by the consumption of food and drink which has been contaminated by the hands or the excretions of infected persons and carriers, either directly, or through the agency of flies.

3. OsC units will ensure that the following preventive measures are carried out at all times, particularly during the coming months. The co-operation of all ranks will be obtained by means of talks by regimental officers and by Medical personnel when available. Relevant local and unit orders will be published.

(a) Fly control measures as described in GRO 289/46, will be strictly enforced. The importance of these measures in the prevention of diarrhoeal diseases is emphasized.

(b) Cookhouses

All personnel to be employed in the handling of food will be first examined and if accepted will be certified fit in accordance with ACI 1415/44 and Regulations for the Employment of Civilian labour (ITALY, SICILY & SARDINIA) 1945, para 15. Potential carriers will be dealt with in accordance with para 5 of ACI 1415/44. Cookhouse personnel who have been off duty through illness will not be returned to duty until again certified as having attained the necessary standard of health. In this connection attention is also directed to GRO 357/45. AF B113, "Sanitary Rules for Cookhouses", will be posted in a prominent position in all cookhouses, as also will a nominal roll of all personnel employed therein. The nominal roll will give:—

(i) Dates of last individual examination of personnel. This examination will be repeated at intervals of not more than one month.

(ii) Dates of last vaccination and TAB inoculation.

(c) Utensils

There will be proper facilities for washing and sterilising all eating utensils, not only in cookhouses but in all messes, clubs, bars and canteens. Three suitable containers, such as galvanized iron cans or tin boilers, will be provided and placed in line.

The first two will contain hot soapy water and soda if available. The third will contain plain water which must be kept continuously boiling during the entire period of use. Alternatively, the first container will contain the hot soapy water, preferably boiling, the second will contain cold water with a teaspoon of WSP in every two gallons of water, while the third will contain clean water to rinse away the WSP solution. The utensils will be washed and sterilized by dipping them into each container in turn after use. Cups glasses and plates will then be stacked upside down to prevent settling of dust and flies.

(d) Food Poisoning

Cases of food poisoning have occurred due to the consumption of food from "blown" tins.

All tins will be carefully examined before being opened and in any cases of doubt they will not be issued until the opinion of a Medical or Hygiene officer has been obtained.

Blown tins are those of which the ends are convex, bulged or domed, instead of being concave or drawn in.

(e) Fruit and Vegetables

The following methods of treatments of all uncooked vegetables and fruit (other than thick skinned fruit, *eg*, oranges) will be adopted under unit arrangements:—

(i) The fruit or vegetable will be thoroughly washed in running drinking water. (If running water is not available, in frequent changes of chlorinated water). Lettuce will be cut open and all leaves washed separately.

(ii) Once cleansing and preparation are complete, this will be followed by immersion for 30 minutes in water containing a solution of chlorine (1 spoonful WSP to 2 gallons of water) with frequent agitation. The WSP will be made up as a strong solution before being added to the water.

(iii) The treated vegetable or fruit will then be rinsed in drinking water to remove all taste of chlorine.

N.B. Thick skinned fruit, *eg*, oranges should be washed before consumption.

Formation commanders, on the advice of their medical administrative officers, may prohibit the consumption of raw vegetables and soft fruit in any areas where the occurrence of civilian outbreaks of excremental disease constitutes a risk to the health of the troops, or where they cannot ensure that the treatment detailed in para 3 can be efficiently carried out.

It is pointed out that in this theatre human faeces are used for the cultivation of vegetables.

(f) Water

All water for drinking, unless from a source approved by ADMS area or formation, will be chlorinated or boiled before use under unit arrangements in accordance with instruction given in the Army Manual of Hygiene and local Medical Advice.

(g) Ice, ice-cream, mineral waters and fruit drinks will not be consumed unless purchased under unit arrangements from a source approved by the ADMS.

(h) On no account will milk, cheese or butter be purchased for consumption from local inhabitants. These products are particularly dangerous to children, but have also been responsible for the spread of undulant fever, tuberculosis, typhoid and dysentery among adults.

(i) Special attention will be paid to ensuring that TAB inoculations of all personnel are kept up to date.

4. This GRO cancels GROs 338/45, 356/45, 390/45, and para 2, sub-paras (f), (g) and (h) of GRO 486/45 are hereby *cancelled*.

This may be either the recipient or some person nominated by him or her to receive and take charge of the decoration or medal. Where it is known that an individual will be leaving the unit in the near future, the address given will NOT be that of the unit.

4. Persons serving abroad will be strongly advised to nominate a person at home to receive and take charge of the decoration or medal or to await their return home. To: All Commanding Officers

I wish to bring the following to the notice of all Commanding Officers of British Units.

The British Government has appealed for the support given to the National Savings Movement during the war to be continued in the future, so that the greatest possible aid may be given to the economic rehabilitation of our country during the period of reconstruction which faces us.

Post war savings are urgently needed for this great task. Moreover these savings are a sound investment for the soldier. They are an insurance against financial difficulties which may arise after his return to civil life.

It is of the greatest importance that the necessity for savings should be pointed out to everyone; particularly should encouragement be given to the young soldier.

The attached leaflet ("The Ways of Saving") explains in simple terms the methods of saving available in this Theatre. A specimen is attached to this letter and further copies can be obtained on demand from the appropriate stationery department.

I wish therefore every Commanding Officer to select an Officer to organize savings within the unit, to arrange that the necessary forms are readily available at all pay parades to those wishing to save, and to ensure that the young soldier is encouraged to get into the habit of saving regularly, however little the sum may be.

Lieutenant General,
Commander-in-Chief,
Central Mediterranean Forces.

THE WAR OFFICE,
WHITEHALL, S. W. 1.

Message from the House of Commons to all ranks of HM armies serving overseas

Sir,

I am commanded by the Army Council to inform you that in the course of the recent Debate on Army Estimates in the House of Commons, the Secretary of State for War was requested to convey, on behalf of the House of Commons, a message to all ranks in the armies serving overseas, recognizing the trying and often tedious nature of the task in which they are engaged, and expressing gratitude for the spirit and manner in which those armies are fulfilling that task. The Secretary of State, confident that all ranks in these armies will be fortified by this generous tribute, has directed that it be brought to their notice, and I am to request that a copy of this letter may be published in your Command orders.

I am
Sir,
Your obedient Servant,
G. W. Lambert.

The Commander-in-Chief
Central Mediterranean Force.

683. RESPONSIBILITY FOR PUBLIC AND REGIMENTAL MONEY.

RAOC Routine Order No. 92, dated 22 Apr 46, is published below for information, guidance and compliance of all concerned.

ACI 786/41 is repeated for information and compliance.

A number of cases have occurred in which money of public and regimental funds has been stolen because the cash box, cupboard or drawer in which it was placed has been kept in a room, which remained unoccupied for considerable periods, especially at night.

Officers who hold public and regimental funds are responsible for the safeguarding of money of those funds, and the fact that a safe is not provided does not in any way relieve officers of this responsibility. Balances of cash should never be retained unless unavoidable. If it is essential that some cash should be held, the amount should be as small as possible. Where a cash balance is held and no safe is available, it must be kept in a properly secured box, which in turn must be handed to the custody of the guard every time there is a possibility of it being left unattended, particularly at night. To have a soldier sleeping in an office in which cash is kept has not proved to be an adequate safeguard, since the occupant may occasionally leave the office untenanted.

Failure to take adequate steps to safeguard public and regimental money renders the officer responsible for its safe custody liable to make good any loss occasioned by his negligence.

671. STERLING CURRENCY - LIMITATION - AMOUNT TO BE TAKEN OUT OF UK.

GRO 159/46 is repeated hereunder:-

Under existing regulations, the amount of sterling bank notes which may be taken out of the UK by any male person serving in the Armed Forces of the Crown or any female person serving in QAIMNS, TANS, ATS, VAD or other Women's Forces, except with the permission of the Treasury, is limited as follows:-

(a) If proceeding to AUSTRIA, ITALY or GREECE. Sterling bank notes not exceeding five pounds sterling in value.

(b) If proceeding to NORTH AFRICA. Sterling bank notes not exceeding ten pounds sterling in value.

The taking out of the UK of sums in excess of the above limits constitutes an offence under existing regulations and offenders will be subject to disciplinary action under the Army Act.

Bank of England notes of denominations higher than one pound will not be taken out of the UK.

All sterling must be exchanged through official Army channels at the Port of disembarkation if returning by MEDLOG land route or by sea, or, if travelling by air, at the nearest Army Cash Office immediately on arrival in this theatre.

672. CURRENCY TRANSACTIONS.

The following extract of GRO 1322/45 is published for information and strict compliance of all concerned.

Reports have been received of the introduction into the UK by military personnel of currency obtained from other than official sources. In addition to foreign currency, a considerable number of forged Bank of England notes have been introduced in this way.

All ranks are reminded that it is an offence to take foreign currency, including military notes, into the UK. This also applies to Bank of England notes which have not been acquired from official sources. Offenders render themselves liable to severe disciplinary action and the notes will be subject to seizure.

673. ILLEGAL DISPOSAL OF WD PROPERTY.

The following is published in conjunction with RAC Routine Order No.91, dated 22 April 46.

Cases of illegal disposal of WD property are occurring on a large scale, the most common offences being the theft and sale of such items as rations, petrol, blankets, clothing and other WD stores. In many cases these offences are committed by civilians with the connivance of British personnel.

597. V.D. DISCIPLINE.

Reference Daily Routine Order No.592, dated 25 Apr 46.

The following GOC, 3 District letter ref. 370/9A, dated 20 Mar 46, has been received from the Commander British Troops, ROME, with the observation that the rate of incidence of V.D. among troops in RAOC does not tend to show any appreciable increase, nor however does it show any decrease, as was to have been hoped.

O.C. British Detachment has replied to the effect that all possible precautions to avoid V.D. have been taken by this HQ.

1. I am very much concerned over the question of V.D., the incidence of which throughout the District has risen by over 100 per cent during the past few months, and on the latest returns has reached the extremely high figure of 146 to 1000 per anum; in other words on an average 1 man in 7 contracts VD each year. Moreover, this figure shows an upward trend week by week.

2. I am, therefore, addressing this personal appeal to all OsC in the District with a view to enlisting their personal help in a campaign in order to rectify this deplorable state of affairs. This, I feel, can best be done by means of personal appeals to the men, and while I do not wish to prescribe how OsC should tackle the problem, or to cramp their initiative in any way, I suggest that the following facts and reasons might form the basis for talks on the subject.

Reference Daily Routine Order No.592, dated 25 Apr 46.

The following GOC, 3 District letter ref. 570/9A, dated 20 Mar 46, has been received from the Commander British Troops, ROME, with the observation that the rate of incidence of V.D. among troops in MAC does not tend to show any appreciable increase, nor however does it show any decrease, as was to have been hoped.

O.C. British Detachment has replied to the effect that all possible precautions to avoid V.D. have been taken by this HQ.

1. I am very much concerned over the question of V.D., the incidence of which throughout the District has risen by over 100 per cent during the past few months, and on the latest returns has reached the extremely high figure of 146 to 1000 per annum; in other words on an average 1 man in 7 contracts VD each year. This, I feel, can best be done by means of personal appeals to the men, and while I do not wish to prescribe how OsC should tackle the problem, or to cramp their initiative in any way, I suggest that the following facts and reasons might form the basis for talks on the subject.

3. (a) The chief reasons contributing to the increase in the incidence of VD are, in my opinion:-

(i) The failure to make use of PACs
(ii) The comparative ease of cure of gonorrhoea, owing to the availability of penicillin.

(b) As to (ii) above, it is perhaps not generally appreciated that out of 100 VD cases in this theatre 35 are NOT gonorrhoea. Even against gonorrhoea penicillin is not 100 per cent effective, and against other forms of VD it is much less so. Further, at one exposure a man may contract more that one form of VD.

CONTINUED ON SHEET 2.

2751

Declassified E.O. 12356 Section 3.3/NND No. 785021

The use of penicillin to treat gonorrhoea will mask, without curing, an infection of syphilis coincidently acquired. It is, therefore essential that every man who contracts VD, in any other form, should be kept under surveillance for at least six months after the initial treatment, in order to ensure that the more serious infection with syphilis has not been also present. This period of surveillance, and treatment, if found necessary, may extend well beyond the date a man is due for release.

(c) With the limited resources at their disposal the authorities are doing their utmost to control the sources of infection, and to afford facilities for preventative measures. In conjunction with the Italian authorities in the populous centres arrangements exist where prostitutes are medically examined, and it will astound most people to know that, of those examined, some 30 to 40 per cent are found to be infected with VD. The actual percentage is probably a good deal higher than this, as prostitutes who know they are suffering from the disease will, in many cases, evade medical examination in order to avoid being detained in hospital for treatment.

(d) The loss of man-power due to VD is not generally appreciated. On an average, the number of men undergoing treatment for VD at any one time in the District is 200. In addition a very considerable number of officers and men is fully occupied in the treatment of VD. This means, at the best, that in the District units are permanently short of 260 men whose work must be done by others. At the worst it means that, but for the prevalence of VD, we might be able to speed up release to the extend of that number. At a casual glance these figures may not be striking, but the statistics for the year 1945 show that in this District, in British troops only, there was the staggering total of 10,098 cases of VD - 5,588 of them NOT the relatively easily cured gonorrhoea. During that year the rate of infection was one man out of every fourteen. Today it is one man out of every seven.

(e) It will be apparent from the figures quoted that very considerable quantities of penicillin are used in the treatment of VD. This drug is in short supply throughout the world. How much better it would be if the penicillin now being used for the treatment of VD could be used for the saving of lives and the relief of sickness and suffering elsewhere!

(f) Finally, can any self-respecting, clean-living man contract VD without some feeling of shame? Is it the sort of thing that he would like his friends and, more particularly, his family to know of?

Is it appreciated that the disastrous after effects of VD may come on even some years after the disease first appeared? Medical opinion is that a definite proportion of men who become infected now and are apparently cured can expect to pay a dear and terrible price for it in later life, perhaps just at a time when they are ready fully to enjoy their lives and health. Is it a fair deal to expose one's wife or future wife, and even the unborn babe to the risk of contracting this foul disease?

VD is preventable, if not by "continence" or "abstinence", then at least by taking proper precautions.

289. Fly Control

1. Dysentery and other excremental diseases which have been prevalent in past years are likely to cause a considerable drain on the efficiency of troops in this theatre again this year, unless adequate precautions are taken. These diseases are usually conveyed by flies infecting foodstuffs, by carriers infecting food and drink, and possibly also by dust. The dysentery season is about to begin; it is imperative, therefore, that no effort should be spared to reduce the number of cases to the absolute minimum. This can only be achieved by the wholehearted co-operation of all ranks.

2. (a) OsC will ensure that all personnel under their command realize the necessity for fly-prevention and the protection of foodstuffs from contamination with disease germs. They will nominate an officer whose duties will include the organization and supervision of anti-fly measures in unit lines.

(b) Fly breeding places, such as refuse accumulations in and around camps, will be eliminated. Swill tubs will be covered. Tins will be incinerated before disposal, and refuse tipping places strictly controlled. The siting of camps and halts away from native dwellings and farms is of particular importance.

(c) The following will be fly-proofed as a Works Service responsibility on application to the RE Works Service officer for the Area. Reference to other authorities is not necessary for sanction of the work.

(i) *To prevent access of flies to food.*
Food stores.
Food preparations rooms.

(ii) *To prevent access of flies to infected material.*
Faeces disposal points.
Latrine structures.
Hospital bed-pan inspection and washing rooms.

As far as labour and stores permit, permanent hospital wards will be fly-proofed in the following order of priority:—
Dysentery and other infectious diseases.
Orthopaedic.
Other.

(d) Muslin is issued by Ordnance on the scale of 20 sq ft per 100 men per month. In the case of units split into small detachments it has been found that this scale is inadequate, and in such cases authority is given for additional material to be issued on the advice of a Hygiene Officer.

It must be realized that extension of fly-proofing, such as making covers for protection of food after preparation, is a responsibility of the unit, and that much can be achieved using materials which are available within the resources of the unit.

(e) Fly destruction by spraying, swatting and trapping will be energetically carried out. Anti-mosquito spray from Flit guns will be used daily as often as necessary, care being taken not to contaminate foodstuffs with the spray. Residual spraying of the walls and other surfaces inside cookhouses, canteens and messes with DDT solution will also be carried out where necessary under the supervision of Field Hygiene and Field Sanitary

	Fly swats	1 per 10 all ranks.
(ii) On indent from RASC	Anti-mosquito spray.	45 galls per 1000 men per month in non-malarious areas.
	Flycatchers	400 per 1000 men per month.
(iii) From Fd Hyg and Fd San Sers (or detachments of these units).	DDT	5 lb per 1000 men per month. *

592. V.D. DISCIPLINE.

Daily Routine Order No. 1642, dated 30 Nov 45, is repeated below for information and strict compliance of all concerned.

(a) Concealment.

In accordance with King's Regulations, 1940, para 555, a soldier who is suffering from V.D. must report himself sick without delay.

Concealment of the disease delays treatment and causes a loss of man-power to the Army.

Concealment is a serious crime and will henceforth be dealt with by COURT MARTIAL in all cases, charges being preferred under Section 11 of the Army Act.

(b) Financial Penalties.

Owing to the prevalence of V.D. in this theatre it is of the utmost importance that all ranks should be acquainted with the possible financial consequences of contracting the disease due to their own fault.

(i) Hospital charges. - A soldier admitted to a hospital on account of V.D. or its effects due to his own fault is required to pay hospital charges of 10d a day after the first 30 days of treatment in hospital (vide AOI 1346/44).

(ii) Loss of pay (Non-Treatment). - Where a soldier is suffering from V.D. or its effects due to his own fault and is unable to carry out his normal duties he will be reclassified as laid down in para 16 (h) Army Order 14/43. This means in effect that he loses what was formerly known as "War Time & Special Proficiency Pay". In addition he is not entitled to the initial grant of any increase of pay for length of service in accordance with para 8 of Army Order 14/43. Full particulars are given in GRO 617/43.

Loss of Paid Acting Rank. - Paid acting rank is relinquished from the date of leaving the unit on account of sickness. Soldiers who revert to private or equivalent rank suffering from V.D. as above are not appointed Lance Corporal or Lance-Bombardier on such relinquishment as in other cases. GRO 707/43 refers.

(c) Preventives.

Condoms are now available at any time, free of charge, from the British M.I. Room, Headquarters Building.

(d) Prophylactic Certificates.

In accordance with MAAC letter ref 26AI dated 25 Sep 44, all ranks who expose themselves to infection by V.D. are compelled to apply preventive measures and to obtain and retain a PROPHYLACTIC certificate to the effect that such measures have been carried out.

Any man who contracts V.D. and is unable to produce such a certificate will be dealt with for disobeying this order.

(e) Bounds.

In accordance with MAAC General Order No. 3 dated 22 Jun 44, all houses of prostitution within Rome Area Command are hereby placed OUT OF BOUNDS.

(f) Procedure.

Any OR who is in doubt on any point concerning this matter will report to either the M.I. Room or Orderly Room for further information.

585. V.D. DISCIPLINE.

The following extract of GRO No.765/45, is published for information.

The penicillin treatment of Venereal Disease produces in many cases such seccessful results that the impression has been created, and is now widespread, that these diseases are no longer of a serious nature. A review of the results of penicillin treatment shows that even with this drug, treatment must be undertaken at the earliest possible moment if cure is to be attained.

In particular is this true of syphilis, a disease with a high incidence and widespread among the civilian populations of Italy and Greece. Unless treatment is undertaken immediately symptons appear, relapse of the disease in an infectious form may occur within a few months. The late complications of syphilis when treatment is delayed are as serious as ever.

It is therefore strongly emphasized upon all troops that the successful treatment of Venereal Disease still depends upon early diagnosis and that they must report sick as soon as the first signs of the disease arise.

578. FOOD ANTI-WASTE CAMPAIGN.

The following extract of RAAC letter 147/11/EDN, dated 14 Apr 46, is brought to the attention of all.

Some facts from statement by Sir Ben Smith (Minister of Food).

Rice.

Crop failed in India and so accentuated the demand for wheat. Also a tidal wave did immense damage to crop in Madras.

CONTINUED ON SHEET 2.

Declassified E.O. 12356 Section 3.3/NND No. 778021

During the Japanese occupation the exporting countries Burma, Siam, Indo-China tended to limit production as they had no means of disposing of surplus. It has not yet been possible to get back to normal though there is some surplus in Siam and attempts are being made to get this.

INDIA needs two and a half mil. tons of wheat or rice and it is impossible to find it.

Drought in South-Africa ruined the 1945 harvest. The 1946 outlook is also serious because the ground is too hard for sowing.

Oils and Fats.

Normally Britain gets ground nuts from India for oil. Due to lack of other foods in India they can't export this.

The whaling expedition to the Antartic has not been up to expectations.

579. TRAVEL ORDERS FOR MOVEMENT BY ROAD AND RAIL.

G.R.O. No.253, dated 12 Apr 46, is published hereunder for information and guidance of all concerned.

G.R.O. 87/46 was designed to simplify the documentation side of travel as far as possible.

Observations show that at the moment a good deal of unnecessary travel is taking place. Some of this is being indifferently disguised under the heading of duty. This is particularly noticeable at week-ends.

It is essential that all unnecessary travel should be stopped, not only on account of waste of equipment, petrol, and particularly tyres, but also because the shortage of manpower has necessitated the reduction to a minimum in transit facilities. Excessive travel also entails the retention of an unnecessarily large number of REME repair and recovery personnel distributed over the theatre.

It is undesirable to complicate the permission for travel, but all commanders will assist in curtailing unnecessary movement. The following further restrictions will however be added to GRO 87/46.

(a) All duty travel will be completed during the week between Monday and Friday wherever possible. When this is not possible, the work ticket or travel order will be signed or endorsed by an officer not below the rank of Lt. Col.

(b) Officers and other ranks on duty requiring accommodation in FLORENCE, where leave and transit facilities are now considerably reduced, will be in possession of a Movement Order, signed by an officer not below the rank of Lt. Col., stating the nature of the duty. The Movement Order will be shown to the Town Major when application is made for accommodation.

(c) Application for accommodation for officers and other ranks who wish to stay in FLORENCE on leave will be made to the Town Major, FLORENCE, not less than seven days before the proposed date of the visit. Accommodation for officers and men on leave will not be allotted unless application has been made as above.

With the general cutting down of transit Hotel facilities junior officers must be prepared to accept accommodation other than in hotels and, on long journeys, should travel, as a matter of routine, with their bedding.

Wheat.

Until recently was one of the foods with no shortage. The situation became changed with the very heavy demands of liberated Europe. For first six months of 1946 World Requirements are 17 million tons; only 12 million tons available i.e. 42% more needed.

In Europe alone 125 million people will have less than 2000 calories a day. There are many more in the Far East.

In Spring 1945 the wheat position seemed so good that the Govt. made a programme for increased animal feeding. It is now impossible for this programme to be carried out.

The European wheat harvest fell from pre-war 45 mil. Tons to 25 mil. Tons i.e. half.

FOOD ANTI-WASTE CAMPAIGN.

The following rhymes have been entered in the "slogan and Rhyme Competition" by:- S/3535016 - Cpl. Irving, H.

" Victory came, but what a cost
To those who won and those who lost
Now in this post-war world of ours
We can and must use all our powers
To make our many wrongs exclude
The greatest sin - OF WASTING FOOD."

" We seldom think of food we waste
We eat our fill and leave in haste
No time to think of those who are short
But let's in future give them thought
A world of hunger will again
Bring endless suffering, misery, pain
SO DON'T WASTE FOOD - ITS NOT HUMANE".

481. V.D. DISCIPLINE.

Higher authority are very much concerned about the increasing numbers of V.D. cases in the theatre generally.

As in example 146 men in every thousand get V.D. per annum, or 1 man in every 7.

There are many reasons for this, however, it is mainly neglect or laziness on the individual's part to take the necessary precautions.

You are hereby warned that if you cannot abstain then use a condom, or what is commonly known as a French letter, and use one of the many pro Centres available. This is not 100% safe, but it helps.

As a point of interest, of all the females that report in Italy for inspection 30 to 40% are found to be infected. Allowing for the ones who avoid inspection, a good guess would be that 50% are actually affected, that boils down to one out of every two.

If we remember these figures, we should be very cautious.

FOOD ANTI-WASTE CAMPAIGN.

The following rhyme has been entered in the "Slogan and Rhyme Competition" by:- No. S/10691735 - Cpl. Hislam, S.

"Oak trees from acorns grow.
That applies elsewhere, you know.
Food wasted - every ounce
Grows like a snowball.
In a trounce,
Behold A loaded garbage can -
And somewhere else - a starving man.
Think, think, before you eat,
That bread you waste was made from wheat.
Thrown into the garbage can
'twill never reach that hungry man."

465. ROBBERIES - ALLIED VEHICLES.

RAAC Routine Order No.78, dated 1 Apr 46, is published below for information and guidance of all concerned.

Reports have been received of armed robberies carried out on Route 16 by means of a false diversion. Persons, who may be civilians or deserters, dressed in battle-dress, erect a diversion sign for the purpose of directing a vehicle into a culd-de-sac where it is held up and the occupants robbed.

There is no reason to think that this will grow into a serious practice but at the same time all road users should, as far as possible, be warned.

It is impossible for either the Civil or Military Police to man all diversions all the time and even if it were possible, the racketeers can still dress in a passable imitation of uniform.

All diversions, unless very well known, will therefore be treated with suspicion - particularly at night.

348. RESPONSIBILITY FOR PUBLIC AND REGIMENTAL MONEY.

RAAC Routine Order No.63, dated 8 March 46, is published hereunder for guidance of all concerned.

ACI 786/44 is repeated for information and compliance.

A number of cases have occurred in which money of public and regimental funds has been stolen because the cash box, cupboard or drawer in which it was placed has been kept in a room which remained unoccupied for considerable periods, especially at night.

Officers who hold public and regimental funds are responsible for the safeguarding of money of those funds, and the fact that a safe is not provided does not in any way relieve officers of this responsibility. Balances of cash should never be retained unless unavoidable. If it is essential that some cash should be held, the amount should be as small as possible. Where a cash balance is held and no safe is available, it must be kept in a properly secured box, which in turn must be handed to the custody of the guard every time there is a possibility of it being left unattended, particularly at night. To have a soldier sleeping in an office in which cash is kept has not proved to be an adequate safeguard, since the occupant may occasionally leave the office untenanted.

Failure to take adequate steps to safeguard public and regimental money renders the officer responsible for its safe custody liable to make good any loss occasioned by his negligence.

The following extract of MMAC letter ref. 14A5, dated 7 Mar 46, is published for information and compliance of all concerned.

Cases have recently arisen where WD motor-cycles have been stolen whilst left outside an office by a despatch rider delivering a package. In many cases it is necessary for the despatch rider to leave his motor-cycle in order to deliver his packages and under these circumstances it is difficult to blame him for the loss if the motor-cycle is stolen.

Despatch riders must ensure that they are not placed in this difficult position. In cases where it is essential that a despatch rider should leave his motor-cycle in order to deliver a package, and there is no guarded car park within a reasonable distance, it will be considered that adequate precautions have been taken if the motor-cycle is chained to some immovable object by a stout padlock and chain, provided that it is not left for more than a few minutes.

It is considered, however, that where a despatch rider makes regular visits to an office it should be possible for that office to arrange so that the packages can be delivered without the despatch rider leaving his motor-cycle in an unguarded place.

The following is published in conjunction with GRO No.136, dated 22 Feb 46, for information and guidance of all concerned.

This GRO is in amplification of GRO 661/45, para 3 of which defines eligibility for advice and assistance under the Legal Aid Scheme.

In a great number of cases, mainly of a matrimonial nature, heavy legal costs are involved unless a grant is obtained of a Poor Person's Certificate, which reduces the cost to the applicant to a mere nominal sum.

A very liberal interpretation of the Poor Person's Procedure has been granted to Service personnel, far in excess of that enjoyed by the civilian population.

CONTINUED ON SHEET 2.

2705

Declassified E.O. 12356 Section 3.3/NND No. 785021

A valuable concession has been made to soldiers (including Auxiliaries of the ATS and members of the VAD) who are eligible under the Legal Aid Scheme, by extending a generous interpretation of the Poor Person's Procedure to cover the soldier after Release, provided he or she, while a member of the Armed Forces, has involved the assistance of a Services Legal Aid Scheme.

In view of the imminence of Release, personnel who are eligible for assistance and who have any problems which may result in litigation, to cover the cost of which they may desire to obtain a Poor Person's Certificate, should as soon as practicable, consult the nearest Legal Aid Section (the location of which is given below), or write direct or through COs to the LAW Section, GHQ, CMF.

211. OFFICE SECURITY

Para VI of RAAC Daily Bulletin No.38, dated 15 Feb 46, is republished hereunder for information of all concerned.

Attention of all branches is drawn to the continued need for the proper security of TOP SECRET and SECRET documents. Since operations ceased in this theatre, there has been a general tendency for a slackening-off of security in offices, and this, together with the fact that increasing numbers of civilians are employed in military headquarters, has probably been the reason for a certain number of leakages that might have been avoided had normal security measures been observed.

Documents of a secret nature should not be left in unattended offices unless properly secured, and those offices which are vacated at mid-day should be locked.

The need for security mindedness in relation to office security has increased, rather than diminished, and it is stressed that there should be no deterioration in following normal security measures.

212. ELECTRICITY SUPPLY.

Success in the Forces' preliminary examination, of which details were given in ACI 1091/45, will also rank for qualification.

Tuition will be free.

Maintenance allowances, both for the candidate and for wife and children, if any, will be available where appropriate.

Application forms, and a pamphlet containing information regarding the methods of selection of candidates, nature of the course, salaries of qualified teachers in NORTHERN IRELAND, etc., may be obtained free of charge from the Secretary, Ministry of Education, Strandhills House, BELFAST.

CONTINUED ON SHEET 2684

Declassified E.O. 12356 Section 3.3/NND No. 795021

Candidates in His Majesty's Forces must await their release in the ordinary course in Class "A" before taking up a course of training. Meanwhile, however, the Ministry of Education for NORTHERN IRELAND is prepared to receive applications and to deal with them so that men and women may know as soon as possible whether they are likely to be admitted to training when in the ordinary course they are released.

Candidates accepted in this way will be required to undergo a medical examination before entry to a training college, and acceptance will therefore be subject to the candidates fulfilling medical requirements. The demand for teachers will continue for a considerable period, so that men and women in the latest Release Groups will have as good a chance of training as the first to be released. On the other hand, acceptance for training will make no difference to the date of a candidate's release, which will take place in Class "A" according to his or her group, and subject to the requirements of the Service.

It may be possible, if there is sufficient demand, to organize modified courses for applicants who desire to qualify themselves for service as teachers of commercial or technological in the technical schools.

88. POSTAL REGULATIONS AND FACILITIES - CMF.

G.R.O. No.1285, dated 30 Nov 45 is published for information of all concerned:-

1. Particulars of the Postal facilities available at British APOs in this theatre and of the regulations governing their use are contained in Appendix "A" to this GRO. Copies of this Appendix have been posted on the Notice Boards in the Albergo Genova and Urbe for information of all ORs.

2. The attention of all troops is directed to paras 36 to 39 of the pamphlet which lay down the correct procedure for declaring the contents of parcels. Recent examination by the Customs Authorities of parcels arriving in UK from the Forces, has disclosed an increasing number of attempts to evade Customs Duty and Purchase Tax. In such cases the Customs have the power to impound the parcels concerned and the contents become the property of the Crown.

3. The general standard of packing of parcels, particularly those containing fruit, still leaves much to be desired. The regulations in this connection are detailed in paras 26 & 29 of the pamphlet. It is essential that these regulations be complied with in every respect if the facility of sending fruit parcels through the post is not to be withdrawn.

89. ELECTRICITY SUPPLY.

The following RAAC instruction on this subject is published for information.

1. The supply of Electricity in Central and Southern Italy has now become critical on account of the past dry summer and present dry winter season in consequence of which reservoirs now hold sufficient to produce electrical energy for a matter of days only.

2. Drastic measures are being taken affecting the civilian and military population alike. All units are therefore warned to take emergency measures forthwith, as the supply of electricity will be cut off for periods daily. Such periods of interruption together with Zones will be announced in the Press.

3. This command is insisting on an uninterrupted 24 hrs. service only to the Military Hospitals and Cold Storage Intallations totalling 5 in all and it is emphasized that any applications for preferential service outside the foregoing will not be supported.

4. The strictest economy will continue to be enforced in all units by Commanding Officers.

90. DISCIPLINE - MEDICAL.

Any OR of this Headquarters with the initial letter of their Surname: L, M or N and requiring inoculations and/or vaccinations, will report to the M.I. Room, HQ., Bldg., at 1000 hrs, WEDNESDAY: 23 Jan 46.

91. CAPTURED ENEMY WEAPONS AND AMMUNITION.

1. Information has been received that considerable quantities of captured enemy weapons and ammunition are still being imported into UK by troops returning, either on leave or release.

91. CAPTURED ENEMY WEAPONS AND AMMUNITION.

1. Information has been received that considerable quantities of captured enemy weapons and ammunition are still being imported into UK by troops returning, either on leave or release.

2. This presents a serious problem to the UK authorities, particularly in the light of the recent "crime wave" in the UK, as the man power situation does not permit the holding of really effective control at the ports.

3. DRO No. 1357 dated 18 Sept. 45, which lays down the orders in force on this subject is repeated for information and strict compliance:-.

"In view of reports that a number of pistols and other weapons are coming into the hands of individual Allied Soldiers and are being sold or bartered to civilians, attention is drawn to ACI 1501/45, which expressly states that captured and surrendered material of whatever nature is the property of H.M. Government.

2665

CONTINUED ON SHEET 2.

Declassified E.O. 12356 Section 3.3/NND No. 758021

The unauthorized retention or disposal of such material or any captured or surrendered animals is an offence, and offenders will normally be tried by Court Martial.

Genuine Souvenirs.

This GRO does not prohibit the retention as souvenirs or trophies of such articles of small military or intrisic value as may be determined by commanding Officers. Any Officer or OR wishing to retain such articles will obtain a certificate signed by his Commanding Officer authorizing retention. This certificate will bear a sufficient description of the souvenir or trophy to enable it to be identified and will at all times be in possession of the holder to be produced on demand.

The retention of weapons, ammunition, explosives and dangerous substances of any kind will invariably be prohibited.

Personnel Proceeding to the U.K.

Personnel proceeding out of the theatre are liable to search at any stage of the route. Any enemy material found in the possession of members of H.M. Forces for which no certificate has been issued will be confiscated and the offenders returned to this theatre for disciplinary action".

Daily Bulletin No. 13, dated 17 Jan 46 is published for information of all concerned:-

Shortage of water at the source of supply and excessive consumption by the population has made it necessary [illegible] Rome Water Supply Companies to cut off supplies to certain areas of the city on alternate days in order to maintain a reasonable pressure.

This measure does not guarantee that when the water is "on" the full pressure can be maintained, though as storage tanks are completely emptied on "off" days it is to be expected that the pressure will be sufficient for following day for all purposes but the refilling of storage unless the greatest economy is practiced.

2. All ranks are reminded that it is an offence to take foreign currency, including military notes, into the United Kingdom. This also applies to Bank of England notes which have not been acquired from official sources. Offenders render themselves liable to severe disciplinary action and the notes will be subjected to seizure.

1724. QUALIFICATION FOR DRIVING LICENCES.

The following notice board information is republished for information.

1. Ordinary Driving Licences.

All military personnel (including A.T.S.) who qualify to drive mechanically propelled vehicles during their service should be in possession of a "Certificate of Passing Driving Test" (A.F. A2039) for the purpose of obtaining substantive driving licences on return to civil life.

These certificates are issued by the unit and should be carefully preserved for presentation to the local licensing authority when a civil licence is required.

Duplicate copies of certificates issued are held by Os. i/c records with personal documents.

It should be clearly understood that A.F. A2039 is not a licence to drive, but is merely a certificate which will enable the holder to obtain a civilian driving licence.

Civilian driving licences will not be issued on production of a "W.D. Driving Permit" (A.F. A2038).

2. Heavy Goods Vehicle Licences.

Arrangements have been agreed with the civil licensing authorities for personnel who may require a licence to drive heavy goods vehicles (i.e. exceeding 3 tons in weight unladen) on return to civil life to be tested while in the Service.

This test can only be taken in the United Kingdom, and each successful candidate will be issued with a special certificate (Ministry of War Transport Form G.H. 10). A separate special licence issuable against this certificate is not required to allow the driving of heavy goods vehicles at the present time, but such a licence will be needed as and when the civilian tests for heavy goods vehicles may be resumed. The form G.H. 10 should therefore be carefully preserved for production to the local licensing authority when it becomes necessary to apply for a heavy goods vehicle driving licence. Duplicate copies of this form will be forwarded to Os. i/c records for custody with personal documents.

Personnel wishing to obtain this qualification should apply through their units to undergo the necessary test.

The following letter, file AG 420/918 CG-O, Commanding General, Headquarters Mediterranean Theater of Operations, dated 29 November 1945, is published for the information, guidance and compliance of all concerned:

"1. There is a marked laxity on the part of Officers and Enlisted personnel throughout in observing the basic principles of Military Courtesy and Discipline. Saluting is far from the standards prescribed, and discrepancies range from careless and improper execution, to complete failure to render the salute. Improper wearing of the uniform is common. Unbuttoned jackets, wearing of torn and dirty articles of uniform, improper wearing of or failure to wear the proper headgear, dirty and tarnished insignia, unpolished boots and shoes, and unbuttoned pockets are frequently observed offenses.

"2. Such derelictions are inexcusable and are a reflection upon the Army of the United States. The appearance and behavior of our officers and enlisted men in foreign lands make an impression upon the inhabitants by which they will judge our nation. Therefore, every effort must be exerted by every officer and enlisted man to correct the existing deficiencies and to reach and maintain a high state of military courtesy and discipline. It is the duty and responsibility of every commander personally to constantly direct and supervise the proper observance of these basic principles which are part of the foundations of the Army. Vigorous action will immediately be taken to correct present conditions, and the proper standards of military courtesy and discipline will be maintained. Laxity will not be tolerated.

(a) Concealment.

In accordance with King's Regulations, 1940, para 555, a soldier who is suffering from V.D. must report himself sick without delay. Concealment of the disease delays treatment and causes a loss of man-power to the Army.

Concealment is a serious crime and will henceforth be dealt with by COURT MARTIAL in all cases, charges being preferred under Section 11 of the Army Act.

(b) Financial Penalties.

Owing to the prevalence of the V.D. in this theatre it is of the utmost importance that all ranks should be acquainted with the possible financial consequences of contracting the disease due to their own fault.

(i) Hospital Charges. - A soldier admitted to a hospital on account of V.D. or its effects due to his own fault is required to pay hospital charges of 10d a day after the first 30 days of treatment in hospital (vide ACI 1348/44).

(ii) Loss of pay (Non-Treatment). - Where a soldier is suffering from V.D. or its effects due to his own fault and is unable to carry out his normal duties he will be reclassified as laid down in para 16 (h) Army Order 14/43. This means in effect that he loses what was formerly known as "War Time & Special Proficiency Pay". In addition he is not entitled to the initial grant of any increase of pay for length of service in accordance with para 8 of Army Order 14/43. Full particulars are given in GRO 617/43.

Loss of Paid Acting Rank.- Paid acting rank is relinquished from the date of leaving the unit on account of sickness. Soldiers who revert to private or equivalent rank suffering from V.D. as above are not appointed Lance Corporal or Lance-Bombardier on such relinquishment as in other cases. GRO 707/43 refers.

The Provost Sgt. will visit the breakfast meal and ensure this order is carried out.

(b) Traffic Accidents.

The number of accidents in Rome between native and Army drivers is increasing. This is unfortunately more noticeable with the Italian children. It is agreed that in most cases the Service drivers are not at fault.

However, it is the duty of all drivers to be as careful as is humanly possible.

(c) Loitering.

The practice of ORs congregating around the entrance and in the foyer of the Hotel Genova will cease forthwith. The Policeman on duty will be responsible that this order is carried out at all times, with particular attention paid to the evenings between 2000 hrs. and midnight.

1634. FOREIGN-BORN WIVES OF BRITISH SOLDIERS - IDENTITY CERTIFICATE.

1. There is no form of British identity certificate available to foreign-born wives of British soldiers, during the period between the date of marriage and the date of issue of a British passport by a British Consul.

2. Higher authority has decided to introduce a temporary identity certificate to cover this period.

3. On the issue of a British Passport, the certificate will be withdrawn and destroyed under unit arrangements.

4. Therefore any OR of this Headquarters to whom this is applicable will apply to the Orderly Room for this certificate.

NOTE: Any Officers of this Headquarters affected thereby should apply to the office of the HQ. Commandant.

1635. DISCIPLINE - Venereal Disease.

The penicillin treatment of Venereal Disease produces in many cases such successful results that the impression has been created, and is now widespread, that these diseases are no longer of a serious nature. A review of the results of penicillin treatment shows that even with this drug, treatment must be undertaken at the earliest possible moment if cure is to be attained.

In particular is this true of syphilis, a disease with a high incidence and widespread among the civilian populations of Italy and Greece. Unless treatment is undertaken immediately symptoms appear, relapse of the disease in an infection form may occur within a few months. The late complication of syphilis when treatment is delayed are as serious as ever.

It is therefore strongly emphasized upon all troops that the successful treatment of Venereal Disease still depends upon early diagnosis and that they must report sick as soon as the first signs of the disease arise.
