DAILY BULLETIN)
:
NUMBER 318)

O F F I C I A L

1. NIGHT STAFF DUTY OFFICER:

a. The Headquarters Night Staff Duty Officer, will be Capt J.S.D. BRADFORD, and can be located in Room 20, Ground Floor, Ministero delle Corporazioni Building, telephone - Ext. 405.

b. The Night Staff Duty Clerk, Cpl J. Wilson, will report to the Asst Adjutant, Room 20, Ground Floor, at 1600 hours, and to the Duty Officer in Room 20, Ground Floor, at 1800 hours.

2. ELECTRICAL ACCESSORIES, BULBS, MAINTENANCE:

It is becoming impossible to comply with the ever-increasing demands for bulbs, electrical accessories, and requests for services of an eletrician. During this month, to and including November 19th, there have been 331 written requests for an eletrician's services. This does not include oral requests. These requests involved the replacement or supplying of 177 bulbs and 62 fuses. There have also been literally hundreds of requests for desk lamps, although 235 of them were supplied last year, and uncounted requests for the repair or installation of electric heaters, although the use of electric heaters in the building is prohibited.

The result of this increase in lighting fixtures and electrical appliances is a terrific burden on the already over-burdened power plant. As a consequence we have burned-out bulbs and fuses, and the power plant which should deliver 120 - 130 volts is barely able to produce 110 volts.

The main difficulty seems to be that the occupants of the building expect the same standards of lighting, heating and comforts that they were accustomed to in office buildings back home. Unfortunately neither the buildings nor the installations here are up to USA and British standards , and because of the physical limitations of the existing plant and unavailability of supplies (which must now come for the most part from civilian sources), we should not expect the same lighting, heating and comforts which we were accustomed to back home.

Occupants are urged, therefore, to consider the above factors making any requests, and above all to comply with the following existing regulations:

1. No heaters or electric stoves will be used without permission of the Headquarters Commandant. Any heater or electric stove used without authority will be impounded.

2. Hereafter no light bulbs will be furnished unless a burned-out bulb is turned in.

3. All requets for services or supplies will be made in every case (except in extreme emergencies) trough the Administrative Officer of the Sub-Section concerned, who will satisfy himself that the request is a necessary one before forwarding same to this office.

3. ROME - MILAN - TELEPHONE SERVICE:

A traffic check made on the private telephone wire between this Headquarters and AMG/AC Headquarters in Milan discloses the fact that the present use of this circuit does not warrant its continuance. For each of three days checked the total number of calls in both directions did not exceed 20

A traffic check made on the private telephone wire between this Headquarters and AMG/AC Headquarters in Milan discloses the fact that the present use of this circuit does not warrant its continuance. For each of three days checked the total number of calls in both directions did not exceed 27 and the maximum total conversation time for any one day was only 149 minutes.

It is urged that more use be made of this private wire in preference to using Rome Long Distance, as otherwise the circuit is liable to be discontinued and put into the Military common user pool. (Communications Sub-Com)

4. RELEASE - DEFERRED VOLUNTEERS:

Reference DB #313, Par 7.

The dates given therein for the commencement of deferment of release will NOT apply to officers in Age/Service Groups 22, 23 and 24 who applied for deferment on or after 17 October 1945.

The dates of commencement for these officers will be notified later. (G-1 (2))

5. SIGNAL - THEFT OF TELEPHONES:

Numerous telephones have been stolen from offices in this building within the past few weeks. The majority of the instruments were removed during the lunch hour. To assist in preventing the theft of instruments it is reccomended that either a system of charge of quarters be established, or offices be locked, as these are the only ways in which these thefs can be stopped. It is requested that when telephones are missing the Signal Office, Extension 229, be immediately notified. It is also requested that any officer noticing anyone carrying a telephone, stop such a person and demand his card (specifying that the bearer is an official installer) as the only personnel allowed officially to handle a telephone in this building possess such a card. Cooperation of all concerned is requested. (Signal Section)

6. CIVILIAN PAYROLLS:

Civilian payrolls for the first half of November 1945 and for recent previous periods which were checked by the G-1 Civilian Personnel Office were found to contain an excessive number of errors. The amount of work which must be performed in the few days between the submission of payrolls and the actual paying of employees is tremendous in quantity and is being handled by a very small staff. If the present practise of careless payroll preparation is continued, the employees of the offending departments will suffer needless delay in being paid. Every effort must therefore be made by the responsible administrative chiefs of all sections to see that accurate payrolls are submitted promptly as required. (G-1 Civ Pers Office)

7. PREPARATION OF R & G COFFEE:

The following is extracted from Peninsular Base Section Daily Bulletin #310, dated 7 November 1945 for information and guidance of all concerned:

"The Quartermaster is now issuing only R & G Coffee, American blend, roasted and ground in America and the following recipe and instructions are recommended by the Quartermaster:

a. Liquid coffee for 100 men for 1 meal:

Coffee	4 lbs
Water	10 gallons
Salt	2 oz

Bring fresh water to a boil. Add coffee and salt. Allow to boil for three (3) minutes and remove from fire. Let stand for fifteen (15) minutes before serving.

b. The use of cans, corrugated, galvanized or iron vessels is not favored. If left for any lenght of time the coffee will not only turn color but will lose part of its natural flavor. The use of the aluminium 15 gallon stock pot or a heavily tinned vessel will give excellent results. All coffee making vessels and utensils must be kept scrupulously clean, aerated and sweet. This is mandatory for good coffee.

c. The study and application of instructions contained in WD Technical Manual TM 10-412 is earnestly recommended to all Mess Officers and Mess Sergeants for additional recipes and methods. (S-4, 2675th Regt)

1530. BEER.

The following is published from RAAC Daily Bulletin No.266 dated 27 Oct 45 for information.

Towards the end of this year imports of beer will be reduced to NIL and we shall be entirely dependent upon local breweries which will soon be able to brew enough beer for three (3) bottles per man per week.

There is, however, a great danger of this distribution breaking down unless current losses in bottles are considerably reduced. To effect this, it is essential to eliminate all avoidable losses, e.g. sales of bottles to civilians, throwing away of bottles stamped "NOT TO BE RETURNED" or "NOT TO BE REFILLED".

It is, therefore, brought to the notice of all troops that future supplies of beer cannot be guaranteed unless all bottles are returned to the Unit NAAFI.

1488. SOLDIER'S SERVICE & PAY BOOK - AB64 PARTS I & II.

Daily Routine Order number .77 dated 20 Mar 45 is repeated hereunder for information and compliance of all ORs.

All ORs must be in possession of AB64 Parts I & II, and every care will be taken to preserve them. Any soldier not in possession of either will report to the British Orderly Room immediately.

The following orders in respect of AB64 Parts I & II are repeated for information and strict compliance of all concerned:-

(a) Identification - ORs.

AB64 (Parts I & II) provides the soldier's only means of identification. Many troops stationed in ROME are unable to produce either of these when called upon by C.M.P. to do so.

Therefore no OR of this Headquarters will leave billets for any reason unless he is in possession of AB64 (Part I or II).

If for any reason it is essential for any OR to hand in his Part I & II before leaving billets, a certificate, signed by the O.C. British Detachment, stating the circumstances, will be given to him.

(b) Next of Kin - Amendments to AB64 Part I.

In conjunction with ACI 667/44, the following is laid down for all ORs of this Headquarters:-

Any alteration in the particulars of the next of kin will be reported immediately to the British Orderly Room.

Such alterations will then be made by the soldier concerned in his AB64 Part I under the observation of the O.C., who will initial the new entry.

(c) Hospital Admissions.

It is again emphasized that when proceeding to hospital either for treatment or admittance, all ORs will ensure that they are in possession of their AB64 Part I & II.

(d) Duty-Free Labels.

Other Ranks of this Headquarters are in the habit of leaving their AB64 Part I with the Orderly Room duty clerk requesting an issue of Duty-Free Labels, with a view of collecting same at a later date. This practice is most irregular and will cease forthwith.

It is pointed out that A.Fs. W5192 are signed by an Officer and the labels must be signed for by the recipient.

The previous order on this subject is repeated hereunder for strict compliance.

"Duty-Free Labels are obtained from the Orderly Room between 0830 and 0900 hrs daily, and personnel will produce their AB64 Part I when applying for same".

General Routine Order number 1093 dated 28 Sept. '45 is republished for information and strict compliance of all concerned.
"Recent unit inspections have disclosed that it has been the practice in the past for troops to regard as spare, any rations issued for a specific purpose but not consumed. Many cases have occurred where rations issued for a journey and which are not eaten have been kept in unit vehicles for subsequent use. 1460. DISCIPLINE. (THEFT PREVENTION).
For the past fortnight an epidemic of thieving has broken out in the British Detachment. All investigations point to the pitiful fact that the culprits are our own comrades and not the natives as first anticipated. This hurts very much to admit, however we all agree that it is a disgraceful state of affairs to think that soldiers who lived and fought so well together for over five years, now stoop so low as to steal from each other.
The main items that are being stolen are such things as greatcoats and boots, and obviously are not stolen for the use of the thief but for sale in the black market.
There is no necessity to steal kit for one's own use, any man who requires or is deficient of kit can have same on application at Q.M. Stores.
Apart from being disgraceful and mean to steal from a comrade it also shows a lack of principle, breeding and generally no sense of gratitude.
With effect from today every effort within human power will be made to catch the person - or - persons concerned and they are hereby warned that when caught (as caught they will) no quarter will be given. All ORs. can help with this effort and can play their part by taking every precaution in safeguarding their kit and private belongings.
The R.S.M. will tighten up all police orders and until such time as the thefts cease every man will be inspected before leaving the billet..
It is indeed a very sad state of affairs that we cannot trust our own comrades, people whom we live, eat and play with.

"The following is published in conjunction with GRO 958 dated 24 Aug 45:-

There is a general shortage of housing in Great Britain and Northern Ireland.

The Government have compiled a form (CMF Form 95) for completion by any soldier desirous of being placed on a waiting list. Although this is no guarantee that a house may be obtainable, genuine cases will receive every consideration.

The a/m forms are available, and may be had on application to the Orderly Room.

1398. ACUTE ULCERATIVE GINGIVITIS (TRENCH MOUTH).

The following is published in conjunction with GRO 1056 dated 21 Sept 45, for information and guidance:-

1. This disease, an acute ulcerative condition of the gums is increasing in incidence throughout the theatre and it is necessary to ensure that all possible precautions are taken to prevent its spread.

2. The disease is recognised by the presence of inflamed, bleeding and tender gums and is highly contagious.

3. It is spread:-

(a) By Direct Contact, e.g., the use of the communal towel, the indiscriminate use of eating and drinking utensils, and particularly by promiscuous kissing.

(b) By Indirect Contact, e.g., infection spread by infected hands to food, or through the medium of the cookhouse washup.

4. The following preventive measures will be rigorously adhered to:-

(a) Men with painful and bleeding gums will be instructed to report sick at once. This applies most particularly to cookhouse personnel.

(b) The indiscriminate use of towels will be forbidden.

(c) All feeding utensils will be washed and sterilized in accordance with the instruction issued under para 2 (g) of GRO 486/45, which reads as follows:-

"There will be proper facilities for washing and sterilizing all eating utensils, not only in cookhouses but in all messes and canteens. Three suitable containers, such as galvanized iron cans or tin boilers, will be provided and placed in line. The first two will contain hot soapy water and soda if available. The third will contain plain water which must be kept continuously boiling during the entire period of use. Alternatively, the first container alone will contain the hot soapy water, preferably boiling, the second will contain cold water with one tea-spoonful of WSP to every two gallons of water, while the third will contain clean water to rinse away the WSP solution. The utensils will be washed and sterilised by dipping them into each container in turn. This will be carried out before as well as after every meal."

(d) Civilian bars and cafes which do not maintain a satisfactory hygiene standard will be placed "out of bounds".

1373. METHYL ALCOHOL LIQUORS.

The following is published in conjunction with GRO 1026 dated 14 Sep 45, for information:-

"A large proportion of locally produced liquors contain a higher percentage of methyl alcohol than is considered safe for human consumption. The effect of methyl alcohol on the human body can be very dangerous, even to the extent of producing blindness. No spirits with a methyl alcohol content above 0.05% should therefore be consumed by military personnel.

It is pointed out to all O.Rs., that where a bar is placed out of bounds for selling liquors with too high a methyl alcohol content, this is entirely in their interests and is to safeguard their health."

1374. CURRENCY EXCHANGES - PERSONNEL LEAVING C.M.F. FOR U.K.

The following extracts from GRO 1028 dated 14 Sept 45. are published for information and guidance of all concerned:-

1. General.

Under the Defence Regulations it is an offence for any member of the Forces to take foreign currency, including military notes, into the U.K.

Personnel leaving this theatre for the U.K. will exchange currency only within the limits and in the manner laid down in this GRO.

2. Limits on Exchange.

(b) Other Ranks: a sum not exceeding £10 plus his cash drawings during the preceding two months as verified from AB64 Part II; any other rank who wishes to exchange currency will obtain a certificate from his Commanding Officer showing the total amount of local currency to be exchanged and certifying that this amount represents savings from pay and allowances and does not exceed the sum of £10 plus his total drawings in the preceding two months.

3. Excess Amounts.

Any Officer or Other Rank returning to the U.K. on Release, PYTHON or permanent posting who has legitimately acquired currency in excess of the limits allowed under para 2 above will obtain from his Commanding Officer a certificate to this effect stating the amount: the excess sum will then be paid to a Field Cashier before departure from this Theatre, supported by the certificate, for remittance to the individual's pay account in U.K.

This facility is NOT open to officers or other ranks leaving the theatre temporarily, eg, on LIAP or courses; such personnel will make their own arrangements for safeguarding any currency in excess of the limits allowed under para 2 above during their absence.

2091
Declassified E.O. 12356 Section 3.3/NND No. 785021

Therefore, it is essential that all practicable steps are taken immediately to reduce the uneconomical use of POL, to tighten up the existing procedure for issue and recovering of POL, and to implement measures for the conservation of tyres.

The quantities of POL available to the theatre on military account are to be reduced, and the theatre as a whole will be rationed."

177 ARMY EDUCATION SCHEME - PROVISION OF PERSONNEL

The following is published in conjunction with GRO 1035 dated 14.9.45:-

Mainly because of the effects of PYTHON and RELEASE, there will shortly be a considerable number of vacancies for SOs (Edn), Edn Offrs, and other rank instructors in the war establishments of the AEC in CMF.

2. A vigorous recruitment of all qualified personnel is therefore urgently required if the educational staff at all HQs are to be maintained at minimum working strength in order that the Army Education Scheme (Release Period) may be efficiently and effectively administered.

3. The shortage of educationists in civil life is equally acute and for army people who, after release, will either be returning to educational work or entering it for the first time, the experience which immediate participation in the Army Education Scheme can give should prove invaluable.

4. All personnel who are schoolmasters by profession, have equivalent qualifications or intend entering the teaching profession after release, are therefore encouraged to volunteer either for transfer to or, if they are anxious to avoid breaking regimental connections, for employment with the AEC. Personnel in release groups later than 25 are particularly required.

5. It is repeated that transfer to or employment with the AEC will in no way affect or prejudice release.

1315. SECURITY - DISCLOSURE OF INFORMATION CONCERNING "TOP SECRET" EQUIPMENT TO CIVILIAN FIRMS, BY MILITARY PERSONNEL

ACI 1439/44 is again repeated for the information and strict compliance of all:-

1. Certain civilian firms in considering the post-war employment of such of their employees as are at present engaged on military service, have sent out a form of questionnaire in which Service personnel are requested to give details of the type of work upon which they have been engaged during their period of military service. There will probably be an increase in the number of these and similar requests and the object of this ACI is to ensure that all ranks are aware of their obligations in regard to the disclosure of military information acquired by them during their period of service.

2. All officers and other ranks, including ATS personnel, who in the course of their duties have had access to "Top Secret" or "Secret" equipment of any kind whatsoever, either during the manufacture, trial or completed stage, are reminded that they are bound by the Official Secrets Acts, 1911 to 1939, and their knowledge of secret matters must not be published or communicated, either directly or indirectly, to another person in any form except in the course of official duties. Military personnel are subject to the conditions of the Official Secrets Acts both during and after they have left the Service: serious penalties may be imposed in the event of any infringement of these Acts.

3. All ranks are therefore warned that they should exercise discretion in the filling in of any questionnaires such as are referred to in para 1 above, or any of a similar nature which they may receive. SECURITY - DISCLOSURE OF INFORMATION CONCERNING "TOP SECRET" EQUIPMENT TO CIVILIAN FIRMS, BY MILITARY PERSONNEL

ACI 1439/44 is again repeated for the information and strict compliance of all:-

1. Certain civilian firms in considering the post-war employment of such of their employees as are at present engaged on military service, have sent out a form of questionnaire in which Service personnel are requested to give details of the type of work upon which they have been engaged during their period of military service. There will probably be an increase in the number of these and similar requests and the object of this ACI is to ensure that all ranks are aware of their obligations in regard to the disclosure of military information acquired by them during their period of service.

2. All officers and other ranks, including ATS personnel, who in the course of their duties have had access to "Top Secret" or "Secret" equipment of any kind whatsoever, either during the manufacture, trial or completed stage, are reminded that they are bound by the Official Secrets Acts, 1911 to 1939, and their knowledge of secret matters must not be published or communicated, either directly or indirectly, to another person in any form except in the course of official duties. Military personnel are subject to the conditions of the Official Secrets Acts both during and after they have left the Service: serious penalties may be imposed in the event of any infringement of these Acts.

3. All ranks are therefore warned that they should exercise discretion in the filling in of any questionnaires such as are referred to in para 1 above, or any of a similar nature which they may receive. Where there is any doubt whether the information which it is desired to give is permissible or not, the advice of the unit security officer will be sought. Where the unit security officer does not feel that he is qualified to advise, he will refer the matter to the CO of the unit and the latter, in cases of exceptional difficulty, will consult the nearest I (b) staff officer or alternatively the War Office (MI 11) direct.

1. The above mentioned GRO lays down that WD and requisitioned vehicles (including motor-cycles) will never be left unattended except:
(a) when essential on operational grounds;
(b) on account of other urgent necessity;
(c) by holders of user-driver permits.
2. However, losses of vehicles owing to theft in this area continue to occur.
3. In some such cases vehicles had been immobilized, but this had proved a totally inadequate precaution to prevent determined thieves from stealing them even when the person in charge was only away for a short time.
4. The Commander British Troops Rome is of the opinion that at the present time it is absurd to invoke operational necessity in an area such as Rome, and considers that in future drivers should be accompanied by a second person, not necessarily a driver, who can assume charge of the vehicle in the absence of the driver; also that all holders of user-driver permits should be accompanied by a person who can assume responsibility for the vehicle during the absence of the driver.

1290. COURSES - DRIVING

It has been decided to run driving courses for ORs of this Headquarters. These will take place on Wednesday and Saturday afternoons of each week. At the conclusion of each course the M.T.O. will issue a covering certificate in accordance with recent ACIs and GROs enabling people to obtain employment as drivers on returning to civilian life.

Any OR wishing to take advantage of these courses will hand his name in to the Det Ord Sjt by 0900 hrs Wed 5 Sep 45.

Times of lessons and duration of the courses will be notified at a later date.

1291. DISCIPLINE - DRESS

Although there is not as yet any noticeable slackness in smartness generally amongst troops in Rome, the Area Commander thinks there is and always has been room for improvement.

The fact that the war is over and that the Allies were victorious, and that many ORs leave on early release groups is no reason to become slack.

Because the Allies were victorious is all the more reason why we should be smart and proud of our Army.

It is the duty of every soldier to prove that the British Army can soldier in peace time as well as fight in war time.

1292. HYGIENE

The Hotel Genova will be disinfested by the local Hygiene Section over a period of four or five days. This will commence on Wednesday, 5 Sep 45. The Hygiene Section has decided to complete one floor per day, starting at the bottom.

All ORs sleeping in rooms on the 1st floor will move their kit, etc., to the centre of the room.

As the chemical used in the process contains oil, it is essential that all clothing be covered. A ground sheet or gas cape may be used for this purpose.

The following message to the Navies, Armies and Air Forces of the British Commonwealth and Empire which has been received from His Majesty the King is brought to the notice of all:-

"The surrender of JAPAN has brought to a victorious end the war which has engaged our full fighting strength all over the world. I send my heartfelt congratulations to the men and women of my navies, armies and air forces throughout the British Commonwealth and Empire.

Through the long years of the grim struggle with our enemies in the West and in the East your unflinching resolution and indomitable courage in the face of manifold adversity have earned you the eternal gratitude of your countrymen.

Many of your comrades have fallen in the fight. With you I grieve for their loss, for the sufferings of the wounded and for the sorrows of the bereaved. With you I look forward to the safe homecoming of those who have had to endure captivity.

By God's mercy the forces of evil have been overthrown but many tasks remain to be accomplished if the full blessings of peace are to be restored to a suffering world.

It is the duty of each one of us to ensure that your comrades have NOT died in vain and that your own hard-won achievements are NOT lost to the cause of freedom in which you undertook them.

On behalf of all my peoples, I thank you. God bless you all.

information:-

"(a) Purchase through units

(i) As Savings Certificates can no longer be purchased by individuals from Army Post Offices, the only method by which certificates can be purchased in this theatre other than through the soldier's account is by the unit becoming a Savings Group affiliated to the appropriate Command Pay Office.

(ii) Purchases by this method are subject to the following restrictions:-

Savings Certificates will only be purchased by other ranks at the pay parade and OsC units are responsible for ensuring that purchases do not exceed the amount actually drawn at that pay parade after deducting the amount (if any) to be spent on the purchase of postal orders under the provisions of GRO 530/45.

(b) Purchase through Banking Accounts

Officers and other ranks with bank accounts in the UK may purchase National Savings Certificates (and also Defence Bonds) by completing a Banker's Order obtainable from any Field or Area Cashier. These Banker's Orders can be completed for either single or regular (periodical) purchases and forwarded by the individual to his bankers who take all further action."

1214. SECURITY - DISCLOSURE OF INFORMATION CONCERNING "TOP SECRET" EQUIPMENT TO CIVILIAN FIRMS, BY MILITARY PERSONNEL.

ACI 1439/44 is repeated below for information and compliance.

1. Certain civilian firms in considering the post-war employment of such of their employees as are at present engaged on military service, have sent out a form of questionnaire in which Service personnel are requested to give details of the type of work upon which they have been engaged during their period of military service. There will probably be an increase in the number of these and similar requests and the object of this ACI is to ensure that all ranks are aware of their obligations in regard to the disclosure of military information acquired by them during their period of service.

2. All officers and other ranks, including ATS personnel, who in the course of their duties have had access to "Top Secret" or "Secret" equipment of any kind whatsoever, either during the manufacture, trial or completed stage, are reminded that they are bound by the Official Secrets Acts, 1911 to 1939, and their knowledge of secret matters must not be published or communicated, either directly or indirectly, to another person in any form except in the course of official duties. Military personnel are subject to the conditions of the Official Secrets Acts both during and after they have left the Service: serious penalties may be imposed in the event of any infringement of these Acts.

3. All ranks are therefore warned that they should exercise discretion in the filling in of any questionnaires such as are referred to in para 1 above, or any of a similar nature which they may receive. Where there is any doubt whether the information which it is desired to give is permissible or not, the advice of the unit security officer will be sought. Where the unit security officer does not feel that he is qualified to advise, he will refer the matter to the CO of the unit and the latter, in cases of exceptional difficulty, will consult the nearest I (b) staff officer or alternatively the War Office (MI 11) direct.

1215. VOLUNTARY HELP PARCEL SCHEME

1. The arrangement which had previously been in force whereby soldiers could send parcels of food to relatives and friends in U.K. through the auspices of the Victoria League of Durban (S.Africa) is no longer available in this command. In its place a similar arrangement has been made by the I.S.S. and A.H. Society (London) with the Victoria League Melbourne (Australia). This latter scheme has been in operation for some months and has been handled by the C.V.W.W. As it is proposed considerably to extend this privilege within this theatre this scheme will in future be handled by Army Welfare Services instead of the C.V.W.W.

2. Standard parcels containing Sugar, Jam, Dried Fruits, and Tinned Meats, will be made up by the Victoria League, Melbourne, (Australia) and despatched, in bulk, monthly to the Incorporated Soldiers, Sailors, and Airmen's Help Society, London, who will distribute them to the addressee. The price of each parcel will be 5/-d. which covers all costs and guarantees its delivery.

3. This Headquarters has been granted an allotment of TWENTY (20) parcels for the month of September, and remittances with particulars must be forwarded to RAAC (Welfare) before the 7 Sep 45.

CONTINUED ON SHEET 2

Declassified E.O. 12356 Section 3.3/NND No. 758021

4. Therefore any OR of this Headquarters wishing to take advantage of this opportunity, will report in person to the Orderly Room (Pay NCO) before 31 Aug 45 with cash - 100 Lire (5/-) - giving the following information:-

Number, Rank, Name & Initials of donor.
Name and Address of recipient.

5. Although parcels addressed to Eire are subject to a Customs Duty of 5/6 on entering that country, the ISS and A.H. Society have made arrangements for this duty to be paid so that the parcels are delivered to the addressees free of all charge.

6. It is stressed that NO individual may send more than one parcel in one month.

7. To avoid delay, etc., preference will be given to the first twenty applicants.

1098. SAFEGUARDING OF WD VEHICLES

RAAC Routine Order No. 650 dated 10 Aug 45 is repeated hereunder for the information and compliance of all concerned:-

"Reference is made to GRO 169/45.

1. The above mentioned GRO lays down that WD and requisitioned vehicles (including motor-cycles) will never be left unattended except:
   (a) when essential on operational grounds;
   (b) on account of other urgent necessity;
   (c) by holders of user-driver permits.
2. However, losses of vehicles owing to theft in this area continue to occur.
3. In some such cases vehicles had been immobilized, but this had proved a totally inadequate precaution to prevent determined thieves from stealing them even when the person in charge was only away for a short time.
4. The Commander British Troops Rome is of the opinion that at the present time it is absurd to invoke operational necessity in an area such as Rome, and considers that in future drivers should be accompanied by a second person, not necessarily a driver, who can assume charge of the vehicle in the absence of the driver; also that all holders of user-driver permits should be accompanied by a person who can assume responsibility for the vehicle during the absence of the driver.
5. This order will be brought to the notice of all ranks, and in future, if enquiries into the theft of WD or requisitioned vehicles disclose that the provisions of para. 4 above have not been complied with, Commanding Officers will be required to provide an explanation."

1099. MARRIAGE IN UK

RAMC Routine Order No. 648 dated 10 Aug 45 is repeated hereunder for information:-

1. For the purposes of the Marriage Act, the home town of a person serving overseas may be regarded as a place of residence.
2. Banns may therefore be published:

1099. MARRIAGE IN UK

RAAC Routine Order No. 648 dated 10 Aug 45 is repeated hereunder for information:-

"For those who may wish to be married with as little delay as possible on their return to the UK, the following ruling has been given:-

1. For the purposes of the Marriage Act, the home town of a person serving overseas may be regarded as a place of residence.
2. Banns may therefore be published:
   (a) at the home parish of the person overseas;
   (b) the parish of the person to whom he (or she) is to be married.

NOTE.- Publication of Banns in one Parish only is allowed, provided that the marriage is to take place in that Parish.

It is therefore possible for a soldier to arrange for publication of Banns prior to his return to UK, and for him to be married as soon after his arrival as is conveniently possible."

1017. ECONOMY OF CLOTHING

GRO No. 849 dated 20 Jul 45 is repeated hereunder for the information of all concerned:-

"1. There is a world-wide shortage of all types of clothing which has now become so acute that the quantities required to meet the needs of the armed forces cannot be met in full unless the rate of wastage is drastically reduced.

2. Commanding Officers, QMs and others will have already noticed the shortage of certain items of clothing. In particular, battle dress, greatcoats and blankets were in short supply last winter. There is no prospect of improvement, and it must be realised that the shortage is likely to extend to many other items of clothing.

3. The situation has assumed serious proportions. In order to ensure the best possible use of the limited quantities available, it is imperative that the instructions detailed below be followed.

4 (a) Clothing will not be condemned solely on the grounds of appearance, nor will new clothing be issued for uniformity of turnout on parade. Serviceability will be the governing factor in considering the necessity for replacement. Every garment withdrawn from use will be returned to Ord for reconditioning.

(b) Henceforth platoon or equivalent commanders will be made responsible for authorising all exchanges in their sub-units. The normal method will be that the individual who considers an article requires exchange will apply to his platoon commander; he will produce his AB 64, Part I, page 3, showing his release number. The platoon commander will examine the

2958

Declassified E.O. 12356 Section 3.3/NND No. 785021

examine the article, and if the conditions detailed in para 4 (c) obtain, and provided he is satisfied the garment cannot be repaired by the individual, he will give a written chit authorizing the replacement at the QM stores. No exchanges will be made without a written chit from the platoon commander.

(c) With effect from the date of publication of this CRO, only in exceptional cases will the clothing of any man be replaced during the three months prior to his release. If it is absolutely essential to effect an exchange, part-worn clothing will be issued. New garments will not on any account be issued to men proceeding to UK on release.

5. It is the duty of unit commanders to ensure this order is carried out and to take appropriate action against all personnel who fail to do so, or who are guilty of extravagance and waste of clothing by any means. Failure on the part of unit commanders to enforce this order will be specially reported by Inspectors of Army Equipment or Ordnance Officers concerned with the supply of clothing.

1016. WELFARE - SPORTS

(i) Venereal Disease. (GRO 735).

The penicillin treatment of Venereal Disease produces in many cases such successful results that the impression has been created, and is now widespread, that these diseases are no longer of a serious nature. A review of the results of penicillin treatment shows that even with this drug, treatment must be undertaken at the earliest possible moment if cure is to be attained.

In particular is this true of syphilis, a disease with a high incidence and widespread among the civilian populations of Italy and Greece. Unless treatment is undertaken immediately symptoms appear, relapse of the disease in an infectious form may occur within a few months. The late complications of syphilis when treatment is delayed are serious

The penicillin treatment of Venereal Disease produces in many cases such successful results that the impression has been created, and is now widespread, that these diseases are no longer of a serious nature. A review of the results of penicillin treatment shows that even with this drug, treatment must be undertaken at the earliest possible moment if cure is to be attained.

Unless treatment is undertaken immediately symptoms appear, relapse of the disease in an infectious form may occur within a few months. The late complications of syphilis when treatment is delayed are as serious as ever.

It is therefore strongly emphasised upon all troops that the successful treatment of Venereal Disease still depends upon early diagnosis and that they must report sick as soon as the first signs of the disease arise.

(ii) Captured Enemy Material. (CRO 736)

It is of particular importance that the provisions of CRO 731/45, as republished by CRO number 937 dated 7 July 45, is known by all ranks returning to the United Kingdom.

They are informed that searches are carried out on arrival in the United Kingdom and that severe disciplinary action will be taken against any individual found in possession of enemy material. Such disciplinary action may delay release and may result in forfeiture of leave.

£5	note	No A 191	61466

These forgeries are very difficult to detect. All ranks are warned of the danger of accepting Bank of England notes from civilians and are instructed that if they are offered or have already accepted such notes they will report the matter immediately to the O.C. Brit. Det. who will pass the report without delay to the nearest AFM/DAFM.

981. SANDFLY FEVER.

The following extracts from RAAC Routine Orders number 616 dated 11 July 45 are quoted for information and strict compliance of all concerned:-

Sandfly Fever and other fevers of short duration are becoming increasingly prevelant in the City of Rome.

These fevers are spread by small insects, the defence against which is similar to the defence against mosquitoes.

The two most important ways of combatting these insects are by use of insect repellant and anti-mosquito spray (Flysol, Flit).

Insect repellant should be used by all personnel working or resting in places where biting insects are found. It is to be noted that most of these insects such as Sandflies, unlike mosquitoes, bite both by day and night. Insect repellant should be applied not only to exposed skin surfaces but also to socks and stockings round the ankles.

Mosquito nets give no protection against sandflies and it is not proposed at present to order the general use of sandfly nets. It may, however, be necessary to order the use of these nets in specific instances where Units are having large numbers of cases.

960. ECONOMY OF CLOTHING

The following extracts from AFHQ letter ref AFHQ/9170/4 (AE) dated 7 Jul 45 are published for the information and guidance of all concerned:-

A serious world-wide shortage of clothing has now reached such proportions that unless drastic measures are taken to reduce the quantity of clothing used by the armed forces there will be insufficient to meet normal wastage.

There is already a shortage of Battle Dress, Greatcoats and Blankets, and this is likely to extend to many other items of clothing. As there is likely to be considerable difficulty in the supply of new Battle Dress during the autumn of 1945, the majority of troops in C.M.F. will receive part worn Battle Dress.

Considerable economy can be effected by all ranks making every endeavour to have repaired small tears, holes, etc., in their clothing before it gets to the stage when it is beyond repair.

ORs of this Headquarters are in possession of winter clothing with the exception of woollen underwear, and it is their duty to periodically inspect such clothing, to brush, press, and generally maintain it in a serviceable condition.

961. DISCIPLINE

All ORs who did not attend the medical inspection on Wed, 11 Jul 45, will parade outside the M.I. Room at 1400 hrs Sat, 14 Jul 45.

(c) Motor Vehicle Accidents

An analysis of accidents resulting in injuries for the month of May disclosed that motor vehicle accidents accounted for over 94% of the injuries.

A further study of the reports indicated that the underlying factor of most of the accidents was "unsafe speed".

Unsafe speed is commonly defined as failure to adjust speed to prevailing roads and traffic conditions.

Typical examples of unsafe speed which contributed to motor vehicle injuries are failure to reduce speed on curves, failure to reduce speed on wet pavement and failure to reduce speed after dark.

Speed limit notices are plainly marked in and around Rome, and it is the duty of all drivers to become acquainted with them.

Although the number of reports from the M.P. on speeding in this HQ has definitely been reduced there are still many breaches of driving [illegible] discipline. Any such cases that are brought to notice will be dealt with severely.

Completed ballot papers will be placed in the ballot box provided. They will NOT be posted in the ordinary way. The Declaration of Identity will be completed before the voter comes to the polling room.

922. DISCIPLINE

(a) Dress

The practice of ORs of the British Detachment walking outside the Billet Area improperly dressed is becoming very obvious. The most noticeable offences are ORs with no head-dress and wearing gymn shoes.

While there is no objection to a man visiting such places as the NAAFI, QM Stores or Dining Hall, there will, however, be a very serious view taken of any individual improperly dressed, outside the area which w.e.f. to-day will be considered as the Billet Area, i.e. the most direct route from Hotel Genova to the following places:- ORs' Dining Hall, NAAFI, QM Stores. This privilege will only be allowed to NAAFI & QM Stores during their opening hours.

It will be appreciated that ORs may desire exercise. On such occasions they will be at liberty to go out dressed as the exercise demands.

It is the duty of the Police at the entrance to the various billets to question every OR leaving the billet improperly dressed, and if he is not satisfied with his explanation he will order him back to his quarters. The Provost Sjt will ensure that Police become more strict in their duties.

GRO No. 617 dated 1 Jun 45 is republished hereunder for the information and strict compliance of those concerned:-
1. Considerable damage is being caused to vehicle engines and transmission through the practice of engaging a lower gear when slowing up. 2. Drivers will be instructed that, apart from their normal function, low gears will only be used to check vehicle speeds while descending steep hills: under these conditions the gear which would normally be used to ascend a particular hill should be engaged for the descent.
3. The practice of changing down to a lower gear at excessive road speed when approaching a gradient or obstacle should also be strongly discouraged.

821. REMITTANCES & FAMILY ALLOWANCES

802. USE OF WD TRANSPORT - CIVILIANS

In accordance with RAAC letter ref 14A5 dated 8 Jun 45, civilian lady friends are allowed to travel in WD vehicles to organized military dances, under the following conditions:-

That the Senior WO, NCO or man travelling on the vehicle is fully responsible.

He will have in his possession a certificate signed by an officer (of the rank of Major or above) showing the type of vehicle to be used, the number of civilians to be carried and the route to be taken to and from the dance. If there is no OR on the vehicle the certificate will be in possession of the driver, and on no account will any driver carry civilians until he actually sees the above-mentioned certificate signed and completed.

Furthermore, all civilian passengers will sign an additional certificate (as shown below) to the effect that they are travelling at their own risk and that the signing of the certificate absolves the W.D. from any claim that may result if an accident does occur.

As far as the British Detachment is concerned the Provost Sjt will be responsible that

1. Civilians do actually sign a certificate.
2. That number of civilians shown is correct.
3. That the route is the shortest and best.

Certificate to be used for Civilians:-

803. CONSERVATION OF WATER

2912

During the coming months, several factors point to an impending shortage of water. The main causes are as follows:-

(a) An unusually dry Spring season.
(b) There are no reservoirs in the system and therefore no reserve can be stored up.
(c) The population to be served, both military and civilian, is far in excess of the pre-war population for which the distribution system was considered barely adequate.

In view of the above, precautions will be taken by all ORs of this HQ to exercise economy in the use of water. Taps will not be left running, and the plumber will ensure that the washers on all fittings are in a serviceable condition.

As a point of interest, attention is directed to the fact that the water used in the Roman fountains, and that used for wetting down the streets of the city, is not potable, and is not connected with the drinking supply.

787. INFECTIVE HEPATITIS (JAUNDICE)

The following is published in conjunction with GRO No. 994 dated 1 Dec 44:-

1. Outbreaks of jaundice have been reported in most campaigns during the last hundred years.

Since the outbreak of the present war, the disease has become one of the major causes of loss of man-power in campaigns around the shores of the Mediterranean. An average stay of three weeks in hospital is necessary. Sharp epidemics have occurred each autumn, lasting until about mid-winter. The Germans have been similarly affected.

2. Infective Hepatitis is known to be an infectious disease, the infecting agent being a virus. At the moment, the normal method of spread of the disease is not known definitely, but it is thought to be by "droplets" from the nose and throat, conveyed by cups, glasses, etc., or by human excreta, or it may be conveyed by flies. Overcrowding, bad ventilation, chills and undue physical strain may predispose.

3.(a) Personnel employed in the handling of foodstuffs and messing utensils will keep their nails cut short and wash their hands after each visit to the latrine. The Serjeant i/c Cookhouse will ensure that the hands of all the cooks are inspected periodically.

(b) Sterilization in all messes, canteens, etc., of glasses, mugs, cups, forks and spoons and other feeding utensils both before and after use, in accordance with instructions laid down in GRO 336/44. Personnel should, where feasible, use

The following is a message received from the Rt. Hon. Mr. Harold MacMillan, M.P., dated 25 May 45:-

"To All Ranks of the Allied Commission:-

The Prime Minister has instructed me to return at once to England.

I cannot leave without sending a message of thanks and good wishes to all my friends in the Allied Commission and Allied Military Government.

Ever since the landings in Sicily, nearly two years ago, I have seen and admired your work. During recent months I have been more intimately associated with you. Many conflicting duties have hampered my capacity to do more than try to help my friends and your chief, Admiral Stone, to the best of my ability. But I shall always be proud of my association with your enterprise, and the high ideals which have inspired you all.

Good luck and God speed."

The following extracts from GRO No. 1059, s/n 51, dated 22 Dec 44, are published for the information and guidance of all:-

1. The issue of beer in this theatre is largely dependent on local production. The distribution of this local production is being prejudiced by the non-return of empty bottles and cases. If this state of affairs continues, the full capacity of local breweries cannot be utilized, and issues to the troops will be correspondingly reduced.
2. With effect from 1st January therefore issue of beer from EFI on a strict bottle for bottle and case for case basis will be rigidly enforced.
3. Where, owing to increases in strength, a unit's indent exceeds the number of bottles drawn at the last issue, indents will be endorsed accordingly and signed by an officer and EFI will meet the indent. In the event of a decrease in strength, units will return all bottles and cases and draw only the amount to which their strength entitles them.
4. It is recognized that there will be a wastage due to fair wear and tear. EFI will therefore make an allowance, when necessary up to 3% per issue, to cover losses due to this cause.

701. SPECIAL MESSAGE FROM THE SUPREME ALLIED COMMANDER TO ALL THE ALLIED ARMED FORCES IN THE MEDITERRANEAN THEATRE:

"The territory around TRIESTE and GORIZIA and east of the IZONZO river is part of ITALY known as VENEZIA GIULIA. The territory around VILLACH and KLAGENFURT is part of AUSTRIA. The above Italian and Austrian territory is now claimed by Marshal TITO who wishes to incorporate it in JUGOSLAVIA. We have no objection to claims being put forward by Marshal TITO to this territory. His claims will be examined and finally settled with fairness and impartiality at the peace conference in exactly the same manner as other disputed areas throughout Europe. Our policy, as has been publicly proclaimed, is that the territorial changes should be made only after thorough study and after full consultation and deliberation between the various governments concerned. It is, however, Marshal TITO's apparent intention to establish his claims by force of arms and military occupation. Action of this kind would be all too reminiscent of HITLER, MUSSOLINI and JAPAN. It is to prevent such actions that we have been fighting this war. We have agreed to work together to seek an orderly and just solution of territorial problems; this is one of the cardinal principles for which the peoples of the United Nations have made their tremendous sacrifices in an endeavour to obtain a just and lasting peace. It is one of the cornerstones on which our representatives, with the approbation of world public opinion, are now at work at SAN FRANCISCO to build a system of world security. We cannot throw away the vital principles for which we have all fought. Under these principles it is our duty to hold these disputed territories as trustees until their ultimate disposal is settled at the peace conference. Within these territories our duty and responsibility is to keep law and order by our military forces and to ensure a peaceful and secure life for their peoples through our Allied Military Government. We may be relied on to act impartially as we do not cover these territories ourselves. In this situation I tried my best to come to a friendly agreement with Marshal TITO, but did not succeed. The UNITED STATES and British Governments have therefore taken the matter up directly with Marshal TITO. The Soviet Government have been kept fully informed. We are now waiting to hear

2. The committees' terms of reference will be:-
(a) To make suggestions for alternative dishes.
(b) To indicate dishes which are definitely unpopular in the units.
(c) To offer suggestions and proposals for improvement of the cooking and the serving of meals.

3. The next meeting will be held at 1315 hrs., Wed. 23 May 45, in Room 14 Albergo Genova.

4. R.A.A.C., Routine Order No. 530 dated 16 May 45 on this subject is repeated hereunder for information.

(i) Units are reminded that ACI 394/41 (as amended by ACI 1830/42)is applicable to this theatre and that the holding of Mens' Messing Committee Meetings is obligatory. Attention is also drawn to the value of these meetings as a means whereby the Mess Minutes regarding meals can be made known to Commanding Officers.
(ii) ACI 394/41 lays down the general principle upon which Mens' Messing Committees will be formed and meetings held.
In this theatre it will be interpreted in accordance with the requirements of individual units, but the following main rules will be observed:-
(a) The Unit Messing Officer will invariably attend the meetings and, when the PMI or 2 IC is not present, he will preside.
(b) Mens representation will be on the basis of one soldier per 30 men and care will be taken to ensure that the proportion of NCOs is not excessive. The Senior Cook may attend for consultation.
(c) The Committee will meet weekly in the case of units over 400 in strength and fortnightly in smaller units.
(d) Minutes will be kept. These will be submitted to the OC for his comments and instructions. They will also be available for inspection by the Catering Adviser.
(e) Names of members of the Messing Committee will be published in Unit Orders and time and date of Meetings notified in advance.

699. LAUNDRY.

Owing to the excessive amount of laundry that has had to be done this last week, ORs may find that some of the articles are not up to the usual standard. ORs who are therefore not satisfied with any of their laundry may return same with this week's bundle.

2. The soldiers who indulge in this pastime would not wish to be considered as saboteurs, but the practical effect of their act is the same as though it were committed by an enemy agent. No facility in the theatre is of more vital importance to the war effort than the supply of electric power to the various industries, the production of which is needed to sustain the armies as well as the civilian economy.

3. There is no need to point out the seriousness of an offence such as quoted above and a very serious view will be taken of any similar acts committed by personnel of this Detachment.

690. HEALTH WEEK

7. Maintenance of Health in the Field Wins Wars.

The fighting power of an Army depends not on its "paper" strength in man-power, or the number of Battalions and Divisions which compose it, but on the actual number of men fit to engage the enemy. The ranks of 28869 may be decimated by disease before a shot is fired.

CONTINUED ON SHEET 2

Declassified E.O. 12356 Section 3.3/NND No. 785021

Sickness, has time and again proved more devastating than enemy bullets, and, not once or twice, it has sealed the fate of Armies and Empires. The history of the World is studded with examples of this. To mention only a few:-

The Gauls were forced to retreat in disorder from the Siege of Rome owing to the depletion of their ranks by Malaria.

Some centuries later, a French force retired from an attack on Naples, heavily infected by the "new disease" - Syphilis.

It was written of Napoleon's Army that it spent twenty years teaching Europe how to fight, and that it was only the thermometer and never the bayonet which could break the Grand Army down.

In the Crimean and South African wars sickness casualties and deaths were infinitely greater than those brought about by enemy action.

In Macedonia in the last War, operations were virtually suspended because a large proportion of the force was hospitalised with Malaria.

You have been told in the past week a few of the more important facts about the preservation of your health. Many of them you are doubtless well aware of already, but perhaps repetition will stimulate you to put this knowledge to the best advantage for the benefit of yourself and your comrades in arms.

By doing this wholeheartedly, you will preserve your own health, and will prevent anxiety and misery for your family. You will be contributing to no small extent to the defeat of the enemy and laying a sure foundation for the enjoyment of life both now and on your return to the domestic sphere of the post-war World.

600. HEALTH WEEK

6.(a) V.D. (Repeated)

Since the occupation of Sicily, Italy and Greece, the venereal disease rate has increased enormously. There were 27,000 cases admitted to hospital in 1944. So far, in 1945, the rate shows a steady upward trend. In Greece, for example, at one period the annual rate worked out at the almost incredible figure of 1 person out of 4 getting the disease. Half the admissions to hospital during that period were due to this cause! This is an appalling state of affairs. It is causing a drain of man power, a filling up of hospital beds required for other purposes, and the unnecessary use of expensive drugs which are urgently required throughout the world for the treatment of the sick and wounded.

Modern treatment, especially the use of penicillin, is such an advance on former methods that the successes have completely obscured the failures. Failures are by no means as rare as is generally thought: when the treatment fails these diseases still have serious and crippling late effects, and the soldier's wife and children are not immune.

Prostitutes and "easy" women in Greece and Italy are almost 100% infected. Civilian medical examination and treatment of prostitutes, has been proved to be most unsatisfactory, and is often done so cursorily as to be farcical. Instances are recorded in which prostitutes give heavy bribes in order to obtain false certificates of freedom from infection. (A number of persons charged with issuing false certificates are at present awaiting trial at an AMG Court). The risk of association with these women is consequently enormous. Most of them are also infested with lice and scabies.

The films "Subject for Discussion" and "Sex Hygiene" deal logically and clearly with the whole problem, and are no exaggeration of the true position. They have been widely shown in this theatre and have been seen by a great number of troops, yet this and much other propaganda, and the provision of welfare facilities of an order without precedent in any army hitherto, have only resulted in a rising incidence of venereal disease. There is only one conclusion, that in spite of all that has been done, the soldier has not been convinced of the true position, the risk he runs with any woman, and the failures of even the best modern treatment. It cannot be believed that he yet realises that veneral disease can and must be prevented and avoided.

(b) Prevention

Continence is no disgrace, nor is it harmful, and it provides an absolute guarantee against infection.

If a risk is run:- Use a condom and E.P. Packet. Go to a P.A. Centre within an hour. Report sick at once if you develop symptoms. Concealment is a crime, and the earliest possible treatment of syphilis is of paramount importance for cure.

Drunkenness plays a sinister part in the drama of V.D. Those who drink the potent (and often "doped") local "vino" to excess, lose their powers of reasoning, self control, and decency, and expose themselves to those hazards of infection, which normally, they would not dream of risking. The consequences are often calamitous; the slogan "Vino-Venus-V.D." is tragically descriptive!

676. HEALTH WEEK

5. Avoidable Complaints

(a) The common cold and sore throat and a form of pneumonia spread rapidly through a unit in which there is overcrowding and imperfect ventilation. If you get a cold try and prevent transmitting it to your comrades - cover your nose and mouth when you cough and sneeze. "Do not spit" - the penalty is not £5, but the infecting of a large number of other people is the probable sequel.

(b) Diptheria, Smallpox and skin diseases are extremely prevalent among civilians - be careful about your associations with them.

(c) Typhus is carried by lice and only by lice. If you are not infested you cannot get typhus.

(d) Rabies is becoming increasingly common in Italy and Greece and two soldiers who were bitten by dogs have died of hydrophobia. Hundreds of troops have had to undergo long periods of preventive treatment in hospital as a result of being licked or bitten by suspected dogs. The orders against the keeping of dogs are being largely disregarded, but, make no mistake, the danger of this fatal disease is a very real one.

(e) Other dangerous diseases are carried by rats. Protect your food supplies from contamination, and organize periodic drives to exterminate them. Bathing in rivers and streams is also liable to be dangerous, unless the place has been given medical approval.

677. REST HOME

W.e.f. 17 May 45 the Rest Home vehicle will leave the Genova Hotel punctually at 0900 hrs. It will be the responsibility of the Det Ord Sjt to draw 12 rations daily from Ration Stores at 0830 hrs and place same in charge of the senior soldier or NCO.

671. HEALTH WEEK

a. Dysentery & Typhoid.- These are caused by food or drink contaminated by flies or dirty hands. Large numbers of Italians are carriers of both dysentery and typhoid. Untreated water and uncooked fruit and vegetables are a great source of danger. Here again, unseasoned and undisciplined troops, and reinforcements who are not camp clean, suffer most. They often learn their lesson in the bitter school of experience. The number of cases of dysentery in 1944 was relatively much less than during 1943. This was due to improved discipline and increased knowledge of the means of prevention. This figure must be reduced this year. The three maxims are:-

(a) Eliminate fly breeding-places (filth, insanitary latrines, manure, waste food dumps) and kill adult flies.
(b) Protect food from contact with flies.
(c) Do not eat or drink anything except from an authorised source. Wash your hands before eating.
(d) Keep cookhouses and food stores and their surroundings clean. Fly proof the windows and keep the doors closed. Use flit guns frequently. Messing utensils must be cleansed before and after use (GRO 63/43).

It is obvious from the response received, that O.Rs. of this Headquarters do not fully realise the importance of the facility offerred by being able to vote by Post in any forthcoming General Election, whilst being a serving member of H.M. Forces, either abroad or at home.

It is necessary that a declaration card should have been completed to enable you to make an application for Postal Voting (A.F.B2639).

The value of making your own vote cannot be over stressed, therefore those eligible are urged to FILL IN THAT A.F.B2639 NOW, obtainable from the office of the Det. Ord. Sgt.

666. HEALTH WEEK.

2. V.D.

Since the occupation of Sicily, Italy, and Greece, the venereal disease rate has increased enormously. There were 27,000 cases admitted to hospital in 1944. So far, in 1945, the rate shows a steady upward trend. In Greece, for example, at one period the annual rate worked out at the almost incredible figure of 1 person out of 4 getting the disease. Half the admissions to hospital during that period were due to this cause! This is an appalling state of affairs. It is causing a drain of man power, a filling up of hospital beds required for other purposes, and the unnecessary use of expensive drugs which are urgently required throughout the world for the treatment of the sick and wounded.

Modern treatment, especially the use of penicillin, is such an advance on former methods that the successes have completely obscured the failures. Failures are by no means as rare as is generally thought: when the treatment fails these diseases still have serious and crippling late effects, and the soldier's wife and children are not immune.

Prostitutes and "easy" women in Greece and Italy are almost 100% infected. Civilian medical examination and treatment of prostitutes, has been proved to be most unsatisfactory, and is often done so cursorily as to be farcical. Instances are recorded in which prostitutes give heavy bribes in order to obtain false certificates of freedom from infection. (A number of persons charged with issuing false certificates are at present awaiting trial at an AMG Court). The risk of association with these women is consequently enormous.

Most of them are also infested with lice and scabies.

The films "Subject for Discussion" and "Sex Hygiene" deal logically and clearly with the whole problem, and are no exaggeration of the true position. They have been widely shown in this theatre and have been seen by a great number of troops, yet this and much other propaganda, and the provision of welfare facilities of an order without precedent in any army hitherto, have only resulted in a rising incidence of venereal disease. There is only one conclusion, that in spite of all that has been done, the soldier has not been convinced of the true position, the risk he runs with any woman, and the failures of even the best modern treatment. It cannot be believed that he yet realises that venereal disease can and must be prevented and avoided.

629. POSTAL VOTING AT THE NEXT GENERAL ELECTION (Notice Board Information No. 127 refers)

You should have filled up and posted an AF B2626 some time prior to this date. This guaranteed your vote in the future and placed you officially on the Voting Register.

On this form you probably nominated a proxy, i.e. a person whom you authorised to vote for you in your absence overseas.

When the date of the next Election is fixed you may desire to vote on your own accord and not use the services of your proxy, consequently you may take advantage of the Postal Voting service which is now in operation. This will ensure that Ballot Papers are sent direct to you with candidates names, etc., and you can then make your vote direct from this end.

You can now obtain from the office of the Ord Sjt, Brit Det, an AF B2639 which you fill up according to instructions and post in the normal way. This form requests that Ballot Papers, etc., be sent to your present address.

It is of paramount importance that all ORs of this Bn realise that in the near future there must be a General Election and that his vote will be an important contribution to the future Democratic Governing of Great Britain.

505. SOLDIER'S SERVICE & PAY BOOK - AB64 PARTS I & II.

Daily Routine Order number 397 dated 28 Mar 45 is repeated hereunder for information and compliance of all O.Rs.

All O.Rs. must be in possession of AB64 Parts I & II, and every care will be taken to preserve them. Any soldier not in possession of either will report to the British Orderly Room immediately.

The following orders in respect of AB64 Parts I & II are repeated for information and strict compliance of all concerned:-

(a) Identification - O.Rs.

AB64 (Parts I & II) provides the soldier's only means of identification. Many troops stationed in ROME are unable to produce either of these when called upon by C.M.P. to do so.

Therefore no O.R. of this Headquarters will leave billets for any reason unless he is in possession of AB64 (Part I or II).

If for any reason it is essential for any O.R. to hand in his Pt. I & II before leaving billets, a certificate, signed by the O.C. British Detachment, stating the circumstances, will be given to him.

(b) Next of Kin - Amendments to AB64 Part I.

In conjunction with AGI 667/44, the following is laid down for all O.Rs. of this Headquarters:-

Any alteration in the particulars of the next of kin will be reported immediately to the British Orderly Room.

Such alterations will then be made by the soldier concerned in his AB64 Part I under the observation of the O.C., who will initial the new entry.

(c) Hospital Admissions.

It is again emphasized that when proceeding to hospital either for treatment or admittance, all O.Rs. will ensure that they are in possession of their AB64 Parts I & II.

(d) Duty-Free Labels.

Other Ranks of this Headquarters are in the habit of leaving their AB64 Part I with the Orderly Room duty clerk requesting an issue of Duty-Free Labels, with a view of collecting same at a later date. This practice is most irregular and will cease forthwith.

It is pointed out that A.Fs.W5192 are signed by an Officer and the labels must be signed for by the recipient.

556. PARCEL POST - FRUIT.

G.R.O. 395 dated 13 April 45 is repeated hereunder for information and guidance of all.

It is still being reported from U.K. that a high proportion of the fruit parcels despatched from this Command are received in the U.K. in a badly damaged condition with much of the fruit unfit for consumption. In addition to the waste of money and shipping space involved the condition of these parcels is a potential source of damage to other postal traffic.

Attention is directed to G.R.O. 548/44 which is republished below:-

"1. A large proportion of the fruit in parcels despatched by troops in this Command arrives in the U.K. unfit for consumption and has to be destroyed. Apart from the waste of sender's money and the disappointment suffered by the persons to whom the parcels are addressed, the rotted fruit causes serious damage to other postal packets and mail bags.

2. The principle causes of damage and decay are:-

(a) Inadequate and unsuitable packing. Experience shows that the thin wooden boxes frequently used for packing are totally inadequate.

(b) The despatch of soft fruit, particularly oranges and lemons in a ripe condition. Fruit parcels are liable to take several weeks in transit to U.K. and fruit should therefore be despatched green.

3. In order to reduce wastage to a minimum, the Army Postal Service will NOT in future accept parcels addressed to the U.K. and Eire, containing fruit, unless the following conditions are complied with:-

(a) Fresh Figs, Peaches, Plums, Cherries and other perishable fruits must not be enclosed.

(b) Oranges and lemons must be packed in a green or unripe condition.

(c) No other food commodity, material or article will be enclosed.

(d) The fruit should be packed in stout wicker baskets. If wooden boxes are used, they should be of stout manufacture with small holes in the sides for ventilation.

(e) Each fruit should be wrapped in tissue or soft paper and baskets or boxes lined with soft packing material, such as straw or wood shavings.

(f) Particulars of the contents and the value must be shown on the outside of each parcel. A slip should be enclosed showing the name and address of the sender and the person to whom the parcel is being sent. Letters will not be enclosed.

(g) The label should be boldly marked "FRUIT ONLY"

339 CENSORSHIP - BREACH OF GREEN ENVELOPE PRIVILEGE.

1. Cases have been reported of green envelopes being handed to Italian photographers in order that films left for developing might be returned to the owner by post. The envelopes have been addressed to the owner of the films and the certificate, stating that the contents of the envelope relate to nothing but private and family matters, signed by him and the unsealed envelope handed to the photographer. This is an abuse of the green envelope and is also likely to lead to breaches of security.

2. Under the Censorship Regulations all ranks are forbidden:-

(a) To hand to any civilian any envelope or other cover addressed to them and capable of being transmitted by post.

(b) To notify their unit address to any civilian. Disciplinary action will be taken against offenders.

Blister gas liquid from ground burst projectiles.- In the case of ground burst projectiles, the immediate adjustment of the facepiece is necessary to give protection to the eyes and breathing passages against the fine mist caused by the burst of the projectile. Personal decontamination should be carried out subsequently by those individuals who were near the burst and splashed with the liquid.

Blister gas liquid on the ground.- It is a desirable precaution whenever the military situation permits, to avoid liquid contamination. Blister gas liquid on the ground must not, however, be treated as an obstacle; it will frequently be necessary in the field for troops on foot to cross such ground, more especially the leading troops. Even so, little if any significant liquid contact need be made in daylight provided that care is used, long grass and bushes are avoided and troops do not lie down. When such precautions are not possible or desirable (e.g. at night or under aimed fire or when troops are forced to lie down) capes should be worn, ointment used to protect the exposed skin, obvious liquid avoided, and personal decontamination carried out at the earliest opportunity - particularly the swabbing of boots.

512 DISCIPLINE (General)

D.R.O. 543 dated 25 Oct 44 is again published for information and strict compliance.

(a) Absentees.

The number of absentees picked up in Rome Area during the last few weeks has been considerable. The co-operation of all ranks is necessary to ensure that Rome shall not become such a hot-bed of desertion-crime as have other cities. Before giving lifts to service personnel, it is the duty of all ranks to satisfy themselves as to their bona-fides.

(b) Theft of Vehicles.

The loss of W.D. and requisitioned vehicles in the future will be even more severely dealt with.

(c) Unauthorized Lifts to Civilians

This has resulted in known enemy agents quite easily getting about the country, and so more easily securing valuable information. Civilians may only be transported when in possession of an authority signed by an Officer.

(d) Thefts from Vehicles.

It is emphasized that when anyone besides the Dvr is travelling in a truck, that person shall always be in the back of the vehicle to safeguard its contents.

(e) Thefts from Quarters.

ORs are reminded not to leave odd articles of clothing and personal belongings, etc., about. Prevention is better than cure.

(f) Dress, Saluting & Bearing.

It is particularly desirable that in the Capital City of Italy representatives of the British Army shall set the highest example. There are still too many lapses and the fullest co-operation of all ranks is expected to maintain the high standard of bearing on which the British Army has always prided itself.

(g) Passes

All ORs are reminded that they must be in possession of a pass issued by their unit, authorizing their presence in Rome.

445. MT VEHICLE PARK

(a) DRO No. 333, dated 7 Mar 45, is repeated hereunder for the information and strict compliance of all concerned:-

"Owing to the increasing number of WD vehicles being stolen in the ROME AREA a vehicle park has now been organized for use by British drivers of this organization and is situated in the VIA ANTONIO ROSMINI, (first turning on the right past the GENOVA HOTEL, from the Central Railway Station). The park will be taken into use with effect from Tuesday, 9 Jan 45, subject to the following conditions:-

1. Only vehicles (this including motor cycles and requisitioned vehicles) of this unit, or on duty with this Headquarters, are to be parked in this area.

2. Vehicles will be parked between the following times ONLY, during which a Regimental Policeman will be on duty at the entrance and it is the responsibility of the Provost Sergeant to ensure that a R.P. is on duty during these times.

1200 - 1400 hrs
1730 - 2359 "

2847

3. Every possible precaution will be taken by drivers against theft of or from vehicles by locking vehicle doors, the chaining and pallocking of steering wheels, etc.

The practice of immobilising vehicles is not considered as a precaution against theft and will not be adopted.

(Daily Routine Order No. 706, para 5, refers).

CONTINUED ON SHEET 2

Declassified E.O. 12356 Section 3.3/NND No. 785021

4. It is pointed out that the purpose of the vehicle park being available between 1730 and 2359 hrs is so as to permit drivers on late duty calls to leave their vehicles unattended during these times only, and parade of any unit entertainment, or to remain in billets instead of going to and from the Super Garage and/or remaining with their vehicles until their officers return.
5. No vehicle will be parked or left unattended in the park after 2359 hrs.
6. No vehicles will be parked outside the Vaccari Restaurant or the Hotel Genova (ORs' billet, Mess) during the times laid down in para 2 above.
7. It is emphasized that this vehicle park has been arranged for the benefit of British drivers of this unit, or on duty with this unit, therefore on no account will drivers not on duty with vehicles use this park and the R.P. is authorized to check the work tickets of all drivers intending to use the park. A serious view will be taken of any abuse of privileges gained thereby.

(b) W.e.f. 29 Mar 45, the sentry on duty at the Genova Car Park will remain on duty till 2359 hrs. If at 2200 hrs there is no vehicle in the Park the sentry will stand down, by reporting to Duty NCO at the ORs' billet. He will not leave the billet, but will be available to return on duty if required.

The sentry's main duty is to guard all WD vehicles (requisitioned or otherwise) within the park. He will on no account question drivers as to their authority for use of vehicles or Park. He will report any doubtful users or unusual incidents to the R.S.M. as soon as possible.

The Provost Sjt will pay more attention to this particular post.

All previous orders on this subject are hereby amended.

485. GAS TRAINING (REPEAT) LESSON No. 27

Mustard Gas.- This is an important example of blister gas. The characteristics of mustard gas may be summarized as follows:-

(i) Pure mustard gas is colourless. The crude substance as used in war may vary in colour from light brown to nearly black.

(ii) Both pure and crude mustard gas give off an invisible vapour which has a slight smell resembling onions, horseradish or garlic. With continued breathing of the vapour the smell becomes less noticeable and the fact that the gas cannot be smelled does not mean that it is not present.

(iii) A danger of mustard gas lies in the fact that neither the liquid nor the vapour produce any immediately painful effects, and untrained men may become unnecessary casualties through not taking the proper action when exposed to the vapour or contaminated by the liquid.

(iv) Mustard gas dissolves in spirits, petrol, oils and fats.

(v) The liquid is quickly destroyed by gas ointment, and also by bleach ("chloride of lime"). Bleach paste rubbed into the skin for one minute, and then swabbed off, is an effective substitute for gas ointment.

Two-fold danger of blister gases.- These gases can cause casualties either as a result of contamination by the liquid, or as a result of exposure to the vapour. The respirator does not supply the complete answer, for both the liquid and the vapour attack all parts of the body; and the respirator only gives protection to a part of it. The protective action taken when contamination by the liquid has occurred differs from that required as a result of exposure to the vapour. It should be borne in mind, however, that serious casualties can result from the action of blister gas vapour on the eyes and breathing passages unless prevented by the timely adjustment

468. GAS TRAINING (REPEAT) LESSON No. 25.

2843

Effects of weather on the use of persistent gases.- It must first be understood that conditions which favour great persistence do not favour a high vapour concentration; similarly, conditions which favour a high vapour concentration, do not favour great persistence. The chief weather factors which influence persistence and vapour concentration are:-

i. Wind.- A strong wind causes liquid gas to evaporate more quickly, and so reduces the time of persistence. This does not mean that a strong wind increases the vapour concentration, since the vapour, though produced more quickly, is dispersed more by the wind.

ii. Temperature.- High temperature increases the rate of evaporation and reduces the persistence. The high vapour concentration which results from high temperature is offset to some extent on sunny days by the turbulence of the atmosphere.

iii. Rain.- Rain tends to slow down the rate of evaporation, and so to reduce the vapour concentration. (Heavy rain, falling on a hard surface which has been contaminated, will wash away some of the gas which may still be dangerous at the place to which it is removed.)

Effects of ground on the use of persistent gases.- On dry, porous ground the liquid tends to sink below the surface and thus persistence is increased while vapour concentration is decreased. On hard ground, liquid tends to stay on the surface and to evaporate more quickly; thus the time of persistence is shorter but the vapour concentration is greater.

417. G.S TRAINING

1. Lesson No. 20 (Repeat)

Gas alarms, restricted use.- Although all ranks must immediately take the appropriate action on hearing the sound of a rattle or the verbal warning "spray", a sentry will not immediately sound his own rattle and adjust his facepiece, or repeat the verbal warning "spray". He should be at once alert for gas and will sound his rattle or give the verbal warning "spray" when he recognizes the presence of gas. Failure to observe this rule may result in the unnecessary adjustment of facepieces by troops in an area of considerable extent, even though gas may be present in only a small part of that area. Consideration of wind direction may save much unnecessary disturbance to rest.

2. Gas Training Parade

The u/m ORs and any other personnel who have not yet passed through the Gas Chamber will parade outside the Hotel Genova at 0745 hrs Sat, 24 Mar 45, with their respirators. Those who by virtue of duty are unable to parade at 0745 hrs will do so at 1300 hrs as above.

458. V.D. DISCIPLINE

(a) The following is published in response to RAAC letter ref 26A1 dated 27 Mar 45:-

(i) In spite of previous orders published on this subject, it is evident that men who expose themselves to the risk of infection are too often neglecting to apply prophylaxis at the earliest possible time.

(ii) It is pointed out that during the period of January and February, of some hundreds of men admitted to hospital with veneral disease less than 10% had attended a P.A.C. or a Prophylactic Station. Other figures are available which show that few men who make timely use of prophylaxis do contract disease.

(iii) This indicates therefore that men fail to realize their responsibilities in the importance of prevention.

(b) The previous orders published referred to above are repeated hereunder for information and strict compliance:-

"Concealment

In accordance with King's Regulations, 1940, para 555, a soldier who is suffering from V.D. must report himself sick without delay. Concealment of the disease delays treatment and causes a loss of manpower to the Army.

contour near the temple which presses the flattened side member of the spectacles against the face of wearer and ensures a gastight fit.

(iii) The flattened sidemembers should be just out of contact with the skin of the face, particularly near the eyes. Where necessary they should be bent or slightly twisted to ensure this.

(iv) With the Mark V facepiece, the buckle at the temple may have to be bent slightly outwards to prevent it pressing against the spectacle frame.

453. GAS TRAINING (REPEAT) LESSON No. 24

2838

Effects of ground on the use of non-persistent gases.- Built-up areas, woods, valleys, hollows in the ground, and enclosed spaces generally are the best targets for non-persistent gas attack, as will be seen from the following facts:-

(i) Open country.- Not usually very good for non-persistent gases released from projectiles, as the gas will disperse comparatively quickly. (Clouds released from generators will, however, travel well over open country especially if the ground is not very broken.)

(ii) Valleys.- Gas clouds tend to follow valleys, and, in the absence of wind, may hang about for a considerable time.

(iii) Built-up areas, woods, and enclosed spaces.- These provide good targets for non-persistent gas projectiles, since the gas is released within the area and tends to hang about. (On the other hand, they are not very good targets for generator attacks, since gas clouds travelling with the wind tend to rise over obstacles, such as buildings or woods, when they meet them.)

All ORs of this Headquarters (excluding Land Forces Sub-Commission) will report to the QM Stores between 0900 and 1700 hrs for the purpose of drawing K.D. clothing on the dates stated against the initial letters of their surnames, as follows:-

Surnames commencing with	A-D	Thu, 29 Mar 45.
" " "	E-J	Fri, 30 " "
" " "	K-R	Sat, 31 " "
" " "	S-Y	Mon, 2 Apr 45.

It is emphasized that K.D. clothing will not be sent to the laundry under Unit control for washing or ironing purposes. This will be subject to further orders in the near future.

K.D. clothing will NOT be worn until notification is made in Daily Routine Orders.

440. GAS TRAINING (REPEAT) LESSON No. 23

Effects of weather on the use of non-persistent gases.-

(i) Wind direction.- Projectile weapons are not likely to be used against forward enemy troops when the wind is likely to blow the gas back, so as to be dangerous to friendly troops. (Generators can, of course, be used only when the wind is blowing from the point of release towards the target.)

(ii) Wind speed.- Strong or gusty wind causes gas to disperse; on the other hand, if there is no wind the gas will tend to stay in one place, and this is not always desirable.

(iii) Turbulence.- On hot, sunny days the hot air near the surface of the earth is constantly rising while cold air from above is falling. This effect of turbulence causes gas to disperse rapidly, and sunny days are therefore bad for the use of non-persistent gas. On cold, clear nights the cold air near the surface of the earth has no tendency to rise, and this condition is the best for the use of non-persistent gas. Intermediate conditions, such as cloudy nights, overcast days, and times round about dusk and dawn are fairly good.

(a) Other Ranks.-

(i) Sick Parade for ORs is held at the M.I. Room, HQ Bldg., at 0900 hrs daily.

(ii) Other Ranks of this HQ wishing to report sick will do so to the Ord Sjt either before or by 0830 hrs on the day of parade.

(iii) Those wishing to consult the Medical Officer after the above-mentioned hour may only do so for a justifiable reason, by reporting to the Ord Sjt requesting to be placed on a "Special Sick Report".

(iv) Other Ranks are reminded that treatment prescribed by the M.O. other than "M & D" implies that the individual concerned is confined to his billet.

(b) Officers may consult the M.O. between 1000 and 1130 hrs daily or by appointment.

429. GAS TRAINING (REPEAT) LESSON No. 21

Fitting of Respirator.- Take a normal size facepiece and slacken off the elastic bands. (Majority of individuals will take a normal size.)

Tighten the elastic bands in pairs. (Do not pull them too tight as this may prevent the facepiece from taking the shape of the face and thereby cause a leak.)

See that the bands are all exerting an even pull and are just sufficiently tight to hold the facepiece stable on the face without causing discomfort.

Examine the facepiece for size. If the eyes are much above the centre of the eyepiece, the facepiece is too small; if much below the centre, it is too large; if approximately central, the size is correct.

Examine round the edges of the facepiece, particularly under the chin, to ascertain that the facepiece is firmly on the face. (The wearer's chin must fit closely into the chin of the facepiece.)

409. GAS TRAINING

1. Lesson No. 19 (Repeat)

(a) Gas duties of sentries, for spray.- In order to ascertain if spray has fallen and to be able to give timely warning, a sentry must visit each detector for which he is responsible at intervals of not more than 10 minutes. The following action is to be taken by a sentry on noticing that spray has fallen:-

i. Shout "spray".
ii. Carry out Part I of personal decontamination.
iii. Warn the guard commander, who will arrange for spray detectors to be swabbed or renewed.
iv. On relief (the guard commander should arrange this as soon as possible) carry out Part II of personal decontamination.

(b) Gas alarms when troops are at rest.- Troops at rest are highly vulnerable to gas attacks. It is the normal practice to post double sentries at night, and also by day when troops are sleeping. Point out that:-

i. In the case of gases other than spray.- The rattle may not rouse heavily sleeping troops. One of the two sentries on each post must therefore enter billets, bivouacs or shelters and rouse troops as quickly as possible. Speed in the adjustment of respirator facepieces is essential when a choking gas has been used.
ii. In the case of spray.- When sleeping troops are under cover it will be necessary to take special steps to rouse them when spray has fallen provided the standing order that helmets, eyeshields, capes and boots are worn when leaving cover for any purpose, is enforced; the sentry will, however, give the verbal warning "spray" in order to warn any individuals who may be about in the open.

397. SOLDIER'S SERVICE & PAY BOOK - AB 64 PARTS I & II.

All O.Rs. must be in possession of AB64 Parts I & II, and every care will be taken to preserve them. Any soldier not in possession of either will report to the British Orderly Room immediately.

The following orders in respect of AB64 Parts I & II are repeated for information and strict compliance of all concerned :-

(a) Identification - O.Rs.

AB64 (Parts I & II) provides the soldier's only means of identification. Many troops stationed in ROME are unable to produce either of these when called upon by C.M.P. to do so.

Therefore no O.R. of this Headquarters will leave billet for any reason unless he is in possession of AB64 (Part I or II).

If for any reason it is essential for any O.R. to hand in his AB64 before leaving billets a certificate, signed by the O.C. British Detachment, stating the circumstances, will be given to him.

(b) Next of Kin - Ammendments to AB64 Part I.

In conjunction with ACI 667/44, the following is laid down for all O.Rs. of this Headquarters:-

Any alteration in the particulars of the next of kin will be reported immediately to the British Orderly Room.

Such alterations will then be made by the soldier concerned in his AB64 Part I under the observation of the O.C. who will initial the new entry.

(c) Hospital Admissions.

It is again emphasized that when proceeding to hospital either for treatment or admittance, all O.Rs. will ensure that they are in possession of their AB64 Parts I and II.

(d) Duty-Free Labels.

Other Ranks of this Headquarters are in the habit of leaving their AB64 Part I with the Orderly Room duty clerk requesting an issue of Duty-Free Labels, with a view of collecting same at a later date. This practice is most irregular and will cease forthwith.

It is pointed out that A Fs W5102 are signed by an officer and the labels

upon by D.A.P. to do so.

Therefore no O.R. of this Headquarters will leave billets for any reason unless he is in possession of AB64 (Part I or II).

If for any reason it is essential for any O.R. to hand in his AB64 before leaving billets a certificate, signed by the O.C. British Detachment, stating the circumstances, will be given to him.

(b) Next of Kin - Amendments to AB64 Part I.

In conjunction with ACI 667/44, the following is laid down for all O.Rs. of this Headquarters:-

Any alteration in the particulars of the next of kin will be reported immediately to the British Orderly Room.

Such alterations will then be made by the soldier concerned in his AB64 Part I under the observation of the O.C. who will initial the new entry.

(c) Hospital Admissions.

It is again emphasized that when proceeding to hospital either for treatment or admittance, all O.Rs. will ensure that they are in possession of their AB64 Parts I and II.

(d) Duty-Free Labels.

Other Ranks of this Headquarters are in the habit of leaving their AB64 Part I with the Orderly Room duty clerk requesting an issue of Duty-Free Labels, with a view of collecting same at a later date. This practice is most irregular and will cease forthwith.

It is pointed out that A.Fs.W5192 are signed by an Officer and the Labels must be signed for by the recipient.

The previous order on this subject is repeated hereunder for strict compliance.

"Duty-Free Labels are obtained from the Orderly Room between 0830 and 0900 hrs daily, and personnel will produce their AB64 Part I when applying for same."

598. HQ COMMANDANT'S PARADE.

The u/m O.R. will parade outside the HQ Commandant's office at 0900 hrs on Wednesday, 21 March 45.

399. GAS TRAINING.

(i) Lesson No. 18 (REPEAT).

Gas duties of sentries, hostile smoke.- Gas may be used under cover of smoke; it is therefore necessary for hostile smoke to be treated as a war gas until it is proved otherwise. In the presence of hostile smoke, or when a hostile smoke cloud is about to envelope him, the sentry will act as in para headed "Gas duties of sentries, other than for spray." (When inside the cloud, the commander on the spot will give "gas clear" if he is satisfied that gas is not present, or that the smoke will not cause distress. Some screening smokes may be sufficiently irritant to make the wearing of respirators useful.)

(ii) Gas Training Parade.

All O.Rs. of No. 3 Coy (GD) are reminded that they will parade outside the Hotel Geneve at 0900 hrs Wednesday, 21 March 45, with their respirators for the purpose of testing, and passing through the Gas Chamber.

Those who by virtue of duty are unable to parade at 0900 hrs, will parade at 1300 hrs as above.

375. GAS TRAINING (REPEAT) LESSON No. 16.

(a) Removal of the Facepiece.- When the commander on the spot is satisfied that there is no longer any necessity to continue wearing the facepiece, he will cause the words "gas clear" to be passed by word of mouth; all ranks will then test for gas and, if satisfied that gas is clear in their area, they will remove their facepieces and pass on the words "gas clear".

(b) Verbal warning "spray".-

(i) This warning is given when the immediate action required is Part I of personal decontamination. Therefore, the verbal warning "spray" denotes that blister gas spray has fallen.

(ii) Blister gas released from containers carried by aircraft, or by means of air burst missiles (e.g. air burst bombs and air burst shell), is classified as spray. From this form of attack there is no danger to the breathing passages and therefore the respirator plays no part in protection against it, but personal decontamination is necessary to minimize casualties among individuals contaminated by drops of this spray. The gas alarm in both these cases is, therefore, the verbal warning "spray".

(iii) Every individual in the open who hears the verbal warning "spray" will immediately carry out Part I of personal decontamination.

The u/m OR will parade outside the HQ Commandant's Office (Ministerio Delle Corporazioni) at 0900 hrs on Thursday, 15 Mar 45:-

M2/14500239 Pte Morgan W.E. Phr Corps.

366. M.T. DISCIPLINE (DRs)

All motor-cyclists using the VIA MOLISE entrance of the Ministerio Delle Corporazioni Bldg to park their vehicles will "shut off" their engines before entering the building.

The Provost Sjt will amend the Police Standing Orders accordingly.

367. ACCOMMODATION (ORs' Billet)

The lounge of the Albergo Genova will not be used by any OR for sleeping purposes. 2826

It is the duty of the Regt Police to ensure that this order is complied with.

368. LOSS OF BICYCLES

District Routine Order No. 71, S/N 8, dated 10 Mar 45, is repeated hereunder for information:-

1. A large number of WD bicycles have recently been stolen in this District.
2. In many cases the loss has been directly attributable to carelessness on the part of the rider concerned.

CONTINUED ON SHEET 2.

Declassified E.O. 12356 Section 3.3/NND No. 785021

3. Bicycles are difficult to obtain and every possible step will be taken for their safe custody. Locks and chains ARE ONLY PARTIALLY EFFECTIVE AS A PREVENTIVE AGAINST LOSS and the only means of preventing theft is by NEVER LEAVING A BICYCLE UNATTENDED.

4. In future, disciplinary action will be taken against any officer or OR who, by his negligence, is found to be responsible for the loss of a WD bicycle.

369. GAS TRAINING (REPEAT) LESSON No. 15

Gas Rattle or shout of "gas".

(a) This warning is given when the immediate action required is the adjustment of the respirator facepiece. Therefore, the rattle or shout of "gas" denotes the presence of any gas other than blister gas spray.

(b) Every individual hearing the rattle or shout of "gas" will immediately stop breathing, adjust the facepiece and continue to work.

(c) Blister gas from ground burst missiles endangers, initially, the eyes and breathing passages. This is due to the shattering of a portion of the liquid gas into a fine mist which is dangerous. The immediate adjustment of the respirator facepiece is necessary if serious injury is to be prevented. The gas alarm in this case is, therefore, the sounding of the rattle or the shout of "gas". Subsequently, personal decontamination by those individuals contaminated by the liquid will be necessary to minimize casualties resulting from skin injury, and should be carried out with the minimum of delay.
