9. RELATIONS WITH ITALIANS: The following is extracted from Routine Orders, 94 Sub Area, dtd 26 May 1944, for the information and guidance of all concerned:

1. A considerable number of cases have occurred where troops of the Allied Forces have come into conflict with the Italian Carabinieri. In several instances the Carabinieri have used their arms, with fatal results.

2. It should be very clearly understood by all ranks that cases of this nature will be judged strictly upon their merits. The Carabinieri have important responsibilities. If Allied soldiers molest them, or interfere with them in the course of their duties, they should not expect any different treatment from that which they would receive if they gave similar trouble to Military Police of the Allied Forces.

3. On the whole the Italian Carabinieri have behaved well and constitute an important factor in the maintenance of order among the civilian population. So long as they carry out their responsibilities in a correct manner, the Commander-in-Chief wishes them to be given support, and he directs that suitable punishment should be meted out to any ill-disciplined soldiers who misbehave towards them.

4. The contents of this order will be brought to the notice of all ranks.

8. HUNTING PARTIES: The following is republished from Admin Memo #20, AFHQ, dated 13 May 44 for the information and guidance of all concerned:

1. The participation of personnel of the Allied armed forces in hunting parties organized by or with local civilians in various sections of this theater presents a general security problem in that:

a. Firearms and ammunition are often in possession of and used by civilians in the parties without formal permit.

b. Often civilians travel in restricted military areas without formal permit, and only by virtue of the presence of Allied military or naval personnel in the parties. This tends to relaxation of enforcement of control measures by the military guard in the areas.

2. To provide for greater security, the following action will be taken by all concerned:

a. All Allied armed forces personnel desiring to organize a hunting party must obtain specific permission on each occasion from the area or base commander to hunt in a certain locale for a certain period of time.

b. All civilians hunting or acting as hosts, guides or companions, must have in their possession, for each occasion, the following specific permits:

(1) Permit to hunt in certain locale for a certain period of time.

(2) Permit for travel involved.

(3) Permit for possession of firearms and ammunition carried.

c. Allied armed forces personnel participating in the hunt will be responsible for obtaining the necessary permits for civilians accompanying the hunting party.

d. When obtaining permission or permits the owner and type of firearm and ammunition will be indicated.

e. Consideration will be given the danger to areas contiguous to hunting locale because of the range of firearms and ammunition used in the hunt.

3. Action necessary will be taken at once for implementation of these instructions, coordinating them as necessary with local regulations governing travel and possession of firearms." (Adj)

"At Cagliari, Sardinia, on 3 March 1944, Carmino Lato, 31292744, Private First Class, Corps of Engineers, observed an Italian soldier cleaning a truck motor accidentally spill a considerable quantity of gasoline on himself. At the same instant the gasoline container came in contact with the electrical system producing a spark which caused the gasoline to burst into flame. Without hesitation Private First Class Lato seized the flaming soldier and rolled him on the ground, extinguishing the flames with his bare hands. His prompt and courageous action saved the soldier's life and reflects great credit upon himself and the military service.

"At Cagliari, Sardinia, on 3 March 1944, Carmino Lato, 31292744, Private First Class, Corps of Engineers, observed an Italian soldier cleaning a truck motor accidentally spill a considerable quantity of gasoline on himself. At the same instant the gasoline container came in contact with the electrical system producing a spark which caused the gasoline to burst into flame. Without hesitation Private First Class Lato seized the flaming soldier and rolled him on the ground, extinguishing the flames with his bare hands. His prompt and courageous action saved the soldier's life and reflects great credit upon himself and the military service.

b. Units and organization messes may serve ice cream manufactured in civilian ice-cream establishments provided:

(1) The same standards of sanitation are rigidly enforced as are required in U.S. Army messes.

(2) The plant and its operating personnel are regularly inspected and approved by the unit medical officer or sector sanitation officer. The record of such inspections will be prominently posted in the store.

(3) The entire process is completely supervised by army personnel.

(4) The ingredients are supplied by the units, a "cold" mix being used, and the ingredients and frozen cream are not handled by hand at any time.

(5) The freezer and storage compartment are washed in scalding hot water and air-dried prior to each operation.

(6) The plant is clean and free of flies at all times, and operating personnel wear clean clothes and are clean in person. (Adj)

Much valuable intelligence data has been lost through the destruction and stripping of name plates from captured enemy materiel and retention of documents, weapons, radios and other items as trophies. Necessary action will be taken by all commands to insure that all personnel are instructed that enemy materiel is not to be stripped of identification marks or equipment, or documents to be taken by souvenir hunters until clearance is given by the proper headquarters.

c. Military personnel returning to the United States from this theater may take such small items of captured enemy equipment as are not prohibited above. Military personnel in the theater may mail like articles to friends or relatives in the United States.

d. In each case where an individual returning to the United States has in his possession any of the authorized items, he will also have certificate in duplicate signed by his superior officer stating that the bearer is officially authorized by the theater commander to retain as his personal property the articles listed on the certificate. Any parcel containing captured materiel mailed from overseas will also contain a certificate in duplicate signed by the unit commanders that the sender is officially authorized to mail articles listed on the certificate.

e. Officers of all grades are charged with the responsibility of examining all equipment or items of supply presented for retention by individuals and each will assure himself that the item in question has no further military value, considered individually and collectively before he signs a certificate authorizing its retention.

f. Captured enemy materiel will not be taken or shipped to the United States except as authorized above." (Adj, Main)

9. PARCEL POST - FRUIT: The following is extracted from General Routine Orders 524 to 549, dtd 16 June 1944, for the information and guidance of all concerned:

1. A large proportion of the fruit in parcels despatched by troops in this Command arrives in the U.K. unfit for consumption and has to be destroyed. Apart from the waste of sender's money and the disappointment suffered by the persons to whom the parcels are addressed, the rotted fruit causes serious damage to other postal packets and mail bags.

2. The principle causes of damage and decay are:-

(a) Inadequate and unsuitable packing. Experience shows that the thin wooden boxes frequently used for packing are totally inadequate.

(b) The despatch of soft fruit, particularly oranges and lemons in a ripe condition. Fruit parcels are liable to take several weeks in transit to U.K. and fruit should therefore be despatched green

3. In order to reduce wastage to a minimum, the Army Postal Service will NOT in future accept parcels addressed to the U.K. and Eire, containing fruit, unless the following conditions are complied with:-

(a) Fresh Figs, Peaches, Plums, Cherries and other perishable fruits must not be enclosed.

(b) Oranges and lemons must be packed in a green or unripe condition.

(c) No other fruit commodity, material or article will be enclosed.

(d) The fruit should be packed in stout wicker baskets. If wooden boxes are used, they should be of stout manufacture with small holes in the sides for ventilation.

(e) Each fruit should be wrapped in tissue or soft paper and baskets or boxes lined with soft packing material, such as straw or wood shavings.

(f) Particulars of the contents and the value must be shewn on the outside of each parcel. A slip should be enclosed showing the name and address of the sender and the person to whom the parcel is being sent. Letters will not be enclosed.

(g) The label should be boldly marked "FRUIT ONLY".

4. If, due to non-compliance with the above instructions, fruit parcels continue to damage other postal packets in transit, it may be necessary to prohibit the sending of fruit parcels by post to U.K. (Adj)

10. FIELD CENSORSHIP - CHAIN LETTERS: The following is extracted from General Routine Orders 524 to 549, dtd 16 June 44, for the information and guidance of all concerned:

Unit censors will bear in mind that ineffective deletion defeats its own end by directing particular attention to the censorable matter. 1. A considerable number of cases have occurred where troops of the Allied Forces have come into conflict with the Italian Carabinieri. In several instances the Carabinieri have used their arms, with fatal results.

2. It should be very clearly understood by all ranks that cases of this nature will be judged strictly upon their merits. The Carabinieri have important responsibilities. If Allied soldiers molest them, or interfere with them in the course of their duties, they should not expect any different treatment from that which they would receive if they gave similar trouble to Military Police of the Allied Forces.

3. On the whole the Italian Carabinieri have behaved well and constitute an important factor in the maintenance of order among the civilian population. So long as they carry out their responsibilities in a correct manner, the Commander-in-Chief wishes them to be given support, and he directs that suitable punishment should be meted out to any ill-disciplined soldiers who misbehave towards them.

4. The contents of this order will be brought to the notice of all ranks. (Adj)

1. NIGHT STAFF DUTY OFFICER:

a. The Headquarters Night Staff Duty Officer will be Lieut R. B. EICHHOLZ (USNR), and can be located in Room 21, Provincia Building, telephone - Vapor 9.

b. Night Staff Duty Clerk Pfc T. Benton Woodward will eat supper at 1630 hours and report to the Duty Officer at 1730 hours. (Adj)

2. INCOMING SIGNAL MESSAGES:

Copies of incoming signal messages on receipt are given a wide distribution by the Adjutant's Department (Misc Section) to all sections or sub-commissions, and branches considered to be interested, the 'ACTION' copy being sent to the branch most concerned and 'Information' copies to all others.

In the event of action requiring to be changed, it is the responsibility of the branch which received the 'ACTION' copy from the Adjutant's Department (Misc Section) to notify the latter department accordingly.

When, however, as may occasionally happen, a branch to which 'Information' copy has been sent should properly have received the 'ACTION' copy, that branch should immediately notify the Adjutant's Department in order that the necessary change of action may be effected.

All must appreciate that unless "change of action" is immediately notified to the Adjutant's Department (Misc Section) subsequent communication on the same subject will consequently be erroneously referred. (Adj)

3. PAY - CIVILIAN EMPLOYEES:

Payment of civilian employees of this Headquarters for the period 1 - 15 April 1944 will take place on Saturday, 15 April 1944 at storeroom off courtyard, Provincia Building, between the following times:

0930 hours - - - 1130 hours
1400 hours - - - 1500 hours

It is requested that all Sub-Commissions and installations who have five or more employees appoint a paying officer or non-com who will draw the pay in bulk from this office.

All payroll sheets will be typed and turned in by 14 April 1944.
(Hq Comdt)

4. TELEPHONE SERVICE:

Equipment troubles on Naples*Salerno ACC lines and on Switchboards at Salerno and Naples have been corrected and some operating improvements have been made.

However, the telephone load on the Vapor switchboard at times exceeds the operating capacity, despite the recent doubling of switchboard size and operating personnel.

Facilities are necessarily on a minimum basis but they will serve best if properly and sparingly used.

TELEPHONE OPERATION AIDS

Dialing Numbers:

An increasing amount of operators time is being used to dial numbers, to the disadvantage of answering calls and making connections.

Dial lines are now all operating properly and should signal satisfactorily from Vapor phone dials.

To dial; say to operator "Dial line please"; wait for dial tone (A distinct buzzing sound) then dial correct number wanted. Remove finger from dial while it returns to normal position.

If your telephone is not equipped with a dial, and there would be considerable use for one, please advise.

3247

Declassified E.O. 12356 Section 3.3/NND No. 778502

If your telephone is equipped with a dial, and there is little use for it, please advise.

Only a limited number of dials is available.

Peak load periods:

From 1000 hours to 1130 hours and from 1400 to 1530 hours are the busiest switchboard loads. More placing of calls at other periods outside the busy hours would be helpful.

Facilities:

Vapor has three ACC lines to Salerno and ten dial lines. Brevity in telephone conversations and limiting to business use helps avoid "All lines busy" conditions.

Personal Services:

The secretarial sort of private switchboard service which is often available under other conditions can not be provided with the limited facilities and personnel available.

Please do not ask operators to place calls by name, to advise when a busy line is available, to transmit messages etc.

GENERAL ROUTINE ORDER - 710

31 December 1943

710. CABLE SERVICE BETWEEN NORTH AFRICA, C.M.F. AND UNITED KINGDOM

Soldiers of His Majesty's Forces in this Command may send and receive cables to and from the United Kingdom through official channels by one of the following methods.

I. CONCESSION (C.S.N.) TELEGRAMS

1. C.S.N. Telegrams may be sent under the following conditions:

(a) They will relate solely to urgent family or business matters.
(b) The addressee of a message will be a soldier's wife, child, parent, nearest relative, or the person responsible for his business affairs.
(c) The text of the message will not exceed twelve words, nor contain terms of endearment, congratulations, greetings, etc.
(d) The message will contain no reference to a formation or unit, or the location of the soldier. Thus it may not be used to notify the change of the soldier's address.
(e) No soldier may send more than one message in any calender month. The message will be censored by the unit commander, who will ensure that the above conditions are fulfilled, and that the message is of real urgency and connected with family or business matters. Unit commanders will exercise strict control of the numbers of cables passing through their hands, as the facilities which exist for the transmission of C.S.N. Telegrams are limited.

The entitlement will not be regarded as one to be made use of at all costs.

(f) Considerable delay has been caused through incorrect procedure being adopted.

If the conditions as set out in paras. I and II of this G.R.O. are not fulfilled, Signal Offices and G.H.Q. 2nd Echelon will return the message to the originator. C.S.N. Telegrams will not be addressed to the police, or to addressees outside the United Kingdom. (Note: Eire is outside the United Kingdom.)

(g) The charges for this telegram service will be one franc or two lire per word for the text of the message, and one franc or two lire per word for the address with a maximum of five francs or ten lire when the address exceeds five words.

(h) Similar arrangements are being made for relatives in the United Kingdom to send such messages to this theatre

2. Procedure and Accounting.

Messages will be prepared in duplicate on ordinary service Message Forms, A.F. C2136. Both copies of the message will be inscribed with the originator's name, number, and the full title of his unit (not for transmission in the message). The Unit Censoring Officer will endorse both copies as being for repayment, boldly, on both sides of the message form, e.g. (On Repayment (15 francs or 30 Lire)).

The original message will be sent with the despatch book referred to below to the nearest Army Signal Office for despatch.

The duplicate will be retained by the unit as a voucher to support the cash collected from the soldier. The cash received will be paid into the unit Imprest Account and shown as a receipt item.

In addition a separate record will be kept by units in a despatch book, which will be prepared as follows:

RECORD DESPATCH BOOK C.S.N. TELEGRAMS

At the end of each month column 5 will be totalled, checked, and agreed with the cash receipts paid into the Unit Imprest Account, and the duplicate copies of messages will be forwarded with the unit Imprest Account to No. 2 Command Pay Office.

The record despatch book will be made available for audit by the Command Paymaster, No. 2 Command Pay Office, when called for.

3. Censorship by Base Censor.

(a) The originator's name and unit (see sub-para. 2 above) will be transmitted with the message as far as the base censor.

(b) Army Signal Offices will not accept messages not inscribed with the name of the originator and his unit in whose imprest account the money collected is brought to account.

(c) When the message is not passed for onward transmission by the base censor, Signals will inform the originating unit by Signal message so that the originator can be notified.

(d) Information through Signals that a message has been refused by the base censor does NOT constitute an authority for a refund of cash to the originator.

This authority is the responsibility of the Command Paymaster, who will receive from Signals a copy of all messages not passed by the base censor and will then authorize the unit to make a refund to the originator.

4. Messages from the United Kingdom after receipt in this Command will be delivered to addressees through Signal channels.

II. COMPASSIONATE TELEGRAMS

1. These are official messages and will be forwarded FREE OF CHARGE under the following conditions:

(a) To the United Kingdom. The message may only contain a request from the soldier concerning the whereabouts and safety of his wife or nearest relative, from whom he has received no communication for three months.

Unit commanders will satisfy themselves that the soldier's request is genuine, and that he has not, in fact, received any communication for three months.

(b) From the United Kingdom. The message may only contain a notification of the death of a soldier's wife, child or parent, birth of child and condition of the mother after the birth, and in certain cases of serious illness of wife, child, parent or nearest relative.

a. Urgent: This classification is restricted to military and naval use only and is used only in combat or when combat, real or simulated, is imminent. Urgent messages are sent immediately upon receipt, or immediately after urgent messages previously received have been transmitted. They are given right-of-way over all messages of lower classification. The "urgent" classification has no counterpart in domestic commercial message classifications.

b. Operational priorities. This classification is for use only on important messages pertaining directly to operations which should not be classified "urgent" but must be delivered as expeditiously as possible to be acted upon properly. Operational priority messages will be handled and transmitted in order received and ahead of all other traffic except urgent.

c. Priority. This classification is used to designate messages which must be given precedence over all routine and deferred messages waiting to be sent or delivered. Messages will be handled under this classification...when they require expeditious action. This is the highest classification which can be given administrative messages.

d. Routine messages are those required to be sent by electrical means, but the nature of which is such that they may not be classified as more than ordinarily important.

e. Deferred messages are those filed at the end of a working day, action on which is not required by the receiving agency until during the day following.

5. TURNING ON OF CITY GAS IN NEW AREA: The following is extracted from PBS Daily Bulletin #97, dated 6 April 1944, for the information and guidance of all:

a. On Friday, 7 April 1944, at 1200 hours, city gas will be turned on along the following streets: From Stella Polare at Via Nicola Capasso along Via S. Cosmo e Damiano, Corso Umberto I, Via G. Sanfelice, Via Medina, Via Giuseppe Verdi to Piazza Trieste e Trento.

b. All military personnel billeted in buildings bordering these streets are directed to use extreme caution to see that all gas connections are free from leaks and that all jets and valves are tightly closed. Rooms used for sleeping will be adequately ventilated as an additional precaution.

c. Before gas is used, the following precautions will be observed: Gas jets will not be opened in the specified area before 1200 hours on 7 April. Initially a mixture of gas and air will be present in the pipes and if lighted may cause an explosion in the gas main. No attempt should be made to light gas jets until it is certain that there is no air present in the pipes. (Adj)

6. PUBLISHERS - NOTIFICATION OF: The following is extracted from Postal Information Circular #12, NATOUSA, dated 27 March 1944, for the information, guidance and compliance of all concerned:

"The Adjutant General has advised that the volume of newspapers and magazines requiring directory service at ports of embarkation and other postal installations indicates that many individuals overseas are failing to advise publishers of their changes in address. As a result, much unnecessary directory service is being performed by army postal personnel, and magazines and newspapers are delayed in transit with resultant delay in delivery.

The necessity of advising publishers of all permanent changes of address should be brought to the attention of all mail orderlies with the verbal request that they disseminate the information in their units as far as possible. A notice in accordance with the foregoing should be posted in each APO for the information of all concerned. A supply of V-Mail change of address forms will be maintained at each APO for distribution to unit mail orderlies and personnel desiring to send notice of change of address." (Postal O)

7. TIME OFF - WITHOUT PAY: Under A.F.H.Q. orders civilian personnel employed by this organization will not, under any circumstances, be paid for time taken off. This applies to religious holidays. (Ex O)

8. PROCUREMENT OF SUPPLIES: All supplies for companies (regions), and sub-commissions, must travel through proper supply channels. In case of any doubt as to the proper supply procedure or procurement of supplies, S-4 will be contacted at Hq ACC, Vapor 161.

A Standard Operating Procedure for supply, both British and American is in the process of preparation, and will be ready for release shortly in the form of an Establishment Memorandum. (Ex O)

6. CORRESPONDENCE - REFERENCE:

The urgent necessity for all sections, sub-commissions and branches to ensure that a reference (with appropriate identifying suffix (or prefix) as part thereof) is inserted on every piece of outgoing correspondence cannot be too strongly emphasised.

Commission is in many instances hindering distribution of incoming mail, in which only a general reference is made to an outgoing communication. All departments must appreciate the valuable time wasted, in such an instance, tracing in a Headquarters of this size, the originator of the communication to which general reference only is made.

2. VEHICLE LIGHTS DURING RED ALERT:

The following is extracted from PBS Daily Bulletin No. 71, dated 11 March 44, for the information, guidance, and compliance of all concerned:

a. Violations of Cir 26, Hq PBS, 30 Nov 43, and Sec. 1, Cir. 28, Hq PBS, 3 Dec 1943, continue. These circulars require that all vehicle headlights, except military and civilian defense vehicles on urgent operational duty, be extinguished during a red alert. Concern has been expressed by Naval authorities over the silhouetting of vessels against the shore by shining headlights during red alerts. The Military Police are instructed to take vigorous action. Violators of this order will be summarily arrested. All operators claiming exemption will be followed to destination and required to give name, organization and emergency nature of official business. Blackout regulations will be strictly observed.

b. It should not be necessary to remind all personnel that we are at war, in a theater of operations, with a cunning, determined enemy but a few miles away. Further warnings concerning violation of headlight regulations need not be expected. (Adj)

6. PRESERVATION OF HISTORICAL MONUMENTS AND FINE ARTS:

The following directive of 17 Feb 44 from H. R. ALEXANDER, General Commander-in-Chief, AMCF is republished for the information and guidance of all concerned:

"Concern has been caused at home by reports of damage done to property of historical and educational importance in Italy.

When I received these reports I ordered a commission to be set up to ascertain the truth in this matter. The results of the commission's investigations show that these reports of damage have been exaggerated, but at the same time establishes that a certain amount of damage has been done by thoughtlessness or carelessness, and even by a few wilfully destructive individuals.

I wish to impress on all officers how vitally necessary it is that the troops under their command behave in a manner which safeguards the good name of our armies and brings credit to their race.

As we advance further north we shall enter a part of the country where art treasures and monuments are more numerous. I therefore direct that every officer brings continually to the notice of those serving under him our responsibility and obligation to preserve and protect these objects to the greatest extent that is possible under operational conditions."

a. There are considerable number of officers within the army for whom no suitable assignments are available or in prospect. This condition is occasioned in part by the completion of duties for which they were called to active duty or appointed from civilian life, reduction in overhead, or changes as a result of reorganization which eliminated the officer's specific assignment. It is imperative that the relief of such officers from active duty be accomplished without prejudice to the officers concerned.

b. c. Action will be initiated by the immediate commander concerned by submitting a report through channels. The report will contain a complete statement of the case covering specifically the situation in para a above, the date on which officer became surplus, a description of the position to which assigned immediately prior to that day, a statement as to whether the position has been eliminated, and if the reasons for which the officer became surplus are other than elimination of his position, a statement in detail of these reasons. W.D. letter, AG 210.85 (30 Dec 43) PO-A-A, dated 12 January 1944, Subject: Relief from Active Duty of officers for whom no suitable assignment exists, is digested herewith for the information of American Officers concerned:

a. There are considerable number of officers within the army for whom no suitable assignments are available or in prospect. This condition is occasioned in partby the completion of duties for which they were called to active duty or appointed from civilian life, reduction in overhead, or changes as a result of reorganization which eliminated the officer's specific assignment. It is imperative that the relief of such officers from active duty be accomplished without prejudice to the officers concerned.

b. Any officer over 38 years of age who has served honorably, whose retention on active duty is not essential to the war effort, and who desires relief from active duty for any reason consistent with current policy, may request relief from active duty and may be relieved if his request is approved by Commanding General, MTOUSA.

c. Action will be initiated by the immediate commander concerned by submitting a report through channels. The report will contain a complete statement of the case covering specifically the situation in para a above, the date on which officer became surplus, a description of the position to which assigned immediately prior to that day, a statement as to whether the position has been eliminated, and if the reasons for which the officer became surplus are other than elimination of his position, a statement in detail of these reasons. A copy of W.D. AGO Form 66-1 will accompany the report. (S-1)

3. ADDRESS OF DISPLACED PERSONS SUB-COMMISSION:

Official mail for the Internees and Displaced Persons Sub-Commission should be addressed as follows:

C. M. F. (Adj)

4. WAR BONDS:

The following message from the Secretary of War is extracted from War Department Letter, 20 December 43, for the information and guidance of all concerned:

"It is the personal advantage of every officer and member of the enlisted personnel of the army to provide for his future financial security by systematic saving while he is in the army. The welfare of each individual and of his dependents after the war is won may well depend upon this security.

Many of you are not taking advantage of the opportunity of saving through the Class "B" Allotment Plan for the purchase of War Savings Bonds. These bonds are not only one of the safest investments that you can make, but every dollar now loaned to the Government will speed the day of final victory and the time when you can return to your home.

It is my desire th t commanding officers of all grades stress the value of saving, through investment in War Savings Bonds by means of Class "B" allotments." (S-1)

5. CONSERVATION OF ELECTRICITY:

The following is extracted from Daily Bulletin #55, PBS, dated 24 Feb 44, for the information and compliance of all:

"a. Electric power consumption is presently approximately equal to available supply. In the near future, demand will increase approximately 20% as factories and other installations essential to the military effort are repaired and placed in operation. It is therefore of utmost importance that the use of electric power be restricted to bare necessities and that there be no waste.

b. Instances of waste and non-essential use are as follows:

(1) Allowing lights in offices, dumps, warehouses, etc. to burn in the daytime and at other times when not needed.
(2) Failure to turn off light when leaving billets, offices, etc.
(3) Using oversize lamp bulbs, and in greater number than required.
(4) Use of electric space heaters.
(5) Allowing electric motors to run unnecessarily.

c. Unit and installation commaders and occupants of offices and billets will be held responsible that waste and non-essential use of electric power does not occur.

(Adj)

6. AUTHORIZED USE OF M.D.L.S., A.D.L.S., AND A.C.S.: The Motor Dispatch Letter Service (MDLS, Air Dispatch Letter Service (ADLS), and Army Courier Service (ACS) are provided for transmitting official mail only. Investigation indicates that it has become common practice throughout the theatre to use them, often under official franking, for communications and packages which are purely personal. Shoes underware, etc., have been discovered when packages have broken open in transit.

This practice has resulted in a considerable increase of MDLS, ADLS, and ACS loads which is entirely unwarranted and unnecessary and has interfered with the proper transmission of official matter.

All personnel on duty with MDLS, ADLS, or ACS have been instructed to decline to accept any envelope or package unless it has on it the statement ESSENTIAL (WAR DEPARTMENT) (WAR OFFICE), I.I., signed by an officer whose name, rank, and unit will be clearly shown.

Officers in charge of MDLS, ADLS or ACS and officers of the U.S. Adjutant Generals Department engaged in the handling or transmission of official documents are authorized to open packages or letters suspected to be of an unofficial nature. Material found to have been sent in violation of this order will be held and a report made direct to the appropriate Army or District Hq.

The Army Postal Service operates letter and parcel post services which are available for the dispatch of personal letters and packages.

The contents of this order will be brought to the attention of every officer serving in the theatre. (AG)

1. TELEPHONE SERVICE TO BARI & BRINDISI:

Three telephone circuits have been established direct from the Vaccar switchboard to the civilian (Italian) switchboard at Bari. These circuits are available for use for telephone calls to Bari and Brindisi.

To place a call to Bari or Brindisi, ask the Vaccar operator for Bari and when the Bari operator answers pass the details of your call. If the call is to Brindisi and the lines to Brindisi are reported "busy" ask the Bari civilian switchboard operator to give you the Bari military switchboard, and attempt to have your call completed over Bari - Brindisi military lines.

The Bari civilian switchboard operator will answer in Italian and it is pointed out that none of the operators on the civilian switchboard at Bari speak English.

Calls to Bari and Brindisi may also be made through the normal channels by dialling Naples Long Distance, 50030.

2. EXECUTIVE COUNCIL MEETING:

The Executive Council Meeting scheduled for Friday, 14 January 1944, will be held on Tuesday, 11 January 1944. Items which are desired to be placed on the Agenda of this meeting will be in the hands of the Secretary, Major VAN DUSEN, Room 9, by 1100 hours, Monday, 10 January 1944.

3. OFFICERS REGISTER:

Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Official Register. It is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the official means of obtaining this information in all Headquarters.

In the future, officers assigned to this or subordinate headquarters who fail to sign in or out in the Officers Register will be officially carried AWOL, which means loss of pay for American officers and disciplinary action for British officers. The Officers Register is located at the Information Desk, Adjutant's Office, Mezzanine Floor.

In general, all military personnel except those who entered the service outside the continental United States, will be returned to the United States prior to discharge. Facilities for the transportation of dependents of any such personnel from an overseas theater to the United States are not available and it is doubtful that such will be available for a long period of time after the cessation of hostilities.

So long as the war continues military personnel are subject to transfer and change of station in accordance with the exigencies of the service. It is manifest that family considerations cannot and will not be taken into account when transfers are made, either within a theater, or from one theater to another, or to the United States.

1. CIVIC RESPONSIBILITIES: The Billeting Officer has determined that owners and/or former tenants of quarters that have been requisitioned for use as officers billets, are entering and removing furniture and other household items, without having first obtained authority from the Billeting Officer, Hq Commandant's office A-2. It is pointed out that furniture, as well as the premises have been requisitioned and inventories have been taken and completed in respect of all billets. The removal of any items without the Billeting officer's knowledge undoes the requisitioning procedure, and will probably be a basis for claim against the government for any items missing.

Billeted officers will therefore refrain from giving permission to owners and/or tenants to remove any furniture or private property, unless written permission has been given by the Billeting Officer. (Hq Comdt)

2. It must be pointed out that air space is in fact very limited, will become more so during the winter months and that persons on important operational duty must receive first consideration. In fact the criterion laid down for authorizing air travel is that the journey is of such importance that delay will seriously impede the Allied war effort.

3. With the above in mind applications for air passages will only in future be made in the case of

4. OFFICERS REGISTER: Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Official Register. It will be appreciated that it is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the official means of obtaining this information in all Headquarters. In the past, the office of the Adjutant has gone to a great deal of trouble to protect the interests of officers who failed to sign in or out. Now, with an expanded officer personnel and no commensurate increase in clerical personnel, this is no longer possible. When officers do not sign in they are not included in the strength of this headquarters, and no rations can be drawn for them, thus causing a short ration for others.

In the future, officers assigned to this or subordinate headquarters who fail to sign in or out in the Officers Register will be officially carried AWOL, which means loss of pay for American officers and disciplinary action for British officers. The Officers Register for incoming officers is kept in Room 12, 8 Via Bari. The Officers Register for outgoing officers is kept in the Transportation Office, Room 4, 8 Via Bari. (A.G.)

1. OFFICERS REGISTER: Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Officers Register. It will be appreciated that it is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the offical means of obtaining this information in all Headquarters. In the past, the office of the Adjutant has gone to a great deal of trouble to protect the interests of officers who failed to sign in or out. Now, with an expanded officer personnel and no commensurate increase in clerical personnel, this is no longer possible. When officers do not sign in they are not included in the strength of this headquarters, and no rations can be drawn for them, thus causing a short ration for others.

In the future, officers assigned to this or subordinate headquarters who fail to sign in or out in the Officers Register will be officially carried AWOL, which means loss of pay for American Officers and disciplinary action for British officers. The Officers Register for incoming officers is kept in Room 12, 8 Via Bari. The Officers Register for outgoing officers is kept in the Transportation Office, Room 4, 8 Via Bari. (A.G.)

2. RUMORS: There have been several recent instances of rumors circulating in this Hq which have, upon investigation, been found either entirely false or else a gross misrepresentation of the facts.

Officers are therefore advised of the danger of repeating such gossip and are requested to discourage the circulation of such stories. (Sec. Int.)

3. WAR INFORMATION ROOM: A War Information Room is being established in the large Conference Room, No. 5, Second Floor, AMG Hq. War maps containing latest available information of operations on the Italian and Russian fronts are being installed. Latest war communiques, PWB Radio Monitoring Reports and other war news also will be made available. The AMG War Information Room will be opened at 1400 Hours, Saturday, 20 November 1943. It will remain open each day during office hours, except when conferences are being held therein, when it will be closed temporarily. (Sec. Int.)

4. NEW OFFICE LOCATIONS: The Hq Supply Office has moved from 8 Via Bari, and is now located at 16 Via Bandiera.

The Hq Dispensary will move from the Pension Suisse on 22 Nov 1943 at 0900 hours and will open at 8 Via Bari, same time, same date.

The Office of Industrial Planning Staff has moved from the Banca D' Italia to Flat 17, 6th floor, 8 Via Bari. (Hq Comdt.)

1. PROCEDURE FOR FORWARDING AIR FREIGHT: Effective at once, orders on air freight will be issued through G-4. Complete particulars listed in paragraph 3, Daily Bulletin #5, 12 November 1943 must be furnished to G-4, Room 27, AMG Hq, 8 Via Bari. Air freight shipping tags will be pasted on strong cardboard and securely tied with heavy twine to the container. Air freight cannot be accepted by the Duty Transportation Officer unless the tag is properly secured and the airport of destination specified. APO's will not be used. (G-4).

2. MILITARY CLASSIFICATIONS: Military classifications are well established and covered by regulations (see AMG Security Manual, 4 November 1943); in addition AMG-ACC handles information which should be kept from the public and yet which must be shown to native public officials (who are not entitled to military classified information). For this purpose AMG-ACC classification "FOR OFFICIAL USE ONLY" will be used. Such information may be divulged to natives who need it in their official capacity; they will be warned that it is not to be communicated to persons not requiring said information. (Internal Security).

3. WINDOW GLASS: There is an extreme shortage of window glass; small quantities have been obtained with great difficulty and are now being installed in windows of offices occupied by this organization. It is necessary to conserve glass by closing certain openings with paper or cardboard. Certain recently installed glass has been broken by carlessness of office occupants in slamming windows or not securing when opened; in such cases it may be a long time before replacement closures can be provided. Special requests for window closures cannot be entertained. (G-4).

4. OFFICERS REGISTER: When signing in or out in the Officers Register, full information will be noted in the proper column as to authority for travel, i.e., the headquarters issuing the order, Special Order number, paragraph number, date and any other pertinent information. (A.G.).

5. RECORD OF EVENTS: The Adjutant General is maintaining a record of important events occurring at this headquarters. All staff heads, sub-commission chiefs, etc will send memos to the AG of all important events with date that should be entered in the record. Initial date of this record is 10 November 1943. (A.G.)

5. It has come to the attention of the Public Health Directorate that gross contamination of the local water supply by bacteria, suspected to be typhoid, has been found by a local Navy Unit. This contamination is reported to have been detected at three Navy installations in Palermo.

a. Such an occurence is to be expected in view of the facts that:

(1) Fall rains have increased the seepage of surface contamination into ground areas traversed by broken water mains.

(2) There remain many broken sewer lines and water mains running in close proximity, cross connections, and leaking water valves.

(3) Water is shut off at night and there is probable back-siphonage of sewage caused by negative pressure in the water mains.

b. The following recommendations are made:

(1) All water used by AMG officers and other ranks in Palermo should be chlorinated until further notice.

(2) Water should be obtained for messes from a 7th Army Water Point, should be taken from a chlorinated source in lister bags or should be used from individually chlorinated supplies in canteens.

3. OFFICERS REGISTER: Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Officers Register. It will be appreciated that it is impossible to maintain personnel records without knowledge of the officer's whereabouts. The Officers Register is the official means of obtaining this information in all Headquarters. In the past, the office of the Adjutant has gone to a great deal of trouble to protect the interests of officers who failed to sign in or out. Now, with an expanded officer personnel and no commensurate increase in clerical personnel, this is no longer possible. When officers do not sign in they are not included in the strength of this headquarters, and no rations can be drawn for them, thus causing a short ration for others.

All officers to comply.

In the future, officers assigned to this or subordinate headquarters who fail to sign in or out in the Officers Register will be officially carried
