3. LONG DISTANCE TELEPHONE SERVICE:

The following is extracted from Section VII, Daily Bulletin, No. 177, RAC, dated 26 July 1945, for the guidance of all Allied Commission personnel using Long Distance Telephone facilities:

"The traffic at present being handled by Rome Long Distance Telephone Exchange is greater than at any other time since the occupation of Rome, in spite of the fact that the available operating personnel has been considerably reduced, and it has been necessary to employ Italian civilian operators on the switchboard.

In order to relieve the congestion on this switchboard, and improve the service, the following rules will be strictly observed by all subscribers:

a. Private calls will not be made between 0800 and 1800 hours.

b. Conversations will be kept as brief as possible, and will deal with strictly military matters.

c. Enquiries with regard to booked calls will not be made to the booking clerk, but the subscriber will ask the operator for enquiries.

d. Subscribers who experience difficulties in making calls, or who wish to make a complaint, will ask the operator for the Supervisor, or will dial the Supervisor on telephone number 478218. Under no circumstances will the operator be engaged in conversation.

Cases are still being reported of Italian civilians making long distance calls over the military network, and in some instances they have been assisted by Allied personnel.

The attention of units and formations is drawn to the fact that Italian civilians are NOT permitted to make long distance calls over the military network, unless they are in possession of authority from CSO L of C Italy. When a civilian attempts to use military lines without authority, his telephone is disconnected by the Italian Government.

Disciplinary action will be taken against any Allied person who assists an Italian civilian in the violation of this order". (Sig O)

7. LEAVE - BRITISH PERSONNEL:

1. In view of the increased allotment of LIAP vacancies given to this Command for the month of August, it is not proposed to make a general allocation of local leave vacancies to units as it is considered that this would result only in wholesale surrendering of vacancies.

2. It is proposed however to hold at this Headquarters a considerable proportion of the vacancies allotted to this command which can be sub-allotted to units as required.

3. Units will therefore request local leave vacancies as they require them in bulk for four weeks with effect from 29 July 1945 if a unit can see its way clear to make a firm demand over that period.

4. Local leave vacancies available are as follows:

Officers:	Other Ranks:
RAVELLO	FLORENCE
AMALFI	SALERNO
AQUILA	ROME
FLORENCE	AQUILA

N.B. Other Ranks' leave vacancies at Aquila are limited to 35 per week. Units are therefore requested to make only moderate demands for such vacancies so that fair distribution can be made to all units. (EXTRACT HQ ROME AREA ALLIED COMMAND, Ref: 22A9, dated 19 July 1945).

Applications in respect of British Officers should be made to Headquarters Commandants Office. (Hq Comdt)

8. OFFICE LOCATION - (AMENDMENT):

9. PERIODICAL LOCAL LEAVE - BRITISH PERSONNEL:

It has become apparent from the number of enquiries received on the subject of Local Leave, that British Officers and other ranks of the Commission are not conversant with the provisions of GRO 998/44.

This GRO states that: - "As far as circumstances permit every officer and man will be granted a period of six clear days local leave once, but not more than once, every six months.

Periods of 48 hours or less (short leave) will not count against Local Leave. Leave in the UK will, however, be taken into account in granting Local Leave".

Officers of this Headquarters should apply for leave through their Sub-Commissions, etc, to the Headquarters Commandant.

The question of leave for Other Ranks of this Headquarters is dealt with by O.C. British Detachment.

Regional Commissioners concerned will use their own discretion in granting leave to all ranks in the field in accordance with the above.

b. The Night Staff Duty Clerk, Tec 5 DiBari, will report to the Chief Clerk, Message Center, Room 11, Ground Floor, at 1600 hours, and to the Duty Officer, in Room 20, Ground Floor, at 1800 hours. (Adj)

2. PROPER USE OF CLASSIFICATION AND PRECEDENCE IN SIGNAL MESSAGES: The following letter, AFHQ, reference, AG 311.5/199 SIG-O, subject: "Proper Use of Classification and Precedence in Signal Messages", dated 11 June 1945, is quoted for the information, guidance and compliance of all concerned:

"1. The volume of messages originated in this theater has decreased slightly since the cessation of hostilities, but difficulties are being experienced in many instances in the expeditious handling of those messages by electrical means. These difficulties may be expected to increase with the early redeployment of many of the Signal troops and cipher personnel. Under current regulations, only message classified as "CONFIDENTAL" or lower may be transmitted by certain land lines in the clear; all other classified messages require encipherment. The temporary inadequacy of land encipherment of all classified messages, has increased the already heavy load on cipher offices. With the cessation of hostilities the urgency requiring rapid transmission of many of the messages appears to be reduced. This should permit greater use of letters in lieu of messages with increased use of the various messenger services, especially in those areas where a shortage of electrical facilities exists.

2. It is hoped shortly to relax regulations regarding classification of messages, thus permitting the transmission of more signal traffic in the clear. Pending the issuance of such relaxations, all originators are cautioned to avoid overclassification. Overclassification debases the value of the higher security classifications and tends to add to delay owing to the special handling required. At the present time, therefore, it is more than ever essential that current rules regarding the classification and precedence of messages be scrupulously observed in the interests of all concerned.

3. Originators are furthermore cautioned against the abuse of precedence. Where the volume of "Priority" and "Operational Priority" traffic becomes disproportionately heavy, these precedences necessarily lose their value.

4. Care must be taken in the drafting of messages to reduce their length by employing concise language without sacrificing clarity". (Adj)

5. CONSERVATION OF WATER:

The attention of all concerned is directed to the necessity for conserving water during the coming months. The main causes for the shortage in water are as follows:

a. An unusually dry spring.

b. There are no reservoirs in the system and therefore no reserve can be stored up.

c. The population to be served, both military and civilian, is far in excess of the pre-war population for which the distribution system was considered barely adequate.

In view of the above, the attention of all ranks is drawn to the strictest economy of water in Headquarters building. All taps should be kept closed when not in use.

Leaking taps, pipes and faulty lavatory flushes should be immediately reported to Office Space Section, telephone - Ext. 535.

Sub-Commissions, Branches, etc., are asked to instruct their Italian employees on the seriousness of the waste of water. (Hq.Comat)

(2) There are no reservoirs in the system and therefore no reserve can be stored up.
(3) The population to be served, both military and civilian, is far in excess of the pre-war population for which the distribution system was considered barely adequate.

In view of the above, the attention of all ranks is drawn to the strictest economy of water in Headquarters building. All taps should be kept closed when not in use.

Leaking taps, pipes and faulty lavatory flushes should be immediately reported to Office Space Section (Tel. Ext. 585).

Sub-Commissions, Branches, etc, are asked to instruct their Italian employees on the seriousness of the waste of water.

4. RESALE OF OFFICERS' SHOES:

The following is extracted from paragraph 1, Daily Bulletin, No. 127, Hq Southern District, Peninsular Base Section, dated 7 May 1945, for the information and guidance of all concerned:

"a. The purchase of officers' low-cut shoes at the Post Exchange for resale to enlisted men is not only illegal diversion of post exchange supplies, for which an officer may be tried, but is a distinctly unsportsmanlike act which deprives other officers of merchandise procured in very limited quantities for them. The limited number of shoes arriving in the theater is insufficient to meet the demands for replacement. The diversion of these shoes to persons unauthorized to wear them works a hardship on many officers.

b. The possession by enlisted men of low-cut shoes of the type sold in post exchanges will be considered prima facie evidence of illegal diversion of post exchange supplies by enlisted men. Officers resorting to this illegal and unsportsmanlike practice will be subject to disciplinary action. Post Ex-

2. MESSAGE FROM SUPREME ALLIED COMMANDER:

The following is a special message from the Supreme Allied Commander to all the Allied Armed Forces in the Mediterranean Theatre:

"The territory around TRIESTE and GORIZIA and east of the ISONZO River is part of ITALY known as VENEZIA GIULIA. The territory around VILLACH and KLAGENFURT is part of AUSTRIA. The above Italian and Austrian territory is now claimed by Marshal TITO who wishes to incorporate it in JUGOSLAVIA. We have no objection to claims being put forward by Marshal TITO to this territory. His claims will be examined and finally settled with fairness and impartiality at the peace conference, in exactly the same manner as other disputed areas throughout Europe. Our policy, as has been publicly proclaimed, is that the territorial changes should be made only after thorough study and after full consultation and deliberation between the various governments concerned. It is, however, Marshal TITO's apparent intention to establish his claims by force of arms and military occupation. Action of this kind would be all too reminiscent of HITLER, MUSSOLINI and JAPAN. It is to prevent such actions that we have been fighting this war. We have agreed to work together to seek an orderly and just solution of territorial problems; this is one of the cardinal principles for which the peoples of the United Nations have made their tremendous sacrifices in an endeavour to obtain a just and lasting peace. It is one of the cornerstones on which our representatives, with the approbation of world public opinion, are now at work at SAN FRANCISCO to build a system of world security. We can not now throw away the vital principles for which we have all fought. Under these priniciples it is our duty to hold these disputed territories as trustees until their ultimate disposal is settled at the peace conference. Within these territories our duty and responsibility is to keep law and order by our military forces and to ensure a peaceful and secure life for their peoples through our Allied military government. We may be relied on to act impartially as we do not covet these territories ourselves. In this situation I tried my best to come to a friendly agreement with Marshal TITO, but did not succeed. The UNITED STATES and British Governments have therefore taken the matter up directly with Marshal TITO. The Soviet Government have been kept fully informed. We are now waiting to hear whether Marshal TITO is prepared to cooperate in accepting a peaceful settlement of this territorial claims, or whether he will attempt to establish them by force. It has always been my policy to keep you all, whatever your rank, fully informed about the general situation and the objects for which you have

2. MESSAGE OF PRIME MINISTER TO FIELD MARSHAL ALEXANDER:

"I rejoice in the magnificently planned and executed operation of 15 Group of Armies which are resulting in the complete destruction or capture of all enemy forces south of the Alps.

That you and General MARK CLARK should have been able to accomplish these tremendous and decisive results against a superior number of enemy divisions after you have made great sacrifices of whole armies for the western front, is indeed another proof of your genius for war and of intimate brotherhood-in-arms between British Commonwealth and Imperial forces and those of the United States.

Never I suppose have so many nations advanced and maneuvered in one line victoriously. The British, Americans, New Zealanders, South Africans, British-Indians, Poles, Jews, Brazilians and strong force of liberated Italians have all marched together in that high comradeship and unity of men fighting for freedom and for the deliverance of mankind.

This great final battle in Italy will long stand out in history as one of the most famous episodes in this second World War.

Pray give my heartfelt congratulations to all your Commanders and principal officers of all services and above all to the valiant and ardent troops whom they have led with so much skill." (EXTRACT from RAAC Memorandum, dated 3 May 1945). (Hq Comdt)

2. RETREAT:

The following is extracted from General Orders, Number 16, RAAC, dated 25 April 1945, for the information, guidance and compliance of all concerned:

"Effective 25 April 1945 the hour of Retreat is changed to 1700 hours. Flags of all Allied Nations in the Rome Area will be lowered at that hour." (Adj)

3. DAMAGE TO ELECTRIC POWER LINES:

It has come to the attention of this Headquarters that Allied troops have caused interruption of electric power supply to industrial installations by shooting at insulators on electrical transmission lines. Recently the salt mines at Tarquinia were without power, and therefore inoperative for four days, due to this cause.

The soldiers who indulge in this pastime would not wish to be considered as saboteurs, but the practical effect of their act is the same as though it were committed by an enemy agent. No facility in the theatre is of more vital importance to the war effort than the supply of electric power to the various industries, the production of which is needed to sustain the armies as well as the civilian economy.

Commanders of all units will bring this matter to the attention of their commands, pointing out the seriousness of the offense, and taking such action as may be necessary to insure that the greatest attention will be given to safeguarding all electrical facilities in the theatre. (EXTRACT from Circular No. 6, AFHQ, dated 25 April 1945). (Hq Comdt)

4. PAYMENT OF CIVILIAN DRIVERS:

All Sections, Sub-Commissions, and Branches employing civilian drivers included in Super Garage payroll are requested to report to Super Garage Administration Office the time for which each driver is to be paid. This only applies to civilian drivers who are not dispatched daily from Super Garage. These reports are to be submitted on the 14th and 29th of each month on special time cards furnished by Super Garage - Phone 843009. (Hq Comdt)

8. SCHOOLING OF ITALIAN CHILDREN:

The Italian authorities are faced with a serious problem created by the large number of children avoiding school and generally running loose. Unless firm action is taken, there is danger that a young bandit population will arise in the great cities. This is essentially a problem for the Italian government, who are alive to their responsibilities and are taking suitable measures, but to some extent, they find that the police are handicapped by the mistaken kindness of soldiers.

Cases are known where soldiers have adopted or temporarily harbored minor children and have furnished them with food, clothing, shelter and transportation from one station to another. This practice is contrary to existing orders and will cease at once. If children are apprehended in the keeping of military personnel they will be returned to the proper civil authorities at the place where they joined the military personnel.

Rest camps, soldiers' clubs and billets, and other places where soldiers congregate tend to be a big attraction to children. In the vicinity of such places, Italian police are reluctant to act against children because at times soldiers are apt to constitute themselves their protecters. This mistaken kindness is not in the proper interest of troops themselves, the children, nor the future of Italy. Military police and unit guards will be instructed to disperse children who congregate around these places. (EXTRACT from H., Rome Area, MTOUSA Memorandum, dated 2 April 1945).

9. ACCEPTANCE OF BRIBES:

A number of cases have been reported in which officers and other ranks have been offered bribes by Italian civilians.

In such cases it is the duty of the individual to whom the bribe is offered to report the facts immediately to his commanding officer. 4. COMPLETION OF VEHICLE TRIP TICKETS BY ACCOMPANYING OFFICERS:

Civilian drivers of Allied Commission vehicles are entitled to payment for overtime worked whether in or out of town.

When a vehicle is out of town the only means open to the CO, Super Garage, for assessing entitlement is the trip ticket, and unless accompanying officers accurately record the times the driver commences and finishes each day's work, the driver suffers financially.

Accompanying officers should therefore, in fairness to the drivers spare the few moments necessary for the correct completion of trip tickets. (Hq Comdt)

c. Numerous requests are received at APO 394 during the day for officers' mail. This practice results in much extra work for APO personnel and delays the prompt delivery of mail within this headquarters and attached units. All officers and attached American civilians are reminded that mail call for officers is from 1600 until 1730 hours daily. Requests for mail at any other hours will be REFUSED. NO EXCEPTION will be made.

2. ACI 93 - PAY, BRITISH OFFICERS - RECOVERY OF FIELD ADVANCES - NEW PROCEDURE:

Army Council Instruction No. 93, dated 27 January 1945, has just been received and is republished for information:

1. Before 1st December, 1943, it was the normal practice to recover advances of pay drawn by officers in the field from future issues of pay, although the receipt for field advances drawn (A.F.W 3241) contained an authority, addressed by the officer to his bank, authorizing them to pay the advance drawn by him out of his banking account.

2. The system of recovery from future issues of pay proved unsatisfactory, and it was decided that, with effect from 1st December, 1943, all field advances due for recovery should be recovered by the O i/c, Army Pay Office (Officers' Accounts), Stockport Road, Manchester, from officers' banking accounts, and not from pay.

3. Receipts for field advances drawn (A.F. W 3241) are equivalent to cheques drawn on an officer's banking account.

Accordingly, all officers should bear in mind that:

(a) they should not ask for an advance of pay unless they are satisfied that they have sufficient funds available in their bank account to meet the advance, and

(b) advances drawn will be presented to their bankers for recovery without further reference to them; see Field Service Regulations, Volume I, 1930, Chapter XXI, Section 194, para 6.

4. An Officer must ensure that full and exact details regarding the name, branch, and address of his bank are inserted on A.F. W 3241 in the spaces provided. Field cashiers will be responsible for seeing that this information is so inserted before making advances.

5. Correspondence in regard to the recovery of field advances will be addressed to the O i/c Army Pay Office (Officers' Accounts), Manchester, and not to the army agents, and will be accompanied by the debit notes received from the officers' bankers. 48/General/7987 (F. 2 (b)) (Hq Comdt)

2. LEAVE TO THE U.K. FOR BRITISH PERSONNEL:

1. In order that the conditions governing the allocation of vacancies for leave in addition to PYTHON (LIAP) may be better understood, the following explanation is given in order that any existing doubts may be removed:-

2. The basic allotment of vacancies to this Theatre is 3000 per month, sub-allotments being made by AFHQ to Headquarters under direct command, who in turn re-allocate such vacancies to units on a geographical basis. For this purpose, this HQ is under command of MAAC and periodical returns are rendered stating the number of eligible personnel on strength.

3. LIAP is regarded as a reward for good service abroad and in the case of non-fighting troops priority is given to personnel with the longest continuous good service overseas reckoned from the date of leaving the U.K. L of C Formations are allotted vacancies on a lower scale than fighting troops. When a vacancy is allotted to this H_, the case of each eligible individual is considered before a nomination is made.

4. Personnel who would, at the date of departing on LIAP, be within six months of being eligible for PYTHON are not sent on LIAP as it is not considered practicable for them to be returned to their units for such a short period, on their return. It will therefore be noted that all personnel of not more than 4 years overseas service are eligible, but consideration can only be given as vacancies are allotted.

5. Compassionate Grounds are not taken into consideration when assessing an individual's eligibility for LIAP. There is no compassionate leave to U.K., but machinery exists for dealing with cases where compassionate home posting is considered necessary. (Applicable to HQ personnel only). (G-1 (B))

3. TRAVEL TO INDIA:

Information received at this Headquarters from AFHQ states that personnel traveling to or from India must have been vaccinated within one (1) year from the date journey begins, and must carry appropriate medical certification to that effect.

Military personnel not complying with above will be vaccinated on arrival.

11. SAFEGUARDING OF GOVERNMENT PROPERTY: There have been many reports turned in lately, indicating that proper precautions are not being taken by responsible officers in the safeguarding of government property being used in this Headquarters. Specifically, typewriters and adding machines are not being properly safeguarded.

It is pointed out that regardless of whether a machine has been issued from Army sources or has been requisitioned from Italian sources, it is still termed government property and an officer by signing for it assumes full responsibility for this machine. It is the responsibility, therefore, of the responsible officer to see that each of his machines is locked in a cabinet or a strong box whenever the office is to be left unattended for any length of time.

Cases of missing office equipment will be investigated thoroughly and where a "Report of Survey" indicates that the responsible officer has not taken sufficient precautions, he will be held financially responsible.

All office machinery will be requisitioned through Hq Supply only, and not through the Office Space Section or the Purchasing & Contracting Officer. (Int Sec C)

12. VISITS TO EIGHTH ARMY AMG AREA: All personnel of this Headquarters planning visits to Eighth Army AMG Area will notify both Eighth Army AMG Main and Administrative Headquarters Emilia Region of any proposed trip giving: number of party, approximate time of arrival and length of stay, and nature of business to be transacted. It is particularly desirable that both headquarters be notified simultaneously. (Ex Comm)

13. COUNTERFEIT CURRENCY: It is incumbent upon all Paying Officers to satisfy themselves that the notes drawn from the Headquarters Paying Officer for payment of civilian employees, are not counterfeit at the time of drawing.

Under no circumstances will notes be exchanged after money has been signed for.

After money has left the office of the Headquarters Paying Officer, the action open to officers who suspect that any of the notes are counterfeit, is laid down in Finance Sub-Commission letter 13032/F, dated 20 December 1944.

It is most unlikely that any notes drawn for payrolls are counterfeit as they are drawn from the Bank of Italy; and Paying Officers would be well advised to inform civilian employees that any objection they may wish to make to any note can be made only before they sign the payroll. (Hq Comdt)

2. SAFEGUARDING OF GOVERNMENT PROPERTY:

There have been many reports turned in lately, indicating that proper precautions are not being taken by responsible officers in the safeguarding of government property being used in this Headquarters. Specifically, typewriters and adding machines are not being properly safeguarded.

It is pointed out that regardless of whether a machine has been issued from Army sources or has been requisitioned from Italian sources, it is still termed government property and an officer by signing for it assumes full responsibility for this machine. It is the responsibility, therefore, of the responsible officer to see that each of his machines is locked in a cabinet or a strong box whenever the office is to be left unattended for any length of time.

Cases of missing office equipment will be investigated thoroughly and where a "Report of Survey" indicates that the responsible officer has not taken sufficient precautions, he will be held financially responsible.

All office machinery will be requisitioned through Hq Supply only, and not through the Office Space Section or the Purchasing & Contracting officer. (Int Sec O)

3. VISITS TO EIGHTH ARMY AMG AREA:

All personnel of this Headquarters planning visits to Eighth Army AMG area will notify both Eighth Army AMG Main and Administrative Headquarters Emilia Region of any proposed trip giving: number of party, approximate time of arrival and length of stay, and nature of business to be transacted. It is particularly desirable that both headquarters be notified simultaneously. (Ex Comm)

1. Reference is made to MTOUSA Circular #22, dated 8 February 1945, authorizing the submission of applications for non-combat appointments.

2. Applications will be forwarded so as to reach Headquarters 2675th Regiment not later than 7 March 1945. Forms and reports required as outlined in paragraphs 10b and 11 of above-mentioned circular.

3. Company commanders, in forwarding applications are reminded that careful consideration for selection will be on the demonstrated leadership, outstanding ability, and prospective future value to the service as a Commissioned Officer. Appointments will be made primarily to fill officer positions which require special technical or professional skills. This authority will be used sparingly to fill purely administrative positions.

4. Applicants will be notified as to time for their appearance before the examining board appointed by this headquarters. (Hq 2675th Regt)

5. OFFICERS' PAY - AMERICAN:

6. PAY - CIVILIAN EMPLOYEES:

It is requested that all officers designated for the payment of civilian employees in their respective Sections and Sub-Commissions turn into G-1 Civilian Personnel, located on the Ground Floor, not later than Monday, 26 February 1945, payrolls for civilian employees for the period 16-28 February 1945.

Payment Office, Room 60, 1st Floor, will be open from 0900 to 1200 hrs only Saturday, 3 March 1945, for the purpose of issuing funds for the above. All requests for cash must enumerate the denominations into which the lire should be divided. All payrolls must be returned to the Paying Office, Room 60, 1st Floor, within 48 hours of receipt of the money. (Hq Comit)

7. COUNTERFEIT CURRENCY:

It is incumbent upon all Paying Officers to satisfy themselves that the notes drawn from the Headquarters Paying Officer for payment of civilian employees, are not counterfeit at the time of drawing.

Under no circumstances will notes be exchanged after money has been signed for.

After money has left the office of the Headquarters Paying Officer, the action open to officers who suspect that any of the notes are counterfeit, is laid down in Finance Sub-Commission letter 13002/F, dated 20 December 1944.

It is most unlikely that any notes drawn for payrolls are counterfeit as they are drawn from the Bank of Italy; and Paying Officers would be well advised to inform civilian employees that any objection they may wish to make to any note can be made only before they sign the payroll. (Hq Comit)

8. NEED FOR ECONOMY IN STAPLES:

There is an acute shortage of staples in this area, with no immediate prospect of additional supplies becoming available. All Sub-Commissions and Sections should, therefore, impress upon their office personnel the need for rigid economy in the use of staples. (Hq Comit)

9. UNAUTHORIZED USE OF ELECTRICAL APPLIANCES:

Requests are continually being received by this Office for electricians to repair blown fuses.

It is the opinion of the electrical engineer that electric Kettles-Heaters, etc, are being used in offices, which overtax the fuses and cause these breakdowns.

The use of such electrical appliances will cease forthwith. (Hq Comit)

11. ACCOMMODATION AT EXCELSIOR HOTEL - NAPLES:

It is pointed out that there is only limited space available in the above hotel for senior Allied Commission transient officers.

There have been numerous instances of officers of all grades being told by officers of this Hq that accommodation at the Excelsior Hotel may be obtained on application to Billeting Officer, Southern Region. (This often causes embarrassment due to no accommodation being available). Senior officers requiring accommodation should apply in the first instance to Hq Comdt, Hq Allied Commission, who will endeavor to reserve the necessary accommodation on their behalf.

Other officers requiring accommodation in NAPLES, irrespective of whether it is required at the Excelsior or not, should report to the Billeting Officer, Hq, Southern Region. (Hq Comdt)

17. REQUESTS FOR TRAVEL ORDERS:

Due to the increased amount of travel being performed by both military and civilian personnel of this Headquarters and to acquaint newly assigned personnel, the following procedure in submitting requests for travel orders is published for the information, guidance and compliance of all concerned:

a. All requests for travel orders must, insofar as possible, be submitted at least forty-eight (48) hours in advance, properly cleared by the agencies concerned, i.e., G-1 (American), G-1 (British), Allied Civilian Personnel Director, Dispatch Officer, and/or any other interested offices concerned. This is absolutely essential in order to expedite action by this office.

b. When trips of less than twenty-four (24) hours are contemplated, no travel orders are necessary, except when traveling by military aircraft or traveling into hazardous areas. However, when the travelers are unavoidably detained and cannot perform the return journey to this Headquarters prior to the expiration of the twenty-four (24) hour limit, the Head of the Sub-Commission, Branch or Section, or the officer directing that travel, should submit a request for confirmatory orders covering that particular journey. This is necessary in order that officers and enlisted men's records may be kept up to date.

c. This office will give immediate action to emergency travel orders whenever necessary, but these orders should be kept to a minimum as much as possible.

d. All requests for travel orders should be filled in completely by following the instructions on the reverse side of the form. Travel orders cannot be expedited when these forms are not completed in the correct manner.

Army Council Instruction No. 54, dated 20 January 1945, "Insurance - Loss of Kit by Officers (including Women Officers) - New Arrangements", is now available for perusal in the Office of the Headquarters Commandant, Room 54, 1st Floor.

Compensation from army funds for the loss by officers of their uniform, equipment and personal effects is only payable in cases where the risk cannot be covered by insurance. It is the primary responsibility of the officer to insure his uniform, equipment and personal effects against the ordinary risks of civil life. This responsibility has repeatedly been brought to the notice of officers -- e.g., by A.C.I. 1708 of 1943 -- but cases are still occurring where they have failed to effect such insurance, with the result that they have suffered serious financial loss. Cases are also occurring where officers overseas are finding difficulty in effecting insurance under private arrangements.

Arrangements have accordingly been made to assist officers to obtain such private insurance, and the purpose of this A.C.I. is to bring to notice the nature and extent of these arrangements. (EXTRACT from ACI No. 54/1945).

Numerous requests are being received through this office for typewriters to be cleaned and oiled. Cleaning oils, etc, can be procured through Headquarters Supply Store. The typewriter mechanic is employed by this Headquarters on a contract basis, to carry out repairs to defective machines and time spent in cleaning materially affects repairs being executed promptly. "1. Instances have been reported of the wearing of a mixed dress of civilian clothing and military or service uniform by various civilian employees who are permitted to wear uniform. 7. AN APPEAL FOR THE DEVASTATED AREAS: The following appeal is addressed to all officers of the Allied Commission Headquarters, and civilians resident in Allied Commission Hotels. A mimeographed copy has been placed on every table in the restaurant of each Hotel.

Thousands of old men, women and children in devastated communes in the provinces of Chieti, Aquila, Pescara, Fresinone and Littoria are suffering great hardships owing to lack of clothing.

Many of these communes are still snowbound thus adding to the misery of the very poor and scantily clad inhabitants.

Old blankets, coats, trousers, shirts, socks, in fact anything you can possibly spare (including uniforms which will be dyed to make serviceable civvies) will be most gratefully received for these unfortunate people, and for other needy and deserving groups.

The cause is good and the need great! Won't you look through your belongings immediately after this meal and give what you can?

Would officers resident in private billets and who have means of transportation kindly bring their contributions to Allied Commission Headquarters Building. Inside the main entrance will be a large hamper with a lady of the Italian Red Cross in attendance to receive them.

In cases where no transportation is available if officers would kindly telephone Devastated Areas Sub-Section, Ext. 492, their private address, transport will be sent to collect contributions. (Devastated Areas)

8. 6. UNRRA - RELEASE OF U.K. TROOPS:

A ruling Has now been given by War Office with regard to the release of personnel for UNRRA and the following general conditions are given briefly for guidance:-

(a) As a general policy release of personnel under 40 will not be sanctioned unless they are of low medical category and cannot be usefully employed in the Army. Deviation from this policy will only be considered in very exceptional circumstances.

(b) The guiding principle will be whether the individual will perform a greater service toward the national effort in a civilian capacity, rather than in the Army.

(c) Applications from individuals will NOT be considered.

(d) It is emphasised that individuals cannot be transferred for such employment but must be released, officers being relegated to the appropriate reserve or unemployment and other ranks to Class W, W(T) Reserve. No guarantee can be given that a replacement will be found. (G-1 (3))

2. SECURITY PRECAUTIONS:

From "The Stars and Stripes", 3 January 1945, "Director J. Edgar Hoover of the Federal Bureau of Investigation " today warned that a new intensified effort by Germany was being made to send saboteurs to America when he revealed the arrest of two agents who landed a month ago by submarines on the coast of Maine.

It is only logical to conclude that if German saboteurs have reached such distant places as the coast of Maine, they must also be active in the Rome area. Recently, incidents of sabotage and attempted sabotage have occurred in another area and a certain amount of damage and personal injury sustained by the Allied forces.

Incidents reported locally have included attempted arson of petrol installations, other installations and the booby trapping of vehicles. Any Headquarters, depot, and administrative organization where death and destruction can delay the Allied effort is liable to attack and sabotage.

It is the responsibility of all ranks to be constantly on the alert. Report all suspicious action immediately. The effect of counter-action is greatly minimized when delays in reporting occur. Park vehicles only in protected areas or at least where they can be watched.

All ranks should familiarize themselves with "Fire Orders" posted throughout the building.

Remember, even in these last hours your enemy is to be feared more than ever. Never underestimate the enemy.

1. R.C. SERVICES - CHRISTMAS 1944 - ROME:

The main celebration will be MIDNIGHT MASS IN ST. PETER'S.

HIS HOLINESS POPE PIUS XII will himself celebrate, at the PAPAL ALTAR, the first two of the three traditional Christmas Masses, starting at midnight. The choir of the Sixtine Chapel will sing during the two Masses, and carols will be sung in ENGLISH, FRENCH and POLISH by the military.

It will be possible to receive Holy Communion during the two Masses, and Confessions will be heard before and during Mass, although it is hoped that, in view of the very large numbers expected, those who wish to receive Holy Communion will do their best to go to Confession on Saturday or Sunday, and not wait until the Mass.

No tickets will be required and as the two transepts are being reserved for the military there should be room for all.

The Basilica will be open at 2200 hours and the Midnight Mass will be broadcast to the world.

It is hoped that all units will provide transport for those wishing to attend.

CHRISTMAS MORNING:

Mass.....1000 hrs at the C.W.L. Club Chapel.
