5. COMPASSIONATE REVERSION TO UK:

Under the rules hitherto in force, compassionate reversion to the UK and compassionate release in "one - man" business cases have been permitted only when the business is still in existence and when the soldier's presence is essential to save it from collapse. It has not been the practice to release a man to re-open a business which has been closed for a considerable period of time.

2. A case may, however, occur in which a unique opportunity offers of re-opening a closed business, which, if not taken, is unlikely to recur. The War Office has now agreed to modify the current rules so as to permit compassionate reversion and release in such a case.

3. Release only be authorized in a most exceptional case and it must be shown that the business was closed by reason of the soldier's military service or through enemy action and that the prospects of further opportunity of re-opening it are so remote as to negligible.

4. Applications in respect of closed businesses based on circumstances which are held to satisfy the conditions laid down in paragraph 3 above may now be submitted to G-1 (B), this Hq, in respect of officers and to O.C. British Detachment, Headquarters Allied Commission, in respect of OR.

5. In submitting cases of this nature, full particulars must be given in accordance with GRO 165/45 and Appendix thereto, together with full supporting evidence and complete business details. (G-1 (B))
