3. All men desirous of employment will be required to complete a Pro-Forma in triplicate

as given at Appendix "A" to this GRO, which will be forwarded DIRECT to Demob 2. The War Office, when the question of their suitability for release will be considered in conjunction with the Ministry of Fuel and Power. No release will be effected unless express War Office instructions are received.

4. The following men are not eligible for release under this scheme:—

(a) Regular Soldiers with a Colour Service liability.

(b) Foreman of Signals, R Signals, or Armament Artificers REME.

(c) Those undergoing training at an OCTU or pre-OCTU with a view to being commissioned.

(d) Aliens enlisted outside UK.

(e) Those of Medical Category OTHER THAN A1, A2, or A3.

(f) Those with less than 12 month's service at the time of application.

5. All released will remain liable to recall (under War Office instructions only) until the end of the emergency should the military situation so demand or on the recommendation of the Ministry of Labour for non-compliance with directions given by that Ministry should they leave the work for which they were released before the time they would have been released in the ordinary way in Class "A." After that date, provided that not less than six months have elapsed since the actual date of release, liability to recall on account of leaving employment will cease and men will be subject only to such controls as may apply to other civilians in any particular form of employment.

(Applicable to British Service personnel.)

12217/A1

401. Candidates accepted for Teacher Training—Voluntary Deferment of Release—Officers and Other Ranks

General

1. As a result of Conferences recently held between representatives of the War Office and the Ministry of Education, applicants accepted for courses of teacher training at Emergency Training Centres in UK are informed that they will have to wait some considerable time after acceptance before a vacancy at a Centre can be allotted to them. For some time to come the period of delay between the acceptance of the candidate and the date of joining an Emergency Training Centre is not likely to be less than nine months and may possibly exceed one year.

2. In order to avoid inconvenience or hardship to the individual, it is suggested that men and women who have been accepted for courses of training should consider the desirability of Voluntarily deferring their release from the Army under existing regulations and of applying for employment with the Army Educational Corps during the period of waiting.

3. The advantages of this course are:—

(a) that candidates will thus provide against what might otherwise prove to be a difficult period, if they are unable to find suitable temporary employment to cover the period between release and their date of joining a training centre, *and*

(b) that candidates will be gaining useful educational experience which will be of considerable value to them, both during their course of training at the Emergency Training Centre and also when they enter the teaching profession.

Conditions

4. Deferment will be qualified as follows:—

(a) The candidate will be released immediately, if he so desires, if it becomes known that he has ceased for any reason to be on the roll of accepted candidates.

(b) On application by the Ministry of Education for the candidate to take up a vacancy, War Office will arrange for the cancellation of his deferment of release so as to allow him (if the interval is long enough) to take his full period of Class "A" Release leave, or such less period of leave as he may desire before joining the teacher training course.

5. Accepted candidates who do not take their full period of leave on pay before joining at a training centre will continue to receive their Army emoluments for the full period of release leave to which they are entitled, even though they commence their course before their release leave expires. They will, from the commencement of their course of training, also receive the appropriate allowances, etc, from the civil authorities.

6. Candidates who apply for educational employment in the Army during their deferment of release will be employed with, or transferred to, the AEC where possible. Where it is not practicable to employ candidates with the AEC, they will be employed as educational instructors in their unit or as assistant part-time instructors. Every effort will be made to give those who defer on these lines the fullest assistance in their preparation for their teacher training course, and opportunities will be provided, where necessary, for them to undertake instructional practice under a capable supervisor.

Procedure

7. Candidates informed by the Ministry of Education that they have been accepted for training are advised to defer their release for a year.

PART II. GENERAL STAFF

408. Small Arms Ammunition—Safety Precautions (Grenades, Mortars and Other Projectiles)

ACI 599/43 is repeated for information and compliance.

1. The firing of "live" projectiles in the form of grenades and bombs of mortars and certain other weapons is an essential part of training for war, and the use of this training will tend to increase in the future. Hence it is necessary that all possible measures be taken to avoid accidents resulting from projectiles that fail to explode when intended but which are discovered later by persons, including children, who are unacquainted with their nature and with the danger involved by handling them.

2. Every endeavour will, therefore, be made to note the exact location of any projectile which fails to explode and to render it harmless before the troops engaged in the practice vacate the firing area. Full details regarding the disposal of such projectiles are given as regards:—

Grenades	Small Arms Training, Vol I, Pamphlet No 13, 1942, Part II, para 5.
2 inch Mortar Bombs	Small Arms Training, Vol I, Pamphlet No 8, 1942, pages 15 and 16.

3 inch Mortar Bombs	Small Arms Training, Vol I, Pamphlet No 9, 1943, Appx I.
4.2 inch Mortar Bombs	As for 3 inch bombs.
29 mm Spigot Mortar Bombs	Small Arms Training, Vol I, Pamphlet No 23, 1942, Appx I.

3. In cases where the projectile has been located but cannot at once be destroyed, a danger notice must be erected. In cases where after careful search, a projectile, that is known to have failed to explode, cannot be located, similar notices must be erected to warn persons away from the area where it is likely to be located. In both cases the police will be warned if the area concerned is accessible to civilians. Mine detectors will be used where necessary to locate projectiles not discovered by searching. Particular danger attaches to unexploded grenades.

4. Unit or equivalent commanders will require from officers in charge of firing, certificates that they have complied with the instructions in para 2 above, and that to the best of their knowledge and belief all bombs, grenades, etc, fired or thrown under their supervision have been exploded or action taken in accordance with para 3.

5. When an accident occurs as the result of a projectile left in a dangerous state, a court of inquiry will invariably be held, the convening officer specifying the information to be sought to ascertain whether, and by whom, there was any omission or reasonable and proper precautions.

Where the evidence discloses negligence or failure to take reasonable precautions disciplinary action will be taken.

6. ACI 22/43 is hereby cancelled.

WSD/155

409. Accidents—Prevention of Accidents with Filled Ammunition Used for Training

ACI 526/45 is repeated for information and compliance.

1. The high incidence of accidents caused through filled ammunition being used for training purposes must be prevented by strict compliance with regulations.

2. Ammunition is defined as any munition of war, whether offensive or defensive or any component of the same, either filled or charged, or intended to be filled or charged with explosive, chemical, smoke, incendiary or pyrotechnic composition. The term also includes:—

(a) Explosives in made-up charges.

(b) Explosive, chemical chargings, and incendiary, smoke and pyrotechnic mixtures, in bulk.

3. Wherever possible, inert stores (those which do not contain any kind of explosive) will be used for instructional purposes, especially in the early stages intended to familiarize troops with the appearance of the store, packing details and so on. The design and mechanism will be demonstrated as far as possible with wall diagrams, or reproduced on a blackboard from those appearing in the appropriate training manual or other service publication.

4. If inert stores are not available, authority for the use of filled ammunition may be given by the OC unit, subject to the following provisions:—

(a) An Officer will be detailed to ensure personally that any ammunition used for instructional purposes is free from initiators of any kind (detonators, igniters, igniter sets, cartridges, etc).

(b) Only ONE item of each type to make a complete round will be used during the early stages of instruction within doors.

(c) The complete round will not be assembled ready for action within doors, nor at any time except when it is proposed to function the round to demonstrate its effects. (This does not apply to artillery ammunition.)

(d) When a demonstration of the effects of a round is to be undertaken, every precaution to safeguard troops and property will be observed.

(e) The instructor will be personally warned by an officer of the provisions of ACI 374/45, which prohibits tampering with ammunition for any reason whatsoever; in this sense tampering will be taken to mean any sort of interference with the safety devices or the explosive fillings or chemical chargings in a fuze, grenade, mine or any other sort of ammunition.

(f) The greatest care will be taken to check that every item of ammunition or of components issued for instructional purposes is returned to store in a fully serviceable condition and that all components, such as detonators and igniters, etc, which are normally packed separately from the round itself, are in fact separate from the round on return to store.

(g) Every care will be taken to prevent confusion between filled and inert stores.

5. When dealing with ammunition of any nature, emphasis will be laid on the fact that the object of an explosive is to explode. "Safety Precautions" will be the subject dealt with before any lecture or demonstration is started.

WSD/155

410. Ammunition and Explosives—Unauthorized Experiments

The following extracts from ACI 374/45 are published for information.

1. Tampering with ammunition for any purpose whatever, and the breaking down or sectioning of any round or component of a round for experimental or instructional purposes, except by persons noted in para 9 of this ACI or under special authority granted by this GHQ is forbidden.

2. This applies equally to unauthorized experiments involving the use of increased charges or service propellants or of bursting charges, or the use of non-service explosives of any type whatever.

415. Documentation—Field Conduct Sheets—AF B122—Other Ranks

1. For various reasons AF B122 is often not held by the unit with which a soldier is serving or if it is held, sometimes contains inaccuracies.

2. Where it appears that the original AF B122 has been lost or where the AF B122 held contains obvious inaccuracies application should be made to GHQ 2nd Echelon for a new AF B122 prepared from the record of regimental entries on AF B103.

3. When a soldier is committed for trial by FGCM and no AF B122 is available, the officer commanding the unit to which he belongs or is attached will immediately apply by signal to GHQ 2nd Echelon for an AF B122 relating to the soldier. On receipt of such application GHQ 2nd Echelon will prepare a new AF B122 from the soldier's records and will forward the completed form to the unit.

The unit will retain the new original AF B122 thus obtained from GHQ 2nd Echelon and a certified true copy will be prepared by the unit and will be produced in the ordinary way at the trial.

4. In order that other ranks' military careers may not be adversely affected by the record on their field conduct sheets of petty offences committed either during immaturity or for which they have subsequently atoned by good service, the following procedure will be followed:—

(a) During the present emergency, field conduct sheets will, if containing any *company* entries, be destroyed:

(i) When the soldier attains the age of 19½ years.*

(ii) After a period of one year without an entry.

(iii) On promotion to the rank of serjeant (substantive or war substantive) or above.

(b) When AF B122 is destroyed in accordance with para 4 (a) above:

417. Responsibility for Public and Regimental Money

ACI 786/41 is repeated for information and compliance.

A number of cases have occurred in which money of public and regimental funds has been stolen because the cash box, cupboard or drawer in which it was placed has been kept in a room which remained unoccupied for considerable periods, especially at night.

Officers who hold public and regimental funds are responsible for the safeguarding of money of those funds, and the fact that a safe is not provided does not in any way relieve officers of this responsibility. Balances of cash should never be retained unless unavoidable. If it is essential that some cash should be held, the amount should be as small as possible. Where a cash balance is held and no safe is available, it must be kept in a properly secured box, which in turn must be handed to the custody of a guard every time there is a possibility of it being left unattended, particularly at night. To have a soldier sleeping in an office in which cash is kept has not proved to be an adequate safeguard, since the occupant may occasionally leave the office untenanted.

Failure to take adequate steps to safeguard public and regimental money renders the officer responsible for its safe custody liable to make good any loss occasioned by his negligence.

425. Equipment—Electric Irons in use by the ATS—Safety Precautions

ACI 477/43 is repeated for information and compliance.

With reference to ACI 14/42, which authorized the provision of electric irons for the ATS, the following precautionary measures will be taken in the use of such irons:—

1. Electric irons will only be used in:—
(a) Living huts or rooms.
(b) Recreation huts or rooms.
(c) Any other room which (*eg*, in requisitioned property) is set apart for the purpose.

In no circumstances will they be used in ablution rooms; sanitary blocks; cookhouses; drying rooms or any other places where the floor is liable to be wet or where the user can touch a good earth (*eg*, a water or gas tap) and the appliance at the same time. This applies equally to requisitioned buildings.

2. Electric irons should preferably be used only in rooms with wooden floors but it is realized that it will not always be possible for this to be arranged. Where the floor is of any material other than wood; the area on which the auxiliary can stand when using the iron will be covered with either dry boarding or linoleum so that the user cannot come into direct contact with the floor when using the iron.

3. Plugs and sockets for electric irons (as for all type as laid down in DRW Technical Instruction other electric power appliances) will be of the 3-pin No. 463 and will be efficiently earthed in accordance with the Regulations for the Electrical Equipment of Buildings issued by the Institution of Electrical Engineers.

4. Any existing sockets located other than as mentioned above will be removed and any 2-pin socket in authorized places will be changed for 3-pin sockets. Until this work is completed no electric irons will be used where either the location or sockets are at variance with the above instructions.

5. The use of privately owned irons is forbidden.

(A summary of this ACI is No. 26 in the series "Notice Board Information".)

6. As many floors in this theatre are of tiled construction and consequently good electrical conductors, ironing tables should be of all wooden construction.

ARMY COUNCIL INSTRUCTION

No. 511 of 1946

Circulated down to Companies, Batteries and Equivalent Units

THE WAR OFFICE
18th May, 1946

511. Commissions.—Officers—Short Service Regular Commissions.

1. *General.*—Attention is drawn to the Royal Warrant dated 10 May 46, issued as Army Order 72/46. Until further notice Short Service Regular Army Commissions may be granted to officers holding non-Regular Army commissions for service with the various arms including officers required to fill technical appointments under the Ministry of Supply, and those required for service with the Claims Commission, and such other categories for whom short service Regular Army commissions may be found necessary.

Officers granted these commissions will be liable for general service in any part of the world and must be prepared to serve wherever, and in whatever capacity ordered.

Those to whom commissions are granted while on release leave or after release will be eligible for world-wide posting, with no restrictions, irrespective of any previous overseas service they may have. Their overseas tour will, as far as possible, be of similar length to that of Regular Army officers being posted overseas at the same time.

Those to whom commissions are granted while still serving will also be eligible for world-wide posting. Those serving overseas will, however, normally be repatriated when they qualify under current PYTHON rules counting service overseas before being granted commissions towards the qualifying period. Subsequently they, and those who are granted commissions while serving at home, will be eligible for world-wide posting, but if possible they will be given the same privileges in regard to restricted posting as may be applicable to Regular Army officers at the time. This, however, cannot be guaranteed.

2. *Eligibility.*

(a) *Age limits.*—There is no age limit but acceptance by the War Office of an application for a short service Regular Army commission will depend upon the prospects of employing the applicant for the period of his commission having regard to his age.

(b) *Ranks.*—Officers of any rank may apply but there are limitations to the numbers of majors and ranks above major that can be accepted.

(c) *Medical categories.*—Officers will normally be in medical category A but applicants in medical categories B and C may be accepted subject to special scrutiny, to any special qualifications they may possess and to a special recommendation made on their behalf when their applications are forwarded.

3. *Rank and promotion.*—Short service Regular Army commissions will be granted in the substantive rank and seniority equivalent to the substantive or war substantive rank held by the applicant.

If, for any reason, an officer should not be accepted in rank equivalent to his substantive or war substantive rank he may, on his own application, be accepted in a lower rank.

0731

Declassified E.O. 12356 Section 3.3/NND No. 785021

Officers will be employed in ranks not lower than the substantive rank in which appointed but higher paid acting and temporary rank may be held under the provisions of the war time promotion code (Pay Warrant, 1940, Articles 179 to 182 (as amended)) for so long as that code is in operation and subject to any modifications which may be made from time to time.

4. *Pay and Allowances.*—Officers granted short service Regular Army commissions will receive pay and allowances appropriate to their rank at current normal rates—subject to any change which may be introduced for the Army at any time.

5. *Gratuity or retired pay and periods of service.*

(a) Officers, other than those referred to in sub-para (b), may be granted commissions for a period of eight years from the date of appointment, of which three, four or five years will be spent on the active list and the balance on the Reserve. On satisfactory completion of the full active list period for which they have engaged gratuities will be payable at the rates shown below:—

(i) *Normal Scale.*

For three years' service	£337 10s.
For four years' service	£450 0s.
For five years' service	£562 10s.

(ii) *Special Scale.*—Applicable only to certain officers with technical qualifications specially commissioned to fill technical appointments under the Ministry of Supply or in the Army:—

For three years' service	£375 0s.
For four years' service	£500 0s.
For five years' service	£625 0s.

(iii) No gratuity will be payable to officers whose active list service is prematurely terminated for misconduct or on voluntary resignation. The question of payment of proportionate gratuity in other cases is under consideration.

(b) Ex-Regular Army soldiers whose service is at present reckonable towards an award of retired pay under the Pay Warrant, 1940, Article 634 (a) (as promulgated by amendments (No. 110) notified in Army Order 59/44) may be granted commissions earning retired pay under the provisions of that Article instead of the gratuity provided for in sub-para (a) above. The active list portion of the commission will be for a minimum of seven years or such longer period from the date of appointment as is required to enable them to complete 15 years' service reckoning towards retirement on retired pay under the Pay Warrant, 1940, Article 541 (as amended by Amendments (Nos. 112 and 129) notified in Army Orders 90/44 and 34/45). It should be noted that, as stated in the White Paper (Cmd. 6750) notifying the Post-war Code of Pay, Allowances, Retired Pay and service Gratuities for commissioned officers of the Armed Forces, para 65, the non-effective benefits of these officers are under consideration.

6. *Leave and Release benefits.*

(a) Officers who have not been released will be required to forgo their release leave and overseas service leave. They will be granted 28 days' end of war leave to be taken as soon as the exigencies of the Service permit in conjunction with such other leave as may be admissible.

During their service and on termination thereof they will be eligible for the grant of such leave as may be admissible for Regular Army officers at the time.

(b) No further outfit grant will be admissible on appointment to a short service Regular Army commission.

7. *Eligibility for the grant of Permanent Regular Army commissions.*

(a) Officers will be eligible to be considered for the grant of permanent Regular Army commissions at any time during the period of their short service commission subject to current rules. Officers appointed to permanent Regular Army commissions will reckon the period of their short service commission towards ultimate retired pay or service gratuity on the Regular Army officers' scale, but will not be entitled to any short service gratuity.

Declassified E.O. 12356 Section 3.3/NND No. 785021

(b) Ex-Regular Army warrant officers and NCOs will continue to be eligible for registration and consideration for the grant of permanent Regular Army commissions as quarter-masters and similar categories under current rules. For this purpose they will retain their position on the pre-war seniority roll of their regiment or corps.

8. *Families.*—The wives and families of officers who are granted short service Regular Army commissions will be permitted to join them in overseas commands where accommodation and conditions permit, under the rules laid down in ACI 375/46, and subsequent amendments which may be made from time to time. It must be borne in mind that for some time to come opportunities for families to join their husbands overseas will be severely limited.

9. *Reinstatement rights.*—Legal rights under the "Reinstatement in Civil Employment Act, 1944" to reinstatement in former civil employment lapse six months after the statutory end of the present emergency. Consequently no guarantee can be given that officers who are granted short service Regular Army commissions will retain such rights if the period of their commissions should extend beyond the statutory end of the emergency for more than six months.

Rights under the Act do not cover such matters as the payment of the balance of civil pay which are matters for private adjustment between the individual and his former civil employer.

10. *Civil Servants.*—Permanent civil servants are not eligible for the grant of short service Regular Army commissions unless they first resign their appointment in the Civil Service.

11. *Termination.*—The normal Pay Warrant regulations governing termination of service at any time for medical, disciplinary or other reasons will apply to officers appointed to short service Regular Army commissions under Army Order 72/46.

12. *Applications and Selection.*

(a) Officers now serving are invited to apply on the appropriate form as shown in Appendices "A" and "B" to this ACI. Those who have already been released, or who did not leave their units overseas more than seven days after the date of publication in their unit of this ACI will be eligible to apply. Those who leave their units for the purposes of release seven days after that date will not be eligible and their applications will not be accepted.

(b) Applications will be submitted in duplicate through the usual channels, which may be curtailed at the discretion of Cs.-in-C., *ie*, the applications may be sent direct from units to command headquarters or through a specified formation. 455. Sick Leave for Officers

1. Consequent upon the closing of BRCS Officers Convalescent Homes, no special arrangements exist for convalescent officers in ITALY.

2. Sick leave may be granted to officers in accordance with King's Regulations (1940) para 1562, as amplified by ACI 1271/44 para 5, and this GRO. Such leave will be confined to places within CMF.

3. Officers recommended for sick leave will proceed on leave on the day such recommendation is made in anticipation of approval being given. The authority to give officers permission to proceed on such leave will be:—

(a) The OC Hospital if the officer is in Hospital, or the officer in medical charge of the case if the officer is absent from duty but not in Hospital.

(b) The OC the unit in which the officer is serving if at duty.

(c) The President of the Medical Board which recommends sick leave.

The authority to proceed on sick leave given in sub-paras (a), (b) and (c) is an interim authority only, pending approval under para 6 below of the period of sick leave recommended.

4. If permission to proceed on leave has been granted under sub-para (a), or (b) above, a medical certificate together with a written recommendation will be completed by the officer in medical charge of the case and forwarded to the OC of the unit on whose strength the officer concerned is borne.

5. When sick leave is authorized under sub-para (c) above, it will not be necessary to submit a medical certificate and recommendation. GHQ CMF will notify Formation of any leave granted to an officer on the recommendation of a Medical Board.

The President of the Board will inform the officer whenever leave is recommended. The officer will be placed in Medical Category "D" whenever a definite period of sick leave is recommended.

6. Sick leave granted to officers will not exceed the following:—

(i) By Brigade or equivalent Commander, on medical certificate—the balance to complete six weeks total absence from duty on account of sickness.

(ii) By a Divisional, District or higher Commander, on the recommendation of a Medical Board held before the grant of leave—the balance to complete three months total absence from duty on account of sickness.

(iii) Sick leave in excess of three months may only be approved by the War Office.

7. Medical certificates and recommendation, after approval, will be submitted to the War Office by the authority who approves the leave. A copy will be sent direct to GHQ CMF. In the case of officers holding MS appointments, for whom a replacement is required, a copy of medical certificate and recommendation will be forwarded to MS Branch, GHQ, with the request or nomination for replacement.

456. Release—Medical Examination on AF W3149

1. (a) Medical Examination on AF W3149 will be completed in every case before the date by which Release Books should be completed by OsC units, as published from time to time in GROs except for personnel referred to in para 2 (d) below. When completing Release Books, OsC units will check that entries in accordance with para 4 have been made in ABs 64 or ABs 439, as applicable.

(b) Personnel of disbanding units who are within one month of the earliest date for their release in UK and who are despatched to 2 CRU in accordance with GRO 332/46, para 2, will be medically examined and AF W3149 completed before despatch, excepting personnel referred to in para 2 (d) below.

2. *Examination Procedure*

Separate instructions have been issued to Medical officers regarding the completion of AFs W3149 in the pamphlet "Notes for Guidance on Medical Examination on AF W3149". The following are further instructions:—

(a) The Medical officer will, at the time of the examination, inform the examinee that one of the purposes of the examination is to ensure that a report on the examinee's condition at the time of leaving the service may be available to the Ministry of Pension if a disability award is claimed. The object of so informing the examinee is to give him an opportunity of calling attention to any matter which he wishes to be taken into account in that connection. This statement to examinees may at discretion be in the form of a display notice.

(b) The examinee will be given no indication of the contents of the medical report.

(c) In the case of any examinee on whom an amputation has been performed but who has thereafter been retained in the Serivce, the words "Amputation case retained in the Service" will be marked in bold red ink characters on the top of the front page of the AF W3149. The object of this procedure is to ensure that the disability pension entitlement of any such individual will receive automatic consideration without its being necessary for the individual to initiate a claim.

(d) AF W3149 will not be prepared for personnel suffering from communicable diseases until they have been certified as no longer liable to convey their infection to others.

3. As soon as the AF W3149 has been completed, the unit will forward it to GHQ 2nd Echelon without delay.

4. *Documentation*

The Medical officer will make a note in AB 64 or AB 439, as applicable, at the time of completing AF W31494, in the following form:—

"Medically examined on (date)"

The unit will subsequently add:—

"AF W3149 submitted to GHQ 2nd Echelon (date)"

Age/Service Group will be inserted at head of AF W3149.

Declassified E.O. 12356 Section 3.3/NND No. 785021

5. *Hospital Treatment after Examination*

If an individual undergoes hospital treatment after the medical examination has been carried out but before leaving the Service, *eg*, in consequence of an accident or illness, the medical examination already carried out will no longer fulfil the requirements of this GRO. In such cases, therefore, unless the individual is invalided, the OC Hospital will ensure that a further medical examination on AF W3149 is carried out before he leaves the hospital.

6. In cases where a further AF W3149 has been submitted (vide para 5 above), OsC units will ensure that the relevant AF W3149 is despatched to GHQ 2nd Echelon and that the AB 64 or AB 439 is endorsed:—

"Medically examined on (date)"

"Second AF W3149 forwarded to GHQ 2nd Echelon (date)"

7. GRO 834/45 as amended by GRO 981/45 is hereby *cancelled*.

1. Applications were invited in GRO 1227/45 for licences to import dogs into Great Britain under the provision of ACI 1148/45 (a summary of which appears as No. 166 in the series "Notice Board Information").

2. Owing to the limited quarantine accommodation in UK, applications have been far in excess of the number of licences allotted to CMF by the War Office, who are unable to increase the quota at the present time. In fact 153 licences have been so allotted against more than 800 applications.

3. For this reason no further applications should be submitted, and applications received after 1 Aug will be returned.

4. On 1 Aug a priority list for the allocation of licences is being established based upon length of ownership, and this list will remain firm. Outstanding applicants will be informed of their position on the list by DD V and RS BTA.

5. Applicants who are low on the priority list

(a) Should bear in mind the large number of outstanding applications as compared with the small number of licences allotted *eg*, thirty eight licences were allocated to CMF for the period 1 Apr 46 to 1 Jul 46.

(b) May make application for licences to the Ministry of Agriculture and Fisheries, WHITEHALL, LONDON, SW 1. In this connection they should note that:—

(i) No military assistance can be given for the despatch of the dog.

(ii) Dogs are not permitted to travel over MEDLOC or on WD transport.

(iii) Civil quarantine charges in UK range, according to the size of the dog, from 16 to 25 shillings weekly for a period of six months.

446. Army Education Scheme—Formation College Courses—Attendance of Personnel who are on Class "A" Release Leave

Reference ACI 442/46.

Eligibility to attend.

1. In view of the fact that no deferment of release can be authorized for the purpose of participating in the Army Education Scheme, it has been decided that the following categories of personnel may be allowed to attend a course at a Formation College in UK *during* Class "A" Release Leave if an appropriate course is available, provided the course can begin and end within the period of Class "A" Release Leave (and overseas leave, if any).

Officers and other ranks (including ATS and VAD's) serving overseas, or in the UK, whom it has not been possible to send on a course at a Formation College, so as to complete the course before their Release leave is due to begin, through one or more of the following causes:—

(a) through the exigencies of the Service, other than under Sub-para (b) below;

(b) having been retained under "Regulations for Release from the Army 1945", paras 320 and 321.

(c) the appropriate course was not included in the programme of the accessible Formation College.

It is emphasized, however, that this concession applies only to personnel who have *not* had an equivalent course under the Army Educational Scheme, before beginning Release leave.

2. Personnel who take advantage of the concession outlined in para 1 above, will *not* be granted an extension of Release leave and overseas leave (if any) to make up for the period they spend at the Formation College, nor will they be permitted to attend, or remain on, a course at the Formation College *after* the end of their Release leave.

RANK, PAY, ALLOWANCES AND ISSUES IN KIND

3. Personnel attending courses will retain the rank to which they are entitled during Release leave.

4. Personnel attending courses *during* Release leave will retain the rates of pay and allowances already issuable for Release leave, except that rations in kind will be issued and ration allowance will *not* be admissible for the duration of the course.

Civilian ration books will be withdrawn from students by the commandant of the Formation College, who will cancel portions and coupons relevant to the period during which rations in kind are drawn.

5. (a) Officers will make their own financial arrangements while attending a course. Cheques will not be cashed by the Formation College.

(b) Other ranks, will be paid on acquittance rolls, separate acquittance rolls being prepared for each Regiment and Corps and each branch of the RA.

AB 64 (Part II) in respect of other ranks attending a course *during* Release leave, will be furnished by the Regimental Paymaster. The Commandant, Formation College, will immediatly withdraw the soldier's payment order book (AF X440 - Release Leave Payments) and forward it to the Regimental Paymaster concerned.

Declassified E.O. 12356 Section 3.3/NND No. 785021

6. Documentation

(a) Officers will be temporarily attached to Formation Colleges for the duration of the course. Casualties occurring during the course will be published in the normal way. The provisions of ACI 789/43 will be waived in respect of these officers, and both sections "A" and "B" Casualties will be promulgated in Part II Orders (Officers) by the Formation College concerned.

(b) Other ranks will be *attached* to Formation Colleges for the duration of the course. Casualties showing arrivals and departures of other ranks will be published in Part III orders, this being an exception to the provisions of the pamphlet "Regimental Orders and Documentation, 1944", para 24. On the receipt of Part III Orders showing the attachment, AFs B178 and 15033 will be forwarded by Os IC Records, if in their possession, to Formation College concerned.

(c) Such personnel will be accounted for in AF B157 part D (ii) under the item "attached for rations and/or accomodation.

7. Medical and Dental Treatment.

During the course, students will receive medical treatment from Army sources in accordance with existing regulations for serving personnel, and *not* in accordance with the instructions contained in the Release Book (AB X108 and X803). Students will be afforded urgent and essential dental treatment only.

The period of the course will be accepted as Military Service for the purpose of disability awards under the Ministry of Pensions Warrants.

8. Dress

Personnel attending a course at a Formation College during their Release leave will take one suit of uniform to be worn at such times as are prescribed by the College.

9. Discipline.

While on Release leave officers and other ranks remain subject to Military Law. The responsibility for discipline will be as laid down in King's Regulations, 1940 para 521.

10. Affiliation of CMF to Formation College in UK.

(a) CMF having its own Formation College, will be affiliated to the Home Command stated below:—

(i) for special courses not available in Formation College (CM) PERUGIA, and for all personnel eligible under para 1 above:—

CMF (with MALTA) with Scottish Command

(ii) for all available types of courses for personnel eligible under paras 1 (a) and (b) above:—

CMF (with MALTA) with Scottish Command

(b) Vacancies for each course have been allotted as detailed in sub para (i) and (ii) below. The number of vacancies will be adjusted by the War Office as necessary from time to time.

(i) Allotment of vacancies under para 10 (a) (i):- See Appendix "A"

(ii) Allotment of vacancies under para 10 (a) (ii): No fixed allotment is given, because it is not possible to predict the ratio between applications from this theatre and from Scottish Command in this category. Scottish Command will therefore give the same priority to CMF students as to their own students of the same Age/Service Group.

(c) Distribution of vacancies by subject will be arranged directly between A5 GHQ CMF and Scottish Command, the opportunity then being taken to take account of the provisos of sub para (d) and para 13 below.

(d) Scottish Command will treat CMF nominees as their own for the purpose of getting them courses in other Home Command Formation Colleges in subjects of study not available in its own College.

11. No guarantee can be given that a suitable course will be available.

12. (a) The location of Scottish Command Formation College is given at Appendix "B."

(b) Applications in a form as shown in Appendix "C", may be submitted up to the date on which the applicant leaves his unit for Cass "A" Release. Two copies of the completed application form will be forwarded direct to A5 GHQ CMF who will consider the applications and make nominations. In the case of accepted nominees, who are serving in CMF, A5 GHQ CMF will forward one copy of the application form direct to Scottish Command by the fastest available means.

In successful cases, A5 GHQ CMF will notify the applicant's unit that the individual concerned has been nominated to attend a course at No.1 Formation College Scottish Command during release leave. This notification will also be repeated to the applicants release leave address. In the case of applicants to whom no course can be allotted, A5 GHQ CMF will forward a form as shown in Appendix "D" Part 1 to the applicants unit and to the applicant's Release leave address.

13. The numbers which may be nominated by A5 GHQ CMF while remaining within the allotment shown in Appendix "A" will not exceed a total of 1% of Command strength every five weeks, less the number of personnel who have been given equivalent courses under the Army Education Scheme during the five weeks under consideration.

14. (a) On receiving the completed application form, Scottish Command, if a suitable course is considered likely to be available, will forward the form as shown in Appendix "D" Part II to the applicant's Release leave address. On receipt of Section "B" duly completed by the applicant Scottish Command will:-

(i) send to applicant joining instructions and a railway warrant from release leave address to No. 1 Formation College, DALKEITH; or to an alternative Formation College in UK in accordance with the terms of para 10 (d) above.

(ii) furnish the Regimental Paymaster concerned with full particulars of the soldier together with the date of the beginning of the course.

(b) If, Scottish Command finds that a suitable course will not be available, they will notify the applicant accordingly at his Release leave address, in the terms of the form shown in Appendix "D", Part 1, appropriately re-worded.

15. At the end of the course, students will be issued with a railway warrant for return to their Release leave destination.

16. The fore-going provisions do not imply that applications, by personnel serving in CMF for courses at Formation College (CM) PERUGIA, should be refused on the score that similar facilities will be

0775

Declassified E.O. 12356 Section 3.3/NND No. 785021

available after release. It is imperative that applicants be given every opportunity of taking a Formation College course *before* release, as the number of vacancies at No. 1 Formation College, Scottish Command, is likely to be strictly limited.

448. Royal Military Academy - Selection and Training of Candidates for Permanent Regular Army Commissions

1. The Royal Military Academy, SANDHURST, is being set up in place of the pre-war Royal Military Academy and the Royal Military College, for the training of candidates for permanent Regular Army commissions.

2. The Royal Military Academy, SANDHURST, will open with its first intake of cadets on 3 Jan 47. Further intakes are proposed in May and November of that year, thereafter half yearly in May and November. Regular Commission Boards will start interviewing serving candidates for the 3 Jan 47 intake to the Academy early in July next. Interviews will be carried out in the UK only and are expected to continue for about 8 weeks for the selection of candidates for the first Academy intake.

3. (a) Applications are required immediately from other ranks who wish to be considered for entry to the Academy in January 1947 as "incidental" candidates.

(b) (i) Applications will be submitted on the pro-forma attached as Appendix "A" to this GRO, accompanied by SP Sheet 110, an advance copy of which is attached as Appendix "B" to this GRO. AF B2617 and SP Sheet 54 will not be used. Pending the issue of Appendices "A" and "B" as printed Army Forms, local arrangements will be made for them to be duplicated.

(ii) Application forms and SP Sheets 110 will be submitted, through normal channels, to GHQ (A9), who will forward them weekly to the War Office. The submission of applications to the War Office will not be held up for the production of certified copies of entry of birth or certificates of moral character. In cases where these certificates are not forthcoming when applications are submitted, they will be required to be produced by candidates after arrival in the UK for interview by a RCB.

(iii) Candidates for whom application forms are submitted to the War Office will be returned to the UK at the earliest possible opportunity under orders to be issued by GHQ (A9). Arrangements for their interview after arrival in the UK will be made by RCBs direct with the holding units to which they are despatched on arrival in the UK.

(c) (i) Qualifications for serving candidates are:—

Age—Will not have passed the age of 19½ years on entry to the Academy on 3 Jan 47.

Medical standard—A1.

Nationality—British subjects, the sons of British subjects and of pure European descent.

(ii) The following will not be accepted for interview for entry to the Academy and will, therefore, not be permitted to apply for interview:—

Other ranks who have been failed by a WOSB (OCTU) or its equivalent in INDIA or MIDDLE EAST, for Emergency commissions (including those who have been returned to their units by a WOSB on rejection from a Pre-OCTU or OCTU or their equivalent).

(d) Applications from eligible candidates will not veloed by COs. Should a CO not be prepared to recommend an eligible candidate, the Div or equivalent Commander will decide whether or not the candidate should be recommended. The recommendation, whether approved or not by the Div or equivalent Commander, will be forwarded to GHQ (A9), through the normal channels.

4. (a) All applicants for consideration as "incidental" candidates for entry to the Academy will appear before a Regular Commissions Board, where they will undergo tests for personality, character and leadership on lines similar to those now obtaining

Declassified E.O. 12356 Section 3.3/NND No. 785021

for candidates for Regular commissions under ACI 146/46. They will also be required to answer a series of questions both oral and written in order to establish that they are of the educational standard necessary to compete with the curriculum at the Academy.

(b) Short educational courses lasting up to about three months will be arranged for candidates recommended for the Academy by RCBs but who are found to require coaching in order that they may be able to compete with curriculum on joining the Academy.

5. (a) Candidates will be graded by RCBs as under:—

(i) Suitable.
(ii) Suitable subject to further education.
(iii) Less suitable.
(iv) Unsuitable.

(b) Should the number of candidates placed in grades (i) (ii) and (iii) above be in excess of the number of vacancies available at the Academy, final selection will be decided upon by a special Board arranged by the War Office (SP1).

(c) Results of interview and acceptance for entry to the Academy will be notified to units by the War Office (AG1 (Offrs E)).

(d) There will be no appeal against the decision of the RCB. An unsuccessful candidate will, however, be allowed a second interview by a different RCB after a lapse of three months, provided he is still eligible by age.

(e) In cases where a candidate is found unsuitable for entry to the Academy and is desirous and suitable for training for an Emergency commission, the RCB will make their recommendation for the latter accordingly. In such cases the candidate will be accepted for training at an OCTU without further interview by a WOSB. An unsuccessful candidate for the Academy, if subsequently granted an Emergency commission will not be debarred from applying for a Regular commission under the rules obtaining at the time for applicants who have been unable to enter the Academy.

6. Further instructions will be issued regarding the selection of entrants to the Academy for courses after January 1947.

(Applicable to all British troops.)

PART III. BRANCH of the ADJUTANT and QUARTER-MASTER GENERAL

360. Short Service Engagements

1. In order to encourage experienced men who would otherwise be released from the Army, to continue in the service for a short time, and to attract back to the Army for a similar period trained men who have already accepted release, it has been decided to offer such men who have completed at least two years full time service with the Colours since 1 Sep 39, re-enlistment on Short Service engagements for a period of three or four years with the Colours without a following period of service in the Royal Army Reserve.

This offer will be open only for a limited time.

2. CLASSES ELIGIBLE.

Subject to the conditions set out in para 21 below, the following classes will be eligible for re-enlistment on Short Service engagements:—

(a) Men who have completed their Regular Army engagement but who are still retained in the service under the Army and Air Forces (Prolongation of Service) Act, 1939, or have deferred their release for a definite period, or to General Demobilization.

(b) Men now serving on any form of non-Regular Army engagement, *ie*, Territorial Army, Supplementary Reserve, sections D and E Royal Army Reserve, and those deemed to have been enlisted under the Military Training Act, 1939, and the National Service Acts, and those who have deferred their release for a definite period, or to General Demobilization.

(c) Men, other than section B Army Reservists, who have already been released under the Release Scheme or who have been discharged.

NOTE:—Class W and W (T) Reservists who are eligible and acceptable for re-enlistment would, in the first instance, be recalled to the Colours before re-enlistment is proceeded with.

3. FINANCIAL INDUCEMENT.

(a) *Initial Bounty*. £25 paid on re-enlistment plus, for men who have not already received a civilian outfit, a civilian outfit or £8 in lieu.

(b) *Terminal Gratuity*. £25 for each year of engagement.

For men discharged for misconduct, no terminal gratuity will be paid, but the initial bounty will not be recovered. For men discharged prematurely for other reasons, arrangements will be made for the payment of a portion of the gratuity.

The Short Service engagement period may reckon as service for pension, but if a service pension is awarded, terminal gratuity will not be payable.

4. LEAVE.

(a) The leave of men re-enlisting on Short Service engagements will follow normal rules.

In addition, the following period of paid leave will be granted:—

(i) 28 days "re-enlistment" leave.

(ii) 28 days "end of war" leave.

(iii) 28 days "terminal" leave.

(i) and (ii) will not be granted to men who re-enlist after being discharged or released with their Age/Service Group.

(i) will be granted to men eligible on re-enlistment or as soon as possible thereafter.

(ii) will be granted to men eligible as soon as exigencies of the service permit, but will be postponable at the option of the man till the end of his engagement.

(iii) will be granted at the end of engagement.

(b) "Oversens service leave" will not be granted in addition to the periods mentioned in (a) above, but when "Overseas service leave" due at the time of re-enlistment exceeds 28 days, the amount due as "Overseas service leave" will be granted in place of the 28 days under (a) (i) above.

(c) Leave to men prematurely discharged will follow the normal rules in force at the time of their discharge, applicable to men discharged in similar circumstances.

(d) No entitlement to free travel additional to currently authorized entitlement is conveyed by the grant of leave under (i), (ii) or (iii) above.

5. GENERAL SERVICE OBLIGATION.

All men accepted for re-enlistment on Short Service engagements will be required to undertake the general service obligation, *ie*, they will be required to serve in any part of the world where their services may be required.

Subject to the exigences of the service, every endeavour will be made to ensure that men are not retained at stations abroad within the last six months of their engagement.

6. CIVILIAN OUTFIT ON DISCHARGE.

Men will receive such civilian clothing, or cash grant in lieu, as is authorized under regulations current at time of discharge, irrespective of the fact that they may have already received a civilian outfit or the money grant in lieu under para 3 (a) above.

7. RE-INSTATEMENT RIGHTS.

Legal rights under the re-instatement in Civil Employment Act 1944 to re-instatement in former civil employment lapse six months after the statutory end of the present emergency. Consequently, no guarantee can be given that men who are accepted on Short Service engagements of three or four years will retain such rights if the period of their engagement should extend beyond the statutory end of the emergency for more than six months.

Rights under the Act do not cover such matters as the payment of the balance of civil pay, which are matters for private adjustment between the individual and his former employer.

8. RANK.

(a) All men will be re-enlisted in the lowest rank.

(b) Those who re-enlist while serving and hold higher war substantive or acting rank, will, provided they re-enlist into the same arm, be re-promoted to that rank if vacancies exist. If vacancies do not exist they will, subject to their acceptance, be re-promoted to such lower rank as may be offered to them. Acting rank may, however, have to be relinquished in accordance with current promotion rules. Should they re-enlist into another arm, the regrant of any war substantive rank or acting rank will depend upon vacancies being available in that arm, and their suitability to fill such vacancies.

(c) Those who have already been released will, if accepted for re-enlistment, be promoted to the war substantive rank held at the time of release, provided

0802

Declassified E.O. 12356 Section 3.3/NND No. 785021

they re-enlist into the same arm and vacancies are available in that rank. Should they re-enlist into another arm, the re-grant of any war substantive rank will depend upon vacancies being available in that arm, and their suitability to fill such vacancies.

(d) War substantive rank will be held during the period that the war time promotion code remains in force. Subsequent promotion will be governed by the promotion code at the time.

9. Choice of Corps.

Men will only be permitted to re-enlist into the Corps or Regiment in which they are at present serving, or in which they served immediately prior to discharge or release, provided the Corps is open.

The following Corps will be open for re-enlistments:—

RAC (including Household Cavalry); RA; RE; R Signals; Infantry of the Line (including AAC); RASC; RAMC; RAOC; REME; RAPC; RAVC; Army Dental Corps; CMP and MPSC; Intelligence Corps; Pioner Corps; ACC.

Men serving in other Corps may be accepted for the above Corps subject to there being vacancies to fill for which they are qualified and suitable, and to their acceptance by GHQ 2nd Echelon. Such men should be attached to a unit of the Corps or Regiment into which they wish to enlist for a period of one month to ascertain their suitability for re-enlistment. This attachment should be carried out by arrangements made by OsC units concerned, before application is made to GHQ 2nd Echelon for a vacancy for the soldier concerned.

10. Quotas.

GHQ 2nd Echelon are being informed of the numbers in ranks and trades which may be accepted for re-enlistment on Short Service engagements. Before carrying out re-enlistment on a Short Service engagement, OsC units will apply to GHQ 2nd Echelon for a vacancy in the quota allowed for the Corps for which the man wishes to enlist. The following particulars will be given:—

Number, Rank, Name, Unit and Corps, Trade, Medical Category, Date of Birth, Corps or Regiment into which the applicant wishes to enlist, period for which enlistment is desired. GHQ 2nd Echelon, when authorizing acceptance of the man, will state in what rank and/or trade he can be accepted.

11. Counting of previous Colour service.

Previous Colour, embodied or mobilized service will not reckon as service towards a Short Service engagement, but will reckon for increases of pay, long service, and good conduct pay, under the present pay code subject to the conditions governing these emoluments. Previous Colour embodied or mobilized service will also reckon for service pension subject to the relevant conditions.

12. Service overseas.

(a) Those who re-enlist while on release leave, or after release, will be eligible for world wide posting, with no restrictions, irrespective of any previous overseas service they may have. Their overseas tour will, as far as possible, be of similar length to that of Regular soldiers being posted overseas at the time.

(b) Those who re-enlist while still serving will also be eligible for world wide posting. Those serving overseas when they re-enlist will, however, normally be repatriated when they qualify under "PYTHON" rules, counting service overseas before they re-enlist towards the qualifying period.

Subsequently they, and those who re-enlist while serving at home, will be eligible for world wide posting, but if possible will be given the same privileges in regard to restricted posting as may be applicable to Regular soldiers at the time. This, however, cannot be guaranteed.

13. Dependant's Allowance, Special Dependant's Allowance, and/or War Service Grant.

A man in respect of whom a dependant's allowance, special dependant's allowance, and/or a war service grant, which was in issue on 1 Jan 46, has remained continuously in issue since that date, will retain entitlement provisionally to such allowance or grant. A dependant's allowance, special dependant's allowance, and/or war service grant which was put into issue or resumed after 1 Jan 46, will cease when a man re-enlists on a Short Service engagement. The question whether dependant's allowances, special dependant's allowances, and war service grants are to remain in issue after 1 Jul 47, will be reviewed before that date.

14. Family Allowance.

A man in respect of whom the continued rate of family allowance and qualifying allotment in issue on 30 Jun 46, is in excess of the combined rates of marriage allowance and qualifying allotment set out in the White Paper (Cmd 6715) will not, on entering a Short Service engagement, be brought on to the combined rate of marriage allowance and qualifying allotment set out in the White Paper until they become more advantageous. If, however the present rate of qualifying allotment is less than the new rate of qualifying allotment, he will be required to contribute the new rate of allotment as from 1 Jul 46, and the amount of family allowance in issue from Army funds will be correspondingly reduced.

15. Family Passages.

Passages abroad will be granted to the families of men who re-enlist on Short Service engagements, under the same conditions as for Regular soldiers.

16. Notice Paper setting out conditions of Service.

Before a man is attested, he will be handed a copy of the Notice Paper AF B271A, setting out the general conditions under which he is being re-enlisted.

On final approval (see para 18 below) the reverse side of the Notice Paper, which is a copy of attestation, will be completed, certified as true copy, and handed to the man for his retention. It is essential that the certified copy of attestation agrees in all detail with the original attestation which the man has signed.

17. Attestation.

Attestation will be on AF B271, and in the case of men serving with the Colours, will be carried out by an officer detailed by the OC unit in which the man is serving.

The following instructions in preparing AF B271 will be strictly observed.

Units will obtain supplies of AFs B271 and AFs B271A from the appropriate stationery depot.

20. DISCHARGE FROM FORMER ENGAGEMENT ON RE-ENLISTMENT.

Men now serving, and those transferred to Class Z or Z (T) Army Reserve, will, on final approval for service on a Short Service engagement, be discharged from their former engagement with effect from the date immediately preceding that on which they were attested on a Short Service engagement. Former service documents will be closed with the entry "Discharged under King's Regulations, 1940, para 390 (xviii)" Services no longer required on re-enlistment on a Short Service engagement under WOUM No. 27/Gen/2955 (AG10) dated 26/4/46."

21. GENERAL CONDITIONS.

(a) *Age limits.* Men must have attained the age of 30 years* and not have passed their 40th birthday.

(b) *Medical Categories.* Men must be within the medical categories laid down in para 19 of ACI216 of 1946.

(c) Only men of Army character not less than "Good" will be accepted.

(e) Men who have been invalided, or are in receipt of a disability pension will not be accepted without prior sanction of the War Office.

(f) Applicants for re-enlistment will, if serving with the Colours, be medically examined by an officer of the RAMC.

22. CONVERSION TO NORMAL REGULAR ARMY ENGAGEMENTS.

Any man entered on a Short Service engagement may at any time during the currency of the engagement ask to change to a Normal Regular Army Engagement. If accepted, he will cease to be eligible for terminal gratuity in respect of any part of his Short Service engagement, but will be eligible instead, on the date when his Short Service engagement would otherwise have expired, for a special gratuity of £25. The service which he has given on a Short Service engagement prior to the completion of the regular engagement will count as normal service for all discharge benefits associated with regular engagements.

23. POSITION OF REGULAR SOLDIERS WHO HAVE NOT COMPLETED THEIR CURRENT ENGAGEMENT.

Serving Regular Army personnel who have not completed their current Regular Army engagements will be given an opportunity of undertaking a supplementary period of service of three years with the Colours on special terms.

Further details for implementing this decision will be issued later.

361. Regular Army Engagements—Appointment of Substantive Armament Artificer Staff Serjeants—REME

1. A number of vacancies exist in the Interim Peace Establishment of REME other ranks for Substantive Armament Artificer Staff Serjeants of all types.

2. Officers who were appointed to Emergency Commissions from Normal Regular Army engagements have the option under King's Regulations, 1940 Appendix XXVI, of re-enlisting for Colour Service in the ranks (See ACI 860/45).

(a) Those who, prior to the outbreak of war, were holding the appointment of substantive Armament Artificer, and continued to hold the appointment until granted Emergency Commissions will be absorbed into vacancies for substantive Armament Artificers as and when they re-enlist in the ranks and re-assume their former seniority. They will not be required to appear before a selection board.

(b) Those who were appointed Armament Artificers during the emergency, either as a result of qualification at Armament Artificer courses or otherwise and who continued to hold the appointment until granted Emergency Commissions will be considered for appointment as substantive Armament Artificer Staff Serjeants as and when their applications to re-enlist in the ranks are dealt with by the War Office. Decisions in this respect will be based on the other rank trade history of the individual, the technical nature of the commission held and appointments filled during commissioned service. Seniority in the rank of Staff Serjeant will reckon as from the date of appointment as Armament Artificer during the emergency.

3. The following categories of REME other ranks also are eligible to be considered to fill these vacancies:—

(a) REGULAR SOLDIERS

(i) Soldiers serving on Normal Regular Army engagements of not less than 12 years with the Colours who were appointed Armament Artificers after attending modified war courses and who are still serving in the ranks and mustered as Armament Artificers. They must have at least *18 months to serve.*

(ii) Soldiers serving on Normal Regular Army Engagements of not less than 12 years with the Colours who, during the emergency, were appointed Armament Artificers without undergoing courses and who are still serving in the ranks and mustered as Armament Artificers. They must have at least *18 months to serve.*

0804

Declassified E.O. 12356 Section 3.3/NND No. 785021

(iii) Soldiers serving on Normal Regular Army Engagements for a period of *less* than 12 years with the Colours who, during the emergency, were appointed Armament Artificers, either after attending modified war courses or otherwise, and who are still serving in the ranks and mustered as Armament Artificers. Applicants of this type must extend their service to complete 12 years with the Colours. If such extension does not allow of a minimum of *18 months further* service the soldier will also be required to re-engage to complete 21 years service.

NOTE:—Where extension of Colour service and/or re-engagement to complete 21 years service is necessary, applications on Army Form B221 and/or B136 will accompany the recommendations when submitted to officer i/c REME Records. (See part "B" of ACI 216/46 published in this theatre as GRO 203/46.)

4. Candidates under para 3 are required to be interviewed by a Board of Officers and the recommendations of this Board will be endorsed on the application form. The decision of the Board will also be notified in writing to OsC units concerned.

5. Forms of application are available from REME representatives at Area, Sub-Area or equivalent HQs, and on completion by applicants and OCs units, will be submitted in triplicate through REME channels to HQs BTA, 13 Corps or 3 District (HQ 3 District in the case of ATNA) together with AFs B221, B136 or B203 as required in para 3 above. In addition one copy of the application will be forwarded direct to DAG GHQ 2nd Echelon.

6. As and when application for appointment as substantive Armament Artificer are approved they will be published in Corps Orders by officer i/c REME Records. The Corps Orders will show the date of promotion to the substantive rank of Staff Serjeant and also the date from which seniority as a Staff Serjeant will reckon. The latter date will be the date on which the individual was appointed Armament Artificer during the emergency, provided that he did not subsequently relinquish the appointment.

7. The contents of this GRO will be brought to the notice of all REME personnel serving in the Command so that eligible other ranks may have the opportunity of applying for appointment as substantive Armament Artificer.

8. In conformity with WO letter 27/Gen/2964 (AG21) dated 16 Apr 46.

371. Cable and Radio Telegram Services Between ITALY and the UK and British Empire

1. Negotiations have been now completed with the Italian Authorities whereby troops cables for addresses in the UK and British Empire will be accepted at existing concession rates at Italcable Offices and State Telegraph Offices. Details of concession rates are given at Appendix "A" to this GRO.

In addition Italcable Offices and State Telegraph Offices will accept cables for all parts of the world to which services are available at ordinary commercial rates.

2. The new arrangements will become effective as follows:—

(a) Italcable offices and State Telegraph Offices (located in towns in which an Army Post Office is established) 20 May 46.

(b) All other State Telegraph Offices, 1 Jun 46.

3. With effect from 20 May 46 Army Post Offices in ITALY will no longer accept Cables or Telegrams and will direct all personnel wishing to file such traffic to the appropriate Italcable or State Telegraph Office.

4. Italcable and State Telegraph Offices will accept traffic at concession rates from Service personnel including EFI, ENSA, CVWW, Telcom, IWGC, UNRRA, Army Scripture Readers and Civilian Masseuses BRCS, SSAFA, in uniform only, and may if considered necessary demand to see an appropriate identity document. Civilian personnel who have hitherto filed messages through Army Post Offices will in future have to use Italcable or State Telegraph Offices at ordinary commercial rates.

5. Outgoing messages will be prepared as follows:—

(a) The appropriate form provided by the Italcable or State Telegraph Office will be used.

(b) All messages will be written in ENGLISH and in BLOCK LETTERS.

(c) The sender will give in the appropriate space on the form the following particulars:—

NAME RANK NUMBER

UNIT

CMF.

Declassified E.O. 12356 Section 3.3/NND No. 785021

This will be used in case there is any inquiry arising out of the message, but will not be transmitted. Should the sender desire to give a return address to the addressee, it must be incorporated in the text of the message.

6. Incoming messages will be handled as follows:—

(a) Messages will be received at the Italcable terminal head. Italcable will then obtain from the APO at the terminal head, the location of the APO to which the message is to be delivered.

(b) The message will then be transmitted by electrical means to the Italcable or State Telegraph Office nearest that APO.

(c) The Italcable or State Telegraph Office will transfer the message to the APO for collection by the unit with their normal mail.

(d) The fact that cables delivered in this way will include a geographical location in the address does not constitute an authority for senders to include the location in their address when sending messages either by post or cable.

7. Parts III and IV of GRO 588/44 are *cancelled* in so far as they concern messages originated by or addressed to units, etc, in ITALY.

To be repeated in all Formations and unit orders.

(Applicable to all troops in ITALY.)

373. Travel of Military Families By Rail

The following instructions govern the travel by rail of military families within CMF.

1. *Arrival in CMF.*

It is the responsibility of the military authorities to arrange the movement of families to the husband's duty station in CMF. This is at present done by the War Office in conjunction with GHQ CMF, and this method will continue for the time being.

2. *Repatriation from CMF.*

(a) Families of officers and other ranks who have married overseas, are entitled to free repatriation. This movement is arranged by GHQ CMF.

(b) No large scale repatriation of families who have arrived in this theatre under conditions as laid down in para 1 is expected, but it may be necessary from time to time in individual cases, for compassionate or duty reasons. An application of this type will be referred through "A" channels to GHQ CMF and movement instructions will be published individually.

3. *Change of Husband's Duty Station.*

When an officer or other rank changes his duty station, his family is entitled to free travel to the new location. Details of the family will be included on the unit movement order, and this will be the authority for the issue of a duty warrant to include both the officer or other rank and his family.

4. *Non-duty Travel within the Theatre.*

(a) All travel other than under the conditions quoted above will be paid for. The rate of payment will be as follows:—

Officers' families—2.5 Lire per km, per person, in ITALY; .0435 Austrian Schillings in AUSTRIA.
Other Ranks—.75 Lire per km, per person, in ITALY; .02 Austrian Schillings in AUSTRIA.
Children under 14—Half fare.

Fares will be calculated to the nearest five Lire, or 25 Groschen (.25 Austrian Schillings).

(b) The units will calculate the fare on application from the officer or other ranks concerned. Rail mileages may be obtained from the nearest RTO. The fare will then be collected and AF O1680 will be completed in triplicate, showing details of the journey to be made. One copy will be retained by the unit to support the Imprest debit, and the other two will be given to the officer or other rank concerned.

These two copies will be presented to the RTO, who will issue a warrant for the journey endorsed "Repayment on AF O1680 Serial No.....Dated....." Of the two copies of AF O1680 given to the RTO, one will be retained as authority for the issue of the warrant, while the other, endorsed with the number of that warrant, will be sent to the Command Paymaster.

CBIO

Declassified E.O. 12356 Section 3.3/NND No. 785021

(c) In cases where, for any reason, a family is separated from the officers' or other ranks' unit, application for travel will be made by the family to the nearest military unit who will carry out the same procedure as above.

(d) No special arrangements can be made for non-duty travel of service families in ITALY and AUSTRIA.

5. *Use of Feeding Halts*

Where a journey within ITALY whether on duty or not involves use of military feeding halts en route, meals supplied will be paid for. The rates of payment for meals will be as follows:—

Officers' families—40 Lire per person per meal (including children)

Other ranks' wives—20 Lire per person per meal
Other ranks' children—30 Lire per person per meal under 14 (or at school)

The unit will calculate the amount to be charged for meals en route based on details of locations of meal halts which may be obtained from the nearest RTO. The amount will then be collected and AF O1680 made out in duplicate, one copy being retained by the unit to support the Imprest debit, and the other given to the officer or other rank for presentation at feeding halts as an authority for the issue of meals.

Declassified E.O. 12356 Section 3.3/NND No. 785021

349. Income Tax Return—Year 1946/47—Army Officers

1. The service of Income Tax Return forms (AFs O.1656A) for 1946/47 will be made to officers on a unit basis; this follows the procedure applied for 1945/46. OsC units will be responsible for obtaining completed Income Tax Return forms from all officers on their strength, and the following procedure will be adopted.

2. Arrangements have been made for a sufficient supply of AFs O.1656A to be despatched to all units without demand for distribution of one copy to each officer. Units which have not received their forms within one month from the date of this GRO will obtain them by indenting on the nearest Stationery Depot.

3. On receipt of the forms, units will insert their office stamp on the forms in the space marked "Issuing Office Stamp," fill in the full regimental particulars, including personal number of the officer concerned, in the cage on the front page, and distribute to officers with blank envelopes for return.

4. Officers will complete the form in detail to the best of their knowledge (See Appendix "A"), enclose it in a "Closed envelope" addressed to the Army Agent or Paymaster from whom they draw their Army Pay for, if preferred, to the Commissioners of Income Duty, War Office, DROITWITCH SPA, WORCS) and hand it to the OC unit.

5. The OC unit will forward the envelopes direct to the Army Agents, Paymaster, or the Commissioners of Income Duty, as the case may be, and will report to the Command Paymaster, No. 8 Base Command Pay Office, CMF, when returns from all officers of the unit have been so despatched. Units which have not reported by 1 Aug 46 will notify the Command Paymaster, on that date, of the position regarding the clearance of the returns.

6. It is of importance that the forms should be completed and despatched with as little delay as possible. In issuing the forms, the OC will specify the date by which officers must return them to him. Returns for 1946/47 from all officers in this theatre should be completed and despatched by not later than 1 Aug 46

7. Where the officer has private income, or his wife has income of her own, and he has no access to the figures, he may enter estimated amounts (indicating that they are estimates only) or enter a note stating the name and address of the person from whom the information may be obtained if required. He should not defer completing his return because his own knowledge is incomplete.

8. Officers on detached duty will receive their AFs O.1656A from the OC of their parent unit, to whom they will return them on completion; if, however, they are attached to another unit, action will be taken regarding them by the OC of the unit to which they are attached.

9. Particular care must be taken to ensure that officers who are posted or attached to new units, go into hospital, etc, are not overlooked; it will be the responsibility of the OC, the "receiving" unit or hospital, etc, even if he has already despatched completed forms from all his officers, to enquire whether each officer joining the unit between the date of this GRO and 1 Aug 46 has previously completed his return and handed it to the OC of his former unit for despatch; and if not, to issue him with AF O.1656A and to ensure that the procedure laid down above is followed. No new report to the Command Paymaster under para 5 is necessary.

10. If the number of AFs O.1656A received by any unit under para 2 above should prove to be insufficient, indents for further copies should be made to the nearest Stationery Depot.

11. Units which leave this theatre after receiving the bulk issue of blank AFs O.1656A, but before despatch of all the returns, will report completion of action as required by para 5 above, to the Command Paymaster of their new Command.

Similarly, units which arrive in this theatre after receipt of the AFs O.1656A, but before all returns have been despatched, will report completion of action to the Command Paymaster, No. 8 Base Command Pay Office, CMF.

12. Officers granted commissions after Jun 1 46 or entering or re-entering payment from Army Funds after that date on posting from INDIA, BURMA or Colonial payment, will receive AF O.1656A for completion from the Army Agent or Paymaster from whom they draw their pay, and they will return it direct to the Agent or Paymaster.

13. For the purpose of this GRO, the term "unit" will include all headquarters, formations, establishments and regimental units which render casualty returns (AF W3010, W3011 or W3012) to GHQ, 2nd Echelon.

14. The system of service and disposal of Income Tax Returns introduced by this GRO does not effect other ranks for whom the procedure laid down in GRO 204/46 will be followed.

15. Copies of Appendix "A" to this GRO are being printed and circulated with the AFs O.1656A and OsC units will distribute them to officers with the forms.

16. The attention of all officers will be directed to this GRO, and to the provisions of ACIs 761/44 and 762/44. It is particularly stressed that it is to the advantage of officers themselves to complete their returns; if they do not do so, their income may be provisionally assessed as taxable at a rate less favourable than necessary, and in addition they will not immediately obtain the reliefs and allowances to which they may be entitled; alternatively, inadequate deductions may be made from their pay involving heavier deductions later.

17. These instructions are in substitution of those contained in ACI 779/44, which may accordingly be regarded as inapplicable to this theatre.

18. GRO 532/45 is hereby *cancelled*.

(Applicable to all officers paid from UK Funds.)

Appendix "A" to GRO 349/46

INSTRUCTIONS FOR COMPLETION OF ARMY FORM O.1656A

(a) PAGE 2. *Official Emoluments.*—Normally, the emoluments assessable for income tax are those of the preceding year but in certain cases, for example, when an officer returns from payment of INDIA or a Colonial Government, the assessment is on the current year basis. The Army Agent or Paymaster will usually insert details of the Army Pay when the return reaches him, but where additional pay, extra

Declassified E.O. 12356 Section 3.3/NND No. 785021

duty pay, etc, has been drawn from a different paymaster it is necessary that the officer should state the additional emoluments or an estimate in order that tax instalments may be adjusted forthwith and under-charges avoided.

Allowances in lieu of rations and other issues in kind, family lodging allowance, colonial, field and Mediterranean allowances are not taxable and need not be declared.

(b) Officers serving abroad should state the date of embarkation from UK for service overseas in the space provided on Army Form O.1656A. It is in the officer's interests to give these dates when he is in possession of income from sources abroad (*eg*, foreign and colonial dividends) or from certain British Government securities in order that he may be allowed any relief admissible in consequence of his absence from the UK.

(c) PAGES 2 AND 3. *Other Incomes and Annual Charges.*—The source of other income should be declared, but estimates of the amount received will be accepted if exact information is not available. The word "None" should be inserted if there is no income under any particular heading.

(d) PAGES 3 AND 4. *Claims for Relief.*—Pages 3 and 4 should be carefully completed, as the omission of a claim for a particular relief may result in excessive deductions being made from Army Pay.

(e) Officers who employ Income Tax Agents to prepare their returns will complete only the appropriate section on the front page of Army Form O.1656A and return the form in a closed envelope to the OC unit addressed to the Paying Officer from whom he draws pay.

350. Restoration of Forfeited Service

1. King's Regulation 266 (c) (i) provides that service forfeited on conviction of or dispensation of trial for desertion or fraudulent enlistment may be restored on promotion to the rank of Serjeant. (This applies only to soldiers serving on Regular Engagements.)

2. A soldier who has forfeited service under King's Regulation 266 will be regarded as having qualified for restoration of forfeited service on being granted the rank of Paid Acting Serjeant.

3. This interpretation of King's Regulation 266 (c) (i) will be employed for the Duration of Emergency only, and will be subject to review in the light of peace-time promotion procedure, when the period of Emergency is declared at an end.

(Applicable to UK troops only.)
