V.P.

Please see 7. I sent it direct
as V.P. requested me to do this morning.

I would, however, comment that the
Interim administration is of a special nature
it is also particularly valuable & it seems to
be a great pity that certain senior officers
did not attend our courses - learn a little
themselves.

Aug. 1. V.P. ^① Since I have no officers in the field, a policy with which I profoundly disagree, I cannot see my interview comments are of any value.

In my judgement, interviews must have an interview report (call it local report, if you wish) who can advise Reg. Comms. on these items. 1/5/6.

43 officers passed through interviews school at Salerno. R.R./M.W.

SUBJECT: Interior Advisory Officer

TO : Col R. H. Farren, Executive Officer

1. With reference to the officer required for Brigadier Dunlop as Interior advisor, I make it quite clear that no officer of the present Interior Sub-Commission establishment can possibly be made available for such duties.

2. To suggest such a thing is, in my opinion, a complete lack of appreciation and indeed even more than that - of the work and the volume of work which this Sub-Commission is undertaking particularly in regard to our commitments north.

3. I therefore suggest to Lt Roberts the following alternatives:

Captain	294826	R. A. FERRETT (B)	General List
Lieut	279402	F. H. BRICKNELL (B)	" "

MEMORANDUM :

TO : Vice President - Economic Section.
Vice President - Administrative Section.

180A

1. Request that you have Directors of your Sub-Commissions review appendix "C" to 16031/2/C-1, dated 22 June 44, subject, "Future Planning Regional Strength", with reference to the number of officers required by each Sub-Commission in Regions I and VI under this appendix. It will be necessary sometime between August 15th and August 30th to drop Regional Strength of the above regions to the approximate strength shown in appendix "C". Conditions and commitments of Sub-Commissions may now be different from those existing on 22 June.

2. It is planned to have a meeting of the Regional Commissioners of Regions I and VI about 7 August. It will be of great assistance to the Establishments Branch if I could have, by not later than 6 August, the numbers and names, if possible, of the officers of your Sub-Commissions who will be required in Regions I and VI on and after 15 August.

Ref: 1601/3/0-1

12th June 1944

SUBJECT: Future Planning - Regional Strengths.

TO : Vice President,
Administrative Section,
Economic Section.

1. The rapidity of the advance of the Allied Armies in Italy makes it imperative to anticipate immediate completion of all Regions up to the RIMM-ATM Line (Regions I - VIII) and the early occupation of the whole of Italy, including Regions IX, X, XI and XII.

2. In Appendix "A" attached, Column II shows the proposed strengths of Regions and Army AMGs in Phase II, i.e., up to the RIMM-ATM Line. Immediate steps are being taken to implement the proposed strength of Region VIII by reducing other Regions, as is shown in the detailed distribution in Appendix "B". Column III in Appendix "A" shows the figures for Regions I - XII and Army AMGs if and when the whole of Italy is occupied and on the assumption that no reinforcements for ACU will be forthcoming, an assumption which is practically a certainty.

3. Column III is also based on the assumption that Regions III and IV, and possibly Regions V, VIII and IX will have been handed back to the Italian Government.

4. Appendix "C" shows the provisional breakdown of provincial and specialist staffs within the Regions for Phase III. The first Regional totals (most of which have been discussed with Sub-Commissions) vary slightly from Column III in Appendix "A" and I would estimate the importance of providing strong staffs in the Industrial Regions (which may also produce a security problem) compared with the more rural Regions of Central and Southern Italy, which will be administered by the Italian Government. Appendix "C" is essentially a draft and I would ask Vice Presidents to give it their immediate attention and make suggestions and alterations which in their opinion will distribute the staff in the best manner. I would add here that of the main Sub-Commissions, two-thirds of the specialist officers are in the field and one-third at AWC HQ.

5. Generally speaking, officers from Regions I, II and V will be used for Regions IX and XII while officers from Regions III, VII and IV, and from Region, will be used for Regions I and II.

6. Vice Presidents are asked to consider their suggestions by 15th June, and in consultation with the Sub-Commission Officers to maintain the specialist officers in the field.

1. The rapidity of the advance of the Allied Armies in Italy makes it imperative to anticipate immediate occupation of all Regions up to the RIMINI-VERA Line (Regions I - VIII) and the early occupation of the whole of Italy, including Regions IX, X, XI and XII.
2. In Appendix "A" attached, Column II shows the proposed strengths of Regions and Army Areas in Phase II, i.e., up to the RIMINI-VERA Line. Transition steps are being taken to implement the proposed strength of Region VIII by reducing other Regions, as is shown in the detailed distribution in Appendix "B". Column III in Appendix "A" shows the figures for Regions I - XII and Army Area 12 and when the whole of Italy is occupied and on the assumption that no reinforcements for AGO will be forthcoming, a reorganization which is practically a certainty.

3. Column III is also based on the assumption that Regions III and IV, and possibly Regions V, VIII and IX will have been handed back to the Italian Government.

4. Appendix "C" shows the provisional breakdown of provincial and specialist staffs within the Regions for Phase III. The first Regional totals (most of which have been discussed with sub-Commissioners) vary slightly from Column III in Appendix "A" and I would emphasize the importance of providing strong staffs in the industrial Regions (which may also produce a security problem) compared with the more rural Regions of Central and Southern Italy, which will be administered by the Italian Government. Appendix "C" is essentially a draft and I would ask Vice Presidents to give it their immediate attention and make suggestions and alterations which in their opinion will distribute the staff in the best manner. I would add here that for the main Sub-Commissions, two-thirds of the specialist officers are in the field and one-third at AGO HQ.

5. Generally speaking, officers from Regions I, II and V will be used for Regions IX and XII while officers from Region VI, VII and IV, and AGO Region, will be used for Regions I and XI.

6. Vice Presidents are asked to transmit their suggestions by noon, 15th June, and in consultation with the Establishment Officer to initiate the specialist officers in the field.

7. Regional Commissioners will then be directed to reduce their staffs accordingly and unless there are serious objections, to comply with the recommendations made by the Vice Presidents.
