REPORT
JUNE 19

10000/141/687

REPORT BY DIRECTOR L.G. ON VISIT TO NORTH 7-9 JUNE 1945
JUNE 1945

27/24

REPORT OF TOUR BY DIRECTOR LOCAL
GOV INVEST SUB COMMISSION JUNE 7, 8, 9, 45.

1. Itinerary

- June 7 Milan and Coms. I spent the whole morning with Regional Patriots Officer and in the afternoon visited together with Maj. BARNETT (LIPR) the Patriot Office at COMO.
- June 8 Visited Turin, called on R.C., D.R.C. and Lt. Col. Vining, Regional Patriot Officer. Returned to Milan.
- June 9 Interviewed D.R.C. LOMBARDIA and moved to HQ AUG 5 Army. Interviewed Col. Sutherland, Lt. Col. Holmgren and Capt. Lambert.

2. General Comment

- (a) The situation with regard to the demobilisation of the patriots is proceeding steadily and satisfactorily, by comparison MILAN is rather more advanced than LOMBARDIA, especially with regard to MILAN city itself which appears somewhat behind. In this city, however, with the addition of Capt. Haunold and Lt. McClaughlin who have arrived from 5 Army, matters should progress more rapidly.
 - (b) In each of the HQ that I have visited I have dealt in the main very largely with Patriot matters, finding that it is the more pressing of the activities concerning the Local Government Sub Commission. Local Government itself in both Emonte and Lombardia will require a more detailed survey by an officer of the Sub Commission in the near future.
 - (c) By order of CG IV Corps all arms in the area were to be handed in by 7 June and the Zone HQ of the patriot bands closed by that date, the latter has been carried out in both Regions visited without incident and arms have been handed in in large quantities. I do not consider that any large scale open opposition to the order is to be anticipated, but there is evidence that in one or two instances parties have withheld their arms. In one case it is reported that a party have taken to the hills in northern Lombardia, and in another there appears to be some gangsterism with murder in BRESCIA by a party under the leadership of one ZITO, who now I learn has been arrested by order of AUG 5 Army (9 June 45).
- There is of course the general feeling that when a patriot has two weapons he does still retain one particularly so if he has a pistol. (Note 814 Pistols handed in in Lombardia looks a large number, but I do not imagine there is anything near the number "dropped" in

POSITION is rather more advanced than LOMBARDIA, especially with regard to MILITARY itself which appears somewhat behind. In this connection, with the addition of Capt. Edmund and Lt. McLaughlin who have arrived from 5 Army, matters should progress more rapidly.

- (b) In each of the HQ that I have visited I have dealt in the main very largely with Patriot matters, finding that it is the more pressing or the activities concerning the local Government and Local Government itself in both Piemonte and Lombardia will require a more detailed survey by an officer of the Sub Commission in the near future.

(c) By order of CG IV Corps all arms in the area were to be handed in by 7 June and the Zone HQ of the patriot bands closed by that date, the latter has been carried out in both Regions visited without incident and arms have been handed in in large quantities. I do not consider that any large scale open opposition to the order is to be anticipated, but there is evidence that in one or two instances parties have withheld their arms. In one case it is reported that a party have taken to the hills in northern Lombardia, and in another there appears to be some gangsterism with murder in BRESCIA by a party under the leadership of one ZITO, who now I learn has been arrested by order of AIC 5 Army (9 June 45).

The HQ of course the general feeling that when a patriot has two weapons he does still retain one particularly so if he has a pistol. (Note 814 pistols handed in in Lombardia looks a large number, but I do not imagine there is anything near the number "dropped" in this Region.)

- (d) The main items of discussion in each HQ have been:
- (a) the feeding of Patriots in centres after 10 JUN;
 - (b) Recruitment into the Italian Army;
 - (c) Clothing of Patriots and the details concerning the transport of the items recently released by Commerce S/C.
 - (d) The increased movements to Districts which is the prominent item and raises several questions which require clarification with HQ.

The more detailed report of interview are set out below together with matters which require action.

3. LOMBARDIA (JUN 45).

Regional Patriote Officer explained the situation in the Region; he has ordered the closure of all patriot Zone HQs and

1789

17

is establishing one patriot centre for MILAN city. It's held a meeting of all band leaders to execute this which was highly satisfactory. A copy of the minutes is attached (appendix "A") (~~Please have this translated for my return to Rome. Good luck~~) As will be seen from these minutes the leader in VARESE wishes to retain an "esprition battalion for what he describes as "per giustiziare". Lt.Col. De Garston has vetoed this idea.

ACTION

4. With regard to the feeding of patriots as from today all regions and in particular this one requests instructions as to the matter of payment to SUPPLI for these. This matter must be cleared with Finance Sub Commission and Food Sub Commission. Take the necessary staff action pending my return.

5. At appendix "B" is the situation in the Region as at June 1, with regard to the turn in of arms. Additional quantities have since been turned in particularly in BRESCIA and CREMONA, which it is reported will bring the total of rifles as at June 8 to 70,000. If this is compared with the total of registered patriots in the Region (appendix "C") it appears that more than one weapon per patriot has been collected. Some difficulty is encountered in guarding dumps of arms once collected.

6. The issue of the needed ribbon is pressed by this Region. I learned that it would not be difficult to have it made in the North either in Milan or Turin. This must be taken up with MOOI again and pressed, furthermore the suggested poster for display in patriot offices should be issued as soon as possible.

7. Reviewed quantities to patriots raises several important questions the main point raised by this region is that if the qualifying period of 3 months service for 5000 Lire is to extend to June 1 it will include a large number of members of G.P and SAP who have done very little, seen no action and continued to work in functions drawing their pay; while their C.V.L. brethren were "sweating it out" in the mountains. This the latter will resent. The Regional Patriot Officer had intended that the 5000 Lire should be paid to those who receive an Alexander certificate with General Cadorna's idea of conditions set out in Appendix X "D" attached, this requires in the main a six months qualifying period.

ACTION

Pending my return to Rome to study and clarify the situation I have arranged that in the R.G.'s order which he is issuing on 9 June the words "active service" will be used in referring to the 5000 lire payments. I have in addition confirmed in writing

patriots in the Region (Appendix "C") it appears that more than one weapon per patriot has been collected. Some difficulty is encountered in guarding dumps of arms once collected.

6.

The issue of the needed ribbon is pressed by this Region. I learn that it would not be difficult to have it made in the North either in Milan or Turin. This must be taken up with MOOI again and presssed, furthermore the suggested poster for display in Patriot offices should be issued as soon as possible.

ACTION

7.

Reviewed gratuities to Patriots raises several important questions. The main point raised by this region is that if the qualifying period of 3 months service for 5000 lire is to extend to June 1 it will include a large number of members of G.V.P and SAP who have done very little, seen no action and continued to work in functions drawing their pay; while their G.V.L. brethren were "sweating it out" in the mountains. This the latter will resent.

The Regional Patriot Officer had intended that the 5000 lire should be paid to those who receive an Alexander certificate with General Cadorna's letter of conditions set out in appendix X "D" attached, this requires in the main a six months qualifying period.

ACTION

Pending my return to Rome to study and clarify the situation I have arranged that in the R.C.'s order which he is issuing on 9 June the words "active service" will be used in referring to the 5000 lire payments. I have in addition comlined in writing that the qualifying period is up to and including 31 May 45 (a copy of letter is attached at Appendix "E") This I did to satisfy Region HQ who wished to be able to include as an "active service" those now carrying specified duties laid down by the Region i.e. police duty, ammunition collecting etc.

8.

The position regarding the return and enlistment of patriot officers and band leaders to the Italian army must be decided early, it is giving rise to some difficulty in disbandment. An unintelligible instruction has been issued by Ministry of War, which refers to a decree of the 5 April published in Gazzetta Ufficiale No. 53 of 27 May. I was unable to probe into this at the time as I was just leaving (June 9) for Salo. It must be investigated.

X in process of translation

17 & 8

9. Other miscellaneous action taken or matters investigated are:

- (a) Lists of partisans are well in hand.
- (b) Lt. Col. D. Garston reported that all his IAPPS were doing a first class job of work. (Frigeri has been returned to Rome)
- (c) Position of High Commissioner for War Veterans explained together with his proposed visit to the Region.

NOTE: With regard to 9 (b) above I confirm this. I lived with them on and off for 3 days and was well impressed. The fact that the Regional Patriot Officer speaks fluent Italian is of enormous benefit.

10. Piemonte, June 8.

In this Region matters are much further advanced. The Regional Patriot Officer goes as far as to say that there are now no "Partigiani" as such in the Region. He reports the following points:

- (a) Payments have up to now been paid on 1000 lire basis
- (b) IAPPS working very satisfactory
- (c) He has no stock of the new Alexander certificates
- (d) He anticipates no difficulty over feeding after June 10
- (e) the numbers will be small, but he does require clarification over the payment to General Prulotto
- (f) General Trabucchi has given way to General Prulotto as the official Military District Commander. The former has been placed on leave for six months.
- (g) He estimates that a large proportion of the arms have been handed in.

With regard to 10 (e) above, Regional Patriot Officer estimates that he will require at least 15,000 certificates. I have arranged with AMG 5 Army to supply 5,000 but they may be slow in getting to Piedmonte. 10,000 must therefore be dispatched immediately to the Region direct from AG HQ

ACTION

11. The OLN organisation did a considerable amount to assist in the dispersal of partisans; with funds at their disposal a considerable distribution of suit lengths of good material was made and boots have been issued. I do not therefore consider that there will be or is a clothing problem in this Region, furthermore an issue of patched up salvaged clothing would by comparison appear to be a feeble effort. I have therefore instructed Capt. Limbert not to

Regional Patriotic Forces as such in the Region. He reports
are now NO "Partigiani" as such in the Region. He reports
the following points:

- (a) Payments have up to now been paid on 1000 lire basis
- (b) This working very satisfactory
- (c) He has no stock of the new Alexander certificate
- (d) He anticipates no difficulty over feeding after June 10
the numbers will be small, but he does require clarifi-
cation over the payment to SICULU
- (e) General Trabucchi has given way to General Prulorno
as the official Military District Commander. The former
has been placed on leave for six months.
- (f) He estimates that a large proportion of the arms have
been handed in.

With regard to 10 (c) above, Regional Patriot Officer estimates
that he will require at least 15,000 certificates. I have arranged
with ANG 5 Army to supply 5,000 but they may be slow in getting to
Piemonte. 10,000 must therefore be dispached immediately to the
Region direct from AC HQ

ACTION

11. The CLN organisation did a considerable amount to assist in the
dispersal of patriots; with funds at their disposal a considerable
distribution of suit lengths of good material was made and boots
have been issued. I do not therefore consider that there will be
or is a clothing problem in this Region, furthermore an issue of
patched up salvaged clothing would by comparison appear to be a
feeble effort. I have therefore instructed Capt. Limbert not to
issue to this Region.
 12. A payment of 5000 lire to patriots in this Region has also been
made by CLN with funds mainly borrowed from the banks at 4% interest.
This raises the questions
- (a) are the payments to be officially recognised as the new
rates?
 - (b) If so are the MOI prepared to re-inburse the banks and
pay the interest?
 - (c) Are the payments made from CLN funds exclusive of the
bank loans to be recognised and if so does MOI intend to
re-inburse the CLN.
- Lt. Col. Vining is of the view that the answer to (a) is THEY ARE?
It is borrowed money, and to (c) NO. I am of the opinion that
all payments should be officially recognised otherwise some
duplication of amount will occur, that the loans and interest
must be reimbursed but not the CLN funds as this will tend to
perpetuate the CLN at least financially.

13. Col. Lamia has been removed from Patriot activities; as a replacement the excellent adjutant of Col. Vining requests if possible

Bernardo Bruno TOZZO (native of Asti)
Artillery Officer of Alpini Class 1020
now at Centro Addestramento di BRUGGIO
III Reggimento Artiglieria Pistoia Gruppo
Complementi

SO III to endeavour to get him.

14. There is in this Region a persistent rumour that volunteers for the Army are to go the the FAR EAST. I denied this but TAPRs here feel that a public announcement denying this if it is NOT the case should be made. It is a matter that should be discussed with MIA.

15. In an interview with Col. Selly a varied number of matters were brought to my attention which cover other fields than Local Government Sub Commission and should be brought to the CAS' notice for such action as deemed fit as they also effect Economic Section.

- (a) Col. Selly reported the arrival in the Region without prior warning or instructions of various bodies, which lead to difficulties over maintenance and billeting; he asked that in future he receive notice and warning. The bodies concerned were
- (i) Road Traffic Control Personnel (Econ. Sec?) (TAD & POW S.C.)
 - (ii) POW Hospital Unit
 - (iii) 300 Italian soldiers from Refugee Camps (Displaced Persons)
- (b) He required further instruction as to the procedure authority and rates for car hire of which he said he had spoken to Mr. Antolini whom he visited the Region.
- (c) He considered that the recent AFHQ orders for Curfew to be imposed in Turin is quite unworkable. Curfew had not been imposed or maintained and to do so now would give the appearance of a form of punishment on the population, which was uncalled for and he considered quite unnecessary, there was no compelling reason for it. One the AFHQ instructions be rescinded.
- (d) The name of Prefect of Turin is P. S. JI (soc).

ACTION

Local Government Sub Commission and Economic Section

CAS' notice for such action as deemed fit as they also effect

Economic Section.

(a) Col Selby reported the arrival in the Region without prior warning or instructions of various bodies, which lead to difficulties over maintenance and billeting; he asked that in future he receive notice and warning. The bodies concerned were

- (i) Road Traffic Control Personnel (Econ. Sec?) (ED & 207 S.C.)
- (ii) POW Hospital Unit
- (iii) 300 Italian soldiers from Refugee Camps (Displaced Pers?)
- (b) He required further instruction as to the procedure authority and routes for car hire of which he said he had spoken to Mr. Antolini when he visited the Region.
- (c) He considered that the recent AFHQ orders for Curfew to be imposed in Turin is quite unworkable. Curfew had not been imposed or maintained and to do so now would give the appearance of a form of punishment on the population, which was uncalled for and he considered quite unnecessary, there was no compelling reason for it. On the AFHQ instructions be rescinded.
- (d) The name of Prefect of Turin is DELL'ALMI (soc).

16.

AG 5 Army June 9.

On arrival here I cleared a number of detail points with Capt. Limbert and later had a long interview with Col. Gutherland, to whom I gave my impression of the Patriot situation in Lombardy and Piemonte. In general there is not a great deal of business being carried on in the HQ. However I intend to stay over this day June 10 to write this report and get it forwarded to Rome. The situation over the appointments of prefects is that Gen. Rume keep an overall approval to the nominees of CCS and confirms the appointment in writing subject to CIC approval in the form of a standard letter. In the more important provinces he generally attends the installation meetings.

17.

With regard to Patriot matters I have cleared the following points.

- (a) All the clothing will be warehoused in Milan.
- (b) Accommodation is available.
- (c) Transport for blankets from LIVORNO is in hand as is also the collection of the balance of the consignment from BOLOGNA.

1756

5

- (c) 2000 bivouac tents now lying at Florence are to be taken over by DIRECTOR MP 5 Army for his use.

Lt. Col. Holmgreen raised with me a number of points regarding Axis Diplomatic personnel now in the custody of 5 Army, which require clarification and instructions from AGCOM. They are not immediately urgent I will therefore deal with them on my return as they appear too complicated for explanation in this report.

I will proceed to PADUA tomorrow morning in transport provided by this HQ.
