SUBJECT: Special form of ticket for use of Allied Commission personnel.TO : (See distribution).

On and from 1 November 45, a special form of ticket will be introduced for use of Allied Commission personnel travelling by civilian passenger trains, and from that date no other form of ticket will be used for such personnel.

Purpose of the Ticket :-

- (a) To enable personnel of Allied Commission to travel on duty between points in Italy by civilian passenger trains and to provide them with suitable documents for the journey.
- (b) To safeguard the Italian railways against abuse by persons producing documents and letters purporting to be authority for travel by civilian passenger train.

Personnel to whom the tickets will apply:-

Allied Commission Officers and RM/CR's on duty.

Allied Commission Allied civilian personnel on duty.

Allied Commission Italian civilian personnel on duty.

Tickets will not be issued to Allied civilian personnel not in the employ of Allied Commission. Any other organization interested in the use of free travel such as URSRA, WSA, JMW, etc. should so indicate to Transportation Sub-Commission, when the appropriate negotiations will be made with the Italian State Railways.

- (a) To enable personnel of Allied Commission to travel on duty between points in Italy by civilian passenger trains and to provide them with suitable documents for the journey.
- (b) To safeguard the Italian Railways against abuse by persons producing documents and letters purporting to be authority for travel by civilian passenger train.
- Personnel to whom the tickets will apply:-
- Allied Commission Officers and EM/GR's on duty.
 Allied Commission Allied civilian personnel on duty.
 Allied Commission Italian civilian personnel on duty.
- Tickets will not be issued to Allied civilian personnel not in the employ of Allied Commission. Any other organization interested in the use of free travel such as UNRRA, WSA, IWT, etc. should so indicate to Transportation Sub-Commission, when the appropriate negotiations will be made with the Italian State Railways.

Authority for issue of ticket :-

The authority for ²⁶⁷² issue of a ticket will be published travel orders for the person named thereon to travel between the points indicated by rail.

Tickets will NOT be issued for Italian personnel in whom Sub-Commissions may be interested, but who are not in the employ of the Allied Commission. Procedure in such cases is for the Sub-Commission concerned to give the person a written document indicating interest of Allied Commission in the journey of the passenger. This document should be produced at the railway booking office in order to obtain priority of booking a ticket at ordinary fare.

Description of Ticket :-

The ticket is printed on pink paper, and is in three sections (see Appendix "A"). It consists of a Biletto, a Matrice, and a Contromatrice. The Biletto and Matrice when completed will be handed to the passenger, the contromatrice is retained in the book as record of issue.

././.

- 2 -

At the departure station, the railway official will detach the matrix and retain it for Railway recording purposes.

It is necessary for the traveller to have the ticket duly stamped at the departure station, and it is used for a return journey, at the station from which the return is being made.

Validity of Tickets :-

The validity of single tickets is based on the distance to be covered.

For a distance of less than 200 Km., the ticket is valid for one day only, and for each 100 Km., or part of 100 Km. beyond that distance a further day's validity is given.

On a distance, say, of 600 kilometres, the validity is 5 days, from and including date on which ticket is authorised for travel and the journey can be completed within that period of five days, but when the five days have expired, the ticket becomes out of date, irrespective of the actual date of commencement of the journey.

The over-all validity of a return journey ticket is 60 days, but the return journey is subject to the same conditions as a single ticket, i.e. once the date stamp of the departure station has been inserted, the ticket takes on a validity based on the distance to be covered.

Break of Journey :-

Break of journey is permitted on route if desired, within the validity of the ticket, on the following basis:-

Travel between	200 to 400 Km	one break
	401 to 600 "	two breaks
	601 to 800 "	three "
	801 to 1000 "	four "
	over 1000 "	five "

Cancelled tickets :-

If for any reason tickets are cancelled before use, the matrix and material should be clearly endorsed "Cancelled" and sent to Transportation Sub-Commissioner (Rail Division)

HQ - AC, and not left in the book. The counterfoil should be

Based on the distance to be covered.

Break of Journey :-

Break of journey is permitted on route if desired, within the validity of the ticket, on the following basis:-

Travel between	200 to 400 km	one break
	401 to 600 "	two breaks
	601 to 800 "	three "
	801 to 1000 "	four "
	over 1000 "	five "

Cancelled tickets :-

If for any reason tickets are cancelled before use, the biglietti and matrice should be clearly endorsed "Cancelled" and sent to Transportation Sub-Commission (Rail Division) HQ - 26, and not left in the book. The counterfiche should be similarly endorsed and retained in the book for reference.

Preparation of Tickets :-

On production of the appropriate travel order specifying rail or one of the forms of permitted transport, ticket will be prepared in the following manner:-

At the top of the biglietto, matrice and contromatrice, after the "gda" in the top right hand corner, the letters "AO" will be inserted.

At (1) the name of the issuing office will be inserted.

At (2) the rank, initials and surname of the person to whom the ticket is issued will be inserted. If a civilian, "Allied civilian" or "Italian civilian" will be inserted after the name.

././.

- 3 -

At (2) the points between which the journey is to be made will be inserted. If only a single journey is to be made "via Verona" will be deleted.

At (4) Place and date of issue will be inserted.

At (5) Signature of issuing official will be inserted.

The official stamp of the issuing office will be placed on the Biglietto and the notice in the circle ^{is} marked: "Bollo dell'Ufficio Emittente".

Use of tickets :-

It is not the idea to give unlimited free rail travel, but to facilitate the authorized movement of Allied Commission personnel, and tickets will be sparingly used. One compartment on all long distance trains is reserved for the use of Allied Commission personnel.

Books of tickets are of considerable value, and they must be safeguarded. As the Railways concerned will perform the accountability, no documentation is necessary by issuing officers, but stubs of tickets and unused books must be kept in security. The stubs of completed books will be retained against any subsequent enquiry which may be made.

All travellers should be warned to carry identity cards with them and to produce them if and when requested by authorized I.B.S. personnel.

Books of tickets are being distributed as under :-

ALLOCATION OF SEATS.

Passengers will be admitted on the trains in the following order:

1. C. Officers on duty
2. C. M/V/30s on duty
3. Officials of the Italian Ministries
4. Officials of Italian Public Administrations, travelling on duty.
5. Private citizens travelling on business of use to the community.
6. General passengers.

The train will accommodate 640 passengers, and seats will be allocated for civilian use by the 134 as shown at Appendix "A".

= 2 //

Two complete wickets (16 seats) will be reserved in each direction for the use of AC officers, and 8 seats in each direction for AC EM/CRs and these will be clearly marked by ISR. The seats will be disposed of by the HQ Commandant AC in the direction Rome-Naples, and by the HQ Commandant (British), Company Commander (US), or other office designated by the Regional Commissioner, Southern Region, in the direction Naples-Rome.

TICKETS

(i) Civilian passengers.

Civilian passengers travelling will be required to produce a special permit issued by ISR, in addition to the normal ticket for the journey. Issue of permits and sale of tickets, so far as the terminal stations are concerned, will be at Roma Termini and Napoli Centrale, and in the case of all categories other than General passengers, proof of the necessity of the journey will be required by the Booking Office in duplicate. Sub Commissions sponsoring rail passengers are therefore requested to ensure that such documents are in the hands of intending passengers, otherwise tickets will not be issued in priority order.

Such passengers must take up their tickets 48 hours in advance of the journey at Rome and Naples, and 24 hours ahead at intermediate stations.

General passengers' tickets and special permits will be issued 24 hours in advance at Rome and Naples in rotation order, and on the day of travel at intermediate stations.

(ii) AC officers and EM/CRs.

Officers and EM/CRs travelling by train will be required to be in possession of General Railway Warrant 494A, as authority for the journey to be made.

Such warrants will be issued through the office of the Headquarters Commandant at HQ AC Com, and by the Headquarters Commandant (British), Company Commander (US), or other office designated by the Regional Commissioner, Southern Region in Naples.

Each warrant is valid for a single journey, and where a return journey is intended, separate warrants will be issued, and suitable advice conveyed to the office at the other end by the

Napoli Centrale, and in the case of all categories other than General passengers, proof of the necessity of the journey will be required by the Booking Office in duplicate. Sub-Commissions supervising rail passengers are therefore requested to ensure that such documents are in the hands of intending passengers, otherwise tickets will not be issued in priority order.

Such passengers must take up their tickets 48 hours in advance of the journey at Rome and Naples, and 24 hours ahead at intermediate stations.

General passengers' tickets and special permits will be issued 24 hours in advance at Rome and Naples in rotation order, and on the day of travel at intermediate stations.

(14) AC Officers and M/Os.

Officers and M/Os travelling by train will be required to be in possession of General Railway Warrant 494A, as authority for the journey to be made.

Such warrants will be issued through the office of the Headquarters Commandant at HQ AC Rome, and by the Headquarters Commandant (British), German Commandant (US), or other office designated by the Regional Commissioner, Southern Region in Naples.

Each warrant is valid for a single journey, and where a return journey is intended, separate warrants will be issued, and suitable advice conveyed to the office at the other end by the traveller, in order to ensure that return accommodation is available.

Warrants will be issued in duplicate. One will be surrendered on entering, the other at the completion of the journey, to the appropriate railway official.

Officers issuing warrants will send a monthly abstract to HQ Transportation Sub-Commission, showing:

- (i) warrant number and date,
- (ii) station from
- (iii) station to
- (iv) number of persons transported.

CONTROL OF TRAINS.

At Rome and Naples, platforms will be fenced and watched by ISK employees and police. Lists of civilian passengers will be handed by booking office officials to train guards.

Irregularity reports will be issued by ISR staff against any passengers travelling illegally. Each coach will be controlled by a railway employee and at least two police.

2. CIVILIAN COACH ON WOMEN'S TRAINS CASERTA-NAPLES.

Effective Monday 22 January, one coach operating on each trip of the new established workers' trains operating between Caserta and Naples will be used for authorised civilian travel. This will provide for morning and evening travel out of each terminal, and will include the worker's trains operating via Aviano and Capaccio districts.

AC Transportation Representative Naples will prepare permits for issue in duplicate to travellers, and one permit will be retained at booking office, at which the normal fare will be paid, the other retained as proof of authority to travel. Such permits may be made valid for a period not exceeding one month.

Cano Compartimento, Naples, will arrange for Carri Stazioni to receive and deal with authoritative applications for travel, based on supporting documents, and forward to Cano Compartimento, who will present to AC Transportation Representative for issue of permits.

Seating capacity will be on average of 80 seats per train. Tickets issued will not exceed this number.

This scheme is working well on similar service between Rome and Civitavecchia, and all concerned are urged to ensure that the conditions are not over-ridden less the facilities be withdrawn.

A copy of the permit used for the service Rome-Civitavecchia is attached hereto for information - see Appendix "B".

It should be quite clear that such permits are for use only on the designated services. They must not be used in respect of applicants wishing to ride on military trains, as the latter are entirely under control of MRS, and no civilian travel is permitted on them.
