TO : Local Government Sub-Commission.

1. Herewith a payment voucher in favour of P.M.A.C.Rome amounting to L.535,370 being in respect of undisputed amounts due to them for carriage in the distribution of Electoral stationery and printed matter in the North of Italy in June and July this year.

2. Although the weights carried to the respective destinations can be agreed as shown in the reconciliation given in appx A., it cannot, after consultation with Transportation Sub-Commission, be agreed

(a) that the Quote fisse d'ingaggio be charged twice
nor (b) that the full kilometer x Quintal x transport charge be paid for the return journey, without very satisfactory evidence being produced by P.M.A.C. that the vehicles returned empty, or that they carried goods for A.C. The way in which the trip tickets have been filled in is far from satisfactory and Transportation Sub-Commission is being asked to investigate this matter and to recommend whether full payment can safely be made.

3. In the meantime it is recommended that L. 535,370 be paid immediatly as not being in dispute. This is calculated in accordance with Appx B to this letter.

4. Accordingly please authorise the payment voucher enclosed and return to this office for sending to AFA.

To : Allied Commission, Local Govt. S/C

Subject : Transportation of electoral printing matters to Northern Provinces.

1) Since the running of the terms for the compilation of the electoral lists in the Northern Provinces has started on the 15th instant, it becomes now necessary to arrange in time to make plans for the transportation of a second batch of printed matters required by the Communes for the carrying out of the operations.

With Dept. Temple.

2) The above mentioned printed matters are in connection with the sectional lists and the various samples were already submitted to your Sub Commission by Dott. Sari on the occasion of a recent conversation.

3) On behalf of this Ministry, the Istituto Poligrafico dello Stato is taking care of the works for the preparation of the parcels of printed matters, dividing the material for each single region, in accordance with the criteria suggested by your Sub Commission in your letter N.AC/45/3/IG of 6 June last.

Attached hereto is shedule for the preparation of the material, showing the number of the parcels, their weight and the date when the material in question will be ready for loading.

4) We are enclosing also a group of 11 circulars - on the electoral subject- to be forwarded to the Prefects of the northern provinces together with the parcels of printed matters. We are waiting to hear from you what the decisions of your Sub Commission will be in connection with the transport of the material in questonn.

Risposta al Foglio del
Div. Sez. N°

OGGETTO : Trasporto stampati elettorali alle provincie del Nord -

1) Poichè la decorrenza dei termini per la formazione delle liste elettorali nelle Provincie del Nord si è iniziata il I5 c.m., si rende ora necessario provvedere, in tempo, a stabilire i piani per il trasporto di un secondo gruppo di stampati, necessari ai Comuni per il proseguimento delle operazioni.

2) Gli stampati predetti sono relativi alle liste di sezione ed i vari modelli furono presentati a codesta On.Sottocommissione dal dott.Sari, in occasione di un recente colloquio.

3) Per cura di questo Ministero l'Istituto Poligrafico dello Stato sta provvedendo all'allestimento dei colli di stampati, suddividendo il materiale per ogni singola regione, secondo i criteri suggeriti da codesta On. Sottocommissione nella lettera n° AC/45/ 3/ LG del 6 giugno scorso.

Si rimette, qui unito, il piano di allestimento del materiale, con l'indicazione del numero dei colli, del peso e della data in cui il materiale stesso è pronto per il carico . 596

4) Si rimette inoltre un gruppo di n° 11 circolari - relative alla materia elettorale - che verranno inviate ai Prefetti delle Provincie del Nord unitamente ai colli di stampati e si resta in attesa di conoscere le determinazioni di codesta On.Sottocommissione relativamente al trasporto del materiale in parola.

SUBJECT: Electoral lists--division of communes into voting districts--dispatch of further material to Regions. 21 July 1945

TO : Director, Local Government Sub-Commission

FROM : Major C. G. R. Williams, Executive Officer.

1. Dott. SARI of the Ministry's Electoral Service came to see me this morning. He brought with him two letters which are being translated at present and which will appear at fos. 55 and 56 on this file.

2. Contemporaneously with the preparation of electoral lists, provision has to be made for the division of communes into voting districts. The Sindaco has to decide on and publish a sort of scheme for this within 75 days of the fixed date, i.e. by 28 September. By the same date, he has to compile from the general list of electors (which is in alphabetical order) lists for each voting district in triplicate. He has to specify the voting districts, describe their boundaries and state the voting place for each district. This scheme has to be approved by the Electoral Commission and there is opportunity for the public to object.

3. As to the compilation of the lists, we have distributed the material and given RCs and PCs their instructions in Ex. Memo. 5. We have given no instructions yet about the establishment of voting districts nor distributed any material for this purpose.

4. The material required for determination of voting districts will shortly be ready--and it is bulky. Particulars for each Region are as follows:

Region	No. of Parcels	Weight in Tons	Date When Ready
Emilia	~~405~~ 413	12½	24 July
Liguria	~~229~~ 234	7	25 "
Venezie	~~567~~ 577	17½	27 "
Piemonte	~~474~~ 482	14½	30 "
Lombardia	~~723~~ 734	22	3 August
		73½	

594

5. For the preparation of the lists, it took the united efforts of Captain Cunningham and myself about ten days to get away 50 tons. Telephone calls, interviews, instructions, etc., etc., took about 50% of our time.

For the next fortnight, at least, there will be one officer only available in the Local Government branch of this S/C: the others will be on tours of inspection. With questions about the Consulta and the Costituente coming up and the ordinary regular work of this office, I do not see how

With questions about the Consulta and the Costituente coming up and the ordinary regular work of this office, I do not see how this one officer can possibly cope with the detail of arranging the transport for another 73 tons.

6. Apart from this, Dott. SARI brought us examples of several circulars (11) the Ministry want distributed to Prefects as quickly as possible, together with sufficient quantities of copies for every commune of a drawing of a modified form of ballot box which each commune will have to make. These circulars will have to be translated. When translated they will have to be studied and we

we shall have to consider to what extent it is necessary to give any ~~such~~ instructions or advice to RCs and PCs about their contents.

7. In the meantime, orders are urgently necessary as to who is to handle the transport of the 73 tons of paper referred to in para 4 above. I do not see(and I never have seen)why the whole of this should not be handled by Transportation S/C or by Dispatch, provided they are given the details as in para 4. They can maintain all the necessary contacts with the Ministry and the State Printing Office just as well as we can: and the Ministry can arrange for the necessary police guards direct with the State Printing Works.

8. I recommend that this question be referred to CA Section for the purpose of a decision at the requisite level as to what S/C or office of this HQ is to handle the transport of this material, and for the issue of definite orders accordingly from a level that will ensure precise compliance. Our past experience is that in spite of directions that the matter was to be handled by another office, it has in practice had to be handled by us, if the stuff was to get away at all.

2. For the present we are sending you none of the material for the compilation of the electoral lists but are reporting immediately to Rome our own impression, that it would be most undesirable to start the compilation of the lists before the question of nationality of the German speaking population in your province has been settled.

I shall hope to discuss this matter more fully with you when I am in Rome next week.

SUBJECT: Electoral Lists - Dispatch.

TO: Dispatch Office.

1 The Chief Commissioner has directed that all concerned must give first priority to the delivery of Electoral Lists. The responsibility for printing and preparing this material lies with the Italian Government who are, so far, doing better than their promises.

2 Approximately 4½ tons will be available for dispatch this evening to Liguria Region. The remainder, approximately 45 tons for Lombardia, Piemonte and Venezie Regions, will become available for dispatch between today and 25 Jun 45. It is expected that full details of this second lot will be made available to us today.

3 Will you please make every effort to have sufficient trucking ready to take the first lot (4½ tons to Liguria Region) tomorrow and advise me how you stand for the 45 tons later in the week. I must ask you to let me have a reply regarding the Liguria parcel at the very earliest possible moment.

SUBJECT: Distribution of material for preparation of electoral lists.

TO : Distribution as below.

1. Over-leaf is set forth a statement of the number and weight of the parcels of the forms, instructions and other material required for preparation of the electoral lists in each of the provinces under your command. The statement also gives the date when the Italian Government have promised that this material will be packed and ready for dispatch from the State Printing Works in Rome.

2. The material will be dispatched to you as soon after that date as arrangements for transport can be made. In the last resort, air transport may have to be used for Lombardia, Piemonte and Venezia Regions. You will be advised by signal as soon as possible of the means of transport that are being employed and of the ETA of the material.

3. Will RCs please provide for the distribution of the material to Provincial HQs, and PCs (in consultation with their Prefects) for its distribution to Communes. No doubt RCs and PCs have already put in hand arrangements for this. It is urged that every available means of transport--civil or military--be pressed into service.

4. The Italian Government state that each parcel will be clearly labeled with the name of the province for which it is destined and that, in loading, they will arrange to keep all parcels for a particular province together. No re-sorting should, therefore, have to be done at Regional HQs.

5. For distribution from PCs to Communes, however, the position is different. The Italian Government state that it is not possible to sort and pack the material by communes here in Rome because (a) sufficiently accurate information as to the needs of each commune is not available in Rome but only at the respective Prefectures and (b) to pack in this way would greatly delay the process. Each parcel, therefore, contains a given quantity of one type of document only: a statement is enclosed within each parcel giving the description and quantity of the material it contains.

6. On arrival of the material at Provincial HQ, it will therefore be necessary for the staff of the Prefecture to open the parcels, to re-sort their contents according to the requirements of each commune and to re-pack and address them for dispatch. The Italian Government estimate it should take the Prefectures from two to three days to do this.

7. It is requested that this HQ be informed by signal as soon as the dispatch of the material has been completed (a) to all Provincial HQs and (b) to all communes in a province.

SUBJECT: Distribution of forms and preparation of electoral lists.

18 June 1945

TO : FG Lucca.

1. On or about 15 March, quantities of forms, instructions and other material for use in the preparation of the electoral lists were dispatched to the various Prefectures of Toscana Region.

2. We were informed by Transportation Sub Commission that the forms for Apuania (that province being in enemy hands) were delivered to Lucca Prefecture along with the forms consigned to Lucca itself.

3. Please inform this Sub Commission as soon as possible whether the Apuania forms have since been transferred to the Prefecture of that province. If not, may this please be done as soon as possible, in view of the imminent commencement of the work of preparing the lists.

4. Please note that the forms stated to have been delivered to Lucca Prefecture in March were those relating to male voters only. A supplementary quantity of forms, etc. (being those required for female voters) were consigned to Toscana Region HQ at the end of May and received there on 29 May. Regional HQ informed us that they would distribute those for Apuania to that Prefecture direct.

5. We are anxious to know, however, the position as to the first batch of forms destined for Apuania in March.

1. Reference is made to CA Section circular AG/45/3/AL of 13 June (especially para. 10) and to this Sub Commission's signal No. 9924 of 16 June.

2. It is confirmed that arrangements have been made through Transportation Sub Commission for 2 civilian trucks (chartered from AMG) to convey the material required for the preparation of electoral lists in your Region to your HQ, arriving there at approximately 10:00 hours on Monday, 18 June.

3. A note of the number and weight of the parcels for each province is annexed.

4. You will observe that the statement includes for PESARO province which is Italian Government Territory. The Italian Government have been dispatching to their provinces by rail. There is, however, no civilian railway service to Pesaro: and it is understood that the use of military railway service cannot be made available. This HQ has therefore consented to assist the Italian Government with respect to Pesaro. It is accordingly requested that when distributing the material to Forli, the transport employed may be instructed to make the further short trip to Pesaro and deliver to the Prefecture there.

5. The following particulars should be noted:—

(a) each parcel should be clearly marked on the outside with the name of the province to which it belongs:
(b) each parcel weighs 30 kgms:
(c) each parcel contains a quantity of one specific document and the number in the parcel is inside each package:
(d) there has been placed in each parcel printed instructions from the Ministry of the Interior to the Prefectures, instructing them how to proceed in unpacking the parcels, sorting the contents into the quantities required for each commune and re-packing:
(e) it is estimated that this re-sorting should take the Prefectures 3 or 4 2-3 days.

SUBJECT: Note of interview - Local Government S/C offices.

DATE : 14 June 1945 - 1200 hours.

PRESENT: Dott. SARI, Servizio Elettorale, Dir. Gen. Amm. Civile
Ministry of the Interior.
Major C. G. R. Williams, Executive Officer, Local Govt. S/C
Major Ralph R. Temple, Deputy Director, Local Govt. S/C (part of the time)
Mr. Joseph Chevalier, interpreting.

1. Dott. SARI delivered a note of the number of packages of electoral forms for the eight provinces of Emilia Region: this is at fo. 12[illegible].

2. I asked about the weight for each province. He said each parcel weighed 30 kilograms and this could be obtained by multiplying out. This has been done in the statement at 12[illegible].

3. As to Pesaro (which is Italian Government Territory), Dott. SARI said the Ministry had not been able to deliver the forms to that Prefecture as yet because there was no civilian railway service to Pesaro town. They had asked Transportation S/C if they could use the Military Service for this purpose, but were told that could not be allowed. Dott. SARI asked if we could send down the Pesaro forms with those for Emilia Region. We agreed and said we would ask RC Emilia to make the further distribution to Pesaro.

4. Dott. SARI gave us the further information as to when and where the Emilia forms would be ready, all of which is summarized in the statement at fo. 13[illegible].

5. With a view to ascertaining what would have to be done at Regional and Provincial HQ, we asked Dott. SARI as to how the packages were made up. He said each package did NOT represent the forms required for a single Commune. The Ministry had not sufficient detail to pack in that way: only the local Prefectures could do that. Each package was limited to quantities of one particular document only: the nature of the document and the number of copies in it would be given in the statement packed inside each parcel. Moreover, within each package, the documents were done up into "sub-parcels", as it were, of 50 to 100 each.

6. The Prefectures would, therefore, have to un-pack and sort out the contents of each parcel into what was required for each commune and re-pack. This he thought should take them from two to three days.

7. Each parcel, before it left the State Printing Works would be clearly labeled outside with the name of the Province for which it was destined: and they would be packed on the truck so that all the parcels for one province were together. There should, accordingly, be little or no sorting to do at Regional HQ.

5/18

Declassified E.O. 12356 Section 3.3/NND No. 785021

124

8. Dott. SARI said that each parcel also contained a circular from the Ministry giving instructions to the Prefects about the distribution of the material. He promised to let us have a copy of these instructions today, for the information of the S/C.

9. He also said that he would on Saturday, 16 June, bring us another statement giving the number of parcels and the weights for the four remaining Regions, namely, Liguria, Lombardia, Piemonte and Venezie (excluding Venezia Giulia). We asked if on that occasion he would have typed into his statement the weight for each province, to which he agreed.

SUBJECT: Preparation of Electoral Lists.

13 June 1945

TO : Distribution as below.

1. Attention is drawn to Article 5 of DLL 12 April 1945, No. 201, published in the "Gazzetta Ufficiale" No. 59 of 17 May. The effect of this Article is stated in the next paragraph. The Decree has now been implemented for Military Government Territory by the order (No. 829) of Allied Military Government published in the "Gazzetta Ufficiale" No. 68 of 7 June 1945.

2. Although all the Italian legislation upon the preparation of the electoral lists has been given a formal implementation in Military Government Territory, its practical effect has hitherto been confined to Italian Government Territory. With respect to provinces under Allied Military Government, the Italian legislation provided that the procedure for preparing the lists was to be commenced in any such province 10 days after its return to the Italian Government: no provision was made for any steps to be taken during the period of Military Government. On the representation of this HQ, the Italian Government have altered this by the enactment of Article 5 of the Decree quoted in para 1, which provides for Allied Military Government to fix the date or dates for commencing preparation of the lists.

3. Authority to fix a date or dates accordingly for the provinces under AC will be exercised by the Chief Civil Affairs Officer at HQ AC. The RCs through the SCAOs will advise the CCAO as to the earliest date that can be set. The purpose of this directive is to give an indication of the considerations to be borne in mind in this connection.

4. The existence of electoral lists is a condition precedent to any sort of election--national or local. The preparation of the lists is the first practical step in the return of Italy to the basis of democratic government, namely, the election of representative institutions, and it is thus an implementation of one of the fundamental policies of the Allies towards Italy.

5. The liberation of the whole of the country has brought the matter into even higher relief. Before that event, the lists could only be considered, for practical purposes, in connection with the holding of local elections in those parts of Italy that lay to the rear of our lines. Now, however, the holding of local elections throughout the whole of Italy more or less simultaneously is a possibility. The essential preliminary to local elections, the formation of the electoral lists, is already well under way in Southern and Central Italy: and the importance of not allowing the North to lag behind is obvious.

6. The preparation of the electoral lists and the necessary preliminaries thereto in Military Government Territory are, therefore, a matter of the highest priority and SCAOs and RCs will deal with the matter on that basis.

7. The work of preparing the lists is intricate and complicated. It consists of a series of formal steps--such as the publication of notices, the deposit of provisional lists, the receipt of and adjudication upon claims by citizens to be entered on the lists, etc etc--for each of which a precise time-table is laid down. Accuracy, rigid punctuality, and the strictest possible adherence to the time-table are essential. The responsibility for the

3. Authority to fix a date or dates accordingly for the provinces under AFHQ will be exercised by the Chief Civil Affairs Officer at HQ AC. The ROs through the SCAOs will advise the CCAO as to the earliest date that can be set. The purpose of this directive is to give an indication of the considerations to be borne in mind in this connection.

4. The existence of electoral lists is a condition precedent to any sort of elections, national or local. 7. The work of preparing the lists is intricate and complicated. It consists of a series of formal steps--such as the publication of notices, the deposit of provisional lists, the receipt of and adjudication upon claims by citizens to be entered on the lists, and so on--for each of which a precise time-table is laid down. Accuracy, rigid impartiality, and the strictest possible adherence to a time-table are essential. The responsibility for these tasks rests almost entirely upon the Prefects and his administrative officials, upon the Sindaco of each comune and the Communal Secretary, as well as Electoral Commissions. It is obvious that an adequate number of personnel trained in Italian administrative procedure will be necessary to assist.

8. In the first place, therefore, the imminent preparation of the electoral lists requires that the organization of the Prefectures should be completed and that there should be employed at each of them a sufficiency of trained staff. The establishment of the organs of local government prescribed by Executive Memorandum No. 33 is essential for this purpose. For instance, an Electoral Commission must be established in every comune which is the center of a judicial district.

Declassified E.O. 12356 Section 3.3/NND No. 798021

this Electoral Commission is presided over by the President of the Tribunal, or if none, by the Pretore, and is composed of four commissioners of whom one is appointed by the Prefect and three by the Deputazioni Provinciale. The necessity for the institution of the underlined local body is apparent. The re-organization of the Prefectures and of local government should, therefore, be completed with all possible speed. Any delay will postpone the work of compilation of the election registers.

9. As this re-organization proceeds, the newly appointed local authorities of the Communes should turn their attention at once to the revision of their registers of population. As is generally known, a register ("anagrafe") of the population is and always has been required to be kept at the Municipio of each commune, and this register is the basis from which the first draft electoral lists will be prepared. The bringing up to date of these registers must, therefore, be put in hand as soon as possible. A circular from the Ministry of the Interior to the Prefects, No. 7192L of 22 May 1945, has recently been distributed through the AC channels, whereby the Italian provincial and communal authorities are advised how to proceed with the bringing up to date of the registers of Italian population.

10. Finally, preparation of the lists cannot be commenced until each commune has been furnished with the forms and other stationery necessary for the purpose. The Italian Government is responsible for the printing of these and for supplying them to this HQ. It is expected that this printed material will be available within the next two weeks. This HQ will then arrange for the transport of the material (all packaged and labeled) to the HQ of the Regional Commissioners of the five northern Regions. RCs in their turn will immediately distribute to Provincial Commissioners from which point the latter will be responsible for further distribution to every commune. The commencing date for the preparation of the lists cannot be earlier than a week after distribution of the forms to the last commune. Local Italian officials must have sufficient time to study the forms, the instructions and the procedure and to make their preparations accordingly. In advising as to the date which should be fixed, RCs must make full allowance for this.

11. In the actual fixing of the date, each Region must be dealt with as a whole. It would be possible to fix separate dates, province by province, according as each one becomes ready to begin. It is much to be preferred, however, that one single date be fixed for the whole of a Region. If possible, the same date will be set for all the northern Regions, but in any event if there are different dates they will be but a few days apart.

12. Please give this matter your immediate consideration and inform this HQ how soon after receipt of the electoral material the compilation of electoral lists can commence in your Region.

AC/45/3/LG

SUBJECT: Note of interview - Ministry of the Interior.

DATE : 13 June 1945

PRESENT: Dott. STRANO, Servizio Elettorale, Dir. Gen. Amm. Civile, Ministry of the Interior
Major Ralph R. Temple, Deputy Director, Local Government S/C
Sig. Arrigo NICE, interpreting.

Distribution of electoral forms and material

1. I referred to the telephonic message from Dott. STRANO's office to this S/C that the printing of the electoral forms and other material would be completed approximately June 25. I indicated that the Commission was very much interested in distributing the forms as quickly as possible and impressed upon Dott. STRANO the need for speeding up any of the work in connection with the printing and packaging in order to put us in a position to arrange transportation as quickly as possible. I said that it was important that if it was at all possible the material be ready much before June 25, because the Allied Commission was aiming to fix July 1 as the date for the commencement of the preparation of the lists in AMG Territory.

2. Dott. STRANO stated that he doubted very much whether July 1 would be an appropriate time because every Commune would have to receive the material and it was necessary to allow at least a week's time for study of the material and preparation by the local authorities.

3. He asked whether the organization of local government in AMG Territory was the same as in Italian Government Territory. I assured him that the pattern was identical. He pointed out a fact with which I agreed most emphatically-- that it was absolutely necessary that the local government machinery be set up in order that the compilation of the lists could be effectuated.

4. In order to preserve some degree of uniformity in each Region, Dott. STRANO stated that it was desirable to have the same date set in each Region. It might be possible to have different dates for each Region, but in that event they ought not to be very many days apart.

5. With regard to the present position of printing, Dott. STRANO said that, for the most part, the material has been printed. The Istituto Poligrafico is arranging the material into parcels and labeling them. This is an enormous task. The original date set was June 30, but the President of the Council of Ministers has personally sent a letter to the Istituto urging speed and the putting on of extra help, as a result of which the Istituto hopes to cut down its task by four or five days. It is hoped that the printing will be finished in a few days, and naturally it will continue while the packaging is being done. Dott. STRANO feels that the Istituto is working as fast as is humanly possible. In answer to my question as to whether a letter from the Allied Commission might result in a further speeding up, he stated that he did not think so, since the Prime Minister himself has personally intervened.

Declassified E.O. 12356 Section 3.3/NND No. 78 621

6. I suggested that instead of waiting until all the material was printed and packaged before distribution was made that as soon as enough material was accumulated for distribution to any one Region it be transported to that Region's HQ. I asked Dott. STRANO to let me have a plan as soon as possible containing an estimate of the weights of the material by Region and the dates when such material would be ready for transportation to the Regional HQ involved. He agreed with the suggestion and stated that he would immediately act accordingly and send us the plan within a few days.

7. He stated that the material for Emilia Region was ready. I proposed that he inform me by tomorrow as to the weight, so that distribution of the material to Emilia Region could commence without delay. He agreed. Dott. STRANO asked whether there were any provinces which were to be excluded from distribution. I stated that possibly those in Venezia Giulia, but that in any event he should proceed with the packaging for all provinces and all Regions and we would inform him later.

8. Dott. STRANO did not think the proposal to send the material by airplane was practical because it would involve too much loading and unloading; that is, the material would have to be loaded here in Rome in trucks, then transported to the airport where it would be unloaded and then put into the plane. Then when it arrived at its destination, it would have to be further unloaded from the plane and reloaded on another truck to be conveyed to Regional HQ. There would be less confusion, and in the long run it might be just as quick if not quicker if it were conveyed by truck all the way.

9. Dott. STRANO, pursuant to a suggestion of mine, stated that he would have a circular prepared for the information of the Prefects in order that the latter might anticipate the receipt of the material. He would send that to us for distribution within the next two or three days.

10. I made inquiry as to the position regarding the compilation of the electoral registers in Southern and Central Italy. Dott. STRANO stated that the material had been distributed to all Communes in Southern and Central Italy south of Emilia Region.

11. In some Communes in Southern and Central Italy the work of compiling the lists has been completed and the lists have been published. He hopes that by the end of July the work of compilation will be completed in all of Southern and Central Italy, excepting Umbria-Marche and Toscana. In the latter two Regions, the date set for the compilation of the lists was March 20. In other words, in Central and Southern Italy, with the exception of Umbria-Marche and Toscana, it would have taken six months to complete the work of compilation (the work commenced on February 1, 1945). However, he hopes that a month will be saved in the job of preparation in the Northern Regions; that is, it would take probably five months to compile.

537

12. I asked whether it had been necessary to send officials from Rome around to the provinces to advise and assist in the work. He said that lack of transportation and other difficulties made it impossible to do that, but in any event, the work was supervised from the local level. The Prefects either sent VPI's around or other officials in the Prefetture who were assigned the task of supervising the election lists. This indicated the desirability of

Declassified E.O. 12356 Section 3.3/NND No. 780021

11B

having trained officials who were familiar with administrative procedures in the Prefetture.

13. Dott. SERANO thanked me for the interest which the Commission was taking and assured me that he would do his utmost to expedite the enormous task.

SUBJECT: Transport of electoral forms to Northern Provinces. 6 June 1945

TO : His Excellency the Minister of the Interior.

Your Excellency:

1. I refer to the Ministry's letter No. 5053 (Dir. Gen. Affa. Civili --Servizio Elettorale--) of 19 May, from which it is noted that the printed material required for the purposes of the electoral lists in the recently liberated provinces of North Italy is in greater part now ready at the Istituto Poligrafico dello Stato. In an interview at this office on 21 May, Dott. SORI supplemented this information by saying that certain of the requisite forms had not yet been printed and that they would probably not be ready for a month.

2. No indication can be given at present as to when it will be possible to distribute this material in the North. The Sub Commission, however, is anxious to make plans for this purpose in good time. The procedure it is intended to follow is to deliver to the Headquarters of the respective Regional Commissioners all the material required for the provinces comprised within their Regions: the Regional Commissioners in their turn will distribute this to the Provincial Commissioners and the Prefects of the provinces will then distribute to the communes.

3. Before, however, any plans of this nature can be made, it is essential to have (a) an estimate of the weight of the material to be consigned to each Region; and (b) an estimate of the dates when the material for each Region will be ready.

4. Upon receipt of this information, this Sub Commission will immediately consult with the Transportation Sub Commission in order to have in readiness all the necessary transport arrangements, so that they can be put into operation immediately the proper time comes to distribute the forms. Until the information now requested is received, however, no progress can be made.

Subject: Transportation electoral printed matter.

1)- Dott. Sari during his conversation of the 4th April with the Hon Local Covernment S/C, had the occasion to point out that while a few Prefectures had acknowledged regular reception of the electoral printed matter sent from Rome on the 15 of March, other Prefectures - i.e. those of Pesaro, Lucca, Pisa, Pistoia, Terni, Ancona, Florence and Leghorn- had not yet done so.

The main purpouse of the conversation was to know whether the Local Government S/C had, for some private reasone received the ackowledgments not yet received by this Ministry.

2)- We now beg to confirm that up to the 4th April the above Prefectures had not yet sent any note of acknowledgment ; on the other hand no communication about the subject was here received from the Local Coverbment S/C.

3)- It was only on the 10th of April that this Ministry began to receive acknowledgments from the above Prefectures, but nothing so far has been received from Pistoia.

4)- In order to avoid a repetition of this inconvenience on the occasion of the envoy of the Electoral forms to the Prefectures not yet returned to the Italian administration, -if the Hon Loc. Govt. S/C. has no objection- it will be pointed out, in the accompaying circular letters, the invitation to the addressee Prefectures to immediately send an acknowledgment of regular reception directly to this Ministry.

OGGETTO : Trasporto stampati elettorali -

1) Il Dott.Sari, nel colloquio avuto il 4 aprile u.s. presso codesta On. Sottocommissione, fece presente che mentre alcune Prefetture avevano inviato al Ministero assicurazione di aver regolarmente ricevuto gli stampati inviati da Roma il 15 marzo, alcune altre Prefetture - e precisamente quelle di Pesaro, Lucca, Pisa, Pistoia, Terni, Ancona, Firenze e Livorno - non avevano inviato la predetta assicurazione.

Scopo principale del colloquio era di appurare se, nel frattempo, codesta On.Sottocommissione avesse ricevuto, per motivi del suo ufficio, le assicurazioni non pervenute a questo Ministero.

2) Si conferma ora che alla data del 4 aprile u.s. le predette Prefetture non avevano inviato l'assicurazione in parola; d'altra parte nessuna comunicazione in tal senso, era pervenuta da parte di codesta On. Sottocommissione.

3) Soltanto posteriormente alla data predetta - ed a partire dal IO aprile - sono pervenute a questo Ministero le assicurazioni relative alle Prefetture sopraindicate, ad eccezione di Pistoia. 533

4) Allo scopo di evitare il ripetersi dell'inconveniente in occasione del prossimo invio di stampati alle Prefetture dei territori non ancora restituiti all'Amministrazione italiana, si porrà - ove nulla osti da parte di codesta Sottocommissione-in particolare

1. Reference is made to the interview (Capt. Cunningham - Dott. Sori) of 25th May on the above subject.

2. The proposals made by Dott. Sori as to methods of transportation have been studied by the Transportation Sub Commission who have replied that E.N.A.C. have adequate vehicles to effect the delivery of the forms in Italian Government Territory and that the Italian Government should make its own arrangements for delivery with E.N.A.C.

3. The Ministry will recall that their original letter on this subject (15600/ 1/1 Div. 2 sez. 1 dated 19th December 1944) was necessary because E.N.A.C. was then under Allied Control as were also the Provinces to which delivery was to be made. These conditions no longer apply as both E.N.A.C. and the Provinces concerned are now under Italian Government control.

4. Transportation Sub Commission supplied trucks on 27th May to transport 44 tons of Electoral Forms to Toscana Region Headquarters from where they will be distributed in Regional transport to the Provinces still under Allied Military Government, i.e., APUANIA, FIRENZE, LIVORNO, LUCCA, PISA and PISTOIA.

5. As soon as official notification is received that the forms have been received at the Prefectures above mentioned the Ministry will be notified to that effect.

SUBJECT : NOTE of Interview - Dott. SORI

DATE : 25th May 1945 - 1100

PRESENT : Capt. W.I. Cunningham
Dott. SORI
Signor Arrigo Nice, intepreting

1. Dott. SORI said he had come in reply to our letter (Page 43 on this file). The Ministry were very worried that we could not handle the transportation to the places set out in para 2 of the letter. The Provinces recently handed back to the Italian Government. He urged that we should provide transport.

2. I pointed out that transport was difficult to get and that the last time forms were delivered the trucks had to be sent from Florence and that owing to the advance in the North the trucks might have to come from much farther way. I asked him if ENAC was under the control of the Italian Government why didn't they handle the distribution.

3. He replied that ENAC was now controlled by the Italian Ministry of Transport but that they were employed in moving food and would simply refuse to move paper ! He said it was a matter of petrol and if we could get the petrol he thought ENAC could supply the truck. He then produced the Memo at page 45 and suggested that the forms for PESARO, AREZZO, GROSSETO, TERNI and ANCONA should be sent there by rail. This would require Allied authorization as the railways are used for Military purposes only. He suggested that as Siena and Perugia are on the way to Florence the forms for these two provinces should be put on the truck for Florence and delivered on the way there. They would send the forms for Macerata and Ascoli to the Prefect of Ancona by rail and make him responsible for delivery !

4. I pointed out that it wasn't simply a matter of putting some extra forms for Siena and Perugia on a truck and dropping them off at the Prefecture. The forms for these two Provinces weighed 1,604 Kilos and would probably require another truck. There was also the fact that there was no Allied Officer in either Province to whom we could effect delivery.

5. Dott. SORI said that all he wanted us to do was to unload the forms at the Prefectures and we would be under no liability for delivery.

6. I said I would put all his points forward to the proper authorities and let him have an answer as soon as possible.

7. He left publication No.3 of Instructions for Compiling Electoral Lists for our information.

Subject: Transportation of Electoral forms to the provinces of Marche, Umbria and Tuscany recently passed under the Italian Administration.

1) The Ministry of Interior, following agreement reached with the Ministry of Transports, has the possibility to provide for the transportation of the forms in question to the prefectures of Pesaro, Arezzo, Grosseto, Terni, Ancona.

2) The above mentioned transportation can be made by railway, but it is necessary that the Allied Commission takes up the matter with the Transportation Sub- Commission in order to allow the Ministry of Interior to avail itself of the military convoys which at present connect the above cited with Rome. If necessary the Ministry can provide a police agent to escort the aforementioned material to avoid possible straying and delays, and to make its delivery sure.

3) For the provinces of Siena, Perugia Ascoli Piceno and Macerata the Ministry has not the possibility of effecting the transport- for the named localities are not in railway communication with Rome and consequently requests the Hon. Local Government Sub- Commission to provide for the transportation in question by means of motor lorries. This also in consideration of the fact that the above localities are on the road of the motor-transports which will be delivering the forms to the provinces of Tuscany and Marche not yet returned to the Italian administration.

28 Nov. 45 CAS: (31)

1. Back in June of this year, the Vice President, Civil Affairs Section, sent a letter to the Dispatch Officer (reference AC/45/3/LG) in which he said:--

"The Chief Commissioner has directed that all concerned must give first priority to the delivery of electoral lists".

Since that time, both he and the Executive Commissioner have indicated a continued desire to expedite the delivery of all electoral material in connection with the compilation of the electoral registers. With a little prodding, the Dispatch Office has reasonably carried out this direction, in spite of various difficulties which it has encountered.

2. We are still in receipt of electoral material for forwarding to areas under AMG control. The responsibility for its delivery still pertains to the Commission, not only because the territory is under our control, but also because the Chief Commissioner has personally committed himself to the most expeditious transportation of all necessary material in connection with this gigantic task of compilation of the electoral registers.

3. In the Allied Commission, the duty of forwarding material falls upon the Dispatch Office. That office, however, has refused to assume responsibility and only yesterday consented to the forwarding of packages of electoral material to the Northern Provinces as a "special favor" to us and with the presence of one of my staff to supervise the loading at HQ. Obviously the carrying out of any official business by any unit in the Commission cannot be construed as a "special favor" to another unit. This S/C has neither the facilities nor the function of physically transmitting the material of the Italian Government to the Northern Provinces. The staff of this S/C opens the packages when they are received at HQ and prepares the addresses for the proper consignment of the packages. It cannot and should not do anything more than that.

4. The Dispatch Office now directs that we secure a priority from the Air Forces S/C if any more material is to be sent by the most expeditious means, namely by air transport. Can this priority please be secured?

5. Several times during the past few weeks it has been reported from the Regions that the material which we indicated had been sent had not been received. The Italian Government has called these instances to our attention to our great embarrassment. It has been almost impossible to trace the material because of the absence of any documentary evidence other than our letter to the Dispatch

It has been almost impossible to trace the material because of the absence of any documentary evidence other than our letter to the Dispatch Office to effectuate the delivery of certain material of certain weight to certain destinations. It would be of great assistance to us were the Dispatch Office instructed to furnish this S/C with a receipt upon delivery to it of the material for consignment.

521

6. With the continued increase of work and the scarcity of staff, it is apparent that as little time as possible be spent by this S/C to effectuate physical delivery of the electoral material after it is sent to the Dispatch Office properly. I would appreciate your assistance in seeing to it that the procedure and recommendations as requested above be carried out.

24 Nov. Capt. Purcell — To. 111 to (29) (30) for action re para. 1. 111

25 Nov. Further to above. I signed folio 112 at 112
about 14.15 hrs. today. At 14.30 Sgt. Starkins reported
that Dispatch office refused to accept delivery of the
electoral lists and referred us to Communications &c.
1. - About 16 hrs. I had agreed a procedure with the
Dispatch office (with Sgt. Hill) for delivery to them
of electoral lists (ready prepared for dispatch by
air to the North): the drill was that the
lists must be ready packed & labelled, and
physically delivered to Dispatch office: a
receipt would be given (in our receipt book) and
Dispatch office would assume responsibility.
This appeared to me to be a business-like offer
especially as we had received embarrassing
reports from the North that certain lists (which
Sgt. Carr had delivered personally to D.O. on 29th Oct.) 104
were missing.
2. At 14.30 hrs 27 Nov. I saw Maj. Bentley (i/c
Dispatch office - Air Priorities) and explained the
importance of the electoral forms. In the course
of this and 2 subsequent interviews Maj.
Bentley put forward the following propositions:
(a) Dispatch office cannot accept printed material
for delivery by air: it must go by raid or else
special authority must be obtained from Air Forces
Sub-Commission. 520
(b) As a special favour and 'contrary to orders'
Maj. Bentley could send part or possibly all of the
forms by air but I (or a representative of L.B.S.C.) must be
[illegible] to the airport with the forms: they

14 June 45	CAS: 1. Please see notes of interviews at fos. 11 and 12 etc. The Emilia electoral forms, etc. will be ready for Sunday, 17 June. 2. As the Ex. Commissioner has directed this matter to be treated as very urgent, may instructions please now issue from the appropriate level to the authority responsible for furnishing transport (a) to take over the conveyance of the Emilia forms and (b) as to the priority to be accorded to this task. For use in this connection (if desired) a loose copy is sent of the statement at fo. 12B. 3. As to the mode of transport, we have carefully considered this and taken the advice of responsible officials of the Ministry of the Interior. Road transport is strongly recommended in preference to air. 4. Air transport necessarily involves:-- (a) 2 road hauls (State Printing Works--Rome airport: Northern airport--Reg. HQ) and (b) 4 loadings instead of 2. The total time taken will therefore be little less by air than by road. Moreover, the risk of confusion, loss or bursting of parcels, etc. is greatly increased by 4 handlings instead of 2. 5. 1. Ref. minute (5)--arrangements made for dispatch of electoral forms to Emilia Region, as per fos. 13 --- 16. 13-16.

2. Please observe that practically the whole of the details of this have had to be handled in this S/C. The S/C have been unable to supply suitable transport themselves and proposed applying to ENAC to provide it. This morning they introduced to us an official of ENAC.

3. The detailed arrangements with that official, the owner of the trucks to be employed, the State Printing Works, the Ministry of the Interior and the police have had to be undertaken by Major Temple and Major Williams of this S/C.

4. These 2 officers are the only ones available at present to conduct the business of LG Branch. Almost the whole of their time for the last two days has been taken up with the arrangements for transporting this material to Bologna.

1. Reference is made to this Sub Commission's letter under the above reference, dated 18 March and to your letter dated 28 March to the Minister of the Interior, reference 13023/T/A/35.

2. AMG has now lodged with this office the account for the transport of electoral material to Turin on 30 July 1945. The original set of accounts for the material transported in the summer of 1945 was agreed in October last with Lt.-Col. P.N. Whyman of the Chief Accountancy Branch, Finance Sub Commission. It was then noted that accounts had been lodged for all trips made with one exception - the material delivered to Turin on 30 July. The amended account relates to that trip. Any payment please be made to FMAC.

SUBJECT : Expenditure for Preparation of Electoral Lists.

23 March 1946

TO : ASA Financial Accounting Unit.

1. Reference your 13223/T/A/20 of 8 March to Allied Supply Accounting Agency, copy to this S/C , our observations are as follows.

2. It is not correct to say, as stated in para 1 of the A/C letter, that this S/C was acting directly on behalf of the Italian Government. The areas to which the material had to be despatched were areas under Allied Military Government ; and AMG not the Italian Government, were responsible for the preparation of the electoral lists.

3. At that time (June 1945) the policy upon the preparation of the electoral lists in the AMG areas of the North was being determined by the Chief Commissioner. The policy was to commence the preparation of the lists at the earliest possible date and to proceed with the utmost speed. The object was to have the North catch up with the Centre & South, which had begun their lists 5 months earlier. The over-riding consideration was to prevent the elections being postponed because the North was not ready. The Chief Commissioner in fact ordered the preparation of the lists in all AMG Regions in the North to commence on 15 July 1945. At a conference the Chief Commissioner also gave directions that the despatch of the requisite material was an AMG/AC responsibility and was to be treated as of the highest urgency. In the event, this S/C managed to get the material despatched and distributed only just in time for the 15 July.

4. It is suggested that this expenditure may recur. This is not so. The urgency which existed in June 1945 no longer obtains. Moreover, of the AMG Regions above mentioned, only Udine Province remains under Military Government and the present policy with respect to Udine is that, for purposes of elections and electoral lists, it is to be treated as if it were Italian Government Territory.

Reference is made to your 1355F/F/A dated 19Feb.46 on letter subject.

1. It is understood that this expenditure was incurred by Local Government Sub-Commission acting directly on behalf of the Italian Government, the chief reason for the action having been to expedite preparations for the forthcoming Elections.

2. In the circumstances it appears undesirable and unnecessary to employ the funds of AC/AMG for the expenditures. There seems little reason why the Italian Government should not themselves make the payment, especially as this type of payment may recur and this Agency has not a continuing function. In principle, AC/AMG funds have been used for payments of this type only during the period of operational necessity.

REPORT ON DLL PROJECT CONTAINING PROVISIONS TO FACILITATE THE REGISTRATION OF CITIZENS IN THE ELECTORAL LISTS.

Among the impediments hindering the preparation of the electoral lists, one of the most serious once appeared to be the difficulty in getting, on the part of the Communes, the certificates of the cancellari giudiziari on the possible penal precedents of the citizens, in order to decide about their registration in the lists themselves.

Since as regards the feminine lists DLL 7 sept 1945 n.623, permitting the substitution of the certificates of the Cancellari Giudiziari with similar information to be issued to the Communes by the Questure and RR.CC Headquarters, has already been issued, it has been thought opportune and urgent to extend the aforesaid system to the compilation of the masculine lists, so as to expedite the completion of the latter, especially for the purpose of not having to postpone the convocation of the meetings for the formation of the Constituent Assembly.

The attached project of DLL, in which the terms of 15 days foreseen in DLL 7 sept.1945 n.623, have been reduced to 10 days, intends to meet the above.

RELAZIONE SULLO SCHEMA DI D.L.L. CONTENENTE NORME PER AGEVOLARE L'ISCRIZIONE DEI CITTADINI NELLE LISTE ELETTORALI.

Fra gli ostacoli che intralciano la preparazione delle liste elettorali, uno dei più gravi è stato ravvisato nella difficoltà di acquistare, da parte dei Comuni, le attestazioni dei casellari giudiziari sugli eventuali precedenti penali dei cittadini, per decidere circa la loro iscrizione nelle liste medesime.

Poichè nei riguardi delle liste femminili è già stato emanato il D.L.L. 7 settembre 1945, n. 643, che consente di sostituire alle attestazioni dei casellari giudiziari analoghe informazioni da rilasciarsi ai Comuni dalle Questure o dai Comandi dei Reali carabinieri, si ravvisa opportuno ed urgente estendere l'accennato sistema alla formazione delle liste maschili, in modo da affrettare il completamento di queste ultime, sopratutto allo scopo di non procrastinare ancora la convocazione dei comizi per la formazione dell'Assemblea Costituente.

A quanto sopra intende provvedere l'unito schema di D.L.L., nel quale i termini di 15 giorni, previsti nel D.L.L. 7 settembre 1945 n. 643, sono stati ristretti a dieci giorni.

SCHEMA DI D.L.L. CONCERNENTE NORME PER AGEVOLARE L'ISCRIZIONE DEI CITTADINI NELLE LISTE ELETTORALI.-

Umberto di Savoia

PRINCIPE DI PIEMONTE
LUOGOTENENTE GENERALE DEL REGNO

In virtù dell'autorità a Noi delegata;

Visto il decreto legislativo Luogotenenziale 25 settembre 1944, numero 247, il decreto del Presidente per l'Interno 24 ottobre 1944 e il decreto legislativo Luogotenenziale 12 aprile 1945, n.201, sulla formazione delle liste elettorali;

Visto il decreto legislativo Luogotenenziale 1° febbraio 1945, n.23, per la sospensione all'esercizio del diritto di voto;

Visto il decreto-legge Luogotenenziale 25 giugno 1944, n.151;

Visto il decreto legislativo Luogotenenziale 1° febbraio 1945 n.58;

Visto il decreto Luogotenenziale 31 luglio 1945, n.435, concernente l'istituzione del Ministero per la Costituente;

Visto il decreto legislativo Luogotenenziale 7 settembre 1945, n.643, contenente norme per l'accertamento dei precedenti penali nei riguardi delle donne da iscriversi nelle liste elettorali;

Udito il Consiglio dei Ministri;

Sulla proposta del Ministro per l'Interno, di concerto col Ministro per la grazia e giustizia;

ABBIAMO SANZIONATO E PROMULGHIAMO QUANTO SEGUE :

Art. 1

Ai fini della iscrizione nelle liste elettorali dei cittadini, d'ambo i sessi, per i quali non siano stati ancora compiuti gli atti prescritti dall'art.4 del decreto del Ministro per l'Interno, pubblicato nella Gazzetta Ufficiale n.9 del 20 gennaio 1945, possono tener luogo delle certificazioni dei cancellieri giudiziari analoghe attestazioni da rilasciarsi dalle Questure o dai Comandi dei Reali Carabinieri in conformità delle disposizioni seguenti.

Art. 2

Entro dieci giorni dall'entrata in vigore del presente decreto, ciascun Comune trasmetterà un elenco con le generalità di coloro pei quali non si sia potuta ottenere l'attestazione del cancelliere giudiziario :

a) alla Questura del luogo di residenza, pei cittadini residenti nei Comuni capoluoghi di provincia;

b) al Comando delle stazioni dei Carabinieri Reali competente territorialmente, pei residenti negli altri Comuni.

Art. 3

Le Questure e i Carabinieri Reali, eseguito l'opportuno riscontro negli atti giudiziari presso i rispettivi uffici, restituiranno

./.

ai Comuni richiedenti, entro dieci giorni dalla ricezione, l'elenco predetto, previa apposizione dell'annotazione "Nulla" a fianco di ciascun nominativo per il quale non risulti alcuna precedente condanna per delitto o altra causa di ineleggibilità ed allegando, per gli altri nominativi, un'attestazione in cui siano riportate le risultanze a loro carico.

Qualora l'Autorità di P.S. competente per territorio non sia in grado di fornire, per distruzione degli atti di archivio od altre causa, le informazioni richieste oppure queste non siano sufficienti per un ponderato giudizio ai fini dell'eventuale esclusione dalle liste, rimane fermo l'adempimento degli atti prescritti dall'art.4 del decreto del Ministro per l'Interno 24 ottobre 1944. Tale adempimento deve aver luogo a mezzo del telegrafo.

Art. 4

Il presente decreto entra in vigore il giorno successivo a quello della sua pubblicazione nella Gazzetta Ufficiale del Regno.

Ordiniamo che il presente decreto, munito del sigillo dello Stato, sia inserto nella Raccolta Ufficiale delle leggi e dei decreti del Regno d'Italia, mandando a chiunque spetti di osservarlo e di farlo osservare come legge dello Stato.

SUBJECT: Note of Interview - Ministry of the Interior

DATE : 4 December 1945 - 1100 hours.

PRESENT: Dott. STRANO, Head of the Electoral Service, Ministry of the Interior
Capt. J.L.Russell, Asst. Executive Officer, Local Government S/C
Sig. J. Chevalier, interpreting

1. I explained that the purpose of our visit was to ascertain to what extent the prefects' fortnightly reports on electoral progress had been reaching the Ministry direct, with particular reference to those reports which had not been received at all by the Sub Commission.

2. Dott. Strano produced an index of reports received by the Ministry, and this was checked against our list of reports still required. For Lombardia Region, out of 23 reports overdue, 10 had been received by the Ministry direct. For Liguria Region, out of 7 overdue, 2 had been received by the Ministry. For Venezia Region, out of 44 overdue, 14 had been received by the Ministry. For Piemonte Region no reports were overdue, and all had passed through the normal channels.

3. Dott. Strano suggested that prefects in AMG territory should be instructed to send their reports to the Ministry direct, with a copy to AC Local Government Sub Commission: he said that at present the Ministry found themselves in the position of being unable to take any action to ensure receipt of the reports.

4. I pointed out that this question had been raised previously, and that, as Major Williams had stated, the additional delay due to transmission of reports through AC channels was very small. I said that the Local Government Sub Commission intended to take first measures to speed up the forwarding of reports, and that for that reason it was particularly desirable that all reports should pass through our office so that we could be certain as to which reports the Ministry had received and which were still required.

5. Dott. Strano stated that the Ministry staff were by no means infallible, and said that when letters addressed by our Sub Commission to the Electoral Service had to be translated they had been known to go astray after translation and additional delay might be caused thereby. To obviate this he requested that letters concerning electoral matters be marked for his personal attention, and he also suggested that if a personal letter had to be sent to the Ministry dealing with electoral matters, a copy should if possible be sent to himself (Dott. Strano) so that he could personally ensure prompt delivery of the original. I promised to make known this suggestion to the Director and thanked Dott. Strano for the information supplied by his office.

Capt. J. L. Russell, Ass't Executive Officer " " "
Sig. Arrigo NICE, interpreting.

1. Dott. STRANO stated that the Royal Mint had practically finished the manufacture of the official stamps for marking ballot-papers. The Mint are also manufacturing the irking pads, etc. to go with the stamps and the box (about 6" x 3" x 2"). These boxes would be sealed.

2. The Ministry would then have to send them out to the Prefectures in the ratio of one box to every electoral section. The Ministry have not yet got accurate information as to the number of sections in the various communes of each province but they would send out an estimated number calculated so as to leave a sufficient reserve to be held in the Prefecture.

3. The Ministry expects to be ready to begin distribution in about 20 days. They propose to start distributing to Southern Italy. Dott. STRANO mentioned the matter to us now as the question of transporting this material to North Italy would arise in about a month and he thought we would like to be making plans. I said we certainly would but we should not be able to do anything without some figures as to estimated quantities and weights. It was agreed that Dott. STRANO would let us know as soon as possible:--

(i) the weight of one of the boxes:

(ii) the estimated weight of one of the big cases into which the boxes would be packed:

(iii) the estimated number of boxes to go to each of the 30 provinces in North Italy.

We discussed the possibilities and it seemed that rail transport was probably the best. As an instance, Dott. STRANO said Como had about 500 sections--about 100-150 boxes went into a packing case so that Como would require about 4 large cases. This covered one province only and not one of the largest. Dott. STRANO suggested we might consider special rail vans.

4. In reply to my inquiry, Dott. STRANO said this material certainly ought to be guarded and the Ministry would provide armed guards from the Questura special squad. 439

SUBJECT: Transmission of Italian Mail.

29 November 1945

TO : Civil Affairs Section

1. Back in June of this year, the Vice President, Civil Affairs Section, sent a letter to the Dispatch Officer (reference AC/45/3/LG) in which he said:—

"The Chief Commissioner has directed that all concerned must give first priority to the delivery of electoral lists".

Since that time, both he and the Executive Commissioner have indicated a continued desire to expedite the delivery of all electoral material in connection with the compilation of the electoral registers. With a little prodding, the Dispatch Office has reasonably carried out this direction, in spite of various difficulties which it has encountered.

2. We are still in receipt of electoral material for forwarding to areas under AMG control. The responsibility for its delivery still pertains to the Commission, not only because the territory is under our control, but also because the Chief Commissioner has personally committed himself to the most expeditious transportation of all necessary material in connection with this gigantic task of compilation of the electoral registers.

3. In the Allied Commission, the duty of forwarding material falls upon the Dispatch Office. That office, however, has refused to assume responsibility and only yesterday consented to the forwarding of packages of electoral material to the Northern Provinces as a "special favor" to us and with the presence of one of my staff to supervise the loading at HQ. Obviously the carrying out of any official business by any unit in the Commission cannot be construed as a "special favor" to another unit. This S/C has neither the facilities nor the function of physically transmitting the material of the Italian Government to the Northern Provinces. The staff of this S/C opens the packages when they are received at HQ and prepares the addresses for the proper consignment of the packages. It cannot and should not do anything more than that.

4. The Dispatch Office now directs that we secure a priority from the Air Forces S/C if any more material is to be sent by the most expeditious means, namely by air transport. Can this priority please be secured?

5. Several times during the past few weeks it has been reported from the Regions that the material which we indicated had been sent had not been received. The Italian Government has called these instances to our attention to our great embarrassment. It has been almost impossible to trace the material because of the absence of any documentary evidence other than our letter to the Dispatch Office to effectuate the delivery of certain material of certain right to certain destinations. It would be of great assistance to us were the Dispatch Office instructed to furnish this S/C with a receipt upon delivery to it of the material for shipment

It would be of great assistance to us were the Dispatch Office instructed to furnish this S/C with a receipt upon delivery to it of the material for consignment.

6. With the continued increase of work and the scarcity of staff, it is apparent that as little time as possible be spent by this S/C to effectuate physical delivery of the electoral material after it is sent to the Dispatch Office properly labelled. I would appreciate your assistance in seeing to it that the procedure and recommendations as requested above be carried out.
