Le liste sezionali sono state approvate in altri 6 Comuni dei 10 segnalati nella precedente relazione così in atto solo quattro Comuni debbono ancora riportare l' approvazione delle liste predette; si ha la certezza che ciò avverrà nei prossimi giorni giacchè le liste stesse si trovano all' esame delle rispettive Commissioni Elettorali Mandamentali.

Alle state degli atti quindi si ritiene che la preparazione delle liste dei Comuni di questa Provincia sia quasi completata per cui non c' è da nutrire alcun timore che non possano essere realizzate le condizioni che consentano lo svolgimento delle elezioni politiche le quali peraltro si svolgeranno dopo quelle amministrative già fissate in questa Provincia, come in precedenza riferito, per le domeniche 24 e 31 marzo e per domenica 7 aprile p.v.. Quanto precede si riferisce con riguardo anche alla comunicazione telegrafica di codesto Ministero n° 16298/15800/L in data 2 c.m.

E' in corso nei Comuni la nomina degli scrutatori mentre per quanto riguarda il presidente dei seggi elettorali nella maggioranza dei Comuni sono stati già nominati da parte del primo Presidente della Corte d' Appello di Genova.

I certificati elettorali sono giunti in quantità inferiore al fabbisogno per cui non è stato possibile curarne la distribuzione a numero 8 Comuni. Codesto Ministero con telegramma n° 15018-15175/F III in data 26.2. 1946 ha assicurato la spedizione dell' ulteriore quantitativo necessario di certificati senza precisare il giorno e l' ora dell' arrivo. Tale materiale a tutt' oggi non è pervenuto.

La compilazione dei certificati elettorali è in corso in tutti i Comuni ai quali sono stati distribuiti e in parecchi Comuni anzi è stata ul-

timata. La relativa consegna agli elettori verrà fatta tempestivamente.

Le matite copiative, come prescritto da codesto Ministero, sono state già ritirate a Milano.

Attraverso il servizio ispettivo, si è potuto accertare, fra l'altro, che in tutti i Comuni l'arredamento dei seggi elettorali è ultimato ovvero in stato molto avanzato.

Per la stampa delle schede elettorali è stata affidata l'incarico ad una Tipografia locale con la quale è stato stipulato regolare contratto debitamente registrato.

Ai Comuni sono state impartite disposizioni di far capo possibilmente ad un'unica tipografia del Capoluogo di Mandamento per quanto riguarda la tempestiva stampa del manifesto previsto dall'art. 21 secondo comma del D.L.L. 7.1.1946 n° 1 e di segnalare comunque eventuali difficoltà a questa Prefettura per telegrafo.

Con osservanza.

In tutti i 68 Comuni della provincia sono state approvate le liste generali maschili e femminili.

S'è provveduto e si provvede in tutti i comuni a pubblicare le liste stesse per dieci giorni consecutivi in conformità al disposto dell'art. 15 del D.M. 24/10/1944 dopo che siano state apportate le variazioni in conformità alle decisioni delle Commissioni Mandamentali.

Anche le liste sezionali sono state approvate in 58 comuni mentre per i rimanenti 10 comuni le liste di che trattasi sono in corso d'approvazione presso le rispettive Commissioni Mandamentali.

In questa provincia non s'è resa necessaria la compilazione di liste suppletive giacché il materiale lavoro di compilazione delle liste generali ebbe inizio dopo che questo Ministero dispose l'inclusione degli elettori della classe del 1924.

Il numero complessivo delle sezioni elettorali, giusta prospetto inviato separatamente a suo tempo, non ha subito variazioni.

Per l'arredamento dei seggi elettorali è in corso la preparazione in tutti i comuni della provincia e mentre in alcuni è già ultimata in molti altri è a buon punto.

In generale tutti i comuni della riviera hanno adibito per cabine elettorali le cabine balneari opportunamente adattate.

I comuni interni hanno invece provveduto od a far costruire ex novo le cabine ovvero ad adattare con mezzi di fortuna usufruendo talvolta di legname di proprietà comunale. Anche per i tavoli pochi comuni hanno dovuto far ricorso ad ordinarne la costruzione.

Grazie maggioranza dei comuni ha già ricevuto la totalità degli estratti dei casellari per cui si può affermare che anche da questo aspetto la situazione è confortante. La commissione per le sezioni contro il fascismo ha iniziato con molto ritardo i suoi lavori essendosi reso necessario sostituire il Presidente per ragioni di salute. La predetta Commissione comunque sta lavorando a ritmo accelerato esaminando con precedenza assoluta i casi che si riferiscono a quei comuni per i quali sono state fissate le elezioni nel

Per le urne, commissionate ad una ditta locale da parte di questa Prefettura com'è stato comunicato a parte, la fornitura è stata da qualche settimana ultimata.

Come è stato accennato nella precedente relazione per le domeniche 24 e 31 Marzo p.v. sono state fissate le elezioni amministrative per 36 comuni.

Con Decreto in data 12 e.s. sono state fissate per domenica 7 Aprile p.v. le elezioni amministrative per i restanti 32 comuni.

Si spera così di poter ricostruire democraticamente le amministrazioni nella totalità dei comuni della provincia prima della Assemblea Costituente.

Nel corrente mese e particolarmente nella seconda quindicina i lavori elettorali in tutti i comuni della Provincia sono stati condotti con ritmo accelerato controllando ogni adempimento a mezzo del servizio ispettivo. Si sono così potute indire le elezioni amministrative per il mese di Marzo p.v. in 36 comuni su 68 che ne conta la Provincia. Nei predetti 36 comuni sono compresi quasi tutti i comuni più importanti per entità demografica, ivi compreso il capoluogo.

Si allega per maggiore intelligenza il decreto prefettizio in data 30 c.m. con il quale è stata disposta la convocazione dei comizi amministrativi. I comuni menzionati nel decreto stesso hanno tutti già riportato l'approvazione delle liste generali, mentre i seguenti hanno riportato anche l'approvazione delle liste sezionali: 1) Albisola Super. 2) Albissola Mare- 3) Bardineto- 4) Borghetto S. Spirito- 5) Borgia Verezzi 6) Cairo Montenotte- 7) Celle Ligure- 8) Cisone sul neva- 9) Garlenda- 10) Igisueglia- 11) Magliolo- 12) Noli- 13) Pietra Ligure- 14) Sassello- 15) Stella- 16) Tovo S. Giacomo- 17) Vado Ligure- 18) Varazze- 19) Vezzi Portio- 20) Villanova d'Albenga.

Le liste sezionali degli altri comuni di cui è menzione nel decreto, sono già state inviate alle rispettive Commissioni Mandamentali.

Tutti gli altri comuni della Provincia hanno già compilato le liste generali ed i seguenti non compresi nel decreto di cui è sopra menzione hanno avuto approvate le liste stesse: 1) Calice Ligure- 2) Calizzano- 3) Dego- 4) Loano- 5) Mioglia- 6) Orco Feglino- 7) Stella (ha approvato anche le liste sezionali) 8) Teirano.

Per quanto riguarda le liste sezionali si può assicurare che sono state anch'esse in tutti i comuni compilate ed in gran parte già pubblicate. Da quanto precede si rileva che la provincia di Savona avrebbe anche potuto approntare le elezioni amministrative in Marzo p.v.; nella totalità dei suoi comuni ove motivi di prudenza oltrechè ragioni di ordine pubblico non lo avessero consigliato.

Per ~~avviare~~ venire incontro ai desideri di molte frazioni ex Comuni, sono stati invitati i Sindaci a dividere le sezioni elettorali, in base alle elezioni del 1921. Nell'accluso prospetto sono state indicate le nuove sezioni finora istituite, con riserva di comunicare il numero definitivo delle nuove sezioni. Giuste le disposizioni emanate da codesto Ministero in luogo della relazione e del prospetto quindicinale, saranno comunicate le variazioni settimanali.

Sono stati ispezionati i seguenti Comuni:

Cosio d'Arroscia-Ceggio-Fornassio-Vesio-Rezzo-S. Lorenzo al Mare-Pietrabruna-Pieve di Teco-Mendatica Montegrosso- nei quali le liste sono state compilate, pubblicate ed inviate alla Commissione mandamentale Elettorale.

Mancano pochi estratti del Casellario Centrale per i quali si ~~dono~~ disposte le informazioni ai Carabinieri. Si è disposta anche la revisione dei deceduti e degli sfollati ~~ricorri~~ nelle proprie sedi.

Hanno compilato anche le liste di sezione. In tutti i Comuni della Provincia si è ormai provveduto alla compilazione delle liste permanenti maschili e femminili nonché alla numerazione e pubblicazione delle stesse. Per effettuare la preparazione elettorale si è data l'autorizzazione di pubblicare le liste maschili anche a quei comuni che tutt'ora devono ricevere in restituzione un numero di estratti dei casellari superiore all'1%.

Le Commissioni mandamentali però non sempre ritengono di poter approvare le liste stesse in mancanza dei prescritti certificati dei Casellari. Nei seguenti Comuni sono anche pubblicate, ed in corso di pubblicazione le liste sezionali: 1) Albenga- 2) Albisola Marina- 3) Albisola Superiore- 4) Andora- 5) Bergeggi- 6) Borghetto S. Spirito- 7) Casanova Lerrone- 8) Cengio- 9) Cervo- 10) Cervo sul Neve- 11) Erli- 12) Finale Ligure- 13) Ginovello- 14) Leigueglia- 15) Millesimo- 16) Moriglia- 17) Murialdo- 18) Pella- 19) Piana Crixia- 20) Pontinvrea- 21) Quiliano- 22) Roccaforte- 23) Sassello- 24) Stella- 25) Torrazzo- 26) Villanova d'Albenga- 27) Varazze- 28) Savona.

In tutti gli altri Comuni la compilazione delle liste sezionali è in corso o deve ritenersi quasi ultimata giacché i delegati di questa Prefettura attraverso le ispezioni eseguite nella scorsa quindicina autorizzano a formulare tale previsione. Complessivamente in questa Provincia, ove venissero autorizzate le Commissioni mandamentali ad approvare le liste sia pure in mancanza degli estratti dei Casellari entro il mese di febbraio p.v., tutti i Comuni sarebbero in condizioni di arretrare i seggi elettorali e conseguentemente far luogo alle elezioni amministrative nelle ultime domeniche di marzo. Tuttavia questa Prefettura ha già segnalato telegraficamente quei Comuni nei quali certamente potranno svolgersi le elezioni amministrative entro il mese suddetto. Sia perchè i lavori elettorali sono in istato più avanzato sia pure perchè è pervenuta la totalità degli estratti dei Casellari, ovvero quelli mancanti ammontano ad una percentuale inferiore all'1%. Dovrebbero in ogni caso essere tempestivamente inviati da parte di codesto Ministero gli stampati relativi ai certificati elettorali nonché i timbri.

i loro lavori e stanno esaminando attivamente le liste generali ad esse inviate per l'approvazione.

5°) Dato lo stadio della procedura elettorale i Comuni non hanno ancora provveduto tutti alla formale ripartizione in sezioni, per cui il numero delle stesse (200) non può ritenersi definitivo.

Col variare del numero delle sezioni varia di conseguenza il numero delle urne, cosicché si è dovuto ora provvedere all'ordinazione di altre 25 urne in aggiunta alle 354 di nuova costruzione, come segnalato con telegramma n. 15613 in data 13.12.1945; così da avere in tutto disponibili (comprese 31 urne di vecchio tipo) n. 410 urne, con una piccola scorta di 10 urne. Entro il corrente mese tutte le urne precedentemente segnalate verranno ultimate e così pure le gabbie residuali del Comune di La Spezia, come già accennato nella precedente relazione.

Questo Ufficio si riserva di segnalare l'importo della spesa unitaria e globale relativa alla costruzione delle altre 25 urne. Entro il corrente mese, in ottemperanza anche alle disposizioni impartite da codesto Ministero, si provvederà alla distribuzione ai Comuni delle urne elettorali.

6°) Il servizio ispettivo presso gli Uffici Comunali procede regolarmente, compatibilmente con le difficoltà dei mezzi di trasporto.

In ottemperanza al telegramma n. 1921/15640/L dell'11 corrente, si trasmette a parte, per espresso, il prospetto allegato.

Subject: Fortnightly Report on preparations of electoral lists.
Situation up till 15 December 1945.

In agreement with ministerial dispositions concerning the preparations for electoral lists, herewith forwarded fortnightly report up till 15 December 1945.

This office supervises the work, giving the necessary instructions to the Communes in answer to their communications in regard, accelerating the work and keeping in contact with electoral Commissions in order to stimulate and control the data given by the Communes.

There remains obstacle produced by the lateness of "Casellari giudiziari" in giving back the extracts and penal certificates. This obstacle influences the activity of Commissions who, while they are nearly all in possession of the total of female lists, only a few have been approved because extracts and certificates are missing.

All Communes have provided for the sending of extracts of duplicates to the "Casellari" which are late in sending them back; those who are the worst are the Central "Casellari", the "Casellari" of Cuneo and the "Casellari" of Belluno. Said Communes have been requested by this Prefettura and by the Presidents of the Commissions to speed matters up.

In accordance with ministerial instructions the Communes have been invited to send to the commissions also such male lists, in which the missing certificates amount to not more than 1 per cent.

The work of the Commissions appears always very good and efficient and it has never come to the Presidents notice that the communal offices were late in sending documents or giving informations.

The providing of booths for sections by the Sindaci is being attentively followed and they are told to use any means in order to reduce expenses.

The sectional lists are ready everywhere and as soon as the Commissions approve the general lists the last filling in will be finished.

In the Head Communes the female lists have been finished by the Commissions and the male lists are being copied, which will be sent to the Commissions when the minimum of penal certificates missing will be reached. Also sectional lists are being completed.

Subject : 10th Fortnightly report on electoral proceedings - Period 1-15 December.
To : The Ministry of the Interior.

Further to the preceding one and in compliance with the instructions issued, here is the 10th fortnightly report on electoral operations in this Province for period 1-15 December 1945.

1. The restitution of extracts from the various Casellari to the Communes continues; in accordance with circular 20 November of the Ministry of Grace and Justice, Office of the Central Casellario, the Communes have been requested to signal to the said Office the extracts of electoral elenchi still pending and which could not be returned because they were not complete with the necessary indications of the Comune sender. Moreover, in compliance with telegram 43286/15600 H of the 3 inst. we are preparing a recapitulating table in which the dates of the different shipments of extracts from the Communes are also shown.
2. The female List has been completed in all the Communes of the Province. The compilation of the male list proceeds very actively and in many Communes as it appears from the attached chart it has been completed. Also the compilation of the sectional list has been started in many Communes, as the chart shows and proceeds rapidly.
3. By Prefectural decree n. 15295/div.2/1-S.E. dated 19 inst. the constitution of the electoral Mandamental Commission of Sarzana has been completed with the nomination of all the members. It is believed that it will soon start functioning.
4. As regards the Electoral Commission and Sub-Commissions of the mandamento of La Spezia, we are awaiting as already pointed out in the preceding report the nominations to replace those already appointed and which proved unsatisfactory, (art. 11 of D.M. 24 October 1944).
4. As already communicated before, the firms have already consigned urns and booths to the Comune of La Spezia; as regards the other Communes of the Province, the consignment had to be delayed on account of restrictions in the use of Electricity what has slowed down the work.
10. The inspective service in the Communes proceeds regularly.

R O M E.

The compilation of the electoral lists both for men and women has been finished in almost all the 63 Communes of the Province. A few Communes still have to arrange for the drawing up of a second copy of said general list and will do so at once. With reference to the instructions received from the Ministry we have given orders to the Communes to begin at once also the compilation of the lists referring to sections, omitting to number them, however, until the extracts from the Casellari arrive. With reference to these extracts we confirm that they are still being handed in very slowly particularly with regard to the extracts of the central Casellario. However, the Communes have been asked to hurry on the Casellari which delay, repeating each single request.

Several Communes, due to a mistaken interpretation of the dispositions of law and of the circulars, have also numbered the general lists for men even pending the return of the extracts from the Casellari. We did not think it advisable, considering the work this would entail, to arrange for the reproduction of said lists and this Prefettura is of the opinion to suggest to these Communes to make all necessary changes when the extracts from the Casellari arrive by actually erasing the name and specifying the reason for this on the margin in the proper column. We shall appreciate hearing the opinion of the Ministry on the subject.

The general female lists duly numbered are already being published in the following Communes according to the information received from these Communes by the Prefettura: Allassio-Quiliano-Millesimo-Albissola Superiore-~~XXXXXXXXXX~~-~~XXXXXXXXXX~~-Urbe Nioglia-Bardineto-~~XXXXXXXXXX~~. Andora-Laigueglia. We have reason to believe, however, that in many other Communes the publication of said list is also under way.

In the first fortnight of this month the following 16 Communes have been inspected: Carcare-Alcare-Cairo Montenotte-Albenga-Allassio-Ceriale-Villanova d'Albenga-Garlenda-Casanova-Lerrone-Stella-Albissola Superiore-Giusvalla-Pentinvrea-Nioglia-Bardineto-Calizzano. All in all we have ascertained that the work is proceeding regularly except for the Comune of Stella where we found that the compilation of the general lists had not

been made on the proper forms. Said Commune will be periodically inspected in order to make sure that the orders given are carried out at once.

Subject: Fortnightly electoral lists report - Situation till
30 November 1945

In accordance to ministerial instructions enclosed is a report concerning the situation of the electoral lists up till Nov. 30th, 1945.

The female lists have been practically all sent to the electoral Commission: The Communes which had not yet published the lists awaiting the return of the judicial records, have been requested to do so without further delay, while at the same time, the Communes that have not yet received back the extracts also concerning the male lists, have been requested to send at once a duplicate of said extracts and particularly to the Central judicial records.

So as not to delay further the forwarding of the male lists to the Commissions we request to know if they can be sent without the extracts, specially if consisting of only a few names.

The female list of Genoa is at the Commission, while in accordance to concession allowed by this Ministry it has been published for a further 10 days, so as to be consulted by the public and for the forwarding to the Commission for eventual corrections and emissions.

It has been ascertained that in some instances complaints were received for emission, which were not correct, as same were consisting of wrong indications given by those who had consulted the lists, in not having found their name by which they were usually called and the name which results in the registered lists of the population.

The compilation of the male list is now being proceeded with besides the first copies of the sectional lists.

Work is being proceeded with by the Commissions for the cancellation of the names of women electors in accordance with the judicial records which were delayed and with complaints made. A few lists have been definitely approved of.

For the ballot-boxes, confirmation would be appreciated for the most convenient estimate presented by the manufacturing firm (Lire 935 per ballot-box).

PREFETTURA DI GENOVA

To : M. G. G e n o a
To : Ministry of Interior R o m e and

Subject: Fortnightly report on preparation of Electoral Lists.

In accordance with the instructions now in force, we herewith attach the prospect (for each Comune of the Province) concerning the data for the formation of Electoral Lists.

As it appears from the comparison of the present prospect with that of the previous fortnight, in many communes the women-list was settled and sent to the Electoral Commission.

Said list was completed also in the chief town, and it will soon be published.

As for informations had, all offices are waiting for the return of the extracts of the Judicial-Filing from the various Provincial Offices, in order to complete the Men-Lists. However, the names are generally few and, as per disposition of the Prefector, duplicates of requests are sent to Casellari, which did not answer or declared (after having been requested by this Office) to have no old extracts.

Most all Communes claim the return of said extracts from the Central Casellario; we therefore ask this Ministry to urge the settlement of this matter.

This Office develops active supervision for the preparation of seats-material, which can be prepared wholly in order to avoid transport expenses, except the case specialised firms would be commissioned to prepare what appears to be indispensable.

Only a small number of urns is now at disposal, therefore 1500 more, of the model proposed by the Ministry, are needed.

No offer was made by local firms, in spite of numerous invitations. The urns will therefore be ordered from firm Fumeo Amedeo of Milan, which sent the most convenient offer (935 Lire each), except contrary dispositions from the Ministry.

Borough Commissions are regularly developing their duties in examining women-lists, and the first were approved in these days.

THE PREFECT

In accordance with the instructions now in force, we herewith attach the prospect (for each Commune of the Province) concerning the date for the formation of Electoral Lists.

As it appears from the comparison of the present prospect with that of the previous fortnight, in many communes the women-list was settled and sent to the Electoral Commission.

As for informations had, all offices are waiting for the return of the extracts of the Judicial-filing from the various Provincial Offices, in order to complete the men-lists. However, the names are generally few and, as per disposition of the Prefect, duplicates of requests are sent to Cassellari, which did not answer or declared (after having been requested by this Office) to have no old extracts.

Almost all Communes claim the return of said extracts from the Central Cassellario; we therefore ask this Ministry to urge the settlement of this matter.

This Office develops active supervision for the preparation of seats-material, which can be prepared wholly in order to avoid transport expenses, except the case specialized firms would be commissioned to prepare what appears to be indispensable.

Only a small number of urns is now at disposal, therefore, 1500 more, of the model proposed by the Ministry, are needed.

No offer was made by local firms, in spite of numerous invitations. The urns will therefore be ordered from firm Rmeo Medeo of Milan, which sent the most convenient offer (935 Lire each), except contrary dispositions from the Ministry.

Borough Commissions are regularly developing their duties in examining women-lists, and the first were approved in these days.

The situation of the Province in general can be reassumed as follows:

- 1.- The Communes have delayed in the compilation of the General Male List owing to the lack of restitution on the part of the Casellari Giudiziali of the Electoral Extracts.
- 2.- Said Casellari have been solicited more than once by the Communes, A.M.G. and by this Prefettura always with no results. It is evident that for contingent reasons they are not able to return quickly said extracts.
- 3.- The District Electoral Commissions have been requested to begin quickly the work of approval of the lists of these Communes which have already sent them.
- 4.- The work for arranging the Electoral Seats is at a good stand. An unitarian sum of 1800 lire was decreed for each urn, and a total sum of 270.000 lire for the complete needs of the Communes for said urns.

Imperia, Pieve di Teco, Taggia, San Remo, Bordighera, Ventimiglia.

CC. had been destroyed by war events.

1) The prospects of the effects are returned to the Municipalities of the Province both from the Central filing cabinet and the other judicial cabinets

This office is still waiting to know the decision of that Ministry in regard to the letter of the Prefect N° 13.233 of the 3rd inst. and the Report N° 12.833 of the 26.10.1945.

Some Municipalities of this Province to which the Central Cabinet has sent back the effects regarding women without any note, and which have been forwarded on as per new provisions (circular of the Ministry 1250/Q - 6.9.1945) to the respective Command of the RR. CC. have received back the same prospects with the declaration that it was not possible to insert penal notes in the effects because each document in the respective Station of RR. CC. had been destroyed by war events.

2) In all Municipalities, as shown in the attached prospect, the compilation of the lists concerning women has been completed. In nearly all Municipalities the compilation of the lists regarding men is satisfactory and in some of these lists are already completed.

1) The prospects of the effects are returned to the Municipalities of the Province both from the Central filing cabinet and the other judicial cabinets

This office is still waiting to know the decision of that Ministry in regard to the letter of the Prefect N° 13.233 of the 3rd inst. and the Report N° 12.833 of the 26.10.1945.

Some Municipalities of this Province to which the Central Cabinet has sent back the effects regarding women without any note, and which have been forwarded on as per new provisions (circular of the Ministry 1260/Q - 6.9.1945) to the respective Command of the R3.CC., have received back the same prospects with the declaration that it was not possible to insert penal notes in the effects because each document in the respective Station of R3.CC. had been destroyed by war events.

Each ballot-box costs Lire 850. and the local contractors are the following: MOZZACHIODI Amedeo and TOMEI Alfonso. The total amount of the 354 ballot-boxes is Lire 300.900. The Municipality of La Spezia has also adjudged to the contractor MOZZACHIODI Amedeo the construction of only 164 electoral cabins at the price of Lire 499 each (as this concern was not in a condition to prepare a greater quantity of cabins) and to the concern TOMEI Alfonso 100 cabins at Lire 5866 each. The total amount is therefore L. 905.960.

6) The Provincial Municipalities are periodically inspected so that it is possible to follow, from time to time, the satisfactory fulfillment of their service.

R O M E.

We are still handicapped by the fact that a part of the Casellari Giudiziari have not arrived in all the electoral extracts.

With reference to telegram. 41410-15670/V we inform you that the following Communes have finished the compilation of the women's electoral lists:

Bardinetto (1 copy) Cairo Montenotte (2 copies), Garlenda (1 copy), Mallare (2 copies), Bussaldo (1 copy) Rocca Verinale (2 copies), Urbe (1 copy), Alghero Marina (1 copy), Pietra Ligure (2 copies).

The following Communes have finished the compilation of the men's electoral lists:

Sassella (1 copy), Attare (1 copy).

The following Communes have finished the compilation of both the men and women's electoral lists:

Piana Crixia, Dellestrino, Cellizzano, Cervo, Cosseria, Dego, Erli, Finale Ligure, Loano, Ortovero, Flodio, Quiliano, Rialto.

The following Communes have arranged for the publication of the electoral lists:

Albenga (women's list), Barchetta S. Spirito (men and women's list), Casanova Lerrone (women's list), Castelvecchio S. Jurebena (men and women's list), Tentico (women's list), Zuccarello (men and women's list).

2821

Of course since all the electoral extracts have not been handed in by the various Casellari, the compilation by the a/m Communes of the men's lists has been made with the limitations mentioned in the Ministerial circular n. 15600 L. dated 10.7.1945. The same is true of the women's lists, with reference to art. 3 of D.L.N. 18.4.1945

We are still handicapped by the fact that a part of the Cassellari Quaderni have not handed in all the electoral extracts.

With reference to telegram n. 41410-115675/V we inform you that the following Communes have finished the compilation of the women's electoral lists:

Bardinetto (1 copy), Cairo Montenotte (2 copies), Garlenda (1 copy), Gallarate (2 copies), Murialdo (1 copy), Roccavignale (2 copies), Urbe (1 copy), Albisola Marina (1 copy), Pietra Ligure (2 copies).

The following Communes have finished the compilation of the men's electoral lists:

Sassello (1 copy), Altare (1 copy).

The following Communes have finished the compilation of both the men and women's electoral lists:

Piana Crixia, Palestro, Callizzano, Genua, Cassina, Dego, Eril, Finale Ligure, Lomo, Ortovero, Poggio, Galliano, Riato.

The following Communes have arranged for the publication of the electoral lists:

Albenga (women's list), Borghetto S. Spirito (men and women's list), Casanova Lerrone (women's list), Castelvecchio R. Erebene (men and women's list), Tortona (women's list), Zuccone (men and women's list).

Of course since all the electoral extracts have not been handed in by the various Cassellari, the compilation by the a/m Communes of the men's lists has been made with the limitations mentioned in the Ministerial circular n. 15600 L. dated 10.7.1945. The same is true of the women's lists, with reference to art. 3 of D.L. 12.4.1945.

The a/m information has been taken from the fortnightly reports which have been sent us by the various Communes.

In fact, for various reasons, only recently have we been able to start a close inspection in the Communes, the results of which will be kept in mind in drawing up future fortnightly reports.

We also acknowledge receipt of the Ministerial circular n. 39703/1580 A dated 10.11.1945 and n. 33827/1370-V dated 6.11.1945.

However, we would point out that Ministerial Circular 19974/15600-V dated 20/7/1945 mentioned in Circular 38827/

1370/V does not seem to have reached this Office.

The Ministry has been informed of this by telegram n. 19332 of the 28/11/1945.

In this connection we advise you that, as far as this Province is concerned, at least, the extracts are not being returned quickly by the Casellari. It has been ascertained, in fact, that Communes which have about 2500 electors of both sexes are still waiting to receive about 10% of the extracts from the Casellari.

This omission handicaps the publication both of the general lists and of the selected lists and thus, in special instructions do not reach us from the Ministry, may even compromise the date of the popular consultation.

Yours faithfully,

THE PREFECT.

Continua a permanere l' ostacolo rappresentato dalla mancata restituzione da parte dei Casellari Giudiziari delle totalità degli estratti elettorali.

In relazione al telegramma n° 41410-15675/V si comunica che i seguenti Comuni hanno ultimato la compilazione delle liste elettorali femminili: Bergineto (1 copia), Cairo Montenotte (2 copie), Carlenda (1 copia), Mallare (2 copie), Murialdo (1 copia), Roccevignale (2 copie), Urbe (1 copia), Albissola Marina (1 copia), Pietra Ligure (2 copie).

Hanno ultimato la compilazione delle liste elettorali maschili i seguenti Comuni:

Sassello (1 copia), Altare (1 copia).

Hanno condotto a termine la compilazione delle liste maschili e femminili i seguenti Comuni:

Piana Crixia, Balestrino, Calizzano, Carcare, Cosseria, Dego, Erli, Finale Ligure, Loano, Ortovero, Plodio, Quiliano, Rialto.

Hanno provveduto alla pubblicazione delle liste elettorali i seguenti Comuni:

Albenga (lista femminile), Borghetto S. Spirito (lista maschile e femminile), Casanova Lerrone (lista femminile), Castelvecchio R. Barbena (lista maschile e femminile), Testico (lista femminile), Zuccarello (lista maschile e femminile).

Naturalmente non essendo stati restituiti tutti gli estratti elettorali dai vari Casellari, la compilazione da parte dei suddetti Comuni delle liste maschili è stata fatta con le limitazioni di cui alla circolare Ministeriale n° 15600 L. del 18.7.1945 Analogamente per quanto riguarda le liste femminili, in relazione al disposto dell' art. 3 del D.L.L. 12.4.1945.

Le notizie di cui sopra sono state desunte dalle relazioni quindicinali pervenute dai vari Comuni.

Infatti solo recentemente, per regioni varie, è stato possibile iniziare un rigoroso Servizio Ispettivo nei ~~vari~~ Comuni, dei cui risultati sarà tenuto conto nella redazione dei prossimi rapporti quindicinali.

Si assicura altresì ricezione della circolare Ministeriale n° 39703/138 Q. del 10.11.1945 e n° 38827/1370-V del 6.11.1945.

Si fa tuttavia presente che la Ministeriale 19974/15600-V del 20.7.1945 citata nella circolare 38827/1370-V non risulta pervenuta a questo Ufficio.

Delle predette circostanze è stata data comunicazione al codesto Ministero con telegramma n° 19392 del 28.11.1945.

In merito si rileva che, almeno per quanto riguarda questa Provincia, la restituzione degli estratti da parte dei Casellari non procede con ritmo accelerato. E' stato infatti accertato che Comuni con circa 2500 elettori di ambo i sessi attendono di ricevere ancora il 10% circa degli estratti dai Casellari.

Tale omissione impedisce la pubblicazione sia delle liste generali come di quelle sezionali per cui, ove non intervengano particolari istruzioni da parte di codesto Ministero, può anche essere compromessa la data della consultazione popolare. =

Con osservanza.

PREFETTURA DI GENOVA

To : Allied Military Government, Genoa

Enclosed please find letter in duplicate concerning work being carried on for compilation of the electoral lists in this province up till the 15th October.

Please have a copy of same sent to the Ministry for Interior,

The Prefect,

During the first half of October the situation in the work of preparing the electoral lists has not undergone any special change, while notwithstanding the delay in examining the extracts of the Judicial Records they have been able to complete the female lists in accordance to dispositions, the male lists have been suspended and it has not been possible to proceed with their definite approval and forwarding, before being published, to the district commissions if all extracts of the lists have not been returned.

From inquiries made at the local Judicial Records it results that work there is about completed also as regards the Comune of Genoa, with the help of personnel placed at disposal by the Comune.

The female list for Genoa will be published shortly and at the same time, all those who are to be excluded in the male list, as results from judicial records, will be eliminated.

The distribution of cards for the formation of section lists will also be carried out in accordance to territory divided into sections already decided upon.

In the other Communes the sectional lists are, in most part, ready and the return of the last extracts of some judicial records is now awaited for publishing the lists, checking and numeration of the sectional lists, so as to be able to publish them as soon as the district commission has given its definite approval, for both the male and female lists.

The judicial records, where extracts of lists are still pending, are notified by the Communes to the Prefettura who urges their return through the Prefettura of the provinces concerned.

Once the complete setting up of the machinery in the chief centre has been completed it is certain that, as soon as the return of the extracts are completed, all further duties will be carried out with the utmost speed.

The Prefect,

Seventh fortnightly report on the electoral situation of 1 Nov.
Allied Military Government, Genoa

Letter is enclosed in duplicate concerning the situation of work being carried out for the compilation of the electoral lists in this Province, up to 1st November last.

Please forward a copy of said letter to the Ministry for Interior.

The Prefect,

In accordance to request as per your above mentioned letter, enclosed is a prospectus in which is specified, for each Comune of this Province, the particulars concerning each one as required in above letter. To complete the information as given in the prospectus it is considered advisable to point out, that having started the compilation of the lists in this Province after having authorized the inclusion in the lists of the electors born in 1924, it has not been found necessary in any comune to compile supplementary lists for said electors, which have been included in the general lists.

From information received and inquiries made it results that the local Judicial Records has returned all the lists both of this comune and communes of other provinces: there are only 40 lists which have not yet been returned because no indication has been given by the comune which compiled them. Therefore, in reply to the requests received this Prefettura asks the specification of the names contained in the list, so as the record can then identify them.

Concerning this Comune the compilation of the female lists are being speedily proceeded with and which will soon be ready and published, and then sent to the Mandement Commission, and then proceeding at once with the compilation of the male lists.

As regards the voting sections investigations are now being made in each comune as to the material already available locally and the number of tables and ballot-boxes which have to be purchased. Offers already submitted by firms to this Prefettura are being considered, while for this Comune tenders are being requested for the supply of said material, in accordance to a convenient type as proposed by the comune workshops. Offers are also ben requested for the supply of voting urns, so as to accept the most convenient.

Nothing abnormal has taken place. The difficulty in proceeding with the work was caused by the delay in the return of the lists by the Judicial Records: the Communes, after having been requested by this Office notified those which were delayed and were requested by telegraph to hurry their return through their respective Prefettura, from whom assurance has been received of them having been sent or of the inexistence of the requested list. Further information has been requested from the Communes to

Further information has been requested from the Communes to hasten the forwarding of the duplicates requested.

The electoral Commissions have started their work in examining the female lists and the few male lists so far finished. Reports are being received of the meetings held from which it can be ascertained how the Commissions are attending to their duty with care and scrupulousness.

Subject: Fortnightly report on the situation re preparatory work for elections.

To the Ministry of Interior
Direz.ne Gen.le Amm.ne Civile

ROME.

This Prefecture has nothing new to report regarding the subjects contemplated in the last fortnightly report.

Our greatest difficulty is to be found in the fact that the whole of the electoral lists are not being returned by the Casellari Giudiziari, i.e. they are being returned gradually but very slowly.

Furthermore, the 3,000 forms (men) and the 3,000 forms (women) sent by the Ministry to this Prefecture through Allied Commission, have not arrived. Inquiries have been made of Provincial and Regional A.M.G., but the result has been negative. This fact has been made known to the Ministry with tel gram n. 18237 of the 13.II.1945.

As a consequence of the non-arrival of said forms, several Communes have had to suspend the drawing-up of the lists and also temporarily dismiss the extra personnel employed.

We have arranged for the constitution of the Electoral Commissions, five in number, and of two sub-commissions.

It is obvious, however, that these bodies will not be in a position to operate in accordance with the dispositions of law until the electoral lists have been drawn up, deposited and published, and these operations are handicapped by the two facts mentioned above, i.e. the delayed return from the Casellari of the whole of the lists and the lack of forms (men and women).

Faithfully,

THE PREFECT.

Subject: Fortnightly report re preparation of Electoral Lists.

To the Ministry of Interior
Direzione Generale Amministrazione Civile
Electoral Services
R O M E.

In view of the fact that not all the Casellari have arranged for the restitution of all the electoral extracts the Communes are proceeding just the same with the drawing up of the men's lists keeping in mind the well-known limitations regarding the numbering, the deposit and the publication of same. Some Communes have already finished the drawing-up of said lists.

The work referring to the preparation of the electoral lists, which have been finished by a greater number of Communes in accordance with the dispositions of art. 3 of D.L.L. 12.4.1945, is further advanced.

Some of the Communes have been obliged to stop the work of drawing up the electoral lists on account of a lack of forms which have been requested by telegraph.

Although this Ministry has assured us that the forms in question have been sent through Allied Commission, they have not yet arrived; we have taken the matter up with the Allied Provincial Commissioner with negative results. We are now making inquiries of the Allied Command in Genoa.

R O M A

In considerazione che non tutti i Casellari hanno ancora provveduto alla restituzione della totalità degli estratti elettorali i Comuni provvedono ugualmente alla compilazione delle liste maschili con le note limitazioni relative alla numerazione, il deposito e la pubblicazione. Alcuni Comuni hanno già posto termine alla loro compilazione.

Più avanzato è invece lo stato dei lavori relativi alla formazione delle liste elettorali che sono state portate a termine da un maggior numero di Comuni e cioè in relazione al disposto dell' art. 3 del D.L.L. 12.4.1945.

Alcuni Comuni hanno dovuto interrompere i loro lavori di compilazione delle liste elettorali a causa di mancanza di intercalari che sono stati telegraficamente richiesti.

Benchè codesto Ministero abbia dato assicurazione della spedizione degli stampati stessi tramite la Commissione Alleata, non sono finora pervenuti: ricerche esperite presso il Commissario Alleato Provinciale hanno dato esito negativo. Sono in corso analoghe ricerche presso il Comando Alleato di Genova.=

Div. II N. 8084.

Imperia, the 17/10/1945.

Subject Fortnightly report - Period 1-15 October.

Reference to Ministry's circular N. 5115 of the 21 May 1945.

Here is the report on the work carried out during the period 1-15 October 1945.

1. ADJOURNMENT OF THE ANAGRAFE - Compilation of Elenco or Schedario.
Applications for registration or cancellatio. Notifications to Sindaci.
Delivery of Extracts to Casellari.

The Communes of Airole - Molini di Triora - and Montalto Ligure which, because of great damage suffered from the war, were late with their work are now up-to-date with it. All the Communes of the Province have now finished the a/m operations.

2. EXTRACTS - CASELLARI.

On account of the delay with which the Casellari are returning the extracts many Communes cannot complete the male list and therefore cannot approved or publish it.

The local Allied Command has been informed of this delay.

The Communes have been asked to give the list of the retarding Casellari so that this Prefecture will be able to make solicitations.

3. MALE AND FEMALE LISTS.

Having received back almost all their extracts the following Communes have finished or are finishing their male lists:

Apricale	Carpasio	Cesio	
Bordighera	Castelvittorio	Cipressa	
Borgomaro	Geriana	Cosio	
Camponesso	Cesio	D'Aroschia.

Subject : VI Report - Electoral Service period 1 to 15 October 1945

Pursuant to the provision in force we are submitting the sixth fortnightly report relative to the trend of the electoral service in the province during the period from 1 to 15 October last:

- 1) The Commune of the Province continue to receive back the "elenchi" of the extracts both from the Casellario Centrale at the Ministry of Grace and Justice and from the various Casellari Giudiziali.

The Casellario Centrale, in accordance with Ministerial Circular n. 12600 of 6 September last, has returned to the Communes the extracts relative to the women forwarded some time ago, without any notation and the Communes have forwarded already said elenchi to the Custura and to the respective Headquarters of the P.R.C.C. However some of the Communes had the elenchi returned to them with the notation that no remark regarding penal records could be made on the elenchi since every document had been destroyed owing to war events.

Consequently to the above we are kindly requesting the Ministry to please let us have their instructions on this matter.

- 2) The compilation of the lists regarding women is virtually completed in almost all the Communes; some of them have already started the compilation of the lists for the men, of course adopting a temporary numeration or without numeration.
- 3) The Provincial Commission for sanction against Fascism has been set up. This is the Commission that has to decide on the suspension of the electoral franchise in accordance with art. 8 of D.L. 27.7.1944 n. 159, and shortly it will begin its work on the basis of information given by the Sindaco who already have been advised by this Prefecture accordingly.
- 4) The manufacturing on the spot of the urns for all the Communes of the Province and of the booths for the Commune of La Spezia is proceeding normally and already some are ready for consignment.
- 5) Upon completion of the first tour of inspections of the Communes on the spot, it appears that the electoral service in the Communes is proceeding satisfactorily and with industry.

Genoa Prefettura

Genoa, 5 October 1945

SUBJECT: Fifth fortnightly report.

In the fortnight ending the 30 Sept. the male and female lists should have been completed and sent, after having been published and furnished with eventual objections, to the Mandamental Commissions.

It has not been possible to accomplish this work in time on account of the delay with which the casellari are returning the extracts. Only 16 Commune have so far notified the publication of the list; the other communes have been advised to finish the lists: these will be revised and numbered after ascertainment of convictions, if any. We should like to know if the list thus completed may be sent to the commissions, to which also the extracts would be sent as they come in. This will not however help in expediting the work because the commissions will have to wait for the extracts before giving a definite approval.

In the commune of Genoa work proceeds very actively: extracts have been compiled for almost all electors (males and females) which from what appears from the "schedario" especially prepared, are, altogether, 524,483. At the same time nominatives of electors are being grouped for the formation of sectional lists.

The number of clerks working for the compilation of the lists has gone up to 346; 16 of these are working at the casellario.

In spite of the great activity and goodwill with which the work is being carried out, the lists cannot possibly be completed and published without a delay of over a month on the date fixed.

In the other communes of the Province the repartition in sections has been fixed and the necessary "deliberazione" has been published; only one complaint to the Mandamental Commissions asking to increase the number of sections; in the commune of Sant'Olcese.

The distribution of electoral material (booths, urns) is now being planned. The communal work-shop is making a model of both. The order for the supply will be given after the model will be ~~revised and suitable~~ approved.

THE PREFECTURE OF LA SPEZIA.

Div. S.E. N. 11648.

La Spezia, the 26th September.

SUBJECT : Fourth fortnightly report on electoral Service- 1- 15th September.

TO : The Ministry of the Interior
Direction General of Civ. Adm.
Electoral Service.

Here is the fourth fortnightly report on electoral operations in this Province:

1. The different Casellari are gradually returning all the extracts to the Communes while the Casellario Centrale of the Ministry of Grace and Justice has not yet returned one single extract to the Communes. a)
2. As a consequence electoral operations are suffering a delay. However all the Communes have started the compilation of the female general list.
3. The Municipal offices are now attending to the alterations (registrations and cancellations) contemplated in art. 25 of Ministerial Decree 24 October 1944. For the Commune of La Spezia these alterations mean an enormous work because of the great number of people evacuated to other Communes and because of the return of part of these evacuees to their old residence.
4. The competent authorities have appointed the President of the Provincial Commission for Sanctions against Fascism, which has to decide the suspension of voting rights (art. 6 of D.L.L. 27th July 1944, n. 159. Also the nominatives of the other members have been communicated to the Judiciary authorities; the constitution of the Commission is believed to be imminent.
5. Almost all the Communes have communicated the figures of the electors of the Province (males and females) in order that the number of sections necessary could be calculated. The figures of the attached report are liable to some little alteration.
6. Arrangements are being made for the construction of urns, if possible in loco, and for the supply of electoral booths from the Chief-town.
7. Inspections in the Communes have been made more frequent in spite of the lack of communications; from the reports on said inspections it appears that in the Communes operations proceed satisfactorily. b)

2. LA SPEZIA: With regard to the application of LA SPEZIA Province for an extension of 20 days, the Regional Commissioner of LIGURIA has been asked to deny this application for the following reasons:

- Extensions are only applicable to the initial stage, i.e. the preparation of the "elenco"; extensions must not be granted in respect of any subsequent stage;
- Extensions of time for preparing the "elenco" must only be granted for reasons arising from the war. In practice this means only when communal records have suffered serious war damage.

LA SPEZIA PRECTURA

File: No.10663

La Spezia 10 September 1945.

SUBJECT: Third fortnightly report on electoral proceedings - Period 15/31 August 1945.

Here is the third fortnightly report on electoral proceedings in this Province.

1) All Communes have finished the compilation of extracts of male and female lists and have sent them to the Casellari Giudiziali. Some of these have already returned ^{all the} extracts.

2) However not all the Casellari (and among these the Rome one, which is replacing the local one of La Spezia) will be able to complete this work within the limits fixed, I thought advisable, after consulting the Allied Command, to request 20 day suspension of time-limits for this Province. X

Of all the above I have informed the Ministry with letter N.9553 of the 4th instant.

3) In the municipal offices operations of registration and cancellation (art.25 of Ministerial decree 24/10/44) on being carried out rapidly in consideration to the great number of refugees and evacuees.

4) The Provincial Commission for sanctions against fascism, which has to decide of the suspension of voting rights, (art.8 of D.L.L. 27/7/44, n.159.) is now being constituted.

5) The following are the first figures received from the communes:

Male electors	79.952
Female electors	88.410
Total of electors	<u>168.362</u>

Which means there will be, on the basis of the above figures, 188 sections.

Said figures are still liable to small variations.

6) This office is now providing for the supply of ballot-boxes, according to Ministerial standard; we will take into account, where possible, the urns required by the province of Apuania, which, for the supply of ballot-boxes, has applied to this prefecture.

7) Inspections have been started and from what appears from the first ²⁷ reports the work proceeds satisfactorily.

Subject : Fourth periodical report on trend of operations in the compilation of electoral lists.

1 At the end of the fourth fortnightly period there should have been completed the compilation of the electoral lists both for men and women in two copies. The delay in the restitution of the "elenchi" submitted by the Communes and relative penal certificates on the part of the Casellari giudiziari prevented the timely completion of said work by all the Communes.

2 On the strength of the provisions passed by this Prefecture, in accordance with what has been pointed out in our previous report, most of the Communes have begun the compilation of the lists and to their publication within the prescribed terms, even though not all the "elenchi" have been returned. For those Communes who are still in arrears, their work is being closely followed up and the delay in the publication of the lists can be but of brief duration.

3 The particular situation of the Commune in the capital town, which has already been pointed out, has been recently recognized by an Inspector of the Ministry, who had occasion to realize what difficulties have been met and partly overcome. The premises and the equipments have been arranged and the number of extra employees engaged totals now 296. The "elenchi" now being compiled and as soon as ready the checking up with the Casellario will take place with the collaboration of municipal employees, in accordance with the agreement entered into with the Procura del Regio. Of course, the number of the employees that can be used for such checking is limited by the nature of the work itself which does not allow simultaneous searches.

Electoral

4 The appointment of the Commissions and Sub Commissions has already been provided for by this Prefecture and the respective decrees have been transmitted to the President of the Tribunale. The President of the Tribunale himself has given assurances that the utmost will be done to expedite the work of the Commissions. On the other hand attention is drawn on the difficulty that will be encountered in order to examine and approve the lists within the established term of ten days.

5 Prior an appropriate checking up of the communications by the Uffici Comunali, the number of the Electoral sections necessary in each Comune has been fixed, and on the basis of such number printed forms for the compilation of the sectional lists have been distributed.

6 Inquiries on the situation as to the electoral material ^{are continuing} ~~is~~ continuing and instructions are given in each case for the repair and construction on the spot of all that is necessary keeping expenses within the strict bounds.

THE PREFECTURE OF LA SPEZIA

Div. S. EL. N. 8343/8779

August 24/1945

Subject : second fortnightly report on electoral service - 1st to 15th August.

Here is the second fortnightly report on electoral operations in this Province.

- 1)- All the Communes have finished the compilation of the elenchi.
- 2)- Almost all the Communes have sent their extracts to the competent Casellari giudiziari; those which have not yet done so have assured that they would be sending them very soon.
The Communes are now waiting to receive the extracts back from the Casellari. In this connection we would like to point out that most of the population of La Spezia come from many different provinces of the Kingdom and that therefore many different Procure had to be contacted; also in the case of natives the extracts had to be sent to the Central Casellario; the local one being destroyed. It is therefore likely that the extracts will not be returned by the Casellari within the time limits fixed.
- 3)- As it appears from Prefectural decree n. 8347/9361 of the 14th instant, the electoral Commissioni mandamentali have been set up (one at La Spezia with two Sub-Commission, and one at Sarzana) and the appointment of the respective Commissioners is in course. The President of the Tribunale has already appointed the five Presidents.
- 4)- The setting up of the Provincial Commission for sanctions against fascism, which according to art. 8 of DLL 27/7/1944 n. 159 has to decide upon the suspension of electoral rights, is also in course.
- 5)- Figures about the number of electors of the different Communes are being collected in order to arrange for the electoral Sections and to provide the necessary forms. Said figures will also be immediately communicated to the Ministry.
- 6)- The inventory of electoral material in this Prefecture and in the Communes has also been made and a report was sent to the Ministry.
- 7)- The inspection service to the Municipal offices has not yet reached its full efficiency on account of lack of communications. The service is now being performed by means of a car which is put at the disposal of the Viceprefect Inspector for two days a week at least.
On the whole the work in the Communes proceeds satisfactorily and personnel are becoming more efficient as they acquire experience in their work.

7) ELECTORAL MANDAMENTAL COMMISSIONS

Decreases for the setting up of the Electoral Commissions were issued for the Mandamenti giudiziari of Pieve di Tecco, S. Remo, Bordighera and Ventimiglia, and for the requirements of said Commission there were forwarded an adequate number of printed forms (electoral lists for male and female electors) to the Communes where the Commissions reside.

8) RULES AND FURNISHING OF THE ELECTORAL OFFICES

Ministerial circular N. 5183 of 16.6.1944 with respective drawing for the construction of wooden ballot-boxes and the instructions to be attached on the ballot-boxes themselves were forwarded to the Communes.

Almost all the Communes of the province are lacking the electoral stamps; some of them are supplied with old ballot-boxes made out of iron; all of them are in a position to furnish the electoral offices with their own means or with means to be found on the spot.

9) CASELLARIO GIUDIZIARIO

Following agreement with the President of the Tribunale, temporarily residing in S. Remo, and on invitation by this Prefecture, the Commune of S. Remo has assigned two of his best employees to the Casellario giudiziario of said Tribunale in order to expedite the issuance of the penal electoral certificates.

Subject: Third Fortnightly Report on the Trend of electoral Operations.

During the period from 16 to 31 August, covered by the present report, all extracts of the "elenchi" should have been returned by the "Casellario giudiziale" so as to allow the communal offices to get started on the compilation of the lists and complete them in double exemplar within the sixty days from the beginning of the operations, that is within 15 September 1945.

However, while as communicated already in previous reports the Communes of the province transmitted the "elenchi" in due time, as regards the Commune, head of the province, it appears from an inspection that only in the last few days has the preparatory work for the compilation of the "schedario" been completed and a start has been made in the compilation of the "elenchi".

On the other hand from investigations made at the local office of the Casellario, it appears that almost all the "elenchi" received from the Communes of the province as well as from other provinces are still laying there, notwithstanding that everything possible has been done by the Procura of the Kingdom to assign to this important service all possible personnel.

As regards the Commune of Genoa, the work has been accurately pre-arranged and extra employees have been engaged, so that personnel attached to this service comprises 229 persons; the hiring of additional personnel is continuing as premises and furniture, which the Commune had to supply again owing to the serious damages suffered by the offices during air raids, are becoming available. Owing to the incompleteness of the register of population, which has also been repeatedly damaged, it was necessary to arrange a new "schedario" for the compilation of the lists. Also the printing of the "schede" (index cards) was the cause of some delay in the completion of the works.

Another not small difficulty in the reparation of the "elenchi" and relative extracts is given by the big exchange of correspondence between this provincial capital and the Communes of most of Italy in connection with the registration of the refugees. As a matter of fact many persons from the Communes of Southern Italy which had been registered in the lists of their native locality, though residing here as refugees have asked to continue being registered in the native Commune: such requests cover 12000 cases and the ensuing correspondence due to considerable delays in the replies is causing interference with the work of compilation.

As far as the issuance of the penal certificates is concerned, the Procura del Regno has given assurances it will assign to such task all further available personnel that may be gathered in other offices, while due to the delicate and reserved nature of the service in question, it is not thought opportune to have recourse to the engagement of temporary employees. As regards the "elenchi" of the Commune of Genoa, comprising above 500,000 male and female electors, in accordance with an understanding with the Commune the checking-up done by the Casellario will be effected with the assistance of reliable employees depending from the Commune itself.

In view of the above mentioned circumstances, it is not expected that the return of the "elenchi" duly noted and supported by the penal certificates could be completed before the end of the current month.

With respect to the other Communes of the Province, this Office has recommended that the preparation of the lists should be started just the same leaving out the progressive numbers, subject to the corrections which will have to be made in accordance with the penal certificates to be issued. As regards the Commune of the chief locality of the province, owing to the volume of its work, it is deemed advisable that whenever there are personnel and means available, the lists should be prepared at the same time of the compilation of the "elenchi", in order to reduce any delay to the minimum possible extent. On this matter, however, we are waiting to receive the approval of your Superior Office.

-2-

In the meantime this Prefecture will continue to gather, examine and rectify, together with the Communes, all the data re-lative to the further operations like: preparation of sectional lists, prior to the establishing of the number of the necessary section; ascertainment of the material on hand and the supply of the material which is lacking.

For the completion of these tasks it is thought that the terms may be adhered to, as they were immediately arranged and carefully followed, but as said before the compilation of the lists especially as regards the Chief Town cannot possibly be completed within the established terms.

SUBJECT: Second fortnightly report on electoral operations.

In connection with electoral lists, the most important work consists of drawing up the list of people who have right to suffrage and of sending the extracts to the offices of the Casellario giudiziale: it has to be completed within 25 days from the start of electoral operations.

The reports received from the different Municipal offices show that the work referred to was actually carried out within the time-limits fixed.

The municipi have also received, from the Questura and from charity institutions, the lists of people to be excluded from electoral lists.

Regular information was also given about refugees who wanted to be included in the lists of their place of origin rather than in those of their present place of residence.

The inventory of electoral material in the different Communes is nearly completed: details will be communicated in due COURSE.

The printed material for the sectional lists has been received. The communes have been requested to supply information about the number of sections wanted, and the material is being gradually distributed AS the data requested comes in.

Both this prefecture and the Deputazione Provinciale are preparing the list of the members of the electoral commissions; the President of the Tribunal has already appointed the presidents of electoral Commissions, and of the Sub-Commissions considered necessary.

We also ~~beg~~ beg to assure you that this office is watching the work of the communes with the necessary attention.

La Spezia, 5 August 1945

SUBJECT : Fortnightly report on electoral service.
TO : THE MINISTRY OF INTERIOR
General Direction Civil Administration
Electoral Service ROMA

The provisions about the compilation of electoral lists have become in force in this Province on the 16th September 1944; the following is the 1st fortnightly report.

- 1) - The pamphlets of instructions and the other printed matter sent by the Ministry through the Allied Command, have been duly distributed to all Communes.
- 2) - Of all the circulars received in one lot from the Ministry, those have been distributed which refer to the present stage of the procedure in this province; the others will be gradually distributed in future in order to avoid confusion in Municipal offices by giving instruction which cannot be applied yet.
- 3) - All the Communes have duly published the first notice and started the work for the drawing up of the "elenchi" in some Communes, owing to partial destruction of the offices, the work proceeds more slowly and with some difficulties. It is reckoned that it will not be possible to transmit all the extracts of the Casellari Giusiziali. We believe however that after the first phase will be over, which phase proceeds with a little hesitation owing to the kind work quite new for many young employees, and also to the particular state of the offices, a greater rapidity will be achieved in accomplishing the following phases of the work.
- 4) - The inspective service, which is absolutely necessary to watch and control the work in the Communes, presents itself as a bit difficult in this province inasmuch as railway communications are very limited and the time tables so inconvenient that one loses whole days for every Communes, and there are no public motor transport. A car is going to be specially requisitioned for this purpose and it will be put at the disposal of the V.P.I. for the inspective functions.
