SUBJECT: Return of Personnel from the North now attached to Courts of the South.

TO : Allied Commission Hq. (Legal Sub-Commission)

1. In view of the considerable drain imposed on the local judicial personnel by the setting up of the Extraordinary Court of Assizes, the First President has requested this Division to obtain the return of a number of officials from the North now in function in various offices of the South.

2. A list of these officials is attached. You will notice that ten only are in the South. Steps are being taken to repatriate two consiglieri from Piedmonte and one from Verona.

3. Would you please request the Minister of Justice to issue the necessary instructions to that effect, and kindly facilitate as much as possible their journey northward.

4. The First President has been advised that at least one month will elapse before any of the said officials may be expected to reach Milan.

SUBJECT : Transfer of judicial officials from the South to Northern Italy.

TO : Regional Commissioners (attas Regional Legal Officers: EMILIA, LOMBARDIA, PIEMONTE, LIGURIA, VENETIA Regions.

1. Reliable reports from occupied Italy have been received at this HQ as to the inadvisability of transferring judicial officials from the South to fill in vacancies in newly liberated Italy.

2. It is pointed out that patriots, partisans and the local population in general would view with considerable suspicion the appointment of newcomers who have not taken their full share in the fight against fascists and Germans.

3. Furthermore it is understood that the great majority of judges and other officials have strongly resisted all forms of fascist pressure. A number of them have been shot by the republican fascists for partisan activities. Therefore it is probable that only a limited number of officials will have to be replaced and in the early stages the need to draw on the South for replacements will not be felt.

4. However to meet all eventualities the Ministry of Justice, at the request of this Sub-Commission, has constituted a pool of "magistrati" who are willing to take up posts in the North. All of them previously held posts in the North and some of them are actually refugees from those parts.

5. If, for any reason, it becomes necessary to bring up personnel from the South, use should be made of the Ministry's pool, but in order to avoid trouble locally the necessity for this importation should be explained to the C.L.M. before the new personnel are actually called forward.

MINISTRY OF PUBLIC AND JUSTICE

Uff. 2, Prot. 1995/G-603334

SUBJECT : Judicial personnel in territory restored to the Italian Administration.

With reference to your letter mentioned above, this is to inform you that this Ministry has considered the proposals of your Commission in regard to the measures which should be adopted with the purpose of reorganizing the court of Northern Italy in view of the impending liberation of such territories.

The following is pointed out in this regard:

- 1) = All Courts have been asked, by a circular dated 1 Feb 1945, to transmit urgently a list of names of magistrates belonging to Courts of occupied Italy and stranded from their seats. From the returns already in hand, it is possible to assume that the number of such magistrates will be of about 70. The list setting out these magistrates will be transmitted to the Sub-Commission as soon as completed.
- 2) = In regard to the proposal of reducing, even temporarily, the personnel of Tribunals and Courts in order to have it temporarily attached to Northern Italy, it is noted that such proposal encounters serious obstacles in the present requirements of the administration of justice in liberated Italy. Those requirements have been more than once represented also by the Sub-Commission and arise from the necessity that the Courts work with their full strength in order to obtain a more rapid completion of the proceedings. It will be clear that a further reduction of the personnel, especially in those offices in which the tables of personnel are not even fully filled would be very harmful considering that such requirements have recently increased more and more on account of the numerous duties entrusted to the magistrates and the recrudescence of the common criminality. The permanent reduction in the number of the members of the colleges in the Courts is a different matter; this matter is already under consideration at this Ministry with a favourable view.
- 3) = This Ministry does not object to have a proposal put forward for the recalling of as many magistrates as possible from the High Commissionariat for the punishment of fascist crimes. But it is noted in this respect that such a proposal should be directly submitted by the Allied Commission to the Presidency of the Council of Ministers, from which the H.C. at the present depends, and should be considered together with the officials of

But it is noted in this respect that such a proposal should be directly submitted by the Allied Commission to the Presidency of the Council of Ministers, from which the H.C. at the present depends, and should be considered together with the officials of the said Presidency, having in mind the particular requirements of the officers of the H.C.

4) = Finally, in regard to the calling up to the colours of more magistrates and attaching them to military tribunals, it is pointed out that a large number of judges and "consiglieri di appello" is already working in military tribunals. And it is added that this Ministry more than once has been compelled to ask the competent offices for the release of the said personnel because of the serious necessities for the operation of the ordinary courts, especially in Apulia and Sardinia. Although reiterating the difficulties which the Ministry would have to face in consenting the calling up of more magistrates, this Ministry will attempt to meet the necessities of the Military Tribunals which necessities will become more and more acute particularly after the liberation of Northern Italy. Therefore, having in mind the necessities of both branches, all requests on this subject addressed by the Allied Commission will be examined from time to time with the most understanding attitude.

Al riguardo si fa presente quanto segue:

1) tutte le Corti di appello sono state invitate con circolare del 1° febbraio u.s. a trasmettere con la massima sollecitudine un elenco nominativo dei magistrati appartenenti agli uffici giudiziari dell'Italia settentrionale bloccati fuori sede. OGGETTO: Personale giudiziario in territorio restituito all'amministrazione italiana.

Con riferimento alla lettera sopra richiamata, si informa che questo Ministero ha esaminato le proposte di cotesta Commissione circa i provvedimenti da adottarsi per la riorganizzazione degli uffici giudiziari dell'Italia settentrionale in vista della prossima liberazione di quelle regioni.

Al riguardo si fa presente quanto segue:

Il relativo elenco sarà trasmesso, non appena completato, a cotesta Commissione.

2) Circa la proposta di ridurre, sia pure temporaneamente, il personale dei Tribunali e delle Corti, per essere provvisoriamente distaccato al Nord, si fa rilevare che essa trova grave difficoltà nelle attuali esigenze dell'amministrazione della giustizia nell'Italia liberata, più volte segnalate anche da cotesta Commissione, e determinate dalla necessità che gli uffici giudiziari abbiano gli organici al completo per una più rapida definizione dei giudizi.

Se si considera che tali esigenze sono andate di recente sempre più aumentando, sia per le molteplici attribuzioni conferite alla magistratura, sia per la recrudescenza della delinquenza comune,

./.

apparirà chiaro come un'ulteriore riduzione del personale tor-
nerebbe assai pregiudizievole, specie in quegli uffici dove
l'organico non è neppure completo.

Altra è la questione circa la riduzione permanente da appor-
tare al numero dei componenti i collegi delle Corti; questione
che è già allo studio presso questo Ministero con orientamento favore-
vole.

3) Nulla osta da parte di questo Ministero a che venga avan-
zata la proposta di richiamare il maggiore numero possibile di
magistrati dall'Alto Commissariato per la punizione dei delit-
ti fascisti.

Al riguardo, però, si osserva che tale questione dovrebbe
essere sottoposta direttamente da cotesta Commissione alla Pre-
sidenza del Consiglio dei Ministri, da cui attualmente dipende
l'Alto Commissariato; ed esaminata con gli organi di quest'ulti-
mo, tenendo conto delle particolari esigenze di quegli uffici.

4) Per quanto concerne, infine, l'eventuale richiamo alle ar-
mi di altri magistrati da destinarsi ai tribunali militari, si
fa notare che già un numero elevato di giudici e di consiglieri
d'appello presta da tempo la sua opera nella giustizia militare.

E si aggiunge che questo Ministero, in vista delle gravi esi-
genze di servizio degli uffici giudiziari ordinari, specie del-
le Puglie e della Sardegna, ha dovuto più volte sollecitare i
competenti uffici per ottenere il congedo di detto personale.

Per confermandosi le difficoltà che questa Amministrazione in-
contrerebbe nel consentire che altri magistrati siano richiamati
alle armi, non si mancherà tuttavia di venire incontro alle esi-
genze della Giustizia Militare; le quali, specie con la libera-
zione dell'Italia Settentrionale diventeranno sempre più gravi.

Onde, contemperando le esigenze dei due servizi, si esaminerà
di volta in volta, con la massima comprensione, le richieste
che al riguardo verranno inoltrare da cotesta Commissione.

SUBJECT : Judicial Personnel in territory restored to Italian Administration.

TO : H. E. The Minister of Justice.
(Attn: Direzione Ufficio del Personale)

1. With reference to Your Excellency's communication of 3rd Inst. in regard to the personnel of the Court of Appeal of Catanzaro I wish to thank Your Excellency personally for the information contained therein. I must point out however that following the declaration of the Acting President of the Allied Commission, there no longer exist in territory under the jurisdiction of the Italian Government any obligation for the Minister of Justice to obtain the approval of the Allied Commission for Italian appointments or promulgation of legislation.

2. Nevertheless may I suggest that whenever such Italian appointments affect directly or indirectly territory under ALC the Sub-Commission concerned be consulted in order to prevent the recurrence of situations which, as you are aware, have given rise in the past to many unnecessary problems and inconsistencies. The same remark applies to the promulgation of legislation which it is desired to implement in ALC territory.

3. Such coordination of action will be especially useful when dealing with some of the great difficulties which will confront the Allied authorities in Northern Italy.

It is assumed that a very heavy percentage of judicial officials will be unable (at least temporarily and until such time as separation proceedings are concluded) to continue in office.

On the other hand the number of offenders under the old and new legislation will be larger than ever before.

It is therefore essential for the Italian Government to take immediate steps, in accord with the Allied authorities in order to provide for such contingencies.

4. To date the provisions made by the Italian authorities in regard to the above are very limited in scope and hardly adequate in efficacy. They can be summed up in two items:

a. Constitution of a pool of judicial officials which, as Your Excellency informs me, is composed of less than 40 magistrates of all grades, and probably not immediately available.

b. Establishment of a Tribunale Militare Extraordinary of Forti for which, both the Procuratore Generale Militare and the

0439

men are busily engaged in endeavoring to obtain the personnel necessary to its judicial activities.

5. I feel that in order to meet what will be no doubt a very confused situation, provisions of an exceptional character should be contemplated.

There is no doubt that however serious the problems of the administration of Justice may be in territory restored to Italian administration, the difficulties to be dealt with in Northern Italy will far exceed them in gravity. "Se dunque sono seri i problemi da risolvere"

6. Therefore, I take the liberty to request Your Excellency to give your earnest consideration to the following suggestions:

- a. Increase of number of judicial officials who shall be immediately available to take up posts as soon as Northern territories are liberated.
 - b. Temporary reduction of members of the Procura in "Tribunali" and "Corti" wherever the small volume of cases will allow it. These "Procuratori" or "Montitanti" and "Giudici Istruttori" to be provisionally appointed to Courts in Northern Italy.
 - c. Recall from the various offices of the High Commissioner for Fascist crimes, as many judicial officials as possible, in order to increase the number of available magistrates.
 - d. Facilitate, in agreement with the Minister of War, Navy and Air, the temporary transfer of judicial officials from the ordinary Courts to the "Giustizia Militare".
7. No doubt Your Excellency will favour me with an early reply

1. The Chief Commissioner has requested all Sub-Commissions to submit their plans for the administration of Northern Italy when taken over by the Allied Armies.

2. As Your Excellency is aware, it has been agreed that in order to make up the expected shortage of judges, procuratori and other magistrates in the newly occupied areas, you should constitute a pool of judicial officials to meet this contingency.

3. In this connection would Your Excellency be good enough to state what the present position is and also supply the following information :-

- a) How many officials have been earmarked for the pool.
 - b) Could a list be supplied together with their present location² and the position they now occupy.
 - c) How much notice will be necessary in order to collect them in Rome or some other given place when the time comes for them to join their new posts.
 - d) As transport will be supplied by the Allied authorities, it might be more practical to move all officials concerned en bloc. Will this be practicable without disrupting the good administration of justice.

1. Reference your ACC/4039/7/L of 13 October 1944 it appears to me that the facts have not been correctly reported to you.

2. The true facts so far as I know them are as follows. Avvocato Orrefice, who is attached to this H.Q., by H.Q., A.C.C., as a representative of the Patriots, has been assisting me in planning for the reopening of the Italian Courts in Venezia Region. Before leaving Rome I had already had prepared lists of existing judicial personnel in Venezia Region, which were correct according to the latest information then available. The purpose of these lists is to enable each Provincial Legal Officer on arrival in his province to ~~choose~~^{check} the judicial personnel he finds against those expected to be found, thereby enabling a rapid appreciation to be ~~formed~~^{formed} of the number of vacancies required to be filled, transfers and promotions to be made, etc.

3. Recently I desired to have these lists checked with the latest information available in Rome. I also desired to find out, if possible, which of the existing judicial personnel in Venezia Giulia speaks Jugo-Slav. As Avvocato Orrefice was visiting Rome on another mission, on the orders of the Regional Commissioner, I requested him at the same time to do what he could to obtain this information for me. It appears from your letter that he obtained this information (which he has brought back to me) from the Ministry of Justice, which is what I should have expected, and where he is well known, being an avvocato of some distinction who has hitherto practiced in Padova.

4. If Avvocato Orrefice did anything wrong in approaching the Ministry, the fault was not his but mine, as I made the request to him to obtain this information. Personally I see

no objection to this course. I have found that not only is Avvocato Orrefice a most valuable source of information to me, but he is an extremely useful "Contact" with the Italian authorities, as he is an avvocato with an unimpeachable reputation, well known to the Italian judicial authorities to whom he has ready access. I propose to use him for obtaining similar information from the Italian authorities in the cities yet to be occupied as we advance northward. If I am to be denied the use of this ready and rapid means of obtaining the information I require, it simply means that my work will be that much more difficult.

5. If in the light of the above explanation you still ~~find~~ feel that anything improper has been done, or that there is any objection to the future course which I have outlined, perhaps you will let me know and will give me the appropriate instructions as to the course I should adopt.

6. Apart from the visit of Avvocato Orrefice to the Ministry, mentioned above, I know of no other case of any Italian person attached to this H.Q. having any dealings with the Ministry of Justice.

SUBJECT: Italian Provincial Officials.

TO : HQ, ACC, Interior Sub-Commission.

1. If operations proceed at the pace which is at present anticipated the problem will very shortly arise of reorganizing the Italian Provincial Administration of the thickly populated Provinces which lie ahead.

Attention is drawn to the fact that the four Provincial Capitals of Livorno, Pisa, Lucca and Pistoia, which all lie on approximately the same latitude, are likely to be occupied almost simultaneously, and that the Provincial centre of Arezzo is likely to follow a few days later. The fall of Siena can be expected before the end of this month.

2. It is impossible to forecast at this stage how much of the former administration will be found in existence: in the case of Viterbo most officials were found present and to be satisfactory for temporary reappointment, whereas recent experience at Grosseto, where all Provincial Officials had fled, forces us to the conclusion that we must be prepared to face the possibility of having to organize a completely new team of Senior Provincial Officials for all these six Provinces.

3. It is therefore requested that the Italian Government be directed to nominate now and have ready on call the necessary personnel, so that there may be the minimum possible delay in restarting the Italian Administration when the Provinces are occupied. We will keep our demands down to the minimum but it can be taken for granted that a new Prefect will be needed in every case.

4. As has been done hitherto, you will be sent information as soon as possible after occupation on the conditions found in the places mentioned above.
