SUBJECT : Monthly Report for November 1945.

TO : Headquarters Allied Commission  
Legal Sub-Commission.

1. Personnel : No comment (audible). The position remains the same. Capt. Sylvester should be back from L.I.A.F. within the next 10 days.

2. Proclamations and Orders : 2 Regional Orders Nos. 14 (14A) and 15 dealing with electric power and telephone tariffs were issued.

3. A.M.G. Courts : One General Court held in Milan at the end of November. Sentences of 16 and 8 years were imposed on two civilian employees of A.M.G. In the first case, a Doctor, acting as Head of Public Health and Welfare, Milan City and A.M.G. was convicted of selling distilled water and other harmless substances as Penicillin, and of other offences in connection with controlled materials, in which the second accused also was concerned.

One Superior Court was also held in Milan, none in the Provinces.

4. Implementation of Italian law : G.U. up to No. 136 have been distributed in all Provinces.

5. Italian Courts : Progress in the hearing of cases in Milan City will be slowed down during the coming months unless some adequate heating is provided for the vast and damaged Courts of Justice. Much glass is missing from the windows, and at the moment even these Courts are extremely cold. Attention has been called by this Division to the

/state

state of affairs and some heating is promised.

6. Extraordinary Courts of Assize : The returns are attached. Interest is beginning to weaken in these Courts and is only kept alive by certain sections of the press. Their passing, it is believed, would create little unfavourable comment.

There were 6 death sentences during the month, 3 at Lodi and one each of Milan, Voghera and Monza. Appeals are pending. Two death sentences have been carried out during the month.

7. Italian Military Courts : Nothing of interest to report.

8. Epuration : Provincial Commissioners are getting somewhat dizzy at the amount of epuration legislation now in force or about to be put in force. This has not been lessened by the preliminary advice of D.L.L. 702. It is felt that the sooner G.O. 35 and 46 give place to existing Italian legislation, the better. The Presidents of Provincial Commissions are equally at sea, as some of the clauses of the new decree 702, whose implementation is expected at any moment, render a continuation of epuration under G.O. 46 difficult. Cannot G.O. 35 and 46 be abolished?

9. Appointment of Receivers : The tendency now is to revoke appointments, so as to admit of a return to normal conditions. In several cases in Milan and in a smaller degree in the Provinces, the original directors or managers of companies, after screening, are being reinstated and Receivers withdrawn. There have been no fresh appointments.

10. Death sentences : (see para 6 above). No death sentences in Allied Courts.

SUBJECT : Monthly Report for October 1945

TO : Headquarters Allied Commission  
(Legal Sub-Commission)

1. Personnel. The entire Region is now reduced to one Legal Officer, myself. W/Cdr. Dickie left on 29th October. Major Bayliss left for Trieste on 31st October. Lt. Col. Waugh, Lt. Balboni, Capt. Christians, Lt. Vogel and Major Reynolds have already gone. The others are due to go at any moment.

The Prosecuting Office, which had been under Lt. Morris, will come directly under Regional C.O. until it can be closed down.

2. Proclamations and Orders. Nothing to report.

3. A.M.G. Courts. The attached reports disclose the position. There are one or two cases pending in Milan which it is thought desirable to take in an A.M.G. Court, but any further crimes must be passed over to the local authorities to deal with.

4. Implementation of Italian Law. C.U. up to and including No. 126 have been distributed in all Provinces.

5. Italian Courts. There are many cases awaiting trial in all Provinces but the Courts seem to function as normally as conditions permit. They require little direction from Allied Military Government.

6. Extraordinary Courts of Assize. The returns attached speak for themselves. The Courts, mindful of the watchful eye of the public, and under the occasional spur of the journalist, function more expeditiously than the ordinary Courts of the country.

- 2 -

There have been 7 death sentences imposed : 2 in Como, 2 in Pavia and one each in Brescia, Milan and Varese Provinces.

7. Special Section of Cassation. This Section will close down on the 12th November 1945, which will no doubt permit the needed reallocation of some magistrates and staff.

8. Italian Military Courts. Nothing of interest to report.

9. Epuration. The position is little changed. It is noticed that the urgent cases are now nearly exhausted in most Provinces and even the 'normal' are greatly reduced. The Provincial Delegates under D.L.L. 159 appear to be taking much time in preliminaries.

There has been no advice so far of the implementation of Decrees appointing Commissions under Art. 8 of D.L.L. 159 for the clearing of the Electoral Lists, nevertheless in some Provinces these Commissions have started preliminary work.

10. Appointment of Receivers. There were only a few appointments covering exceptional cases. Several orders revoking original appointments were issued in cases where a return to normal administration appeared desirable.

11. Death sentences. One death sentence by A.M.G. Court at Bergamo.

12. General. The reduction of the Legal Officers in the Region to one, and the general apathy towards a continued existence on the part of those A.M.G. Officers left in the Provinces, must result in inadequate observation of the working of Courts and Commissions generally. This half-hearted attitude resulting in insufficient and probably erroneous information is worse than none at all.

Ref.: LEG/5054

8th October 1945

SUBJECT : Monthly Report for September 1945

TO : H.Q. Allied Commission

2. Proclamations and Orders.

General Order No. 37 was published during the month.

3. A.M.G. Courts.

(a) The General Military Court referred to in last month's report concluded with the conviction of

six of the ten accused and the imposition of sentences ranging from 4 to 21 years imprisonment. A subsequent General Court found three other men guilty of counterfeiting large quantities of A.M. L.1000 notes and sentenced two of them to 15 years and one to 5 years imprisonment.

(b) 103 persons were tried in Superior Court throughout the Region. More than 50% related to wrongful possession of arms.

(c) Summary Court cases totalled 73 for the month.

(d) In view of the anticipated closing-down of A.M.G. in the Region, P.L.Os have been advised to refer all but the most serious cases to the Italian Courts and to try as few cases as possible in A.M.G. Courts. The hearing of one General Court case pending in Milan has been fixed for the 8th October.

#### 4. Implementation of Italian Laws.

Gazzetta Ufficiale up to and including issue No. 111 have been distributed in all Provinces.

#### 5. Italian Courts.

No change to report. The appointment of S.E. Vogliotti as First President of the Brescia Court of Appeal has been received with general satisfaction. A Procuratore Generale is still required there.

#### 6. Extraordinary Courts of Assize.

The attached return shows a total of 256 cases tried during the period, which is a considerable advance on the August figure. Three death sentences were executed, making a total of five out of the 64 imposed in the Region since the Extraordinary Courts were set up.

Looking back over the period since the occupation, it can fairly be claimed that these Courts have achieved the main object for which they were intended. While tempers were hot, they satisfied the demand for the speedy trial of alleged criminals. Now that the more notorious have been convicted and sentenced, public

/interest

- 3 -

interest in the minor offenders is small and from the political point of view it is no longer worth the expense to hire a crowd to shout "A morte" at L. 200 per day which used to be the standard fee. Hence better progress is now made with trials which are conducted in a more judicial atmosphere, though occasional outbursts may still be expected in some of the wilder districts such as Pavia Province.

The prison situation has been greatly improved. During the five months period, some 7000 persons have been released from custody and the total number now reported as held for political offences is in the Region of 6000 as against the 15,000 or so in prison at the end of May. As, however, there remain upwards of 8000 cases under instruction, the Italian Government will require to decide soon what is to happen when the six months period under D.L.L. 142 expires early in November.

#### 7. Special Section of Cassation.

Nothing to report. The future of the Special Section is still obscure and the prospect of a winter's exile in the inhospitable north is filling the Roman members with alarm and despondency. A southward flight of the judges in search of their winter woollens may shortly be expected.

#### 8. Italian Military Courts.

Further trials have been held by the Extraordinary Court convened under D.L.L. 234 and heavy sentences imposed. In view of the increasing prevalence of armed hold-ups, this Court could do invaluable work, if more of those concerned were arrested.

#### 9. Epuration.

The Commissions under G.O. 35 continue to produce satisfactory results, which is more than can be said of the machinery established under G.O. 46.

The Delegates under D.L.L. 159 have not as yet made their presence felt.

- 4 -

Provincial Commissions under Art. 8 of D.L.L. 159 for the disfranchisement of Fascists are ready to function as soon as the Italian Government orders nominating Presidents are implemented in this territory.

10. Appointment of Receivers.

After 1st September the appointment of Receivers was discontinued unless in exceptional circumstances. In a number of cases the original Orders have been revoked where it was shown that the normal administration could resume control.

11. Death sentences.

International rivalry in this field has further delayed the execution of Lini Fermo, whose sentence was confirmed as long ago as August 31st. To assign the task to an American unit several hundred miles away on Lake Garda or in Leghorn when Milan is full of British troops seems to involve much unnecessary trouble for all concerned. In any event, since he is a common criminal and not a spy, why can't he be shot by the Italians ?

It is to be hoped that similar red tape will not obstruct the execution of the Schio murderers if their sentences are confirmed. They have already been the subject of a well-organized political campaign in this Region and once it is known that the appeal for clemency has been rejected, the protests are likely to become louder.

12. General.

For all practical purposes, the Italian legal authorities are now running their own affairs satisfactorily, and the continued presence of A.M.G. officers is entirely unnecessary.

SUBJECT: Monthly Report for August 1945

TO: HQ Allied Commission  
Legal Sub-Commission

1. Personnel.

(a) The disposition of the Legal Officers remained unchanged until the 29th August when Major E.V. Falk returned to England. Lt. F.H. Balboni will in future be responsible for Brescia Province as well as Mantova.

(b) The departure of Major Carslake on release is expected this week. Lt.Col. Purcell will undertake the duties of P.L.O. Varese in addition to his present work at Como.

2. Proclamations and Orders.

General Order No. 51 was posted in all Provinces.

3. A.M.G. Courts.

(a) A General Military Court was held in Brescia for the trial of a man charged with the murder of a Carabinieri. The accused was convicted and sentenced to 25 years imprisonment.

A further General Court is at present in session in Milan to deal with charges against ten persons accused of counterfeiting currency to an aggregate value estimated at 300 million lire. Bank of England notes, U.S. Federal Reserve bills, A.M. lire, Italian banknotes and Cheques of the Credito

Italiano/

-2-

Italiano and the Banca d'Italia are among the exhibits produced to the Court.

(b) 160 cases were tried in Superior Courts throughout the Region. Wrongful possession of arms accounted for two thirds of the charges.

(c) Summary Court cases total 149, approximately the same as for the previous month. An increasing number of cases are being referred to the Italian Courts.

(d) Consolidated returns are attached.

#### 4. Implementation of Italian Laws.

Gazzetta Ufficiale up to and including issue No. 99 have been distributed in all Provinces.

#### 5. Italian Courts.

No change to report. The vacancies at Brescia remain unfilled.

#### 6. Extraordinary Court of Assize.

The statistical report attached hereto shows the effect of Ferragosto on the activities of these Courts. The number of cases heard during the month was only 134 as against the total of 274 achieved in July. It will, however, be observed that the release of persons against whom no charges are pending is proceeding at a satisfactory rate.

Two death sentences were executed at Pavia on the 29th August and on the 1st September, Candrilli Manlio was finally shot at Brescia.

#### 7. Special Section of Cassation.

This Court continues to do its work quietly and efficiently. The arrival of della Mura as Procuratore Generale was welcomed.

#### 8. Military Courts.

In the last week of the month an Extraordinary Court was convened under D.L.L. 234 to try a number of youths charged with armed robbery. Two sittings were held and four sentences of 23-25 years imposed. It is likely that further use will be made of the provisions of this Decree in an effort to stamp out the present wave of armed robbery and general lawlessness.

#### 9. Expiation.

Work under G.O. 35 continues, but nothing much is

heard/

-3-

heard of G.O. 46. Indeed, activity all along the Epuration front seems less furious than it was, though this may be partly due to the holiday season.

10. Appointment of Receivers.

The month has added a further 45 to the Regional score, which now stands at 269.

11. General.

The comments made under this head in last month's report are repeated. The Legal Division no longer serves any useful purpose in this territory, and is ready to hand over to the Italian authorities at a moment's notice. The only bright spots in an otherwise uneventful month have been the visit of Minister Togliatti at the commencement and at the close "l'affaire Brard", the effects of which on the political waters of Como have already been reported.

1. Personnel.

| Pavia          | Major F.C.S. Bayliss  |
| Sondrio        | Lt. J.J. Vogel        |
| Varese         | Major J. Carslake.    |

(b) During the month Major R.M. Hill was transferred to Venezia Giulia to the universal regret of the officers of this Region. Major B.E. Drayfus returned to Rome on reassignment.

(c) No general conferences have been held but all P.L.Os have visited this Headquarters during the month and they are constantly in touch over the telephone.

2. Proclamations and Orders.

The following were posted in all Provinces during the month:

- 2 -

- (a) Proclamation No. 5
- (b) General Orders Nos. 42 and 45.
- (c) Regional Order No. 12, copy of which is attached to this report.

3. A.M.G. Courts.

- (a) A General Military Court was held in Milan for the trial of five men charged under Italian law with aggravated homicide and armed robbery. One accused was sentenced to death and the others to terms of imprisonment of 30, 10 and 6 years.
- (b) 113 cases were tried by Superior Court in the Region, an increase of 80 over last month's figures. The majority of the charges were in respect of wrongful possession of arms or of counterfeit currency. P.L.O. Bergamo reports the good effect of publicity given to these trials in increasing the number of arms turned in.
- (c) Summary Court cases also showed a substantial increase over the previous month. 155 persons were tried mostly for wrongful possession of military property, though Varese and Sondrio report a number of violations of G.O. 39.
- (d) Consolidated returns are attached.

4. Implementation of Italian laws.

Gazzette Ufficiale up to and including issue No. 86 have been distributed in all Provinces. Additional copies have been received with gratitude by magistrates, avvocati, Epuration Commissions and the C.L.N.

5. Italian Courts.

There is no change to report in the general situation. The extension of the Italian amnesty decrees to this territory will reduce the number of cases now shown as pending, but there are bound to be arrears of work so long as the Extraordinary Courts of Assize have to be given priority. It is unfortunate that the First President's ruling that there should be no holidays this year has not been supported by the Ministry. In present conditions the magistracy can ill spare its members for 30 days at a time, but it is hoped at least to keep the Extraordinary Courts functioning without interruption.

*Reports Collected from 8/1/45 — Log/2045 of 6 Aug 45  
(effine file 4039)*

4 No action has yet been taken to provide a First President or a Procuratore Generale for Brescia, despite repeated requests.

6. Extraordinary Courts of Ancona.

The statistical report attached hereto shows a slight improvement in the rate of progress, 274 cases having been disposed of as against 135 last month. Additional Courts have been established at Voghera and Gallarate in Pavia and Varese Provinces respectively.

Public interest and excitement in these trials shows signs of diminishing in most districts. P.L.O. Mantova reports that two death sentences imposed by the local Court were regarded by the public as too severe; in the more turbulent Province of Pavia on the other hand a defending advocate was mobbed by the crowd because he got his client off with a ten years sentence. An incident at Brescia, where the accused was shot dead in Court by a member of the CC.RR. was the result of a personal feud. Releases of prisoners against whom no denuncie are forthcoming, have been proceeding gradually without arousing any public notice.

One death sentence was executed in Milan during this month. Of the remaining 17 death sentences imposed in the Region to date, 7 have been confirmed and 8 annulled by the Court of Cassation, while in the other 22 cases appeals are still pending.

7. Special Section of Cassation.

This Court continues to get through a great volume of business efficiently and without ostentation. The highest credit is due to the President, S.E. Giuliano, for his organization and conduct of the work of the Court. The arrival of a new Procuratore Generale will be welcome.

8. Military Courts.

Nothing to report beyond a visit from the Procuratore Generale Militare S.E. Borsari.

9. Education.

The Commissions under S.C. 35 continue to function effectively in most Provinces. In Milan they have dealt with more than 6500 Schede Personali, out of which approximately 1000 suspensions have been proposed. Small

- 4 -

progress has been made under G.O. 46 .

The Epuration of the Magistracy will shortly be handed over to the Commission which is in course of constitution from Rome. Local Commissions for dealing with the Avvocati and Procuratori are being established under Art. 23 of D.L. 159, it having been decided not to publish G.O. 35-B. in this Region.

10. Appointment of Receivers.

The fertile soil of Milan produced a further crop of 82 during July.

11. General.

So far as the work of this Division is concerned there does not appear to be any reason why the territory should not be returned to the Italian Government forthwith. The local Courts are quite capable of handling the cases now being tried in AMG Courts, and with the improvement in communications, the voluminous correspondence between the Italian magistrates and the Ministry of Justice which at present turns this Headquarters into a glorified Post and Telegraph Office, could perfectly well be transmitted direct.

In this connection, P.L.O. Varese ( his ultra-conservative temper somewhat soured by having to receive a deputation of congratulation on recent political events at home) remarks that he considers the presence of an Allied Legal Officer here unnecessary, and in view of the shortage of lawyers in England and America unjustified. He is not alone in this opinion.

HEADQUARTERS  
ALLIED MILITARY GOVERNMENT  
LOMBARDIA REGION  
APO 394  
Legal Division

Ref.: LEG/5054

5 July 1945

SUBJECT : Monthly Report for June 1945.

TO : HQ. Allied Commission  
(Legal Sub-Commission)

1. Personnel.

- (a) No changes were made in the assignment of Legal officers shown in the monthly Report for May 1945, until the departure of Major W.C. Holt for the U.K. which occurred on the 28th June, made it necessary to transfer Capt. E.V. Falk to Brescia Province where he will also be responsible for the Brescia Court of Appeal District. Lt.Col. W.S. Purcell and Lieut. F.J. Stimpson, who were assigned to this Region at the end of the month, will replace the former Capt. Falk as P.L.O. Como Province and the latter Major R.M. Hill, who is expecting orders to leave Bergamo in the near future. Major B.E. Dreyfus returned from Hospital on the 22nd June and was sent on temporary duty to Mantova Province. He is due to be released immediately and will be returning to Rome within a few days.
- (b) Lt.Colonel G.G. Hannaford continued his valuable work at this H.Q. until 10th June, when he went back to Rome, returning on the 25th June to prepare for the Legal Conference referred to later in this report.
- (c) R.L.O. Venezia Region paid a visit to this H.Q. during the month, when various questions of common interest were discussed. The re-opening of telephonic communications has made contact with the neighbouring Regions and with Rome possible, though the difficulty of obtaining connections detracts from the value of the service.

## 2. Proclamations and Orders.

The following were posted in all Provinces during the month :-

- (a) General Orders Nos. 20 and 46
- (b) Regional Orders Nos. 1 - 11.

Copies of Regional Orders Nos. 1 - 4 having accompanied last month's Report, copies of Nos. 5 - 11 are attached hereto.

## 3. A.M.G. Courts.

The policy of keeping A.M.G. Courts to a minimum has been continued, but arms cases and charges of wrongful possession of W.D. property have necessitated regular sittings of Summary and Superior Courts in Milan City. Only 13 cases have been reported from the Provinces.

A consolidated return of cases together with Form 13 in respect of May and June 1945 is annexed to this Report.

## 4. Implementation of Italian Law.

Gazzetta Ufficiale up to and including issue No.72 have been distributed in all Provinces.

Some of the industrial Decrees passed by the Italian Government prior to the liberation of the North are inappropriate to conditions now existing and require revision. The Divisions concerned have been advised to take these questions up with their Sub-Commissions at HQ. Allied Commission.

## 5. Italian Courts.

No change in the situation has been reported during the month, but it is not thought that the arrears of cases exceed what is usual in these Courts. So long as priority has to be given to the Extraordinary Courts and the magistrates and court officials continue to be overworked for lack of sufficient personnel and grossly underpaid for their very responsible services, improvement in the normal administration of justice is not to be expected. The First President Milan has recommended that no holidays be permitted this year and an order to this effect is awaited from HQ. Allied Commission.

Rumours about the extension of old amnesty laws or the passing of new ones have been prevalent and the magistrates are holding up cases pending definite instructions.

- 3 -

Information on this subject would be appreciated.

The appointment of a First President and a Procuratore Generale for Brescia is urgently required. The acting First President has been removed by the Ministry on political grounds though to all appearances his record is much better than that of the magistrate whom they proposed to nominate as Procuratore Generale to the same Court.

Some consternation was caused in Milan legal circles, when the First President and five Consiglieri were informed that they had been placed in retirement nearly a year ago. All have been directed to continue in office; indeed, the physical and mental energy of the First President himself would be an example to many of his more lethargic juniors in the south.

6. Extraordinary Courts of Assize.

A statistical Report is attached hereto, which it is regretted does not show a very satisfactory rate of progress. All Provincial Legal Officers, who are in constant touch with the operation of these Courts agree in attributing the delays to the following factors :-

- (i) Difficulty in obtaining genuine denuncie as opposed to frivolous ones of which there is no end. The C.L.N. are not much help in this.
- (ii) Lack of trained personnel and general inefficiency in the Questure, due to the epuration of the former staff and the political rather than professional qualification of the present incumbents. It is hoped that the replacement of the more inefficient by career officials will improve the situation.
- (iii) Inadequate staff in the office of the Pubblico Ministero. It is impossible to find enough magistrates to cope with the work, and the avvocati are most reluctant to leave their private practices for the less lucrative and extremely invidious task of prosecuting their fellow citizens. It would appear that some form of compulsion may be necessary to indicate to them the path of duty, however incompatible that may be with the ideals of the new Italy in which freedom of conscience is once more permitted ( at least in theory ).
- (iv) A large proportion of the persons in custody are members of fascist organizations, against whom no charges other than mere membership have been lodged.

- 4 -

To release such persons is still considered dangerous and it is further contrary to the Administrative Instruction issued by the Regional Commissioner that members of the leading Fascist organizations shall be retained in custody for the time being.

With the exception of the Basile trial and minor incidents at Varese and Pavia, there have been no public disturbances in connection with these Courts. It is thought that the new Minister's statement to Lt.Col. Hannaford, to which wide publicity was given here notably by Unità, should help the situation. The recent removal of Basile to Rome is welcomed, though no doubt his ultimate fate will continue to be a matter of interest in the North.

7. Special Section of Cassation.

This Court has held regular sittings during the month, despite the unregretted absence of H.E. Lepore. His post as Procuratore Generale has been filled by Cons. Gray and Cons. Levi acting as Sostituti.

16 appeals were heard of which 11 were dismissed and 5 granted, the cases being referred for a new hearing on the point of alleged mitigating circumstances. Of the appeals heard 11 were against death sentences and of these 8 were confirmed. None of the death sentences imposed in cases tried in this Region has yet become final pending the result of the applications made for clemency..

8. Military Courts.

Nothing to report during the month.

9. Epuration.

The Commissions operating under G.O. 35 continue to function in all Provinces. Some difficulty has been met with in persuading the Commission for the Epuration of the Magistracy to undertake their duties and it remains to be seen what results they will achieve under pressure. G.O. 46 was published too late in the month to have produced any effect.

10. Appointments of Receivers.

A total of 141 have been appointed up to the 30th June.

11. Conference.

A conference was held in Milan on the 30th June attended by the C.I.A., Lt.Col. Hannaford and the R.I.Os of all the

/northern

- 5 -

northern Regions ( or their representatives) together with the President of the Special Section of Cassation, the Primi Presidenti and Procuratori Generali of Milan, Turin, Genoa, Bologna, Brescia, Venice and H.E. Spallanzani and H.E. Boeri from Rome. A number of current problems were discussed, including the status of neo-fascist prisoners, epuration of the magistracy, personnel deficiencies and methods of expediting procedure in regard to death sentences and applications for clemency. It is thought that all those who attended derived considerable benefit from the exchange of views, and it is hoped that H.E. Spallanzani's visit may lead to a better appreciation by the officials of the Ministry of the problems which the magistracy has to face in this area.

12. General.

Copies of the monthly report submitted by P.L.O. Bergamo and of a special report on the Extraordinary Courts prepared by P.L.O. Varese are attached, as they present a useful picture of the work being done in the Provinces.

SUBJECT : Monthly Report for June, 1945

TO : Regional Legal Officer, Lombardia Region

Monthly Report for June from Bergamo follows:

1. - EPURATION

The Provincial Commission has received to date 3900 Schede Personali.

It has issued 324 notices of proposed suspension, 11 of which have been concluded and the suspension made. The remaining 323 are awaiting the 10-day period under the GO 35 and definite action will be taken within a few days. One actual hearing has been held on the eleven already suspended.

A list of concerns including statal and para-statal ones from which Schede have been received is listed in "Appendix A" to this report. In most instances these are partial returns only.

The Commission is a reasonably strong one. The President and Deputy-President appear to be good leaders. My impression is that each has a reasonably good grasp of the purpose of epuration and the spirit in which the GO should be enforced.

AMG has not yet quite completed its epuration under Memo 67 (Revised). It has been quite a task to assemble schedes from each of the 217 Sindaci of the Province. It is a difficult job also to get from the Prefect and CLN a complete list of all officials sacked before AMG occupation. The P.C. however, intends to conclude AMG epuration within a few days by making a blanket epuration order to cover all officials we remove, which will also include those removed by CLNs and the effective day thereof. - This for the purpose of regularizing the dismissals agreed upon. A form Epuration Order has been supplied for this purpose.

G.O. 46 (Private Industry) arrived two days ago and has been distributed.

2. - SPECIAL COURT OF ASSIZES

a) Persons now in custody number 1437.

b) The number of persons whose cases are ready for trial amount to 42. All of these will be tried during month of July with additional cases also, we hope. On the 30th day of June, 3 cases will be tried. On the 2nd day of July three more cases will be tried.

c) The number of persons against whom denuncie have been lodged but the investigation is not yet completed amount to 176.

- e) The number released to date for want of charges amount to 110.-

Please refer to special interim report of June 27 as to reasons and comments as to why more cases have not been tried.

Eleven cases have been tried to date; one received the death penalty and others substantial prison sentences.

On June 28 a meeting was held in PO's office attended by the CLM, all court officials, Questore and others. At this meeting plans were made for the speeding up of these trials and the cooperation of the CLM and others in supplying denuncie was again promised.

All those as enumerated in the RLO's recent letter which should have been posted.

#### 4. - JUDICIAL PERSONNEL

Schede was received on all in early days and one Pretore was epurated by AMG order. An "emergency" existed in that he was required to sit on 3-men committees examining incarcerated alleged Fascist offenders.

The Schede on all others have been forwarded through PLO Brescia to the Brescia District Judicial Personnel Epuration Commission.

Bergamo's Tribunale normally has ten Judges but there are only six now in active service. Two of the six regular Pretori are Pretori Supplementari. These vacancies, together with a few other minor ones, have been called to the attention of It. Stimpson who is requesting the Officer i/c Italian Courts at Brescia to do all possible to fill, as many of these vacancies as possible.

#### 5. - FUNCTIONING OF REGULAR ITALIAN COURTS - Tribunale and Pretura

Criminal cases: The Tribunale tried 29 cases during June. It has 503 cases pending, so to speak, 89 of which are already set for trial during July. A proximately 200 of these have not been brought to trial because of "war reasons", that is absence from Province of defendants or witnesses, sickness etc. and an additional 175 will be included in an Amnesty Decree already published. It will be seen that the work of the Tribunale is in reasonably good conditions. It is understood that on April 30 of this year the Court was completely up on its work and conference to-day with the Presidente and Procuratore del Regno convinces me they will make a real effort to keep the work up to date.

CIVIL CASES: There are 450 (approximately) of these pending, 225 of which will be necessary actually to try in court. Until the Court gets some replacements in its four vacancies it cannot be expected to make much progress on these civil cases.

Cases in Pretura Courts: Returns as to the state of the dockets on these six courts submitted this week indicate reasonably good condition for four of them. However, Unificato di Bergamo has 81 cases pending and the one at Treviglio has 164 cases pending. However, the latter Pretore has been busy most all month interrogating political prisoners; the Procuratore conferred with him this week pointing out it

#### 6. - A. M. G. COURTS

Three Summary Court cases were tried during month. Five Superior Court cases are set for next Monday; they involve firearms. A nil

return as to sentences over 1 year imposed is attached hereto.

7. - PRISONS

Seriate Prison is now being used as an Interrogation Center (Concentration Camp) for political prisoners. It is not overcrowded and has good facilities. 3. Agatha is overcrowded having at present 442 inmates, it being built to accommodate only 232. The PPSO together with his Questore have done some good work regarding prisons and the situation is well in hand. A former military barracks, Francesco Nullo, located in Città Alta, Bergamo, has been converted into a prison and accommodates 200 inmates now. The smaller prisons out in the Province are not overcrowded and contain but few inmates.

Minors: There are now 74 minors who are political prisoners awaiting trial and/or denunciation. The PG has appointed a local Committee to work toward establishment of a Reformatory for these minors.

HEADQUARTERS  
ALLIED MILITARY GOVERNMENT  
VARESE PROVINCE  
Lombardia Region

Ref.: VA. L. 2

27 June 1945

SUBJECT : Extraordinary Courts.

TO : R.L.C.

1. In reply to your letter of 22 June the figures you require are as follows :-

(a) 1077 persons are in custody

(b) Cases ready for trial

From Varese : 7 cases one of which involves 8 persons. The Court is setting on 3rd and 6th July and cases not heard then will probably be heard about the middle of the month.

From Busto: 7 cases - The President at Varese is being asked to fix dates for hearing these at Busto or Gallarate.

TOTAL : 14 cases involving 21 persons

(c) Denuncie received and still to be investigated :-

At Varese : 713 - of these I am told that many are so trivial that the accused persons have not been arrested. The Procuratore considers that about 100 may come before the Court.

At Busto : 188

TOTAL : 901

(d) The Questura states that there are 280 persons detained without denuncie. These he says are all neofascists. (These figures have not been checked).

(e) Persons released after investigation by Procuratore :

|        |            |
|--------|------------|
| Varese | 128        |
| Busto  | 4          |
| Total  | <u>132</u> |

2. The number of cases heard is indeed unsatisfactory. The reasons given by the Italian officials are :-

- (a) Changes in personnel at the Pubblico Ministero Office. There have been three different Procuratore's at Varese, the present man seems to be working quite well, nearly all the persons released have been since he arrived. At Busto the Pubblico Ministero office was only opened three weeks ago, and the first two weeks were spent in getting in the denuncie.
- (b) Lack of interest on the part of the avvocati attached to the P.M.'s office. They regard the salary of Sostituto Procuratore as quite inadequate and say they would be making far more in private practice.
- (c) The inadequate way in which the Questore has prepared cases before sending them on to the P.M.s office and the reluctance of private citizens to come forward to give evidence.
- (d) The attitude of the public towards acquittals makes the Procuratore hesitate to bring to the Court any case except those where he is sure of getting a conviction.

3. My own opinion is that the magistrates are working hard and doing their best but they are handicapped by the lack of assistance from the Avvocati and the failure of the Decree 22 April 1945 to make any provision for giving them an adequate staff. It has been suggested to me that the ordinary Courts should close down for 2 or 3 months and all the magistrates be made available for dealing with these cases, the staffs at the Courts would also be available for the Procuratore of the Special Assize Court. While this would hardly be possible, it does seem that more magistrates should be used for the Assize Courts; a skeleton staff could be left to deal with the urgent cases in the ordinary Courts. If any hardship were caused it would be offset by the advantages of getting the political cases dealt with more expeditiously.

The utterly inadequate salaries of the judicial officials also contribute to the general inefficiency of these Courts.

4. The Questore at Varese ( a C.I.N. nomination) was hopelessly inefficient. Application was made to Rome some three weeks ago for a "career" Questore but as nothing has yet been done about this, the Questore was on 26 June dismissed by the Provincial Commissioner and the Vice-Questore appointed temporarily in his place. It is hoped that the change will do much to clear up the present unsatisfactory position with regard to denuncie and the prisoners who are detained without charges.

5. Since the Basile case there has been a distinct falling off in the attitude of the public towards the Assize Court. An acquittal last week resulted in a wild demonstration in Court and a prisoner who had been sentenced to prison was assaulted when being taken to gaol under Carabinieri Guard. The average Italian seems to have but little idea of Justice.

For the Provincial Commissioner :

Hospital

Major B.E. Dreyfus.

(b) In addition to the above Lt.Col. G.G. Hannaford attached from A.C. HQ. has been working at Regional HQ. and throughout the Provinces on matters connected with the Italian Courts.

(c) P.L.Os. started working in their Provinces on various dates between April 28th (Mantova) and May 10th (Sondrio). The Legal Division of Regional HQ

/commenced

- 2 -

commenced to function in Milan on May 7th having spent the previous week in visiting many of the Provincial Headquarters.

(d) The R.L.O. and Lt.Col. Hannaford have paid at least one visit to each Province, and road and telephone facilities make it easy for regular contact to be maintained with all P.L.Os.

(e) The Chief Legal Adviser visited the Region during the month and advised on a variety of problems. Joint meetings were held with the P.L.Os. of Piemonte and Liguria.

2. Proclamations and Orders.

The following Proclamations and Orders have been posted in all Provinces :-

- (a) Proclamations Nos. 1 - 4.  
General Orders Nos. 1, 2, 28, 35, 35 A, 39, 40, 41.
- (b) Order signed by C.G. IV Corps establishing Ufficio Trasporti (copy attached)
- (c) Notices relating to the surrender of arms.  
The terms and dates laid down by these notices have varied in different Provinces, but the final date is nowhere later than 7th June 1945.

In addition Regional Orders Nos. 1 - 4 (copies attached) have been signed and are in course of distribution. These together with General Order No.20 will be posted in all Provinces within a few days.

In the frontier Provinces of Como, Varese and Sondrio Provincial Orders have been issued in implementation of the directives received from higher authority for the maintenance of a prohibited zone. The practical application of these directives to local conditions is extremely difficult and their usefulness is - respectfully - questioned.

3. A.M.G. Courts.

In view of the conditions existing in this area, it is hoped that the holding of A.M.G. Courts on any extensive scale can be avoided. The gradual increase in A.M.G. legislation and the arms situation

/after

- 3 -

after 7th June may, however, defeat this policy. During May approximately 37 cases were tried in Milan City and 3 in Milan Province, all for curfew offences or illegal possession of allied property. No Courts were held elsewhere in the Region.

4. Implementation of Italian law.

As previously reported, Italian Government Legislation up to and including the contents of Gazzetta Ufficiale No. 51 became effective in all Provinces on 19th May, with the exception of the Decrees excluded in the Supplement to G.U. No. 51 and the three Decrees which had previously been brought into force in connection with the Special Courts of Assize.

Subsequent issues of the Gazzetta Ufficiale have been delivered to the Prefects in accordance with established procedure, and instructions have been given for receipts to be returned to HQ. A.C. direct.

Certain losses in transit remain to be made good, and there is in addition a constant demand for extra sets of the Gazzetta to meet the needs of lawyers and others whose thankless task it is to study the laws passed in the South since September 1943.

5. Italian Courts.

The normal Italian Courts appear to be functioning as well as can be expected in view of current difficulties. P.L.Os. report little ordinary crime, though Pavia tried a serious case of insulting behaviour by two women charged with sending a box of horse manure through the post to a citizen of the male sex and Cremona dismissed eleven charges outstanding against listeners to Radio Londra.

Separate reports have been rendered on personnel matters and it is not proposed to deal with these here beyond saying that the acting First President and the Procuratore Generale of the Court of Appeal in Milan have set a fine example of energetic cooperation which has been more or less universally followed in the Provinces. The provision of personnel for the Special Courts of Assize and the task of sorting out and preparing cases for trial have thrown a considerable burden on the judicial officials, but they have undertaken it in an uncomplaining spirit and without the customary "Come si fa ?" replies.

- 4 -

A special Commission to epurate the magistracy under General Order No. 35 will be appointed very shortly. In the meantime, a number of magistrates are enjoying an unofficial "congedo" while a few - one President of Tribunale, one Procuratore del Regno and two Pretore - have been suspended under Exec. Memo No. 67

6. Special Courts of Assize.

A detailed Report on the cases tried during May has already been rendered. Sittings have been held to date in Milan, Bergamo, Brescia, Como, Cremona and Varese, while in Mantova, Pavia and Sondrio hearings have been fixed for the first week in June.

As was to be expected the opening sessions have been marked by crowd demonstrations in Court and loud cries of "morte", which it may be observed have achieved their object in only 3 cases out of 12 tried in Milan and in none tried in the Provinces. It is hoped that with the continuation of the Courts popular clamour will gradually subside.

Difficulties in the way of the smooth operation of these Courts include the absence or falsity of "denuncie" against many of those held in custody, POW directive and the lack of sufficient legal personnel in some districts. It is to be hoped that interference from outside of the type recently reported will not have to be added to this list.

7. Section of Court of Cassation.

Lt.Col. Hannaford has devoted considerable thought to the setting-up of this Court and it is now ready to function. His task has been rendered all the more arduous by the virtual impossibility of finding any place for the members of the Court to live or adequate food for them to eat.

8. Military Courts.

In the early weeks of occupation, Military Courts were established under orders of General Cadorna in Milan and Como. Some 7 cases were tried by the former and 10 by the latter resulting in a number of death sentences which were immediately carried out. Action has been

/taken

- 5 -

when sent? Stein

taken to prevent the extension of these Courts to other Provinces and to discontinue those appointed after completion of the cases for which they were convened.

A directive is awaited from HQ A.C. to delimit the respective jurisdiction of the Special Courts of Assize and the Military Tribunals.

9. Epuration.

Epuration Commissions under G.O. 35 are working in all Provinces and in accordance with authority received from HQ A.C. have been directed to extend their investigations to employees in category "Postponed". This provision is welcome as it will enable the Commissions to regularize the position of a number of state employees who had already been unofficially suspended or left in the air by the closure of their ministries.

The need for an Order covering private industry was discussed with the Chief Legal Adviser, Major Palmieri and Sig. Boeri on their visit to this Region. The resulting G.O. No. 46 which has just come to hand should go some way to meet the problem of illegal suspensions and dismissals by internal committees.

10. Appointments of Receivers.

This branch of the work has been brought into prominence by the Regional Order voiding all C.L.N. appointments, since the Commissari nominated by them have to be confirmed or replaced by A.M.G. orders. The concerns affected fall into three main types :

- (a) Ministries of the Fascist Republican Government for which liquidators are appointed, whose duty it is to present a report to A.M.G. by 30th June.
- (b) Parastatal and other organizations which are to continue in operation until they can be integrated with their Head Offices in Rome.
- (c) Industrial firms, whose Directors or Managers have fled or been dismissed.

The procedure to be followed in each of those cases and the administrative machinery for carrying it out are being slowly perfected, but in the meantime the Legal Division is obliged to devote a great deal of time to this work.

- 6 -

11. Ministry of Justice.

Dr. Salvatore Zingale from the Ministry in Rome visited Milan, Brescia and Cremona and has reported on what he found. It is hoped that arrangements can be made for all the remaining assets in this Region to be taken under central control at an early date and for the necessary directions to be issued regarding the personnel, whose future is still in doubt. If this can be done soon, the appointment of a local Commissario can be avoided.

12. General.

A restatement of policy on the POW question is awaited, together with directives on how members of the Brigade Nere and other similar organizations who are required for trial by the Special Courts of Assizes are to be handled.
