NOTE VERBALE

The American Embassy presents its compliments to the Royal Ministry of Foreign Affairs and, upon instructions from the Department of State, offers the following reply to the Ministry's communication of January 9, 1945 (No. 00274), transmitting a memorandum of the same date regarding the economic and financial situation of Italy. The present communication will also serve as a reply to the letter of June 1, 1945 addressed to the Allied Commission for the American Ambassador by the President of the Council of Ministers, concerning the provision of credits to the Italian Government to meet urgent recovery needs.

The Government of the United States is keenly aware of the economic problems which confront the Italian Government, among them the budget deficit which it faces, the inflation of domestic prices, the deficit in its external payments position and the urgent need of Italy to receive supplies. It is the earnest desire of the United States Government to cooperate to the fullest extent possible in aiding in the solution of Italy's problems.

The Royal Ministry's memorandum of January 9, 1945, above referred to, raises the following three fundamental problems:

- (1) The deficit in Italy's external payments position;
- (2) The settlement to be reached between Italy and the United States in connection with various claims arising out of the war;
- (3) The budgetary deficit of the Italian Government and the problem of controlling inflation in Italy.

With reference to the first of these problems, Italy's basic import requirements for civilian supplies have been and continue to be met by the combined supply program of the United States, United Kingdom and Canada. These requirements will be met next year by the United Nations Relief and Rehabilitation Administration, if the additional funds which were recently requested by the UNRRA Council are furnished by the participating Governments. The provision of such aid in the near future would make it unnecessary to obtain a credit, such as was requested in the letter of June 1 from the President of the Council of Ministers, for the financing of the most essential imports. It is recognized that the Italian Government also faces

problems which confront the Italian Government, among them the budget deficit which it faces, the inflation of domestic prices, the deficit in its external payments position and the urgent need of Italy to receive supplies. It is the earnest desire of the United States Government to cooperate to the fullest extent possible in aiding in the solution of Italy's problems.

The Royal Ministry's memorandum of January 3, 1945, above referred to, raises the following three fundamental problems:

- (1) The deficit in Italy's external payments position;
- (2) The settlement to be reached between Italy and the United States in connection with various claims arising out of the war;
- (3) The budgetary deficit of the Italian Government and the problem of controlling inflation in Italy.

With reference to the first of these problems, Italy's basic import requirements for civilian supplies have been and continue to be met by the combined supply program of the United States, United Kingdom and Canada. These requirements will be met next year by the United Nations Relief and Rehabilitation Administration, if the additional funds which were recently requested by the UNRRA Council are furnished by the participating Governments. The provision of such aid in the near future would make it unnecessary to obtain a credit, such as was requested in the letter of June 1 from the President of the Council of Ministers, for the financing of the most essential imports. It is recognized that the Italian Government also faces the problem however of financing the importation of urgently needed supplies for reconstruction purposes, not included within the scope of the UNRRA program. With respect to that problem, the United States Government has a sympathetic understanding of the reconstruction needs of European countries and its policy is to provide assistance, whenever possible and appropriate, in meeting those needs. In the case of Italy the United States Government is prepared to discuss with the Italian Government representatives the provision of funds for reconstruction needs, for example, through the

Export-Import Bank. Loans are made by the Export-Import Bank for specific projects, as the Italian Embassy in Washington has been informed, and those who apply for loans from the Export-Import Bank must therefore be prepared to furnish detailed information concerning the specific projects contemplated and the source from which repayment of loans is expected.

With respect to the second problem, the matter of reimbursement for all-time issues and for requisitions by the United States armed forces in Italy is related intimately to the financial settlement which will ultimately be made with regard to claims arising out of the war and also to the obligation of the Italian Government to pay for civilian supplies furnished to Italy. It is therefore expected that these matters will be taken up in connection with the treaty of peace.

The third fundamental problem, regarding the internal financial situation in Italy, cannot be solved by external assistance alone. The control of inflation in Italy involves internal measures and controls as well as the supply of an adequate volume of essential goods from abroad. The United States Government can be of assistance only in enabling the Italian Government to obtain necessary imports, but such help cannot alone provide a solution for inflation and the general financial breakdown which threatens Italy.

It is therefore of highest importance that prompt and stringent measures be taken by the Italian Government to control wages and prices and to eliminate the black market. It is equally important, toward increasing revenues, that the Italian Government modernize and improve the efficiency of the tax system, that it adopt appropriate emergency tax measures and that it take steps to secure the most efficient use of funds expended inasmuch as a prompt reordering of the internal financial situation is of utmost importance in restoring normal foreign trade and financial relations. The United States Government hopes that the Italian Government will be able to take more positive action in the future than it has in the past to increase the effectiveness of controls to combat inflation.

NOTE VERBALE

While fully recognising the gravity of the economic and financial situation in Italy, His Majesty's Government cannot accept the suggestion in the Italian memorandum of 9th January, that it is the result of the requirements of the Allied Armed Forces which have been fighting for the liberation of Italy. Allied military expenditure in Italy has been far less than the inflationary deficits of the Italian Government and it is in the latter that the most obvious dangers lie. Furthermore, His Majesty's Government and the United States Government have been providing Italy with very considerable imports for civilian consumption on credit terms, the immediate effect of which is substantially to offset Italy's obligations under the Armistice. No acknowledgment of these important supplies is made in the Italian memorandum.

2. As regards the terms of the Armistice, the Italian Government undertake to provide free of charge such Italian merchandise as the United Nations will require. His Majesty's Government, therefore, cannot accept the argument that the Italian contribution to the cost of the war against Germany is limited by the Armistice to any particular class of services in Italy. As the Italian Government knows, this does not mean that the wide powers taken by the United Nations will be used as a pretext for placing unreasonable burdens on Italy. The contributions to the common cause made by liberated Italy and the Italian partisans are fully taken into account. But His Majesty's Government see no purpose in entering into legalistic argument based on the Armistice terms.

3. The Italian Government do not explain how in their view the foreign currency credits for which they asked might possibly have an indirectly beneficial influence on the raising of an interest loan. Owing to the concentration of the British production of essential war supplies, which leaves no margin for exports over and above what is required to pay for urgently needed imports, such credits could not be regarded as the United Kingdom at present be converted into the exports which Italy needs and could therefore be of little real benefit. As regards the Italian Government's credit, it is His Majesty's Government's hope that the Italian Government will now be able to obtain on its own merits the support of all sections of the country for a vigorous programme of economic and financial reconstruction. Limited foreign credits could cover only a very small proportion of the funds required and His Majesty's Government are glad to learn that the Italian Government has now issued a large loan which has been fully subscribed and which does not rely upon foreign currency guarantees.

4. On the other hand the financial situation in Italy calls for energetic internal measures which should aim at bringing the Italian economy into an efficient state capable of resisting the strain imposed by the shortage of supplies. Owing to the concentration of the British production of essential war supplies, which leaves no margin for exports over and above what is required to pay for urgently needed imports, such credits could not as regards the United Kingdom at present be converted into the exports which Italy needs and could therefore be of little real benefit. 4. On the other hand the financial situation in Italy calls for energetic internal measures which should aim at bringing the Italian economy into an efficient state capable of resisting the strain imposed by the shortage of supplies. The inflationary trend in Italy is greatly accentuated by the maldistribution of available food and other necessary supplies, by the flourishing black market and by the inability of the Italian Government to collect an adequate revenue. It is to measures of this kind that Italy must look first of all for some alleviation of her pressing economic and financial difficulties and it would be most dangerous to allow the impression to grow that external assistance would be an adequate substitute or that the situation will be remedied without most energetic action of the Italian Government and people themselves.

5. As the Italian Government know, His Majesty's Government desire to see the Italian economic and financial situation restored and are willing to help to the extent permitted by their many commitments both during the war and in respect of relief in the post-war period. They are taking steps to resume trade with Italy and are allowing her the use of her post-liberation sterling account. They could not, however, add to their heavy liabilities at the present time, even if it appeared that the credits asked for by the Italian Government would be of any material assistance at this stage.

The official text of the announcement of the appointment of Mister MACMILLAN is as follows:

"As already announced, the President of the United States and the Prime Minister of Great Britain recently reviewed the situation in Italy and agreed on a general policy to meet the many economic and other difficulties of that country.

In order to facilitate the task, they have agreed that the Right Honourable HAROLD MACMILLAN, MP, British Resident minister at Allied Force Headquarters, Mediterranean, should, in addition to his present post, become the responsible head of the ALLIED COMMISSION. In order to effect this, General WILSON will delegate to Mister MACMILLAN his functions as President of the Commission.

Commodore STONE of the United States Navy, at present the Acting Chief Commissioner, will be appointed Chief Commissioner. Mister MACMILLAN as acting president will be specifically charged with the duty of supervising development of new measures, together with any change in structure^{of} the Commission necessary to carry them out.
