SUBJECT : Case of PISANU - Witness POW.
TO : Regional Commissioner, SARDINIA Region
(Attn: Regional Legal Officer).

1. Reference your L/1477 of 27 Jan 45. as there is little likelihood of POW PILIA Francesco being returned to Sardinia in the near future, it is agreed that the proposal set out in your para 4 be implemented.

2. Would you therefore request the Procuratore Generale to prepare an agreement with the defense what is known in Italian procedure as a "Rogatoria" (evidence taken on commission) and forward it to the Minister of Justice, who will then approach this sub-commission in order that the required evidence may be obtained from the POW concerned.

3. It is pointed^{out}, however, that such evidence on commission may have to be taken through diplomatic channels. Italy having at present no representation in South Africa, it might be necessary to request a consular representative of the protecting nation (Switzerland) to act. On the other hand it may well be that the Minister of Justice may accept evidence taken by a South African Commission under the procedure in force in the Union.

4. In order to avoid unnecessary delays will you please expedite matters at your end. In the meantime, this sub-commission will endeavour to ascertain ways and means.

SUBJECT: Return of Prisoner of War

TO : Chief Legal Advisor, Hqs Allied Commission, APO 394

1. The case of one PISANU Vitterio and others, held for murder and other crimes has been pending before the Court of Assize for Sardinia since 1940.
2. The reason for the delay has been due to the absence of a vital witness in the case. The witness is one Pilla Francesco currently held as Prisoner of War #67012, at Italian Prisoners of War Company #6, Campo 43, Blocco II, Union of South Africa.
3. While it is appreciated that there is little likelihood of this Prisoner of War being returned to Sardinia in the near future, it would be helpful to the Procuratore Generale to know definitely if there is any possibility of his return.
4. If the answer to paragraph 3 is negative, it has been suggested to the Procuratore Generale, that a series of questions be framed by both prosecution and defense which could be forwarded to the prisoner to answer. These could be used in conjunction with a deposition that was apparently taken in 1942 prior to the capture of the subject witness.

SUBJECT : Case of Sgt ANDREAS Ludwig.

TO : Regional Commission (attn: Regional Legal Officer),
APRUZZI-MARCHES Region.*Forward to CA for
as War Crime*

1. Reference your IC/511/38 of 20 Nov 44. If Sgt ANDREAS has been taken prisoner by the Allied Forces he is entitled to the benefits of the Geneva Prisoners of War Convention 1929 unless he has committed a war crime.
2. If he committed the alleged offence, he has committed a war crime; if he is innocent he cannot be handed over to the Italians for trial.
3. Apart altogether from the Anglo-American presumption of innocence, it would obviously be impossible to hand over a prisoner of war for investigation and trial since he might be found to be not guilty and the detaining power would then have committed a breach of the Geneva Convention.
4. For these reasons the trial of Sgt ANDREAS must take place either in the courts of the detaining power during his captivity or under arrangements made for the trial of war criminals at a later date. See Oppenheim, International Law, 6th Edition, Vol II, p. 451.
5. In any event the Allied Commission is neither a private enquiry agent nor a firm of process servers and the Armed Forces would not be disposed to accept or act upon such orders as are contained in the mandato di cattura. The documents are accordingly returned.
6. If the Italian authorities are disposed to put forward the necessary evidence the matter can be referred to the appropriate authorities so that either ANDREAS's case be tried in the Allied Courts or his case can be listed as a war crime for action at a future date.

"It is forbidden to employ prisoners of war on unhealthy or dangerous work."

3. It can hardly be said that clearance of mines is not dangerous. It might be argued that to prisoners of war experts in mine clearance such work would not be dangerous. I feel that the work is inherently dangerous and German prisoners of war can not legally be compelled to engage in it. Any such compulsion would clearly and directly infringe the Geneva Convention.

A2/431

TO: PW and DP Sub-Commission

SUBJECT:- Escaped Greek PW arrested by the Italian Police

I have the honour to bring to your knowledge that on 3 instant CHRISTODULOU PAVLOS, escaped Greek PW was travelling on the train running from NAPLES to BARI. He had been instructed by the ACC to report at BARI to the Greek representative. At a station near BRINDISI an incident occurred following which Carabinieri who were travelling on the same train intervened manhandling CHRISTODULOU, had him arrested and escorted him handcuffed (CHRISTODULOU was in uniform) to the Carabinieri. A warrant of arrest was made out and signed by an MCO (copy is herewith attached) and CHRISTODULOU was placed in the local jail where he remained until 12 May 1944.

On 9 inst the LO I & DP sub-commission informed me that a Greek subject was detained in the local jail and showed me the documents which were in his hands i.e.

- (a) Movement order issued in CHRISTODULOU's name by the ACC
- (b) CHRISTODULOU's identity document.

(These documents have been handed to the LO by an American civilian who had visited the above named detainee at the jail).

59

Major SIMON (the LO) communicated immediately with the local Allied Authorities and the Prosecutor (Procuratore del Re) and for four days exhausted all endeavours to have CHRISTODULOU released from jail. In the meantime, the detainee seeing that he was not allowed to communicate with either the Allied Authorities or the local Greek representative, went on hunger strike. In any other place or country even an ordinary prisoner would have been allowed to communicate with his lawyers.

The prosecutor stubbornly refused to give way to Major SIMON's demand although the latter pointed out that:-

- (a) The detainee was travelling with a proper movement order issued by the Allied Forces to which he belonged.
- (b) The detainee was in uniform.
- (c) He had been ill-treated by members of the Italian Police Force.
- (d) No interrogation had been carried out for five whole days after CHRISTODULOU had been imprisoned, which is contrary to any principles of any civilized country.
- (e) His arrest was not notified to any Allied Authorities.
- (f) He (The Prosecutor) had forbidden to the Greek representative to communicate with the detainee.

(b) GHERGOLOU's identity document.

(These documents have been handed to the LO by an American civilian who had visited the above named detainees at the jail).

Major SIMONE (the LO) communicated immediately with the local Allied Authorities and the Prosecutor (Procuratore del Re) and for four days exhausted all endeavours to have GHERGOLOU released from jail. In the meantime, the detainee seeing that he was not allowed to communicate with either the Allied Authorities or the local Greek representative, went on hunger strike. In any other place or country even an ordinary prisoner would have been allowed to communicate with his lawyers.

The prosecutor stubbornly refused to give way to Major SIMONE's demand although the latter pointed out that:-

- (a) The detainee was travelling with a proper movement order issued by the Allied Forces to which he belonged.
- (b) The detainee was in uniform.
- (c) He had been ill-treated by members of the Italian Police Force.
- (d) No interrogation had been carried out for five whole days after GHERGOLOU had been imprisoned, which is contrary to any principles of any civilized country.
- (e) His arrest was not notified to any Allied Authorities.
- (f) He (The Prosecutor) had forbidden to the Greek representative to communicate with the detainee.
- (g) The detainee was interrogated in an office, in Italian, without any interpreter being present, whilst detainees hardly understood or spoke Italian.

The Prosecutor stated that it was not in his competence to release the detainee but it seems it was in his competence to keep him in jail.

The attitude adopted by the Bari Prosecutor transgressed every principle of justice and his obligations towards the Allied Authorities. His attitude towards an escaped PW who had just crossed the lines can only be explained by the fact he personally as well as the local Italian Authorities have tried to ignore the instructions and showed their hatred against individuals who ought to have the respect and good treatment.

The attitude adopted by the Italian Authorities, undermining the order by the Allied Authorities, may hamper the endeavour to trace any Greek or displaced persons in future.

This attitude is also contrary to the principle for which the Democracies are fighting. Freedom and Justice, which can only be achieved if the Allied Authorities made an example of this case to prevent it becoming precedent and to take action against the Bari Prisoner, the HCO who signed the warrant of arrest and those who kept the escaped Greek PW in jail for over the normal 24 hours without allowing him to communicate with anyone.

The following information has been obtained from interrogation of:-

- (a) Pavlos CHRISTODOULOU (Greek)
 - (b) Vojislav TATIG (Yugoslav)
- who were interrogated at your request on 12 May 44.

1. PRELUDE

Both sources were former PW who had escaped and crossed over to Allied occupied territory. The Allied Authorities in Naples gave them a movement order, placed them on a train and instructed them to travel to BARI and report to the representatives of their respective governments there. During the voyage the incident described below occurred and both sources were arrested by the Italian authorities, handcuffed and placed in BARI jail, where they remained from 3 to 12 May 44.

2. STATEMENT

Sources left NAPLES on 2 May 44 by the 1600 hrs train, which was crowded. They had to stand in the corridor. A few hrs from BARI, while CHRISTODOULOU was conversing with a young Italian woman, both leaning out of the window, a Carabinieri pushed past him, without apologising or asking to be allowed to pass. CHRISTODOULOU was annoyed and asked: "no buono, perche non fare così", expressing with his hands that the Carabinieri ought first to have asked his consent (CHRISTODOULOU) to make way. The Carabinieri did not reply and went away. A few moments later he returned and again pushed his way through. CHRISTODOULOU protested this time in Greek. They came to words, each speaking his own language, which the other did not understand. Suddenly and without provocation, the Carabinieri delivered CHRISTODOULOU a kick in the stomach. CHRISTODOULOU doubled up in pain. TATIG who during these proceedings was standing on the other side of the young woman came to rescue. The Carabinieri kicked him too, and drew his pistol. In the meantime several other OS/RS and Italian civilian policemen attracted by the altercation, intervened and mobbed both sources. CHRISTODOULOU was thrown on the floor. He was hit with the handle of a bayonet, and some one hit him on the back of the head (according to TATIG, CHRISTODOULOU was hit with a piece of an earthenware spittoon which the offender broke under his heel), causing a wound which started bleeding. TATIG too was pushed and kicked. CHRISTODOULOU lit a cigarette when a

Sources left NAPLES on 2 May 44 by the 1600 hrs train, which was crowded. They had to stand in the corridor. A few lire from BARI, while CHRISTODOULOU was conversing with a young Italian woman, both leaning out of the window, a Carabinieri pushed past him, without apologizing or asking to be allowed to pass.

CHRISTODOULOU was annoyed and said bitterly: "No meno, perché non fare così", expressing with his hands that the Carabinieri ought first to have asked him (CHRISTODOULOU) to make way. The Carabinieri did not reply and went away. A few moments later he returned and again pushed his way through. CHRISTODOULOU protested this time in Greek. They came to words, each speaking his own language, which the other did not understand. Suddenly and without provocation, the Carabinieri delivered CHRISTODOULOU a kick in the stomach. CHRISTODOULOU doubled up in pain. TATTO who during these proceedings was standing on the other side of the young woman came to rescue. The Carabinieri kicked him too, and drew his pistol.

In the meantime several other G. N. I. and Italian civil/military policemen attracted by the altercation, intervened and unhandled both sources. CHRISTODOULOU was thrown on the floor. He was hit with the handle of a bayonet, and some one hit him on the back of the head (according to TATTO, CHRISTODOULOU was hit with a piece of an earthenware spittoon which the offender broke under his heel), causing a wound which started bleeding. TATTO too was punched and kicked.

The fight eventually came to an end. CHRISTODOULOU lit a cigarette when a Carabinieri came over with a chain which he threw over CHRISTODOULOU's neck. CHRISTODOULOU said that he wanted to see the Greek representative on arrival and offered no resistance. He put out his hands and his wrists were chained. He left into an empty compartment. TATTO was also arrested taken to the same compartment and was chained to CHRISTODOULOU by the wrists. The young Italian woman who CHRISTODOULOU had spoken was also brought in, as well as a young Yugoslav girl during the fight had tried to shield TATTO and had been kicked. Three or four mounted guard outside the compartment.

On arrival at BARI the four prisoners were taken to the local jail. CHRISTODOULOU and TATTO were placed in the same cell. They asked to see the representative of the respective governments but seeing that nothing of the sort was being done they went on a hunger strike.

Four days after their imprisonment they were seen by an American Civilian Liaison officer to them. When he left he carried away some of their documents. Only the day after were they taken out and interrogated in an office in town. The interrogation was conducted in Italian. They were then returned to jail where they remained until 12 May 44.

COPI.I.O.'s COMMENTS

- a) It is pointed out that when these two persons were arrested they were both in uniform and were travelling with proper documents, including identity cards and movement order.
- b) The two sources, although foreign nationals, were arrested by Italian authorities, who failed to hand them over to the local P.S.S. or to inform the representatives of their respective governments.
- c) Though the two Sources repeatedly asked to see their Government's representatives, their request was not granted and they were kept in jail for four days before anyone was allowed to see them.
- d) Their first interrogation took place only after they had been seen by the American.
- e) According to Sources, the interrogation was conducted in Italian, a language hardly understood by either of them, and without assistance of an interpreter.

SUBJECT: Paroled Prisoners of War.

TO : Military Government Section, A.F.H.V. (63)

1. Reference letter MGS 383.6 of 27 April 1944, it is considered that there are only three classes of POW :

- (a) POW on parole which includes classes (a) and (b) of your letter.
- (b) Interned POW, includes classes (c) and (d) of your letter.
- (c) Released POW - Italian soldiers on active duty - your class (e).

2. (a) The legal position in respect of class (a) above is that :

- (i) POW on parole who commit offences can have their paroles revoked and be returned to POW camp.
- (ii) There would appear to be nothing in the Geneva Convention or any other rule of International Law which renders it improper for a local court to try POW on parole for purely civilian offences (e.g. looting, rape) subject to the consent of the Detaining Power.
- (iii) Whether a paroled POW is tried before a civil court or a Tribunale Militare di Guerra depends upon the type of case.

(b) POW who are interned or who work should be tried in accordance with Chap. 5, Geneva Convention.

(c) Released POW as in (c) above are tried before their own tribunals. In exceptional cases in occupied territory, Italian soldiers are tried in AAF courts.

3. The procedure outlined in para. 3 is agreed as correct except that communication to the Italian authorities should be through this Commission, the Minister of Justice to be asked to issue the necessary directives to the Courts. 33

4. It is agreed that a forward release of all paroled prisoners would solve many difficulties.

1. With reference to the attached, with accompanying letter from the Minister of Grace and Justice relating to the wages and emoluments of a prisoner of war in Egypt. This refers to Richiamati and there is no reason why the request made should not be granted.
2. Payment of allowances to families of unparoled prisoners of war was originally stopped but the whole status of this class underwent a change after the signing of the Armistice and the applicant should now be permitted to receive the allowances.
3. The action attributed to the local Allied Command is not understood and is being referred to the Regional Commissioner for investigation.
4. It should be mentioned, however, that in any event the applicant is entitled to apply for communal relief where the normal income is interrupted as in the present case.

2- If true, then it seems a bit hard that payments to assignees of P.W. should be cut off. But why and how should the local Comando Alisato take such action, particularly for Feb & coming months - Feb being the month of "hand-back" to the Italians.

3- I suspect that there must be a misunderstanding somewhere: but meanwhile, can some action be taken to permit payments to be made?

The General King's Prosecutor of Catania Appellate Court has forwarded the attached petition from the wife of the a.m., at present a prisoner of war, asking that the wages and emoluments for February 1944 and following months owed him be paid her.

The Intendenza di Finanza of Catania who took the matter up answered that the local Allied Command had arranged for the suspension of the payment of wages to prisoners of war; kindly inform me if a similar measure has ever been taken in respect of the petitioner, and if it has, for what reason?

SUBJECT: Paroled POW.

TO : Deputy Executive Commissioner.

1. Ref your 9/91/CA dated 3 May 44.

2. As a matter of law there are only 3 classes to be considered and not five as suggested in Para 1 of AFHQ letter 383.6 dated 27 April 44.

These classes are as follows:

(i) POW on parole; this includes classes (a) & (b) of the a/m letter.

(ii) Interned POW. This includes classes (c) & (d).

(iii) Released prisoners of war. Presumably Italian soldiers who are on active duty (See para (e)) have been released.

3. The legal position of the 3 classes is as follows:

(i)(a) Prisoners on parole who commit offenses can have their ¹⁵ parole revoked and be returned to a POW Camp.

(b) The position under International law of POW on parole who commit purely civilian offenses (e.g. looting, rape) in relations to the jurisdiction of local courts is but little discussed in the books. It is the opinion of this Subcommittee that there is nothing in the Geneva POW Convention or any other rule of International law which renders it improper for a local court to try POW on parole for such offenses at any rate with the consent of the Detaining Power. The Minister of Justice concurs in this view.

Whether a paroled POW is tried before an Italian Civil Penal Court or a Tribunale Militare di Guerra depends on the exact type of the alleged offence.

(ii) POW who are interned or who work should be tried for offenses in accordance with Chap. 3 of the Geneva Convention.

(iii) This class are tried before their own tribunals, penal or military, according to the circumstances of the case. In exceptional circumstances

in occupied territory Italian soldiers are also tried in AD Courts.

4. Subject to Para. 5 below this Subcommittee is of opinion that the course proposed by CC IES in Para. 4 of AFHQ letter is correct.

5. With regard to Para. 4(a) of AFHQ letter this Subcommittee is strongly of opinion that any communication to Italian officials should be through CC, especially in this very difficult and important matter. Furthermore in detail it is not possible to inform the Italian Courts what jurisdiction they have because such depends on the type of offense and so on. This Subcommittee thinks that the best course would be to ask the Minister of Justice to issue a directive on the subject to the Courts. Please let me know if you desire that this course should be followed.

6. A consultation with the Army Subcommittee has been held and it was agreed that a formal release of all paroled prisoners would solve many difficulties but it is understood that this is a matter of policy which has been under consideration at the highest level and up to the present HQ AAI has only permitted the release of prisoners on parole in individual cases.

SUBJECT: Paroled Prisoners of War

TO : Hq. Allied Control Commission
(Attention: Executive Commissioner,
R.C. and M.G. Section.

1. There is now before the Commanding General, NATOUSA, a letter from the Commanding Officer, Island Base Section, seeking a comprehensive statement of policy on the status and treatment of paroled prisoners of war. This letter distinguishes between five different categories of Italian military personnel.

a. Non-interned personnel who presented themselves after the Armistice and who therefore were not interned but released on parole.

b. Paroled prisoners of war. "The parole system formerly was supervised by the Allied Military Government. Upon the assumption of jurisdiction by the Allied Control Commission, there apparently was no transfer of the control function to a Military Organization. For all practical purposes, the parole system no longer exist."

c. Interned prisoners of war - which group IBS has for the greater part assigned to Italian Service Units.

d. Italian service personnel - prisoners of war who have volunteered for duty with Italian Service Units.

e. Italian soldiers - on active duty with Italian Army Units.

2. The letter states that the immediate problem is the status of non-interned and paroled prisoners of war. These specific points are raised:

Not? ¹⁰⁷ a. Extent of jurisdiction of Italian Police and Civil Courts.

Impacted? b. Revocation of paroles upon conviction for civil offenses.

how? c. Authority of Italian Army Officers to order paroles of certain military classes to report for army duty regardless of their status as parolees.

d. Exact status of non-interned personnel in paragraph la above.

3. Pending the receipt of a statement of policy, the Commanding Officer, IBS, states that the following action will be taken

a. Italian police and courts will be advised that they have authority to arrest and try parolees for civil offenses, and to pass and execute sentence, but that this headquarters must be notified of each case.

b. Local police will be instructed that they may not arrest parolees for the purpose of returning them to the control of the Italian Army.

c. Local Italian Army Officers will be advised that at present parolees will not be released from their status as Prisoners of War for service in the Italian Army

4. The 1st Indorsement, for the C.G., S.O.S., NATOUSA, recommends that parolees be released to the Italian Government.

5. The above communication is being circulated to all Staff Sections concerned, for recommendations upon which a comprehensive reply may be prepared. In order that Military Government Section may have the benefit of the observations of the Allied Control Commission, it is requested that this Section be advised, as promptly as may be, what is the present situation as to the parole system, and what comments the ACC may wish to make upon it.

Notes on Gen Spafford's letter re. POWs.

From this letter:

1) There appear to be only two categories of Italian Military.

A) - Various forms of POW grouping a. b. c. d.

(These are within the jurisdiction of Italian Courts)2) - What are the channels through which I.B.S. will

prisoners? Who is to pay them? 69

OGGETTO : Prigionieri di guerra rilasciati sulla parola.

AL : Comando della Commissione Alleata di Controllo.
(all'attenzione del Commissario Esecutivo, Sezione
R.C. e M.G.).

1. E' pervenuta al Comando Generale, NATOUSA, una lettera dall'Ufficiale Comandante la "Island Base Section" (Sicilia) con la quale vengono richieste esaurienti istruzioni circa l'atteggiamento da adottare nei riguardi dello stato e del trattamento dei prigionieri di guerra rilasciati sulla parola. Detta lettera distingue i militari italiani in cinque differenti categorie:

- a) Militari non internati che si costituirono dopo l'armistizio e che pertanto non furono internati ma rilasciati sulla parola.
- b) Prigionieri di guerra rilasciati sulla parola. Inizialmente la competenza del sistema del rilascio sulla parola fu attribuita al Governo Militare Alleato. Con l'assunzione dei poteri da parte della Commissione di Controllo, non ebbe luogo evidentemente nessun trasferimento di funzioni di controllo ad alcun organismo militare. Praticamente il rilascio sulla parola non ha ulteriormente più luogo.
- c) Prigionieri di guerra internati. Categoria che la "Island Base Section" ha per la maggior parte assegnato alle Unità Italiane addette ai servizi.
- d) Personale italiano addetto ai servizi. Prigionieri di Guerra che hanno volontariamente chiesto di lavorare con le Unità Italiane addette ai servizi.

- e) Soldati Italiani, in servizio presso le unità dello Esercito Italiano.

2. La lettera fa presente che il problema urgente è costituito dai prigionieri di guerra non internati e rilasciati sulla parola. Vengono al riguardo sollevati i seguenti punti:

- a) Estensione della giurisdizione della Polizia e dei Tribunali italiani.
- b) Revoca della concessione della liberazione sulla parola in seguito al riconoscimento di colpevolezza di reati civili.
- c) Poteri degli Ufficiali dell'Esercito Italiano di ordinare ai prigionieri di guerra rilasciati sulla parola, di determinate classi, di presentarsi per il servizio militare senza tener conto delle loro condizioni di prigionieri di guerra rilasciati sulla parola.
- d) Esatto stato dei militari non internati di cui al paragrafo 1 (a) sopracitato.

3. In attesa delle istruzioni circa l'atteggiamento da adottare, l'ufficiale Comandante la I.B.S., comunica che saranno

prese le seguenti misure:

- a) Sarà fatto presente alla Polizia ed ai Tribunali italiani che essi hanno il potere di arrestare e giudicare per reati civili i prigionieri di guerra rilasciati sulla parola, e di emanare e dare esecuzione alla sentenza, avvisando questo Comando per ogni caso.
- b) Alla polizia locale saranno impartite istruzioni nel senso che non può arrestare i prigionieri di guerra rilasciati sulla parola per riportarli sotto il controllo dell'Esercito Italiano.
- c) I locali ufficiali dell'Esercito Italiano saranno avvisati che, al momento, i prigionieri di guerra rilasciati sulla parola non perdono la loro qualità di prigionieri di guerra per prestare servizio con l'Esercito Italiano.

4. La 1.a annotazione del Comando Generale, S.O.S. NATOUSA esprime l'opinione che i prigionieri di guerra rilasciati sulla parola siano messi a disposizione del Governo Italiano.

5. La comunicazione suddetta è stata diramata e tutte le Direzioni delle varie Sezioni interessate, per il parere in base al quale sarà possibile redigere una esauriente risposta. Perchè la Sezione del Governo Militare possa valersi delle osservazioni della Commissione Alleata di Controllo, si chiede che siano fatti pervenire alla detta Sezione, al più presto, notizie dello stato attuale del sistema del rilascio dei prigionieri di guerra sulla parola, e tutti quei commenti che la Commissione Alleata di Controllo riterrà di fare al riguardo.

ACC/4076/L

SUBJECT: Prisoners of war on parole in Sicily.

TO : Chief Commissioner, ACC.

1. With reference to our conversation on Wednesday, the number of paroled prisoners of war in Sicily runs, I am informed, into many tens of thousands, so that I understand you will not be prepared to release them without a directive from higher authority. For your information, however, I set out below a short summary of the facts.
2. These men were members of the Italian Army whose homes are in Sicily. When taken prisoner there in July and August, they were released on parole and returned to their own homes. At first they reported at regular intervals to the CAO in their town or village, but later the records were turned over to the Carabinieri and it is unlikely that they now report to anyone.
3. Many of the men belong to age groups which are now being called up by the Italian Government and receive orders through the local Carabinieri to report to centers in the mainland. As they are forbidden under the terms of their parole to leave the island, they are referring to IPS for instructions.
4. Difficulties also arise when these men commit ordinary criminal offences, for which the Italian Courts are not prepared to try them. IPS do not want to revoke their paroles and take the men back into POW camps as they have no means of enforcing disciplinary action against them and the prisoners now remaining in the camps are enjoying a position of privilege rather than the opposite. In practice the situation is that the paroled prisoner of war lives exactly the same existence as any other citizen but can commit crimes with impunity as nobody is in a position to punish him effectively.
5. IPS are very anxious to be relieved of the responsibility in respect of these paroles.

 Chief Legal Officer.

(c) Arrest of Persons of Italian Descent

4076

The Allied Forces may continue to hold or require the Italian Government to hold in custody military or civil prisoners of war in unguarded areas. If the Allied Forces require to arrest any person for security or other reasons such arrest should be carried out in collaboration with Italian officials unless in any particular case it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all cases, except in emergency, the local officer of the Commission must be informed of the intention to make any such arrest, whether by the Allied or Italian authorities. If he is not in agreement the matter will be referred to higher authority. Normally such persons will be detained in 571 P. Camp.

1. Referring to letter No. ACC/4076/L dated 29 Feb 44, from Legal Sub-Commission, Rear H.Q., A.C.C., investigation into the circumstances had previously been made by H.Q. 71 Sub-Area, and the following facts were disclosed.

2. On 23 Jan 44 it was reported to G.C. 91 Port Security Section that DEL NEGRO was in Brindisi Prison without charges having been preferred. DEL NEGRO'S story was that he had been taken prisoner by the Americans in Sicily and was allowed by them to proceed to Milazzo (Messina) where he obtained work at 158 Transit Camp as a cookhouse assistant. From there he accompanied the unit to Brindisi. A few days later he informed a Corporal of the unit that he was without identification documents and would like some in order to regularise his position. On 13th December the Commandant of the Transit Camp asked him for documents of identification and as he was unable to produce any, he was placed in the civil prison at Brindisi, being taken there by Sergt. Baron A.R., who told him that an Italian Army Officer would come to the prison on the following day to interrogate him and give him new documents. No Italian Officer came to the prison to see him until 20th Jan 44.

63

3. The Officer Commanding 91 P.S.S. then caused DEL NEGRO to be interrogated in prison and, finding no grounds upon which the detention could be continued, informed Capitano Vitale, Italian Army Liaison Officer, HQ. 71 Sub-Area, that DEL NEGRO could be released. He was released from prison on 27 Jan 44.

4. The only document authorising the imprisonment was a slip of paper worded as follows, which was handed to the Prison Commandant by Sergt. Baron, at the time of DEL NEGRO'S entry into prison. "Il Capoguardia delle Carceri Giudiziarie di Brindisi riceverà e terrà a disposizione di questo Comando inglese il nominato DEL NEGRO sino di Attilio per misure di Polizia. Brindisi li 13.12.1943 Sgd. A.R. Baron Sgt; pp. F; il Comando Inglese

This document is in possession of HQ. 71 Sub-Area. ⁴⁰⁷⁶ SD

5. No. 71 Sub- Area Commander, on receipt of the above facts, asked 57 Area Commander that enquiries be made of the Commandant, 198 Transit Camp to explain the following points:-

- (a) Why it was considered necessary to place DEL Negro in jail.
- (b) Reason and authority for bringing him to the mainland from Sicily.
- (c) Reason why the incident was not reported to the proper authority.
- (d) Were Italian authorities contacted on the matter, and if not, why not.

6: In response to this, on 8th February 1944, Major J.G. Stephens, R.T.R., Commandant 198 Transit Camp, reported as follows:- "During the period that this unit was operating at Milazzo in Sicily this man was found to be assisting the Cooks as an odd job man.

On questioning he said that he was a native of Northern Italy who had been working in Sicily and was waiting until his own town was freed.

He was allowed to continue working in the cookhouse, until this unit moved to Brindisi on 17th November 1943.

Later he was found in the camp at Brindisi. He had obviously been smuggled on to one of the lorries with the connivance of some member or members of the camp staff and so brought to the mainland.

On 13th December 1943, DEL NEGRO made a voluntary statement that he was a deserter from the Italian Army. Until he made this statement there had never been any suspicion that he was a released P. of W. or even a member of the Italian Forces.

The D.A.P.M. 71 Sub-Area was consulted by 'phone and on his advice this man was handed over to the Civilian Authorities for investigation by them.

He was taken by the Camp Provost Sergeant, Sgt. Baron A.R. Coldstream Guards, to the Civilian Prison, Brindisi. Sgt. Baron reported to the Italian Prison Chief in his office with DEL NEGRO. As there were no documents accompanying him the Prison Chief was reluctant to accept him, but when DEL NEGRO made a statement that he was a soldier and deserted from his regiment in Sicily, he was detained pending interrogation in the Military Section of the Prison.

The Police Chief asked if Sgt. Baron would get in touch with some Italian Officer and Interpreter for the purpose of interrogation. Sgt. Baron went to Paradise Camp where there were Italian Troops. He asked for an Italian Officer and Interpreter and showed the Italian Officer the receipt received from the Prison Authorities. The latter stated, through the Interpreter, that the matter would be attended to by the prison authorities.

So far as this unit was concerned there was no charge against

him and as it was thought that the Civil Authorities would investigate and if necessary hand him over to the Italian Military Authorities or release him; no further action was taken by me.

(sgd) J.G. Stephens, Major RTR.
Commandant 198 Transit Camp, C.M.F. "

7. There the matter rests for the time being at 71 Sub-Area Headquarters, and a copy of this letter has been forwarded to there for inclusion in their file on the case.

Si informa che il 27 gennaio 1944 l'Ufficio di collegamento con la 71^a Sabarea di Brindisi ha potuto ottenere la liberazione dalle carceri giudiziarie di Brindisi del cap. magg. DEL NEGRO Cino, che vi era stato tradotto il 13 dicembre 1943 per ordine del comando alleato.

Dalle dichiarazioni fatte dal militare al Capo dell'ufficio di collegamento è emerso quanto segue :

Il Del Negro il 27 luglio 1943 venne fatto prigioniero da una unità americana la quale l'8 ottobre successivo lo passò al 189^o Transit Camp che lo impiegò, in Sicilia prima, ed in continente poi, come cuo- niere.

Giunto a Brindisi con il 189^o Transit Camp chiese che venisse re- solata la sua posizione presso le autorità militari italiane e que- sta sua richiesta fu rispo- sta con l'immediato interramento nelle car- ceri giudiziarie di Brindisi, dove venne accettato su semplice presen- tazione di un biglietto, a firma illeggibile, di un sergente inglese, così concepito : "Il capo guardia delle carceri giudiziarie di Brindisi riceverà e terrà a disposizione di questo Comandante inglese il detenuto Del Negro Cino di Attilio per misure di polizia".

Si informa che il 27 gennaio 1944 l'Ufficio di collegamento con la 71^a Subarea di Brindisi ha potuto ottenere la liberazione dalle carceri giudiziarie di Brindisi del cap. WOOD. DEL NEGRO GINO, che vi era stato tradotto il 13 dicembre 1943 per ordine del Comando alleato.

Dalle dichiarazioni fatte dal militare al Capo ed all'Ufficio di collegamento è emerso quanto segue:

Il Del Negro il 27 luglio 1943 venne fatto prigioniero da una unità americana la quale l'8 ottobre successivo lo passò al loge Transit Camp che lo impiegò, in Sicilia prima, ed in continente poi, come cuoia nera.

Giunto a Brindisi con il loge Transit Camp Chessa che volesse re- solvete la sua posizione presso le autorità militari italiane, e questa sua richiesta fu risposto con l'immediato internamento nelle carceri giudiziarie di Brindisi, dove venne accettato al semplice presentazione di un biglietto, e firma illegibile, di un sergente inglese, così concepito: "Il capo guardia delle carceri giudiziarie di Brindisi riceverà e terrà a disposizione di questo Comando inglese il prigioniero Del Negro Gino di Attilio per misure di polizia - Brindisi il 27/1/1943".

Risulterebbe pertanto che il Del Negro è stato incarcerato senza regolare biglietto di carcerazione e che della sua detenzione nessuna autorità militare italiana è stata informata.

Infatti l'Ufficio di collegamento con la 71^a Subarea è venuto a conoscenza dopo 45 giorni dell'incarcerazione del Del Negro, soltanto per mezzo di un biglietto che questi riuscì a far pervenire al Comando Tappia N. 9.

Si segnala il fatto a codesto Ministero per i provvedimenti che riterrà di adottare.

The Excellency Marshal of Italy Messrs
Chief of the Supreme General Staff

Your Excellency:

1. The Commission desires to bring to your attention that in the event of a charge brought against a Prisoner of War for trial by a military court, notification has to be made by the Detaining Power to the Protecting Power that a court has been convened.

2. It would appear that as Italy is now a co-belligerent, there is no Protecting Power to whom notification can be made in regard to the trial of Italian nationals. The Commission requests that you obtain from the Italian Government their wishes as to which body shall take the place of the Protecting Power as referred to in Articles 60, 62, 65 and 66 of the International Convention of 1929.

3. It has been suggested that these functions could be occasionally performed by the Italian Military Mission now in Algiers.

NOTA VERBALE

Il Comando Supremo ha trasmesso, per competenza, al R. Ministero degli Affari Esteri la Nota in data 2 febbraio indirizzata da codesta Commissione Alleata di Controllo a S.E. il Maresciallo Messe, relativamente ai prigionieri di guerra italiani.

1. In tale nota codesta Commissione Alleata di Controllo esprime l'avviso che, della cobelligeranza italiana conseguirebbe l'esaurimento della missione della Potenza Protettrice, alla quale non sarebbe in conseguenza possibile fare le notifiche relative alla citazione in giudizio di prigionieri di guerra italiani. Essa chiede quindi di conoscere il desiderio del Governo italiano circa l'ente cui possano essere devolute le funzioni attribuite alla Potenza Protettrice dagli artt. 60, 62, 65 e 66 della Convenzione di Ginevra del 29.7.1929 relativa al trattamento dei prigionieri di guerra e suggerisce che il TGH non potrebbe venire convenientemente affidata alla Missione Militare Italiana in Algeri.

2. Il R. Ministero degli Affari Esteri, dopo attento esame della questione, fa anzitutto presente che il punto di vista secondo il qua-

l'ente cobelligerante, non esiste Potenza Pro-

vamente ai prigionieri di guerra italiani.

1. In tale nota codesta Commissione Alleata di Controllo esprime l'avviso che, dalla cobelligeranza italiana conseguirebbe l'assurmetta della missione della Potenza Proibitrice, alla quale non sarebbe in conseguenza possibile fare le notifiche relative alla citazione in giudizio di prigionieri di guerra italiani. Essa chiede quindi di conoscere il desiderio del Governo italiano circa l'Ente cui possono essere devolte le funzioni attribuite alle Potenze Proibitrici degli art. 50, 52, 55 e 56 della Convenzione di Ginevra del 29.7.1929 relativa al trattamento dei prigionieri di guerra e suggerisce che i **154** prigionieri potrebbero venire convenientemente affidate alla Missione Militare Italiana in Algeri.

2. Il R. Ministero degli Affari Esteri, dopo attento esame delle questioni, fa anzitutto presente che il punto di vista secondo il quale, essendo l'Italia attualmente cobelligerante, non esiste Potenza Proibitrice, è certamente il punto di vista più logico e ragionevole, e, come tale potrebbe senza altro essere esente ad ascolto. Esso non può, almeno in base alle portate che fino ad oggi è stata attribuita dalle Potenze Alleate allo "status" di cobelligeranza, essere tuttavia condiviso dal Governo Italiano, sopra tutto in quanto, secondo le dichiarazioni formulate a suo tempo dai Governi britannici, sovietico e degli Stati Uniti, in occasione della dichiarazione di guerra dell'Italia alla

Stando così le cose, e cioè sino a quando non intervienga una modifica di tale "status", o uno specifico accordo che regoli la particolare materia dei prigionieri di guerra italiani, è opinione del Governo Italiano che la Convenzione Internazionale di Ginevra rimane in pieno vigore.

Questo punto di vista trova del resto conferma nel fatto che da un lato i Governi Alleati hanno rifiutato necessario farsi imitatori di un speciale accordo col Governo Italiano per l'organizzazione e l'impiego dei prigionieri di guerra italiani, e che, dall'altro lato, nel progetto di detto accordo, figura appunto all'art. 4 la proposta che "le disposizioni di Ginevra del 29.7.1929 circa i prigionieri di guerra, concernente le funzioni della Potenza Protettrice e dei suoi agenti sententi, sono sostituite da relazioni dirette tra il Governo degli Stati Uniti e i Governi del Commonwealth britannico da un lato, ed il Governo Italiano dall'altro".

Tale proposta di modifiche è un implicito riconoscimento del fatto che la Convenzione e, pertanto, la tutela da parte della Potenza Protettrice, rimangono per ora in pieno vigore.

Il R. Ministero degli Affari Esteri, a questo proposito, ha l'onore di riferire alla Nota Verbale consegnata il 29 gennaio u.s. dal Capo del Governo al Presidente Delegato della Commissione Alleata di Controllo nella quale venivano fra l'altro espresse le considerazioni generali

e particolari del Governo Italiano in merito al citato progetto di accordo, e, soprattutto, ai punti 5 e 7 in cui venivano illustrate le ragioni che impedivano al Governo Italiano di convenire nel dichiarare la condotta delle disposizioni della Convenzione di Ginevra e di consentire anchè i prigionieri di guerra perdessero la protezione loro garantita dalla predetta Convenzione Internazionale ed il Regno Governo ogni possibilità di decisione nel loro confronti.

3. Per quanto riguarda lo specifico suggerimento che le funzioni previste dagli art. 60, 62, 65 e 66 della Convenzione di Ginevra potrebbero venir affidate alla Missione Militare Italiana in Algeria, desiderata l'altra parte sottoporre alla considerazione della Commissione Alleanza di Controllo il fatto che la protezione da parte della predetta Missione, con la sua attuale organizzazione e limitata possibilità, non potrebbe convenientemente sostituire quella infinitamente più larga e di più vaste risorse prevista dagli art. 60, 62, 65, 66 della Convenzione di Ginevra.

Tali articoli, posti nella dovuta relazione con le disposizioni generali della Convenzione, contemplano, in sostanza, la possibilità di contatti diretti e continui, in ogni località dove esistano prigionieri di guerra, tra questi ed i rappresentanti della Potenza Protettrice, e la possibilità, per quest'ultima, di esercitare una tempestiva

navra e di consentire eccoli i prigionieri di guerra perdessero la protezione loro garantita dalla predetta Convenzione Internazionale ed il Reale Governo ogni possibilità di decisione nel loro confronti.

Per quanto riguarda lo specifico suggerimento che le funzioni previste dagli art. 60, 62, 65 e 66 della Convenzione di Ginevra potrebbero venir affidate alla Missione Militare Italiana in Algeri, decisa- ra d'altra parte sottoporre alle considerazioni della Commissione Al- iata di Controllo il fatto che la protezione da parte della predetta Missione, con la sua attuale organizzazione e limitata possibilità, non potrebbe convenientemente sostituire quella infinitamente più lar- ga e di più vasta risorse prevista dagli art. 60, 62, 65, 66 della Convenzione di Ginevra.

La Missione Militare Italiana in Algeri, invece, non ha possibili- tà analoghe, e le sue comunicazioni sono limitate a quelle col Reale Governo.

Il R. Governo pertanto è d'avviso che la citazione in giudizio di

NOTE VERBALE

The Italian High Command has forwarded to this Ministry a Note the Allied Control Commission directed to Marshal Messe on February 2nd concerning Italian P.O.W.'s:

1° - In said Note the Allied Control Commission expresses the opinion that in view of the fact that Italy is at present a co-belligerent the purposes of the Protective Power have come to an end. Consequently, it would not henceforth be feasible to notify to the same Power judicial summons concerning Italian Prisoners of War. The Allied Control Commission therefore requests the Italian Government to state what body they wish should take upon itself the duties attributed so far to the Protective Power by Articles 60, 62, 65 and 66 of the Geneva Convention of July 29, 1929, concerning the treatment of Prisoners of War, and suggests that said duties might be usefully entrusted to the Italian Military Mission in Algiers.

2° - The Royal Italian Ministry of Foreign Affairs having carefully examined the matter, wish to state that the point of view according to which, in consideration of Italy's present status of co-belligerency, the Protective Power has no further standing, is the most logical and reasonable one, and, as such, could

2° - The Royal Italian Ministry of Foreign Affairs¹¹ having carefully examined the matter, wish to state that the point of view according to which, in consideration of Italy's present status of co-belligerency, the Protective Power has no further standing, is undoubtedly the most logical and reasonable one, and, as such, could forthwith be upheld and accepted. However the Italian Government can not, in the present situation share such a point of view because of the purport that, up to the present at least, the Allied Powers have attributed to the status of co-belligerency; particularly so, in relation with the statements formulated by the British, American and U.S.S.R. Governments on the occasion of Italy's war declaration to Germany, to the effect that the "relationship of co-belligerency between the Government of Italy and the United Nations' Governments can not of itself affect the terms recently signed, which retain their full force and can only be adjusted by agreement between the Allied Governments".

-2-

Under these circumstances and until the status of co-belligerency should be modified, or a special agreement reached to deal with the problem of Italian Prisoners of War, the Italian Government are of the opinion that the International Convention at Geneva retains its full force.

This opinion is moreover corroborated by the fact that on the one side the Allied Governments have found it necessary to propound a special agreement with the Italian Government for the organization and occupation of Italian Prisoners of War while, on the other, by article 4 of the provisional scheme of said agreement it is proposed that "the provisions of Geneva of July 29, 1929 concerning P.O.W.'s and dealing with the attribution of the Protective Power and their Representatives are substituted by direct relations between the U.S. Government and the Government of the British Commonwealth on one side and the Italian Government on the other".

This proposal implicitly recognizes that the Geneva Agreement and, consequently, the action of the Protective Power, remain in full force for the time being.

In this connection the Ministry of Foreign Affairs have the honour to draw attention on their Note Verbal handed on January 29 by Marshal Badoglio to the Deputy President of the Allied Control

These remarks dealt specifically with paragraph 5 and 7 and gave the reasons why the Italian Government are unable to agree in declaring void the provisions of the Geneva Convention and in accepting that both the P.O.W. be deprived of the protection accorded by said Convention and the Italian Government of the possibility of taking whatsoever decision in their regard.

3° - As to the specific proposal that the duties envisaged by articles 60, 62, 65 and 66 of the Geneva Convention be turned over to the Italian Military Mission in Algiers, the Ministry of Foreign Affairs desire to call the attention of the Allied Control Commission on the fact that a protection exercised by said Mission, in view of its present organization and limited scope, could not conveniently take the place of the much broader and more efficient protection provided for in the above mentioned paragraphs of the Geneva Convention.

In fact these paragraphs, duly considered in relation to the general provisions of the Agreement, envisage the possibility of direct and continuous contacts, wherever the Prisoners of War may be, between the former and representatives of the Protective Power. Moreover they provide the possibility that the Protective Power should be in a position to exercise its duties in a timely way.

The Italian Military Mission in Algiers, on the other hand, has no such possibilities while its communications are limited to those with the Royal Government.

The Italian Government express therefore the opinion that summons of Italian P.O.W. at a Military Court should be duly notified to the Power in charge of Italian interests, until such a moment when, as it is sincerely hoped, all the complex and difficult

SUBJECT: Imprisonment of ^{cap.} ~~cap.~~ ~~magg.~~ (Staff Sgt.) DEL NEGRO, Gino di Attilio.

TO THE MINISTER OF PARDONS & JUSTICE.

P. N. 151

We inform you that on 27 January 1944 the ^{division} ~~sub-office~~ ^{will} of the 71st Subarea of Brindisi has been able to obtain the release of ~~cap.~~ ^{cap.} ~~magg.~~ DEL NEGRO Gino from the judicial prison of Brindisi, where he had been brought on 13 December by order of the Allied Command.

From statements made by the soldier to the Chief of the Sub-office the following facts have been obtained:

On 27 July 1943, DEL NEGRO was made a prisoner by an American unit which transferred him on the 18th of October to the 189th Transit Camp where he was employed, first in Sicily, and then on the continent as a cook.

Arriving in Brindisi with the 189th Transit Camp, he requested that his position be ~~made known~~ ^{known} to the Italian Military authorities; as a result of such request he was immediately interned in the judicial prison of Brindisi, where he was accepted on the presentation of a certificate, with illegible signature, of an English sergeant, which ~~was construed as follows:~~ ^{reads} "The Chief Guard of the judicial prison of Brindisi will receive and hold at the disposition of this English command the said DEL NEGRO Gino, di Attilio for police measures - Brindisi, 13/12/1943."

It appears however that DEL NEGRO has been imprisoned without the proper certificate of imprisonment and that no Italian military authority has been informed of his detention.

In fact, the ^{division} ~~sub-office~~ ^{will} of the 71st Subarea has been notified only after 45 days of imprisonment of DEL NEGRO through a notification to that effect which succeeded in reaching the Tappa Command No. 9.

The above facts have been stated to this Ministry for action which it may wish to adopt in the matter.

OGGETTO : Carcerazione cap. magg. DEL NEGRO Gino di Attilio.

AL MINISTERO DI GRAZIA E GIUSTIZIA

P. M. 151

Si informa che il 27 gennaio 1944 l'ufficio di collegamento con la 71^a Subarea di Brindisi ha potuto ottenere la liberazione dalle carceri giudiziarie di Brindisi del cap. magg. DEL NEGRO Gino, che vi era stato raddotto il 13 dicembre 1943 per ordine del comando alleato.

Dalle dichiarazioni fatte dal militare al Capo dell'ufficio di collegamento è emerso quanto segue :

Il Del Negro il 27 luglio 1943 venne fatto prigioniero da una unità americana la quale l'8 ottobre successivo lo passò al 169^o Transit Camp che lo impiegò, in Sicilia prima, ed in continente poi, come cuo-
niere.

Giunto a Brindisi con il 169^o Transit Camp olandese che venisse re-
golata la sua posizione presso le autorità militari italiane ; a que-
sta sua richiesta fu risposto con l'immediato internamento nelle car-
ceri giudiziarie di Brindisi, dove venne accettato su semplice presen-
tazione di un biglietto, a firma illegibile, di un sergente inglese,
così concepito : "Il capo guardia delle carceri giudiziarie di Brindisi
riceverà e terrà a disposizione di questo Comando inglese il nominato
Del Negro Gino di Attilio per misure di polizia - Brindisi li 13/1/1944".

Si informa che il 27 gennaio 1944 l'ufficio di collegamento con la 7^a Subarea di Brindisi ha potuto ottenere la liberazione dalle carceri giudiziarie di Brindisi del cap. m. DEL NEGRO Gino, che vi era stato tradotto il 13 dicembre 1943 per ordine del comando alleato.

Dalle dichiarazioni fatte dal militare al Capo del l'ufficio di collegamento è esserso quanto segue :

Risulterebbe pertanto che il Del Negro è stato incarcerato senza regolare biglietto di carcerazione e che della sua detenzione nessuna autorità militare italiana è stata informata.

Infatti l'ufficio di collegamento con la 7^a Subarea è venuto a conoscenza dopo 45 giorni dell'incarcerazione del Del Negro, soltanto per mezzo di un biglietto che questi riuscì a far pervenire al Comando Tappa N. 9.

Si segnala il fatto a questo Ministero per i provvedimenti che riterrà di adottare.

MINISTRY OF WAR
CabinetNo. 2169/1 of prot.
10/8/35

Lecce, 5 Feb 1944.

SUBJECT: Arrest of cap. magg. DEL NEGRO Gino (son of Attilio).

TO The Ministry of Grace and Justice.

APO 151

I wish to inform you that on Jan. 27, 1944 the Liaison Office in cooperation with the 71st Subarea of Brindisi succeeded in effecting the the release from the judicial prisons at Brindisi of Cpl Maj. DEL NEGRO Gino, who has been committed thereto on 13 Dec. 1943 by order of the Allied Command.

The following transpired from the statements made by the soldier to the head of the Liaison office:

Del Negro was captured on 27 July 1943 by an American unit which handed him over to the 189th Transit Camp on the 8th of October 1943. He was employed as cook in this camp, first in Sicily and then on the mainland.

After his arrival at Brindisi with the 189th Transit Camp he requested that his status be taken up with the Italian Military authorities; in reply to this request he was immediately interned in the judicial prisons of Bari where he was accepted simply upon the presentation of a note with an illegible signature written by an English sergeant. The note read as follows: "The chief guard of the judicial prisons at Brindisi will receive and hold at the disposal of this English Command Del Negro Gino, son of Attilio, for police purposes, Brindisi, 13 Dec. 1943."

Thus it appears that Del Negro was imprisoned without a regular note of incarceration and no Italian authority has been informed of his incarceration.

In fact, the Liaison office with the 71st Subarea learned about the incident only after 45 days of imprisonment of Del Negro and then only from a note which he succeeded in forwarding to the Comando Tapa no. 9.

This case is communicated to the Ministry of Justice for any action they deem advisable.

N. 2169/1 di prot.
10/6/53

Lecco, 2 February 1944.

SUBJECT: Imprisonment of cap. magg. (Staff Sgt.) DEL NEGRO Gino di Attilio.

TO THE MINISTER OF PARDONS & JUSTICE.

P. N. 151

We inform you that on 27 January 1944 the ^{*Liaison with*} sub-office of the 71st Subarea of Brindisi has been able to obtain the release of Cap. Magg. DEL NEGRO Gino from the judicial prison of Brindisi, where he had been brought on 13 December by order of the Allied Command.

From statements made by the soldier to the Chief of the Sub-office the following facts have been obtained:

On 27 July 1943, DEL NEGRO was made a prisoner by an American unit which transferred him on the 18th of October to the 169th Transit Camp where he was employed, first in Sicily, and then on the continent as a cook.

Arriving in Brindisi with the 169th Transit Camp, he requested that his position be ^{*taken up with*} the Italian Military authorities; as a result of such request he was immediately interned in the judicial prison of Brindisi, where he was accepted on the presentation of a certificate, with illegible signature, of an English sergeant, which ^{*was*} ~~was considered~~ as follows: "The Chief Guard of the judicial prison of Brindisi will receive and hold at the disposition of this English command the said DEL NEGRO Gino di Attilio for police measures - Brindisi, 13/12/1943."

It appears however that DEL NEGRO has been imprisoned without the proper certificate of imprisonment and that no Italian military authority has been informed of his detention.

In fact, the ^{*Liaison officer*} sub-office of the 71st Subarea has been notified only after 45 days of imprisonment of DEL NEGRO through a notification to that effect which succeeded in reaching the Tappa Command No. 9.

The above facts have been stated to this Ministry for action which it may wish to adopt in the matter.

CHIEF OF THE CABINET

O G G E T T O : Carcerazione cap. mess. DEL NEGRO Gino di Attilio.

AL MINISTERO DI GRAZIA E GIUSTIZIA

P. M. 151

Si informa che il 27 gennaio 1944 l'Ufficio di collegamento con la 71^a Subarea di Brindisi ha potuto ottenere la liberazione dalle carceri giudiziarie di Brindisi del cap. mess. DEL NEGRO Gino, che vi era stato tradotto il 13 dicembre 1943 per ordine del comando alleato.

Dalle dichiarazioni fatte dal militare al Capo dell'ufficio di collegamento è emerso quanto segue :

Il Del Negro il 27 luglio 1943 venne fatto prigioniero da una unità americana la quale l'8 ottobre successivo lo passò al 169^o Transit Camp che lo impiegò, in Sicilia prima, ed in continente poi, come cuo- niere.

Giunto a Brindisi con il 169^o Transit Camp diiese che venisse volata la sua posizione presso le autorità militari italiane ; a sta sua richiesta fu risposto con l'immediato internamento nelle carceri giudiziarie di Brindisi, dove venne accettato su semplice pres- tazione di un biglietto, a firma illegibile, di un sergente inglese, così concepito : "Il capo guardia delle carceri giudiziarie di Brindisi"

Si informa che il 27 gennaio 1943 la 71^a Subarea di Brindisi ha potuto ottenere la liberazione dalle carceri giudiziarie di Brindisi del cap. megg. DEL NEGRO Gino, che vi era stato tradotto il 13 dicembre 1943 per ordine del comando alleato.

Dalla dichiarazione fatta dal militare al Capo dell'ufficio di legamento è emerso quanto segue :

Il Del Negro il 27 luglio 1943 venne fatto prigioniero da una unità americana la quale l'8 ottobre successivo lo passò al 189^o Transit Camp che lo impiegò, in Sicilia prima, ed in continente poi, come cucinaiere.

Giunto a Brindisi con il 189^o Transit Camp danese che veniva sgolata la sua posizione presso le autorità militari italiane ; a sua richiesta fu risposto con l'immediato internamento nelle carceri giudiziarie di Brindisi, dove venne accettato su semplice presentazione di un biglietto, a firma illeggibile, di un sergente inglese, così concepito : "Il capo Guardia Carcere Giudiziarie di Brindisi riceverà e terrà a disposizione di questo comando inglese il nominato Del Negro Gino di Attilio per misure di polizia - Brindisi il 13/11/43".

Risulterebbe pertanto che il Del Negro è stato incarcerato sul regolare biglietto di carcerazione e che della sua detenzione nella autorità militare italiana è stata informata.

Infatti l'ufficio di collegamento con la 71^a Subarea è venuta a conoscenza dopo 45 giorni dell'incarcerazione del Del Negro, soltanto mezzo di un biglietto che questi riuscì a far pervenire al Comando per N. 9.

Si segnala il fatto a codesto ministero per i provvedimenti che vi-terra di scottare.

SUBJECT: Thereabouts Enquiries.

TO : RO AND MI SECTION, HQ. ACC. APO 394.

1. In my view, the best and most convenient instruction which can be issued with regard to the ~~handling~~ of enquiries about Italian Nationals is that enquiries respecting

- (a) Italian CIVILIANS believed to be located in Allied controlled territory should be addressed to the Public Safety Sub-Commission here, and
- (b) that ALL other enquiries should be addressed to the RO and MI Section.

2. If this is done the enquiries which may be addressed to you are,

- (a) in respect of Italians located in enemy controlled areas (which may be passed to the International Red Cross) or
- (b) in respect of members of the Italian Forces either serving or POW's. (which may be passed to the Military Section).

3. Where a question of release of a POW arises because his services are required I think that the Sub-Commission requiring his services should have the handling of the question of release. (For example, the case of a local Government official should be dealt with by the Interior Sub-Commission; the case of a member of the judiciary by the Legal Sub-Commission and similarly for other technical experts).

As far as is deemed possible, by the Government of the United States or the Government of any member of the British Commonwealth of Nations, these units and formations shall bear the character of Italian Units and Formations under Italian Officers and noncommissioned officers, and may be distinguished by Italian uniforms and badges of rank with their own language.

ARTICLE III

While the Government of the United States and the several Governments of the British Commonwealth of Nations, respectively, will retain the final control in all matters of discipline, promotion, and internal administration, and all members of these units and formations will be subject to such orders and regulations as the said Government may consider necessary, it is intended that whenever Legal and Military considerations in its judgment permit discipline, promotion, and internal administration shall be exercised by competent Italian Authorities. The extent to which these units and formations may exercise their own discipline, promotion and internal administration must depend upon the circumstances in which they are serving.

ARTICLE IV

The provisions of the GENEVA Prisoners of War Convention of 27 July 1929, concerning functions of the Protecting Power and its representatives are replaced by direct relation between the Government of the United States and the Governments of the British Commonwealth of Nations, respectively, on the one hand, and the Italian Government on the other.

ARTICLE V

The Italian Government shall give such orders and directions to members of the Italian Forces and shall take such steps to give effect to this agreement as may be required by the Government of the United States or any of the Governments of the British Commonwealth of Nations.

ARTICLE VI

Detailed arrangements required to give effect to this agreement, as determined from time to time by the appropriate authorities of the United Nations Government concerned, may be made administratively by such authorities with the appropriate authorities of the Italian Government.

ARTICLE VII

This agreement shall come into force on signature. It may be terminated at any time without notice by the Government of the United States or by one of the Governments of the British Commonwealth of Nations so far as its own rights and obligations thereunder are concerned without prejudice thereby to its continued validity as regards its rights and obligations of any other of the Governments of the United Nations who are parties to this agreement.

ARTICLE VIII

The application of all provisions of the GENEVA Prisoners of War Convention of 27 July 1929, inconsistent with the foregoing is, as between the contracting parties, hereto suspended.

ARTICLE IX

In view of the desirability for the personnel protected under the International Convention for the amelioration of the condition of sick and wounded or airmen in the field of 27 July 1929, to be able to continue to perform their present services for the members of the Italian Forces under the control as Prisoners of War of the Government of the United States or of the Governments of the British Commonwealth of Nations, any provisions of that convention which might be understood as in any way hindering the continued performances of such services shall, as between the contracting parties, be suspended. ALLIED MILITARY GOVERNMENT SICILY REGION HQ. 29 November 1943

TO: C.I.C., AMG HQ.

1. Herewith are submitted two memoranda from the Superintendent of Prisons and the Director of Public Security Region I raising certain practical questions regarding the treatment of civilian internees, now under detention at the Malaspina Institution in Palermo.

2. The questions are set out in para. 4 of the letter from the Superintendent of Prisons, the most immediate being:

- (a) Is the guarding of these civilian internees the responsibility of AMG working through civilian wardens or of the military authorities?
- (b) Are the internees, who have the same status as Prisoners of War, entitled to receive Army instead of civilian rations? It will be appreciated that this point is of considerable importance in the present food situation.
- (c) What further rights (if any) do these persons have beyond the general right to just and humane treatment?

3. Attention is directed to the facts referred to in para. 5 of the Superintendent's letter. While the majority of the internees are held because of their political record, there are also a number in detention on account of their criminal activities. In cases where specific charges could be brought against these latter, it was at first proposed to detain them under Proclamation No. 2, Article VII as ordinary prisoners but it was ruled by Lt. Col. Chanler that this was not proper unless there was reason to believe that a case could ultimately be prepared against them. His recommendation to deport these prisoners to North Africa has been found not to be feasible on practical grounds, and the problem therefore arises as to how such persons are to be dealt with.

4. If the reply to para. 2 (b) is that civilian internees should receive Army rations, the anomalous result will be that a man detained because of his bad criminal record, but against whom no specific charge can be proved, will be enjoying a far higher standard of living than another who has been given a prison sen-

19
tence on account of some small offense. Moreover the guarding of common criminals must of necessity give rise to problems different to those connected with the detention of purely political prisoners.

5. It is requested that this problem be examined as soon as possible as the matter is urgent, and it is suggested that consideration be given to the possibility of dealing with the two types of internee on different lines.

TO - SENIOR LEGAL OFFICER, No. 1 REGION. 18
 SUBJECT - Political Prisoners

(1) With reference to the attached memorandum from Superintendent of Prisons; the question arises directly as a result of a proposal to transfer Civilian Internees from Prisoner of War Camps in No. 1 District to premises at Malaspina, Palermo. It should be here noted that at present Political Internees in the Eastern part of the Region are detained in Military Establishments where they are guarded by Military Personnel and fed from Army Rations. In the Western part of the Island, until quite recently, they were confined in the Civilian Prison, a part of which was segregated for their use. They were guarded by Civilian Warders and fed from civilian sources. Recently these Internees were transferred to more suitable premises at Malaspina, Palermo, in order to improve conditions and avoid their contact with common criminals. They are, however, still guarded by Civilian Warders and fed from civilian sources.

(2) As regards the specific points raised in (4) of basic report, the status of prisoners of war and civilian internees is defined in 'Manual of Military Law, Ch. XIV'. Para. 56 (c) appears to cover the point at issue, viz. -

"(c) Private enemy individuals and enemy officials whom a belligerent thinks it necessary to make prisoners. Although the Hague Rules and Prisoners of War Convention do not contain anything regarding the treatment of these individuals, they are not civil prisoners, because they are taken into captivity for military reasons and are therefore prisoners of war. While in captivity they are classified either as persons of status equivalent to that of an officer, or as persons equivalent to persons below the rank of an officer, and are treated accordingly."

If it is agreed that Civilian Internees are in fact Prisoners of War it follows that the conditions governing P.O.W. Camps as regards camp installations; food, clothing, guards, etc, must equally apply.

(3) I do not agree with the point raised in para. 5 of basic report. I appreciate that Political Internees comprise persons from all walks of life. Once we have established the legal position of these persons as a whole we can make adequate arrangements to segregate them in their particular groups.

(4)/ PTO.

(5) Will you please therefore consider the position and let me have your observations in order that necessary steps, if any, can be taken to regularize the position.

Subject: Political Prisoners.

To: D. P. S. Region 1, Sicily.

(1) At the present moment there are 73 prisoners detained in the Malaspina, Palermo for political reasons.

This place, formerly a reformatory was taken over for the purpose, is well appointed and can house 500.

(2) Instructions have now been received to transfer there a further 250 now in the custody of the Military at Syracuse.

These internees have been guarded by the Military and during the time of their detention have received the same rations as given to the guards and to all intents and purposes have been treated as prisoners of war.

(3) Arrangements have been completed for their transfer and provision made for their food etc.

There is no difficulty in effecting the transfer but before their reception it is desired that the position of all these internees, arrested by Military Personnel because of, in the main, their political beliefs and the fear, that should they remain at liberty may harm the Allied cause, be clarified.

16

(4) It is asked on behalf of this Office if such internees can:

1. Claim prisoner of war rights.
2. If so, are they the responsibility of the Military, should they be in a proper prisoner of war camp.
3. Receive the same food as their guards, i.e. Army rations.
4. Be segregated according to the position they formerly held.
5. Be usefully employed and receive allowances as agreed between the signatories to the Convention and many other facilities.

(2)

15

(5)

Among the number to be taken over are some who are interned, not because of their political beliefs but by reason of harm they may do the Allied cause by their criminal activities.

This latter group are men with criminal records but at the time of their arrest no charge could be preferred against them. It is indeed wise that they be kept out of harms way but it would be ironic to include them in the same category as the before mentioned people, dangerous only by reason of their, in our opinion, mistaken belief in the political party of their country with the intent to further its ends.

(6)

I would point out that all these people can well be housed at the Malaspina, in accordance with the directions laid down by the Military Manual with this difference:

- 1. The guarding of such persons would be by Italian personnel of the Prison Service.
- 2. Liberty will be restricted.
- 3. Food supplied would be that given to ordinary civil prisoners which is considerably less than that of the Military.

(7)

Complaints have already been received by influential Italian gentlemen on their treatment in a prisoner of war camp and it is feared that a reduction of their rations to bring them in a life with criminals will produce many more.

Every effort is being made to make of this camp a suitable place within the limits of the AMG Prison Service and no complaints has been made in respect of the amenities.

It is respectfully asked that legal opinion be sought to define the correct definition of the "Internees" before they cease to be the Military responsibility.

 5th Oct. 1943

Subject: - Bomb and Mine Disposal - Employment of Prisoners of War

The treatment of P.O.W. is governed by Geneva Convention dated 27 July 1929.

2. The work on which P.O.W. are not allowed to be employed is defined in Arts 31 and 32 of the Convention. Under Art. 31, "work done by P.O.W. shall have no direct connection with the operations of the war. In particular, it is forbidden to employ prisoners in the manufacture or transport of arms or munitions of any kind or on the transport of material destined for combat units". In my opinion, this restriction applies only to the employment described when the employment amounts to an act against the interests of the prisoner's own army or country. I consider it does not prevent the use of P.O.W. for the removal of land mines or bombs after the tide of war has left the locality and the removal is required only for the safety of the prisoners' own countrymen. Furthermore, the removal could not now be against the interests of the prisoners' own army or country when general armistice has taken place.
3. Under Art. 32, it is forbidden to employ P.O.W. on dangerous work. In my opinion if the P.O.W. employed are trained bomb and mine disposal personnel and they consent to the employment, there is no objection to it.
4. As P.O.W. are the responsibility of "A" Branch in the British Army and of G-1 in the American Army, I think that the actual decision on the use of P.O.W. for the work of moving bombs and mines should be taken by that Branch acting on J.A.G.'s advice. It will be desirable, however, to send a copy of this opinion to the H.Q. concerned as indicating our views.

NOTES ON STATUS OF CIVILIAN PRISONERS OF WAR

I have read Col. Jones' memorandum of May 6, 1945 on prisoners of war entitled "Notes on Military Jurisdiction." In my opinion, even without the agreement with Germany and Japan, civilian internees are in fact prisoners of war, under international law. This is so stated in U.S. PI 27-10, "Rules of Land Warfare," paragraph 72, e, f, and g, and, in British "Manual of Military Law," paragraphs 56, 57. While paragraph 57 merely says "prisoner," the argument in paragraph 56, *that they are taken into custody*, would seem to apply, and the suggestion to the contrary in "Notes on H.S. of G.I.T.", part II, paragraph 46, is in my opinion erroneous. *And see Hyde, International Law, Volume 2, page 345, last sentence and footnote no. 5.*

Being P.O.W., they are clearly to be tried by Courts Martial for all acts done while in confinement, just as any other P.O.W., and by Military Courts for all acts done before they were taken into custody. *Definitely, they have no immunity as attaches to soldiers, etc., before they are taken into custody.*

It follows that civilians may be divided into 3 categories: 1 - those who are judged harmless and are not molested; 2 - those who are judged dangerous *but have committed no war crime or other offense; and also taken into custody*; 3 - those who are charged with a war crime or other offense, and are arrested as criminals and tried by Military Courts. *They should be treated as prisoners of war, and not P.O.W.; they are internees, and are arrested as criminals and tried by Military Courts, though they may also be treated as prisoners of war.*

Is there a fourth status of persons either as dangerous, or suspected of crime, who may be held indefinitely as prisoners (and not P.O.W.); I think not, except in special cases.

Being P.O.W., they are clearly to be tried by Courts Martial for all acts done while in confinement, just as any other P.O.W., and by Military Courts for all acts done before they were taken into custody. ~~Continuity~~, they have no humanity ~~as~~ as attaches to soldiers, etc., before they are taken into custody.

It follows that civilians may be divided into 3 categories: 1 - those who are judged harmless and are not molested; 2 - those who are judged dangerous but have committed no war crime or other offense; ~~and are taken into custody~~ ^{They should be} ~~or~~ interred as P.O.W.s; and 3 - those who are charged with a war crime or other offense; ~~and are arrested as criminals and tried by Military Courts.~~ ^{They should be arrested as criminals and tried by Military Courts.} ~~They may also be tried by Courts Martial.~~ ^{as a class should be}

Quere: Is there a fourth status of persons either an dangerous, or suspected of crime, who may be held indefinitely as prisoners (and not P.O.W.s) without trial, as requested by Col. Young? I think not, except in special cases with consent of G.L.O. and right to review every 3 months, and then really suspected of a crime.

In regard to the statement on page 2 that a prisoners of war does not "escape from confinement by deserting," ~~that~~ ^{should be} to escape is not unlawful, attention is called to the provision of Article 30 of the Geneva Convention of 1929, reading as follows:

"Excepted prisoners of war who are re-captured before they have been able to rejoin their own armed forces or to leave the territory occupied by the armed forces which captured them shall be liable only to disciplinary punishment.

"Prisoners who, after succeeding in rejoining their armed forces or in leaving the territory occupied by the armed forces which captured them, are again taken prisoner shall not be liable to any punishment for their previous escape."

- 2 -

6

In other words, it is not a "war crime" for a prisoner of war to escape or attempt to escape, but it is an offense against the rules and regulations governing the detention of prisoners of war. He can be disciplined after trial by ~~the Camp Commandant~~ ^{the Camp Commandant}, but he may not be punished as a war criminal.

NOTES ON MILITARY JURISDICTION

State Department advises that on the outbreak of the present war the United States and Germany, in an exchange of telegrams through the Swiss Government, agreed that civilian nationals of either State interned by the other shall be treated according to the provisions of the Geneva Convention of July 27, 1929, relative to the treatment of prisoners of war, insofar as those provisions may be applied to civilians. Similar agreements were made with Italy and Japan. Accordingly, to determine the position of German civilian internees we look, in principle, to the rights and liabilities of a German prisoner of war charged with the same unlawful act.

Article 45 of the Geneva Convention (FM 27-10) states:

"Prisoners of War shall be subject to the laws, regulations, and orders in force in the armies of the detaining power."

"Any act of insubordination shall justify the adoption towards them of the measures provided by such laws, regulations, and orders."

Article 63, (FM 27-10, paragraph 136) provides:

"Sentences may be pronounced against a prisoner of war only by the courts and according to the same procedure as in the case of persons

German civilian internee

ities of a German prisoner of war charged with the same unlawful act.

Article 45 of the Geneva Convention (FM 27-10) states:

"Prisoners of War shall be subject to the laws, regulations, and orders in force in the armies of the detaining power."

"Any act of insubordination shall justify the adoption towards them of the measures provided by such laws, regulations, and orders."

5

Article 63, (FM 27-10, paragraph 136) provides:

"Sentences may be pronounced against a prisoner of war only by the same courts and according to the same procedure as in the case of persons belonging to the armed forces of the detaining power."

Turning to the Articles of War we find A. W. 12, which enacts:

"General courts-martial shall have power to try any person subject to military law for any crime or offense made punishable by these articles, and any other person who by the law of war is subject to trial by military tribunals ***." (Underlining supplied)

It results that a prisoner of war, charged with an act punishable by our military law (so far as the law may be applied to prisoners of war), is subject to trial by General Court-Martial. And a civilian enemy internee is also embraced within the clause of Article of War 12: "the law of war," as understood by our law, includes that part of the law of nations which

prescribes, for the conduct of war, the status, rights and duties of enemy nations as well as of enemy individuals." (Ex parte Duirin (1942) 63 S.Ct. 1, 10).

My conclusion is that an internee may be tried by general court-martial. International agreement confers the jurisdiction, and Article of War 12 gives to general courts-martial authority to exercise it.

However, not all of the Articles of War are applicable; one must look to the reason behind each. A prisoner of war is incapable of "deserting to the service of the United States" (A. W. 58), nor does he "escape from confinement" (A. W. 69) by escaping. For him to escape is not unlawful. (Article 50, Geneva Convention 1929; FM 27-10, paragraph 123). On the other hand Articles of War 92 and 93, denouncing common-law crimes, are universally applicable.

I am of the opinion that it is preferable to lay charges under Article of War 92 or Article of War 93, or as a disorder or neglect to the prejudice of good order under Article of War 96, rather than under Articles of War whose rational basis lies in the necessity of preserving loyalty and military subordination within our own Army.

There are cogent reasons why an enemy internee should be tried by general court-martial, rather than by a military commission or provost court. This will be in exact compliance with Article 63 of the Geneva Convention. The procedure of military commissions and provost courts, on the other hand, may depart, especially as to rules of evidence and mode of review, from some of the safeguards prescribed for general courts-martial.

To avoid any misapprehension, it should be pointed out that this opinion deals with the appropriate tribunal for the trial of a prisoner of war or an enemy internee charged with committing an offense during captivity. The case of an enemy who, prior to being captured, commits acts in violation of the laws of war--e. g., by torturing or murdering a prisoner--is quite a different matter. The present opinion implies, no doubt, that such a person, if apprehended, might be brought to trial before either a military commission or a general court-martial. (Opinion of J.A.G., Feb. 26, 1943. Quoted in J.A.G. Bulletin of Feb. 1943).

With respect to the more general question of military jurisdiction

2. Section 136 quoting Article 63 of the Geneva Convention, provides as follows:

Art. 63. Geneva Convention 1912

"That courts to pronounce sentence; procedure. - Sentence may be pronounced against a prisoner of war only by the same courts and according to the same procedure as in the case of persons belonging to the armed forces of the detaining power (G. P.W., art. 63).

C. WHEN PRISONERS OF WAR MAY BE TRIED BY COURT MARTIAL OR BY MILITARY COMMISSIONS.

1. Regarding the courts in which offenders are to be tried, Section 7 of the same manual provides in part as follows:

"In the armies of the United States, military jurisdiction is exercised through the following military tribunals:

- a. Courts martial.
- b. Military commissions.
- c. Provost courts.

"While general courts martial have concurrent jurisdiction with military commissions and provost courts to try any offender who by the law of war is subject to trial by military tribunals, it has generally been held that military commissions have no jurisdiction of such purely military offenses specified in the Articles of War as those articles expressly make punishable by sentence of court martial (except where the military commission is also given express statutory jurisdiction over the offense (A.R. 80, 81, 82). In practice, offenders who are not subject to the Articles of War, but who by the law of war are subject to trial by military tribunals, are tried by military commissions of provost courts."

2. It would thus appear that a prisoner of war, for violating one of the Articles of War, should be tried by court martial, but if violating the laws of war (such as the proclamations, etc.) he should be tried by military commission.

3. The sections quoted from the U.S. Basic Field Manual are almost identical with similar provisions in the British Manual of Military Law."

Memorandum by Col. Chamler:

"Answer to above is 'Civilian Internees', although no date. POWs on above grounds are not subject to Geneva Convention. According to above instructions, US War Department has Office in West that they be not called 'Civilian Internees' but 'Civilian Internees'."

Subject: Political Prisoners of War

A. WHO MAY BE PRISONERS OF WAR.

1. Both English and American text books indicate that civilian offenders against military government in an occupied territory may be made prisoners of war.

2. U. S. Basic Field Manual 27-10 entitled Rules of Land Warfare in paragraph 76 - e, f, and g - provides that high civil functionaries, civil officials and diplomatic agents, and inhabitants "whose services are of a particular use to the hostile army or its government" and also "all persons who may be harmful to the opposing state while at liberty, such as prominent and influential political leaders, journalists, local authorities, clergymen, and teachers, in case they incite the people to resist, may be made prisoners of war." *1578 6-10-43*

3. Notes on the Military Government of Occupied Territory (British - Part II), page 19, after stating that enemy government and local officials should be retained in office where possible, provides as follows:

"Such offenses or wrongful acts of officials as constitute ordinary crimes are punishable according to the law of the land, and any act to the disadvantage or damage of the occupying army may be dealt with as war treason. If the official is considered dangerous to the interests of the occupant, he may, according to the merits of the case, be removed, be made a prisoner of war, or be expelled from the occupied territory."

4. Section 70 of the Rules of Land Warfare in U. S. Field Manual 27-10 provides under the heading of Prisoners of War:

"Except as otherwise hereinafter indicated, every person captured or interned by a belligerent power because of the war is, during the period of such captivity or internment, a prisoner of war, and is entitled to be recognized and treated as such under the laws of war."

5. Section 82 of the same chapter reads in part as follows:

"Internment. - Prisoners of war may be interned in a town, fortress, or other place, and bound not to go beyond certain fixed limits. They may also be interned in enclosed camps; they may not be confined or locked up except as an indispensable measure of safety or sanitation, and only while the circumstances which necessitate this measure continue to exist."

B. PRISONERS OF WAR ARE TRIABLE BY THE SAME COURTS AND FOR THE SAME OFFENSES AS MEMBERS OF THE ARMED FORCES OF THE OCCUPYING POWER.

1. U. S. Basic Field Manual 27-10 provides in Section 110, "Geneva Convention, Article 45," as follows:

"Prisoners subject to laws and regulations of detaining power. - Prisoners of war shall be subject to the laws, regulations, and orders in force in the armies of the detaining power."

"Any act of insubordination shall justify the adoption towards them of the measures provided by such laws, regulations, and orders."
