V.P. The RC desires trial in view of murder of a Swiss customs guard in Swiss territory by an Italian) your AMG cont. (The Swiss desire trial in Italy.)

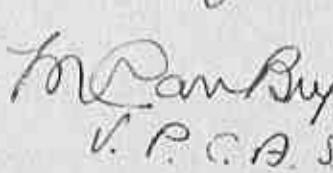

The CLA in view prefers trial by Italian Court. The most important reason for this appears to be a saving of personnel. There is also the question as to whether this trial can be completed before AMG comes to an end. For your action please

1. Please see folio (1A) and enclosures; also folio (2A and 2B), which is a brief of the enclosures at folio (1A) prepared by our civilian attorneys.

2. This is a request from the regional officer for permission to try by a general military government court certain Italian nationals now in Italian jails for the murder in Swiss territory of Col. Arthur Saxon, a Swiss customs guard.

3. Under the provisions of Article 9, Italian penal code, (Italian) National who commits in foreign territory a crime for which Italian law prescribes the penalty of death or penal servitude for life or for a minimum period of not less than three (3) years, shall be punished under that law, provided he is in territory of the (Italian) State.

4. It would seem that the Swiss are reluctant to apply the extradition of the accused for two reasons:

- (a) the expense involved.
- (b) the Swiss law does not provide for capital punishment.

Because the Allied military occupation law permits the application of the death penalty for offenses of this type, it is desired by the Swiss that the trial be held by a general military court under proclamation I, Article VII. Apparently this type of offense has been much too common in the border territory.

My suggestion is one of sympathy with the Swiss request, but I am content to stand with symmetry. If we turn back this territory in the near future, we would be put in the position of putting Swiss citizens out of the fire after occupation has for practice purposes come to an end. Then there is the little matter of supplying the personnel for the Court, the prosecution and the defense. Need I stress the fact that less personnel have now been redeployed to the vanishing point? I recommend that trial be held by the Italian Courts.

SUBJECT : Murder of Arthur Sauter.

This is a case which relates to a murder of a Swiss customs-guard by Italian contrabandiers, in Swiss territory.

The accused are at present held in the jail at Pallanza ( Italy ).

The a/m, when he was out-shooting, saw some contrabandiers whom he followed with the aim of arresting them. It seems that the contrabandiers, become aware of the pursuit, caught him in a trap and killed him by a shot of an Italian military gun.

On the other hand the murderer claims that he fired a shot at the a/m only because the said pointed a revolver at one of his companions.

Another contrabandier accomplished the killing with a stone and stole some objects of the a/m.

After investigations the band of contrabandiers has been arrested. Statements of persons arrested ( who confessed to the murder ) are contained in the file.

Following the favorable result of the police investigations the Swiss Police Officer wrote a letter to the President of the proper Tribunal reporting the facts.

In this letter it is stated that 3 other crimes have been committed within the " Canton du Tessin ", and that the proper frontier Allied Authorities wish to make an example.

The Swiss Police Officer asked therefore the President of the Tribunal to request the proper Allied Authorities for necessary trial.

Reasons of such request follow :

They do not like request for extradition as, according to Swiss Penal Code, ( art.336 § b ), death penalty cannot be imposed. They wish however, the murderer be executed.

They want also to avoid the great expenses which are necessary for extradition procedure.

(2B)

I feel bound to bring to your attention that a trial by an Italian or an A.M.G. Court is, according to art. 9 of the It. Penal Code, completely lawful.

*according To*

Note also that though<sup>^</sup> art. 1 of D.L.L.N. 224, dated 10 - 8 - 1944 the death penalty has been abolished in ~~the~~ It. Pen. Code this decree has not been implemented *in occupied territory*

SUBJECT: Murder on Swiss Frontier.

TO : H.Q. A.G. for Legal Sub-Commission.

1. Herewith letter of Commandant CC.RR. Verbania dated 5th inst. and dossier prepared by the Swiss authorities relative to the murder of Arthur SAUTER.

2. From the copy letters in the dossier it appears doubtful if an application for extradition will be made at all, and still more unlikely that it would be granted. It is recommended that it should not be granted.

3. Did circumstances permit it would be recommended that the case be tried under Italian Law by an A.M.G. Court as the probably rather more rapid procedure might have a good effect in a crime of which the type is all too common just now.

4. Will you please instruct whether the papers may be handed to the Italian Judiciary with instructions to proceed as quickly as possible.
