1. Your two letters AC/4087/5/L dated 11 January 1945 and 13 January 1945 refer.
2. The second of these letters only arrived after I had despatched Lt. Bannò to Salerno to investigate and put an end to the Bendheim's activities.
3. A copy of Lt. Bannò's report is attached together with annexures "A", "B", "C" and "D" thereto.
4. There is little doubt that these men have been holding themselves out as employees of the Allied Commission and I am having this aspect of the matter fully investigated by the Z.P.S.O.
If I consider a prima facie case has been made out against them I shall give instructions for them to be prosecuted before the appropriate Italian Court although in view of what is said in para. 2(j) of the report they may well have grounds for objecting to the jurisdiction of such Court.
5. I am making certain that they are ejected from the Palace of Justice.
6. As Annexures "A", "B", "C", and "D" are original documents and as they may be needed in any criminal proceedings it may be decided to institute I shall be glad if you will return them to me as soon as they have served your purpose.

SUBJECT: Preparation of Sub-Section reports for inclusion in Monthly
Conventions Report of the Sub-Commission.

Comptroller P.F. Fraser, Customs & Excise Sub-Section.
Major J.H. Penick, LMA.
Major J. Gannon, Insurance Dept.
Major B.D. Nash, Revenue Sub-Section.
Lieut-Commodore J.J. Lawler, SALISBURY Detachment.

1. It is of considerable importance that the Sub-Commission's monthly report be as complete, as accurate and as well written as possible. The report is circulated to finance officers in the field, to superior authority in AGO, and to the Government in London and Washington. To all of these organizations it represents the only complete source of information on the Sub-Commission's activities. Moreover, the report represents the only continuing historical record of the Sub-Commission.

2. It has been found that preparation of the Monthly Operational Report has entailed a large amount of reworking of the material submitted by the various Sub-Sections. It is obvious that the editors of the report are not as well equipped for this task as those who are more intimately acquainted with the subject matter. It is felt that if more time and care were devoted to organizing the material of each Sub-Section, writing each topical section so that it tells its story clearly and effectively, and conforming strictly to that adopted for use in the final report, a much more valuable report can be prepared.

3. It is requested that in future reports be improved by conforming strictly to the main report in accordance with the directives in paragraph 4, and that an attempt be made to improve content in accordance with the suggestions in paragraph 5.

4. In general, questions of style can be answered by reference to the January or February reports of the Sub-Commission. In particular, the following points should be observed:

- (a) Captions: the Sub-Sections' captions are to appear in capitals, underlined, and centered. Major subjects discussed are to be captioned with initial capitals and lettered with capital Roman letters followed by a period. 1. It is of considerable importance that the Sub-Commission's monthly report be as complete, as accurate and as well written as possible. The report is circulated to Finance officers in the field, to superior authority in AGO, and to the Governments in London and Washington. To all of these organizations it represents the only complete source of information on the Sub-Commission's activities. Moreover, the report represents the only continuing historical record of the Sub-Commission.
2. It has been found that preparation of the Monthly Operations Report has entailed a large amount of rewriting of the materials submitted by the various Sub-Sections. It is obvious that the editors of the report did not, as well equipped for this task as those who are now, intelligently acquainted with the subject matter. It is felt that if more time and care are devoted to organizing the material of each Sub-Section, wasting such logical sections so that it tells its story clearly and succinctly, and conforming style to that adopted for use in the final report, a much more valuable report can be prepared.
3. It is requested that in future reports be improved by conforming style to the main report in accordance with the directives in paragraph 4, and that an attempt be made to improve content in accordance with the suggestions in paragraph 5.
4. In general, questions of style can be answered by reference to the January or February reports of the Sub-Commission. In particular, the following points should be observed:

- (a) Cautions: the Sub-Sections' cautions are to appear in capitals, and underlined, and centered. Major subjects discussed are to be captioned with initial capitals and lettered with capital Roman letters followed by a period. The parts of such subjects are to be captioned in lower case, with one initial capital, and numbered in arabics followed by a period. Small Roman letters are used in parentheses may then be used for further breakdowns. Note that no punctuation is used after the caption, and that no cautions other than those distinguishing the Sub-Sections are underscored.
- (b) Spelling: British spelling will be used throughout.
- (c) Abbreviations: Military abbreviations are to be written in capitals, without periods. For example: GCS, AFM, AFM, etc. Other abbreviations, such as U.S. or U.K., are written in the usual manner.
- (d) Names: Numbers of the Finance Sub-Commission are referred to by title, and not by name. Persons outside the Sub-Commission may be referred to by name, but titles are preferred.

- (d) Numbers: Numbers, whether in tables or in the text, should be rounded whenever possible. For example, 12,086,924 line should be called "12 million line" in the text. In a table, figures should be rounded and zeros dropped. The magnitude of the figures being indicated by an appropriate heading, such as "(millions of line)".
- (f) Dates: Dates are to be written as: "14 January 1944".
- (g) Copy should be submitted in double-spaced typing, and in duplicate.
- (h) The material should contain all significant policy decisions taken during the month with a sufficient discussion of background, or references to earlier reports, to make intelligent appraisal possible.
- (i) The material should contain as many significant statistics as possible. These statistics should be used either as information relevant to the argument or as factual information of interest to the reader.
- (j) Each paragraph should contain a topic sentence so that the reader knows the purpose of the paragraph.
- (k) Before submission to this office the material of sub-sections should be sufficiently rewritten so as to constitute a clear, organized narrative.

Lieut-Colonel G. V. Claiborne, AFA,
Major J. Osmon, Insurance Sub-Section,
Major B. D. Nash, Revenue Sub-Section,
Currency and Exchange Sub-Section.

Reports of Sub-Sections for the month of February should be sent in to this office as soon as possible, and in any case not later than 5 March.

The reports submitted for February and succeeding months should observe the following points:

1. The style of paragraph enumeration, spelling, punctuation, military abbreviations etc. should be made as much as possible like that used in the January report of the Sub-Commission in order to reduce the rewriting necessary for the preparation of a consistent consolidated report. In this connection it should be noted that the Sub-Sections should refer to themselves as Sub-Sections rather than as Sections.
2. The copy submitted to this office should be double-spaced in order to facilitate such rewriting as may be necessary.

The report is now being circulated to Regional Finance Officers and constitutes the main source of their information on general policy, current events, problems under review etc. Sub-Sections should bear in mind when preparing reports to provide an adequate bulletin of news to lower formations as well as a report to superior authority. Care must also be taken to present facts so that they are intelligible to people who have not seen previous reports. This will in certain instances entail description of background, reasons for decisions taken and when available, inclusion of relevant statistics.

It has been noted that an increasing tendency exists for correspondence to be addressed to individual officers by name instead of to appointments. This practice creates registration difficulties as it is impossible to distinguish between envelopes containing personal and official correspondence and should be avoided wherever possible.

All correspondence should be addressed to Finance Sub-Commission, HQ, ACC (for attention -----) but the envelope used should be addressed to Finance Sub-Commission, HQ, ACC only, without mention of the officer's name. 1. Both of the above named brothers were employed at Rear Headquarters AC as professional men: one with Legal Sub-Commission and the other with the, then called, Interior Sub-Commission.
2. It was reported to this office that they were both acting suspiciously at times, and since they were in a position to know much of what was going on, it was requested that they be checked.
3. They were interrogated thoroughly by Security Branch this Headquarters and a search was also made of their private papers. It was discovered that they were German Jews, who had lived a while in Switzerland but spent much time in Italy as stock brokers and economists. They are the authors of some texts on Economics. It was also discovered that at one time they may well have been comparatively wealthy. During the questioning they both seemed rather nervous, but this may well have been quite a natural reaction.
4. Nothing derogatory to their characters, moral or political, was discovered but it was felt that they were not above suspicion. It is felt that the Bendheims are "crackpots" in a sense but nevertheless quite keen in business dealings.
5. One of the brothers was eventually transferred from Interior Sub-Commission to Finance, working under Lt. Col. CROSS. As far as can be ascertained they performed their duties in an excellent manner.
6. Payroll records show that they were paid in full through 15 July 1944 which was the last pay day for Rear Headquarters.

2. He states that he has taken all necessary steps to put an end to the activities of the Bendheim brothers and that he has notified all persons in the area that they have no authority from this Commission to carry on their business.

1. During the time when Hq ACC were at Naples and Salerno, Dr. Eric Bendheim and Dr. Martino Bendheim were employed by the Legal and Finance Sub-Commissions respectively.

2. Their employment came to an official end on the move of Hq ACC to Rome.

3. In these circumstances, it is somewhat distressing, if perhaps not altogether surprising, to discover that these gentlemen are alleged to have retained possession of an office in the Palace of Justice, Salerno, where under the protection afforded by signs reading respectively "Allied Commission - Near Link Legal Sub-Commission" and "Allied Commission - Near Link Finance Sub-Commission" they are apparently carrying on a business which offers obvious scope for the lucrative employment of misdirected talents.

4. As an illustration of their activities, there is attached hereto a copy of a letter written to you by Dr. Eric Bendheim and forwarded to this sub-commission.

5. It is of course essential that their activities should be brought to an immediate close, but it is also desirable that, if any actual criminal offense can be proved to have been committed by either of the gentlemen concerned, the necessary proceedings should be put in hand forthwith.

i. The Bendheim brothers stated they were directly under the supervision of Capt. Madill. Capt. Madill denied same, stating that he (Capt. Madill) believed that the Bendheim brothers were employed by the Allied Commission.

j. On or about 23 December 1944 the Procuratore del Regno of Salerno had called at my office and informed me that Bendheim brothers had been seeking information from all offices of the Italian Courts and had gone so far as to enter the consultation room of the Tribunale judges during deliberations and insisted upon sitting in the room to listen to the Court's deliberation. I informed the Procuratore del Regno to refuse any and all information to the Bendheim brothers and to eject them from any office or deliberation room, should they attempt to repeat such conduct. I made this statement because I was under the impression that the Bendheim brothers were merely custodians of some property belonging to the Allied Commission. I knew the Bendheim brothers had no other official duties.

k. Capt. Madill and I both ordered the Bendheim brothers to vacate their office immediately, but they proved to be obstinate, stating we could not force them to go. 2

l. Capt. Madill and a Carabinieri were to proceed to the Palazzo di Giustizia to examine the office of the Bendheim brothers and to make certain that they would vacate the building immediately.

m. Capt. Madill will advise us in due course as to what action has been taken.

HEADQUARTERS
SOUTHERN REGION, ALLIED COMMISSION
LEGAL DIVISION
APO 394, U.S. Army

I-3660

17 January 1945.

SUBJECT: The Bendheim Brothers.

TO : R.L.C., Southern Region, Allied Commission.

1. Reference is made to the attached file W. D-3660.
2. I investigated into this matter on 15 January 1945 and have the following to report:
 - a. The Bendheim brothers occupy an office in the Palazzo di Giustizia in Salerno.
 - b. They have, since Headquarters ACC left Salerno in July 1944, held themselves out to be employees of the Allied Commission. Such representations were made to DADOS, DAF, DAFD, other Allied military organizations, and to Capt. Smith (as late as December 1944 in the case of the latter).
 - c. Because of these representations, each of the aforementioned organizations, thru its officers and ORs, have requested the Bendheim brothers to act for them on many occasions.
 - d. Similar representations were made to the Italian Courts and the officials thereof. As a consequence, the Bendheim brothers had easy and ready access to the various records of the Italian Courts.
 - e. The Bendheim brothers have received no pay whatsoever from the Allied Commission, nor from any other military organization since July 1944, however, they have been receiving meals and rations from friendly members of DAFD and DADOS.
 - f. The Bendheim brothers are not regularly employed by anyone.
 - g. Tacked upon one of the cabinet doors, in the office of the Bendheim brothers, were exhibits "A", "B" and "C", which are attached hereto and made a part hereof.
 - h. Exhibit "D" is a report of activities made by the Bendheim brothers.
