TO: Headquarters, Allied Commission, APO 394 (for Chief Legal Advisor).

1. Reference your AC/4092/1/L, 9 June 1945, the provision for payment of above on basis of Grade 5 was based on the understanding (apparently erroneous) that Avvocati were to be treated as Procuratori del Regno rather than sostituti.

2. Inasmuch as the compensation allowed (even on the basis of Grade 5) is quite small and since the order has already been issued on that basis in the Region, it will be appreciated if the matter could be reconsidered and the present order allowed to stand.

SUBJECT : Extraordinary Courts of Assizes.

TO : Regional Commissioner (Attn: R.L.O.)  
ROMBARDIA Region.

1. The Basile incident is much regretted. It was believed by the undersigned, who made the request at the time that all arrangements had been made by PS to have him transferred to Rome to face his trial before the High Court. (letter LEG/5038 of 27 May and AC/4092/1/L of 30 May refer).
2. If Basile's has to be retried, it will have to be before the High Court. It is agreed that though the form of justice which can be counted upon in Milan has been to date above any criticism, there may be a different story to tell very soon.
3. It is expected that the undersigned will be in Milan in the course of the next few days. It may be then advisable to go through the list of pending cases and recommend to the High Commissioner that these likely to create disturbances if heard in Milan, should be transferred to the High Court.
4. The question of the re transfer of the Cassation to Rome should be discussed at the meeting of 30 June.
5. The presence of Torliatti as Minister of Justice and Nenni as High Commissioner for Fascist crimes should relieve the present tension in the North.

Ref.: LEG/5048

SUBJECT : Extraordinary Courts of Assize

TO : H.Q. Allied Commission

1. The Milan Court tried 14 cases between the 1st and 13th June. Three accused were acquitted for lack of proof, while the remaining eleven received sentences of imprisonment ranging from 10 to 26 years. No untoward incidents were reported.

2. Yesterday, however, two important cases were before the Court, which have roused considerable public feeling. In the first, Bruno Biagioni (ex-Federale of Apuania, commander of a Brigata Nera, etc.) was convicted and sentenced to death, while in the second case a sentence of 20 years imprisonment was imposed on Carlo Emanuele Basile (ex-chief of the Province of Genoa) despite a demand for the death sentence of the P.M. vociferously supported by the crowd. The Court announced that the reduction in penalty was granted under Art. 26 of the C.P.M. di Guerra on account of the accused's record in the last War.

3. The latter decision was very badly received by the crowd who demonstrated outside the Palazzo di Giustizia and sent delegations to the Prefect last night. This morning truck loads of (well-organized) demonstrators have passed this HQ en route for the centre of the City, there to demand according to their banners, Basile's head, Popular Courts, Justice and so forth. Appropriate preparations have been made

- (ii) S.E. Cartwright kept the President of the Special Court locked up in a cupboard during this scene, while he himself paced the corridor to face the mob if required.
- (iii) S.E. Cartwright is beginning to wonder if the Court of Cassation could not administer more even justice from Rome.

SUBJECT : Extraordinary Courts of Assizes - Appeal for mercy to the Minister of Justice after death sentences have become final.

TO : Regional Commissioners (Attn. Regional Legal Officers),  
EMILIA, LIGURIA, PIEMONTE, MARCHE and VENETIA Regions.

1. Under Article 580 of the Italian Code of Penal Procedure, Procurators General must communicate immediately to the Minister of Justice the notice that a death sentence has become final.

2. The Minister may then request that all documents pertaining to the case be forwarded to him forthwith and may decide to recommend to the Sovereign that a measure of clemency be taken in favour of the sentenced person. This he may do whether or not such person has lodged an appeal for pardon.

3. The function of the Minister of Justice is not therefore administrative but judicial. As there is nothing to the contrary in the text of Art. 2, it is therefore not proposed to depart from the usual Italian practice in cases tried by the Extraordinary Court of Assizes.

4. The following procedure will be followed in all death sentence cases made final by the Section of Court of Cassation of Milan.

a. The procurators general of the Court of Cassation should request RLA to notify the Minister of Justice by telegram every time a death sentence has been affirmed by the Court.

b. The Minister may take two courses:

(1) He may order the sentence to be carried out. In that case the Procuratore Generale is responsible for making the necessary arrangements for the execution as soon as he is informed of the Minister's decision.

(2) He may request communication of the documents of the case. These should be forwarded immediately by the Procuratore Generale through RLA channels.

c. If the Minister decides that there exist in his opinion, grounds justifying a measure of clemency, he will address to His Allied Commission, Legal Sub-Commission a recommendation to that effect.

d. If the Legal Sub-Commission accepts the Minister's point of view, a pardon will be signed by CLA and forwarded to RLO for communication to and necessary action by the Procureurs Generals.

e. If CLA disagrees with the Minister, he will request RLO to notify the Procureurs Generals accordingly. The latter will then carry out his normal duties and arrange for the execution to take place.

5. The necessity of avoiding delays in the transmission of documents is again stressed. All channels of communication will be used throughout the procedure. RLO should therefore see that the Procureurs Generals loses no time in informing him of the decision of the court and in forwarding the documents relating to the case, whenever these are requested by the Minister in accordance with the procedure laid down in the preceding paragraphs.

SUBJECT : Special Courts of Assise.

LIGURIA Region.

1. Receipt is acknowledged of your ltr/ltr/05.5 of 9 June 1945.
2. A separate directive has already been sent to you on prisoners of war.
3. It is difficult to deal with your comments on the Special Court of Assise in view of the general nature of the criticisms which you make.
4. I agree that to some extent ~~the~~ ~~MC~~ is responsible for ensuring that the Italian Courts administer law in accordance with recognized principles of justice. In this case however the appeal ~~to the~~ Court of Cassation should provide the necessary safeguard, at least on the point of jurisdiction. I agree that the sentences imposed are severe; except in the case of death sentences, however, in which there is a review by the Minister of Justice in addition to an examination by the Court of Cassation, it is exceedingly unlikely that they will ~~be~~ be fully enforced.
5. As to the basic proposition that "war crimes" should not be tried in these courts, I find myself unable to concur. The term "war crimes" is normally used to refer to international crimes committed in breach of the rules of war. It is nonetheless a civil crime for an Italian Fascist to murder an Italian patriot because he does so during a war or because he tortures him in the process.
6. Furthermore it could I think be argued with some force that many of the fascist atrocities, e.g., reprisals, were committed with the express purpose of assisting the Germans and are therefore clearly within the scope of the decree.
7. Nevertheless if any specific case arises in which you consider that ~~the~~ ~~MC~~ should interfere will you please notify this Sub-Commission with full particulars, so that we can discuss the question with the Ministry of Justice.

1. Your attention is invited to the fact that a number of cases have been tried before these courts in which the death penalty has been imposed. In all cases so far it is noticeable that the sentences are extremely heavy.
2. It is not possible to state with certainty the facts pertaining to each case as the records are before the Court of Appeal but it can, it is believed, be accepted as a fact that these courts are in effect trying persons accused of atrocities and what is loosely termed war crimes, providing they can find the prisoner has the character of a fascist or a collaboratorist.
3. This HC. appreciates that while these Courts are constituted under an Italian Government decree, namely D.M. 142 and are administered by Italian personnel it is nevertheless felt that this decree was implemented by AMG and such Courts are operating with our approval and indeed to an extent under our supervision there is a responsibility resting on AMG.
4. This HC. takes the view that this Court was constituted solely to deal with the political offences of Fascism and Collaborationism as such and empowered to punish for these offences. The decree does not expressly state, nor, it is submitted, can a reasonable inference be drawn that this Court has jurisdiction to try atrocity or war crimes. This view is supported when it is realized that such crimes last mentioned are punishable under the Italian Military and Civil penal codes. Further may it be stated that a similar view is held by a number of Italian magistrates and Public officials. It naturally follows that there is grave concern as to whether this practice should be continued, particularly when it is realized that a certain number who could be classified as Prisoners of War will be for trial before this court, and when such decisions, ~~may be~~ <sup>may be</sup> dispassionately viewed in the future.
5. It would be appreciated if this HC. could be reassured as to the Constitutionality of this Court to deal in effect with atrocity or war crimes and also whether, where a prisoner who

SUBJECT : Appeal (ricorso) from the Extraordinary Court of Assizes to Special Section of Court of Cassation, Milan.

TO : Regional Commissioners ( i.e.: Regional Legal Officers), EMILIA, LIGURIA, PIEMONTE, LOMBARDIA, VENETIA, and VENEZIA GIULIA Regions.

1. It will be appreciated that under D.L. No. 142:

a. The time limit for lodging the appeal is, in the case of the accused 3 days, and in the case of the Pubblico Ministero 5 days from the day on which the copy of sentence is deposited with the Cancelleria of the Extraordinary Court of Assizes.

b. The presiding judge of the Assize Court must deposit the "sentenza" with the Cancellieri of the Court within 5 days of the pronouncement in Court (Art. 15, D.L. 142). The time limit for the completion of the appeal by filing the reasons does not begin to run until this deposit is made (Art. 17, D.L. 142).

c. Even if appeal is entered by the accused or the P.M., the Court of Cassation cannot proceed to judgment until receipt by that Court of the record.

2. Unless the "sentenze" are deposited within the time specified above and unless all other time limits are strictly observed and the record and appeals forwarded to the Court of Cassation as promptly as possible inevitable delay will occur which will defeat the object of the decree.

3. EIOs will therefore bring to the notice of the extraordinary Courts and the Cancellieri the necessity for strict compliance with these limits; it should be stressed that appeals must be forwarded by the Cancellieri of the Court of Assizes to Cancelleria of the Court of Cassation within 24 hours of receipt and must not be held back in order to transmit a number of cases at the same time. SAC channels of Communications should be made available.

4 June 1945

SUBJECT : Appeal from Extrajudicial Court of Assizes to Section  
 of Court of Cassation of Milan.

TO : Legal Sub-Commission

1. Further to AC letter 4092/1/L of 31 May 1945, it is requested that all P.L.Os be instructed to supervise the dispatch of appeals to the Section of Cassation in Milan from Provincial Courts of Assizes in order that ~~the~~ <sup>42A</sup> they may be expedited as much as possible.
2. To date the Section of Cassation has received only three appeals from the Pubblico Ministero of Milan against sentences which were considered either too lenient under the provision of ~~the~~ the Decree or technically incorrect.
3. The time limits for the Court of Cassation to render its decisions is 28 days under normal procedure, which is applicable in all cases other than a death sentence, and ten days when the death penalty has been pronounced.
4. In Milan appeals filed by persons sentenced to death on 28 and 30 May will only reach the Court of Cassation on or after 8 June. The matter has been taken up with P.G. who explained that shortage of personnel and other difficulties had made it impossible for the sentence to be deposited with the Registrar immediately. As you are aware under Article 17 of DIL 142 the time limit of three days for appeals to the Court of Cassation runs from the date the sentence is deposited with the Registrar.
5. It will be necessary to check attempts to defeat the provisions of the Law through the Clerk of the Court or his staff withholding documents for a considerable time. Furthermore appeals must be prevented from accumulating and reaching the Court of Cassation all together.

6. It is/

6. It is therefore suggested that P.L.O. be requested to instruct the clerks of the Court and Pubblico Ministero to deposit all sentences without any undue delay. Italian personnel not complying with these instructions should be reported at once.

7. P.L.Os. in cities other than Milan should also see that appeals deposited with the Registrar are forwarded to the Court of Cassation within twenty four hours of such deposit.

8. AMG should provide all necessary facilities for despatching such correspondence from the Provincial Court of Assizes to the Court of Cassation in Milan.

Roma, 6 Giugno 1945

Cara Eccellenza,

Oggi nel gabinetto di S.E. Tupini vi è stata una riunione presieduta dallo stesso a cui ho partecipato insieme a S.E. Borsari e al Rappresentante della Commissione Alleata (Sottocommissione Legale).

Si è esaminata la questione relativa all'eventuale concorso di competenza delle Corti d'Assise Speciali e del Tribunale Ordinario di Guerra per l'Italia Settentrionale, creato col DDL 1.2.1945, N° 65.

Si trattava di stabilire se per i reati previsti dal DDL 22 aprile 1945, N° 142, la Corte di Assise Speciale fosse competente a giudicare sia i civili che i militari o se, invece, i militari dovessero essere deferiti al Tribunale Militare Ordinario di Guerra.

Dopo un esame dettagliato delle due leggi ci siamo tutti accordati nel riconoscere che per i reati di collaborazione con i tedeschi, previsti dal DDL 22 aprile 1945, N° 142, la competenza spetta esclusivamente alle Corti di Assise Speciali, senza nessuna distinzione tra imputati civili e militari.

Questa interpretazione, che personalmente credo fondata in diritto, particolarmente in base al N° 5 dell'art. 1 del DDL N° 142, se affermata dalla Cassazione, avrà il vantaggio di evitare questioni di competenza particolarmente dannose e ritardi in giudizi che evidenti ragioni politiche esigono siano condotte con la migliore possibile rapidità.

Mi affretto comunicarle quanto precede, con preghiera d'informarne S.E. il Primo Presidente, di cui spero fare la personale conoscenza tra poco. E' infatti assai probabile che nella prossima settimana io abbia nuovamente occasione di recarmi a Milano.

Le invio i più cordiali saluti.

1. Reference your AC/4092/1/L dated 31 May 1945.

2. At present one Extraordinary Court of Assize has been established in each of the four Provinces of Genoa, Imperia, Savona and La Spezia. As regards Genoa Province it is expected that an additional Section of the Court will be required and this will be set up if and when the volume of work justifies it. The same applies to Imperia. Any such change will be immediately notified to you. It is not thought likely that more than one Section will be required in each of Savona and Spezia Provinces.

3. The Extraordinary Courts have already commenced to function in Genoa and Savona Provinces. The first audience of Imperia Province Court is fixed for 8 June 1945. Spezia Province Court has not yet commenced to function although duly constituted and meantime it is not known whether a date for commencement has been fixed. You will be advised as to this in due course.

4. All Courts have been instructed to forward appeals through PLOs to this HQ. which will transmit same to the Special Court of Cassation through Hq., Lombardia Region. If local arrangements ensuring quicker delivery of appeals to Milan through Italian or other channels can be made they will of course be taken advantage of.

5. The Primo Presidente and Avvocato Generale (in the absence of the Procuratore Generale) of Genoa Court of Appeal can make arrangements to travel to Milan for the proposed meeting whenever they are notified of its date.

1. Reference was LAG/5027 of 4 June 1945 there has been a misunderstanding about this case.

2. I have spoken to Mr. Myron Taylor's first secretary who informed me that Mr. Taylor was approached by Monsignor Galeazzi of the Vatican, a first cousin of Uccelli, who requested that the execution of Uccelli be delayed for sufficient time to enable certain documents to be produced for the examination of the court. Mr. Taylor forwarded this request to General Hume, and has no further interest in the case.

3. I stated that this information was not entirely sufficient to enable me to give any useful advice to you in the case. Mr. Taylor, however, knew no more about it and has accordingly informed Monsignor Galeazzi that he should come to give me all the details. At the time of my writing this letter, this interview has not taken place but I will let you know the result as soon as possible.

4. If the documents are the same as those to which the First President refers in his report, it appears probable that they are not available for production, but that even if they were they would have no effect upon the result of the case. I shall so advise Monsignor Galeazzi.

5. If Uccelli appeals to the Court of Cassation it seems unlikely that his appeal will be heard before I have had an opportunity of clarifying the situation. I hope therefore that no further difficulty will arise.

3. Ucelli was sentenced on the 28th ult. and will no doubt file an appeal to the Court of Cassation. There is therefore no probability of his being executed summarily.
4. However in order to give satisfaction to IV Corps, a letter has been sent to the P.G. requesting him to give this H.Q. notice of the day fixed for the execution of Ucelli at least three days beforehand.

## R. CORTE D'APPELLO DI MILANO

N.436

Milano, 4 giugno 1945

ILL.MO SIG. COL. GC. HANNAFORD

Commissione Alleata di Controllo

M I L A N O

Comunico alla S.V. Ill.ma le informazioni richieste sul processo contro Uccelli Oscar, svoltosi avanti la Corte Straordinaria di Assise di Milano. L'Uccelli aveva dichiarato:

- 1°) - che per ordine del Buffarini Guidi aveva richiesto la convocazione del Tribunale Straordinario Militare per giudicare persone in rappresaglie dell'uccisione del federale fascista Aldo Ravega, di cui erano ignoti gli autori;
- 2°) - che la lista delle persone da sottoporre al giudizio di detto tribunale gli era stata fornita dal comando della milizia V.F. e precisamente da Pollini e Bossi, appartenenti a detto comando;
- 3°) - che il generale Solinas aveva ordinato la convocazione del Tribunale Straordinario Militare designando i componenti dello stesso;
- 4°) - che esso Uccelli aveva dato le dimissioni dalla carica di prefetto verso il Natale 1943;
- 5°) - che esso Uccelli aveva provocato l'arresto del colonnello Colombo della legione autonoma " Muti " e ciò affermava allo scopo di dimostrare che egli era ostile all'ambiente fascista di Milano.

Il Prefetto attuale della città Ecc. Lombardi, interrogato come teste, depose di non essere personalmente informato delle circostanze suindicate. Il Presidente della Corte credette utile avere visione dell'incarto del processo svoltosi avanti il Tribunale Straordinario Militare suindicate e prendere visione della minuta della lettera delle allegate dimissioni dalla carica di prefetto dell'Uccelli. In attesa delle comunicazioni che il Prefetto Ecc. Lombardi si era riservato di dare circa i documenti suindicati, venne sospesa l'udienza momentaneamente. Fu ripresa dopo che era pervenuta una comunicazione del Prefetto con la quale s'informava che la minuta della lettera di dimissioni non era stata rintracciata e che il fascicolo del processo era sta-

to ritirato dall'ufficio del P.W.B.

La Corte ritenne, in conformità dell'avviso del P.M., che non fosse necessario fare altre indagini, poiché le circostanze di cui ai numeri 1, 2 e 3 erano sufficienti per il giudizio sulla responsabilità dell'Uccelli, tanto più che questi aveva ammesso di avere richiesto la convocazione di altro tribunale straordinario militare, sicché la sua responsabilità appariva ancora più grave.

Quanto sopra mi fu dichiarato dal Presidente Cav. Uff. Mottino. Lo stesso Prefetto Soc. Lombardi mi confermò la impossibilità di rintracciare la minuta della lettera di dimissioni dell'Uccelli, per il disordine in cui era stato trovato l'archivio della Prefettura, ed altresì la consegna del fascicolo del processo all'ufficio del P.W.B.

È vero che la folla, durante il corso del processo, tenne un contegno eccitabilissimo, prorompendo in manifestazioni verbali incomposte, interrompendo le deposizioni dei testi e l'avvocato difensore.

Il Presidente Mottino afferma di non aver avvertito che dalla folla si emettesse grida di "morte, morte". È verosimile, però, che tale grido, data l'eccitazione della folla, sia stato pronunciato. I testi, malgrado ciò, poterono rendere la loro deposizione in modo completo, ed il difensore dell'Uccelli poté svolgere la sua difesa, pure abbreviandone la conclusione.

Il difensore del Buffarini Guidi si limitò a rimettersi alla clemenza della Corte.

Non consta al Presidente se dei quattro giudici popolari tre appartenessero al partito comunista. Tutti quattro erano ~~ed~~ inclusi nell'elenco comunicato al Presidente del Tribunale dal C.L.N. locale.

Rilevo che fu impossibile evitare le manifestazioni a cui la folla si abbandonò nell'aula di udienza. Col Comando dei Carabinieri si era discusso se convenisse limitare l'accesso alla detta sala ad un ristretto numero di persone oppure invece permettere che si dibattimenti presenziasse un numero di persone pari alla capienza dell'aula. Si ritenne opportuno seguire questo secondo sistema, attesa la necessità di permettere che il pubblico avesse notizia diretta dello svolgimento dei processi. La limitazione del numero di presenti nell'aula avrebbe destato sospetti e malumori che era opportuno evitare. L'affollamento dell'aula mise, però, il Presidente nella difficoltà e qualche volta nell'impossibilità di frenare le anzidette manifestazioni incomposte. Nel caso in esame il Presidente si astenne dall'impartire l'ordine di sgombero della sala, poiché era prevedibile che questo non avrebbe potuto essere eseguito se non usando la forza. Ciò avrebbe aumentato l'eccitamento della folla e determinato

manifestazioni ancora più incompete.

Si è provveduto perché sia aumentato il numero dei carabinieri addetti al servizio d'ordine. E si confida che tale accorgimento e la diminuzione, col procedere del tempo, dell'eccitazione della folla, consentiranno che le udienze possano svolgersi in modo più sereno.

Con osservanza.

IL PRIMO PRESIDENTE FF.  
( Dott. Aldo Cartesegna )

OGGETTO: Corti Straordinarie di Assise.

In relazione a quanto è stato comunicato con la nota suindicata, si fa presente che l'incarico ad avvocati di rappresentare il pubblico ministero presso le Corti Straordinarie di Assise, secondo il disposto del cap.I° Art.10 D.L.L.22.4.45 n.142, dovrebbe ritenersi, secondo questo Ministero, onorifico e quindi gratuito, dato il silenzio della legge al riguardo.

D'altra parte, la effettiva necessità di far ricorso a liberi professionisti per l'incarico suddetto dovrebbe presentarsi soltanto ove mancassero o fossero totalmente assorbiti dalle ordinarie occupazioni i magistrati addetti alle singole Procure, ciò che non dovrebbe verificarsi, a quanto risulta a questo Ministero.

Ad ogni modo, poichè codesta On. Commissione fa presente che già si è verificato che avvocati, chiamati a rappresentare il P.M. avanti le Corti di Assise Straordinarie, si sono mostrati restii ad assumere l'incarico, dubitando che possa venir loro corrisposto un congruo onorario, si fa presente di ciò edotta la Presidenza del Consiglio e il Ministro del Tesoro per gli eventuali provvedimenti di loro competenza.

SUBJECT : Republican Ministry of Justice and  
 Court of Cassation. (Epurazione)

TO : Regional Commissioner (Attn: R.L.O.),  
 LOMBARDIA Region.

1. Reference your LEG/5038 dated 4 June 1945 it is hoped that Pres. Voglietti will accept the proposed nomination and relieve our troubles to that extent.
2. Your observations concerning Cons. Giovanni BRIOCHETTI are not understood. You requested that he be appointed as Counsellor on the Special Section of Cassation at Milan and the Minister has complied with this request.
3. In these circumstances it is not understood
  - (a) how he can function as a member of an Epuration Commission under G.U.No.35, or
  - (b) how he can return to the Pubblico Ministero if he is not used on this commission.
4. As to the nominal rolls of personnel for the Ministry and Cassation, we are taking this up with the Minister. It is observed that several of the officials left their posts in May 1944 and 2 more <sup>did not take</sup> up their appointments. However it seems unlikely that the information contained in the list will be sufficient to enable the Minister to deal finally with any of these personnel. The opinion which he previously expressed and which I imagine he will maintain is that
  - (a) All persons who went north with the Ministry or the Court of Cassation must be suspended forthwith and epurated. Pending epuration they should receive only their minimum basic salary at their pre Fascist Republican official grade.

(b) Persons who were in the north and merely took up work at their official grade in order to live, or were appointed to posts but did not assume the appointment are to be examined case by case. The Ministry will not employ these officials until such examination has been had but, if you are satisfied that any of them are suitable for further provisional employment, the Ministry would have no objection.

5. The Minister is writing a formal letter on the above which will be communicated to you.

SUBJECT : Presidents of Extraordinary Courts of Assises (D.L. 142).  
TO : H.E. The Minister of Pardon and Justice.

1. Your Excellency's attention is invited to the enclosed communication directed by the Primo Presidente of the Court of Appeal, Turin, to the Regional Legal Officer, PIEDMONT. The problem set out therein is not limited to PIEDMONT and identical suggestions have been received from all Northern Regions.

2. This Sub-Commission fully appreciates that owing to the serious character of offences dealt with by the Extraordinary Courts the office of the President should be held by a capable magistrate of sufficient experience. On the other hand Your Excellency will agree that the proper and rapid functioning of the Extraordinary Courts is a fundamental postulate paramount to any other consideration.

3. This Sub-Commission does not wish to put forward any formal proposal for the solution of this question nor will it take any action which would exceed the scope of Art. 6 of D.L. 142 unless the Italian Government enacts the appropriate amendment authorizing the Presidents of Courts of Appeal to appoint grade 6 magistrates as Presidents of the Extraordinary Courts of Assises unless Your Excellency gives your assurance that it would be proper for the AMG to temporarily promote local judges holding grade 6 and have them assigned in grade 5 to the Assises. Your Excellency might also wish to consider the possibility of transferring temporarily a certain number of Consiglieri d'Appello from the South to the North and of delegating some other functions at present performed by grade 5 magistrates to officials holding grade 6 thus relieving the former for the work in the North.

4. Your Excellency will agree that in the light of the growing number of Extraordinary Courts and their Sections and owing to the increasing general scarcity of grade 5 magistrates this problem deserves a serious and urgent consideration.

5. Would Your Excellency please advise this Sub-Commission of the steps you propose to take and of the total number of grade 5 magistrates whom you will have available for the North.

SUBJECT: Special Section of Court of Cassation.

TO: Regional Commissioner (Regional Legal Officer),  
 LOMBARDIA Region.

1. Reference your LEG/5038 of 31 May 45 re Extraordinary Courts of Assize and Section of Court of Cassation and your L/5067 of 1 June 1945 re Judicial personnel, Milan.
2. I have discussed the personnel question of the Special section with Banca with the following results:
  - a) It is agreed that Presidente Giuliano and Consigliere Toccoa will remain at Milan.
  - b) According to Ministry's records the following Presidenti di Sezione should be in service with the Court of Appeal at Milan: LIPOLINI Giovanni, BORSIEME Aroldo, GALEUCCI Giovanni, DI RUBBIS Gastano. Please confirm that these gentlemen are in fact in Milan and indicate three of them whom you wish to be appointed as Consiglieri to the Court of Cassation Section. The Minister will issue the appropriate decrees at once. When this is done the present members of the Cassation Section may return from Milan to Rome as per para 3 of your letter LEG/5038 of 31 May 45.
  - c) Contrary to your advice re Consigliere Berardi the Ministry now reports that H. G. Lepore, the P.G. of the Special Cassation Section is of the opinion that Berardi's appointment at Milan would cause a scandal. It appears that Berardi was sottosegretario tecnico per Giustizia (in fact vice-Minister of Justice) in Albania. However, if you are still satisfied that the appointment would not cause any difficulty the Ministry is willing to effect the transfer.
  - d) The Ministry is preparing a decree transferring Nicola IANNARONE to Bologna as proposed by you and Cartasegna.
  - e) LANZI, TRAMONTANO and CALABRIA have already been promoted to grade 5. Official communication to this effect will be transmitted to you to-morrow so that

Lanni and Galabria who are already at Milan may assume their new duties without delay. DE CAROLIS Giulio is reported sick and his departure to Milan might be delayed.

- 2) The Ministry has decided to promote "per scrutinio" the following 3 magistrates to grade 4 :
- (i) GUIDI Umberto, Consigliere, Court of Appeal Milan.
  - (ii) MEDICI Bruno, Pres. Sec. Tribunale Milan.
  - (iii) PALAVINI Ludivici, Consigliere Court of Appeal Milan.

The promotions will be effected this week and you will be able to employ the three magistrates either as Section Presidents of the Court of Appeal (to take place of three Section presidents referred above under (b)) or they might be assigned to the Special Cassation Section if additional Consiglieri are needed.

3. Please forward a copy of the AMG order appointing Cons. LEVI to Consigliere of the Special Section. Contrary to your LBU/5038 of 25 May 45 you now seem to propose to appoint GRAY to the bench rather than to P.M. of the Special Section. (your 5067 of 1 June, para 3 refers). Please clarify this and transmit a copy of relative appointing order for the Ministry.

4. Kindly advise whether in your opinion it will be necessary to set up a second section of the Special Cassation Section at Milan.

W. B. SMITH,  
Colonel,  
Chief Legal Advisor.

TO : Regional Commissioner (Attn: R.L.O.),  
VENEZIA Region.

1. Reference your RK11/L3/Reg/C/03.1., dated 31 May 1945.
  2. Difficulty has been experienced in other regions because of the failure of persons who have imprisoned collaborators to come forward with evidence against them.
  3. In these cases arrangements have been made for the First Presidents of the Courts of Appeal to insert in the newspapers requests for "denunzia" coupled with the statement that if none is received the accused will be released. It is intended that two or possibly three such notices will be issued before anyone is released, finally giving the names of people against whom no evidence exists.
  4. The reason for this, at least in Milan, is that it is considered that the persons in gaol may be in considerable danger if released prematurely. I do not know to what extent this applies in Venezia.
  5. On the subject of trials of POWs, we are awaiting a decision from AFHQ on the extent to which it is intended that persons, arrested by partisans etc. and claiming to be treated as prisoners of war, are to be evacuated to POW cages. In the meanwhile, of course, arrangements can generally be made through the military authorities for any persons who have been evacuated and are accused of atrocities or similar crimes to be turned back to the Italian authorities for trial before the Special Courts.

Oggetto: Situazione degli Uffici del Ministero fascista delle Giustizie.

a) - Milano - In questa città si era trasferito, nel Febbraio 1945, da Brescia, il gabinetto dello pseudo ministro fascista delle Giustizie.

Sono rimasti nei locali del Palazzo di Giustizia gli archivi del gabinetto con numerosi atti interessanti per l'accertamento della collaborazione prestata dal personale alla c.d. Repubblica Sociale.

Di tali atti ha preso visione anche il Giudice Dr.

Ugo Natoli rappresentante dell'Alto Commissariato per l'Epurazione, giunto in questi giorni da Roma, allo stesso ho consegnato l'elenco del personale iscritte al P.F.R. e pochi altri atti ineventi e pratiche di epurazione.

E' stata disposta la conservazione in una stanza dei materiali di proprietà dell'Amministrazione (Macchine da scrivere, cancelleria ecc.)

b) - Brescia - Sono rimasti degli atti di non molto interesse presso la Procura Generale.

Deve recuperarsi del materiale, usato attualmente in parte dal C.L.N. E' competente per queste operazioni il Provveditorio Generale dello Stato.

Ho trovato in perfetta regola l'Ente di Previdenza degli Avvocati con tutti i fondi, ora bloccata per sicurezza.

The case of Cons. Iammarino is delicate. Although removed by C.I.F. because of his assignment by the R. Fascist government, he was actually entitled to such appointment having passed his "pomerone" brilliantly in March 43 and having been promoted in August 43. The P.P. says he is first class and no Fascist. However in view of the tension existing here, it would be preferable to appoint him to Brescia or Bologna and replace him by some other "magistrate" at least for the time being. At this point ...

Letter 10/5/57 dated 28 May 1945 of the Viceroy in Rome, Italy, claims that the jurisdiction of military tribunals is a special jurisdiction which can be limited by an express provision only.

Such express exclusion is contained in the draft of Decree No. 142 but is dropped in its final text; therefore the legislative proposal for amended to preserve the jurisdiction over military personnel for crimes of collaboration. It is, in fact, vehemently disagreed and states that further legislative action may be required. The proposal calls for an exclusive jurisdiction of Courts of Justice because

- (a) Extraordinary courts of Justice are already in operation.
- (b) Military tribunals in the North are irregularly constituted at the present time.
- (c) Dual jurisdiction would cause delay and doubt.

Agreed that

- (1) the Extraordinary Courts of Justice will have exclusive jurisdiction over civilians and military personnel for offenses contemplated by Decree No. 142; military tribunals will adjudicate all other offenses committed by persons lawfully in their jurisdiction;
- (2) no further legislative act is necessary to effect this intention;
- (3) additional sections of Extraordinary Courts of Justice shall be constituted if required in this connection. E. C. Boeri submits the suggestion of E. C. Boeri that if an amendment to Decree No. 142 is contemplated it should include a provision authorizing the President of Court of Appeal to appoint magistrates of lower grade than that of magistrate of Appeal; Magistrate to preside over the Extraordinary Court of Justice; E. C. Boeri to inform Procuratore Generale Legale of the Court of Cassation Section of this agreement by a letter to be transmitted by legal Sub-Commission; legal Sub-Commission to inform all officers concerned in the North;
- (iv)

As this points Procuratore Generale Militare and E. C. Boeri withdrew.

- 2. President of the Investigation Commission for the North, Milan.

Col. BERNINI suggests that Sig. Vogliotti, retired Counselor of grade 2 in Turin, proposed for the Court of Cassation, should be used for the above office. Minister agrees and proposes to supply a grade 3 magistrate should Sig. Vogliotti not accept.

3. Travel of officials of the Ministry to Brescia to bring  
archives to Rome.

Col. BERRINI states that Sig. Parenti obtained a passport from (C  
as a driver with the understanding that he will transport archives of  
the Fascist Ministry from Brescia to Rome; upon arrival at Milan  
Parenti disappeared. The Minister expresses his regrets.

1. Receipt of your LEG/5027 of 28 May and LEG/5033 of 29 May 1945 was had at 1130 hrs and 1145 hrs respectively this morning. In these circumstances it is hoped that you will accept our apologies for not having replied to your first letter before you wrote the second.

2. No agreement had been made between AC and the Italian Government as to the jurisdiction of the military tribunals, prior to the departure from Rome of the President of Cassation, except such as was made by Lt. Col. Hannaford (being thereunder duly authorized) with H.E. Tupini and H.E. Borsari. No other agreement has been made since.

3. It is the intention of this Sub-Commission to ensure that the Italian Government issue the necessary orders to prevent the assumption of jurisdiction by military courts in cases properly subject to the Courts of Assize. The Legal Sub-Commission agrees with you and the President that the present position is unsatisfactory, and that the Court of Assize should have full jurisdiction.

4. A meeting has been arranged for tomorrow with T. E. Tupini, Borsari and Boeri at which, it is hoped, a final solution will be reached. You will be notified of the result.

5. The reference to prisoners of war is not understood. A letter has already been written to AFHQ to which no answer has been received. A further letter will be sent. In the meanwhile

1

it occurs to me that an accused cannot claim that he is outside the jurisdiction of his own national courts on the grounds that his own national authorities should hand him over as a prisoner of war to another power. His prisoner of war rights, if any, only protect him against the detaining power, not against his own sovereign state.

SUBJECT : Court of Cassation - Procedure to be adopted  
for appeals.

TO : H.Q. Allied Commissioner.  
(Legal Sub-Commission)

1. In order to coordinate the activities of all Extraordinary Courts of Assizes with the Section of the Court of Cassation in Milan, it is proposed to convene in that City a meeting of all First Presidents and Procuratore Generale in function in Northern Italy.
2. The delays for filing appeals to Cassation are so short that if no uniform system can be devised the accumulation of cases will certainly be such as to prevent the Counsellors dealing with their work within the prescribed time limit.
3. Furthermore the President of the Section has requested that he be informed immediately an Extraordinary Court of Assizes starts functioning. As the Court of Cassation does not reform sentences, but simply quashes decisions of the lower Courts and orders that the case be retried by another Court of Assizes, it is important that a complete list of Courts of Assizes be supplied by other regions as soon as possible.
4. It has been agreed that quashed cases will be sent back for retrial to Courts within the same district as the one which pronounces the original sentence, in order to avoid loss of time, difficulties of transport etc.-
5. Would you please be good enough as to inform all regions concerned of the following :
  - a) that the Court of Cassation will open in Milan this week and that all appeals must be forwarded to the following address : - S.E. Presidente della Sezione di Cassazione

presso S.E. Il Primo Presidente,  
Corte d'Appello - MILANO

- b) that the President of the Milan Section of Cassation be informed as soon as the Court of Assizes starts to function. This can be done through the First Presidents of each District of Court of Appeal. All facilities for dispatching such correspondence from one region to another should be afforded by AMG.
- c) that a meeting is about to be convened in Milan of all First Presidents and Procuratori Generali in order to agree on a uniform policy and procedure in regard to the functioning of the Extraordinary Courts of Assizes and their relation with the Court of Cassation.

6. As soon as this Division will be informed that P.Ps and P.Gs are able to travel to Milan, arrangements will be made to call up the meeting and lodging and rations provided for one day and one night.

7. For your information it is proposed to request the P.Ps and P.Gs of the following Courts of Appeal to attend :  
First President and Procuratore Generale

(whether substantive or acting )	of C.A. of Milan
" " " "	" " " " Toriño
" " " "	" " " " Genoa
" " " "	" " " " Brescia
" " " "	" " " " Bologna

8. In view of the conditions prevailing in Venezia Giulia it is not proposed to ask the P.P. and P.G. of the Court of Appeal of Trieste to attend. If the situation improves the necessary instructions and information can be forwarded to them through Venice Court of Appeal.

1. Counsellors of Cassation have at last been billeted in the Hotel Commercio and thanks to Prof. Vassali's efforts have been authorized to join the mess of the Circolo Militare.
2. It is anticipated that they will start functioning ~~Tuesday~~ <sup>as</sup> Buffarini, whether sentenced to death or not, is alleged to have declared that he will contest the jurisdiction of the Court of Assizes and insist on being treated as a prisoner of war. He claims that he was captured in uniform having served as an artillery colonel of the Republican Army since September 43.
3. The case of Vittorio Emanuele Basile, Under Secretary of War in the Republican Government, appears to fall under the jurisdiction of the High Court of Justice. In view of the importance of his position and other facts which it would be too long to set out in this letter, it is suggested that H.E. Berlinguer be approached and given the opportunity of claiming the jurisdiction of the High Court over Basile's case. H.E. Berlinguer should be well aware of Basile's latest activities. The British Resident Minister concurs with this view. Basile is now detained in the "Carcere Militare" - 17 Via Crivelli, Milan.
4. You will find enclosed a list of members of the Republican Ministry of Justice. They will be suspended forthwith. On the other hand instructions are requested from the Ministry of Justice as to their future disposal and whether it is intended to try all or some of them and if so, under what jurisdiction.

5. The two members of the Ministry Judges Zingole and Cesaroni have proceeded to Brescia and Cremona to take over all documents, archives etc of the former Ministry and the Court of Cassation. They expect to return Tuesday and will hand their report to this Division.

It was the intention of the Ministry to appoint Consigliere di Cassazione BERARDI Corradino of Roma to Sostituto Procuratore Generale di Cassazione for the Section at Milan. Sig. SUBJECT : Section of Court of Cassation in Milan.

TO : HQ Allied Commission - Legal Sub-Commission.

1. Six Counsellors and three Officials from the Ministry of Justice duly landed on Milan aerodrome on wednesday 23 inst. noon.
2. They were temporarily housed at the Diana Hotel. The first meeting with the Primo Presidente and the Procuratore Generale took place the same day in an atmosphere of optimism and cordiality that could not fail to impress favourably the few witnesses of this moving scene.
3. These high hopes were unfortunately dashed to the ground a few hours later. Upon returning to their Hotel the Counsellors were informed that they had half an hour to vacate their rooms as the Allied Military Authorities could not accept the presence of civilians in a military establishment.
4. Whereupon the Counsellors, escorted by representatives of this Division, the Primo Presidente, the Procuratore Generale and various other persons who apparently took an interest in the personal welfare of the delegation proceeded to see the Prefect.
5. At 2000 after a skilful resistance, under threats of reprisals and the most lavish promises, the Prefect finally gave in and produced a list of nine rooms in nine different hotels of the City, but no ration cards were available.
6. The delegation returned to the Albergo Diana in fairly good heart to transfer themselves to their various and somewhat uncomfortable new quarters. Unfortunately a new crisis developed when they were informed that they could not take their meals at the Diana unless they lived there.
7. Only the personal intervention of Colonels Poletti and Hancock prevented the Counsellors sleeping in the street last night.

- 2 -

8. The position today has not changed materially, as although ration cards have been obtained, the vacant rooms in the various hotels are now occupied by partisans and other respectable persons. The City Command is still adamant that the Counsellors must leave the Hotel forthwith.
9. In all probability, if the lodging question cannot be resolved tomorrow, the Counsellors will have to return to Rome. In this eventuality it will be necessary for the Minister to nominate local Counsellors to the Milan Section.
10. In the meantime, in agreement with the First President the names of two "Sostituti di Cassazione" are forwarded for immediate appointment by the Minister. Should he decline to do so, it is intended to appoint them by AMG order.
11. The three sections of the Court of Assizes are now functioning. In answer to the announcement of the press, over three thousand "denuncie" have been received, hence the necessity to strengthen the "Pubblico Ministero" of the Cassation also.
12. Six cases have been tried so far. Sentences varying from 12 to 30 years pronounced but no death penalty yet. However it is expected that Buffarini who will be tried on Monday will not escape the gallows.
13. In view of the acute lodging situation in Milan it has been suggested to requisition an hotel for the exclusive use of Italian officials who will no doubt be very numerous in the months to come.

APPUNTO

Esaminato il problema di una eventuale riduzione di termini per i procedimenti davanti le Corti straordinarie di assise, si osserva:

che il termine minimo di comparizione, stabilito dall'art. 405 del cod. di proc. pen. in giorni quindici, è stato già ridotto, per effetto dell'art. 13 del D.L.L. 22 aprile 1945 n.142, a giorni otto.

Una ulteriore riduzione non potrebbe essere fatta a meno di cinque giorni, tenuto conto dei termini correlativi stabiliti negli art. 415, 416 ecc. del codice di procedura per indicazione di testimoni da citare, richiamo di documenti, ecc.

In tale stato di cose, può apparire dubbia la convenienza di un apposito provvedimento legislativo al solo scopo di un'abbreviazione di tre giorni del termine, tenuto conto d'altra parte che, quando la Corte di assise straordinaria sarà in piena funzione, il presidente potrà fissare i dibattimenti, senza che fra l'uno e l'altro vi sia interruzione, provvedendo tempestivamente alla citazione degli imputati.

R. CORTE D'APPELLO DI BOLOGNA

Gabinetto del primo presidente

No. 279

OGGETTO : Corte di Cassazione ; Sezione speciale di Milano

Bologna, 18 Maggio 1945

All'Ufficio Regionale Legale del Governo Militare Alleato - Bologna

Nessuno dei magistrati di grado IV di questa Corte d'Appello e', come ora dire', disponibile per la formazione della sezione speciale della Cassazione che avra' sede in Milano.

nei quattro magistrati col detto grado ( presidenti di sezione ), il grand'ufficiale Bianchedi Camillo e' da tempo assente dall'ufficio per malattia; il comm. Vito Sangiorgio, oltre che dalle sue funzioni alla Corte, e' impegnato dalla conferenza di presidenza della commissione di epurazione del personale universitario; il comm. Alessi Adolfo, a prescindere dalla posizione che potrebbe essere conseguente al fatto che la sua promozione e' avvenuta dopo l'8 settembre, non puo' essere distolto dall'ufficio di presidente delle Corti di Assise ordinarie, che continuera' a disimpegnare anche se dovra' riprendere la sua precedente posizione di consigliere d'Appello di questa Corte.

L'unico a cui potrebbe pensarsi e' il dott. Mile Savaglio, attualmente presidente delle IV sezione penale.

Egli fu bensì promosso posteriormente all'8 settembre, ma dopo aver vinto il concorso indetto ed espletato con le vecchie norme, si che la sua promozione non potra' non essere ratificata, onde, anche se la sua promozione dovra' considerarsi caducata in base al decreto leg. luogotenenziale 5 ottobre 1944 n. 249, io credo che il Comandante Alleato potrebbe con tutta tranquillita' emettere un provvedimento per cui il Savaglio fosse mantenuto nella sua posizione attuale di magistrato di grado IV.

Nonche', egli da me ripetutamente interpellato ha insistito a prospettarmi come condizioni di famiglia gli impediscano di accettare un incarico che anche saltuariamente lo ponesse nella necessita' di assentarsi da Bologna, onde non mi resta che limitarmi a riferire questa sua dichiarazione per quel conto che si riterra' di farne.

IL PRIMO PRESIDENTE  
(G. Carboni )  
s/G. Carboni

ROYAL COURT OF APPEAL OF BOLOGNA

SUBJECT : Court of Cassazione ; Special section at Milan.

18 May 1945.

None of the magistrates of the fourth grade at this court of Appeal is available to form the special section of the Cassazione in Milan, as I shall explain.

Of the four magistrates who have attained this grade ( sectional presidents ), Gr. Off. BIANCHEDI Camillo has been ill and absent from the office for a long time; comm. Vito SANGIORCIO, as well as being busy on court work, is fully occupied as president of the Ppuration Commission for screening the University staff; comm. PISSO Adolfo, apart from the fact that he was promoted after 8 September, cannot be removed from his office as president of the ordinary courts of Assize, which he will continue to occupy even if he has to resume his previous position of consigliere d'Appello at this Court.

The only possibility would be dott. Ubaldo SAVAGLIO, who is now the president of the 4th Criminal Section.

It is true that he was promoted after 8 Sept. 43, but the competitive examination he passed was held according to all the old established rules, so the promotion is certain to be ratified.

So I think that, even if his promotion should be considered null and void under Dll. 5 October 1944, No. 249, I think AMG could safely issue an order maintaining Savaglio in his present position as a grade 4 judge.

However, I have often spoken to him about the matter, and he has always insisted on illustrating to me how his family conditions prevent him from accepting a post which might mean his leaving Bologna even from time to time. All I can do, therefore, is advise you of this attitude of his, in order that you may act, you think best.

THE PRIMO PRESIDENTE

( G. CARBONI )

OGGETTO : sezione speciale della Corte di Cassazione.

Signor Colonello WILLIAM LEVIT.  
Capo ufficio legale Regionale  
BOLOGNA - Palazzo d'Accursio

---

LA S.V. conosce già la deficienza di magistrati negli uffici delle procure del Regno comprese nel Distretto di questa Corte di Appello e però si renderà ben conto come non sia possibile prelevarne alcuno per essere assegnato come sostituto procuratore generale presso la Istituzione sezione speciale di Corte di Cassazione in Milano.

Inoltre i sostituti procuratori generali presso la Corte di Cassazione debbono essere di quarto grado, almeno normalmente, di magistrati di quarto grado negli uffici del pubblico ministero del distretto di questa Corte non ve ne è che uno, e cioè il dott. Giuseppe Giorgi, addetto quale avvocato generale a questa procura. È indispensabile vi resti essendo a lui affidati tutti gli affari civili ed amministrativi di competenza di questo ufficio e avendo il dovere di sostituire il Procuratore Generale in ogni evenienza.

## PROCURA GENERALE DEL REGNO - BOLOGNA

16 May 1945

Subject : Special Section of Court of Cassazione

You are well aware of the shortage of magistrates in the procura del regno offices coming under the control of this Court of Appeal and you will therefore realize that it is impossible to remove any to act as Sostituto procuratore generale at the special section of the court of Cassazione now being set up in Milan.

Besides, Sostituti procuratori generali at the Court of Cassazione must normally have attained at least the fourth grade. Now we only have one prosecutor of the fourth grade in this district, Dott. Giuseppe Giorgi, who is the Avvocato generale at my procura. It is indispensable that he stay, as all the civil and administrative work of the office is in his hands, and he has to be on the spot to take the procuratore generale's place in any emergency.

SUBJECT : Corti straordinaria di Assise.  
TO : H.E. The Minister of Pardon and Justice.

1. Confirmed this morning's telephone conversation (Col. THORNTON - Dott. BORGHI) the attention of this Sub-Commission has been urgently drawn to what appears to be a serious lacuna in the provisions for the machinery of prosecution under Art. 10 of P.L. No. 142.
2. In effect although under sub-para 2 the CUM may delegate advocates to act as prosecutors, it appears that the practitioners so selected are reluctant to appear because there is no provision made for the payment of fees.
3. It is obvious that if this difficulty cannot be overcome the working of the Courts may be considerably impaired, and for this reason Your Excellency is asked to give this matter immediate consideration so that prompt action may be taken to overcome the difficulty.

1. I think the moment is opportune to bring to the attention of all P.L.Os, a matter which is causing some degree of concern.
2. According to reports hitherto received, a large number of persons in every province are at present in gaol, where they were placed by the Partisans at the time of the liberation.
3. Many of these will no doubt be brought up for trial in due course before the Extraordinary Courts of Appeal. There must be many, however, who were thrust into gaol in the heat of the moment, and against whom it is unlikely that any charges will ever be proved.
4. It must, I think, be the constant duty of A.M.S. to ensure that in the Occupied Territory prisoners are not kept in gaol without trial for one moment longer than is absolutely necessary. Detention in gaol without trial is the negation of those principles of personal liberty, for which the United Nations have been fighting for so long.
5. P.L.Os should therefore keep constantly in view, and impress upon the judicial officials within their provinces, the vital importance of speedy inquiry into the individual cases of those who are now in gaol. Persons against whom no charges have been or can be laid, or against whom there is no hope of securing a conviction, should be released at the earliest possible opportunity. Local C.S.L.N. should of course be given every opportunity of putting forward charges against those who are in gaol, and any charges so made must be subjected to the fullest investigation. But the vital importance of speed in conducting such investigation cannot be stressed too strongly. Already many persons have been in jail, untried and without charges, for quite a long time. Protection of the innocent is just as important as punishment of the guilty.
6. In connection with the above it is necessary to issue a warning on two subjects. The first is that it is necessary to issue

5. P.L.Os should therefore keep constantly in view, and impress upon the judicial officials within their provinces, the vital importance of speedy inquiry into the individual cases of those who are now in Gaol. Persons against whom no charges have been or can be laid, or against whom there is no hope of securing a conviction, should be released at the earliest possible opportunity. Local C.A.L.O. should of course be given every opportunity of putting forward charges against those who are in Gaol, and any charges so made must be subjected to the fullest investigation. But the vital importance of speed in conducting such persons have been in jail, untried and without charges, for quite a long time. Protection of the innocent is just as important as punishment of the guilty.
6. In connection with the above it is necessary to issue a warning on two subjects. The first is that all proposed releases should be cleared with the appropriate Allied Security Organizations. Those who are required by the Allies for interest on Security grounds will not of course be released, but must be evacuated as promptly as possible through the proper channels. The second point to guard against is the trial

before either Italian or A.M. Courts of any persons entitled to be treated as prisoners of war. Persons who are entitled to be treated as such - i/e. members of organized fighting formations who have surrendered to the Allies - must not be tried, but should be promptly evacuated through P.C. channels. Such persons, if there are any, ought never to have been put in gaol at all.

7. I have suggested to the Procuratore Generale of the Court of Appeal of Venice that he issue a directive, in terms similar to the above, to all judicial personnel under his authority. It is hoped that such a directive, coupled with constant pressure from P.L.O., will ensure that all Italian judicial personnel are kept alive to the responsibilities which lie upon them in connection with this matter.

REF.: LEG/5038

31 May 1945.

SUBJECT : Extraordinary Courts of Assizes and Section of  
Court of Cassation.TO : H.Q. ALLIED COMMISSION.  
(Legal Sub-Commission).

1. More difficulties have developed regarding the interpretation of DLE 142 and the position of the Court of Cassation. These are both technical and practical.
2. The ~~old~~ Counsellors of Cassation, with the exception of President Giuliano ( who is a judge of the highest moral standing and extremely competent) and Consigliere Toesca (who is a piedmontese) complain with some reasons of the following :-
3. They state that they were sent by the Minister to Milan under false pretences. They were requested to remain there a fortnight and provided themselves accordingly. Now it appears that they may have to stop in Milan for months. Two of them were Presidents of Commission of Eputation. They say that they have left their work in obedience and wish to return for a few days to equip themselves and hand over their offices.
4. Materially they live in the most difficult conditions. Third class hotel, no transport, hardly sufficient rations etc. While food in the country is cheap and plentiful, in Milan it is extremely scarce and these old men had no wife or servant to go to the black or white market in order to improve their daily diet. Vassali has been spending the whole morning trying to increase their rations through Sepral.
5. It is much regretted that the first suggestion of P.P. ME Cartesegna to appoint local officials has not been followed. It is anticipated that some of the Counsellors will have to be allowed to return to Rome and the work of the Section

-2-

will thus be seriously affected.

Would you kindly approach the Minister and request that at least three "Presidenti di Sezione" of the Court of Appeal of Milan be appointed to the local Court of Cassation, in addition to Levi and Gray.

6. To date the Section of Cassation has been officially notified of three recourses. No decision has yet been rendered.
7. The other difficulty is technical. Under D.L.L.142 (art.13) all delays for the pretrial investigations are cut by half. Art. 17 deals with the time limits for appeals, depositing the sentence and decision of Cassation.
8. However under Art. 533 of the Code of Penal Procedure it is set out that "The Registrar of the Court of Cassation, upon receipt of the sentences (atti) at the Registry, shall notify Counsel for the defense that upon receipt of such notification, a time limit of fifteen days is allowed to ~~him~~ counsel for the examination at the Registry of all documents and deeds therein deposited, that he may make copies and present new documents."
9. The time limit under this article applies, as you will see, to all appeals made by the "Pubblico Ministero" against a too lenient or irregular sentence. Three of these have already been deposited, as previously stated.
10. Nothing is said in D.L.L.142 of shortening or suppressing the time limits under Art. 533. The President of Cassation is reluctant to make a decision in contraddiction with long established procedure without an interpretation from the Ministry or an addendum to the existing decree.
11. Would you be good enough to request the Minister to take up this point immediately in order to avoid further delays and congestion.

Giusta l'art. 6 del Decreto L. 22/4/945 N° 142, il Presidente delle Corti straordinarie d'Assise deve essere nominato dal Primo Presidente fra i magistrati di grado non inferiore a quello di Consigliere di Corte d'Appello.

Tale esigenza mi ha posto e mi pone in condizioni gravi, di fronte alle esigenze di servizio, data la scarsa disponibilità di magistrati, e data la necessità di destinare alle funzioni Presidente della Corte d'Assise magistrati particolarmente idonei alla bisogna.

Se codesto Comando ritenesse che la lettera della norma potesse essere superata con il rilievo che l'applicazione di un magistrato di grado 6° a funzioni di grado 5° si intendesse legittimare la mia destinazione di detto magistrato anche alla Presidenza della Corte d'Assise, la questione resterebbe risolta. Se invece fosse diverso l'avviso di codesto Comando, mi permetterei prospettare al Comando stesso l'opportunità di un provvedimento di carattere legislativo che mi autorizzasse alla nomina di Presidenti delle Corti d'Assise straordinarie anche fra i magistrati di grado 6°.

1. The President of the Special Section of the Court of Cassation, sitting in Milan, has raised certain doubts as to the respective jurisdictions of the special Courts of Assize and Military Tribunals in cases of acts of collaboration with the enemy members of the army.

2. The problem was therefore discussed by the Minister of Justice, H.E. Boeri representative of the High Commission, H.E. Borgari, Procuratore Generale Militare and Col. Behrens. It was agreed by all parties that the correct solution was that the Special Courts of Assize should have exclusive jurisdiction in all cases of offences within the scope of DLL. N° 142 of 22 April 1945, by whomsoever such offences were committed. The jurisdiction of the Military Courts should extend over personnel properly within the jurisdiction of such courts who are charged with other crimes, whenever committed.

3. The Minister of Justice, H.E. Boeri and H.E. Borgari are proposing to write the necessary letters to confirm this agreement, but will you please notify the parties concerned and ensure that this agreement is carried into effect.

CIVIL AFFAIRS SECTION

7/10/45

/rhp.  
1 June 1945.

SUBJECT : Fascist Republicans - Prisoners of War.  
IN : AFSA, 8-5.

1. The President of the Section of the Court of Cassation in Milan, charged with the determination of appeals from the Special Courts of Justice in North Italy, has requested that a ruling be given on the jurisdiction of the Italian Courts in relation to a number of persons now in prison in Milan who claim to be treated as prisoners of war.
2. The claim is based upon the contention that the persons concerned were members of the Black Brigades and similar organizations and that they were captured by the partisans and are therefore entitled to be treated as prisoners of war and not be made subject to the Special Courts of Justice.
3. It will be observed that, if this claim is upheld and the jurisdiction of the Courts of Justice excluded, it will be extremely simple for any person accused to avoid trial. This will undoubtedly have serious repercussions.
4. In any event it appears to this Commission that there is no substance in the claim that the jurisdiction of the Italian Courts is excluded. It may be true that if the accused had been captured by the Allies they would have been entitled to treatment as prisoners of war. It may even be true, although it is not the view of this Commission, that under the terms of 383.5/11/1 of 6 March 1945 they should now be taken into custody as Allied prisoners of war. In either case they would only be entitled to the protection of the Geneva Convention against the detaining power, in this case the Allies. The Geneva Convention does not apply to protect a subject from his own sovereign government. Moreover, there is nothing in the Geneva Convention to prevent the release and repatriation of a prisoner of war, in which case he loses the protection of the Convention.
5. It is therefore the opinion of this Commission that as the men who now in fact been taken into custody by the Italians and been brought before the Italian Courts in subject to the jurisdiction of those courts and cannot claim to exert that jurisdiction by virtue of a prisoner of war status.
6. It appears, however, that the First President has been informed that the question is to be determined by the Allied authorities and that, in the

56

meanwhile, when this objection is taken, the sentences of the court cannot be put into operation.

7. It is therefore requested that a ruling be given which can be notified to the President. You will appreciate the extreme urgency of the question, and the difficulties which will result from any delay in the decision and still more from any decision which prevents the Italian Courts from trying these cases.

APUNTO PER S.E. IL MINISTRO

La proposta del dott. CARTASTAGNA, nella qualità di primo presidente della Corte di Appello di Milano, (qualità che si ignora a quale titolo egli rivesta, dato che è andato a riposo a decorrere dal 1° settembre 1944) relativa alla istituzione di una sezione della Corte di Cassazione in Milano, non sembra possa trovare accoglimento.

Amzi tutto il decreto legislativo 22-4-1945, n. 143, nell'art. 16, prevede l'istituzione di una sezione speciale provvisoria della Corte di Cassazione, la quale può funzionare temporaneamente fuori della sede ordinaria. La formulazione della disposizione fa intendere, con sufficiente chiarezza, che la sezione provvisoria anzidetta debba avere, come sede normale, quella della Corte Suprema di Cassazione, e cioè: Roma. Ond'è che istituire una sede permanentemente a Milano sarebbe in contrasto con la citata norma, anche sotto il riflesso che, una volta istituita a Milano, non vi sarebbe ragione di non istituirla a Torino, a Genova, a Bologna, a Firenze e via dicendo.

D'altra parte la proposta, di cui è cenno, non sembra accoglibile neanche sotto l'aspetto di designare, fin da ora, magistrati della Corte di Appello di Milano, destinandoli a far parte della sezione della Corte di Cassazione. E ciò per due fondamentali ragioni:

La proposta del dott. CARTASEGNA, nella qualità di primo presidente della Corte di Appello di Milano, (qualità che si ignora a quale titolo egli riveste, dato che è andato a riposo a decorrere dal 1° settembre 1944) relativa alla istituzione di una sezione della Corte di Cassazione in Milano, non sembra possa trovare accoglimento.

Anzitutto il decreto legislativo 22-4-1945, n. 142, nell'art. 16, prevede l'istituzione di una sezione speciale provvisoria della Corte di Cassazione, la quale può funzionare temporaneamente fuori della sede ordinaria. La formulazione della disposizione fa intendere, con sufficiente chiarezza, che la sezione provvisoria anzidetta debba avere, come sede normale, quella della Corte Suprema di Cassazione, e cioè: Roma. D'altra parte la proposta, di cui è cenno, non sembra accoglibile neanche sotto l'aspetto di designare, fin da ora, magistrati della Corte di Appello di Milano, destinandoli a far parte della sezione della Corte di Cassazione. E ciò per due fondamentali ragioni:

1°) Se si destinassero alla sezione della Corte di Cassazione i magistrati di quarto grado della Corte di Appello di Milano, essi non potrebbero più esercitare le funzioni di presidente di sezione, poichè non è consentito

-2-

dal nostro ordinamento fare parte contemporaneamente di due collegi giudiziari: e, per di più, di due collegi diversi per grado e per funzione.

20) Non sarebbe possibile, d'altronde, destinare, mano mano che si rendesse necessario, alcuni dei detti magistrati per comporre la sezione speciale del supremo Collegio, perchè si urterebbe contro il principio istituzionale che il giudice deve essere preconstituito e permanente, e non nominato di volta in volta.

Non è inutile infine osservare, che, dei magistrati elencati nella proposta Cartaseana, solo il dott. GIOVANNI BRICCHETTI potrebbe legittimamente far parte della sezione speciale, essendo egli stato promosso dal legittimo governo italiano: mentre per gli altri, e cioè: i dottori GUIDI, PRIMICERI, SCHIRALLI, PETRONE e CENCIARINI, la promozione al IV grado, non è da ritenersi valida per se stessa, essendo stata conferita dal governo illegittimo.

Per quanto riguarda infine il dott. UGO DAVIDI, egli anzitutto non ha il grado IV e, d'altra parte, occorre nei suoi riguardi emanare il decreto per il richiamo in servizio, previa deliberazione del Consiglio dei Ministri.

In conclusione, quindi, si propone che resti fermo il provvedimento ministeriale già adottato, salvo lo spostamento della sezione della Corte quando ciò si rendesse necessario. E ciò anche per l'opportunità di non scindere, soprattutto per giudizi così delicati, l'unità della Corte di Cassazione; anche dal punto di vista della uniformità della giurisprudenza in quelle affermazioni di principio, che potranno essere eventualmente adottate, come criteri

per grado e per funzione.

2°) Non sarebbe possibile, d'altronde, destinare, mano mano che si rendesse necessario, alcuni dei detti magistrati per comporre la sezione speciale del supremo Collegio, perchè si urterebbe contro il principio istituzionale che il giudice deve essere precostituito e permanente, e non nominato di volta in volta.

Non è inutile infine osservare, che, dei magistrati elencati nella proposta Cartasena, solo il dott. GIOVANNI BRICCHETTI potrebbe legittimamente far parte della sezione speciale, essendo egli stato promosso dal legittimo governo italiano; mentre per gli altri, e cioè: i dottori GUIDI, FRIMICCHI, SCHIRALLI, PETRONE e CENCIARINI, la promozione al IV grado, non è da ritenersi valida per sé stessa, essendo stata conferita dal governo illegittimo.

Per quanto riguarda infine il dott. UGO DAVITTI, egli anzitutto non ha il grado IV e, d'altra parte, occorre nei suoi riguardi emanare il decreto per il richiamo in servizio, previa deliberazione del Consiglio dei Ministri.

In conclusione, quindi, si propone che resti fermo il provvedimento ministeriale già adottato, salvo lo spostamento della sezione della Corte quando ciò si rendesse necessario. E ciò anche per l'opportunità di non scindere, soprattutto per giudizi così delicati, l'unità della Corte di Cassazione; anche dal punto di vista della uniformità della giurisprudenza in quelle affermazioni di principio, che potranno essere eventualmente adottate, come criteri di massima, tanto più importanti quanto più è grave la materia da decidere.

SUBJECT : Special Courts of Assize.

TO : Regional Commissioner (Attn: Regional Legal Officer),  
 LOMBARDIA Region.

1. Your DL/5020 of 12 May 1945 is acknowledged.

2. Every effort will be made to procure additional Grade V personnel to form separate sections for the Special Courts. It is assumed that personnel sent from the south will be acceptable in view of the prevailing shortage in the north. A conference has been arranged with the Minister of Justice tomorrow morning when the whole subject will be discussed, and he will be asked to remove suitable personnel from the south and to appoint them on a temporary basis to the north. I have very little doubt that he will disapprove, as frankly I do myself. ~~The~~ appointment of vice presidents of Grade VI. Such an appointment is not authorized by the decree and I feel that an official of Grade VI would not be sufficiently experienced for this work. I intend to press for at least six Grade V officials.

3. I have already written a reply on the special section of the Court of Cassation. I of course appreciate your problems but I do not approve Lt. Col. Hannaford's suggestion for the following reasons:

a. Of the personnel proposed for the court, only one is the required grade. While it would be possible to regularize the practices made by the Prussia Government, the Minister of Justice states that he does not feel justified in doing so in the case of the particular officials mentioned in the letter. I sympathize with his point of view and so long as he is ~~acting~~ bona fide I do not see that I can compel him to change his attitude. *acting*

b. All personnel named are from the Milan area. I know that the court will sit in Milan and that if it is not permanently engaged in hearing appeals the judges appointed to it can be occupied in other work at other times. On the other hand, it is essential that the court should at least have the appearance of being a section of the Court of Cassation at Rome and not a section of the Court of Appeal at Milan. I have requested names of possible nominees from Venice, Turin, Genoa and Bologna. So far

X The Minister first said this  
 but later doubted it.

I have had no reply from Venice giving me one nominee who has been promoted to the required grade by the Brescia Government. I have had no replies from any of the other regions. I appear to be out of touch with these regions so that if you can communicate with them and press them to submit nominees, it will be to advantage. In any event I propose to visit Turin, Genoa and Milan at the end of the week when I may be able to achieve something.

4. A request has been made to the Procuratore Generale Militare to furnish forthwith personnel for military courts in your area and I hope that they will come as soon as possible.

5. HQ can in no circumstances countenance any departure from the formula contained in D.L. 164 of 1944 unless and until such departure is agreed by the Italian Government.

6. Economic Section state that it is the intention that General Order No. 41 should be posted forthwith. Please therefore take immediate steps to post it.

7. Five extra sets of the Gazzetta have already been sent to your Hq in reply to your previous request for a few copies; the extra 15 are being prepared and will be forwarded.

8. The supplement to GU No. 51 is not attached to the copies of that Gazette. It is handled separately and the full number of copies have already been delivered to your Hq as part of the supply which you have already received.

 12 May 1945.

TO : Chief Legal Adviser, Legal Sub-Commission, HQ, AC.  
 SUBJECT: Special Section of the Court of Cassation.  
 FILE No: RXII/LE/Reg/C/03.1.

1. Reference your AC/4092/L of 5 May 1945.
2. There are no judicial officials in this Region of the required <sup>grade</sup> ~~grade~~ for President of a Court of Cassation or for Sostituto Procuratore Generale.
3. For consigliere there is available TISSI GUIDO, President of Section of the Court of Appeal of Venice. This gentleman, however, is 63 years of age, and for some months has been absent from work through sickness. I cannot guarantee, therefore, that if appointed he will be able to function on the Special Court of Cassation at Milan.
4. There are two other officials whom I should mention, namely DE CARLI GIULIO and CARLINI OVIDIO. These two gentlemen were promoted during the Fascist - Republican regime to be Presidents of Sections of the Court of Appeal and are now acting as such. Having regard to D.L.L. 249 of 1944, it appears doubtful whether these promotions are valid in the eyes of the legitimate Italian Government. In order to enable them to continue functioning as Presidents of Sections, and in view of the doubt, I am having an order published by the Regional Commissioner provisionally confirming them in their present appointments. If these appointments can be recognised by the Italian Government in Rome, these two officials are also available as Consiglieri of the Special Section of the Court of Cassation.
5. It is possible that there may be available some official of the required <sup>grade</sup> ~~grade~~ in the Detached Section of the Court of Appeal at Trento. So far, however, I have had no opportunity of visiting Trento, which is of course still

within 5th Army Area and has only recently been taken over by the AMG team. It is therefore too early to say whether any further suitable candidates will be available from this source.

6. It is not thought that the new Primo Presidente of the Court of Appeal at Venice would be a suitable candidate for the Special Section of the Court of Cassation. I have discussed the matter with him, but he feels that his duties in Venice preclude the possibility of his being available to sit on the Court at Milan.

7. I myself feel that it would be most desirable that this Region should be represented by at least one member on the Special Section of the Court of Cassation. I hope, therefore, that it will be possible to have one of the officials mentioned above appointed.

8. In conclusion, I should like to add that in Venice at any rate the prospect of the Special Section of the Court of Cassation not being ready to sit for another 6 weeks is viewed with something like dismay. Public opinion in this part of the world is insistent that Fascist criminals shall be brought to justice forthwith. If execution of sentences is to be delayed for a matter of six weeks by the formalities of Appeal, I fear that public opinion will revolt, and there is more than a possibility that disorders will result. I, therefore, urge most strongly that the Special Section of the Court of Cassation be constituted and established ready to function without any delay whatsoever. Feeling in Venice, where hitherto there have been no disorders, is running very high indeed.

REF: LEG/5020

12 May 1945

SUBJECT: Extraordinary Courts of Assize

TO: H.Q. Allied Commission - Legal Sub-Commission.

1. All Provincial capitals within this Region have now been visited and the provisions of DIL 142 explained to the magistrates and other parties concerned.

2. Orders have been signed by the Primo Presidente and the Procuratore Generale of the Milan Court of Appeal appointing the Presidents and Public Prosecutors for one Court in each Province in the District and three for Milan itself (copies attached). Similar orders have been signed for the Brescia Circuit.

3. The number of cases awaiting trial is estimated to exceed 20,000. It is obvious therefore that one Court per Province will be unable to cope with the work involved and it is urged that separate Sections be established where required e.g. Vigevano, Busto Arsizio, Lecco, Voghera.

4. The difficulty to be faced is the lack of sufficient personnel of Grade V in this Area. It is therefore requested that either the First President be authorised to nominate an official of Grade VI to act as Vice President and sit as head of a Section or that additional personnel of Grade V be sent North at once.

5. A reply to Lt. Col. Hannaford's letter on the setting up of a special section of the Court of Cassation is urgently required.

6. In certain districts e.g. Como and Pavia, the local authorities are of opinion that the procedure of the Special Courts will involve too long a delay before results appear, especially in the cases of well known Fascists charged with

tortures and brutalities. Arrangements are therefore being made for Military Courts to be started in this Area forthwith under DLL 65 for which purpose personnel from Rome are urgently required. General Cadonna is also being approached on this question.

7. A delegation from the CLNAI representing each of the constituent parties yesterday stated that all the parties were agreed that the formula contained in DLL 164 ("Umberto di Savoia" etc.) was not acceptable in Northern Italy and that the use of this formula by the President of a Special Court of Assize would meet with public disapproval and might even lead to disorder. The delegates suggested that the formula "In the name of the Law" be used instead.

8. It was pointed out to the delegation that this was a question of Italian law and that A.M.G. was not in a position to alter legislation which had been accepted by the heads of all the parties in Rome. The delegates were directed to put forward their recommendations on this subject to the Italian Government, if they so desired.

9. G.O. No.41 arrived at this H.Q. yesterday. Authority to post it is still awaited.

10. Certain Provincial Legal Officers are without supplies of the Official Gazettes, since these have apparently been lost or mislaid between Rome, Chianciano, Rome, Seina and the various Provincial Capitals. Can 20 extra sets of the Raccolta and subsequent issues be forwarded to make up these deficiencies and to provide additional copies for certain of the magistrates?

11. Supplies of the Gazzetta Ufficiale for delivery to the Prefects have been received, and the Supplement to G.U. 51 came to hand yesterday. As soon as the situation regarding the appointment of Prefects is clarified, the legislation will be implemented in the normal way.

SUBJECT : Implementation of Italian Decrees.

TO : Regional Commissioner, Venetia Region.  
(Attn. Regional Legal Officer)

1. Your monthly report of 3 May 1945 was no doubt written before you received the directive on economic decrees of 1 May 1945. In case this should not have arrived a copy is attached.

2. You will see that special supplement to Gazzetta Ufficiale 51 excludes (temporarily) all the "undesirable" economic decrees. There is therefore no objection to the immediate application of the implementation procedure, and indeed I hope that this has already occurred.

3. You will also see that Order No. 2 in that supplement tabulates in a convenient form all excluded decrees within the limits mentioned in the order.

4. On the subject of the implementation of D.L. 159/44 in relation to RLL 112/45 discussed in your earlier letter I have discovered that D.L. 159 has been implemented in VERONA, VICENZA, LEGNANO and almost certainly in PAVIA. Any how it will be implemented in PAVIA very soon. I gather that it will be implemented in most of your Region also.

5. I do not therefore intend to issue a further implementation order which would probably only confuse other Legal Officers who had not seen the point. I have discussed the question with Brig. Uppin and made the following recommendation. If there is any province in VERONA in which the Special Court of Justice will be ready to proceed to trial before the General Statute Decrees are implemented will you please issue for that province a Regional Order substantially as follows: -

I hereby order that for the sole purpose of RLL No. 112 of 22 April 1945 and without prejudice to further implementation of RLL No. 159 of 27 July 1944 and eventual modifications thereof by virtue of another order of the Allied Military Government, the provisions of Arts. 3, 5, 6, 7, 9 and 10 of RLL No. 159 of 27 July 1944, published in G. U. No. 41 of 29 July 1944, shall become operative and shall have full force and effect of law in the Province of \_\_\_\_\_ on the day of \_\_\_\_\_ 1945.

SUBJECT : Special Section of the Court of Cassation.

TO : Regional Commissioner (with Regional Legal Officer),  
Amiens, Arras, Antwerp, Rotterdam and Valenciennes Regions.

1. All No. 124 of 22 April 1945, instituting special Courts of Cassation for German collaboration, provided in art. 16 for appeal to a special section of the Court of Cassation which is to consist of 5 members and may sit outside France.

2. It is the intention that this special section should sit in Amiens.

3. It is considered improbable that there will be a sufficient number of appeals to this court to justify the formation of a permanent court and it is believed that if the members were readily available they could perform other judicial functions when not sitting on this court.

4. It is also considered that all personnel should be found from judges now in the north.

5. The court may require to commence sitting in about 6 weeks time, and it is necessary for the appropriate Ministerial Decree for the constitution of the court to be issued and implemented before that date. Please therefore forward to this sub-commission as soon as possible a list of available nominees recommended for appointment to the section as president, coadjutors and substitute procurators generale.

SUBJECT : Special Courts of Assize.  
TO : Regional Commissioner (Attn: Regional Legal Officer),  
VIENNA Region.

1. Your RXII/LL/Reg/C/04.1 of 30 April 1945 is acknowledged.
2. Copies of the supplement to Gazzetta Ufficiale No. 49 were despatched to your Region Hq last week on a sufficient scale to make an effective implementation in all provinces, but not of course on the usual distribution scale. It is hoped that they have now arrived.
3. The normal G. U. for implementation in the provinces you mention are being forwarded as early as possible and should arrive about 9 May. For the remainder of the region they can be left at Region Hq or Padova for future distribution.
4. Para. 6 of your letter has led to a heated argument among legal opinion in Rome, in which I am glad to say that my own view was confirmed by H.E. Casati, First President of the Court of Cassation. He says that the jurisdiction conferred by Art. 1 and Art. 2 of D.L. No. 142 is purely legislation by reference to a particular document and that it is immaterial whether D.L. No. 159 is effective law or not since, according to accepted Italian drafting (e.g., by the incorporation into municipal law of foreign law), Arts. 1 and 2 of D.L. No. 142 must be read as if they contained in themselves the relevant portions of Arts. 3 and 5 of D.L. No. 159, which are thereby implemented ad hoc by the implementation order. H.E. Casati has therefore no doubt that the Courts have jurisdiction to operate.
5. There is, however, a further point. Arts. 3 and 5 of D.L. No. 159 may be regarded as creating either new crimes or new punishments for <sup>240</sup> crimes. In so far as they create new crimes, the conferment of jurisdiction upon the special courts of assize to try such crimes, obviously confers the right to apply the specified punishment, since no other punishment is elsewhere specified. In so far as they create new punishments for old crimes, H.E. Casati feels that the point is open to an element of doubt, for the removal of which it would be desirable to implement Arts. 3 and 5 of D.L. No. 159 before an actual sentence is passed by a court.
6. In practice this implementation will, as you say, almost always have occurred automatically. In order to avoid any possibility of doubt,

however, a further special implementation order is appearing in the G. U. in the near future which can be implemented by itself and will clarify the position. If in any province the Special Courts are ready to deliver a sentence in any case before the general implementation procedure is introduced, this special supplement will have to be specifically rendered operative.

SUBJECT : Security Internment Procedures in relation to Italian Special Courts of Assize.

TO : See Distribution.

1. The Italian Government has passed a decree (D.L. No. 249) establishing Special Courts of Assize for newly liberated territory. The decree has been approved by the Allied Commission (whose letter, CE/5.16/CA dated 25 April 1945) refers.

2. Such Courts, which are to be composed entirely of Italians, are to be set up in each province of N. Italy as soon as possible after its liberation. They are to have jurisdiction to try Fascist criminals and German collaborators (post Italian armistice), and their purpose is to enable the Italian people themselves to administer quick justice in respect of such persons.

3. It is believed that these "people's Courts" will go far towards eliminating the criticism and dissatisfaction hitherto expressed by the Italians against the Allied authorities concerning the latter's alleged weakness in dealing with Fascists and collaborators, and that they will therefore make a considerable contribution to public order and Allied security in the North.

4. The establishment of such Courts calls for some revision of the Allied Internment Procedure which has hitherto been followed, since it is important that Allied security/CI agencies should not be put to an inordinate test. Those persons whom the Italian authorities wish to bring to early trial before a Special Court of Assize. Not only would it involve a waste of time and effort to arrange for their return from Italy for their trial, but their removal to Italy might be misinterpreted by the Partisans as a form of "protection."

5. In future, therefore, the following procedure will be adopted by CIO/ISS with regard to leading Fascists and German collaborators, etc., whom it is considered necessary to intern on security grounds.

a. Before placing such persons in the nearest PW cage for evacuation to Italy, the CIO/ISS officer concerned will ask either the local President of the Tribunal, or the local Procuratore del Regno, or the President of the Provincial CLM, or their representative, whether or not they wish to try in the near future the person concerned.

b. If the answer is negative, the individual concerned will be interned in the normal way, i.e., dispatched to Italy through PW channels.

c. If the answer is affirmative, he will be handed over to the Italian authorities, who will thereafter be responsible for his custody and confinement. At the same time, they will be informed that he must NOT be released without reference to the nearest Allied Security/CI authority.

d. The consultation with the appropriate Italian authority, as described in a. above, can take place either before or after the actual arrest of the individual.

9c

1. The Italian Government has passed a decree (G.L. No. 249) establishing Special Courts of Assize for newly liberated territory. The decree has been approved by the Allied Commission (whose letter, DF/5,16/2A dated 25 April 1945 referred to).
2. Such courts, which are to be composed entirely of Italians, are to be set up in each province of N. Italy as soon as possible after its liberation. They are to have jurisdiction to try fascist criminals and German collaborators (past Italian activists), and their purpose is to enable the Italian people themselves to administer quick justice in respect of such persons.
3. It is believed that these "people's courts" will go far towards eliminating the criticism and dissatisfaction hitherto expressed by the Italians against the Allied authorities concerning the letters allowed to pass in dealing with fascists and collaborators, and that they will therefore make a considerable contribution to public order and Allied security in the North.
4. The establishment of such courts calls for some revision of the Allied internment procedures which are hitherto being followed, since it is important that Allied security/CI agencies should not dispatch as internees to TERNI those persons whom the Italian authorities wish to bring to early trial before a Special Court of Assize. Not only would it involve a waste of time and effort to arrange for their return from TERNI for their trial, but their removal to TERNI might be misinterpreted by the Germans as a form of "protection."
5. In future, therefore, the following procedure will be adopted by CIC/ISS with regard to landing fascists and German collaborators, etc., whom it is considered necessary to intern on security grounds.
  - a. Before placing such persons in the nearest PW cage for evacuation to TERNI, the CIC/ISS officer concerned will ask either the local President of the Tribunals, or the local Procuratore del Reame, or the President of the Provincial CLN, or their representative, whether or not they wish to try in the near future the person concerned.
  - b. If the answer is negative, the individual concerned will be interned in the normal way, i.e., dispatched to TERNI through PW channels.
  - c. If the answer is affirmative, he will be handed over to the Italian authorities, who will then forward be responsible for his custody and confinement. At the same time, they will be informed that he must NOT be released without reference to the nearest Allied Security/CI authority.
  - d. The consultation with the appropriate Italian authority, as described in c. above, can take place either before or after the actual arrest of the individual concerned by CIC/ISS, whichever course appears the more suitable.
  - e. "Arrest Reports" will be made out in respect of those persons arrested by CIC/ISS and handed over to the Italian authorities in accordance with c. above, in the same way as such "Arrest Reports" are made out in respect of normal internment cases, and their distribution will be the same as hitherto. They will, however, indicate whether the individual concerned has been handed over to the Italians or whether he has been evacuated to TERNI.
  - f. The particulars of persons arrested and handed over to the Italians in the manner described above will be included in the fortnightly lists of intern-

ments submitted to this HQ by armies; such lists will show whether the persons concerned were dispatched to IAPMI or handed over to the Italians.

6. Cases are likely to arise in which the appropriate Italian authority, when consulted as to their intention to try certain individuals, will state vaguely that they may wish to do so at a later date and will be uncertain as to whether or not they wish to assume responsibility for the custody of persons concerned. In such cases it should be pointed out to them that, by agreement between them and the Italian Government, persons informed by the Allies of IAPMI can later be released to the Italian authorities, if required for trial on espionage charges. In general, it is better that they, when the Italians feel that they may wish to try in the distant future should be dispatched to IAPMI rather than held locally in Italian custody, in order not to overcrowd the limited prison accommodation.

7. The procedure described above will not normally be adopted in the case of enemy agents who are arrested by GIP/ISS and whom it is desired to intern, nor need it apply to Fascists etc., of little popular interest who are encountered in provinces other than that of their normal place of residence or work.

8. Finally, in connection with this same subject, attention is drawn to para. 3 of Appendix 1 to this HQ Operations Instruction No. 5, dated 12 April 1945, which lays down that persons who have been implicated as Axis collaborators by the Partisans or GIP prior to the Allied arrival will not, save in exceptional circumstances, be released or removed by the Allied authorities, but will remain at the disposal of the Italian authorities for such action as they may desire to take in pursuance of their operations programme. If there is undue delay on the part of the Italian authorities in dealing with such cases, these are to be removed and the prisoners disposed of by IAP in consultation with GIP and the Allied Security authorities. An example of the "exceptional circumstances" referred to above would be the case of persons required for interrogation, e.g., enemy agents, who may be removed by Security/CI agencies, either temporarily or permanently, by arrangement with the Partisans and on to the arrest.

SUBJECT : Special Courts of Assize (Peoples' Courts).

TO : Allied Commission, Headquarters, APO 394 (for Deputy Chief Legal Advisor).

1. Art. 1 of DIL 142, 22 April 1945, provides for the constitution of the above in those parts of Italy "now in enemy occupation", and in such other areas as may be specified by further decree. The decree is dated 22 April 1945.
2. Attention is called to the fact that Bologna was liberated on 21 April 1945. As I construe the decree it would not appear to be applicable to Bologna without a further decree of the Lieutenant General of the Realm.
3. Nevertheless, we have gone ahead with the implementation of the decree in Bologna and expect to have the court functioning shortly. I believe it would be advisable, however, to request the Italian Government to issue a further decree extending the court to Bologna Province.
4. At the same time, I believe it would be advisable to provide for the constitution of the court in Forli and Ravenna Provinces. While the provincial capitals of these two provinces were liberated some months ago, they have only just been permitted to commence epuration proceedings under Decree No. 159. General Order No. 35 has never been authorized for posting in either province. I therefore feel that it will be very helpful to have the Peoples' Courts authorized for these two Provinces.

Riguardo all'osservanza dei termini stabiliti per il giudizio sul ricorso in Cassazione, preveduto nel decreto legislativo Lucgetenansiale 22 aprile 1945, n.142, si può osservare:

1) se il ricorso riflette una sentenza di condanna alla pena di morte, il giudizio è necessariamente svincolato dai termini ordinari fissati nel codice di procedura penale, dato che il giudizio stesso deve essere pronunciato dalla Corte nei dieci giorni del ricevimento degli atti. Rientra però nei poteri del Presidente della Corte di stabilire, con disposizione retro nei poteri del Presidente per dare al pubblico ministero ed ai difensori la possibilità di esercitare, prima della udienza, le facoltà loro ricordate dalla legge (art. 553 e 554 cod. proc. pen.), rispettato in ogni caso il termine massimo degli accennati dieci giorni;

2) se il ricorso non riflette una sentenza di condanna alla pena di morte, potrebbe apparire che, in mancanza di speciale disposizione, si debba osservare i termini ordinari stabiliti dal codice di procedura penale. Ma si può considerare che l'art. 13 del predetto decreto legislativo 22 aprile 1945, n.142, stabilisce la riunione del termini alla metà, 3' verso che questo articolo, perché collocato subito dopo le norme sul giudizio della Corte straordinaria di Assise, parrebbe che dovesse riflettere soltanto tale giudizio; ma, attesa la sua formulazione di carattere generale, sembra possibile una più larga interpretazione, considerando la riunione dei termini stabilita generalmente per tutti i giudizi a cui si riferisce il decreto, compreso quindi quello di cassazione.

Addi 2 giugno 1945.

Quando i fatti commessi integrino altre figure di reato, sono salve le pene relative, a termini del Codice penale militare di guerra.

**Art. 2.**

Le Corti straordinarie di Assise sono competenti a giudicare anche reati contemplati dall'art. 3 del decreto legislativo Luogotenenziale 27 luglio 1944, n. 159, commessi da chi sia imputato di reati previsti nell'articolo precedente.

**Art. 3.**
