1. The number of suspended sentences awarded by Allied Military Courts gives rise to serious disquiet. In many cases a suspended sentence amounts to no punishment at all.
2. The judge of each Summary Military Court will, not later than Monday in each week, report in writing to the Provincial Legal Officer of the province in which he sits, the name of each accused tried during the previous week, in respect of whom the whole or any part of a sentence has been suspended, stating the reason for such suspension.
3. The attention of all officers who sit as members of any Allied Military Court is drawn to Article 26 of the Consolidated Instructions for Allied Military Courts, and particularly to paragraph 3 of that Article.

N. 15949-3-9

SUBJECT: Assistance to Children of Prostitutes in VD Hospitals.

Alli Prefetti of Liberated Prov.
The High Commissioner, Sicily.
The High Commissioner, Sardinia.
The Prefetti of Naples, Benevento,
Avellino, Foggia and Campobasso.

This Ministry has been notified that frequently prostitutes cared for in VD Wards are obliged to keep their children with them during their stay, for lack of anyone to care for the children.

Such conditions in addition to being a disturbance to the normal course of hospital activity, are harmful to the children themselves because of the serious moral effect which they may have on the minds of children often in an impressionable stage of development, who are in contact with such an environment.

Your Excellencies are authorized, therefore, in the above mentioned cases to arrange for the care of the children in question in the most suitable institutions for the period of the mother's stay, assuming there are no relations with whom they may be placed.

It remains understood, however, that the children must be returned to the mothers as soon as the latter are released from hospital.

The expenses of the stay are the responsibility of this Ministry. Your Excellencies will take care to notify the Ministry of the children so placed and afterwards submit the relevant account.

Salerno 17.6.1944

No. 15949-3-9

Div. 1

OBJETTO: Assistenza ai bambini figli
di prostitute ricoverate nelle

ALLE LL.EE. I PREFETTI DELLE PROVINCE
LIBERATE.

A S.E. L'ALTO COMMISSARIO CIVILE PER LA
SICILIA.

A S.E. L'ALTO COMMISSARIO CIVILE PER LA
SARDEGNA.

ALLE LL.EE. I PREFETTI DI NAPOLI
BENEVENTO, AVELLINO, FOGGIA, CAMPOBASSO.

E' stato segnalato a questo Ministero che spesso le prostitute ricoverate presso le sale celtiche sono costrette a tenere presso di se' durante la degenza i propri figli, non avendo a chi affidarli.

Detta circostanza, oltre a generare intralcio per il normale svolgimento dell'attività ospedaliera, e' deleteria per gli stessi bambini a causa delle gravi ripercussioni morali che si verificano sul loro animo quando, spesso in condizioni di sviluppo, vengono a trovarsi a contatto di un tale ambiente.

Si autorizzano, pertanto, LL.EE., nei casi suddetti, a disporre il ricovero dei bambini di che trattasi negli Istituti ritenuti piu' idonei, per il periodo di degenza delle madri, e sempre che manchino parenti cui possono essere affidati. Resta intesa, pero', che i bambini stessi devono essere riconsegnati alle madri non appena queste saranno dimesse dall'ospedale.

Le spese di degenza saranno a carico di questo Ministero, al quale le LL.EE. avranno cura di segnalare, volta per volta, i ricoveri disposti e di far pervenire poi le relative contabilita'.

NUMBER: 41

6 June 1944

1. This instruction amends No. 40 dated 26 April 1944, in enclosure of Administrative Instructions Issued in strict conformity with the previous instructions.

2. It is anticipated that numerous applications will be made by civilians for permission to enter the City of Rome and Fifth Army areas.

3. No granting of such permission shall depend upon the military operations in progress and upon the expediency of silencing additional civilians into Rome which is already seriously overpopulated.

4. Such permission will be given subject only to the following conditions which must be strictly observed:

5. For this purpose the control of movement will operate in three phases:

Phase I, in which all movement into the City of Rome as well as into the Fifth Army and Corps Areas will be prohibited without the prior approval of C.G.S., R.C. & M.G. This phase is likely in operation and applies equally to Allied personnel as well as to civilians. Special instructions as to members of A.C.U. R. contained in 750/2/CA of 5 June 1944.

Phase II, in which for purposes which are essential and which will assist the prosecution of the war, and for those only, permission may be given by A.M.G.R. or R.C. for entry into the City of Rome or into those Provinces which are still parts of Fifth Army or Corps areas, where members of the Italian Government or civilian officials are concerned, or in other exceptional circumstances application may also be made to this Headquarters. In case of Italian Government officials applications will be made to the Secretary General's Office. In accordance with the existing practices, the Secretary General will issue those applications to R.C. & M.G. Section. All other such applications for general which satisfy the A.M.G.R. Officer to whom they are presented, must be referred to Security Branch of the R.C. & M.G. Section where the latter will either be dealt with or referred to the A.M.G. of destination.

The date on which Phase II will operate will be notified as soon as possible.

Phase III, in which application to the less authorised during Phase II, civilians will be permitted to travel for urgent business or domestic reasons. Such permission will be granted if the entry into the Army Control Line and will be dealt with in the same way as travel into A.M.G. Provinces is controlled at the moment. The date of Phase III will also be notified and will commence

Phase I, in which all movements into the City of Rome as well as into the Fifth Army and Corps areas will be prohibited without the prior approval of C.G.S., HQ, Army. This will be largely in operation and applies equally to Allied personnel as well as to civilians. Special instructions as to members of A.C.G. are contained in 750/2/Ch of 5 June 1944.

Phase II, in which for purposes which are essential and which will assist the reconstruction of the war, and for those only, permission may be given by A.M.G.R. to Civilian Control Units in the City of Rome or into those Provinces which are still parts of Fifth Army or Corps areas. There members of the Italian Government or Security Services, civilian officials are concerned, or in other circumstances if application may also be made to this Headquarters. In cases of liaison, permanent Office, its applications will be made to the Secretary General's Office in accordance with the existing practices. The Secretary General will issue clear instructions to R.G. & M.G. Section. All other such applications for control which betrayer the M.I./SEC Officer to whom they are addressed, must be forwarded to Security Branch of the R.G. & M.G. Section where they will either be dealt with or referred to the AMG of destination.

The date at which Phase II will operate will be notified as soon as possible.

Phase III is which will be used to carry out authorised during Phase II, civilised will be permitted to travel for urgent business or domestic reasons. 1. The Prefect of Naples Province having issued his decrees declaring as offences violations of curfew orders and violations of traffic orders and regulations, thus permitting such offences to be tried by Italian Courts, all officers of Allied Military Courts within Naples Province are directed to remand such offences for trial by Italian Courts from and after 28 May, 1944, unless in any case there are exceptional circumstances which would make advisable trial by an A.M.C. court.

2. Provincial Legal Officers in the Provinces of Avellino and Benevento are directed to take the necessary action to have the Prefects of their respective Provinces issue similar decrees as to curfew and traffic violations. Upon the issuance of such decrees the provisions of this Administrative Instruction are extended to the Provinces of Avellino and Benevento.

3. In as much as solicitation and pimping are violations of existing Italian law, officers of Allied Military Courts are direct to remand all such cases for trial by Italian courts.

4. The decrease in legal personnel in this Region requires that all cases, other than those in which exceptional circumstances exist, involving offences which Italian courts are authorized to try, be remanded to such courts for trial.

ESTABLISHMENT OF BLACK MARKET CONTROL SECTION

1. The important tasks of AMG, to assure that adequate food and other supplies are properly distributed to the civilian population and to protect our own supplies from theft and improper diversion, cannot be effectively accomplished if black market activity is rampant. Furthermore, illicit trafficking in supplies is instrumental in destroying respect for Allied Military law and is related to other problems of Allied Military Government.

2. Successful control of illicit trafficking depends upon the efforts of every Division and of every official of AMG, and upon the cooperation of these Divisions among themselves and with other branches of the Allied Forces. Specialized skill and organization are necessary, however, to coordinate the activities of the various branches in this respect, to establish required preventives and to root out and strike at existing black market activities.

3. To accomplish the above objectives, there is hereby established a Black Market Control Section for Region III. The personnel of the Section will consist of a Director, other officers, a special squad of investigators and lawyers, Italian personnel skilled in black market control, and such other personnel as may be required. The section will be directly responsible to the Regional Commissioner, and will have all duties, powers and responsibilities necessary to the accomplishment of its objectives in this Region, including the following:

a. Establishment of general policies for control of black market and related illicit activities;

b. Establishment of measures and standards to prevent losses, diversions, and improper distribution of supplies, and to safeguard them while they are being stored, transported and distributed; and to assure the flow of supplies into the proper channels;

c. Inspection and investigation to assure the maintenance of the standards and measures established;

- d. The enforcement of measures and standards to protect from abuse the rationing systems established by other authorities;

e. The maintenance of close liaison with the Quartermaster, CIC, Criminal Investigation Divisions Provost Marshall, Port Authorities, and all other interested agencies of the Armed Forces with the objective of obtaining their cooperation in effecting the control program, of assisting them in safeguarding military supplies, and in cooperating in other matters of mutual interest;

f. The maintenance of close liaison with all other Divisions of this Region, with interested Divisions of other Regions, and with appropriate Italian authorities for the purpose of effecting the control program;

g. Investigation of cases of black market activity and other illicit trafficking;

h. Development and prosecution of black market and similar cases;

i. The above description of duties and responsibilities of the Black Market Control Section shall not be interpreted to impair, infringe or reduce in any way the duties or responsibilities of other Divisions of this Region or of other agencies; but shall be construed as authority to supplement, assist and cooperate with such other Divisions and agencies in any matters affecting the Black Market Control Program.

4. The Director of the Black Market Section will also function as a Special Prosecutor on the staff of, and subject to the orders of the Regional Legal Officer of Region III, to supervise the prosecution of cases developed and prepared by the Section. As Special Prosecutor the Director is hereby delegated authority to prefer charges for violations of Italian law except as he may be otherwise specifically directed by the Regional Legal Officer. It shall be the policy of the Special Prosecutor to refer to the Provincial Legal Officers cases developed by the Black Market Section, except those which for territorial reasons or for special reasons of policy would be more appropriately prosecuted by him. Likewise, prosecutions under Italian law will be referred to Italian authorities except in cases where policy, as approved by the Regional Legal Officer, requires otherwise. The Black Market Control Section will cooperate most closely with the Public Safety Division in matters affecting police activity.

5. The fullest cooperation of all other Divisions and of the provincial authorities in Region III is essential to the success of the Control Program. Accordingly all information of activity affecting the Control Program will be brought immediately to the attention of the Section, and the Director or his deputy should be invited to participate in all committee or group activity concerning all matters affecting black market

4. The Director or one black market officer on the staff of, and subject to the orders of the Regional Legal Officer of Region III, to supervise the prosecution of cases developed and prepared by the Section. NUMBER 34)

1. Farmers who reside in the permitted area hereinafter set forth, who are of good character, responsible and able to prove to the satisfaction of the competent authority that the necessity exists, may be granted permits to withdraw, or procure and possess one shotgun each and permits to procure and possess not more than 30 cartridges for said shotguns.

2. Private guards (guardie campeschi) employed for the protection of farms located in isolated places within said permitted area, may be granted permits to possess one shotgun each and permits to possess not more than 10 cartridges each for said shotguns upon application made by his employer.

3. Such permits will be issued by or on the authority of the Provincial Public Safety Officer through the Provincial Police Officers and will be in form as prescribed by the Regional Public Safety Officer.

4. Prior to the issuance of any permit investigation will be made to determine the character and responsibility of the applicant and the necessity for the possession of a shotgun and cartridges.

5. A permit will not be issued authorizing the possession of a shotgun larger than calibre 40.

6. It is to be clearly understood that the issue of a permit under this administrative Instruction in no way interferes with the Italian Law requiring holders of firearms to possess a license issued by the Questore.

7. For the purpose of this Instruction "the permitted area" shall be -

a. The whole of the Province of Avellino.

b. In the Province of Naples, the Communes of Cozzuoli, Marano di Napoli, Villaricca (frazione), Quillino, Villaricca, Mugnano di Napoli, Melito di Napoli, Sant'Antonio, Cassa Grana Novano, Frattimaggiore, Frattaminore, Crispiano, Cuivano, Acciara, Vola, Roccarainola, and all Communes to the south of those Communes; and

REF/316/76/Co.

26 April 1944.

SUBJECT: Control of Civilian movement.

To : Regional Commissioners Regions I, II, III, V and VI.
S.C.A.S. Fifth and Eighth Armies.

1.

Introduction:

It is evident that the enemy intends to continue his efforts to introduce espionage and sabotage agents into Southern Italy on a considerable scale. In order to meet this threat and to neutralize as far as possible the activities of such agents, it has been decided that a wider and more effective system of control of civilian movement will be introduced.

Allied Control Commission officers are therefore requested to accord the Military Security Services every possible assistance, and to see that the restrictions referred to herein are properly and strictly imposed.

2.

Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an M.G. pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the M.G. authority or the corps into which they intend to travel.

(b) Territory under M.G.

In territory under allied military government in rear of the army (and Corps) areas, restrictions on inter-provincial movement is to be re-imposed forthwith, i.e., civilians in this area will be forbidden to travel from one province to another without an M.G. pass.

(c) Italian Administered Territory.

3.

2. Restrictions.

(a) Army and Corps Areas.

In the Army (and Corps) areas the existing regulation will continue to apply whereby civilians are forbidden to travel more than 10 km. from their own homes without an ^{AG} pass.

Those civilians who wish to proceed into such areas will require to obtain a special pass which will normally be issued by the ^{AG} authority of the area into which they intend to travel.

(b) Territory under ^{AG}.

In territory under allied military Government in rear of the army (and Corps) areas, restrictions on inter-provincial movement is to be reimposed forthwith, i.e., civilians in this area will be forbidden to travel from one province to another without an ^{AG} pass.

(c) Italian Administered Territory.

There will be no restriction on movements within that part of Southern Italy which is administered by the Italian Government, nor within Sicily and Sardinia. An Allied Control Commission pass will, however, be required for movement between Southern Italy, Sicily and Sardinia, and also for all movement from ^{AG} territory into King's Italy and vice versa.

3. Check Posts.

(a) In Restricted Areas.

In Army (and Corps) areas and in territory administered by allied military Government every effort will be made to enforce the above restrictions by means of a widespread system of "snay" check posts, which will be established for a few hours daily at irregular times and at varying points. The responsibility of arranging such checks will rest with P.S.C. or C.I.C. units.

The object of these check posts will be : (i) to turn back those seeking to move outside the pre-established line without a pass, (ii) to take action against those who have committed serious and flagrant breaches of the regulations, (iii) to question or detain for investigation persons whose conduct or "story" is suspicious.

(b) In Unrestricted areas,

In territory administered by the Italian Government a similar system of "gap" check posts will be established. In this instance, however, the objects will be limited to (1) briefly questioning those passing the point with a view to discovering suspicious individuals who should be subject to further interrogation and investigation, and (2) instilling a sense of insecurity in the minds of other undesirable individuals so that they may hesitate to move about or even abandon their mission.

(c) Organization and Composition

This system of check posts will be organized by Army, Corps, District and base section headquarters and NOT by A.G./A.C., both in ~~and~~ in A.C.U territories.

These check posts will normally be manned by appropriate contingents, according to circumstances of P.S.P./O.I.C., S.I.A. (U.S.), C.C.M. and Guardia di Finanza...

Every effort will be made by Allied Control Commission officers to ensure the fullest cooperation of the Italian Police in connection with these duties.

Classes

(a) Army Areas and Zones

In the case of persons wishing to move north-wards across the "Control Line" (which follows the general line of the Rivers Po, Reno and Voburno) or to enter Toscana Province the existing procedure will normally be followed whereby they must first obtain (through their local A.M.G. representative) a pass issued by the appropriate A.M.G. authority in the area of their destination.

These check posts will normally be manned by appropriate combinations, according to circumstances of F.S.P., C.I.C., S.I.M., (C.S.), CC.MH and Guardia di Finanza.

In my effort will be made by Allied Control Commission officers to ensure the fullest co-operation of the Italian Police in connection with these duties.

4.

Message

(a) Army Areas and Provinces.

In the case of persons wishing to cross North-Westwards across the "Control Lines" (which follows the general line of the Rivers Biferno and Volturio) or to enter Toscana province, the existing procedure will normally be followed whereby they must first obtain (through their local AM/CC Representative) a pass issued by the appropriate AM authority in the area of their destination.

(b) and Provinces.

For other journeys involving movement into, or between, Province within the restricted areas (i.e. from Port to Avellino or from "Casil" to Naples) a pass will be issued by the local AM/CC Representative at the point of departure.

(c) Disconnection of Provincial Commissioners.

The procedure described in para. (b) above may be employed in cases described in (a), above when, for urgent administrative, economic or other reasons, this procedure described in (a) would be impracticable owing to the time factor. In such cases the pass will be issued by the Provincial Commissioner or by a member of his staff on his behalf who will immediately forward details of the issue of such passes to the AMO or DC of the area of destination.

- 3 -

(d) Reasons for Travel.

It is essential that the route of passes to cross the "Control Line" or to enter Foggia province be strictly limited to those cases where the journey will benefit the allied cause, or where there are important administrative or economic reasons, or in exceptional cases, where there are urgent compassionate grounds. The issue of other passes will be limited to persons who show good and genuine reason why they wish to travel, whether on official matters, business or family grounds.

(e) Issue of Travel Tickets.

Allied Control Commission officers will ensure that transport tickets will not be issued by the Italian authorities or other travel agencies to places within restricted areas unless the persons applying for tickets are in possession of a proper pass to their intended destination.

(f) Italian Government Officials.

Passes for Italian Government officials will be issued by this headquarters and signed by the Secretary General or by the Deputy Secretary General, Allied Control Commission, and will be issued after application has been received from the Government Department concerned or from Italian liaison section, Allied Control Commission, and considered by the appropriate Sub-Commission who will be responsible for examining the application as to actual necessity for the proposed journey. Such passes will be prepared for signature by the sub-Commission concerned.

(g) Italian Military Personnel.

The movement of members of the Italian Military Forces is unrestricted providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g., when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specific and approved officers of the Estates or C.I.A. to issue passes for inter-provincial travel. It is emphasised, however, that passes permitting persons to enter the area near or to Foggia Province must be issued by A.D.G./A.C.O. officers.

(i) Semi-Permanent Passes.

In the case of persons living near a provincial boundary and whose

37

Liaison Section, affiliated countries will be responsible for any losses which will be private Sub-Commission who will be proposed "in any such losses will be as to actual necessity for the Sub-Commission concerned, prepared for signature by the Sub-Commissioner.

(e) Italian Military Personnel.

The movement of members of the Italian military forces is unrestricted, providing they are on duty and in possession of proper credentials. The Italian Military Forces when not on duty, e.g., when on leave, are subject to the same restrictions as civilians.

(h) Issuing Officers.

It will be within the discretion of the Provincial Commissioner to authorise specific and approved officers of the Austro-Hungarian Army to issue passes for inter-provincial travel. It is emphasised, however, that passes permitting persons to enter the provinces of Hesse or Hesse Province must be issued by SAC/ABC officers.

(i) Semi-permanent Passes.

In the case of persons living near a provincial boundary and whose place of employment is in, or nearby in, the adjoining Province or Provinces, a semi-permanent pass may be issued and such passes shall expire on 31 March, 30 June, 30 September and 31 December annually, and then become renewable upon further application for frequent travel between to all persons who have sufficient reason for frequent travel between provinces.

(j) It is suggested that when an officer travels into an army territory that the officer or into Hesse Province is received in and out territory (provided he is concerned) unless the pass is valid for such travel) and forwards it concerned with the signature of the Sub-Commissioner and return to the SAC/r/C of this commission for validation; signature and return.

-4-

It will be seen that in future, Provincial Commissioners will be authorised under certain circumstances to issue passes for entry into Army areas or Foggia Province without prior permission from the Joint of destination (vide 4 (c)) and further that the movement of members of Italian Military Forces is unrestricted, (vide 4 (3)).

In order to insure the opening and operation of the kindergartens of the city of Naples, it is necessary to outline a plan to provide mid-day lunches for 20 kindergartens and the Scuole all'aperto, which is conducted for children who are tubercular contacts or those who for other special health reasons need particular care.

2. An official appointed by the Provveditore agli Studi and approved by the Regional Education Officer will have general supervision of the lunch program.

3. The following procedure will be followed with reference to the withdrawal and distribution of food (dried soups), and the preparation and serving of the lunches:

a. The general directress of the Scuole Luterne will, each month, schedule the necessary quantities of food and the schedules will be submitted to the Allied Command and the Office of City Economoato.

b. The Economo, with means put at his disposal by the Comune, will draw the items from the allied warehouse and will be responsible for the distribution to each Scuola Materna in operation.

c. Each school directress will be given responsibility for the food through a written receipt after a regular control and weighing. In each building the deputy directress will be responsible for safe storage and security of foods. The food will be carefully warehoused and each day the trustee will take care of the distribution of the quantities, following the schedule based upon the dietetical plan and number of children.

d. The drawing of food will take place each month between the 1st and 10th of the month.

e. Each month, each Circolo (group of Schools) will forward a detailed report to the directress of Scuole Luterne, who will forward a copy of these reports to the Regional Education Officer through the Provveditore agli Studi.

f. Dishes and utensils will be the responsibility of each school.

g. Preparation and serving of the food and the washing and cleaning of dishes, silver, and utensils will be done by the service personnel of the school.

h. It will be the responsibility of the official appointed by the Provveditore agli Studi to see that the food is prepared and served under sanitary conditions. The inspection of kitchens, utensils, dishes, and food handlers will be a matter of chief concern.

1. To avoid excessive transportation costs for the internal movement of food and other supplies imported by ACC for the civilian population, it has been decided to institute several district bonded warehouses for flour and miscellaneous foods throughout the three provinces of Naples, Avellino and Benevento. A further justification for this measure is the acute state of congestion which exists at present at the Central ACC Warehouses and which will continue for as long as the communes draw all their supplies, and the provinces a proportion of them, direct from the central warehouses.
 2. A certain amount of progress has been made in Naples Province with the institution of these bonded warehouses. Out of a minimum of nine district warehouses planned for Naples Province, five already are stocked and two started on 1st April issuing flour only. In Provinces of Benevento and Avellino there exists only central provincial warehouses.
 3. The method of working and operating these district bonded warehouses is described below:
- a. In consultation with Sepral, the site of the warehouse is chosen, being in mind its geographical position in relation to the surrounding communes which it is intended to serve.
- b. The construction of the nearest Provincial Officer is required in co-operation and, if necessary, requisitioning suitable storage premises.

a. In consultation with Sepral, the site of the warehouse is chosen, taking in mind its geographical position in relation to the surrounding communes which it is intended to serve.

b. The construction of the nearest Provincial Officer is required in writing and, if necessary, requisitioning suitable storage premises.

c. A visit is paid to the warehouse by a Supply Officer of the Region or Province to ascertain that the available accommodation is sufficient and suitable for the type of supplies it is intended to store there. He requests the Local Provincial Office to provide the necessary day and night guard.

d. Sepral requests the Consorzio Agrario, or other trustworthy organization, to operate the warehouse on behalf of the province, it being understood that the profit margin they receive will be defrayed by Sepral from the food handled. The status of the warehouse is

that of a bonded store. The food placed therein is government property and is under bond. In Naples Province the services of the Consorzio Agrario have been used exclusively up to the present for the management of the bonded warehouses, and the results given have been satisfactory. The five district warehouses at present operating are all, with one exception, the property of the Consorzio Agrario.

e. Flour and other food intended to stock the district warehouses is charged against the province as if stocked in the central provincial warehouse. It remains on charge to ACC until released by the Provincial Supply Officer to Sepral or other customer.

f. The first consignment of food for each district bonded warehouse should be accompanied to its destination by a supply Officer of the Region or Province, who must see to himself that stacking, storage, guarding and accounting arrangements as provided by the Provincial Officer and by the local representative of the Consorzio Agrario are all satisfactory. Thereafter supplies for the bonded stores will be checked as they leave the central warehouse and will be paid daily with the returns submitted by the Consorzio.

g. When the ~~district~~ supply officers will allot food to Sepral or other customers from that particular store in the same way in which at present they release food at central provincial warehouses. Sepral in turn will sub-allocate these allotments to the communes served by the bonded store in question. The Consorzio Agrario will honor Sepral's withdrawal orders when presented by bona fide distributors from the communes and provided the distributor produces Sepral's or banker's receipt as proof that he has made full payment for the food.

h. Once food has been issued in this manner against

785016

setting himself up, storage, stacking arrangements as provided by the Provincial Officer and by local representative of the Consorzio Agrario are all satisfactory. Thereafter supplies for the bonded stores will be checked as they leave the central warehouse and will be listed daily with the returns submitted by the Consorzio.

2. When the ~~distrib~~ bonded store is full and ready to issue, the Provincial Officers will allot food to Sepral or other customers from that particular store in the same way in which at present they release food at central provincial warehouses. Sepral in turn will sub-allocate those allotments to the communes served by the bonded store in question. The Consorzio Agrario will honor Sepral's withdrawal orders when presented by bona fide distributors from the communes and provided the distributor produces Sepral's or banker's receipt as proof that he has made full payment for the food.

3. Once food has been issued in this manner against a voucher drawn by the Supply Officer or by Sepral the food ceases to be the property of ACC and becomes the property of the purchaser for disposal in the manner prescribed by the Law.

4. Prior to the unbonding of the food, transportation charges are a government liability. After the unbonding has taken place, the transportation expenses must be supported by the distributor, and are a charge against his profit margin represented by the difference between the price at which the food is sold to him by Sepral and the consumer price of the same item.

ADMINISTRATIVE INSTRUCTIONS)

NUMBER

15)

17 March 1944

1. Allied Military Courts are being criticized severely because many of the sentences imposed are inadequate for the purposes of Military Government. In ~~many~~ cases this criticism is justified. There is too much tendency toward sentencing solely as a means of punishment and reformation of the prisoner at the bar. The principle has already been laid down by higher authority that, "The purpose of Military Courts is to impose sentences.....which will be a deterrent to others.....". There is also a tendency to allow sympathy and sentimentality to become an important factor in the determination of sentences.
2. Court officers must adopt a mental attitude which will enable them to realize that the prisoner at the bar is only the offender who has been caught, while in the background are hundreds of others ready and willing to offend if the risk of severe punishment is slight. It is only by the imposition of a severe sentence on the former that the latter becomes impressed. Severe sentences should be the rule rather than the exception.
3. Extreme caution should be used in the consideration of mitigating circumstances in determining the severity of the sentence to be imposed. In the average run of cases before the Military Courts involving offences actually defined in Proclamation 2, mitigation is rarely applicable. The fact that the accused has a family, either large or small, is not a mitigating circumstance.
4. The doing of justice, or the appearance of doing justice, is a principle quite properly applicable up to and including the determination of the guilt or innocence of the accused but, if and when guilt is established, the sentence imposed must be sufficiently severe to deter others from committing the same or similar offences.
5. Specifically, cases involving the cutting of wire communication lines, theft of wire from such lines and possession of such wire are of great concern and must not be treated lightly. Sentences in these cases must be severe regardless of the excuses. Convictions involving theft and possession of allied property have increased more than 60% during the past month although the total of all convictions increased less than 2%. It is very evident that sentences are not adequate as deterrents.
6. The right to suspend sentences will be exercised only in exceptional cases and not as a regular practice. Court officers have no power to suspend the payment of fines. The right of suspension exists only as to imprisonment. Court officers will not suspend any sentence at any time other than at the time of the announcement of the sentence.

1. Attention of this Headquarters has been directed to instances of representation of accused before Allied Military Courts by persons having no legal qualifications but who charge a few for their so-called services.
2. The provisions of Proclamation 4, Article IV, Section 2(b) and subsequent Instructions were designated to protect accused (1) who are financially unable to employ legally qualified representatives, or (2) who reside in a place where legally qualified persons are not available.
3. Court Officers will be directed that, in every case in which the accused is represented by a person having no legal qualifications, they will determine (1) whether or not such representative has received, or expects to receive, a fee or honorarium for his services, and (2) whether or not there is available a person in the locality who has legal qualifications to undertake a proper defence of the accused. If the unqualified person is receiving a fee or honorarium when qualified person are available, Court Officers will, in the absence of exceptional circumstances, exercise their authority under the Proclamation to prohibit such person from appearing in Court.
4. Court officers will be advised that, when a person not legally qualified to act as counsel is repeatedly before the Court representing various accused, it will be assumed that such person is charging for his services and the direction in paragraph 3 above will apply.
5. "Exceptional circumstances" might include representation by an employer, a close relative or personal friend, although normally such representatives would not charge for their services.

ADMINISTRATIVE INSTRUCTION:
NO. 8:

18 February 1944

1. Our letter of 11 February decreeing that the Provveditore agli Studi cease momentarily his inspections of private schools was not calculated to deprive his office of any rights and duties accorded to it by Italian law.
2. The purpose of our decree, as was explained to the Provveditore verbally, is to help all existing private schools to open their doors as quickly as possible and to keep them open during these emergency times to the end that the normal functions of education may be resumed as soon as possible.
3. Our interpretation of the questions raised in memorandum from the Provveditore of 16 February is as follows:
 - a. Inspection of premises. The premises of many public as well as of private schools are at present unsuitable according to normal peace-time standards of sanitation, lighting, equipment, etc. This office believes that there should be no separate standard of inspection for public and private schools, but at the present time all school inspections should be as liberal as possible, and that every effort should be made to assist the schools to reach a normal basis of operation by next fall.
Therefore, normal inspections at time on such matters are felt to be a waste of time and effort. It is suggested that the office of the Provveditore prepare and distribute to private schools the minimum standards which you feel desirable and to point out that schools which fail to meet these standards by October 1, 1944 will be publicly stricken from the list of accredited schools and their doors closed.
 - b. Political matters. This office has examined the Schede Personali of all private school teachers and therefore, no further detailed examination of the political background of private school teachers needs to be undertaken at this time by the office of the Provveditore. However, if he feels that there are teachers, or Presidi now serving in private schools who are politically suspect he is requested to submit their names to this office in order that we may investigate them through military intelligence channels, and, if found guilty, remove them.
4. Education Supervision.
 - a. This office feels that the supervision of those aspects of

the educational program of private schools as are entrusted to the Provveditore by Italian law is one of his most important duties. Artistic and helpful supervision is akin to artistic and helpful teaching in that both demand the highest type of professionally trained person and that neither supervision nor teaching can be artistic or helpful if done mechanically or if performed in the spirit of a policeman.

- b. To the end that the program of the Provveditore of supervision be of the most worth, he is requested to select his supervisors with the greatest care, making certain that those chosen have only the welfare of children at heart and that they have no political or personal axes to grind.
- c. In the meantime, it is obvious that as high standards possible be insisted upon. Since this office authorized the opening of private schools and approved their personnel, this office wishes the Provveditore to collect the information we need to know in regard to the points raised in his communication of 16 February 1944. This information should be collected by means of the attached letter and forms which should be sent to all private schools which have been authorized to reopen by this office. The returns should be sent to this office and we will collaborate with the Provveditore in the correction of irregularities revealed by the questionnaire.
- d. In regard to the granting of legal recognition of studies, it is the wish of this office that the Provveditore carry on such supervision as is necessary to insure that reasonable scholastic standards are maintained taking due consideration of the exceptional conditions prevailing during the first half of 1944. The spirit of this supervision should be one of genuine helpfulness, and much of the burden for the improvement of instruction should be placed upon the Presidi of both public and private schools.

MEMORANDUM
SECTION 3, ALLIED MILITARY GOVERNMENT
APO 314, U.S. Army

ADMINISTRATIVE INSTRUCTION:
No. 41

22 January 1944

The framework of Italian Agricultural Organisation is now becoming more defined.

The Alimentation Section, formerly under the Ministry, will now be operated by the Ministry of Food or an equivalent set up.

On the Provincial level the Ispettorato agricoltori is the highest of all branches of Agriculture.

In Naples Province all work has been transferred to the Ispettorato agricoltori and also a part of the staff belonging to the former Unione Agricoltori to handle the question of allocations of seeds, fertilizers, fuel, car permits etc.

It is now certain that the A.N.P.A. is to be done away with. For Naples Province the Ispettorato is putting out a scheme for approval, to take in all the records of the A.N.P.A. and certain of their officials whom he thinks will be useful.

The Office of Provincial Accertamenti will be the basis of the Ispettorato's statistical branch.

It is being considered to bring into this office all figures relating to livestock, so that all statistics relating to agriculture will be centralized in one statistical Office.

The former units of:

- Economica - Livilsoltura
- " Pasterizia
- " Viticoltura
- " Ortofrutticoltura
- " Cerasicoltura

and the Associazione Nazionale Coltivatori Piante Glaginose will cause to remain as separate entities.

The Consorzi Produttori will also come under the Ispettorato for the time being. It may be abolished later.

Regarding the former Ente Zootecnia, Major White of this Office is working on a modified set up, so as to bring into use the Provincial and Comunal Veterinarians, together with all the data centered in the Zootecnia Office. The effect will be to have what is equivalent to a livestock officer for each Province, and the intent-

tion at present is that he will work under the Ispettorato Provinciale. Meanwhile it will be up to you to place anything useful from your Zootechnic Office under the Ispettorato.

The Ammuseo Provinciale Campania will be left as a separate entity, but this only applies to Naples. However, the Associazione Nazionale della Disticolatura and the Ente Nazionale per la Distillazione delle Materie Vinose being National Concerns, will require further study.

You will be informed as to the arrangement for Naples Province regarding the salaries etc. for this new set up. Meanwhile, request proposals on above.

The section in alimentation formerly concerned with fodder for animal feeding is also transferring to the Ispettorato.

ADMINISTRATIVE INSTRUCTION:
No. 2:

15 January 1944

1. Enclosed is copy of instructions received from C.R.O., 15th Army Group outlining the procedure to be used in the Control and Financing of State Expenditures from the Provincial Seat. Aside from the use of special forms this of course represents no change from the verbal instructions already given provincial P.O.'s in Region 3. The necessary forms have already been sent to you by courier. It is requested that all Sub-accountants in your Province to be given the necessary instructions and that they be directed to follow the procedure outlined.
2. It is also requested that Provincial P.O.'s confer with their respective Intendente di Finanza and local manager of the Bank of Italy and explain to them fully the "modus operandi".
3. My interpretation based on conversation with C.R.O.-15th Army Group of Par. 2-C, is that this paragraph does not apply to bills dated prior to Sept. 1st will not be paid.
4. In connection with form C.R.O. 3, it is suggested that the signature for both the Intendente and Prefetto be obtained.
5. With reference to review by Regional P.O. - Provincial P.O.'s will forward to this office, on the 27th of each month a consolidated list of the information, outlined in para.2, sub para.s a,b,c,d, and e above and a copy of the C.R.O. 10, showing the advances they have approved.
6. It is expected that Administrative instructions regarding Communal Financing will be issued by HQ. 15th Army in the near future as conferences have been held here in that connection. Pending receipt of those instructions; the following general procedure will be followed: - all advances for expenses chargeable to the Commune will be made direct to the Commune, and not to divisions thereof or to individuals or concern doing work for the Commune. There have been some vouchers submitted to the Chief Accountant, (which cannot be passed) indicating that some advances direct instead of to the Commune. It is required that all C.A.C.'s or S.A.'s under your jurisdiction be advised regarding the procedure to be followed.

ADMINISTRATIVE INSTRUCTIONS:

NO. 1:

7 January 1944.

The following extract from instructions received from C.F.O., 15th Army Group:

"The F.O.'s at provincial seats will submit the attached forms to the Sezione di A. Tesoreria, Banco d'Italia for immediate preparation of the information thereon. The data on the forms will be taken largely from the Dimostrazione mensile. Thirteen months are covered on the revenue and expense forms, July 1942-July 1943 inclusive. The third form is for the payment of the various ministries during the same months. The forms attached are not intended to be complete as to ministries or months but will indicate how the A. Tesoreria is to prepare its data and should be followed exactly as outlined for all ministries and all thirteen months.

Subsequently similar data will be prepared for the six months ending December 31, 1943. Thereafter monthly reports will be made. The first report (13 months) should be filed immediately with this HQ and the other soon as possible after their due date. For those F.O.'s who may not now be receiving the Dimostrazione mensile, it is requested that a copy be filed in your office monthly. All F.O.'s should forward the Dimostrazione mensile to their HQ after perusal."

Enclosed are models of the forms to be used. Follow the instructions outlined above closely, follow up to see that the subsequent reports are submitted and forwarded through this office. Also forward promptly the Dimostrazioni mensili to this office with your comments.
