SUBJECT: AMG and Italian Courts at Elba

TO: Regional Legal Officer, Toscana Region

1. In compliance with Par. 2, S. O. 33, Toscana Region, 9th Feb. 45, the undersigned proceeded to Elba on 13 Feb. 45 and today concluded the investigation directed by letter of Col. Behrens dated Feb. 1st (AC/4157/L) and report as follows.

2. Files have been assembled on a total of 61 cases handled in AMG courts from the occupation to the present time. A docket of these cases has been made in duplicate containing the name, date, charge, plea, finding, sentence and remarks on each case; one copy has been left with Major Riley, new P. O. at Elba. The other copy is forwarded to you herewith together with the file in each case, each of which contains a typed memo to the file which I have prepared giving the essential facts, the disposition, etc. and a recommendation for final handling.

3. The status of these 61 cases is:

Acquitted.....	21
Convictions quashed by AC.....	3
Convictions wherein it is now recommended to RLO that the convictions be quashed.....	16
(of this number the Judicial Officer undersigned has by special written order (copy attached to each file) released the prisoner from incarceration pending final review of the case by the RLO - the others of this group represent only fines or suspended sentences and await review and further order of the RLO)	
Cases never tried or "dismissed"..... (recommendation on each case included in file)	10
Forwarded to Procuratore del Regno, Livorno.....	6

Total..... 61

Three of the 6 cases forwarded to Proc. del Regno were cases of alleged murder by civilian against civilian. Cap't. Smith, former AMG officer at Elba "tried" these cases with an Allied Military Gov't Summary Court on which one Avv. Vadi, Valdo sat as collaborating Judge. A verdict of not guilty was rendered in each case. These cases had been withdrawn from the Italian courts for the purpose of the AMG trial. The Italian portion of the file has now been returned to the Procuratore del Regno, Livorno, together with explanatory letter (copy attached to what remains of the AMG file) that he should proceed to further investigation and prosecution as he in his discretion thinks proper. Another case of "attempted murder", one for "mistreatment of his wife" have been handled in the same manner.

4. None of the 61 cases above were handled by the present AMG officer at Elba. Each was handled by Captain Smith. The following observations are made in answer to Para. 3 and 4 of AC letter above:

AMG - Elba

page 2

To. ALO

18/2/45

a) The AMG Summary Court in each case handled included as one of the judges one Avv. Vadi, Valdo, and also an Italian lawyer who served as prosecuting attorney and who in a majority of the cases signed the process, that is, the charge sheet or summons. Vadi did not sit as an assessor but as one of the Judges. (Vadi was former Pretore at Todi, near Perugia; he has since been called back into the service of the Italian Navy and has left Elba)

b) Much work was done by these Italian participants in recording the evidence in Italian on these trials and in many of the cases (nearly all of them) this transcript of evidence is included as a part of the AMG court file, but in only a very few of the cases was a summary of the evidence given as provided by the rules of AMG courts. There were other irregularities such as conflicting commitments, sentence without process (such as in the case of Pagni, Assunto, No. 15 wherein the defendant was sentenced without prior charge to six months imprisonment for giving false testimony in his behalf against the CCRR); temporary receipts were apparently given in court for fines paid because all three copies of FT-1 receipts found in the Elba office still remain in the receipt book. The officer was under the misapprehension that a person could be acquitted but yet taxed with a nominal fine, - as is indicated from a reading of at least two of the files. As a result of these irregularities (see separate files for each case) all cases are fatally defective and it is my recommendation that all convictions be quashed.

c) Cases were handed the Italian courts for trial and subsequently written orders for dismissal (and confiscation of the property) were given the Pretore by Cap't. Smith. Eleven such cases of the Pretore were seen by the investigating officer. It is not implied that such action was completely unjustified but it is here observed that this practise caused the Pretore and other Italian judicial officials to feel naturally that their cases were "not their own". Their feeling was that some of the defendants had gone to AMG, presented only their side of the case, had procured orders for dismissal and that Capt. Smith, though acting perfectly honestly, had not the knowledge at hand of the "prosecution's side" of the case.

d) The officer was under a mistaken belief as to the purpose, jurisdiction and procedures of AMG courts.

5. Several conferences have been held with the Pretore this week. Letter to him of even date, copy of which is attached hereto, is self explanatory of the instructions given him for the future. All Italian court cases were investigated and this letter explains the present status of all such cases on Elba at the present time.

6. Major Riley, new P. O. at Elba reports that the Pretore is of Fascist background and was strong pro-German in his background; however the Major states that he is reasonably efficient in his work and that there is no one suitable for a replacement. With sufficient supervision it is believed the present Pretore will serve acceptably.

7. Major Riley, new P. O., Elba is in possession of a copy of "Consolidated Instructions for Allied Military Government Courts". He has some few court blanks and forms but is now in need of a new set which he now requests from the Provincial Legal Officer. It is requested that a copy of this report be forwarded to Major Woodward, PL0, Livorno, who has heretofore consulted Major Riley and supplied him some proper court forms and instruction.
8. A separate letter is being forwarded today with reference to the case of DAMIANI, Giuseppe (Ref: AC/4091/L -29 Jan. 45)

ARMED MILITARY GOVERNMENT  
ISLE OF ELBA

18 February 45

SUBJECT: AMG. Trials and Italian Court Trials on Island of Elba.  
TO : Avv. Antinozzi, Pretore, Island of Elba.

*Copy*

1. Following up our several conferences this week with reference to AMG. and Italian Court cases which have heretofore been handled on Elba, we wish to give you these written instructions as to the manner in which court cases will be handled in the future:

- a) Arrest Reports on all cases affecting Allied interests, in that is, offenses that could be tried as violations of AMG. proclamations and orders, will be submitted to Major Riley, new Provincial Officer for Elba, and he will make decision as to whether the case will be tried in AMG. court. Unless the case is a serious one, for example one involving possession of a great amount of Allied Property or one in which the facts indicate the defendant is regularly engaged in "black-market" operations, etc., Major Riley will hand the case back to you to be tried in your Italian courts as for the violation of Italian law. In case the offense is one that cannot properly be charged as for the violation of one of your Italian penal statutes, then, of course, Major Riley will handle the case in AMG. court.
- b) Arrest reports on all other cases, that is, purely Italian offenses which do not affect Allied interests are to be retained by you and tried in your courts with all speed possible. You must continue to make regular reports in writing each two weeks to Major Riley on all cases you try giving the name of defendant, date of trial, plea, finding, and amount of sentence.
- c) AMG. does not, and will not attempt to dictate to you as to who should and who should not be found guilty or not guilty; however, we wish to direct you to give reasonable adequate punishment in those cases found Guilty. The punishment imposed should be sufficient to serve as a deterrent to others,. Punishment by fine alone has practically no deterrent value. Convicted black-marketeers, for example, should always receive a prison sentence - and not merely a fine.
- d) We realize that before Jan. 1, 45 you were given written orders by the former AMG. officer at Elba as to the disposition you should make of quite a few cases being tried in your court. There will be no such orders in the future. AMG. now expects you to handle cases in your court with fairness and firmness and strict impartiality and as long as this is done there will be no interference from AMG.
- e) Only qualified AMG. officers will sit as members of AMG. courts in the future. Neither you or Avv. Vadi Valdo, or any other Italian lawyer or official or person, will sit on AMG. courts in the future. As you have been advised this week, a total of seven prisoners serving sentences have been released from your prison because of convictions before improperly constituted AMG. Courts.

Page 2

TO: Pretore 18/2/45

f) We commend you for keeping your dockets cleared. The eleven cases you have tried this week, according to our understanding brings your docket up to date and there are no cases for the Pretore untried. After going over the list of prisoners at Elba this week (we should like you to confirm the following before this officer undersigned leaves the Island) we find:

	45 -----
Now in jail	
Serving sentences already imposed (Excluding those 7 released b. AMG this week)	7
In jail awaiting trial before Tribunale	31
"                "                "                Court of Assizes	2
"                "                "                Military Tribunal	3
Juvenile offenders (you're holding for Questore, Pisa) (None being held for Pretura or AMG courts)	2
Total.....	45

g) A docket has now been made of all cases handled in AMG courts with the final disposition of each. In case you wish information on any of these in order to clarify your records you may see this docket at any time by requesting permission of Major Riley.

H) It is our understanding that there are four additional criminal cases (defendants not in jail) awaiting trial by the Tribunal from Livorno, two of which you have not yet been able to forward to the Procuratore del Regno. Please do this as soon as possible.

GOVERNO MILITARE ALLEATO  
Isola dell' Elba

18 febbraio 1945

SOGGETTO : Cause di competenza dell'AMG. e della Corte Italiana sull'Isola d'Elba.

AL : Avv. Antonozzi, Pretore, Isola d'Elba.

*Copiat*

1.- Facendo seguito alle nostre conversazioni di questa settimana, in merito alle cause di competenza dell'AMG. e della Corte Italiana, che sono fino ad oggi state trattate sull'Isola d'Elba, noi desideriamo darvi queste istruzioni scritte, sul modo come desideriamo che in futuro, queste cause vengano trattate.

a) I rapporti di arresto, per tutte le cause involgenti interessi Alleati, cioè per reati che potrebbero essere giudicati come violazioni ai proclami ed ordini della AMG., devono essere sottoposti al Maggiore Riley, Ufficio Provinciale per l'Isola d'Elba il quale deciderà se la causa debba essere giudicata da una Corte dell'AMG. A meno che la causa non sia molto seria, ad esempio una involgente un grande ammontare di proprietà Alleata, od una nella quale i fatti chiaramente dimostrano, che l'arresto di Riley era coinvolto in mercato nero, etc., il maggiore Riley, ve la restituira' perché stato era giudicata in una corte Italiana, come violazione ad una legge Italiana. In casi in cui il reato non è previsto dal vostro codice Italiano Penale, allora, naturalmente, il maggiore Riley, portera' la causa innanzi ad una Corte dell'AMG.

b) I rapporti di Arresto, in tutte le altre cause, cioè, in puri reati italiani, dove non sono involti interessi alleati, devono essere trattenuti da voi e giudicati nelle vostre corti, nel più breve tempo possibile. Voi dovete continuare a fare i vostri regolari rapporti scritti, al maggiore Riley, ogni due settimane su tutte le cause da voi giudicate, dando il nome dell'imputato, la data del giudizio, se si è dichiarato colpevole o non, se è stato trovato colpevole o non, la sentenza.

c) L'AMG. non deve e non tenterà di dettare a voi come dovrebbe e chi dovrebbe essere trovato colpevole. Comunque noi vogliamo che voi date adeguate punizioni, a chi sarà trovato colpevole. La punizione imposta dovrebbe essere tale da servire come esempio agli altri. Una punizione consistente soltanto in una multa ha dimostrato, di non avere esempio deterrente su gli altri.. Persone condannate per mercato-nero dovrebbero per esempio, ricevere sempre un termine di detenzione, e non una semplice multa.

d) Noi realizziamo che prima del 1 gennaio 1945, voi avete avuto dall'allora Ufficiale in carica per l'AMG. sull'Isola, ordini scritti sul come disporre alcune cause, portate innanzi alla vostra corte. Nel futuro non ci saranno di simili ordini. L'AMG. aspetta che voi trattiate le vostre cause nella vostra corte, con giustizia, fermezza ed assoluta imparzialità e finché ciò sarà fatto, nessuna interferenza da parte dell'AMG., ci sarà.

e) Soltanto qualificati ufficiali siederanno come membri di corti dell'AMG. in futuro. Ne voi, né l'Avv. Vado Vadi, ne nessun altro Avvocato od ufficialità o persona potrà sedere in una corte dell'AMG. Come voi già siete stato avvisato, un numero di sette detenuti, che scontavano la loro sentenza, è stato rilasciato dalla vostra prigione, perché condannati da una corte dell'AMG. impropriamente costituita.

0528

AMG. - Elba

Page: 2

TO: P. ore

18/2/45

f) Noi vi congratuliamo con voi per tenere i vostri ruoli aggiornati. Le undici cause che voi avete giudicato questa settimana, a quanto noi abbiamo capito, aggiornano il vostro ruolo in modo che non rimangano per il Pretore cause pendenti da giudicare. Dopo aver letto la lista dei detenuti all'Elba questa settimana, (e noi desideriamo che voi confermiate ciò prima che quest'ufficiale lasci l'isola) abbiamo trovato:

Ora in carcere	45	—
Scontanti la sentenza già imposta		
(Esclusi i 7 rilasciati dall'AMG questa settimana)	7	
Incarcerati aspettanti giudizio dal Tribunale	51	
" " " " Militare	3	
" " " " Corte di Assise	2	
Minorenni (a disposizione del Pretore di Pisa)	2	
Nessuno a disposizione della Prefettura o dell'AMG.		
Totali	55	

g) Un ruolo è ora stato fatto per tutte quelle cause che sono state trattate in Corti dell'AMG, con la finale decisione in essa presa. Nel caso che voi abbiate bisogno di dette informazioni, in modo da chiarificare i vostri registri, voi potrete consultarlo in ogni momento, richiedendo il permesso al Maggiore Riley.

h) È nostra conoscenza, che ci sono quattro addizionali cause, penali (i cui imputati non sono in carcere) a disposizione del Tribunale di Livorno, i fascicoli di due delle quali, non sono ancora stati inviati al Procuratore del Regno. Per favore fate questo al più presto possibile.

Upon completion of the task, a report will be rendered for transmission to all concerned. The above mentioned letter and the accompanying file were turned over to Major Hill, but are to be returned to this office after his return from Elba.

3. An officer named Major Reilly has been on Elba since it was turned over to this Region in December. This officer has functioned as a Court in this Region, and from our past experiences, it is our opinion that he is very well informed on legal administration. Thus far, no record has been received by this office from Elba since it was turned over to this Region. We do know, however, that Major Reilly took pains to discuss his functions as a Court with the Provincial Legal Officer, Livorno, just prior to going to Elba, and took with him necessary forms, Consolidated Instructions, etc.

SUBJECT : Allied Military Courts - ELBA.  
TO : Regional Commissioner, POGONI Region.  
(Attn: Regional Legal Officer).

1. The enclosed records of trials in Allied Military Courts in ELBA have come into the possession of this Sub-Commission and are forwarded to you for retention. They disclose that in the period they cover a most serious situation existed in that island : for example :-

- a) BAJET Giuseppe : A Summary Court on 21 Nov 44 found the accused guilty of an offence under Proc. No. 1 (30) and sentenced him to 6 months imprisonment. The papers in question contain nothing detrimental or disrespectful to the Allied Forces or any member thereof, to the Government of any of the United Nations or to the Allied Military Government.  
He was also tried (but acquitted) on two other charges of which one was "Defamation of Character" tried under Proc. c. 1 Art. VII as a violation of the Italian Penal Code, Arts. 290 and 590.  
The "procedure" adopted at the trial was remarkable. Apparently no small detail such as calling any prosecution evidence troubled the Court: the accused was asked by the prosecutor whether or not he admitted his guilt : on his reply in the negative, the prosecutor proceeded to interrogate the accused.  
This case has not previously been reviewed. The conviction under the first charge has now been quashed : please arrange for the immediate release of BAJET.
- b) BANDI Pietro : tried by Summary Court on 23 Nov 44.  
This ranks high amongst judicial decisions. The charge was "wrongful possession". The Court states "He (the accused) was able to account for all of it (the subject matter of the charge) and the French Commandant returned the foodstuffs to him". Having made that statement, the Court proceeded to find the accused "guilty" and sentence him to a fine. His conviction has also been quashed.
- c) RAVIGHI Santi : was charged under Penal Code Art. 336 : he was acquitted after having been in prison for 54 days.
- d) PAJMI XI Giuseppe . After being in prison for almost 2 months he was tried by Summary Court on 9 Dec 44 for "furto aggravato". The typescript of the proceedings shows that he was sentenced to imprisonment for one year, suspended for one year. The record (on back of Form 2) shows the sentence as three months with no mention of suspension. The judge's note refers to the accused being given a suspended sentence. Will you please ascertain what sentence (if any) he is serving?

- e) ALBERTO Querino : On 23 Nov this man was tried for infringing Proc 2 Art. X which requires sellers of food to mark the goods with the sale price. According to the judge's note, the accused had a very arguable line of defence namely that he was in the course of arranging his merchandise: the judge observed, however, that "as he pleaded guilty, he was let off with a minimum fine". This conviction has now been quashed.
- f) CECCHINI Giuseppe : was tried by Summary Court in Nov 44 under Proc. I Art. IV (5) for having in his possession 3 rifles, 11 kilograms of gunpowder, 45 detonators and other things. He was convicted and sentenced to 1 month's imprisonment suspended.  
The trial appears to have followed no known procedure. The accused pleaded Not Guilty and the president then asked the accused how long he had had the arms. A defence witness was then called who, in reply to questions by the Court, gave evidence that the guns were found by the accused's children on or about 10th or 11th (month not specified) : the Court then asked "Is it true that the father noticed it and took away the guns to take them to report them?" : this question, not very surprisingly, got the answer "yes". At no time was the witness asked his means of knowledge. In the defence, the lawyer asked his client "Is it true that the children found the guns" : again the answer was "yes".
- g) GALLI Assunto : was tried and acquitted on 25 Nov 44 for "attempted murder", it not being specified if such charge was under the occupation or under Italian law.  
The trial was before a Summary Court composed of  
"Capt. R.R. SMITH  
Maj. Van VINK (unqualified legal Officer)  
Avv. VALENTINA (qualified Italian Judicial Officer)"  
Obviously such a Court was not properly constituted, an Italian avvocato not being authorized to sit on an Allied Military Court : ~~nor should such a charge be tried before a Summary Court~~.
- h) BOSSI Pietro and MUSSETT Francesco : were tried and acquitted on 1 Dec 44, by the same "Summary Court". The first accused was charged under Proc. I, Part II, Art. 4 with being "suspected of throwing a hand grenade a ~~presently intended~~ for Marshal of SS. It. that was not pro-patriot if not actively pro-German".  
The second accused was charged with being "suspected of knowing something about the hand grenade being thrown".
- i) CONCI Enzo : was tried on 5 Dec 44 by the name "Summary Court". The charge was : "killing his wife who was pregnant and would have been confined in about 10 days". The accused was "acquitted for lack of evidence".
2. This Sub-Commission is very disturbed to find out that such things were going on in Nov and early Dec 44. While it is appreciated that NISA did not come under TOSCANA Region officially until 20 Dec 44, this Sub-Commission was under

the impression that your HQ was in fact supervising the legal administration for some time previously: this impression was based partly on remarks made verbally to CJO when he visited TOSCANA Region in the month of October and partly on your monthly report for Sept forwarding part of the report of PLO Livorno who had been there and settled certain charges in cases to come before Allied Military Courts.

3. The officer responsible for holding these Courts was Major (then Capt.) SMITH. He was there both before and after 20 Dec, but it is thought that he has now left.

Have the records of cases tried by him since 20 Dec been reviewed by you? If so, were they as unsatisfactory as the ones now forwarded?

4. The position as regards Allied Military Courts in ELBA is so unsatisfactory that you are instructed to send out there immediately an officer of field grade with experience of Allied Military Courts. He should be instructed:

- (a) to investigate generally and report upon the Allied Military Courts held there both before and after 20 Dec 44, and particularly to discover whether there are any other unreviewed cases; and
- (b) to ensure that whoever will be holding Court there in future is aware of at least the most elementary points in regard to the composition of Courts and the procedure to be adopted at trial.

A copy of the report will, please, be sent to this HQ.
