To: Legal Sub-Commission.

This is a rather difficult question, for as you will see from 49A our policy has been to discourage separate transfers by individual ministries until such time as the representatives appointed by the Italian ministries have met in Milan and prepared their plans for transfer.

Since this policy was agreed with the Italian Government, we think it impossible for A.C. to authorise the Ministry of War's transference of archives. If the transference is felt by the Ministry to be of pressing urgency, they should make contact with the Presidenza del Consiglio (Under-Secretary Amendola) + get that body to ask us to make this an exception to the agreed rule.

1. As it is understood that lawyers and doctors are to receive preferential treatment with regard to the number of hours of light to be used daily it is requested that similar facilities be given to the judicial officials of the various courts of Rome.
2. It is suggested that at least 25 officials be considered in this connection. This figure, which is considered a reasonable minimum, would be broken down as follows:

- 5 officials of the Military Tribunals and Procure Militari
- 3 officials of the Court of Cassation
- 17 officials of the Court of Appeal, Tribunali, Preture.

In the last mentioned category the selection will be made with particular consideration for counselors and judges charged with pretrial investigations (istruttoria) as there is a reason to believe that increased light facilities may contribute to a speedier preparation of cases for trial.

3. In view of the ever increasing number of cases and the congestion of prisons it is strongly recommended that the above suggestion be considered by the competent authorities at their earliest convenience.

the Minister of Justice pointed out that the Power Allocation Committee is
now studying a project increasing the electricity ration for attorneys,
physicians and other members of liberal professions. The Minister requested
that this Sub-Commission support the claim of the magistrates that they
be given equal treatment with members of liberal professions in view of the

To : Directors, All Subcommissions.

1. Final arrangements have now been made for the despatch to MILAN of representatives of Ministries of the Italian Government and of the Epuration Commission in order to arrange return to AGF of archives at present in deposit in the North of Italy. It is expected that these representatives will proceed to MILAN within the next week.

2. They will examine conditions locally and meet to determine priority and method of transfer. In the meantime, therefore, the Italian Government has been asked to allow no individual ministry to take separate action with regard to the return of its archives.

3. The Vice President, CA Section, has instructed that the information contained in paras. 1 and 2 be circulated to Subcommissions.

Subject: Archives of the Supreme Military Tribunal of
Fascist Republican pseudo Government.

The office of the Military Attorney General points out the necessity of its being, at the earliest possible moment, in possession of the archives of the Supreme Military Tribunal set up at BRESCIA by the Fascist Republican pseudo Government, and no less important, the archives of the office of the Attorney General of the said Tribunal.

The possession of these archives is necessary chiefly because the said Tribunal will have made judgement on appeals placed against sentences pronounced by the Military Tribunal before Sept 1943, and it will be necessary to examine the legal status of the individuals who have appealed.

All the sentences of the said Tribunal must be examined in order to establish, which of them can be considered effective, in the spirit of Article 5 of D.L.L. No 248 dated 28 Sept '44, and which should be considered effective.

We beg you, therefore, in respect of the above detailed, to put the case to the suitable Allied Authority, in order that this Ministry, in the event of a favourable decision, may provide for the necessary transport to Rome of the said archives.

By order.

Chief of Cabinet,

(Signed) Lombardi.

L'autovettura Bianchi S/S T.68326 di proprietà di questo Ministero fu a suo tempo trasportata al Nord dai fascisti per uso del Ministero della Giustizia dell'ex sedicente governo repubblicano fascista.

Secondo quanto riferito dal giudice ZINGALE di ritorno dalla missione a Cremona, risulta che detta macchina è attualmente requisita dal Comando A.M.G. di Cremona ed è a disposizione del Maggiore Philips.

Data l'attuale gravissima deficienza di automezzi di questo Ministero, si prega vivamente volere interessare il competente Comando Alleato perchè proceda alla derequisizione della macchina anzidetta.

Il Colonnello Hannaford, cui è stata segnalata la cosa dal giudice ZINGALE, riconoscendo la necessità di tale derequisizione, ha dichiarato che la richiesta deve essere avanzata presso il Comando Alleato di Roma.

TO : Legal Sub-Commission, Headquarters, A.C.

1. The First President of the Court of Appeal in Florence (who has always given me the utmost collaboration) has no means of transportation, for lack of 4 tyres for his car. This is a most unhappy situation which I desire to remedy as soon as possible. He is the senior Judge in TOSCANA Region, and while he is thus seriously handicapped, many junior officials seem to be well provided for. To date, the only journeys the President has been able to undertake have been performed in my car. To make his vehicle road-worthy, the First President requires:

4 complete tyres 600x16. These are the ordinary jeep variety.

2. Transportation Division Toscana are fully sympathetic but have no tyres of the required type/

3. Would you be kind enough to ask Commerce Sub-Commission to allot 4 complete tyres as above for the use of the First President? If this can be accomplished speedily a most tremendous brake on progress will be removed.

N.B. Please note last sentence of para 3 above:
It appears that the legal officials are not fully conversant with the precise law on the addition to the original rationing plan. It will be seen that they are not within the regulations as exist for certain doctors etc, but this is a special concession in order to help in clearing up the accumulation of legal work that has grown.

1. Various Courts in this area have recently notified an acute Shortage of paper and inability to supply themselves with the necessary legal forms.

2. The matter has been discussed with the Procuratore Generale of Ancona who states that the real trouble is the inadequacy of the monthly Stationary allowance to the Courts to meet prices as they now are: the Procuratore Generale is making a strong application to the Ministry to increase this allowance. A recommendation for revision of the allowance from you to the Ministry would I think, help matters materially.

1. Reference your letter without file number of 12 Jan 1945 addressed to Allied Commission, Public Works and Utilities Sub-Commission, your attention is drawn to the enclosed memoranda of this sub-commission.
2. As far as the Palace of Justice is concerned, no extra dispensation is required. You have already granted this (your letter to Brig. Lush, COE, Allied Commission of 2 Dec 44 refers). The only complaint was that this allocation of current be made effective.
3. As far as investigation magistrates are concerned, you are perhaps not aware of the position. There are pending over 1200 cases against Allied interests. The Regina Coeli and other jails are extremely congested. Recent arrests are not going to make matters easier. In order to prevent what may become an ugly situation, judges and magistrates have volunteered to work at night if the necessary light could be provided.
4. For reasons of which you are no doubt aware, most judicial officials cannot work at the Palace of Justice after six. The Tribunale Militare and the Procura Generale Militare are in the same position.
5. This sub-commission has been directed by the VP, Civil Affairs Section, Allied Commission, to request you to be good enough to reconsider this matter, even if the original figure of 25 had to be reduced.

PROMEMORIA PER LA SOTTOCOMMISSIONE LEGALE

(28A)

Questo Ministero è a conoscenza che presso il Power Allocation Committee - G.4 - (Piazza Venezia) è allo studio un piano di erogazione supplementare di corrente elettrica (raddoppiamento della razione comune) per gli avvocati, medici, ingegneri e in genere per coloro che esercitando una libera professione sono costretti a lavorare a domicilio.

Poichè in proposito nulla è stato progettato per i magistrati, si fa presente a questa Sottocommissione l'opportunità di intervenire energicamente presso l'ufficio alleato anzidetto affinché anche i magistrati siano inclusi nel beneficio.

Si osserva in proposito che benchè i magistrati siano pubblici impiegati, tuttavia tutto il loro lavoro di preparazione e di studio si esercita necessariamente fuori dell'udienza e a domicilio e sarebbe perlomeno strano che ricevessero un trattamento inferiore di quello riservato ai loro naturali collaboratori e cioè gli avvocati.

Inoltre, in considerazione del noto trattamento economico di tale categoria di funzionari, non appare davvero equo che costoro abbiano lo svantaggio rispetto agli altri impiegati, di ricorrere nell'interesse del servizio, a mezzi succedanei di illuminazione incerti e costosissimi, in modo tale da falciarne ulteriormente la loro già misera retribuzione.

Si rileva infine che si tratta di poche centinaia di funzionari e che perciò tale inclusione non dovrebbe rinviare troppo gravosa in confronto alle varie migliaia di persone che verrebbero a beneficiare del supplemento di corrente elettrica.

La Società Romana di elettricità alla quale ^{per la sua rete} questo Ministero si è rivolto ha dichiarato che attualmente è possibile solo richie-

dere caso per caso all'ufficio alleato anzidetto di essere compresi nell'elenco in parola.

Si richiede invece che tale possibilità incerta e lasciata all'iniziativa individuale sia sostituito con un accordo che riguardi tutta la categoria.

SUBJECT : Prostitution at Bari.

TO : Regional Commissioner, Southern Region
(Attn. Regional Legal Officer).

1. The recommendation which is put forward in your R/1280 of 13 December 1944, that the AMG courts in Bari be authorized to try cases under Arts. 191 and 205 of the Law of Public Security 1931, has been carefully considered.

2. It is felt, however, that this course cannot properly be adopted.

3. In the first place it is not considered that it would be in accordance with the Restoration terms to take over the trial of such cases from the Italian courts in present conditions.

4. Secondly, it is not a practical policy to reduce VD by legal proceedings against the prostitutes concerned. Any such reduction must depend upon unit discipline.

5. The whole question, including particularly the acquittals of SPERANZA Francesco is being raised with the Minister of Justice. It is clear from your letter that the problem is a local one in Bari and he is being asked to stress this point in any action he takes.

6. The question of arrests before trial under D.L.L. No. 194 has been frequently raised by L. G. Bari, but as you are aware this decree was passed on the specific request of AC in order to deal with the problem of overcrowding in gaols. It is felt that even in Bari and certainly in other parts of Italy this problem will recur if the provisions of the decree are changed.

My dear

I wish to solicit your cooperation in a matter which is of direct interest to the work of the Legal Sub-Commission.

The Italian Institute for Legislative Studies has published for many years a periodical of international reputation the importance of which at the present time lies in articles undertaking an analysis of the new Italian legislation (some of which enacted at the initiative of the Allied Commission) and interpreting the Anglo-American current legal thought.

The continuation of this review is now in abeyance as the paper supply of the Institute stored with the Cartiere Milian - Fabriano (Stabilimento di PIACENZA, Macerata Province, has been reported blocked by the 8th Army HQ of Ancona, office, at the request of an American Army Unit and probably transported to Naples.

I should appreciate your assistance in obtaining the release of the paper stock and it would save a great deal of time if the release could be procured without reference to higher authority, or alternatively *if they* supply ~~them~~ with paper from another source.

I am with many thanks

OGGETTO : Istituto italiano per gli studi legislativi.

Questo Ministero è a conoscenza che le autorità militari alleate (Comando dell'VIII Armata in Ancona - Ufficio Q, su richiesta di un gruppo militare di Napoli dell'Esercito Americano) in data 22-23 novembre hanno richiesto un notevole quantitativo di carta da stampa, tipo fino, giacente nei depositi delle Cartiere Miliani-Fabriano (Stabilimento di Pioraco) di proprietà dell'Istituto Italiano di Studi Legislativi. La carta in questione si ritiene che sia stata trasportata a Napoli.

In proposito si osserva che l'Istituto anzidetto che è alle dipendenze di questo Ministero è attualmente l'unico del genere che con le sue otto riviste tiene al corrente la classe forense e giudiziaria dei problemi giuridici che quotidianamente si pongono, dato che le altre riviste giurisprudenziali sono tuttora sospese. Inoltre a tale Istituto è stato ora affidato lo studio delle riforme dei codici.

Data l'importanza di questi compiti si rende necessario che l'Istituto in parola possa funzionare regolarmente, mentre l'avvenuta requisizione della carta minaccia addirittura di paralizzarne l'attività.

Non si tratta infatti soltanto di un ingente danno economico poichè il quantitativo di carta di Fabriano era già stato destinato alla stampa delle riviste e delle relazioni dei vari comitati per la riforma dei codici. D'altra parte è da tenere presente che i contratti fatti dall'Istituto con le varie tipografie recano la clausola della fornitura della carta da parte dell'Istituto stesso mentre non è possibile trovare altrove il materiale necessario. La situazione è aggravata dalla circostanza che molti lavori sono stati già composti dalle tipografie e queste hanno bisogno di scomporre il materiale per

.../...

provvedere ad altri lavori e ciò non possono fare prima della relativa stampa.

Per quanto sopra esposto si richiede che codesto Ufficio ordini la derequisizione della carta e la sua restituzione all'Istituto proprietario affinché questo possa essere posto in grado di funzionare nell'interesse di questo Ministero.

Si prega vivamente la Sottocommissione Legale cui la presente è diretta per conoscenza di dare la maggiore assistenza alla presente richiesta, specificando direttamente al Comando competente dell'VIII Armata le gravi ragioni che rendono necessario la derequisizione stessa.

NUMBER

34)

APPLICATIONS FOR ELECTRICITY, ROME

1. Applications for electric current, exemptions from the electricity rationing scheme, or additional current, are constantly being received at this HQ from applicants in Rome. Rome Electricity Committee also receive numerous similar applications, some of which claim to be in connection with work for the Allies, and which have to be referred back to the appropriate Sub-Commission of AC for vetting, etc. Difficulty is also experienced in rating the applications as to their relative priority grading.

2. There is no doubt that more applications are received in this HQ in consequence of its location in Rome than would otherwise be the case.

3. In future, the only applications which will be considered by sections and Sub-Commissions of this HQ will be those from:

- (a) Government Departments
- (b) Central Administration Services

which are located in Rome and on which Sections or Sub-Commissions of AC will be the best informed to judge the merits of the application.

4. All such applications will be forwarded with recommendations to the Public Works & Utilities Sub-Commission for grading as to priority and onward transmission to the Rome Electricity Committee.

5. All other applications will be referred to the Lazio-Umbria Region HQ for action.

6. These instructions do not affect any other instructions.

SUBJECT : Italian Courts.

TO : Regional Commissioner (Attn: Regional Legal Officer),
LAZIO-UMBRIA Region.

1. Your very useful memo on the situation of Italian Courts in Rome has been received. It confirms a position which this sub-commission has endeavored to bring to the notice of higher authorities at repeated intervals. To date our efforts have failed lamentably.

2. However, ECLA has decided to take up the matter once more with renewed energy and it is hoped that our recommendations will be accepted and this unpleasant and dangerous situation dealt with satisfactorily.

1. Reference Folio 177 A, Per. 3.

2. It is apparent that the administration of Italian justice, particularly in Rome, is breaking down for the following, among other, reasons:

- a. The withdrawal of personnel, mainly high grade, from the courts for epuration purposes.
- b. The large numbers of low grade officials who are themselves epurated.
- c. The inadequate salaries paid. Note that the process servers are now on strike.
- d. The great increase in crime due to war conditions.
- e. The lack of transport.

3. This sub-commission has suggested to the Minister of Justice various ways of increasing the number of judicial personnel. So far this has produced no result.

4. It appears that, if it is the desire of AC, that Italian justice should continue to function with anything like reasonable effect, the following, among other steps, should be forced upon the Italian Government:

- a. An increase in the judicial personnel.
- b. Return to judicial work of officials now employed in epuration.
- c. A more reasonable policy in the epuration of low grade officials.

5. In order to achieve any increase in the judicial personnel and to secure satisfactory work on low grade officials, it is considered to be essential that the financial policy of the Allied Commission recognize the necessity of the salaries of at least the low grade officials being brought into line with present living conditions.

1. The Ministry of Justice points out in a letter addressed to this sub-commission (copy of which is enclosed) that the offices and Courts taken over by the Allied authorities in the Palace of Justice ⁱⁿ excessively and seriously interfere with the administration of justice.

2. Could this matter be given due attention and an effort be made to come to an agreement with the Procuratore Generale, as suggested by the Minister.

SUBJECT : Electric light in the Palace of Justice.

TO : HQ R.A.A.C.

1. The recent disturbances at the Regina Coeli prison are to a large extent due to the delay in bringing to trial the considerable number of persons arrested and detained in the jail.

2. The Italian judicial authorities correctly point out that the preparation of cases for trial involves the production of many written documents and reports. The judges are prepared to work until at least 2100 hrs on the production of these documents and reports, provided that they are supplied with electric light. This would have the effect of enabling them to sit in court during the afternoon and would materially shorten the delays in bringing cases to trial.

3. It is therefore officially requested that electric light be supplied to all offices in the Palace of Justice from 1600 hrs to 2100 hrs daily, except Sundays.

1. Capt. Levy, this Sub-Commission, has conferred with Majors Parker and Rorimer in the matter of procurement of food supplies for Ministry of Justice.

2. The Chief of Cabinet of said Ministry has submitted proposed plan for cooperative messing facilities, copy of which is herewith enclosed.

3. The seriousness of the present plight of the officials of the Ministry cannot be overemphasized and is becoming worse every day. Many of the magistrates have sold their furniture in order to buy food while others stand in line for hours to eat in soup kitchens. These officials, their assistants and employees cannot adequately perform their duties. The failure of the Ministry to properly perform not only reflects unfavourably upon the Allied Control Commission but adds considerably to its burdens.

As the SMTRAJ declared itself unable to supply food stuffs the following is suggested in order to provide victuals for the ministerial mess:

- (1) This Ministry requests that permits be issued to their own agents whose names will be given to the AGC authorizing them to proceed with care the particulars of which will also be given, to places producing food in order to purchase the necessary food supplies and deliver them to the Ministry.
- (2) As this Ministerial mess could be subject to regular rationing control the Ministry shall vouch for the proper destination of the supplies for the mess and for the limitation to the minimum of the consumption.
- (3) As regards the rationed commodities the allowed quantities would be deducted proportionally from the rations allotted by the rationing coupons - a practice followed in all plant messes or restaurants.
- (4) The absolute urgency to take the necessary steps is stressed.

Al COMMISSARIO DELLA SE.PR.AL.

e per conoscenza:

— Alla COMMISSIONE ALLEATA DI CONTROLLO
Sottocommissione LegaleAl COMANDO MILITARE ALLEATO
presso la Se.Pr.Al.R O M A

In relazione alla precedente corrispondenza ed a quanto venne verbalmente esposto dal giudice dott. Elia Mario, addetto a questo Gabinetto, si comunica quanto segue:

1°) D'ordine della Presidenza del Consiglio dei Ministri e di accordo con l'A.C.C. i funzionari a Salerno erano ammessi a consumare i pasti presso una Mensa Ministeriale.

2°) Venuti gli uffici a Roma, ai funzionari non è stato possibile di trasferire la famiglia, sia per difetto di mezzi di locomozione, sia per mancanza di alloggi. D'altra parte a Roma le distanze, la deficienza di mezzi di trasporto, il costo elevato dei pasti in trattoria, la mancanza di carbone, di sale, di pasta, di grassi, di generi indispensabili per la vita, che non si trovano sul mercato legale e che (per motivi giuridici ed economici) non si possono acquistare alla "borsa nera" rendono insostenibile la permanenza e la vita dei funzionari, ai quali, in conseguenza del ritorno in sede del Governo, è stata tolta l'indennità di missione.

3°) Con telegramma n. 10265 del 13 luglio u.s. la Presidenza del Consiglio ha disposto che si provveda a costituire una Mensa Ministeriale, alla quale, come fu chiarito

.../...

con nota 10459 del 27 luglio u.s. della stessa Presidenza, dovranno partecipare i funzionari venuti da Salerno ed inoltre quelli di Roma che non abbiano famiglia o che comunque versino in condizioni di più grave bisogno.

4°) In esecuzione dell'ordine della Presidenza, la Se.Pr.Al. provvede nel luglio scorso ad una assegnazione straordinaria da tempo esaurita. Presentemente i funzionari di questo Ministero stanno provvisoriamente consumando, presso il carcere di Regina Coeli, una minestra di legumi secchi o di riso, una volta al giorno, e gravano sulle scarse risorse carcerarie. Tale situazione non può durare, perchè la Direzione delle carceri non può seguitare a somministrare i generi che non ha, mentre è indispensabile per vivere che i funzionari possano consumare un pasto completo, due volte al giorno. Nè è possibile andare avanti con assegnazioni provvisorie, mentre è invece indispensabile che si riconosca l'esistenza della Mensa e la si fornisca continuamente, come si fa con qualunque mensa aziendale.

5°) Pare che parecchi Ministeri (Agricoltura, Marina, Guerra, Esteri, Lavori Pubblici, Finanze, Interni) abbiano potuto istituire mense che sono in perfetto funzionamento, il più delle volte poggiando su Mense militari o di polizia, ciò che non può fare il Ministero della Giustizia, da cui non dipendono organismi militari.

6°) La Magistratura, che è garanzia delle libertà civili, che costituisce uno dei tre poteri statali, è composta da funzionari di grado elevato, che esercita una delicatissima missione, ha bisogno di essere considerata con particolare cura, e certamente non può essere posposta ad altre Amministrazioni dello Stato.

Si prega pertanto voler provvedere a riconoscere la esistenza della Mensa in oggetto, effettuando normali e continuative assegnazioni di generi.

Si prega inoltre, per i generi che la Se.Pr.Al. non riesca a fornire, di consentire che essi vengano acquistati direttamente dai luoghi di provenienza a cura di questo Ministero, all'uopo rilasciando alle persone da esso di volta in volta indicate, i necessari permessi per il trasporto da effettuarsi con mezzi privati di essi fornitori, a meno che la Se.Pr.Al. non voglia fornire i mezzi.

Si resta in attesa di conoscere le determinazioni di V.S.Ill.ma, facendo presente l'assoluta urgenza di una definitiva soluzione.

ROME

SUBJECT : Mess for Magistrates.

A necessity to establish a mess for magistrates similar to messes of Armed Forces or of important undertakings was pointed out to the above sub-Commission with view to alleviate the most serious conditions of living of officials belonging to the judicial category. The present difficult situation of food supply and monetary inflation reflects upon the conditions of officials depending upon fixed income and thus condemned to absorb the full impact of the fluctuations of the market without any possibility of passing it on. This situation gives rise to a particular concern in respect to judicial officials who perform a most delicate function requiring an absolute clarity of spirit. The Legal Sub-Commission took notice of the above considerations of ethical, economic, and political character which render the establishment of a mess for judicial officials imperative; this Sub-Commission answered the requests of the Ministry by pointing out that this question was tied up with the general problem of establishing messes for all State Administrations and proposed to contact the Presidency of the Council on this Subject.

This Ministry then intervened at the Presidency of the Council requesting a supply of food, crockery and silverware, of furniture as well as of funds for the setting up and maintenance of the mess. I have the honour to inform this Sub-Commission of the above and wish to add that the situation of magistrates deserves particular attention in view of the delicate character and importance of judicial functions and of the functions of the Ministerial officials related to the first mentioned functions.

At present I witness the spectacle of judicial officials proceeding to judicial prison to take there once a day a dried vegetable soup - a picture of poverty and of undeserved humiliation beyond description.

Such spectacle offends justice and civilization.

For the above reasons it is requested that this Sub-Commission please hasten the solution of the problem of supplying the commodities necessary for establishment and functioning of the mess.

SUBJECT : Mess for Magistrates.

A necessity to establish a mess for magistrates similar to messes of Armed Forces or of important undertakings was pointed out to the above sub-Commission with view to alleviate the most serious conditions of living of officials belonging to the judicial category. The present difficult situation of food supply and monetary inflation reflects upon the conditions of officials depending upon fixed income and thus condemned to absorb the full impact of the fluctuations of the market without any possibility of passing it on. This situation gives rise to a particular concern in respect to judicial officials who perform a most delicate function requiring an absolute clarity of spirit. The Legal Sub-Commission took notice of the above considerations of ethical, economic, and political character which render the establishment of a mess for judicial officials imperative; this Sub-Commission answered the requests of the Ministry by pointing out that this question was tied up with the general problem of establishing messes for all State Administrations and proposed to contact the Presidency of the Council on this Subject.

This Ministry then intervened at the Presidency of the Council requesting a supply of food, crockery and silverware, of furniture as well as of funds for the setting up and maintenance of the mess. I have the honour to inform this Sub-Commission of the above and wish to add that the situation of magistrates deserves particular attention in view of the delicate character and importance of judicial functions and of the functions of the Ministerial officials related to the first mentioned functions.

At present I witness the spectacle of judicial officials proceeding to judicial prison to take there once a day a dried vegetable soup- a picture of poverty and of undeserved humiliation beyond description.

Such spectacle offends justice and civilization.

For the above reasons it is requested that this Sub-Commission please hasten the solution of the problem of supplying the commodities necessary for establishment and functioning of the mess.

Il presente momento di difficoltà alimentari e di svalutazione monetaria, si ripercuote, infatti, sulla situazione dei funzionari, ancorati al reddito fisso e condannati quindi a subire, senza possibilità di trasferirlo, l'urto delle variazioni del mercato. Tale situazione è particolarmente preoccupante per quanto attiene ai Magistrati, che esercitano una funzione delicatissima, la quale esige assoluta serenità di spirito.

Di tali considerazioni etiche, economiche e politiche, che rendono indispensabile l'istituzione della mensa Magistrati, mostrava di prendere atto cotesta Sottocommissione, la quale, alla richiesta di questo Ministero, rispondeva che la questione è legata all'altra, di carattere generale, di istituzione di mense per tutte le Amministrazioni statali, e si riservava trattarla con la Presidenza del Consiglio.

A seguito di ciò questo Ministero ha interpellato la Presidenza invocando che si provveda ad assegnazione di generi, di stoviglie, di suppellettili, nonché di un fondo di allestimento e gestione della mensa.

Di tanto si ha l'onore d'informare cotesta Sottocommissione, fa-

cendo, peraltro, presente, che la situazione dei Magistrati va considerata particolarmente, attesa appunto la particolare delicatezza ed importanza dell'attività giudiziaria e della attività ministeriale che ad essa concorre.

Attualmente si assiste allo spettacolo di magistrati che si recano al carcere giudiziario per consumare, una volta al giorno, una minestra di legumi secchi, in condizioni di disagio e di umiliazione indicibile ed immeritata.

Tale spettacolo offende la giustizia e la civiltà.

Si insiste quindi perchè cotesta Sottocommissione voglia compiacersi di risolvere con l'urgenza del caso il problema delle assegni occorrenti all'istituzione ed al funzionamento delle mense.

Subject: Ministerial Mess.

As your Sub-Commission is aware, the food needs of the ministerial officials at Salerno, and the impossibility of the individuals to procure foodstuffs, made it advisable to constitute a general mess, which was able to function through the great assistance given by the Allies, who furnished the much needed food rations.

With the transfer of the Government to Rome, the mess ceased to function, just at the time when the food difficulties of the office personnel became more acute. Indeed, the employees' mission indemnity, which they enjoyed at Salerno, was suspended, and it is a known fact that the lack of foodstuffs in Rome has provoked an enormous increase in prices, acknowledged by the price lists of A.M.G., so that it is completely impossible for the employees of this Ministry to get indispensable meals. Add to this the almost total absence of 4 transportation facilities, which in view of the office hour schedules, considerably aggravate the situation, since it prevents the personnel from going home to eat and to stand in long queues at food stores,

function, just at one point. Indeed, the employees' mission indemnity, personnel became more acute. Indeed, the employees' mission indemnity, which they enjoyed at Salerno, was suspended, and it is a known fact that the lack of foodstuffs in Rome has provoked an enormous increase in prices, acknowledged by the price lists of A.M.G., so that it is completely impossible for the employees of this Ministry to get indispensable meals. Add to this the almost total absence of transportation facilities, which in view of the office hour schedules, considerably aggravate the situation, since it prevents the personnel from going home to eat and to stand in long queues at food stores, while restaurant fares are too expensive for their meager salaries.

To meet the situation the Presidency of the Council of Ministers, through memorandum No. 10265/1.3.1., dated 13 July 1944, directed the individual Ministries to take steps so that at least the Salerno employees could get meals at a restaurant, at prices to be established, advising the Se.Pr.Al., in order to obtain the necessary food rations.

Since all the restaurants approached by this Ministry have refused to cooperate, the Ministry devised the expedient of feeding its Magistrates at the Regina Coeli prisons, utilizing for the purpose the premises used for the messing of Prison agents.

Furthermore, the Prison Authorities have informed us that they

will be unable to continue serving meals if rations are not assigned.

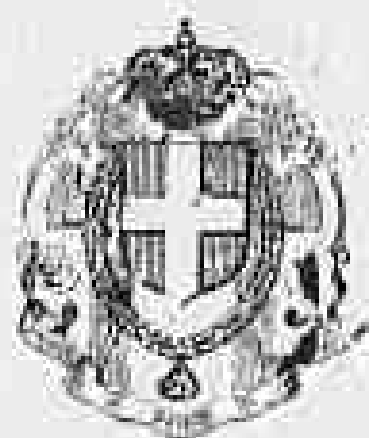

Therefore, this Ministry makes an appeal for authorization to set up the Ministerial mess, with relative assignment of the food needed.

Such a mess should be considered in the same light as Military messes, for ration purposes, keeping in mind that the work of Government employees aids war aims.

We call to the attention of your Sub-Commission the urgency of the matter set forth and we await the courtesy of an early reply.

Come è noto a codesta Sottocommissione, le necessità dell'alimentazione dei funzionari ministeriali a Salerno e l'impossibilità di provvedervi con attività individuale, consigliarono la costituzione di una Mensa collettiva, che potette funzionare mercè l'aiuto valido degli Alleati, i quali provvidero alle indispensabili assegnazioni di viveri.

Col trasferimento del Governo a Roma, la Mensa è cessata, proprio quando più acute ed impressionanti si manifestano le difficoltà alimentari del personale degli uffici. Invero ai funzionari è stata sospesa l'indennità di missione che godevano a Salerno, ed è noto che la rarefazione dei generi alimentari a Roma ha provocato un enorme rialzo di prezzi, riconosciuto dagli stessi listini dell'A.M.G., talchè riesce addirittura impossibile ai dipendenti di questo Ministero di

.../...?

procurarsi i pasti indispensabili. A ciò si aggiunga la quasi totale assenza dei mezzi di trasporto che, congiunta alle necessità d'orario di ufficio, aggrava considerevolmente la situazione, perchè pone i funzionari in difficoltà per recarsi a casa a consumare i pasti e per fare le lunghe code ai negozi onde acquistare i generi, mentre in trattoria la spesa è troppo elevata in confronto ai magri stipendi.

Per venire incontro a tali esigenze la Presidenza del Consiglio dei Ministri con nota n. 10265/1.3.1 del 13 luglio u.s. invitava i singoli Ministeri a provvedere a che fossero assicurati almeno ai funzionari venuti da Salerno i pasti in una trattoria, a prezzo da convenirsi, dando avviso alla Se.Pr.Al. onde ottenere le opportune assegnazioni di generi.

Questo Ministero, poichè le molte trattorie interpellate hanno tutte rifiutato di provvedere, ha dovuto ricorrere all'espedito di far consumare i loro pasti ai propri Magistrati nel Carcere di Regina Coeli, all'uopo utilizzando il locale adibito a mensa degli agenti carcerari. Peraltro, la Direzione del Carcere ha fatto presente che non può continuare a somministrare i viveri occorrenti, se essi non le verranno assegnati.

Pertanto questo Ministero rivolge viva preghiera perchè venga autorizzata la costituzione della Mensa
