1. AFHQ Administrative Memorandum Number 41, 1944 is rescinded.
2. The Allied Force Local Resources (Italian) Board and the various Committees established by it are dissolved.
3. Matters, which formerly required the decision of the Board, will be referred, for final action, through G-5 Section to the Office of the CAO which will be responsible for the necessary Allied and/or Italian coordination.

II - LOCAL RESOURCES IN ITALY, MAINLAND AND ISLANDS

1. The following instructions are hereby rescinded:

Section III, AFHQ Administrative Memorandum No. 12, 1944
 Section III, AFHQ Administrative Memorandum No. 16, 1944
 AFHQ Administrative Memorandum No. 52, 1944
 Section I, AFHQ Administrative Memorandum No. 2, 1945
 Section I, AFHQ Administrative Memorandum No. 13, 1945
 Section II, AFHQ Administrative Memorandum No. 24, 1945
 Section I, AFHQ Administrative Memorandum No. 29, 1945
 Section II, AFHQ Administrative Memorandum No. 32, 1945

2. Consequent upon the termination of the activities of the Allied Force Local Resources (Italian) Board the procedures outlined herein will be adopted in obtaining local commodities within Italian territory.

3. The following definitions as applied to commodities/materials required by the procurement services and agencies of the Allied Forces will be adopted in all communications regarding local resources.

a. Controlled Items are those items which are not available to the civilian population until the Allied Forces needs have been satisfied. **62**

b. Restricted Items are those which can only be procured by the Allied Forces after the essential needs of the civilian population have been met.

Schedules of controlled and restricted items are attached at Appendix "A".

~~RESTRICTED~~

AFHQ Adm Memo # 54 (cont'd).

a. Procedure

Any known stocks of controlled items will be made available by the appropriate Ministry of the Italian Government to meet the needs of US/Br Military Services.

Procuring agencies desirous of obtaining supplies of restricted items in any portion of Italy except VENEZIA GIULIA will approach the appropriate Ministry of the Italian Government to ascertain whether surpluses exist above essential civilian needs. If in the opinion of the Italian Authorities there are no surpluses no purchase will be made without prior reference to the CAO's Office as set forth in paragraph 3, Section I. In VENEZIA GIULIA, all transactions relative to the procurement of local resources will be handled by the military procuring agencies directly with the proper AMG representatives in that area. Detailed procedure in respect of locally produced foodstuffs is given in paragraph 5 below.

5. Allocation of Locally Produced Foodstuffs

a. In principle, locally produced foods which are readily stored or transportable, and for which transportation can be secured, will not be made available for allocation to the Allied Forces. Specifically, the following are not so available:

Dried Vegetables
Dried Fruits

b. Priorities and Procedure

(1) Hospital Requirements. The certified minimum requirements for hospitals for patients only, both British and American, will be met, and nothing in this instruction is to be read as limiting the necessary minimum supply of locally produced products to hospitals.

(2) Ship's Crews, Italian Armed Forces and Midshift Meal Requirements.

The requirements of foodstuffs for:

(a) The victualling of the Allied Navies which are operating from Italian ports and are unable to obtain their requirements elsewhere.

(b) The provision of the locally produced element of the mid-shift meal for Italian civilian employees of the Allied Forces, will be made available as a second priority after meeting the needs of hospitals (see sub-paragraph (1) above). S & T, GHQ GFE, and QM, PBS, (both incorporating the needs of such other Allied services as they supply) will notify the Ministero Alimentazione of the Italian Government by the 10th of each month of their intended purchase during the following month of foodstuffs to meet the priority requirements as authorized in sub-paragraphs (1) and (2) above, stating quantities and areas of requirement.

Q 8 6 9

R E S T R I C T E D

AFHQ Adm Memo # 5A (cont'd).

- (3) Normal Maintenance. The Ministero Alimentazione will forward to S & T, GHQ CMF, and QM, PBS, by the 20th of each month a declaration of the anticipated surpluses of foodstuffs above the essential needs of the civilian population, after deduction of the amounts notified in sub-paragraphs (1) and (2) above. The Ministero Alimentazione will not withhold from declared surpluses any commodities for use outside the area in which they are produced unless it has been established that they can be delivered in good condition in the areas in which they are required. Such surpluses may be purchased by Allied procuring agencies to meet the normal maintenance requirements of the Allied Forces. Allied Naval shore personnel, MWT and WSA vessels, and Allied Naval ships which can obtain their requirements elsewhere, will be considered in the same priority as the Allied Armies. S&T, GHQ CMF, and QM, PBS, will agree the proportions which each will obtain, taking into account the needs of other consumers (i.e. RN, USN, EFTI, etc.) and will notify the Ministero Alimentazione of the allocations so made. Any case of dispute on allocations will be submitted to the office of the CAO, AFHQ for settlement.

c. Spot Surpluses

Surpluses additional to the declared anticipated surpluses referred to in paragraph b(3) above may arise in some localities. These will be known as "spot" surpluses. SEPAL'S (Sezione Provinciale Alimentazione) in Italian Government Territory and the Regional Supply Officers in AMG/AG Territory are responsible for ascertaining whether spot surpluses are required or not for civilian consumption in other areas and can be moved. If they are not required or cannot be moved, Allied Purchasing Agencies may procure such surpluses without reference to the Ministero Alimentazione.

d. Exchanges

When the surplus of green or root vegetables above civilian needs is inadequate to meet Allied Force requirements, Allied Services may offer the equivalent food value of preserved vegetables to the Ministero Alimentazione in substitution for such green and root vegetables as they require to be made available.

6. Italian Government Controlled Materials

The Italian Government is exercising a control over certain materials which do not necessarily appear on the "Controlled" or "Restricted" list of AFHQ.

A list of all materials controlled by the Italian Government is given at Appendix "B".

61

It is not the intention that the control by the Italian Government of the items enumerated should in any way prevent duly authorized agents of the Allied Forces from obtaining supplies as required.

To assist the Italian Government in its task and to avoid delay, all purchasing orders or similar documents of authority issued by Services in respect of any of the items listed at Appendix "B" must be endorsed prior to presentation to the person or firm holding the item concerned, by the Italian Provincial Offices of Industry and Commerce (Uffici Provinciali dell'Industria e Commercio).

R E S T R I C T E D

AFHQ Adm Memo # 54 (cont'd).

7. Italian Civil Import Programme

No items which are included in the Italian Import Programme or articles manufactured from items included in the Import Programme will be procured without prior reference to the CAO as set forth in paragraph 3, Section I.

III- ELECTRIC POWER

1. The control of electric power in Central and Southern Italy will be returned to the Italian Government by 30 November 1945 subject to priority of military requirements.

2. Interested sections of this headquarters, when necessary, initially will deal directly with the proper agency of the Italian Government on controversial matters relating to electric power. Those sections may, if deemed necessary, convene such committees as may be desired to consider electric power matters. Matters having Allied implications will be submitted, for final action, to the Office of the CAO which will be responsible for the necessary Allied and/or Italian coordination.

3. The following HQs and Services will be represented on any central committee which may be established by the Italian Government to coordinate the distribution and utilization of electric power:

PBS (representing both PBS and MTOUSA)
 HQ XIII Corps
 HQ 3 District
 HQ 2 District
 HQ Rome Area Allied Command
 HQ Allied Commission
 Director of Works GHQ CMF
 Director of Military Railway Service

IV - INDUSTRIAL COORDINATION

1. Controversial matters formerly handled by the Industrial Coordination Committee of AFHQ(I) Board will be referred, for final action, through the C-5 Section to the Office of the CAO which will be responsible for the necessary Allied and/or Italian coordination.

2. To effect the procedure outlined in paragraph 1 immediately above, subparagraph c, d and e of paragraph 4 of AFHQ Administrative Memorandum Number 14, 1945 are rescinded, and the following substituted therefor:

"c. Allied Commission then may submit the matter, for final action, to the Office of the CAO which will be responsible for the necessary Allied and/or Italian coordination."

3. AFHQ Administrative Memorandum Number 14, 1945 is amended as follows:

So much of paragraph 2, as reads, "Section III AFHQ Administrative Memorandum Number 16, 1944", is amended to read, "Section II of AFHQ Administrative Memorandum Number 54, 1945".

0 8 6 7

R E S T R I C T E D

AFHQ Adm Memo # 54 (cont'd).

So much of paragraph 5b, AFHQ Administrative Memorandum Number 14, 1945 as reads, "Surplus materials, as declared under the provisions of Section III, AFHQ Administrative Memorandum Number 46, 1944, are subject to allocation as set forth in that Memorandum", is amended to read, "Controlled or restricted materials as specified in Section II of AFHQ Administrative Memorandum Number 54, 1945 are subject to allocation as set forth therein".

V -- ALLIED FORCE LOCAL RESOURCES SECTION

1. The Allied Force Local Resources Section will be inactivated by 31 December 1945.
2. Upon inactivation of AFLRS, Section II of AFHQ Administrative Memorandum Number 26, 1945 is rescinded.
3. Matters formerly referred to the AFLRS will be taken up initially with that section of AFHQ, GHQ CMF or MTOUSA having primary interest therein. Conditions of Employment, Wage Scales, Bonuses and Allowances, for civilians
employed by the Allied Forces in Italy, Sicily and Sardinia III -- ACCOMMODATION FOR ITALIAN ARMED FORCES

1. The bulk of the Italian Army is shortly to be returned to the control of the Italian Government, when it will become responsible for the preservation of law and order over the mainland of ITALY (with certain exceptions) and the islands of SICILY and SARDINIA. In these circumstances it is logical that the Italian War Ministry should be able to locate Italian units from an operational point of view.

2. a. Formation, District, and US major commands will therefore insure that Italian Commanders are given assistance in finding suitable accommodation in the areas required for their troops.

b. Urgent consideration will also be given to releasing to the Italian authorities barracks and other Italian military accommodation which may be in Allied occupation.

c. Any cases where release of accommodation to the Italian Army would be detrimental to the living conditions, morale, or administration of the Allied forces, will be referred for the personal decision of the Commanders of XIII Corps, 2 District, 3 District, RAAC, or US major command, as applicable, for a decision.

d. In all other cases barracks or Italian military accommodation required by the Italian Armed Forces will be returned to the Italian authorities as rapidly as possible.

II - CONDITIONS OF EMPLOYMENT, WAGE SCALES, BONUSES AND ALLOWANCES, FOR CIVILIANS EMPLOYED BY THE ALLIED FORCES IN ITALY, SICILY AND SARDINIA

1. Paragraph 5c, AFHQ Administrative Memorandum Number 34, 1945, is rescinded and the following substituted therefor with effect from 15 October 1945

"5. c. Overtime - Overtime may be paid at the rate of time-and-one-half for all completed hours worked over forty-eight (48) in any normal pay week or for all completed hours in excess of eight (8) per day where a normal pay week cannot be established. A normal pay week is a pay week during which hours amounting to forty-eight (48) in total are scheduled over a fixed number of days. The computation of overtime in weeks other than normal shall be done on a daily basis of

eight (8) hours per day. Excepted from these conditions are those employees specifically designated in the Appendices as being ineligible for overtime pay. Overtime rates may also be paid in any locality for the seventh consecutive day of working, whether Sunday or a week day. Overtime should be discouraged in the interests of efficiency and the employment of surplus labor."

2. Paragraph 2, AFHQ Administrative Memorandum Number 37, 1945, is amended by the deletion of paragraphs 6b(2) and 6b(3) and substituting the following therefor, with effect from 15 October 1945:

"6. b. (2) The maximum permissible bonus which may be paid is determined by the basic wage applicable to the individual. For this purpose, the basic wage is the remuneration due to an individual upon completion of:

For Monthly Wage Group

30 days work for hotel, mess and club employees.

26 days for other than hotel, mess and club employees.

For Daily Wage Group

either 48 hours within any normal work week

or 8 hours on any one day.

(3) The proportion of bonus payable varies directly with the proportion of basic wage due (as defined in (2) above), subject to the proviso that Cost-of-Living Bonus will not be paid in respect of any day on which no work is performed.

(4) The Cost-of-Living Bonus is not part of the basic wage and will be excluded, for example, from the computations and adjustments for overtime pay and female differential."

In view, however, of the inevitable curtailment of signal facilities in the theater, such requests must be kept to an absolute minimum.

4. WD Vehicles

I--- USE OF GERMAN POW AND SURRENDERED PERSONNEL

1. It is the policy of this headquarters to make full use of German POW and Surrendered Personnel. At the same time, due consideration of the effect of such labor on Italian labor and economy will be given, provided it does not impede the progress of the redeployment program. To insure uniformity of procedure and policy the following will govern:

a. Presently hired civilians will not normally be discharged in order to permit replacement by POW/SF. This is not intended to prevent replacement with POW/SF in the case of employees who are discharged for cause or who leave employment voluntarily.

b. Italian Cooperator Service Units will be replaced by POW/SP labor, except that the loss of skilled, key personnel caused by the withdrawal or demobilization of Italian Cooperator Service Units may, in so far as is practicable, be avoided by the hiring of such individuals as civilian employees.

c. Where an Italian business, factory or facility is presently operating or may in the future be operated by or for the Allies the civilian employees of such concern will not in general be replaced by POW/SP. Augmentation of labor may be by civilian labor or POW/SP as considered preferable.

c. POW/SPI's and civilian labor will not be intermingled in work gangs. POW/SPI work gangs may, however, work on the same job with civilian laborers provided it is practicable to avoid close contact. Individual POW/SPI's may work on administrative and char duties in offices provided avoidance of close contact with civilian employees is practicable.

o. On new projects, such as depots and rest areas, the use of POW/SF will be the general rule. Consideration will be given to the local civilian unemployment situation in all such cases. If such situation is acute, civilian labor should where practicable be employed at least on a supplementary basis, but the mere availability of local labor imposes no urgent obligation to hire.

3. When specific questions arise which are not covered by those instructions, the following generalities will be given consideration. Italian civilian labor has been of great assistance to the Allies. Faithful workers should not suffer by the introduction of free labor. The Allies are definitely concerned that there shall be no wide spread disturbances because of Italian unemployment. The adoption of a fair employment policy and consideration of the right of the individual will do much not only to inculcate a receptive attitude toward allied democratic institutions but also to introduce such policies into Italian labor relations.

POLICIES AND RIGHTS OF ALLIED FORCES IN ITALIAN GOVERNMENT TERRITORY

AFHQ Administrative Memorandum Number 57, 1944, is rescinded and the following substituted therefor:

1. General

a. It is the policy of the Allied Governments, as military exigencies permit and as the Italian Government is able to take on the responsibility, to hand back to its jurisdiction and administration territory formerly subject to Allied Military Government. In such territory Allied Military Government ceases on the hand-over and the Italian Government assumes jurisdiction and administration.

b. In handing back territory to the Italian Government, certain rights are reserved to the Allied Forces by agreement with the Italian Government. It is necessary that Allied troops in those areas should be aware of the most important of these rights and the manner in which they are to be exercised.

c. For the purposes mentioned herein the territory which may from time to time be included in that handed back to the Italian Government is termed Italian Government Territory. At the present time such territory comprises the Islands of Sicily and Sardinia and all provinces on the mainland south of the northern boundaries of the provinces of Viterbo, Rieti and Terni with the exception of the commune of Naples which is still under Allied Military Government.

2. Requisitioning - The Allied Forces have retained the power to requisition private and public property and services in Italian Government territory but it is emphasized that this must be exercised sparingly and only for reasons of genuine military necessity. This will be exercised through the Italian authorities. The usual formalities of requisitioning will be followed.

3. Process in Italian Courts - No members of the Allied Forces, Allied followers of such forces, or British or US Merchant Service will be subject to jurisdiction of Italian Courts.

4. Crimes against Allied Forces

a. In Italian Government territory crimes committed by Italian nationals, will normally be tried under Italian Law and in Italian courts.

b. The Allied Forces however, have reserved to themselves the right to hold Allied Military Courts in Italian Government Territory for the trial of Italian nationals who commit acts seriously hostile to the Allied Forces such as cases of espionage or sabotage and to punish them in accordance with the Italian penal code. The reservation of this right is not intended however to encourage the trial of Italian offenders by Allied Military Courts but is to enable them to deal with the most serious offences against Allied personnel or property which cannot effectively be dealt with by Italian Courts.

R E S T R I C T E D

AFHQ Administrative Memo #31 (Cont'd)

c. The procedure to be followed, if it is desired that an offence should be tried by an Allied Military Court, will be for the military authorities to give a full statement of the facts to Headquarters Allied Commission with a request that an Allied Military Government Court be convened to hear the charges. It will be the responsibility of Allied Commission to frame the charges and constitute the Court. It is emphasized that only in the most exceptional circumstances such as mentioned in paragraph 1(b) will any case in Italian Government Territory be referred to Allied Military Courts and then only on order of Allied Commission.

d. There is reserved to the Allied Forces the power to arrest any persons who are believed to have committed offences against Allied personnel or property. High ranking Italian officials and officers of the Italian Armed Forces should, however, only be arrested in collaboration with the appropriate Italian official (e.g. the Prefect or the Commanding Officer of the officer concerned).

e. Apart from cases mentioned in this paragraph and in paragraph 7 the Allied Forces have no power of arrest in Italian Government Territory.

5. Military Zones

a. The right is reserved by the Supreme Allied Commander, Mediterranean Theater to declare specific areas of Italian Government Territory to be Military Zones. By the issue of such a declaration, the exercise of the powers of Military Government in the Zone in question is assured by the Supreme Allied Commander, Mediterranean Theater. Should the situation in any area become such as to convince the District Commander that the establishment of Zones is necessary, he should, after consulting the Headquarters Allied Commission where possible, report accordingly to his headquarters, giving full reasons to justify his view.

b. The right is also reserved by the Supreme Allied Commander to have made available to the Allied Forces such facilities, utilities and installations as may be required by him or his agents for such dispositions, use or operation as may be determined.

6. Use of troops in aid of the Civil Power

In the event that the local Italian authorities ask for the assistance of Allied troops in quelling civil disturbances, the local commander will point out that the quelling of civilian riots or disturbances is a matter for the Italian authorities and he will refuse such assistance, unless he is of the opinion that it is necessary for the protection of Allied military interests. Furthermore, before rendering such assistance, the local commander will warn the local official requesting his assistance that the territory in question will be liable to be made forthwith an Allied Military Zone. If time permits, the local commander will consult his superior commander before giving assistance. In any event, if the decision is made to grant the assistance required, the first troops to be used will be such Italian troops as may be under command of District/Base Section Commanders. Allied Commanders will inform their superior Commander without delay of any requests made to them and of the action taken thereon.

7. Military and Civilian Internees. - The Allied Forces may continue to hold

R E S T R I C T E D

AFHQ Administrative Memo # 31 (Cont'd)

or require the Italian Government to hold in custody military or civilian internees in Italian Government territory. If the Allied Forces require to arrest any person for security or similar reasons such arrest should be carried out in collaboration with Italian officials unless, in any particular case, it is thought that a request to the Italian police to arrest a suspect would be ineffective. In all such cases Allied Force Headquarters will be notified as soon as possible after the arrest has taken place, and an information copy of such notification will be forwarded to Headquarters, Allied Commission.

8. Allied Commission Liaison Officers - Details of the disposition and functions of Headquarters Allied Commission Liaison Officers stationed in Italian Government Territory together with information for the use of Commanders concerning the Italian civil organization and the Italian officials who should be approached by them in their dealings with the Italians has been issued separately by AFHQ letter file AG 091.1/081 GEG-U, dated 29 March, 1945, subject: "Withdrawal of Allied Commission Personnel from Italian Government Territory".

ADMINISTRATIVE MEMORANDUM)

NUMBER 29)

27 April 1945

Local Resources Procedure in Army Areas I
Use of Port and Railway Premises and Materials III--- LOCAL RESOURCES PROCEDURE IN ARMY AREAS

1. Letter, Headquarters Allied Armies in Italy, above subject, dated 29 September 1944 is hereby rescinded.
2. The following considerations will govern in the procurement of local resources found in Army Areas:
 - a. Operational requirements of forward formations will have first call on all local resources lying within Army boundaries. In this connection attention is invited to AFHQ Administrative Memorandum Number 14, 1945, the provisions of which are not altered by this Memorandum.
 - b. Any balances remaining after the demands at (a) above have been satisfied will be made available to meet the requirements of the Allied Armed Forces and the civil administration.
 - c. Procurement of local resources will in all areas be restricted to the Service or Staff Sections normally responsible for their supply.
 - d. AMG/AC will be the sole authority for freezing stocks of commodities required by the Armed Forces.
 - e. Interchange of available resources between Armies will be arranged mutually.
3. In order to apply the considerations listed in paragraph 2 above the following instructions will be effective:
 - a. Operational requirements may be met to the limit of availability without reference to this headquarters.
 - b. Available balances of controlled or restricted items not required by Armies in Army Areas will be reported to AFLR Section, RAAC. Attention is invited to Section III, AFHQ Administrative Memorandum Number 46, 1944, which defines controlled and restricted items.
 - c. Services and Staff Sections of AFHQ/MTOUSA, including the Allied Navies and Air Forces wishing to investigate local resources in Army Areas will do so only after securing approval from the Army concerned; such approval to be specific as to the object of the investigation and the area to be investigated.
 - d. Services and Staff Sections of AFHQ/MTOUSA, including the Allied Navies and Air Forces, other than those under command of Armies, will only negotiate purchases of controlled and restricted resources in the execution of a release order issued by the AFLR Board.

R E S T R I C T E D

AFHQ Administrative Memo #29 (Cont'd)

e. The control of electric power is vested in AFHQ.

f. Foodstuffs are not considered as operational requirements of forward formations, as fresh fruits and vegetables are provided as necessary by the normal provisioning services. It is the responsibility of the procurement officers of the provisioning services in Army Areas to coordinate with local AMG/AC officials in the determination and purchase of surpluses. The effect of such coordination will be to eliminate any purchases which would result in depriving the local population of its food supply. Where conditions are such that no surpluses exist and it is imperative that fresh produce be purchased, authority to exchange preserved food for fresh produce will be requested from AFHQ/MTOUSA. In this connection attention is invited to Section III, AFHQ Administrative Memorandum Number 42, 1944.

III-- USE OF PORT AND RAILWAY PREMISES AND MATERIALS

1. AFHQ Advance Administrative Echelon, Administrative Instruction Number 15, above subject, dated 11 December 1943, is hereby rescinded.

2. It is of the utmost importance that the essential railways and ports of Italy be rehabilitated with a minimum of delay. In order to assist in this effort the following orders on the use of railway and port transportation premises and materials, and the materials of contractors engaged on work on railways and ports are effective forthwith.

3. All railway premises, including transit sheds, sidings, station buildings, and yards, and all that portion of a port which is specifically set aside for Transportation purposes by agreement of Naval and Military Authorities are Reserved Transportation Areas. No depots or installations will normally be set up within Reserved Transportation Areas, and no stores or materials will be stored in them, except those which are required for port or railway operation. This does not apply to special installations such as Bulk Petrol or Cold Storage Plants.

4. No equipment or materials of an essentially railway nature or especially designed for railway or port working will be acquired from reserved Transportation Areas (which, for the purpose of this paragraph, include private sidings and yards) by others than British Movements or US Transportation authorities controlling the area without application to such authorities. In case of such application the Movements or Transportation Branch of the staff will insure the proper coordination with the Director of Military Railways or with the Port Transportation Authorities, as the case requires.

5. General engineering stores or materials belonging to the Italian State Railways or to Port Authorities, which have been taken in hand on the effective date of this memorandum by the railways, the DMR, or Port Authorities in rear of Army boundaries, will be treated as in paragraph 4 above. In newly liberated territories the provisions of Section I, above and Section III, AFHQ Administrative Memorandum Number 46, 1944, apply to all other than equipment and materials of an essential railway nature or especially designed for port working.

6. As a general rule, port and railway buildings will not be occupied as billets except by personnel of Transportation units engaged in repair or operation of ports or railways or by Transportation or Movements Staff. Other units, except as authorized by Army Commanders in their areas, will obtain permission from the proper Movements or Transportation authority prior to occupancy.

R E S T R I C T E D

Administrative Memo #29 (Cont'd)

7. When railway premises are occupied by military units or when adjoining sites are occupied, railway employees who are properly identified will not be prevented from working on the premises or denied access to railway stores authorized and required for their work. All railway employees carry an identity card on the outside of which appear the words "Ferrovie dello Stato". Except in Army Areas for operational reasons, the homes of railway employees will not be occupied by military personnel except on approval of Headquarters AFHQ/MTOUSA.

8. While it is not desired to restrict the operational actions of Army Commanders, it must be emphasized that interference with railway and port installations, or the diversion to other use of railway and port equipment, even in the forward areas, may have serious consequences on the reopening of forward railway communications and ports. Special railway and port equipment which is moved in Army Areas for operational requirements will be released and returned, where practicable, as soon as the operational needs permit.

Routing of Long Distance Telephone Calls I
Instructions for Allocation and Assignment of Captured Enemy Materiel III -- ROUTING OF LONG DISTANCE TELEPHONE CALLS

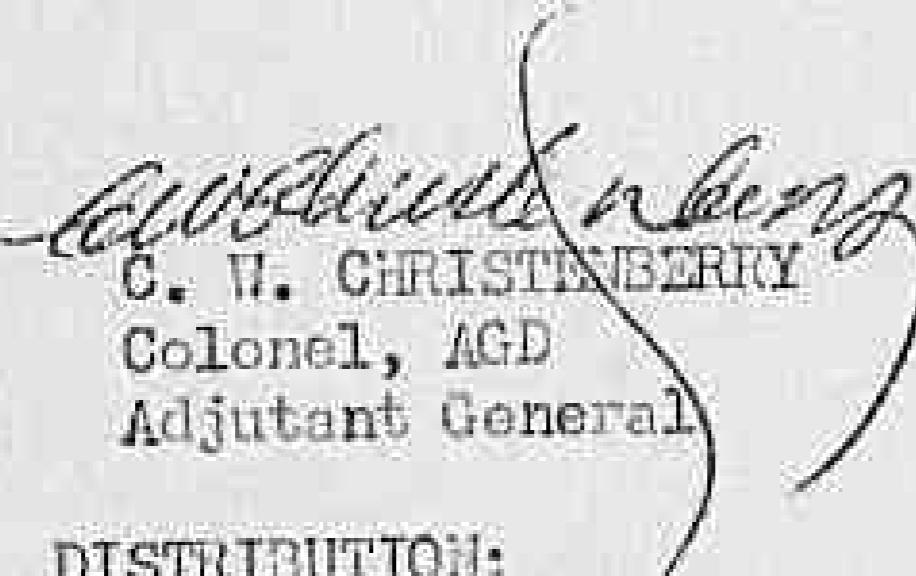

The practice of telephone subscribers routing their own long distance calls through intermediate switchboards is resulting in unnecessary delay and confusion. To expedite the completion of long distance calls over the most direct route available, subscribers will ask the originating operator for the switchboard desired and refrain from attempting to route their own calls by requesting connection to intermediate switchboards. In cases where direct circuits to the desired switchboard do not exist, the originating operator will connect the subscriber to the next intermediate switchboard in accordance with prescribed practice. When the operator answers at the one or more intermediate switchboards involved, the subscriber will repeat the name of the switchboard desired in each instance, until the call is completed.

PROCUREMENT AND PAYMENT POLICY IN "ITALIAN TERRITORY"
FOR SUPPLIES AND SERVICES

AFHQ Administrative Memorandum Number 95, 1943 is rescinded.

1. The provisions of AFHQ Administrative Memorandum 31, 1944, are modified to the extent of permitting certain cash (lire) payments to be made by the military forces, United States and British, in accordance with paragraphs 5 and 8 below, pending the establishment of suitable arrangements along the general lines of AFHQ Administrative Memorandum Number 31, 1944. The provisions of this Memorandum are not retroactive and do not authorize payment of any unpaid invoices covering supplies furnished or services rendered prior to this date, which heretofore were not properly payable under the terms of Administrative Memorandum Number 31, 1944.

2. Separate instructions will be issued by AFHQ/INTCUSA to cover disposal of bills not payable under the terms of this directive or AFHQ Administrative Memorandum Numbers 31 or 95.

3. Nothing in this memorandum will be construed as affecting the controlled allocations of certain types of supplies, made by the AFL Board, vide Section III, AFHQ Administrative Memorandum Number 46, 1944. Similarly, it will in no way affect the established policies in regard to captured enemy material or equipment.

METHODS OF PROCUREMENT

DOWN GRADED

UNCLASSIFIED

Col. Int.
Officer.

4. There are two methods of procurement for supplies and services:

a. Requisition.

b. "Payment in cash" (Purchase or Rental).

5. While this headquarters authorizes "Payments in Cash" as an alternate method of procurement, such action is not to be considered as an indication that the Italian Government is not responsible under the terms of the Armistice to furnish supplies and services to Allied Governments in Italian Territory at the expense of the Italian Government. Procurement by payment in cash is resorted to in general as a matter of expediency in order to insure a continuing supply of essentials necessary for the prosecution of the war effort.

DEFINITIONS OF METHODS OF PROCUREMENT

6. The two methods of procurement are defined as follows:

a. Requisition - The term "Requisition" shall mean the process whereby supplies, equipment, facilities or services

CONFIDENTIAL

CONFIDENTIAL

AFHQ Administrative Memo #21 (Cont'd)

Allied Forces, or the use thereof, are acquired from their owners, regardless of their wishes in the matter or of the price or rental they require, against delivery to them of a requisition receipt note. It is left to the requisitioning authority to decide, in accordance with the terms of this directive whether to determine and pay a fair compensation, in cooperation with AMG/MC representatives wherever possible, or to turn over a copy of the requisition receipt note to the civil government, through such channels as may be directed by the respective forces (United States and British).

b. Payment in Cash - The term "Payment in Cash" shall mean a transaction between the owner of property or the purveyor of a service, or his duly authorized agent, and a purchasing officer of one of the Allied Forces whereby, at a price or rental in conformity with any price restriction measures, etc., in force agreed between proprietor and buyer, the ownership or use of such property is transferred to or the service is received by one of the Allied Forces and proprietor is paid in cash.

REGULATIONS GOVERNING PROCEDURE7. Requisitions

a. Procurement by requisitioning will be used to the maximum extent consistent with the policies set forth herein.

b. As requisitioning on the civilian population is apt to be a source of friction and misunderstanding, which can be substantially lessened in many cases by the avoidance of direct dealing between the requisitioning officer and the owner of the property to be requisitioned, arrangements will be made whenever possible whereby the service of requisition orders and the taking of property are effected by recognized local civil officials.

c. The requisitioning procedure will be used for the procurement of all items for which "Payment in Cash" is prohibited by paragraph 9 below.

d. The requisitioning procedure may be used in combat zones in those instances where it is impossible or inconvenient to arrange for purchase or rental. In such instances the requisitioning procedure will provide for prompt settlement of the requisition whenever payment in cash is appropriate as stated in paragraph 8 below.

e. The requisitioning procedure may be used in those cases where the owner cannot be located or ascertained with reasonable certainty or whenever it is considered that the price, rental or other terms asked are unreasonable.

f. Supplies and Services are not to be requisitioned unless strictly required for military purposes, the test being whether, if payment had to be made, the charge would be admissible against public funds.

g. Procurement authorities will normally exercise such authority within the areas of their respective area commands. Procurement by one authority in an area of another command will not be made except with the knowledge and consent of the area commander concerned.

CONFIDENTIAL**C O N F I D E N T I A L**

AFHQ Administrative Memo #21 (Cont'd)

8. Payment in Cash (Purchase or Rental) - "Payment in Cash" is authorized in any of the following cases:

- a. Small day to day procurements.
 - b. Where this is necessary for operational or security reasons or to insure a continuing supply or
 - c. Where hardship to an individual would result from delay in payment.
9. No payment in cash will be made for the following:

- a. All public property to include supplies and facilities taken over from or owned by and services performed by state or local authorities or state owned enterprises.
- b. All communications, transportation and utilities including all ports, harbors, POL installations and other services rendered by or the supplies and facilities of concerns engaged in rendering public services.
- c. Private movable property except as authorized in paragraph 8 above.
- d. All fixed assets in real estate including machinery, plant, equipment, etc., installed therein.

REAL ESTATE

10. The methods for procurement and payment described above will not be employed in obtaining the use of real estate. The real estate sections and hirings officers of the respective Forces shall continue to acquire buildings, land, and all other types of real estate, including accommodation and furnishings thereof, through the Italian Government Comando Genio Militare.

11. Claims will be processed by the various claims sections and passed to the Italian Government for payment under the system now in operation.

USE OF COMMERCIAL FACILITIES FOR CIVIL
REQUIREMENTS

1. It is the responsibility of the Supreme Allied Commander to provide for the civil population of liberated territory that which is necessary to prevent disease and unrest. It is his policy to make the maximum use of local resources in providing for the essential civilian requirements.

2. The duty of all ranks of the Armed Forces in the discharge of the Supreme Allied Commander's responsibility to the civil population should be constantly present in their minds. All ranks must, even in the stress of active operations, remind themselves that whenever it is possible to achieve a military object by a choice of means otherwise equal, the method which damages least the essential needs of the civil economy is the method to be preferred and adopted. Care must be taken by the responsible commander that, except in definite emergencies, he neither occupies a premise that is essential to the civil economy nor dismantles, nor removes by purchase or requisition, the equipment therein. Except to prevent combat damage or destruction, or to meet the immediate operational needs, raw materials essential to civil economy will not be purchased, requisitioned or removed except by the procedures set forth in Section III, AFHQ Administrative Memorandum No. 46, 1944.

- a. In the detailed planning for the occupation of an area, the military authority responsible for such planning and the Allied Commission, will consult as to the anticipated military and civil requirements in that area affecting local resources. The military authority will elaborate his plan so far as practicable to include any proposals agreed as the result of such consultation. Any such agreement must of necessity be tentative and adjustments made dependent upon the physical condition of the area when occupied and upon the military situation. So far as practicable the agreement should include definite facilities preserved by the military and definite facilities reserved for essential civil requirements. Facilities not so defined will not initially be reserved for either military or civil exploitation but are subject to further agreement as the need is recognized.
- b. In sections of the country for which no definite military operational plan is considered necessary, instructions defining military requirements and those civil commitments for which the military assume responsibility will be issued by the military authority responsible for planning for the area as a whole, if so desired by Allied

Except to prevent combat damage or destruction, or to meet the immediate operational needs, raw materials essential to civil economy will not be purchased, requisitioned or removed except by the procedures set forth in Section III, AFHQ Administrative Memorandum No. 46, 1944.

3. a. In the detailed planning for the occupation of an area, the military authority responsible for such planning and the Allied Commission, will consult as to the anticipated military and civil requirements in that area affecting local resources. The military authority will elaborate his plan so far as practicable to include any proposals agreed as the result of such consultation. Any such agreement must of necessity be tentative and adjustments made dependent upon the physical condition of the area when occupied and upon the military situation. So far as practicable the agreement should include definite facilities preserved by the military and definite facilities reserved for essential civil requirements. Facilities not so defined will not initially be reserved for either military or civil exploitation but are subject to further agreement as the need is recognized.

b. In sections of the country for which no definite military operational plan is considered necessary, instructions defining military requirements and those civil commitments for which the military assume responsibility will be issued by the military authority responsible for planning for the area as a whole, if so desired by Allied Commission.

c. In the case of property to be used by the military which Allied Commission has stated to be essential to the civil economy, the

Probable degree of development by the military and the estimated period of occupancy will be stated in the plant.

d. In the immediate execution of operational plans the decision of the Army or equivalent commander in operational command will govern. However, when Allied Commission is of the opinion that the use of the facility during military tenancy will cause undue harm to the civil economy, and local agreement cannot be reached, Allied Commission may, without interrupting the operational plan or its immediate execution, inform the Army or equivalent commander that an appeal will be made, and submit such an appeal as indicated in paragraph 4 below.

e. In the further execution of a plan in Army or equivalent areas, or in routine functioning within or without Army areas, in the event there is a conflict between military interests and interest which Allied Commission considers essential to the civil economy with respect to:

(1) The equitable allocations of factories, warehouses, and other commercial and industrial facilities including mines and space, and set forth in paragraph 4 will be followed.

4. a. The Allied Commission may present its case and recommend action to the responsible Area District, Base Section or Army Commander, or other responsible military authority whether urgent operational need has been advanced by the military authority or not. Allied Commission will accompany their case with a complete and factual justification.

b. The responsible military authority to which the case is referred will consider the case and every effort will be made to reach a solution satisfactory to Allied Commission and the military commander. In the event a satisfactory solution cannot be found, the military commander will return the request to Allied Commission with a written statement as to the extent to which he can meet Allied Commission's desires and as to the conditions which he cannot accept.

c. Allied Commission then may submit the matter to an investigating subcommittee appointed by the Industrial Co-ordination Committee of the Allied Force Local Resources (Italian) Board, through AFRLRS. The investigating sub-committee will investigate the case in detail and attempt to find some solution agreeable to the parties concerned.

d. If no such solution can be found, the sub-committee will submit the case to the ICC (Industrial Co-ordination Committee) with recommendations.

action, until definite action has been taken in accordance with these instructions.

Requests for Air Travel II

I -- SUPPLY OF AIR FORCES

Section II, AFHQ Administrative Memorandum Number 44, 1944, is amended as follows:

1. Paragraph c(2) is rescinded and the following substituted therefor:

"DST and MTOUSA are responsible for the receipt, handling, storage and issue of bulk and packaged aviation fuel and engine lubricants in Ocean Terminals and in depots other than dumps mutually agreed with NAAF."

2. Paragraph c(3)(b) is amended by the deletion of the words "COMZONE, MTOUSA", and the substitution of the word "MTOUSA" therefor.

II - REQUESTS FOR AIR TRAVEL

Section I, Administrative Memorandum Number 51, 1944, is rescinded and the following substituted therefor:

a. Air Travel for Personal Reasons.

a. Compassionate reasons, including compassionate leave or furlough, compassionate posting and emergency rotation. The Chairman, Air Priorities Board, is authorized to consider, on its own merits each such case which has been personally approved in writing by an officer of the Allied Forces of the grade of Brigadier General or higher grade, or its equivalent in the other services.

b. Leave or furlough other than compassionate. Priority rating for air travel solely in connection with leave or furlough other than for compassionate reasons is not authorized and will not be assigned except as in c below.

c. Lt. Colonels, or officers of equivalent rank and above, proceeding to the U.K. under "Leave in Addition to PYTHON" or similar scheme may be granted Air Priority when such officers hold operational commands or positions in this theater, the importance of which necessitates that they return in a minimum amount of time."
