CONSALVO EMILIO Teacher - Via Taddeo 69,
SERRA AUREA

Made false statements when interrogated by FSB. Spoke in support of rounding up Italian labour on behalf of the Germans.

The leading Fascist activist of Caiazzo, Vice Commandante of an Action Squad, Inspector of Zone for five years, component of the Direttorio Federale of Benevento Province for 3 years, fanatic Fascist. Frequent association with German soldiers after Armistice. MVSA.

GRIGIO, Benedetto. Railroad Worker. Mignano.

Reasons:

This man has been proved to have gone out of his way to collaborate with the Germans when they occupied Mignano. Prior to the Armistice he was notorious Fascist and Squadrista. Despite repeated orders he persists in wandering about in our forward areas and among our installations. By virtue of his personality, sentiments and record he constitutes a threat to the security of our forces.

PATRONI, Giuseppe Ex-Podesta Doctor,
Sessa Aurunca

Reasons:

Patroni Giuseppe, son of a shoemaker; doctor; Army Capt. 1915-18; In 1923 he was "Sindaco" when the Fascist approached the Municipio and was beaten up by them because he tried to oppose them. In 1924 he started to become friendly with the Fascist and stood for the Pro. of CASERTA at the elections, but failed owing to his previous opposition to the Fascists. In Oct. 1932 he joined the PNF and in 1933 his wife became Segretaria of the Fascio Femminile. His activities as a Fascist were so satisfactory that in 1939 he was appointed Commissario Prefettizio. In 1940, on the recommendation of ARGENTINO Enrico, General AMEN, Marchia su Roma, and sciarpa littoria supported by PALCO Ascenio, another dangerous squadrista, he was appointed Podesta of Sessa Aurunca Comune by letter of the PNF dated 15 July 40 and letter of the Pol. Seg. dated 19 July 40. In his reply to the Pol. Seg. PATRONI stressed his "fervent Fascist passion." PATRONI claimed to have only a strict Podesta and not an ardent Fascist, but three photos found in his house point to the contrary; these show him in Fascist uniform with the insignia of Podesta, whereas any Podesta was permitted to wear civilian clothes with his insignia of office. These photos also show him as wearing the emblem of "Impetore di Zona". During the German occupation, PATRONI willingly cooperated with the Germans. When the Germans asked for a list of men born between 1900 and 1925, he personally verified the list supplied from the latest electoral list of a few months previous and he made certain that all anti-Fascist appeared on the list. Eight days after the Armistice circulars calling up Italians for service with the Germans, under the death penalty, were already printed and bore PATRONI's signature. PATRONI deserted his post as Podesta on the Allied occupation of Sessa and remained in the hills for some days before returning. In the meantime he was denounced by ASD. Duration of War.

PERACCHINI, Scipione Clerk in City Hall
Via Jacobelli 8, Alviagnano

Reasons:

Subject collaborated with the Germans after the Armistice by submitting names and addresses of men the Germans might use in labor camps and that he was seen in the company of German officers. On more than one occasion was seen wearing the Fascist insignia on his lapel after the Italian Armistice and that he had been heard saying that the Germans "would return by March 15" Duration.

REMI Gustavo di Ettore Postal Employee
Via Milazzo 29

Reasons:

Potential Espionage. This man was picked up for the fourth time trying to cross from our lines to the enemy side, by forward outpost of Corps artillery. He had previously been remanded to ASD, but his persistence led us to suspect that he is potentially dangerous and should be handled by security personnel. Duration.

SCIARRETTA Alfredo
 ex Indiano

Independent means-
 Corso Lucilio Besen Aurano

Reasons:

Fascist from the beginning and supporter of the Fascist actions when this formed at ROMA. He is Squadrista, Sciappa littorio, Marcia ex Roma. Cavaliere d'Italia. In 1923 was Political Secretary and in 1924 appointed Commissario for Roma e Piccoli. Was several times in contact with the Fascio in Roma.

Immediately after the Armistice, he visited the then Podesta PATRONE and suggested that he should reorganize Fascism. In ROMA AURANO in accordance with the instructions of Mussolini, he PATRONE told him that SCIARRETTA should be responsible for this. With the formation of the Battaglioni "M" he was responsible for widespread propaganda and he revealed to the Germans the hiding places of Italian Civilians.

He is suspected of being involved in espionage with the Germans and was arrested in NAPLES. During interrogation, he admitted that he knew that Lt. COZZANINI of the MVSN had organized an espionage centre with the help of "Paula la Romana" of S. CLEMENTE DI GALLICOLA. It is believed that he was member of the espionage organization. During the German occupation, he was often seen in German lorries and trucks shouting "Viva il Duce, Viva Mussolini."

He escaped from custody near AVERSA at about 1900 hours on 12 Dec. 43. He was recaptured near CASERTA on 21 Dec. 43.

SCIARRETTA has several friends in the area now occupied by our forward troops and has relatives in FORTE and CASERTA. It is considered that his freedom would be a menace to the security of future Allied operations. Duration of hostilities Italy.

A.C.M.F. SECURITY SUMMARY No. 10.

Period covered 1 Jan to 15 Jan 44

PART I

GENERAL SURVEY

The security situation in the Army areas for the period under review was good.

The outstanding feature was the increase in the number of enemy agents caught behind the Allied lines. In all ten were captured, bringing the total to mid-January to nineteen. These men were all of Italian nationality. Investigations and interrogations have not yet been completed but it is clear that several of the cases are considerably more interesting than those of the purely short-range type previously reported. The capture of these agents has been undoubtedly due in no small measure to the system of movement control instituted in the Army areas. Three of the arrests were made at a RIP as a result of the security check carried out there.

The fortnight under review covered the closing stages of the planning of Operation STURGE. Special security precautions were instituted to safeguard the security of Allied preparations for the landing south of Rome. Few violations were reported, and the precautions taken appear to have been both adequate and effective.

Throughout the planning for the "S" Force operation close and continuous contact was maintained with the "S" Force planning staff by G.S.I.(b) this headquarters and G-2(C.I.) Fifth Army.

In the Eighth Army area the effectiveness of road controls is reported to have improved considerably. Approximately 100 Auxiliary Police have been recruited to date for employment mainly in the forward areas, which have also received reinforcements of uniformed Carabinieri.

Fifth Army reported an apparent reversal in the local German procedure with respect to the disposal of civilians in the combat zone. Previously it was the German policy to evacuate to the rear all civilians within ten kilometers of the front line, thus reducing considerably the numbers of refugees moving southwards through the lines. The early part of January saw the infiltration of civilians into Fifth Army lines as troops moved forward, in such numbers as to indicate that they are now permitted to remain in the combat zone during operations.

The RIP's worked smoothly and are recognised to be of great value. Fifth Army RIP handled approximately 800 refugees during the period, and Eighth Army approximately 450 between mid-December and mid-January.

In general the various Italian agencies such as CC.PP., Civil Police, Guardia di Finanza, and, to a limited extent, S.I.M., continued to cooperate satisfactorily. In particular the assistance given to security personnel by the CC.PP. again received commendable comment. It is however becoming increasingly clear that the usefulness

The RIP's worked smoothly and are recognised to be of great value. Fifth Army RIP handled approximately 800 refugees during the period, and Eighth Army approximately 450 between mid-December and mid-January.

In general the various Italian agencies such as OC.RR, Civil Police, Guardia di Finanza, and, to a limited extent, S.I.M., continued to cooperate satisfactorily. In particular the assistance given to security personnel by the OC.RR again received favourable comment. It is however becoming increasingly clear that the usefulness of the S.I.M. organization is subject to certain definite limitations. The Army failing appears to be a lack of initiative, amounting to almost complete helplessness where internal administrative problems are concerned. Thus Eighth Army reported that after a lengthy start the Army CS section was now cooperating quite effectively with FFP, but needed fairly detailed briefing and guidance. Fifth Army find that S.I.M. personnel are now welcomed by Corps, but they are of some value at the RIP and in the rear Army area.

Numerous incidents were reported of the abuse of facilities afforded to Italian official mail, and of its immunity from censorship.

The sabotage situation can be said to be favourable, with still no evidence of enemy-inspired or enemy-organized activity in this field.

785016

- 2 -

Reports indicated that cooperation between the U.S., British, French and Italian security services in the Fifth Army area were well-coordinated and effective. One investigation and arrest was quoted which involved the combined efforts of the security agencies of all four nationalities.

During the period a total of 99 security arrests was reported. They were divided as follows:-

12 for trial on a specific charge	(Category A).
83 for internment	(Category B).
4 for detention pending further enquiry.	(Category C).

PART II

1. MILITARY SECURITY

(a) Security of Information

(i) Special security precautions were instituted for the planning of Operation SHINGLE. Few violations of security were recorded and it appears that complete surprise as to time and place of landing was achieved. Numerous rumors were reported current among troops and civilians for some time past concerning possible Allied sea-borne operations in the rear of the enemy lines. These were investigated and were ascribed to local speculation caused by the presence of craft, by troop movements and amphibious rehearsals. A CIC agent was present day and night in the planning areas at Fifth Army Headquarters in order to check rooms for security violations, to supervise a special pass system, and to keep all personnel constantly aware of the vital importance of security.

(ii) Two cases were reported of Italian civilians employed by the British on "A" Force missions revealing certain information concerning this organization to unauthorized persons. Corrective action was taken in both cases by "A" Force and one of the men has since been interned.

(iii) In the Tenth Army area two cases were reported in which the location and move of a unit were known to the local civilian population. In one of these cases the enemy launched an attack on 30 Dec 43 for the first time in that month during the relief of 11 Inf Bde, and it appeared probable that a serious leakage of information had occurred. There was no evidence to suggest that troops were directly to blame, but since they were billeted in houses, it seemed likely that the information may have leaked out to the civilian population as a result of individual preparations for the move.

(iv) The carrying of letters by Italian soldiers and civilians moving in and out of the Army areas was reported to be a widespread practice. Such letters are usually of a personal nature and innocuous in content, but are often addressed to persons living in enemy occupied territory. Security personnel at check points have been instructed to examine persons passing through for any letters which they may be carrying.

(v) The case of the disclosure of military information by a senior RMC officer, referred to in Security Summary No. 8 Part II 1(a)(iv) has not been discussed by the formation concerned, the officer responsible being reprimanded.

(i) Special security precautions were instituted for the planning of Operation SHINGLE. Few violations of security were recorded and it appears that complete surprise as to time and place of landing was achieved. Numerous rumors were reported current among troops and civilians for some time past concerning possible Allied airborne operations in the rear of the enemy lines. These were investigated and were ascribed to local speculation caused by the presence of craft, by troop movements and amphibious rehearsals. A CIC agent was present day and night in the planning areas at Fifth Army Headquarters in order to check rooms for security violations, to supervise a special pass system, and to keep all personnel constantly aware of the vital importance of security.

Security personnel at check points have been instructed to examine persons passing through for any letters which they may be carrying.

(v) The case of the disclosure of military information by a senior RASC officer, referred to in Security Summary No. 8 Part II 1(a)(iv) has now been disposed of by the formation concerned, the officer responsible being reprimanded.

(vi) There was considerable evidence to show that official Italian mail facilities were being abused, in that personal correspondence was frequently passed under official cover or in official bags. The majority of such letters were harmless, but some breaches of security were noted.

(b) Security of Materiel and Installations.

(i) Two cases of wire cutting were reported in the Province of CALABASSO, the break apparently having been made each time with the aid of a stone.

785016

- 3 -

Arranged for notices to be posted in the area stating that any further such incidents would be met with collective punishment. The mayor was also instructed to appoint a civilian guard for the cable. A further case occurred in the TORNO-ROCCAMONFINO area (Fifth Army). Civilians in the area were warned of the seriousness of wire sabotage and a reward was offered for information leading to the arrest of the culprits. In general the situation with respect to wire cutting was reported to be well under control. No evidence was forthcoming of malicious intent in the cases quoted above.

(ii) No other cases of possible sabotage were recorded during the period under survey and the state of security of material and installations continued to be on the whole highly satisfactory.

(iii) In view of reported instances of civilians being found in possession of military equipment and arms, PSP in the 78 Div area carried out intensive house searches. A quantity of military material was discovered, and several persons were arrested and handed over to AMG for trial.

(c) Security of access to Military Establishments.

Units were advised that the enemy had instructed its short range agents to seek employment in army kitchens, and that all Italian youths applying for such work should be treated with suspicion.

(d) Security of Personnel.

Nothing to report.

2. CIVIL SECURITY

(a) Individual Suspects.

(i) During the period a further ten enemy agents, all of Italian nationality, were apprehended in the Fifth Army lines, three of them as a direct result of interrogation at the RIF. In all cases interrogation by SI(b) and OSDIC is proceeding.

Of the nine agents whose capture was previously reported, four have already been tried and sentenced to death. Two of them were shot at S. MARIA jail on 24 Jan 44. In the case of the remaining two the death sentence was commuted to one of 20 years imprisonment since both were under 18 years of age. Wide publicity was given to the two executions mentioned above.

(ii) Both armies have commented on the valuable work which has been done by the RIF's, which not only provided an efficient security check on civilians passing through, but also relieved hard-worked PSP/GIC in the forward areas of a great deal of this type of work. There is no doubt that the RIF's are now fulfilling an extremely useful purpose.

(iii) During the fortnight under survey 99 arrests were reported, of which 12 were for trial on a specific charge, 83 for internment, and 4 for detention pending further enquiry.

(iii) In view of repeated instances of civilians being found in possession of military equipment and arms, FSE in the 78 Div area carried out intensive house searches. A quantity of military material was discovered, and several persons were arrested and handed over to HQ for trial.

(c) Security of Access to Military Establishments.

Units were advised that the enemy had instructed its short range agents to seek employment in army kitchens, and that all Italian youths applying for such work should be treated with suspicion.

2. CIVIL SECURITY

(a) Individual Suspects.

(i) During the period a further ten enemy agents, all of Italian nationality, were apprehended in the Fifth Army lines, three of them as a direct result of interrogation at the RIF. In all cases interrogation by SE(b) and CSBIC is proceeding, and individual reports have been or will shortly be submitted to AMHQ.

Of the nine agents whose capture was previously reported, four have already been tried and sentenced to death. Two of them were shot at S. MARIA jail on 24 Jan 44. In the case of the remaining two the death sentence was commuted to one of 20 years imprisonment since both were under 18 years of age. (v) A consolidated list of arrests reported during the period and authorised by army security staffs in consultation with Army JAG is attached at Appendix "B".

(b) Subversive Movements and Organisations.

There appeared to be no subversive activities, movements or organisations in the Army areas.

3. (a) Relations between Troops and Civilians.

(i) Relations continued to be generally good and few untoward incidents were reported. At CASALEM. (Prov. Cuneo 330), for instance, troops held up by snow drifts were considerably impressed by the assistance and hospitality accorded by local civilians. French troops were also reported to have been well received.

(ii) Measures instituted by JAG have been invariably received with little comment. Any expression of dissatisfaction with the administration is regularly attributed to the continuance in office of Fascist nominees.

(b) Civilian Morale and Reactions.

(i) Little change was reported from the previous reporting period. The comparative slowness of the advance appears to have had no serious effect on civilian morale in general, since the civil population as a whole has shown little real interest in the military situation. The deciding factor continues to be the availability of food.

(ii) Fifth Army reported a noticeable diminution in the number of unfounded denunciations made by one civilian against another.

(iii) Public reactions to the execution of CLANO and DE BONO were pathetic, the general opinion appearing to be that they got what they deserved.

(c) Rumours.

(i) In the Fifth Army area numerous rumours were reported of impending landings further north along the coast. Such rumours were current, not only among civilians but also among the troops. The withdrawal of any division from the front line appears to have given rise immediately to the rumour that it was to be employed in a sea-borne operation, and there is no reason to believe that any of these rumours resulted from a leakage of information.

In Eighth Army area rumours appeared to be confined almost exclusively to speculation regarding the return of units and formations to the UK. This type of rumour was reported as particularly prevalent among troops of 13 Corps, 76 Div and 2 NZ Div, and the return to England was coupled with an eventual participation in the Second Front.

3. (a) Relations Between Troops and Civilians.

(i) Relations continued to be generally good and few untoward incidents were reported. At CASALEMIL (Prov. CAMPOROSSO), for instance, troops held up by snow drifts were considerably impressed by the assistance and hospitality accorded by local civilians. French troops were also reported to have been well received.

(ii) Measures instituted by MG have been invariably received with little comment. Any expression of dissatisfaction with the administration is regularly attributed to the continuance in office of Fascist nominees.

(b) Civilian Morale and Reactions.

(i) Little change was reported from the previous reporting period. The comparative slowness of the advance appears to have had no serious effect on civilian morale in general, since the civil population as a whole has shown little real interest in the military situation. The deciding factor continues to be the availability of food.

(ii) Fifth Army reported a noticeable diminution in the number of unfounded denunciations made by one civilian against another.

(iii) Public reactions to the execution of CLINO and DEL BONO were apathetic, the general opinion appearing to be that they got what they deserved.

(c) Rumours.

(i) In the Fifth Army area numerous rumours were reported of impending landings further north along the coast. Such rumours were current, not only among civilians but also among the troops. The withdrawal of any division from the front line appears to have given rise immediately to the rumour that it was to be employed in a sea-borne operation, and there is no reason to believe that any of these rumours resulted from a leakage of information.

In Eighth Army area rumours appeared to be confined almost exclusively to speculation regarding the return of units and formations to the UK. This type of rumour was reported as particularly prevalent among troops of 13 Corps, 78 Div and 2 NZ Div, and the return to England was coupled with an eventual participation in the Second Front.

(ii) Rumours among Troops.

That the Fifth Army would be withdrawn and that Seventh Army would take over with British, French and Brazilian troops under command. (Fifth Army area reported to have arisen as a result of General Patton's visit and the arrival of Brazilian Staff Officers in the area).

That 2 Corps and its troops will be withdrawn after the capture of CASSINO for a sea-borne invasion on the west coast of the APENNINES (Fifth Army area). That the HILLI front will be left entirely to American and Dominion troops (Eighth Army area).

That First Army is in CORSICA awaiting to invade the South of FRANCE and that the force includes 6 Army Bde. (Troops in TERNOLI area).

785016

(iii) Among Civilians.

That large forces of American troops had disembarked about 27 Dec 43 at CIVITAVECCHIA in order to encircle the German troops in REGIO and south of the city. (CML 220. Fifth Army area).

That the Indians would now be withdrawn from the line as they cannot fight in snow and cold weather (13 Corps area).

That British troops invaded NORMAN on 9 Jan 44 (COMFORMSSO 9 Jan 44).

(d) Other matters of General Security Interest.

(i) A noticeable tightening in the control of civilian movement was noted by Eighth Army. The improvement in the machinery of control, the number of arrests for unauthorized travel and the heavier sentences being awarded by AMG for such offences were producing a corresponding increase in the awareness of the population in general to the restrictions imposed on travel. The penalties imposed for the contravention of movement regulations were being given publicity by FWD through its newspaper "COMBATANT ITALIANO". At appendix "C" (AMG only) is a sketch map showing control posts now operating in Eighth Army area.

In the Fifth Army area, on the other hand, the problem of movement control was reported to have recently become acute, due to the sharp increase in the number of refugees passing through the Allied lines from the battle zone. This was particularly noticeable in the II Corps sector during the capture of SAN VITO, when some 1,000 men, women and children passed into the Allied lines. More recently the same problem has been encountered in the French sector requiring the evacuation by forward units of a similar number to rear areas.

(ii) A security survey of the island of PONZA was conducted by Fifth Army CIG agents, and the situation was found to be satisfactory. It was considered that the possibility of German agents in small boats using the island as a stepping stone to the mainland was a remote one in view of the distances involved. Enquiries revealed that no Germans had been on the island at any time during the past few months. Entry to the island is controlled by the harbour-master and the CCVR, the latter maintaining a 24-hour - a - day patrol.

(iii) During the period 796 refugees passed through the Fifth Army RIF and were disposed of as follows:-

- 602 sent to Displaced Persons Bureau
- 13 sent to LAFB
- 4 sent home (South of VOLTURNO - CALORE Line).
- 4 interned
- 3 arrested as enemy agents
- 1 sent to camp for ex-PW.
- 10 referred to SI(b).

796

Of the above cases 15 were passed to CSIC (NAPLES) for further

interrogation.

Up to 15 Jan 44, 457 persons have been passed through the Eighth Army RIF since its inception on 10 Dec 43.

(iv) A German soldier dressed in American uniform, who was intercepted

in general to the restrictions imposed on travel. The penalties imposed for the contravention of movement regulations were being given publicity by FWB through its newspaper "CORRIERE ADRIATICO". At appendix "C" (JHQ only) is a sketch map showing control posts now operating in Eighth Army area.

In the Fifth Army area, on the other hand, the problem of movement control was reported to have recently become acute, due to the sharp increase in the number of refugees passing through the Allied lines from the battle zone. This was particularly noticeable in the II Corps sector during the capture of SAN VITOLO, when some 1,000 men, women and children passed into the Allied lines. More recently the same problem has been encountered in the French sector requiring the evacuation by forward units of a similar number to rear areas.

(ii) A security survey of the island of IONIA was conducted by Fifth Army CIC agents, and the situation was found to be satisfactory. It was considered that the possibility of German agents in small boats using the island as a stepping stone to the mainland was a remote one in view of the distances involved. Enquiries revealed that no Germans had been on the island at any time during the past few months. Entry to the island is controlled by the harbour-master and the CCIR, the latter maintaining a 24-hour a day patrol.

(iii) During the period 796 refugees passed through the Fifth Army RIF and were disposed of as follows:-

602 sent to Displaced Persons Bureau
131 sent to TAPPA
4 sent home (South of VOLTURNO - CAJORE Line).
4 interned
3 arrested as enemy agents
1 sent to camp for ex-IW.
10 referred to SI(b).

796

Of the above cases 15 were passed to CSDIC (NAPLES) for further interrogation.

Up to 15 Jan 44, 457 persons have been passed through the Eighth Army RIF since its inception on 10 Dec 43.

(iv) MULLIC SPANO, a Yugoslav dressed in American uniform, who was intercepted by RIF at CASOLI, stated under interrogation that he was recruiting volunteers for the Yugoslav Army. Since he carried no documents to prove either his identity or the legitimacy of his mission he was passed back to the RIF. No. 2 District has been asked to make an enquiry into this matter.

(v) A Czech deserter from 90 Lt. Division who gave himself up to the CCIR at LANCILANO on 10 Jan 44 stated that he was in CRESCIO (147/280106) when the British first entered, but managed to hoodwink them as to his identity by acting deaf and dumb. He was obliged to make his own way back to FOGGIA (147/267058) where he made a living for eight days by cutting troops' hair and still pretending to be deaf and dumb.

(vi) ACC (AIG) has been requested by this headquarters to make the possession of an Identity Card compulsory for all civilians in the Italian mainland. A further request has been made for the institution of an effective system of aliens registration.

Gino. Marcello, Rome. No. 326.
Italian soldier who claims to have been captured by Germans while making his way to the rear of the front lines to secure medical attention (Fever). Claimed he escaped from Germans and eventually decided to re-cross the lines with another Italian employed in a German labor battalion. Eventually succeeded and was picked up by the French. Certain gaps in his story and implications to give details of individuals who assisted him, make his story subject to suspicion. Since his reliability is in doubt, and he possesses information of military value, he is considered a danger to the security of operations.

On 13 September 1943, as there was no other Doctor in the village, he volunteered his services to examine those who were detailed for these line guards, and he was appointed an official Doctor. On September 1943 he exceeded his authority, in that he sent a note, signed by him as Cap Servizio and containing threats, ordering one, 151810 Police, to do a tour of duty on the line. MARRA admitted that he had issued several false certificates to protect his friends and that he could have done so in the case of 151810, who however, happens to be an anti-Fascist.

Potential espionage. This man crossed the Canadian lines in the CAMPORESE area around 1. Nov. 43, and proceeded to SARI and thence to the II Corps area where he claims to be waiting for the lines to advance.

PATRONE Sessa Aurunca Ex Podesta 4.1.44 POW # 326 D
Giuseppe
Patrone Giuseppe. Son of a shoe-maker; doctor; Army Capt. 1915-18; In 1923 he was "Sindaco" when the Fascist approached the Municipio and was beaten up by them because he tried to oppose them. In 1924 he started to become friendly with the Fascist and stood for the Pro. of CASERTA at the elections, but failed owing to his previous opposition to the Fascists. In Oct 1932 he joined the FNF and in 1933 his wife became Segretaria of the Fascio Femminile. His activities as a Fascist were so satisfactory that in 1939 he was appointed Camiscario prefettizio. In 1940, on the recommendation of AGENTINO Enrico, General MNS. Marcia su Roma, and sciampa littoria, supported by FISCO Ascario, another dangerous squadrista, he was appointed Podesta of SASSA AURUNCA. Commune by letter of the FNF dated 15 July 40 and letter of the Pol. Seg. dated 19 July 40. In his reply to the Pol. Seg. PATRONE stressed his fervent Fascist passion.

PATRONE claimed to have been only a strict Podesta and not an evident Fascist, but three photos found in his house point to the contrary; these show him in Fascist uniform with the insignia of Podesta, whereas any Podesta was permitted to wear civilian clothes with his insignia of office. These photos also show him as wearing the emblem of "Ignettore di Zuni".

During the German occupation, PATRONE willingly cooperated with the Germans. When the Germans asked for a list of men born between 1908 and 1925, he personally verified the list supplied from the latest electoral list of a few months previous and he made certain that all anti-Fascist appeared on the list. Eight days after the Armistice circulars calling up Italians for service with the Germans, under the death penalty, were already printed and bore PATRONE's signature.

PATRONE deserted his post as Podesta on the Allied occupation of SASSA and remained in the hills for some days before returning. In conversation he was deposed by ALL. Duration of War

SUBJECT: Removal of Fascist Officials.

OA/90/12/A.

HQ. AMG. - 15 Army Group.

13 Dec. 43.

1. Further to your AMG/24/6 dated 16 Nov. 43.
2. Herewith extract from report of S.C.A.O. Foggia, and a copy of the lists mentioned in para 2 of the extract:

" (1) This Provincial A.M.C. has NOT itself, removed any Commissario Prefettizios or similar functionaries and it has been difficult to trace accurately the actions taken by our predecessors and by F.S.S.

(2) Attached hereto however, are lists showing, as far as this H.Q.s. knows them, the Commissarios who have been removed.

(3) It will be seen that of a total of 60 Commissarios no less than 48 have been removed. Of the remaining dozen the Prefect has in mind changing 10, but has not yet been able to find a suitable substitutes. As they are more or less harmless he is not taking action until a substitute has been found.

(4) It will be seen therefore, that a clean sweep has been made of the Commissarios."

We will forward this with the

ALLIED MILITARY GOVERNMENT
Region III APO 464 U. S. A.

15 November 1943

TO: AMG, 15th Army Group.

SUBJECT: Replacement of Fascist Officials.

1. Attached is a press release on the removals of Fascist officials. This report was prepared in accordance with instructions from AFHQ and has been distributed to the press.

2. At a press conference held at this headquarters 13 November 1943 the report was given to some twenty-five American and British press correspondents for release to the newspapers of 15 November 1943. It was stressed that this was an incomplete progress report and that AMG work in this field was continuing with improved method and thoroughness. It was further stated at the conference that the Mayor of Caserta had been removed on the day of the conference. Lieut. Col. Joseph B. Phillips, PRO of AFHQ, and Lieut. Col. Kenneth Clark, PRO of Fifth Army, were both present at the conference and have since reported that it was highly satisfactory to them and to the press representatives.

3. As soon as more complete information is received the list will be revised and published.

SUBJECT: Questionnaire for Civil Officials and Employees.

TO : ALL S.C.A.C.s,

1. Attached are copies of a questionnaire form "Scheda Personale" an appropriate number of copies of which are being sent you herewith, for immediate distribution to all individuals in the categories shown in the accompanying sheet. An English translation of the items on the form is also provided for your information. Copies of the memorandum and attachments are furnished for each S.C.A.C. in your province.

2. The purpose of this questionnaire is to provide an orderly and detailed method of obtaining necessary information concerning the Fascist background of civil officials and employees. The data thus obtained, after analysis and evaluation and checking with other sources of information, will assist AMG in carrying out its obligations of assuring that no person is retained in public office whose record indicates that he was an important and active member of the Fascist Party or Fascist Government or dependent organization which affects prejudicially the United States or Great Britain or their nationals.

3. The information thus furnished, on the other hand, will also help to make sure that unjust removals from office or detention in custody are avoided in cases that indicate that affiliation with any Fascist organization was merely perfunctory and innocuous, and that the individual is not of a type likely to be dangerous to the Allied cause.

4. Distribution of the questionnaire to Provincial Officials will be made directly by the office of the S.C.A.C. to the officials located in the Provincial seat. Distribution to communal offices will be forwarded by the S.C.A.C. to the appropriate local S.A.C. for distribution by them to such officials. Distribution to AMG's own civil employees will, of course, be made by the responsible head of each office to his own employees.

5. Distribution to University and school officials and teachers will be made by the office of the S.C.A.C. It is suggested that the most practical way of distributing the forms to university and school officials and teachers is to obtain a list from the PROVVEDIORE DEGLI STUDI (Head of the Provincial School Board) who is located at the Provincial seat. The forms should then be sent by the S.C.A.C. to the individuals on the list or down through the C.A.C.s depending on the location of the individuals.

5. Distribution to University and school officials and teachers will be made by the office of the S.C.A.C. It is suggested that the most practical way of distributing the forms to university and school officials and teachers is to obtain a list from the PROVVEDIORE DELL'ISTRUTTO (Head of the Provincial School Board) who is located at the Provincial seat. The forms should then be sent by the S.C.A.C. to the individuals on the list or down through the C.A.C.s depending on the location of the individuals.

6. All persons who are being considered by S.C.A.C.s or C.A.C.s as candidates for public offices must complete the questionnaire before action is taken upon them.

7. It is intended that eventually every individual in Campagna who held a prominent position during the Fascist regime will have filled out a copy of the questionnaire. Such coverage will include not only civil officials as such, but also Heads of Fascist Corporations, Syndicates and agricultural organizations, heads of banks, industries etc. In the interest of not overloading S.C.A.C.s and C.A.C.s, as well as the need for speed, the questionnaires for the present are to be distributed only to typed or persons indicated in the attached sheet.

8. The forms will be filled out and signed by each individual. When completed, the forms will be returned to the office of the S.C.A.C.

2. The questionnaire should be distributed within each province immediately upon arrival and should be completed and returned to the S.C.A.C. as quickly as possible.

By Order of Colonel HUME.

REMOVAL OF FASCIST OFFICIALS

30

One of the most difficult tasks of the Allied Military Government of Naples and the Committee has had to face is the decisions as to which officials should be removed from office on account of Fascist leanings. We have tried to keep in mind two principles: first, we are a military unit and must do all in our power to aid in defeating the enemy. As a part of the Fifth Army, it is our function to assist our Commander, in attaining his mission. To a nation at war, all else is secondary. Second: At the same time our country and our Allies are fighting the pernicious Fascist and Nazi system, and we must put it down and remove its proponents whenever practicable.

It is obviously difficult to decide just who is a Fascist. At one extreme there are individuals who were always active leaders in the Fascist Party administration, holders of high office in the Fascist fabric, many of whom have been continuously connected with the Party since the "March on Rome", and other events of its earlier days. At the other extreme, there are people who held nominal membership in the Fascist Party merely because any failure to do so would have prevented their holding positions of any kind or even drawing pensions which their prior service had earned. Between these two extremes there are all gradations. It is a simple matter to remove men who have always been Fascist leaders, but to remove everyone possessed of a Fascist membership card would be equivalent to removing every office bearer and functionary from civil or military office. Any such extreme step must, in the end, have been embarrassing to our military Commander, because administration of civil public office would thereby have been practically paralyzed.

29

Bearing all these facts in mind, AIF has had to study each case individually and make its decisions as to removal both on the man's past record and on his present performance. In some cases an efficient officer, who was a Fascist in little more than name, has been retained rather than replaced by a less efficient person who was always an anti-Fascist.

In performing the difficult task of selecting those officials to be removed, AIF has made use of a board of officers drawn from its staff on the basis of experience, judgment and position. Valuable information has been received from various official Italian sources, civilian and military, including the records of the police. The Counter-Intelligence Corps of the U.S. Army and the Field Security Service of the British Army have both given information in many instances.

Since it is a policy of AIF to supervise administration by the Italian officials rather than to do the work outright, we have, wherever practicable, conferred with Italian Prefects and other senior officials in the removal of Fascist officers. Whenever the removal could be effected by the Italians themselves, this has been facilitated. This is, obviously, a rational procedure on the part of any government maintained by an army of occupation. In the list which follows, there are included the names of a certain number of persons who escaped. Some of the office bearers that we had tentatively marked for removal, even prior to our entrance into Naples and other cities, to avoid capture have fled with their German colleagues or otherwise. While this obviated the necessity of our removing them, the same end was attained. The office¹³¹² being vacated, we could appoint appropriate substitutes.

28

Some of the officials removed were merely put out of office and no further action taken on our part. In other instances, actual arrests have been carried out. Our house-cleaning has only begun, but the task will be less difficult in the future because during the period of our occupation of Naples and the Campania, we have developed many sources of information which render it easier to make decisions as to removals in the future. Moreover, we now have the records of a month's performance of all office holders since the time of our occupation.

In order to make a systematic study of the present and past records of office bearers, functionaries, and other public servants, a questionnaire has been prepared. We require that each individual complete this questionnaire and sign it under oath. Thus, any statements found to be made the bases for trial. On the returns given by the officers themselves, we are able to initiate further studies of present and past activities which might be held objectionable from our standpoint. A copy of this questionnaire is attached. — 18A-D

Trials for persons arrested will take place in the proper Italian courts. Among the charges which will be considered are those of graft, peculation, and malfeasance in office.

SUBJECT: Questionnaire for Civil Officials and Employees.

TO : All S.C.A.Cs.

1. Attached are copies of a questionnaire form "Scheda Personale" an appropriate number of copies of which are being sent you herewith, for immediate distribution to all individuals in the categories shown in the accompanying sheet. An English translation of the items on the form is also provided for your information. Copies of the memorandum and attachments are furnished for each C.A.C. in your province.

2. The purpose of this questionnaire is to provide an orderly and detailed method of obtaining necessary information concerning the Fascist background of civil officials and employees. The data thus obtained, after analysis and evaluation and checking with other sources of information, will assist AMG in carrying out its obligations of assuring that no person is retained in public office whose record indicates that he was an important and active member of the Fascist Party or Fascist Government or dependent organization which affects prejudicially the United States or Great Britain or their nationals.

3. The information thus furnished, on the other hand, will also help to make sure that unjust removals from office or detention in custody are avoided in cases that indicate that affiliation with any Fascist Organization was merely perfunctory and innocuous, and that the individual is not of a type likely to be dangerous to the Allied cause.

4. Distribution of the questionnaire to Provincial Officials will be made directly by the office of the S.C.A.C. to the officials located in the Provincial seat. Distribution to communal offices will be forwarded by the S.C.A.C. to the appropriate local C.A.C. for distribution by them to such officials. Distribution to AMGs own civil employees will, of course, be made by the responsible head of each office to his own employees.

5. Distribution to University and school officials and teachers will be made by the office of the S.C.A.C. It is suggested that the most practical way of distributing the forms to university and school officials and teachers is to obtain a list from the PROVVEDICRE DEGLI STUDI (Head of the Provincial School Board) who is located at the Provincial seat. The forms should then be sent by the S.C.A.C. to the individuals on the list or down through the C.A.Cs depending on the location of the individuals.

6. All persons who are being considered by S.C.A.Cs or C.A.Cs as

of civil officials and employees. The data thus obtained, after analysis and evaluation and checking with other sources of information, will assist AMG in carrying out its obligations of assuring that no person is retained in public office whose record indicates that he was an important and active member of the Fascist Party or Fascist Government or dependent organization which affects prejudicially the United States or Great Britain or their nationals.

4. Distribution of the questionnaire to Provincial Officials will be made directly by the office of the S.C.A.C. to the officials located in the Provincial seat. Distribution to communal offices will be forwarded by the S.C.A.C. to the appropriate local C.A.C. for distribution by them to such officials. Distribution to AMGs own civil employees will, of course, be made by the responsible head of each office to his own employees.

6. All persons who are being considered by S.C.A.Cs or C.A.Cs as ¹³⁰ candidates for public offices must complete the questionnaire before action is taken upon them.

7. It is intended that eventually every individual in Campagna who held a prominent position during the Fascist regime will have filled out a copy of the questionnaire. Such coverage will include not only civil officials as such, but also Heads of Fascist Corporations, Syndicates and agricultural organizations, heads of banks, industries etc. In the interest of not overloading S.C.A.Cs and C.A.Cs, as well as the need for speed, the questionnaires for the present are to be distributed only to types of persons indicated in the attached sheet.

8. The forms will be filled out and signed by each individual. When completed, the forms will be returned to the office of the S.C.A.C.

9. The questionnaire should be distributed within each province immediately upon arrival and should be completed and returned to the S.C.i.C. as quickly as possible.

By Order of Colonel HUME.

1. Reference this H.Q. AMB/24/6 dated 13th November, 43.
We are obtaining lists of security arrests from G.S.I.(b) for
transmission to A.F.H.Q. as suggested in your OA/11/16A/2901 of
4th November.

2. However, we do want from you the removals (as distinct
from security arrests) which may have come to your attention or
which AMB officers may have brought about. It is thought that
there may be a number of these that have not necessarily come to
the attention of G.S.I.(b).

3. A.F.H.Q. has particularly asked us to supply information
regarding past history of individuals removed, and we should
appreciate your giving us this data wherever possible.

AMG. H.Q. 8th Army.

Ref: OA/11/16A/GSO.I.

4 Nov 43.

Refer to your FA 125 dated 2 Nov 43. It is not clear what is ~~mean~~ ~~required~~ by Fascist Officials. Does the enquiring refer to (a) officials of the Fascist Party or (b) Local Government employees who are members of the Fascist Party.

2. In the case of (a) such persons are usually arrested by F.S.S. who forward lists to 15 Army Group periodically. This information is therefore available to you already with G.S.I.(b).

3. In the case of the (b) no Local Government Officials have been dismissed in the 8th Army Area because they belonged to the Fascist organizations.

4. The situation generally obtaining in the area up to now, is that, either active Fascists fled before occupation of towns by 8th Army or they had previously been removed from local office by the Italian authorities after the dissolution of the Fascist Party.

5. It will be appreciated that most local Government minor officials who remained were compelled to be Fascists under that Regime but are in fact not active Fascists or dangerous to Allied interests. In consequence since their presence facilitates local government they have been allowed to remain in office.
