Subject : Clothes for prison guards.

This personnell at present is completely lacking in clothing. It is necessary, if possible, that this Command provide essential clothes for the personnell, - Particulary necessary are shoes as the guards have none, and are therefore not in a position to do outside duty, especially now that the winter season is approaching.

Oggetto: Indumenti per agenti di custodia.

Questo personale di custodia, per il quale da circa 3 anni non si prelevano indumenti di corredo a causa della guerra, trovandosi in atto completamente sprovvisto di tutto.

Occorre pertanto che codesto On.le Comando provveda, nei limiti del possibile, all'assegnazione di oggetti di biancheria personale.

Particolarmente indispensabile e urgente è la provvista di scarpe di cui gli agenti sono totalmente privi e in condizioni quindi di non poter fare servizio di sentinella esterna considerata anche l'imminenza della stagione piovosa e invernale.

Ossequio.

1. Reference AMCOT/1031/PS dated 17/9/43.
2. The use of electric power is severely restricted, in fact it is confined to military requirements.
3. Before authorizing power for this firm, I must ask you to be sure that there is no other source of supply of such boilers, and also that their provision is essential. You will realize how undesirable it is to give power to one firm for such a purpose and not to others.

The firm IWIGI ED ATTILIO LODETTI VIA MARIO CUTELLI No.1 are able to make boilers for use in prison kitchens.

The original agreed price was 45 lire per kilo, and material used was iron plate reinforced fitted with iron handles.

Several boilers are required at Central Prison Palermo, and others will be required from time to time for other places.

In order to execute this work the firm require the electrical power to be made available, and I should be glad if this ~~please~~ ^{can} be authorised.

To: S.C.A.O., Caltanissetta.

Reference communication from Deputy Director of Prisons dated 31st August, 1943, ref. AMGOT/1091/PS,

There is no material which could be used for the making of mattresses in the Prison at Caltanissetta. There is about 25. 500 of new vegetable hair but this is needed for substitution in the straw beds and for distribution to other prisons in the Province. It is one of the Director's duties to supply all prisoners with bedding. It is estimated that the quantity in hand will last the Province approximately six months.

To : C.A.P.O. GALTANISSETTA.

I believe it may be possible to obtain a supply of material for making mattresses from a store at the GALTANISSETTA Prison. Material is urgently required for several prisons and I am anxious to make use of this material if it really does exist.

Captain Bonjean may still be with you - though I hope by now he is in KIMA. Perhaps you could let me know about the material and I can send to collect.

Prison staff and wardens. I do not yet

These individuals wear uniform

CIVIL PRISON SECTION.

Subject: Clothing Supplies - Prison.

AMGOT/1031/PS
20 Aug 1943.

To: Civil Supplies (through C.P.S.D.)

The Clothing replacements for Prison Staff and Warders broke down about a year or so ago. Before then demands were sent to Prison HQ. in Rome by Directors of Provinces. There is no Provincial Supply or "Dump".

Repair work in the Prison at Palermo is going ahead, but replacements are urgently required especially for Prison Staff.

It is suggested that supplies of material be issued to Directors of Provinces who can have certain large repairs done and some case new clothing made.
