To : Lt. Col. Bolich, Public Works, Region 1

- (1) From the attached reports it will be seen that the prison at present in use at Trapani is in a very bad condition, a sum of about \$350,000 would be needed for essential repairs only and considerable sums would be required for maintenance.
- (2) The proposal to repair and reconstruct the "Fortress" prison on the Island of Colombrina appears to offer the best solution in all respects and has the strong recommendation of this Division.
- (3) Will you please consider the matter and let me have your observations. As you will appreciate the work is urgent and I should, if possible, like the work to proceed as soon as possible.

With a view to improving the present existing conditions in relation to the Provincial Prison at Trapani which has been damaged extensively by war action, I directed Cav. Ferrari, Acting Provincial Prison Director, to ascertain through the medium of the Commune Chief Civil Engineer, the extent of the damage, including the state of present habitation, accommodation of prisoners and approximate cost of repairs.

The survey disclosed the following:-

- 1 - The 2nd and 3rd Floors heavily damaged rendering them unuseable.

Ceilings of lower floors cracked and damaged whereby damp conditions prevailed in the cells and floors immediately underneath. A condition which is aggravated during inclement weather.

- 2 - Housing of Prisoners reduced from 250 to 145.
- 3 - Cost of repairs 350,000 Lires (as per Chief Civil Engineers Report attached) (2)

In addition, I also instructed The Director in co-operation with the Chief Civil Engineer to survey the commune with a view to suitable alternative accommodation being found.

The Director duly reported four possible accommodations, showing advantages and disadvantages of each building for use as a Prison, also the extent of necessary reconstruction of each and cost etc. (See Directors Report attached).

In company with the above.

I subsequently inspected the selected sites and from a point of view of accommodation, security, hygiene, and economy,

I considered that the "Fortress" situated on the Isle "Colombaia" was the most suitable.

In company with the above.

I subsequently inspected the selected sites and from a point of view of accommodation, security, hygiene, and economy, I considered that the "Fortress" situated on the Isle "Colombaisa" was the most suitable.

The island position of the Fortress provides a great advantage over the existing prison and the other suggested sites, in, that it is entirely isolated, but yet within easy reach of the mainland.

In addition large factory sheds and workshops (previously used by Italian Military) are established on the Island and would provide excellent facilities for prison employment.

An other advantage is the spacious ^{cells} and quarters accommodation which will allow

Housing for 400 prisoners and a considerable Prison Staff.

I therefore ask that favourable consideration be given to the proposal of establishing the Provincial Prison of Trapani Province, at the "Portress" in question.

For necessary repairs constructions cost, etc., I beg reference to Civil Engineers report, attached: (Estimated Cost 1,000,000 L. 40s)

With reference to the continued use of the Provincial Central Prison as a "Transitory One" (upon completion of repairs) should the "Fortress" project be approved, I would like to point out that in spite of the cost, it would be an advantage to the Province as a whole to have a Deposit Establishment of this nature.

It is respectfully asked that prompt attention be given to this report.

Major Bartlett has made out a good case for the new building.
On the one hand we have an old prison, with so space to exercise, all in a bad state of repair. To make good the prison would cost about 350,000 L. and most probably a further sum at intervals to maintain the place.
This I consider would be a waste of money. In 1948 the new building selected by Major Bartlett, has in the past been used as a prison but was taken over by the Italian military some years ago. It has grounds, and staff. It is a good accommodation for prisoners and staff.

The new building selected by Major Bartlett, has in the past been used as a prison but was taken over by the Italian military some years ago. It has grounds, spacious accommodation for prisoners and staff, light slops for industry. To put this building into proper repair to stand for all time would need about 1,000,000 L.

I consider that this project is excellent and am absolutely in agreement with it.

The province has no other prison of this type to use and the prison is essential to public safety. First aid repairs to the old prison are put in hand but I consider that the new building should be put in hand first. Before a decision is reached on the question of complete repairs I forwarded to R.C.A.O. and I ask that the papers be forwarded to R.C.A.O. and S.F.O. for their consideration and approval.

DIREZIONE CARCERI GIUDIZ. CENTRALI
TRAPANI52 ++RELAZIONE SUL FABBRICATO DELLE CARCERI GIUDIZIARIE DI TRAPANI
-----Premessa

Fino al mese di Maggio 1939 le Carceri Giudiziarie di Trapani avevano sede in due Stabilimenti e cioè :

- 1°) lo Stabilimento Centrale - in via S. Francesco d'Assisi N. 56,
- 2°) lo Stabilimento Succursale nell'Isola della Colombaia.

Le Carceri della Colombaia, site nella vecchia fortezza, nel Maggio 1939 vennero chiuse perché il fabbricato fu rilevato dall'Autorità Militare.

Nelle Carceri Centrali erano ristretti N. 250 detenuti e in quelle della Colombaia ne venivano custoditi circa 400.

CONDIZIONI ATTUALI DELLE PRIGIONI

L'unico Stabilimento Carcerario rimasto in Trapani è stato molto danneggiato dalle azioni di guerra, come rilevasi dall'unità perizia redatta dal Genio Civile.

Danni all'edificio

Il 2° e 3° piano ed i tetti sono gravemente lesionati. Molte soffitte sfondate. Le piogge aumentano la probabilità di crolli.

Capienza attuale delle Carceri

Per i danni sopra accennati il 2° ed il 3° piano non sono attualmente utilizzabili. In tal modo, oltre alla congestione di tutti i servizi, ristretti in breve spazio, data l'angustia dei locali, la capienza del carcere si è notevolmente ridotta. La capienza massima attuale è di

130 detenuti
15 detenute.

Attuali locali delle Carceri in attività

3913

(2)

Attualmente sono in uso i seguenti locali :

Pianterreno

- | | | |
|-----|---|-----------|
| 1°) | locali di entrata ed armeria | { 1 Vano) |
| 2°) | magazzini viveri | { 2 vani) |

| 4°) | bagno a doccia | { 1 vano) |
| 5°) | 6 camerotti per detenuti e cortile centrale per passeggio | |
| 6°) | I ricovero antiaereo | |
| 7°) | Scala per accesso ai piani superiori | |

Primo piano

|-----|--|--------|
| 1°) | Ufficio Matricola-Ufficio Capoguardia-Sala Biblioteca | 3 vani |
| 2°) | Alloggio Capo Guardia | 5 vani |
| 3°) | Cappella per le Funzioni Sacre | 1 vano |
| 4°) | Caserma agenti | 3 vani |
| 5°) | Cortile caserma agenti | 1 vano |

| 7°) | Locale per le perquisizioni personali | 7 vani |
| 8°) | Celle isolamento inquisiti | |
| 9°) | Sezione per detenuti comuni (1 camerone per 20 detenuti) | |

Il secondo piano in atto comprende solo la Sezione femminile.

Esso ha bisogno di riparazioni.

Stima del costo dei lavori di riparazioni

Giusta la qui allegata perizia il costo dei lavori necessari per riparare i danni sopra accennati ascende, in linea di preventivo, a L. 350.000

Il calcolo è tenuto arrotondando le cifre quindi non vi è da temere un aumento di spesa.

Tali lavori dovrebbero essere iniziati immediatamente in quanto l'azione delle piogge potrebbe causare dei crolli nei piani superiori rimasti o senza copertura o molto danneggiati nei tetti che hanno resistito agli scoppi.

Faccio notare qui che l'Ingegnere Capo del Genio Civile di Trapani, con la lettera che qui allego in copia, mi ha comunicato di non aver fondi per poter comunque iniziare i lavori di riparazioni in parola.

3912

(3)

Per l'urgenza di tali lavori l'Amministrazione Militare Alleata potrebbe concedere i fondi onde procedere senza indugio alle necessarie ed indilazionabili riparazioni.

Locali che si potrebbero adibire a nuove prigioni:

Giusta le direttive impartite dal Molto Onorevole Major Bartlett, Capo della Polizia, ho esaminato la possibilità di spostare le Carceri in altri fabbricati.

Ho rivolto quindi la mia attenzione ai seguenti edifici:

- 1°) Costruendo nuove carceri in località - Trentapiedi
- 2°) Vecchia Caserma D'Alì-Bordonaro a S. Francesco di Paola
- 3°) Locali interni della Caserma "ardella
- 4°) Isola della Colombata

Nuove Carceri in località - Trentapiedi

Delle nuove Carceri solamente l'edificio destinato ad Uffici è stato costruito ma ad esso mancano le coperture.

La spesa per edificare l'intero Istituto oltre a richiedere una spesa ingente, valutata già parecchie decine di milioni ed ora a circa L. 60.000.000 richiederebbe un tempo molto lungo.

Tale soluzione è da scartarsi per il momento.

Vecchia Caserma D'Alì-Bordonaro

Ma i muri perimetrali di spessore insufficiente a garantire la sicurezza di uno stabilimento carcerario che, quale primo requisito, richiede muri robustissimi.

Ei non ha cancellate alle porte e grate di ferro alle finestre.

Si dovrebbe costruire appositamente un locale per le celle, i locali igienici etc. il che richiederebbe, per un uso momentaneo, una rilevante spesa di denaro - valutata in via di grossolana previsione in circa L. 500.000 oltre ad uno spazio considerevole di tempo

Anche tale soluzione è da scartare

3911

(H)

Locali interni della Caserma Fardella

I locali interni della Caserma Fardella e precisamente quelli posti all'angolo prospiciente il mare a tramontana e il lato sinistro del Palazzo D'Alì hanno dei vasti locali che si possono adibire a carcere. I muri esterni sono spessi e quindi offrono garanzia di sicurezza, le finestre sono munite di grate di ferro in parte ossidate ma nell'insieme buone.

Necessiterebbero lavori di adattamento ma si avrebbe una soluzione momentanea in quanto, data la speciale ubicazione del fabbricato, difficilmente le Carceri potrebbero sussistere per l'avvenire nei locali di una caserma.

Isola della Colombaia

La fortezza della Colombaia, sorgente nell'Isola omonima, posta a sud-ovest del Porto di Trapani, potrebbe essere agevolmente ricondotta al vecchio uso di prigione. Con opportuni lavori di riatto consistenti nella costruzione di alcuni muri di chiusura, riparazione di poche scale, sistemazione alcuni tetti e con la fornitura delle porte e finestre, che sono state tutte distrutte, si avrebbe una prigione dotata di molti pregi sia per la sicurezza, per l'igiene, per la vastità dei locali, per l'organizzazione di tutti i servizi relativi alla normale attività di una grande prigione, per la possibilità infine di organizzare delle lavorazioni.

Sicurezza

Essendo la Colombaia completamente circondata dal mare e circondando i muri perimetrali della fortezza più di metri sei di spessore la sicurezza è garantita nel modo più assoluto.

Igiene

Vaste cisterne interne e una serie di capaci serbatoi in

3910

(15)

imento posti sul terrazzo della fortezza e il quantitativo idrico necessario; altra acqua potrebbe essere portata giornalmente a mezzo di bottiglie.

Già esistono vari impianti igienici, costruiti secondo i più moderni accorgimenti; gli ambienti sono vasti, le camerate sono ampie, i dormitori sono aerati.

Data la vastità degli ambienti, tutti bene esposti alla luce, è facile tenerli sempre ben puliti. E' possibile impiantarvi una lavanderia

Vastità dei locali

Come già accennato vi sono molti locali e tutti vasti in modo di poter fornire ampi magazzini, grandi dormitori per i detenuti, una grande cucina, diversi alloggi per il personale di custodia, un locale esposto a mezzogiorno che potrebbe adattarsi ad infermeria capace di molti letti.

Locali per le lavorazioni.

Adiacente alla fortezza vi è un vastissimo locale, già deposito di mine, che potrebbe essere adibito a locale per le lavorazioni dei detenuti.

Lavori da farsi per il riatto della Colombaia

I lavori per il riatto della Colombaia si dividono in due categorie

- a) lavori murari e di sterno (che potrebbero essere eseguiti da detenuti)
- b) costruzione e posa in opera di tutti gli infissi (porte e finestre)

La spesa per tali lavori come dall'unita perizia del Genio Civile ascende a L.

Tale spesa appare relativamente esigua ove si pensi che si tratta di ripristinare a prigione un vastissimo fabbricato che potrebbe essere usato stabilmente quale Carcere e se si confronta con le somme occorrenti per adattare a prigione provvisoria i locali della ex caserma D'Alì Bordonaro-circa L. 300.000-e peggio ancora con quelle occorrenti per la costruzione delle nuove Carceri site in località Trapani.

(6)

valutati oggi in circa L. 60.000.000 (sessanta milioni)

Conclusione

Concludendo la presente relazione appare assai vantaggioso ripristinare alla sua vecchia funzione di prigione la fortezza della Colombara, la quale potrebbe contenere agevolmente 400 detenuti i quali verrebbero ospitati con tutte le garanzie di igiene, sicurezza e lavoro.

Mentre la Carceri Centrali di Trapani verrebbero usate per le donne e solo per quei detenuti che devono essere interrogati dai Magistrati, nella Colombara potrebbero essere ristretti gli appellanti, i ricorrenti ed i condannati a pene non superiori ai cinque anni.

Con il funzionamento di tutte e due le prigioni infine verrebbe a cessare la necessita di sfollare periodicamente i detenuti da Trapani in altri centri.

Quindi si dovrebbe:

- a) autorizzare con perizia di somma urgenza e stanziare subito i fondi per le riparazioni alle Carceri di Via S. Francesco di Assisi (L. 350.000)
- b) autorizzare il riatto della fortezza della Colombara (L. 1.000.000)

In adempimento all'incarico ricevuto ed in seguito a sopralluogo effettuato da un funzionario di questo Ufficio, si è potuto constatare, che in seguito ad azioni belliche, nel carcere giudiziario di Trapani sito in via S. Francesco d'Assisi, si sono verificati i seguenti danni:

- 1) Lesioni varie alle murature riparabili con muratura ad incastro;
- 2) Alcuni soffitti sono crollati
- 3) Alcuni soffitti sono danneggiati
- 4) Alcuni muri divisorii presentano lesioni diffuse tali da richiedere la loro ricostruzione
- 5) Il tetto è così gravemente danneggiato da richiedere importanti lavori di riparazioni.
- 6) Danni varie alle altre strutture ed agli infissi.

Per le riparazioni di cui sopra da un conto di larga massima la spesa occorrente risulta di L. 350.000.00.

In atto i locali specialmente quelli dei piani superiori sono inabitabili perché non protetti contro la pioggia a causa dei gravi danni subiti dal tetto.

Le strutture murarie e in particolar modo i soffitti, non minacciano per il momento di crollare, però ove si dovessero eseguire i necessari lavori al tetto, per l'azione disgregatrice delle acque piovane i danni alle strutture murarie ed ai soffitti si aggraverebbero a tal punto da determinare dei crolli.

Si allegano le piante del 2° e 3° piano dell'edificio che sono i più danneggiati.

RELATION ON THE BUILDING OF THE JUDICIARY OF TRAPANI

Premise:

Since May 1939 the judiciary prison of Trapani had office in two establishments, namely:

- 1°) the Central establishment in 56 S. Francis of Assisi street
- 2°) the branch establishment into the Colombaia isle.

The Colombaia Prison, placed into the old fortress, in the May 1939 was closed because the building was relieved from the military authority.

Into the Central prison were narrow 250 prisoners and into that of Colombaia were custodied 400 about

-ACTUAL CONDITION OF THE PRISON-

The only prison establishment remained in Trapani has been very damaged from the war actions, how one notice from that enclosed herewith survey drawing up by the Civil Engineering.

- DAMAGE TO THE BUILDING

The 2° and the 3° floor are heavily damaged; many ceilings bursted open the rains augmet the probability of showers.

- PRESENT SPACIOUSNESS OF THE PRISON-

For the damage over sketched, the 2° and the 3° floor, at present, are not utilizabile.

In this way, besides congestion of all services narrow in short space, owing to the narrow of the building, the spaciousness of the prison is considerably reduced.

The largest spaciousness at present is of : 130 prisoners
15 prisonerwoman

2 2

-PRESENT BUILDING OF THE PRISON IN ACTIVITY-

At present are used the following buildings:

Groundfloor:

- | | |
|---|-------------|
| 1° Building of entrance and armoury | (1 room) |
| 2° Living Warehouse | (two rooms) |
| 3° Kitchen for prisoners and Wood - house | (two rooms) |
| 4° Shower - bath | (1 room) |
| 5° Six little dormitory for prisoners and central yard for the walk | |
| 6° An ant - aircraft | |
| 7° Staircase of access to superior floors | |

-FIRST FLOOR -

- | | |
|---|---------------------------|
| 1° Matriculation office-chief of guards office-library room | (3 rooms) |
| 2° Chief of guards lodging | (5 rooms) |
| 3° Chapel for the sacred function | (1 room) |
| 4° Guards barracks | (5 rooms) |
| 5° Guards barracks court | |
| 6° Garments warehouse | (1 room) |
| 7° Room for the personal sacren | (7 rooms) |
| 8° Cells inquired isolation | |
| 9° Section for Common prisoners | (1 room for 20 prisoners) |

- THE SECOND FLOOR -

The 2° floor include, at present, the feminine section.

It has necessity of repairs.

-ESTEEM OF THE COST OF THE REPAIR WORKS-

According to the enclosed herewith survey, the cost of the necessary works for to repair the damage mentioned above, ascend, in preventive line, at 350.000 lire.

The calculation it is obtained rounding the numbers, in consequence, it is not dreadful a increase of expense.

These works should be commenced immediately though the action of the rains, should to cause of the shakes in the superior floors remained or without covering or much damaged in the roofs that have resisted to the burstings. I do mark here that the chief engineer of the Civil Engineering of Trapani, with the letter enclosed herewith, has informed to me have not any money to begin the

3

repair works.

For the urgency of these works the A.I.G.O.T. should see to grant the funds to proceed without delay to the necessary and urgent repairing-works.

PROBABLES NEWS PRISONS

According to the directive given me from Major Bartlett, Police Chief, I have examined the possibility of to displace the Prison in others buildings.

I have devoted one's attention to followings edifices:

- 1o) Construending new Prison in locality " Trentapiedi ";
- 2o) Old barracks D'Ali-Bordonaro in Saint Francis of Paola
- 3o) Interior rooms "Fardella" 's barracks"
- 4o) " Colombaia " Isle

NEW PRISON IN LOCALITY " TRENTAPIEDI "

Of the new Prison only the building destined at office has been building but it has not the covering.

The cost for to construct the whole institute besides to request a very high amount valued already several ten millions and now approximately 60.000.000, it should request, a time very long.

This solution is of to reject, momentarily .

OLD BARRACKS "D'ALI-BORDONARO "

It has the fencing wall of insufficient thickness to guarantee the security of a prison building, that, what first requisite it requests very robust fencing wall.

It has not any railings to the doors, and iron-grates to the window.

It should be necessary to build purposely a local for the cells, the hygienic locals etc. What should request, for a momentary use, a considerable time-period.

3900

Also that solution is to reject.

INWARD LOCALS OF THE BARRACK "FARDELLA" A

The inward locals of Fardella 's barrack and precisely those placed at the corner looking on sea north-sited and the left side of D'Ali 's mansion, they have some vast rooms that on any offer guarantee of security; the windows are furnished of iron-grates, in a great degree, oxidized, but in the whole, in a sound condition.

They should be necessary the appropriately works but on should have a momentary solution although, in accordance with the special position of the building, the prison, with difficulty should may subsist, for the future, in the locals of a barrack.

ISLE OF THE " COLOMBAIA "

The Colombaia 's fortress ~~V~~ising in the homonym isle, situated south-west Trapani 's port it would may be easily brought again to old use of prison-

With proper works of repair consisting in the construction of some closing-walls; repairing-works of few staircases, arrangement of some roofs and with the application of the doors and the windows that have been destroyed one would have a prison endowed of many merits of: security, hygiene, locals 's vastity, organization of all services relatives to normal activity of a large prison, for the possibility after all, of to organise some manufactures.

SECURITY

Being the Colombaia wholly surrounded by-sea and having the fencing-walls beyond 6 metres of thickness, the security is guaranteed, absolutely.

HYGIENE

Large cisterns and capacious water-reservoirs assure the necessary quantity of water.

5

Existe several hygiene installation; the seals are large, the rooms are broad, the dormitory are aired.

WORKS FOR "COLOMBALA" 'S RESTORATION

The works for the restoration of the Colombala are : mural-works and construction of all fixtures (doors and windows). The cost for these works, as from the appraisement of the Civil Engineering, amount to lire 1.000.000.=

CONCLUSION

It appear very advantageous to reinstate to her old function of prison, the fortress of the Colombala which might contain 400 prisoners while the Central prison of Trapani should come used now Deposit and Feminine Section. It is necessary therefore:

- a) to authorize with survey of urgency and to appropriate, immediately the money for the repairs to prison of Saint Francis D'Assisi street (L. 300.000)
- b) To authorize the repair of the Colombala ' s fortress (L. 1.000.000.=)

PLAN OF THE PRISONS - ROOM CAPACITIES AND THE NUMBER OF PERSONS CONFINED

TO CELLS AND DISPOSITION IN COMMON DOMITORIES.

The relative charts of plans of the various floors of the Prisons were lost through the disorder following the bombings.

THE GROUND FLOOR (1 Section) is composed of 6 rooms, two of which have the capacity of 20 persons each, two a capacity of 15 persons and two of 10 persons.

On the 1st. floor aside from the offices there is the transient room of a capacity of 50 persons and the punishment cells which number 10.

On the 2nd. floor there is the segregation cells, numbering 10, a large room containing 30 persons and various rooms for the clerks and working quarters (tailors, shoemakers, smiths and carpenters).

On the 3rd. floor there is the Infirmary and the T.B. ward while in a unit especially made for the purpose, which has entrance on the first floor, there is the women's section. It is brought to notice, that either the 1st, the 2nd. and 3rd. floors, because of damages to the main walls cannot be used.

TO WHAT WORK THE PRISONERS ARE EMPLOYED - POSSIBILITY OF WORK OF THE PRISONERS.

In normal times the work in which the restricted prisoners of this prison were employed was classed the following:-

- (a) Domestic Labour (launderers, straw workers, cooks, sweepers etc.).
- (b) Work for machine shops (Tailors, Shoemakers, Carpenters and Smiths).

There does not exist at the present time, any paid work or service. It is easily possible to organize the Domestic Services but difficult to start the organization of the Machine Shops either because of the lack of skilled hands (masters of the arts) or because it is impossible to find the raw materials or the necessary tools on the market.

EVENTUAL PROGRAMS FOR THE EDUCATION AND SOCIAL REHABILITATION OF THE PRISONERS.

Before the war there were instituted in the prisons a school for minor prisoners. For three years the said school has not functioned, because of the narrowness of the quarters. In as much as regards the rehabilitation it is pointed out that since this institution is a Judicial Prison, no procedure is required to return the prisoner back to his proper place in society.

ADMINISTRATION OF THE CUSTODY PERSONNEL.

The custody personnel is divided into agents and guardians. The custody personnel depends on the Minister of Parole and Justice and is on his roll.

AMGOT HQ. SICILY

9 October 1943.

On 5th October 1943 I inspected the Centrale Prison at Trapani, in company with the Director Signore Faccari.

This Prison is a square shaped building, built around a courtyard. It is old and has suffered considerable damage to the upper part by blast during the bombardment. To repair and put in a reasonable condition to house to its capacity of approximately 200 persons, both sexes, would require an expenditure of about 500,000 lire. This, when done, would then only provide purely accommodation with no room for exercise or provision for labour for the inmates. The prison is situated in the centre of a congested area and no adjoining property could be acquired for extension.

In view of this, I consulted with Major Bartlett, S.C.A.P.O. Trapani and it has been suggested that alternative accommodation could be found within the area that could, at small cost, be converted into a prison which would provide the means for inmates to carry on some work while in prison and conform more to the standards which the Allied Nations aspire.

To this end, Major Bartlett will make enquiries and submit estimates in due course and meanwhile first aid repairs will, where necessary, be given to the prison until such time as the main question has been decided.

ALCAMO Prison (Continued)

Prisoners are given exercise twice a day in central Courtyard.

Food Prisoners are fed once a day & obtain the following:

Bread	300gms per person
Pasta	40 " " "
Vegetables	with Pasta & Soup
Meat	150 gms per person on Sundays only

This was confirmed on questioning the Prisoners. Arrangements are being made to increase the flour supply.

Visitors once a week - generally Sundays.
Lawyers at all times on demand.

There is a shortage of bed boards & many of the prisoners are sleeping on mattresses on the floor. This will be rectified from Military Supply on hand in Town. Have given instructions that the bedding is aired regularly in the sun outside because of insect pests etc.

Staff consists of 1 chief warder - 2 warders & 1 Female Warder. In addition there are 5 Warders from TRAPANI Prison, who may be recalled.

The premises are kept clean, but are very out of date, though probably much better than most of the prisons in the Province.

P. c. Safety. (Persons).

Sir,

The attached reports refer to the
Albion Persons which have been dealt
with by Capt. Brande in conjunction
with Public Safety & Legal Divisions.
I understand that you require copies
of the originals and I have done the
best I can. I understand that the
lists of prisoners have been
supplied by Capt. Brande. I have
shown date of report as date of our
flying visit to Albion. I'm afraid the
"immediate" has become the "unnatural".

(2)

(a) Sanitation.

Very poor.

(b) Food supply and quality

Supply and quality very poor.

Warden openly stated he had to purchase food on the 'Black Market' and was submitting his bill to the Sindico. This has been stopped and what supply that is available is supplied daily on a requisition to the Sindico. Food supplies generally are very bad in this town and it is a difficult problem.

(c) Discipline and segregation of inmates

Discipline is good. The upstairs cells which accommodate two persons each are good and have fair beds. The lower cells accommodate 5 to 9 prisoners and the sleeping and sanitary conditions are poor.

(d) State of buildings (damage due to war, safeguards etc.),

shops No workshop of any kind. Small exercise yard for males. Small yard for females which is overgrown with weed. Roof of prison has been damaged by enemy action and there is a hole but this has been repaired to a certain extent.

DIREZIONE DELLE CARCERI GIUDIZIARIE CENTRALI (PROVINCIALI) DI TRAPANI

Nome dell'Istituto relativo tipo

Il nome dell'Istituto è: CARCERI GIUDIZIARIE CENTRALI (PROVINCIALI) DI TRAPANI
Le Carceri Giudiziarie Centrali di Trapani costituiscono le prigioni dove vengono rinchiusi tutti gli individui:

- a) = arrestati per motivi di sicurezza dall'Arma dei Carabinieri, dalla Questura e in genere da tutti gli Agenti di Polizia Giudiziaria;
- b) = arrestati per mandato di cattura emesso dalle Autorità competenti;
- c) = tradotti dalle Carceri Mandamentali per l'istruzione e la celebrazione del processo davanti le Autorità giudiziarie competenti (Pretura, Tribunale, Corte di Assise);

- d) = trascritti da altri Stabilimenti per essere avviati ad altri Istituti (traducendo)
- e) = condannati a pene non superiori ai tre anni.

Il tipo dell'Istituto è "MISTO" cioè ha sezioni cellulari per la segregazione e cameroni dove coabitano molti detenuti.

Luogo dove si trova il Carcere

Il fabbricato delle Carceri si trova nel centro della Città ed in vicinanza del Porto, precisamente nella Via S. Francesco di Assisi N° 53.

Amministratore del Carcere e Principali Collaboratori in sua sostituzione

Il Direttore del Carcere è il

CAV. UFF. ANIELLO BRUNO che attualmente si ritiene sia a Bivona (Agrigento)

Il Vice Direttore è il

CAV. PIETRO FERRARI, attualmente in servizio, che ha normalmente funzioni di Ragioniere Capo = Amministratore dell'Istituto e quelle di Segretario. Sia il Direttore che il Vice Direttore sono di Grado 8°;

Lealtà degli Amministratori e fiducia riposta nel Personale dipendente

Il Direttore ed il Vice Direttore sono Funzionari dello Stato, di ruolo nell'Amministrazione Penitenziaria (Ministero di Grazia e Giustizia). Essi sono i tecnici per quanto riguarda l'applicazione della pena, l'ordinamento disciplinare e quello amministrativo-contabile.

Il Personale Direttivo ha piena fiducia del dipendente Personale di Custodia per l'esecuzione del mandato affidatogli.

Verso quali Autorità sono responsabili gli Amministratori
Attualmente il Direttore è responsabile verso il Sig. Maggiore Comandante il Gruppo dei Carabinieri di Trapani.

Normalmente gli Amministratori sono responsabili:

- a) = cumulativamente verso il Ministero di Grazia e Giustizia = Direzione Generale per gli Istituti di Prevenzione e Pena in Roma;

Capacità delle Carceri

Le Carceri di Trapani normalmente hanno la capacità di N° 200 detenuti di cui N° 140 uomini e 60 donne.

Media mensile dei detenuti

La media mensile normale dei detenuti ristretti nelle Carceri di Trapani é di circa N° 5.000, = detenuti e cioè di circa 200 presenze giornaliere.

Pianta delle Carceri=Capacità delle stanze e numero delle persone confinate in celle e sistemate il locali comuni.

Le carte relative alle piante dei vari piani delle Carceri sono andate emarrite a causa del trambusto seguito ai bombardamenti.

Il pianterreno (1 Sezione) é composto di N° 6 stanze due delle quali hanno una capienza di 20 individui ciascuna, due una capienza di 15 individui e due di 10 persone.

Al 1° Piano oltre gli Uffici vi é il locale di transito della capienza di 50 persone e le celle di punizione in numero di 10.

Al 2° piano vi sono le celle di segregazione, in N° di 10, un camerone contenente 30 individui e vari locali per gli scrivanelli e le lavorazioni (sarti, calzolai, fabbri e falegnami).

Al 3° piano trova posto l'infermeria e la sezione tubercolotici mentre in un reparto apposito, che ha l'entrata nel 1° piano, é la Sezione femminile.

SI FA OSSERVARE CHE SIA IL 1° CHE IL 2° E 3° PIANO A CAUSA DELLE LESIONI NEI MURI MAESTRI NON SONO UTILIZZABILI.

Se ed a quali lavori sono adibiti i detenuti=Possibilità di lavoro dei detenuti

In tempi normali i lavori cui erano adibiti i detenuti ristretti in queste Carceri si distinguono in:

a)= Lavori domestici (lavandai, paglionai, cuccinieri, scopini etc.)

b)= Lavori per le officine (Sarti, calzolai, falegnami e fabbri).

Attualmente non esiste alcun lavoro o servizio retribuito. Si possono facilmente organizzare i servizi domestici ma difficile appare l'organizzazione delle officine sia perché manca la mano d'opera specializzata (Capi d'arte) sia perché non é possibile trovare sul mercato le materie prime e gli attrezzi di lavoro necessari.

Programmi eventuali di educazione e riadattamento sociale dei detenuti

Prima della guerra era istituita nelle Carceri una Scuola per i detenuti minorenni. Da tre anni tale scuola non funziona più a causa della ristrettezza dei locali. Per quanto riguarda il riadattamento si fa presente che essendo questo Istituto un Carcere Giudiziario non é richiesta alcuna procedura per il ritorno del detenuto in seno alla Società.

Amministrazione del Personale di Custodia

Il Personale di Custodia si divide in Agenti ed in Guardiane. Il Personale di Custodia

Attualmente non esiste alcun lavoro o servizio retribuito. Si possono facilmente organizzare i servizi domestici ma difficile appare l'organizzazione delle officine sia perché manca la mano d'opera specializzata (Capi d'arte) sia perché non è possibile trovare sul mercato le materie prime e gli attrezzi di lavoro necessari.

Programmi eventuali di educazione e riadattamento sociale dei detenuti

Prima della guerra era istituita nelle Carceri una Scuola per i detenuti minorenni. Da tre anni tale scuola non funziona più a causa della ristrettezza dei locali. Per quanto riguarda il riadattamento si fa presente che essendo questo Istituto un Carcere Giudiziario non è richiesta alcuna procedura per il ritorno del detenuto in seno alla Società.

Amministrazione del Personale di Custodia

Il Personale di Custodia si divide in Agenti ed in Guardiane. Il Personale di Custodia dipende dal Ministero di Grazia e Giustizia ed è di ruolo mentre il Personale delle Guardiane appartiene alla categoria dei Salaristi (Operai permanenti).

Tale Personale è stato distaccato presso le varie Carceri Mandamentali della Provincia mentre un nucleo è rimasto in queste Carceri.

REMARKS:- In case of illness the local doctor is called, and if necessary, the patient is removed to the prison hospital at Trapani.

One unsatisfactory feature was that no arrangements were made for a woman to be in attendance on the female prisoners whose wants were attended to solely by the Head Keeper. I have now changed this, and the Head Keeper's wife will in future see to their requirements.

AUGUST H.Q.
PUBLIC SAFETY DIVISION - PRISON SECTION.

URGENT; Inspection of Prisons at Trapani and Favignana Islands.

1000/1037/53.

TO: C.O.A.O.

Through C.A.S.

22. AUG. 42.

I left AUGUST H.Q. on Friday, Aug. 20 at 9-30 a.m. for Trapani and Favignana Islands. On the road I met Lt. Col. Thomas, C.O.A.O. for Trapani, told him of my contemplated expectations and asked him for any suggestions and recommendations he might have. Informed me that he would cooperate 100% with any decisions arrived at by this office.

Arrived Trapani by 1230 and reported my presence to Major Michie, acting C.O.A.O. Was advised that no boat would be leaving for Favignana that afternoon.

Made an inspection of the Central Judicial Prison in Trapani and interviewed Director ~~SAFARI~~. Found out that there are approximately 13 prisoners housed in the institution all awaiting trial. Inspection of the building shows quite a bit of war damage and general lack of water for sanitation facilities. Proceeded to survey the town for a suitable site to move the present prison to.

Saturday, Aug. 21.

Inspected the former Marine Barracks "Columbia" located in Trapani. Found that with a minimum public expenditure it would make a better prison than the present. It would require but little labour or money to make it both excellent on a security measure, and housing and sanitation.

Left at 11 a.m. for Favignana. Arrived there at 1230 hrs. and immediately inspected the prison. Interviewed Director Portano and had him to conduct me in every part of the prison. After the inspection this Officer recommends the immediate closing of the prison, the removal of the inmates to the Central Judicial Prison at Palermo. If approval is granted for the opening of Columbia barracks as Central Judicial Prison for Trapani Province the prisoners in the present Judicial Jail, and those who are still under sentence from Favignana should be established in this new project.

Sunday, Aug. 22.

Was in conversation with Major Bartlett, C.O.A.O. of Trapani and Lieut. Stradinger, C.I.C., relative to the handling of civilian internees.

Col. Thomas returned and informed him of my thoughts relative to converting "Columbia" Barracks into a Central Judicial Prison, and closing the present one.

Also informed Col. Thomas that if possible would like to acquire for the Prison Section of AUG. 21. A bus that formerly belonged to the Italian Royal

Arrived Trapani by 1230 and reported my presence to Major Michie, acting C.O. I.C.O. Was advised that he would be leaving for Ravenna that afternoon.

Made an inspection of the Central Judicial Prison in Trapani and interviewed Director ~~SAFARI~~. Found out that there are approximately 13 prisoners housed in the institution all awaiting trial. Inspection of the building shows quite a bit of war damage and general lack of water for sanitation facilities. Proceeded to survey the town for a suitable site to move the present prison to.

Also informed Col. Thomas that if possible would like to acquire for the Prison Section of A.C.O.I. a bus that formerly belonged to the Italian Royal Marines. This bus to be converted into a prison transport van. Further suggested that an Ambulance which had been stripped could be converted into a Provincial Prison Transport. Col. Thomas said he would advise us as to his decision on these buses.

In conversation with Capt. Glan, Legal Officer, suggested that the Magistrates clear up some of the minor charges which are being held in the Judicial Prison.
