10. SAFEGUARDS (warning systems, bed counts and roll calls, guard patrol systems, searches and shake-downs, control of visitors, censorship of letters and packages) :-

Bed counts.

Visitors allowed within the regulations.

11. LABOUR.

As many fit inmates as possible are placed to occupations which they normally followed.

12. RECREATIONAL AND EDUCATIONAL PROGRAMME.

This is a magnificent place and has to be seen to be believed. It is difficult to understand why so much money has been spent on such an institution and others neglected. I thoroughly searched the place and questioned the inmates but could find no evidence of an ulterior motive. Lists of types of inmates attached.

As many fit inmates as possible are placed to occupations which they normally followed.

12. RECREATIONAL AND EDUCATIONAL AND VOCATIONAL PROGRAMS.  
This is a magnificent place and has to be seen to be believed. It is difficult to understand why so much money has been spent on such an institution and others neglected. I thoroughly searched the place and questioned the inmates but could find no evidence of an ulterior motive. Lists of types of inmates attached.

Reference to attached

There was a prison at  
Lipari. This is a n Island  
and difficult to get at. I  
have been told that no  
prisoners are confined on  
the islands but this will  
be confirmed by Capt. Cox of  
Messina Province who expects  
to visit during week ending  
26/9/43
