3. USE OF THE DUTY CAR:

The attention of all officers of this headquarters is directed to the fact that the duty cars available during the night are available FOR OPERATIONAL/AND EMERGENCY PURPOSES ONLY.

In recent weeks, the privilege of using the duty car has been subject to some abuses. In order to correct these, the Duty Officer has been instructed to render a written report of any such instances, and in flagrant cases, appropriate action will be taken.

Transport to their billets of officers who have been working late is considered a legitimate use of the duty car. However, the transport of guests to social gatherings is not so considered. (Adj)

In the event of action requiring to be changed, it is the responsibility of the branch which received the 'ACTION' copy from the Adjutant's Department (Misc Section) to notify the latter department accordingly.

TELEPHONE OPERATION AIDS

Dialing Numbers:

An increasing amount of operators time is being used to dial numbers, to the disadvantage of answering calls and making connections.

Dial lines are now all operating properly and should signal satisfactorily from Vapor phone dials.

To dial; say to operator "Dial line please"; wait for dial tone (A distinct buzzing sound) then dial correct number wanted. Remove finger from dial while it returns to normal position.

If your telephone is not equipped with a dial, and there would be considerable use for one, please advise.

Declassified E.O. 12356 Section 3.3/NND No. 785046

If your telephone is equipped with a dial, and there is little use for it, please advise.

Only a limited number of dials is available.

Peak load periods:

From 1000 hours to 1130 hours and from 1400 to 1530 hours are the busiest switchboard loads. More placing of calls at other periods outside the busy hours would be helpful.

Facilities:

Vapor has three ACC lines to Salerno and ten dial lines. Brevity in telephone conversations and limiting to business use helps avoid "All lines busy" conditions.

Personal Services:

The secretarial sort of private switchboard service which is often available under other conditions can not be provided with the limited facilities and personnel available.

Please do not ask operators to place calls by name, to advise when a busy line is available, to transmit messages etc.

(c) When the message is not passed for onward transmission by the base censor, Signals will inform the originating unit by Signal message so that the originator can be notified.

(d) Information through Signals that a message has been refused by the base censor does NOT constitute an authority for a refund of cash to the originator.

This authority is the responsibility of the Command Paymaster, who will receive from Signals a copy of all messages not passed by the base censor and will then authorise the unit to make a refund to the originator.

4. Messages from the United Kingdom after receipt in this Command will be delivered to addressees through Signal channels.

7. COMMUNICATIONS - CLASSIFICATION:

The following is extracted from AR 105-25 Par 11, for the information, guidance and compliance of all concerned:

AR 105-25 Par 11 - Messages are classified as follows to indicate the relative order in which they should be transmitted:

a. Urgent: This classification is restricted to military and naval use only and is used only in combat or when combat, real or simulated, is imminent. Urgent messages are sent immediately upon receipt, or immediately after urgent messages previously received have been transmitted. They are given right-of-way over all messages of lower classification. The "urgent" classification has no counterpart in domestic commercial message classifications.

b. Operational priorities. This classification is for use only on important messages pertaining directly to operations which should not be classified "urgent" but must be delivered as expeditiously as possible to be acted upon properly. Operational priority messages will be handled and transmitted in order received and ahead of all other traffic except urgent.

c. Priority. This classification is used to designate messages which must be given precedence over all routine and deferred messages waiting to be sent or delivered. Messages will be handled under this classification...when they require expeditious action. This is the highest classification which can be given administrative messages.

d. Routine messages are those required to be sent by electrical means, but the nature of which is such that they may not be classified as more than ordinarily important.

e. Deferred messages are those filed at the end of a working day, action on which is not required by the receiving agency until during the day following.

9. DISPATCH RIDER LETTER SERVICE:

A daily service has now been instituted between this Hq and Hq, AMG, 8th Army. Timings are as follows:

Leave this Hq	1500 hrs	ETA Hq, AMG, 8th Army,	1700 hrs

The following is extracted from Postal Information Circular #12, NATOUSA, dated 27 March 1944, for the information, guidance and compliance of all concerned:

"The Adjutant General has advised that the volume of newspapers and magazines requiring directory service at ports of embarkation and other postal installations indicates that many individuals overseas are failing to advise publishers of their changes in address. As a result, much unnecessary directory service is being performed by army postal personnel, and magazines and newspapers are delayed in transit with resultant delay in delivery.

The necessity of advising publishers of all permanent changes of address should be brought to the attention of all mail orderlies with the verbal request that they disseminate the information in their units as far as possible. 6. CORRESPONDENCE - REFERENCE:

The urgent necessity for all sections, sub-commissions and branches to ensure that a reference (with appropriate identifying suffix (or prefix) as part thereof) is inserted on every piece of outgoing correspondence cannot be too strongly emphasised.

Commission is in many instances hindering distribution of incoming mail, in which only a general reference is made to an outgoing communication. All departments must appreciate the valuable time wasted, in such an instance, tracing in a Headquarters of this size, the originator of the communication to which general reference only is made.

Violators of this order will be summarily arrested. All operators claiming exemption will be followed to destination and required to give name, organization and emergency nature of official business. Blackout regulations will be strictly observed.

These circulars require that all vehicle headlights, except military and civilian defense vehicles on urgent operational duty, be extinguished during a red alert. Concern has been expressed by Naval authorities over the silhouetting of vessels against the shore by shining headlights during red alerts. The Military Police are instructed to take vigorous action. Violators of this order will be summarily arrested, all operators claiming exemption will be followed to destination and required to give name, organization and emergency nature of official business. Blackout regulations will be strictly observed.

Always ask yourself, "Is this call necessary?" Every unimportant call eliminated, multiplied many times daily, greatly relieves over-crowded lines.

Please call "Information" if you cannot find the number in your directory. The operators are not required to remember the numbers.

Dial your own numbers if your telephone is equipped with a dial. Before dialing listen for the "hum". Then dial carefully and accurately. Or, in giving your number to the operator please speak clearly. Eliminating mistakes and repetition speeds calls.

Plan ahead what you want to say. Speak in a normal voice with your mouth about one inch from the transmitter. Be as brief as possible.

4. When on duty, it is the driver's responsibility to ensure that arrangements are made for his vehicle to be safe-guarded at all times.

He must ensure that any car park or DR's motorcycle park in which he leaves his vehicle is officially authorized and guarded.

5. The Military Police will not be used to guard vehicles of units other than their own. The duty at "car parks", etc, is to control traffic and the parking of vehicles, and the fact that they are present does not absolve any driver from his responsibility for safeguarding his own vehicle.

6. The practice of immobilizing vehicles often leads to mechanical inefficiency and damage.

This method of safeguarding vehicles will no longer be used, except by officers permitted to do so under par 8 below, or when ordered by Divisional or higher HQ in an operational area.

7. Disciplinary action will be taken against drivers who leave their vehicles unattended, except as in par 2 a, b, and c above; and where as a result the vehicle, or any WD property contained therein is lost, the offender will normally be tried by Court Martial.

Daily Bulletin #33, dtd 1 Mar 44, par 4, (7) cont'd.

Disciplinary action will also be considered against officers who fail to ensure that their drivers observe the provisions of this order.

8. (a) Certain Officers have been supplied with WD or requisitioned vehicles for which no military drivers have been provided.

Where compliance with the terms of this GRO would hinder such officers in the proper performance of their duties, they will apply to their Bde, or equivalent HQ for a written permit to leave their vehicles unattended when no other arrangements can be made.

(b) This permit will be in the following form:-

(Rank and name) of (Unit or Department)
is authorized to leave WD/requisitioned vehicle number.....unattended while he is carrying out military duties, provided that:
(i) there is no military driver or other person in whose care the vehicle could be left,
(ii) there is no military unit within reasonable distance under whose guard the vehicle could be placed,
(iii) the vehicles is both locked (if possible) and immobilized.

The permit will be signed by or on behalf of the Bde, etc, Commander, and will be stamped with the HQ stamp.

(c) Such a permit will not be issued unless the authorizing officer is satisfied that the vehicle can be immobilized.

(d) It will be carried by the driver and produced on request of a Military Policeman or other proper authority.

(e) Possession of such a permit does not absolve an officer from making the best possible arrangements to have his car guarded at all times, nor does it effect his responsibility for the safety of any WD property or documents, etc, which may be in the vehicle.

(f) No permits will be issued in respect of motorcycles, which will never be left unattended except as in par 2 above.

9. Particulars of WD vehicles lost by theft will be immediately reported by units (a) to their formation AFM/DAFM, and (b) direct to AFHQ (Q(AE).

Reports of the return of the vehicles will also be made.

(To be repeated in unit orders and particularly brought to the attention of all drivers.)

a. There are considerable number of officers within the army for whom no suitable assignments are available or in prospect. This condition is occasioned in part by the completion of duties for which they were called to active duty or appointed from civilian life, reduction in overhead, or changes as a result of reorganization which eliminated the officer's specific assignment. It is imperative that the relief of such officers from active duty be accomplished without prejudice to the officers concerned.

b. Any officer over 38 years of age who has served honorably, whose retention on active duty is not essential to the war effort, and who desires relief from active duty for any reason consistent with current policy, may request relief from active duty and may be relieved if his request is approved by Commanding General, MTOUSA.

c. Action will be initiated by the immediate commander concerned by submitting a report through channels. The report will contain a complete statement of the case covering specifically the situation in para a above, the date on which officer became surplus, a description of the position to which assigned immediately prior to that day, a statement as to whether the position has been eliminated, and if the reasons for which the officer became surplus are other than elimination of his position, a statement in detail of these reasons. 4. WAR BONDS:

The following message from the Secretary of War is extracted from War Department Letter, 20 December 43, for the information and guidance of all concerned:

"It is the personal advantage of every officer and member of the enlisted personnel of the Army to provide for his future financial security by systematic saving while he is in the Army. The welfare of each individual and of his dependents after the war is won may well depend upon this security.

Many of you are not taking advantage of the opportunity of saving through the Class "B" Allotment Plan for the purchase of War Savings Bonds. These bonds are not only one of the safest investments that you can make, but every dollar now loaned to the Government will speed the day of final victory and the time when you can return to your home.

It is my desire that commanding officers of all grades stress the value of saving, through investment in War Savings Bonds by means of Class "B" Allotments." (S-1)

3. TELEPHONE SERVICE (VAPOR):

Due to a change in telephone personnel at PBS, our switchboards are now manned by new operators. At the same time, numerous changes in offices and telephone numbers have caused considerable confusion. It has been found that one reason for the delay in giving prompt service is the number of questions addressed to the operators themselves. It is requested that in the future all questions or comments be addressed to INFORMATION, so that the operators will be able to devote their full time to the handling of calls. (Hq Comdt)

It is the responsibility of all officers originating cables, to indicate the internal distribution, if any, required within this Headquarters.

Of this mail, an appreciable amount was destined for personnel of this organization. The undersigned examined one package which was addressed to an Officer of this organization, and the condition of the package indicated quite clearly that the bulk of the packages could not be forwarded, and could only have been destroyed. 1. TELEPHONE SERVICE TO BARI & BRINDISI:

Three telephone circuits have been established direct from the Vabor switchboard to the civilian (Italian) switchboard at Bari. These circuits are available for use for telephone calls to Bari and Brindisi.

To place a call to Bari or Brindisi, ask the Vabor operator for Bari and when the Bari operator answers gets the details of your call. If the call is to Brindisi and the lines to Brindisi are reported "busy" ask the Bari civilian switchboard operator to give you the Bari military switchboard, and attempt to have your call completed over Bari - Brindisi military lines.

The Bari civilian switchboard operator will answer in Italian and it is pointed out that none of the operators on the civilian switchboard at Bari speak English.

Calls to Bari and Brindisi may also be made through the normal channels by dialling Naples Long Distance, 50030.

2. EXECUTIVE COUNCIL MEETING:

The Executive Council Meeting scheduled for Friday, 14 January 1944, will be held on Tuesday, 11 January 1944. Items which are desired to be placed on the Agenda of this meeting will be in the hands of the Secretary, Major VAN DUSEN, Room 5, by 1100 hours, Monday, 10 January 1944.

Many officers of both the British and American Army enter and leave this headquarters without signing in or out in the Official Register. The Officers Register is located at the Information Desk, Adjutant's Office, Mezzanine Floor.

Three telephone circuits have been established direct from the Vesor switchboard to the civilian (Italian) switchboard at Bari. These circuits are available for use for telephone calls to Bari and Brindisi.

To place a call to Bari or Brindisi, ask the Vesor operator for Bari and when the Bari operator answers pass the details of your call. If the call is to Brindisi and the lines to Brindisi are reported "busy" ask the Bari civilian switchboard operator to give you the Bari military switchboard, and attempt to have your call completed over Bari - Brindisi military lines.

The Bari civilian switchboard operator will answer in Italian and it is pointed out that none of the operators on the civilian switchboard at Bari speak English.

Calls to Bari and Brindisi may also be made through the normal channels by dialling Bettles Long Distance, 50030.

1. REQUESTS FOR AIR TRAVEL: Requests for air travel are being made to G-4 Section unaccompanied by copy of travel orders. U.S.A.A.S. (Mediterranean Air Transport Service) will not accept requests for air passage without travel orders. Henceforth it will be the responsibility of the officer concerned to see that travel orders are delivered to G-4 before request is made for air transportation. Such requests should be made 24 hours before expected time of departure. Failure to comply with the above procedure will make it impossible to secure the desired transportation. (G-4)

2. WORKING FORCE ON DUTY DURING LUNCH PERIOD: All offices will be kept open from 0830 to 1200 hours. At least one clerk will be left on duty in each office during the noon period. Rotation rosters will be maintained so that noon duty does not fall continually on any one. Offices in which there is only one enlisted man assigned, are exempt from the provisions of this order. (A.G.)
