SUBJECT: Civil Supplies - Maintenance Period 11 - 20 Feb.

TO : HQ A.C.C. (6) (for attention Lt. Col. Legg)
RAC, Sardinia (2)
CCAO, Region I (2)
CCAO, Region II (2)
CCAO, Region III (2)

1. The attached appendix shows the civil supplies which it is intended to sail from all sources to destinations as shown for the maintenance period 11 - 20 Feb.

2. Destinations shown are firm subject to ultimate acceptance by FLABO. Any subsequent variation will be notified through movement channels in due course.

3. Tonnes shown are extracted from ships manifests except in the case of the three 100/Stores ships ex MIDEAST carrying approximately 1500 tons wheat.

4. Tonnes into the mainland, including the HARFALYCUS, are as follows:

	<u>West Coast</u>	<u>East Coast</u>	<u>Regio</u>	<u>Crotone</u>	<u>Total</u>
Flambo Allocation	12,500	7,500	NIL	3,000	23,000
Tonnage	13,644	7,342	3,930	NIL	24,916
					33,916

5. The three 100/Stores ships ex MIDEAST arriving in this period at TARANTO are each carrying 500 tons bagged wheat. This wheat is part of the 10,000 tons ex AUSAVULIS. The balance of 8,500 tons is being carried in the S.S. GEMMA and discharged in NORTH AFRICA.

6. The S.S. HARFALYCUS, ex MAURITIUS, sailing in CRUS 30 will now arrive in this period carrying 8,730 tons of sugar. By request of FLABO, this ship will discharge first at BARI and, having lightened to 22 feet, will sail to REGGIO to complete discharge. Estimated tonnage at each port is: BARI 5,000; REGGIO 3,930.

785016

2. Destinations shown are firm subject to ultimate acceptance by FLAMBO. Any subsequent variation will be notified through movement channels in due course.

3. Tonages shown are extracted from ships manifests except in the case of the three MT/stores ships ex MIDEAST carrying approximately 1500 tons wheat.

4. Tonages into the mainland, including the HARPALYCUS, are as follows:

	<u>West Coast</u>	<u>East Coast</u>	<u>Reggio</u>	<u>Crotone</u>	<u>Total</u>
Flambo Allocation	12,500	7,500	NIL	3,000	23,000
Tonnage	13,614	7,342	3,930	NIL	24,886
					33,386

5. The three MT/stores ships ex MIDEAST arriving in this period at TARANTO are each carrying 500 tons bagged wheat. This wheat is part of the 10,000 tons ex Australia. The balance of 8,500 tons is being carried in the S.S. CANAPA and discharged in NORTH AFRICA.

6. The S.S. HARPALYCUS, ex MAURITIUS, sailing in CUS 30 will now arrive in this period carrying 8,930 tons of sugar. By request of FLAMBO, this ship will discharge first at BARI and, having lightened to 22 feet, will sail to REGGIO to complete discharge. Estimated tonnage at each port is: BARI 5,000; REGGIO 3,930.

7. The seed potatoes shown in the appendix are for seed potatoes for the British Army, in accordance with this HQ signal 9724 of 14 Jan (MSG 16), not to all addressees, are carried as follows:

IL 42	CLIFPARK	924
IL 43	LAURE STOUR	256
	Total	1,180

Owing to the non-sailing of the IL 38 ENGLISH MONARCH, with 1,082 tons seed potatoes, it has been agreed that the British Army shall take 1,500 in this period, and the balance of 500 in the next period.

8. Attention is drawn to this HQ signal 47012 of 3 Feb, not to all addressees, setting out a code system for notifying ADG stores discharged. It is of great importance that this information be despatched promptly so that a proper and accurate account of stores received can be maintained here. Such information is particularly essential in the case of a two-port discharge as only the recipient knows the precise commodities and tonnages unloaded at each port.

U.S. SECRET EQUALS BRITISH SECRET

U.S. SECRET EQUALS BRITISH SECRET

9. HR 866 ROBERT FECHNER is shown as destined for PALERMO. It is intended to discharge part of the cargo in MESSINA if port facilities permit. This is being investigated. HR 873 MORRISON R. WATTE will discharge PALERMO cargo first.

10. It is emphasized that only legitimate quantities of foodstuffs may be consumed whatever quantities may be received. The surplus is to be regarded as stockpiling either against future periods or subsequent transshipment. For SICILY some 12,000 tons is reckoned as surplus from this period. The sugar on UGS ships and that in the HARPALEUS should provide a surplus to cover ITALY requirements until early April even though no more were to be shipped before then. The SARDINIA surplus for this period is approximately 4,000 tons.

11. Following changes are notified for the maintenance period 1 - 10 Feb. This HQ letter MGS/13G dated 27 Jan refers:-

- (a) The HR 831 EDWARD BATES, destined for PALERMO, has been sunk.
- (b) Delay in arrival and subsequent discharge of UGS ships for NAFILES must be expected in view of port congestion. Final decision has not yet been reached.

SUBJECT: Civil Supplies - Maintenance Period 1-10 Feb.

TO : HQ ACC (C)

CCAO Region I (2)
CCAO Region II (2)
CCAO Region III (2)

1. The attached appendix shows the civil supplies which it is intended to sail from all sources to destinations as shown for the maintenance period 1-10 February.
2. Destinations shown are firm subject to ultimate acceptance by Flambo. Any subsequent variation will be notified through movement channels in due course.
3. Tonnages shown are extracted from ships manifests in all cases.
4. Total tonnages, by ports, for this period are as follows:-

Port	Naples	Bari	Crotone	Reggio	Palermo	Syracuse	Cagliari
Flambo							
Allocation	11500	5000	4000	4000	--	--	--
Tonnage	15639	6880	4013	Nil	8442	388	1472

It is emphasized that since the major part of AMG stores is carried on ballasted ocean going vessels in UGS convoys, little use can be made of shallow draught ports such as Reggio at present. It is just possible from time to time to berth a UGS ship at Crotone. Coasters are rarely available and two-port discharge must be kept down to the minimum.

5. The 1233 tons of flour shown as carried by the "Samholt" was accepted by MCS in exchange for a similar quantity discharged at Bizerte ex - "John Lawson" in accordance with AFHQ signal 41406 dated 22 January 1944.

6. AFHQ movement instruction NH 96 shows the "Enrico" as loading for Naples. This coaster has now sailed with 473 tons of flour and macaroni to join the Rome floating reserve.

7. Following alterations are notified for maintenance period 22-31 Jan. This HQ letter MCS/13 G dated 17 Jan, refers.

7. Following alterations are notified for maintenance period 22-31 Jan. This HQ letter MCS/13 G dated 17 Jan, refers,

- (a) LL 34 "Ocean Vulcan" sailed in KMS 38 with 53 tons of powdered milk. This was omitted from the appendix.
- (b) LL 36 "Empire Opossum" was shown as carrying 120 tons milk. This figure should have been 134 tons. The extra 14 tons was powdered milk.
- (c) HR 806 "Lucius Lemar" had to be diverted to Palermo to lighten sufficiently to discharge at Crotone. The AMG money and louse powder was amongst the cargo taken off. The powder will be shipped to Naples as soon as possible.
