1. Rome Province.

The condition of Public Safety was given particular attention and criminal activity curbed by the strong action of the Police.

The number of larcenies was considerably lower than in previous months and juvenile delinquency was also less active.

On the whole the situation was kept under control taking into account the widespread economic uneasiness.

2.000 uniforms have been issued which will almost meet local requirements, and 1.500 sub-machine guns have also been received but there still exist a shortage of 540 pistols and the supply ammunitions is still insufficient.

The organization of the Flying Squads have given satisfactory results.

Discontent still exists among the personnel of the Police owing to the differences still existing in the pay, and conditions of service in comparison with other Govern-

tention and criminal activity curbed by the strong of the Police.

The organization of the Flying Squads have given satisfactory results.

Discontent still exists among the personnel of the Police owing to the differences still existing in the pay, and conditions of service in comparison with other Government Departments.

The news of a possible walk-out by the police is however groundless.

During the past month 521 clandestine prostitutes were arrested, 180 were found suffering from V.D. and held in hospital, 76 were deported to their home-towns, 88 beggars and 37 pimps were also arrested.

126 needy families were given relief.

2. Other Provinces.

State of law and order except in the Province of Frosi- none where there are still frequent cases of highway robbery, has shown a further improvement in respect of last month, due to the slow but steady process of reorganization of the Police Forces.
