1. During the immediate post-war period matters of great importance to the future of the United States and many far-reaching matters of long range planning are being considered and formulated. Improper disclosure of these plans and projects would cause grave harm to the United States and seriously affect our prestige.

2. The desire of foreign nations for intelligence has reached the point where many capable professional agents are engaged in collecting information and selling it to the highest bidder. These agents are career individuals who have no patriotic motive. They are willing to go to any lengths to secure the information they think is of value in the intelligence market.

3. The provisions of AR 380-5 are designed to protect our personnel, both military and civilian, from unwittingly disclosing classified information and thus unwittingly injuring the interests of their country. Careful observance of these provisions will nullify the efforts of the espionage agent and contribute materially to efforts of the United States to insure peace.

4. Since the cessation of hostilities there has been a marked decrease in the security mindedness of all personnel both military and civilian. It has been noted that personnel newly assigned to this and other headquarters have not been properly indoctrinated in the provisions of AR 380-5.

5. The proper classification of documents is dependent upon proper judgment. Certain basic rules have been outlined in Army Regulations but these are to be used more as a guide than as a hard and fast law. Any document whose unauthorized disclosure would be prejudicial to the interest or prestige of the United States, any governmental activity, an individual; or which would cause administrative embarrassment or difficulty; or which would be of advantage to a foreign nation must be classified and safeguarded.

6. At all times, classified information will be communicated only to those whose duties require knowledge of that information. Mere presence in the same organization or office does not confer the right to knowledge of classified information to any person if such information is outside the scope of his assigned duty.

7. Army Regulation 380-5 has been revised as of 6 March 1946 and copies will be distributed shortly. All personnel who have access to classified material will be fully informed of the pertinent security safeguards and responsibilities outlined therein.

8. All non-current records and so called "dead" files will be shipped to the appropriate Records Depot in this Theater for storage or microfilming, in accordance with provisions of AFHQ Circulars Numbers 8 and 9, both 1945, and MTOUSA Circular Number 35, 1946.

9. Each Major Commander will insure that the information and instructions contained herein are brought to the attention of all members of his command. He will also insure that newly assigned personnel are indoctrinated in the proper security measures before they are given access to classified information.

10. Security personnel are available at the headquarters of each major command to assist the G-2 in carrying out security surveys and instructing all personnel on proper security precautions. It is directed that they be used more extensively for that purpose.

It is requested please that, the Internal 3 digit phone (Ext. 502) in Room 12, 5th floor be moved to another part of the room. This is necessitated by the close proximity of the 2 phones presently in operation which renders it almost impossible to hear distinctly when one rings while the other is in use. This frequently occurs owing to the heavy traffic.

3. When it is necessary for civilian clerks to return to their offices after 1830 hours they should be in possession of a written authorization from an Officer of their Section showing such return is necessary.
Civilian workmen should be in possession of a work-ticket showing the work necessary to be performed.
If an Officer wishes to see a civilian in this building out of normal office hours he should leave a note at the reception desk giving the name of the Officer, the name of the civilian and the office to which he or she is to be conducted.

From: H.Q. Commandant

Ref: H.Q. 8/3/43

1. Refer to Telephone conversation Chief P.S. - H.Q. Commandant it is felt that the internal security of these H.Qs would be improved if escort service and further supervision were provided for visitors.

2. Neither enlisted men or other ranks are available for this purpose. It is felt that uniformed personnel such as Carabinieri, would be preferable to civilians.

3. Ten persons would be required for 8 Via Bari, 8 and a D'Italia and 73 Via R. Settino.

4. Could this number be ordered to report to my Internal Security Officer (Captain Evans) as soon as possible.
