HEADQUARTERS
ALLIED COMMISSION
APO 79414025/3

17 October, 1946

SUBJECT: Internal Security.

TO : All Occupants of the Allied Commission Building.

1. During the past month there have been numerous incidents of thefts and unwarranted entrance in the Allied Commission offices at night and on Wednesday and Saturday afternoon and Sundays. On the night of 5-6 October entrance was made into a room on the ground floor and the thief was apprehended on Via Veneto with one typewriter, and investigation showed that he had two more typewriters on the window sill ready for his return trip. His statement in part was: "I saw the window open and it gave me the idea to enter the building and see what I could steal."

2. The present system of internal security is definitely unsatisfactory. There are no Military Police, either British or American, available to assist in this duty, hence the following measures will be instituted effective at 0800 hours, 21 October 1946.

a. All outside doors of Allied Commission building except the main door (glass) will be locked at 1815 hours each evening, Monday through Friday; at 1300 hours on Saturday and all day Sunday and will remain locked until 0800 hours the following morning.

b. The main door (glass) will be locked at 1900 hours each evening; at 1400 hours Saturday and will remain locked on Sunday. It will be necessary for any officer who has essential business to enter the building the time the main door is locked, to contact the Duty Officer, (Phone No. 433) or by bell on main door to admit him at the main door. The key to the main door will be retained in the possession of the Duty Officer, who will personally admit visitors to the building. This responsibility will NOT be delegated. No civilians and no EM or GI's will be permitted to enter the building during the hours the main door is locked unless accompanied by a British or American Officer, except those assigned to definite duty in the building such as Message Center, telephone switchboard, etc. They will have a written pass signed by the Director of the Division for which they work, and will be checked in and out by the Duty Officer.

c. No person will be permitted to remove any article from the building without a signed authority therefor from the Camp Commandant (R), or the Adjutant, 7106th Regiment. (The custom of taking Government typewriters from this building for night work at billets, is hereby discontinued).

d. The old fire regulations requiring that offices be left unlocked are herewith rescinded. Each Division may lock the doors of their offices. However all windows will be closed and locked at the end of the day. Desks will be kept locked during non-duty hours. This is the responsibility of the personnel concerned. When doors are locked necessary arrangements will be made for admitting of cleaning personnel to clean offices by divisions.

c. The post of the Duty Officer will be in the vicinity of the main door during his duty hours and it will be his responsibility to see that the Italian Carabinieri understood and thoroughly carry out these instructions. He will, also, during his tour of duty, by personal inspection, insure that the CCTR who patrol the different floors in the building, are performing their duties properly.
