Correction to Minutes of Executive Council
23rd Meeting, 4 February 44

1. At the request of Lieut. Col. Jenny, para.244 (c) of the Minutes of the 23rd Meeting of the Executive Council is corrected to read as follows:

" The Public Works Ministry is not yet certain as to where the division will be in the functions between Public Works and the Industry and Commerce Ministry. Whatever that will be, it is quite apparent that there will have to be close co-operation between our Public Works and Industry and Commerce Sub-Commissions."

Lewis H. Van Dusen, Jr.
LEWIS H. VAN DUSEN, Jr.,
Major, Ord.,
Secretary.

230. The Chairman called the meeting to order at 1430 hrs.

231. The Chairman stated that he wished the Director of each Sub-Commission to give a brief statement of the principal activities of that Sub-Commission during the past two weeks, so that all present both from H.Q. and the field would have a general idea what each Sub-Commission was doing and the chief problems which confronted it.

232. Interior Sub-Commission. (Lt.Col.Spicer)

(a) The chief activities of this Sub-Commission during the past two weeks was the translation of the text of various Italian laws and decrees relating to local government, and the checking of reports from the Italian Government relating to conditions in King's Italy.

(b) The Sub-Commission has also dealt with a number of applications for the appointment and removal of public officials. The Italians often desired the appointment of officials in unoccupied territory which A.M.G. had removed. In a few cases the Italians had tried to put forward men who were of poor calibre.

(c) Little had been done as yet on the ecclesiastical side and no difficulties had been encountered.

233. Public Safety Sub-Commission. (Col. Kirk)

(a) The activities of this Sub-Commission to-date had been advisory rather than operational.

(b) In connection with the police little direct contact was made at H.Q. because dealings with the Italian Police were largely handled by the Regions. The coordination of civilian internees had been worked out between the various Headquarters. It is believed that in the future this will largely be handled by the Army. Considerable effort has been made to procure arms, equipment and pay for the Carabinieri.

(c) Studies have been instituted of prisons in an effort to alleviate the congestion in Region 2. This could be done either by obtaining the release by the military of some of the prisoners now used by them; by turning over to the Italian Government the problem of caring for prisoners sentenced by Allied Military Courts, and by the removal of any civilian internees that still might be incarcerated in prisons.

(d) A study has been instituted in connection with the Fire and Civilian Defence organisations and their equipment. An effort was being made to coordinate the various agencies for registration and licensing.

- (a) The activities of this Sub-Commission to-date had been advisory rather than operational.
- (b) In connection with the police little direct contact was made at H.Q. because dealings with the Italian Police were largely handled by the Regions. The coordination of civilian internees had been worked out between the various Headquarters. It is believed that in the future this will largely be handled by the Army. Considerable effort has been made to procure arms, equipment and pay for the Carabinieri.
- (c) Studies have been instituted of prisons in an effort to alleviate the congestion in Region 2. This could be done either by obtaining the release by the military of some of the prisons now used by them; by turning over to the Italian Government the problem of caring for prisoners sentenced by Allied Military Courts, and by the removal of any civilian internees that still might be incarcerated in prisons.
- (d) A study has been instituted in connection with the Fire and Civilian Defence organisations and their equipment. An effort was being made to coordinate the various agencies for registration and licensing.

234. Public Health Sub-Commission.

(Brig. Parkinson)

- (a) The typhus epidemic in Naples has been stayed for the moment. Cases have fallen from 35 to 40 down to 17 to 25 a day. However, there are still a substantial number of cases and the epidemic is far from over. Experiments were being made of the new disinfection equipment. A Typhus Board has been set up on which representatives of the Army and Navy and A.C.C. sit. This Board will not exist permanently as the Army and Navy are anxious for A.C.C. to take over the problem as soon as possible.
- (b) A survey had been made of the hospital situation. One of the chief problems is securing an adequate ration of food for hospital and institutional purposes, as the inmates were not able to supplement the regular ration with additional food from outside sources.

-3-

- (c) Contacts have been made with the various veterinary sources, and laboratories are being set up for the provision of serum.
- (d) The Venereal Disease problem in Naples and in the 5th Army area is still tremendous. The authorities are trying to combat the evil by putting un-licensed houses out of bounds to troops, and by instituting hospital treatment for the cases found, but the figures are still high.
- (e) Red Cross clothing has recently arrived and is being distributed.
- (f) A Program has been undertaken for the control of malaria during the coming season which promises to be a sizable problem, as the irrigation ditches have been destroyed. Every effort must be made to restore adequate malarial controls.

The Chairman emphasized the necessity of each R.C.A.O. recognizing, treating and reporting every case of typhus in his area. A.C.C. will have to take over the typhus problem even in Naples as soon as possible, and the situation must be watched closely to prevent any spread.

235. Legal Sub-Commission.

(Col. Unjohn)

- (a) The Minister of Justice was not very strong but could act on a low level as he had in Foggia when he set up a Court of Appeal there because the usual Court of Appeal operating from Bari was unable to function in Foggia.
- (b) The publication of decrees originating in King's Italy was frequently desirable in occupied territory, as it would mean fewer general orders and a more unified system. A program has been instituted for making such decrees effective in occupied territory. Each Sub-Commission should submit any decrees promulgated in Italian territory which it thought should be made effective in occupied territory.
- (c) The Italian Government has been very cooperative in connection with the suggestions of this Sub-Commission for the appointment and promotion of judicial officials. He seldom allowed men to leave posts in occupied territory, as they had been trying to do in Region 2, and then secure judicial appointments in Italian territory. No recommendations of this nature were made or approved except after careful vetting, in an effort to see that they were in the interest of all concerned.
- (d) At present as in the past many cases were unnecessarily tried in the Allied Courts, particularly in Sicily. Many of these cases could be handed over to the Italian Judicial system. The Allied Courts should try only cases in which Allied interests were directly involved, after the Italian Courts began to function in any area.

(e) A.C.C.A.O.s. should notify the Legal Sub-Commission at once if any

usual Court of Appeal operating from Bari was unable to function as
Foggia.

- (b) The publication of decrees originating in King's Italy was frequently desirable in occupied territory, as it would mean fewer general orders and a more unified system. A program has been instituted for making such decrees effective in occupied territory. Each Sub-Commission should submit any decrees promulgated in Italian territory which it thought should be made effective in occupied territory.
- (c) The Italian Government has been very cooperative in connection with the suggestions of this Sub-Commission for the appointment and promotion of Judicial officials. He seldom allowed men to leave posts in occupied territory, as they had been trying to do in Region 2, and then secure Judicial appointments in Italian territory. No recommendations of this nature were made or approved except after careful vetting, in an effort to see that they were in the interest of all concerned.
- (d) At present as in the past many cases were unnecessarily tried in the Allied Courts, particularly in Sicily. Many of these cases could be handed over to the Italian Judicial system. The Allied Courts should try only cases in which Allied interests were directly involved, after the Italian Courts began to function in any area.
- (e) All R.C.A.O.s. should notify the Legal Sub-Commission at once if any Legal personnel were placed in office so that the Legal Sub-Commission could be kept informed of the work being done by their personnel.

2328

The Chairman emphasized the importance of the last two items mentioned by Col. Upjohn and also indicated that the decrees of the Italian Government should not be published in occupied territory unless separately promulgated or approved in some form.

236. Education Sub-Commission. (Major Washburn)

- (a) The vetting of all personnel for previous Fascist activities continues. The higher officials are vetted by H.Q., and the lower officials by the Regions.

-4-

- (b) Some textbooks have been completed and are being printed in Palermo for use in Sicily and Calabria. Those intended for the balance of Italy would be printed in Naples as soon as paper became available.
- (c) A Local Committee was being set up to handle youth problems, using Naples as a test ground.
- (d) A survey was being made of the Italian School system, including the allocation of the various schools and statistics relating to their condition and capacity.
- (e) Detailed instructions were given to all Directors of Education in the provinces indicating how they were to proceed in educating the youth.

The Chairman asked to what extent Italian youth had become saturated with Fascist doctrine. Major Washburn replied that he thought that they were not as badly affected as the German youth were by Nazism, and many of them in the south were thoroughly sick of the Fascist teachings.

237. Property Control Sub-Commission. (Lt. Col. Harris)

- (a) Administrative Instructions are being brought up-to-date for use in Regions III and IV so that a coordinated and uniform program will be in operation.
- (b) Efforts are being made to regularize the position of Allied and French property in King's Italy.

238. Fine Arts and Monuments Sub-Commission. (Lt. Col. Cripps, S.O. Admin. Section)

Since most damage to historical and artistic objects was done by our troops rather than by the enemy, the representatives of this Sub-Commission should be sent forward with the troops to prevent damage. Brig. Lush said that he thought that it was the lines of Communication troops that did the damage and not the fighting troops. The Chairman said that he thought that it was a question of constantly educating the troops as to the objects and buildings which must be preserved. Lt. Col. Harris stated that in Region IV Allied property was posted by the R.C.A.O. indicating that it was out of bounds to troops, and that a similar program might be used in respect of historical or artistic monuments.

239. Industry and Commerce Sub-Commission. (Col. Evans)

The program of this Sub-Commission fell into three branches :

(a) Rehabilitation

238. Pine Arts and Monuments Sub-Commission. (Lt.Col.Cripps, S.O.Admin.Section)

Since most damage to historical and artistic objects was done by our troops rather than by the enemy, the representatives of this Sub-Commission should be sent forward with the troops to prevent damage. Brig. Lush said that he thought that it was the lines of Communication troops that did the damage and not the fighting troops. The Chairman said that he thought that it was a question of constantly educating the troops as to the objects and buildings which must be preserved. Lt.Col.Harris stated that in Region IV allied property was posted by the R.C.M.O. indicating that it was out of bounds to troops, and that a similar program might be used in respect of historical or artistic monuments.

239. Industry and Commerce Sub-Commission. (Col.Evans)

The program of this Sub-Commission fell into three branches :

- (a) Rehabilitation of industry, which was limited by shortage of coal and power.
- (b) The allocation of raw materials and collection of information thereon for the Local Resources Boards.
- (c) The export of surplus commodities.

Mr. Crady said that Col. Koenig of the Public Works and Mines Sub-Commission had indicated that Sardinian coal was much better than the local people thought. If certain equipment is received as expected these mines will be able to produce a million tons annually by June. The chief limiting factor was transportation.

-5-

240. Electric Power Mission. (Major Barry)

The program for supplying power to Rome from the south in the event that the installations in Rome itself were destroyed by the retreating forces was explained. Power needed for operating the Vatican, which would probably not be cut off by the Germans, would not assist the population very much.

241. Labor Sub-Commission. (Col. Hain)

- (a) The re-organization of the employee exchanges in Sicily was being undertaken, as the present system of registration was found to be useless. In Catania reports of a black market in skilled labor had been received, in order mobilizing all labor was being prepared to prevent it.
- (b) The Provincial Labor Offices were about to be placed under the Ministry of Labor rather than under the Prefects, because appointments had been influenced by politics.
- (c) Orders had been issued recently permitting labor unions to organize freely. King's Italy had agreed to abolish the syndical system of labor organization. An officer has been assigned to keep in touch with newly formed labor organizations. He has talked to the leading members of the recent Bari Conference and believes that the political parties will not disturb the unions until they are formed, after which they will no doubt have some political connection. The people organizing unions were for the most part groping in the dark and have received considerable advice from the Sub-Commission.

- (d) The Italian social insurance system was extremely complicated. It was being studied and overhauled.

242. Agriculture, Forestry and Fisheries Sub-Commission. (Major Dickie)

- (a) Every effort is being made to plant the seed for the coming season in time and to secure an equitable distribution of the available fertilizers and insecticides.
- (b) A census is being taken of the present agricultural productive capacity, because the existing statistics were found to be so old as to be of no real value.
- (c) Efforts are being made to organize more effective control of agricultural production, which program is being worked out with the Italian Government.

[illegible]

- (a) The Italian social insurance system was extremely complicated. It was being studied and overhauled.

242. Agriculture, Forestry and Fisheries Sub-Commission.
(Major Dickie)

- (a) Every effort is being made to plant the seed for the coming season in time and to secure an equitable distribution of the available fertilizers and insecticides.

- (b) A census is being taken of the present agricultural productive capacity, because the existing statistics were found to be so old as to be of no real value.

- (c) Efforts are being made to organize more effective control of agricultural production, which program is being worked out with the Italian Government. The cooperation of the Italian Government including the Ministry of Agriculture has been very satisfactory.

- (d) A survey of forests and the creation of a system for their control is in progress.

- (c) Efforts are being made to remove as many restrictions as possible from the fishing areas, and to find proper equipment for the fishing fleets.

The Chairman asked if any collective farming had existed in Italy. Major Dickie thought there had been some but that it was not very widespread. Owing to the fact that his staff in the Regions was limited, there had been little opportunity to go into this question thoroughly.

In response to a question by the Chairman, Major Dickie stated that it would probably be necessary to release on leave certain soldiers during the coming harvest. Already the calling up of young men had produced complaints in Fougia.

-6-

243. Food Sub-Commission. (Lt.Col.Legr)

- (a) It was explained that although this Sub-Commission was only two weeks old, efforts were already being made to secure an equitable distribution of the available sources of food. Close collaboration is being maintained with the Internal Transportation Sub-Commission, because the handling of bulk wheat from warehouse to consumer was chiefly a question of road transport.
- (b) A conference is being held this weekend of all the Supply Officers. The chief problems are those relating to milling, the provision of sacks, and the allocation between maintenance and build-up. At the conference it would be ascertained how the Regions wanted the jobs done, and this H.Q. if possible would try to do it that way.
- (c) One of the chief present problems is the existence of different ration scales in different areas. For instance in the 8th Army area 150 grams is allotted to light workers, and as much as 500 grams daily to heavy workers. Such rations could not be supplied. In other Regions a pasta ration had been set up even though it was not included in the basic standard ration. The standard ration scale should be adhered to until there was enough available to increase it for all. Heavy workers were entitled to more food than light workers, but that they should secure this additional quantity by the issuance of a supplementary ration over the standard ration, and not by fixing different scales.
- (d) Additional warehouse space was necessary in order to provide for the bulk supplies which were being imported. An example of this was the expected receipt of 2,000 tons of sugar at Bari and Reggio to last for a considerable period of time. Owing to the exigencies of the shipping situation, this quantity was being received at once instead of over the period during which it was needed.
- (e) Sufficient extra supplies existed to care for the needs of hospitals and institutions. If the Director of the Public Health Sub-Commission made recommendations for supplementary rations, they could in large part be granted.

Brig. Lush emphasised the importance of letting the Regions know at all times what could be expected in the future in the way of food supplies.

A discussion then followed concerning the new A.F.H.Q. memorandum authorising all labor employed by the Armed Forces to receive a midday meal from Army rations. Lt.Col.Poletti emphasised the impossibility of supplying a midday meal for workers spread over a large area, and considered that there was no great demand for it. It was suggested that the Army should consider the

(d) Additional warehouse space was necessary in order to provide for the bulk supplies which were being imported. An example of this was the expected receipt of 9,000 tons of sugar at Bari and Reggio to last for a considerable period of time. Owing to the exigencies of the shipping situation, this quantity was being received at once instead of over the period during which it was needed.

(e) Sufficient extra supplies existed to care for the needs of hospitals and institutions. If the Director of the Public Health Sub-Commission had recommended for supplementary rations, they could in large part be granted.

Brig. Lush emphasized the importance of letting the Regions know at all times what could be expected in the future in the way of food supplies.

A discussion then followed concerning the new A.F.H.Q. memorandum authorizing all labor employed by the Armed Forces to receive a midday meal from Army rations. Lt.Col.Poletti emphasized the impossibility of supplying a midday meal for workers spread over a large area, and considered that there was no great demand for it. It was opposed by Noel District, by the Navy and by I.D.S. in Sicily, and it was used only as a bribe to pirate good workers away from their present employment. Lt.Col.Poletti said that the best way to control the workers was to insist on absolute equality.

The Chairman then requested Brig. Lush to call in all R.C.A.Os. for a meeting with the Food Sub-Commission in order to work out the policy on the Subject.

244. Public Works and Mines Sub-Commission. (Lt.Col.Jenny)

(a) A.F.H.Q. has started a program for the maintenance of military highways in Regions II, III, and IV under the supervision of this Sub-Commission. There are 3,000 kilometres of highways now included in the program. Under this program the Army fixed priorities, the Italian Engineering authorities made a survey of the materials needed and of the local availability of these materials. The Army furnished these materials that were not locally available. The Sub-Commission supervised the execution of the work, and made certain that the money was properly spent and that the priorities were maintained. Most of these jobs were handled by A.F.Q. rather than from the Regions so that one group could deal with the organized Italian engineering authorities. It is impossible to provide food for workers on highways covering 3,000 kilometres.

(b) The rationing of electricity is becoming increasingly important because of the shortage of power, and all users are being urged to cut down wherever that is possible.

(c) The Ministry of Public Works of the Italian Government covers the entire engineering field, including the re-habilitation of all industry. Therefore, it is not only this Sub-Commission but also the Industry and Commerce Sub-Commission will have to deal with that Ministry.

245. Finance Sub-Commission. (Lt.Col.Miller)

(a) One of the most serious existing problems is the failure of the present tax structure to provide the necessary revenue. Officers have been detailed to the field to stimulate the activity of the tax collecting agencies.

(b) The sale of Postal Savings Bonds is about to commence.

(c) Payments to refugees of the United Nations except those from the U.S. or U.K., have been made at the low relief scale paid to Italians. An increase in these payments is being arranged. Remittances to Sicily from the U.K. and U.S. are being authorized through the Combined Chiefs of Staff whereby restricted amounts may be sent from those places to relatives and friends in Sicily.

(d) It is hoped that the Bank of Italy will soon be operating on a completely national basis.

(e) Studies are constantly being conducted concerning currency and revenue in liberated Italy. If the presses and plates in Rome have been destroyed it is probable that private printings of Italian currency will be made in the U.S.

246. Internal Transportation Sub-Commission. (Col.Fitch)

(a) He outlined the difficulties that were encountered in securing sufficient transport from the armies, particularly rail transport. Now that some passenger trains are being run a permit system will have to be worked out which can be operated by the Italian Government.

(b) Transport by ship has been impeded by the fact that most small ships which could be used for coastal work have been chartered by some branch of the Armed Forces.

1574

in these payments is being arranged and U.S. are being authorized through the Combined Chiefs of Staff whereby restricted amounts may be sent from these places to relatives and friends in Sicily.

(d) It is hoped that the Bank of Italy will soon be operating on a completely national basis.

(e) Studies are constantly being conducted concerning currency and revenue in liberated Italy. If the presses and plates in Rome have been destroyed it is probable that private printings of Italian currency will be made in the U.S.

246. Internal Transportation Sub-Commission.

(Col. Fitch)

(a) He outlined the difficulties that were encountered in securing sufficient transport from the armies, particularly rail transport. Now that some passenger trains are being run a permit system will have to be worked out which can be operated by the Italian Government.

(b) Transport by ship has been impeded by the fact that most small ships which could be used for coastal work have been chartered by some branch of the Armed Forces.

(c) On the matter of road transport the Chief Commissioner has been able to secure a promise for a thousand vehicles from the Commanding General in charge of the Italian theater, provided that some organization could be developed within the next two months to handle this transport so that formations of the Army would no longer be faced with requests for their transport from A.C.C. Two hundred of these vehicles are now available and the rest will be made available when the organization to handle them has been fully established. The operation of these lorries will be handled by a civilian organization created for the purpose and supervised by A.C.C.

The Chairman emphasized the necessity of forming this organization within the next two months so that at the end of this period he could tell General Alexander that he was ready to accept the lorries.

-8-

247. Shipping Sub-Commission (MEDSO). (Mr. Ian Campbell)

He said there was two classes of shipping, ocean going ships which had been taken over for military and naval uses, and coastal shipping. Efforts were being made to determine which schooners, if any, were available for coastal shipping, which goods had to be carried in them, and who was to operate them. MEDSO decides which ships ought to be used for essential coastal sea movements.

248. Political.

The Chairman then stated that the recent conference in Bari had indicated that these groups desired the King to abdicate, but beyond this they had no fixed program as to their future operation, or as to the form of Government which they desired to set up in Italy. There were a large number of political currents which were too complex for any brief description. The fact that the Government has not the full support of the people hampers A.C.C. because the Government is not confident enough of its position to press strongly for important action that should be taken. However, it is the job of A.C.C. to treat the existing Italian Government as an Administrative machine rather than as having any particular political complexion, and to work with it to produce as efficient a governmental organization as possible.

249. Regional Control and Military Government Section. (Brig. Lush).

This Section deals directly with the field. An important branch of the Section is the one which handles refugees and prisoners of war, and other surplus people. There were two parts to this work:

- (a) The amalgamated Prisoner of War and Displaced Persons Sub-Commissions, under Colonel Kirkwood. This group deals with the non-Italian Displaced Persons, including civilian internees, and has the responsibility of caring for them in camps while they are in Italy and then sending them abroad at appropriate times. It has been operating exclusively on the eastern side of the Peninsula, chiefly because there were so many Yugoslavs involved. Approximately 6,000 persons have already left the Peninsula as a result of the activities of this group.

- (b) Lt. Col. Hulls deals with the Italian refugees displaced by the fighting. An Italian Committee has been set up to assist and work with the Sub-Commission. The duties of this group consist of collecting people in the forward areas and sending them to the rear areas where they are handed over to Italian officials. It is hoped that the provision of food and the caring for these persons can soon be handed over to the Italian authorities.

Brig. Lush emphasised that these groups, both because of the public interest

(a) The amalgamated Prisoner of War and Displaced Persons Sub-Commissions, under Colonel Kirkwood. It has been operating exclusively on the eastern side of the Peninsula, chiefly because there were so many Yugoslavs involved. Approximately 6,000 persons have already left the Peninsula as a result of the activities of this group.

(b) Lt. Col. Hulls deals with the Italian refugees displaced by the fighting. An Italian Committee has been set up to assist and work with the Sub-Commission. The duties of this group consist of collecting people in the forward areas and sending them to the rear areas where they are handed over to Italian officials. It is hoped that the provision of food and the caring for these persons can soon be handed over to the Italian authorities.

Brig. Lush emphasized that these groups, both because of the public interest manifested in their operations and because of the suffering which they could avoid, should be given every sort of cooperation in the regions.

250. Telecommunications and Postal Sub-Commissions. (Col. Henderson)

(a) It had been very slow work securing the release of circuits by the Army for civilian use, and securing the necessary stores for the rehabilitation of such circuits.

(b) The Italian Government has been hard-pressed because, for military reasons, it has not been allowed to use the wireless. It is hoped that soon communications to Sicily and Sardinia can be sent by the Italian Government over Allied Military Circuits.

-2-

- (c) Civilian Postal Service has been started in Regions I and II, but not in Naples or abroad. The availability of the necessary censura is the limiting factor. It is hoped that foreign mails might start on a restricted basis by February 15.
- (d) The maintenance of standard rates for such civilian telecommunication and postal services as did exist is most important.
251. The Chairman stated that the Navy Section was operating at Taranto, with a representative in this area, that the Air Section was operating at Bari, and that the Military Section was in Lecce where it would have to stay for the present because the Italian War Ministry was remaining there. As soon as the Comando Supremo moved to Salerno, Brig. Duchesne would accompany it. As soon as Rome fell the H.Q. of these three services on the Italian side would be set up there and the A.C.C. representatives would also be there, although the Naval and Air operations would possibly continue to be directed from the south.
252. The meeting adjourned at 1655 hours.

2323

223. The meeting was called to order by the Chairman at 1500 hrs.

224. The Chairman said that as from 0001 hrs. 25th January 1944, ACC and AMG would become one organization under his administration from this Headquarters, which would be known as HQ. ACC. He said that AMG 5th and 8th Armies will continue to function, controlled operationally by the tactical Commanders, but administered technically by HQ. A.C.C.

The Chairman emphasized the importance of the work that had to be done. General Maitland Wilson has appointed General Alexander Acting President of A.C.C. and the main task of this Headquarters was to relieve General Alexander of the necessity of ever looking over his shoulder, so that he could concentrate on operations. All members of the organization must pull together and previous misunderstandings must be buried.

-1-

CONFIDENTIAL

225. The Chairman referred to the abolition of C.E.C. whose functions would now be taken over by Mr. Grady's Section. The overriding question was feeding the population and the problem was divided as follows:

- (a) Reception of goods at ports
- (b) Distribution of goods to the consumers

Arrangements had been made for acquiring 1000 lorries and these would be organized into companies of 25 or 50 vehicles under Italian military units.

226. The Chairman said the restoration of Regions I and II to the Italian Government was again imminent. For the time being he would maintain the Regional organization and, after the turn over, would place the four lower provinces of Apulia under Region II. After the turn over officials in the Regions would have advisory instead of executive functions and Subcommissions must make contact with them so that they become tenacles of the Subcommissions.

227. Mr. Grady laid emphasis on the great importance of the food problem. The difficulties were many, among which were inadequate warehousing facilities, guarding of warehouses and the shortage of transport in spite of the 1000 lorries. He felt confident, however, that the problem can and will be tackled successfully.

228. The Chairman said it was his intention to make an organizational sign for A.C.C. which would appear on all A.C.C. vehicles, military and civilian, on armbands, warehouses, flags, etc. He considered this would raise morale and have the effect of emphasizing the importance of the work the organization had to perform.

229. The meeting was adjourned at 1545 hrs.

208. The meeting was called to order by the Chairman at 1500 hrs.

209. D.C.C.A.O. reported that many of the major difficulties which had been holding up the transfer of territory to the Italian Government have now apparently been met. Higher Headquarters have approved the proposed terms of transfer. It was now a question of securing their acceptance by the Italian Government. While no exact estimate on time is possible, the transfer might occur in a month's time. In the meantime the military government would continue to be conducted with a view to providing a smooth transition from AMG to ACC when the transfer was made.

CONFIDENTIAL

CONFIDENTIAL

210. D.C.C.A.O. stated that an office memorandum would be issued shortly notifying all parties concerned that the Vice-President and Deputy Vice-President of the Economic and Administrative Section were on duty in Naples and that matters of policy in this field should be referred to them.
211. The Deputy Vice President of the Economic and Administrative Section, and the representative of this Headquarters on the Central Economic Committee, explained that it was essentially a coordinating and implementing Committee. He said that it had been decided that matters involving this Headquarters would be taken through channels and not directly to the Subcommittee involved. All important communications between this Headquarters and the Central Economic Committee should channel through him. D.C.C.A.O. stated that this Headquarters had promptly answered the call for personnel for the Central Economic Committee in virtually all cases but that from now on it would be of great assistance to this office if personnel were not requested by name but rather that requests specify the qualifications desired. The Vice-President and Deputy Vice-President concurred.
212. Copies of the reports to the Engineering Materials Committee were requested by the Deputy Vice President of the Economic and Administrative Section. The Chief of the Industrial Planning Staff stated that he could secure them in so far as they related to the rehabilitation of

channel through him. D.C.C.A.O. stated that this Headquarters had promptly answered the call for personnel for the Central Economic Committee in virtually all cases but that from now on it would be of great assistance to this office if personnel were not requested by name but rather that requests specify the qualifications desired. The Vice-President and Deputy Vice-President concurred.

212. Copies of the reports to the Engineering Materials Committee were requested by the Deputy Vice President of the Economic and Administrative Section. The Chief of the Industrial Planning Staff stated that he could secure them in so far as they related to the rehabilitation of industry.

213. D.C.C.A.O. explained the AFHQ directive requiring monthly reports and emphasized the necessity of receiving the monthly reports from Subcommittees promptly. It was decided to circulate the weekly situation reports to the various Subcommissions.

214. The acting Chief of the Monuments, Fine Arts and Archives Subcommission reported on the work of the Commission of Enquiry, appointed to investigate the damage done to works of art and historical monuments in Italy.

215. The Vice President of the Economic Section stated that owing to the preparation of regular reports it would not be necessary for any special

CONFIDENTIAL

reports to be submitted by the Subcommittees to him in accordance with a recent request which he had made.

216. The Deputy Director of the Interior Subcommittee asked which matters of policy could be brought up in the Executive Council more appropriately than directly through channels. The D.C.C.A.O. outlined the history of the Executive Council and stated that there was no answer to this question but that, if an important question of policy arose which members believed could profitably be discussed with the full council, such an item could appropriately be placed upon the agenda.

217. At the request of the Chief of the Public Works and Mining Subcommittee, it was decided that the R.C.A.O., Region V should report to these Headquarters with a nominal roll of personnel as soon as he arrived in Italy, so that qualified personnel could be supplied to these Headquarters for special jobs from Region V.

218. The Director of the Public Works and Mining Subcommittee requested that some program be worked out so that Italian officers who repeatedly came to see him at this office could more readily be furnished with passes in order to avoid delay. Col. Young was instructed to work out a system of permanent passes to cover any Italian governmental or other officials who were frequently authorized to visit the office.

219. The Chief of Staff stated that the American Regimental and British Headquarters could not come to Naples at this time because the building intended for them had been taken over as a typhus hospital. Efforts were being

made for these Headquarters further south.

2321

so that qualified personnel could, be supplied to these Headquarters for special jobs from Region V.

218. The Director of the Public Works and Mining Subcommittee requested that some program be worked out so that Italian officers who repeatedly came to see him at this office could more readily be furnished with passes in order to avoid delay. Col. Young was instructed to work out a system of permanent passes to cover any Italian governmental or other officials who were frequently authorized to visit the office.

219. The Chief of Staff stated that the American Regimental and British Headquarters could not come to Naples at this time because the building intended for them had been taken over as a typhus hospital. Efforts were being made to secure accommodations for these Headquarters further south. 2321

220. The Chief of Staff stated that an Archivist had arrived to keep an accurate record of the Allied Control Commission. He requested all Senior Officers to cooperate with him as much as possible.

221. The Chief of Staff stated that the problem of servants and other equipage for small Officer's messes in the regions was under discussion. He hoped that a scheme would soon be worked out which would avoid undue expense and hardship.

222. Meeting adjourned at 1600 hours.

197. The meeting was called to order by the Chairman at 1500 hours.

198. The minutes of the last meeting were read and approved.

199. The Deputy Chief of Staff (Operations and Intelligence) explained that he had a proposed directive (Exhibit A attached to original minutes) outlining generally the relations between these Headquarters (Hqs) and the various Regional Headquarters. These drafts were distributed after the meeting. Each member was requested to read the draft, to make any corrections necessary from the stand-point of his activities, and to prepare a list of specific points, if any, upon which action by R.C.A.O.s was to be limited and also any field of activity within his jurisdiction which was to be handled exclusively by Headquarters in accordance with paragraph 1(b) of the Proposed Directive. The Deputy Chief of Staff (Operations and Intelligence) then stated that a similar proposed directive would be prepared and distributed shortly covering the relationship between Headquarters A.C.G. and any Regional organizations which might exist under A.C.G. conditions. This proposal would also be accompanied by limitations upon the powers of Regional Headquarters in specific fields when it was in final form.

200. The Chairman stated that the assignments of officers requested in Item 195 should be submitted by each Sub-Commission to the Acting Chief of Staff personally. (action all members)

201. The Chairman stated that the directive called for in Item 194 (c) could be submitted at a later date which would be specified.

CONFIDENTIAL

202. The Chief Legal Officer then stated that when territory was handed over to the Italian government, immediately all AMG Proclamations and Orders became null and void. Therefore, it was necessary to prepare, in advance, orders and decrees to be put into effect at that time by the Italian Government, wherever it was necessary or desirable to continue the regulations established by AMG. Each member was urged to submit to the Chief Legal Officer the orders or decrees which he wished carried over in this manner in the field in which he was operating. (Action all members)
203. The Chairman then stated that when more territory was turned over to the Italian Government it would have to establish itself near Naples and these Headquarters would have to be established in the same vicinity. However, there was no single location sufficiently large to house the Italian Government and all of A.C.C. Headquarters. Therefore, it would probably be necessary to split these Headquarters so that between $\frac{1}{2}$ and $\frac{2}{3}$'s of the officers would be stationed 30 miles from the Italian Government. All members should consider how this split up was to be effected with regard to their personnel and should take the matter up with the Deputy Chief of Staff (Operations and Intelligence).
204. The Chairman advised the meeting that General Patton had held a meeting to inform himself about the existing unrest in Sicily arising out of the food shortage. As a result of the conference General Patton had agreed to cable AFHQ requesting 10,000 tons of flour at once. These Headquarters had sent a similar cable.
205. The Chairman then explained that the Directors of some Sub-Commissions had gone to Naples to attend certain conferences called by the advanced Echelon of AFHQ now located there. These conferences were of Local Resources Boards which were to ascertain the quantity of the resources available and then to appertain thereupon the various groups interested. AMG is responsible for supplying the necessary information on the resources available. All groups, including the Army, were responsible for making their requirements known. These representatives would return to these Headquarters when the conferences were completed.
206. AFHQ advanced Echelon in Naples had requested these Headquarters to supply a number of officers for specific work in that area. This request is being cleared through the C.C.A.O. If he agrees, the officers will be sent to Naples on detached service. They will rejoin these Headquarters when it moves to that area.
207. The meeting adjourned at 1555 hours.

Review, H. G. A. 1/4
LEWIS H. V. L. DUSTY, JR.,
Captain, Ord.

of AFHQ now located there. These resources available and those which were to ascertain the quantity of the resources interested. AFHQ is responsible for apportioning them upon the various groups interested. All groups, supplying the necessary information on the resources available. All groups, including the Army, were responsible for making their requirements known. These representatives would return to these Headquarters when the conference was completed.

206.

AFHQ advised Echelon in Naples had requested these Headquarters to supply a number of officers for specific work in that area. This request is being cleared through the C.C.A.O. If he agrees, the officers will be sent to Naples on detached service. They will rejoin these Headquarters when it moves to that area.

207.

The meeting adjourned at 1535 hours.

Major W. A. Hartman	Acting Director of Agriculture
Major P. K. Baillie-Reynolds	Deputy Director of Fine Arts
Major R. W. Desmond	Acting Chief of Information
Captain Charles Poore	Public Relations Officer
Captain L. H. Van Dusen	Secretary

The meeting was called to order by the Chairman at 1500 hours.

Colonel J. R. Bain	Acting Director
Colonel R. E. Peley	Acting Finance Director
Colonel J. J. Albright	Acting Executive Officer
Colonel D. S. Adams	Economic Director
Colonel C. M. Spefford	Deputy Chief of Staff
Colonel D. Murphy	Director of Industry and Commerce
Colonel R. R. Rathbone	Executive Officer
Colonel G. R. Upjohn	Deputy Chief of Legal Division
Lt. Col. W. C. Chan	Chief Legal Officer

Major R. W. Desmond	Acting Chief of Information
Captain Charles Poore	Public Relations Officer
Captain L. H. Van Dusen	Secretary

189. The meeting was called to order by the Chairman at 1500 hours.

2316

190. The minutes of the last meeting were read and approved.

191. The Chairman stated that action had been taken by D.C.C.A.O. on items 183 and 184. The order authorizing a wage increase for public servants has been signed by D.C.C.A.O.

192. The Chairman stated that all orders should be "by Order of Brigadier General McSherry," and that all communications should make it clear that this was Headquarters AIG and not Headquarters ACG. The officers now stationed at Brindisi constitute Headquarters A.C.C. Those Headquarters would become A.C.C. at a future date when more territory was handed over to the Italian Government. At present these Headquarters could plan what they would do under those conditions.

193. The Chairman said that shortly a group of officers from AGS, A.F.H.Q. would come to work out the personnel situation as between HQ, AGS, and 15th Army Group, and ACG at Brindisi. It would be proposed that certain ACG records would be kept here as if ACG, Brindisi, were a detachment of those Headquarters, which was not the case. This arrangement was merely one of convenience.

CONFIDENTIAL

[illegible]

194. The urgent requirement (Sub-heading C of Item 174) as regards directives is that under IAS conditions limiting the powers of regions or reserving certain powers to FI, IMA. Statements on these points by Sub-Commissioners are to reach Acting Chief of Staff not later than evening 18 November. Additional requirements from Sub-Commissions are as follows, and are to reach the Chief of Staff not later than Wednesday 24th November.

- (a) (Subsidiary A of Item 174) Directives for Sub-Commissions under A.C.C. conditions; these are to be written by Sub-Commissions for the governance of their own activities.
- (b) (Subsidiary B of Item 174) Technical instructions by Sub-Commissions governing the duties, powers and limitations of action of technical officers in regions, provinces, etc. under A.C.C. conditions. These instructions will be dictated by Deputy Chief of Staff (Operations and Intelligence) with a view to their becoming appendices to a draft order which is in the white. This draft order will explain in general terms to Senior A.C.C. officers at Regional HQs their duties and powers under A.C.C. conditions.
- (c) (Subsidiary C of Item 174) Notes to form the basis of a letter to Air Army Group, requesting them to conform to A.C.C. policy as far as the tactical conditions permits.

In this case, the defendant stated that the abstracts referred to in Item 185 were wrong. He explained that they were not extracts but abstracts and that no link was held from the abstracts was to be quoted in the directive or disclosure. He first consulted the Legal Sub-Commission. He explained that even the abstracts contained secret information.

- 19a. The Training Staff directed all Sub-Commissions and Chief Staff Officers to submit to the Training Staff by November 18th a proposed list of assignments to all their officers. This list should include all officers at or on detached service from these headquarters. If a surplus existed it should be so stated. If more personnel were required to carry on Military Government in these headquarters they should be requested. The officers assigned to A/C in England should not be included. The Command stated that these proposed assignments could be prepared without reference to any V/O or W/E.

1965, the average survival was 615 hours.

DAVIDSON, David R. Cathodic ... Vice Chairman of Staff

— Actg. Economic Director
P. Adamiro

Brig. P. A. Hamlyn
- R. 9.05.
- 12.00.00. Health

Item 185 was read. He explained that they were not extracts but abstracts and that no language was taken from the abstracts was to be quoted in the directive or elsewhere without first consulting the Legal Sub-Commission. He explained that even the abstracts contained secret information.

195. The Chairman then directed all Sub-Commissions and Chief Staff Officers to submit to General McSherry by November 18th a proposed list of assignments of their officers. This list should include all officers at or on detached service for their headquarters. If a surplus existed it should be so stated. If more personnel were required to carry on Military Government in these headquarters they should be requested. The officers assigned to AGC in Britain should not be included. The Chairman stated that these proposed assignments could be prepared without reference to any W/O or W/E.

196. The meeting adjourned at 1615 hours.

194. The urgent requirement (Sub-heading C of Item 174) as regards directives is that, under A & conditions limiting the powers of regions or reserving certain powers to HQ, AMB. Statements on these points by Sub-Commissions are to reach Acting Chief of Staff not later than evening 18 November. Additional requirements from Sub-Commissions are as follows, and are to reach the Chief of Staff not later than Wednesday 24th November.

(a) (Sub-heading A of Item 174) Directives for Sub-Commissions under a C.O. conditions; these are to be written by Sub-Commissions for the governing of their own activities.

(b) (Sub-heading B of Item 174) Technical instructions by Sub-Commissions governing the duties, powers and limitations of action of technical officers in regions, provinces, etc. under ACO conditions. These instructions will be listed by Deputy Chief of Staff (Operations and Intelligence) with a view to their becoming appendices to a draft order which HQ is to write. This draft order will explain in general terms to Senior ACO officers at Regional HQs their duties and powers under ACO conditions.

(c) (Sub-heading D of Item 174) Notes to form the basis of a letter to the Army Group, requesting them to conform to ACO policy as far as the tactical situation permits.

In this connection Colonel Albright stated that the abstracts referred to in Item 165 were ready. He explained that they were not extracts but abstracts and that no longer to take from the abstracts was to be quoted in the directive or elsewhere without first consulting the Legal Sub-Commission. He explained that even the abstracts contained secret information.

195. The Acting Chief of Staff directed all Sub-Commissions and Chief Staff Officers to submit a proposed list of assignments of their officers by November 18th a proposed list of assignments of their officers. This list should include all officers at or on active service in the Headquarters. If a surplus existed it should be so stated. If more personnel were required to carry on Military Government in these Headquarters they should be requested. The officers assigned to ACO in Headquarters should not be included. The Headquarters should state those proposed assignments could be prepared without reference to any ACO or W/S.

196. The meeting of the staff at 1615 hours.

Levin H. V. Dismal, Jr.
Captain, Ord.

In this case, Mr. Conrad Abdrigho stated that the abstracts referred to in Item 185 were false. He explained that they were not extracts but abstracts and that no language taken from the abstracts was to be quoted in the affidavit or elsewhere without first consulting the Legal Sub-Commission. He explained that even the abstracts contained secret information.

1961. The meeting of 11:00 AM at 1615 hours.

- 177 The meeting was called to order by the Chairman at 1500 hours.
- 178 The minutes of the last meeting were read and approved.
- 179 The Chairman stated that the meeting was of the Executive Council of
 AG and not of JCC as the directive setting up JCC as an operating unit
 had not yet arrived.
- 180 The Chairman stated that at a recent staff conference it was decided to
 form a committee on the Black Market similar to the Committee on Food.
- 181 Lt Col Clough reported that in the near future he would have collected for
 the DCCIO all the reports on AGCT operations which had been requested.
 He hoped this would be prior to the return of DCCIO to Palermo.
- 182 The Chairman promised that the basic directive on the functions of JCC
 would be circulated shortly, although no order formally putting JCC into
 operation had yet been received.

785016

number of "millions" so that there could be no misunderstanding number intended.

Lt. Col. Chandler suggested that a statement be included in the cable indicating the quantity of wheat requested and the quantity received to date. It was agreed that this change should be made. Col. Adams explained that at present there was only 3 or 4 weeks supply of wheat on the island at the existing ration of 200 grams. 50,000 tons per mo. were needed to feed the island. However, it was estimated that 25% of the people were producers, or the families of producers, entitled to retain grain for their own use. Therefore, there would be approximately 3,000,000 persons to feed which would require roughly 20,000 tons per month on the basis of the best estimated available. It was a compromise figure, as altered, the prompt dispatch of the draft cable for approval by the DODIO and Gen. Joyce was recommended by the Council.

184.

Proposed increase in wages and rations for C.C.R.R.

Col. Adams, as chairman of the Food Committee reported that his committee recommended the C.C.R.R. should at once receive both rations at the scale now being given to members of the Italian Army and also the wage increase recommended for them by the Labor Sub-Commission at a previous meeting. Col. Kirk, who was a member of the committee, emphasized the following points:

1. It was agreed by all that the 3198 C.C.R.R. in Sicily were grossly underfed and underpaid.
2. They were the agency designated by the Combined Chiefs of Staff to maintain law and order on the island.
3. They were the most reliable element among the various domestic police forces and yet in many cases they received less pay than the auxiliary police.
4. The Combined Chiefs of Staff had decided that there would be no Allied Military police available to maintain order among civilians in Sicily, or Italy.
5. The morale of the C.C.R.R. was low. There had recently been 40 cases of desertion in Palermo. Twenty-five of the offenders had been caught and would be dealt with in accordance with the usual rules applicable to such offenses.
6. The C.C.R.R. were a part of the Italian army and were entitled to the same rations as other Italian soldiers. Col. Chandler substantiated the validity of this assertion.

Col. Kirk stated that for the foregoing reasons it was imperative that both the rations and wages of the C.C.R.R. be increased at once.

Col. Dain and Lt. Col. Smith agreed that many public servants required wage increases, according to the formula previously submitted, in order to freeze wages at a place comparable to the 1940 where prices had been fixed. However, they strongly opposed granting any group of public servants an increase and postponing action on an increase for the rest. They stated that all

Request for more flour. Brigadier Hamlyn stated that he had drafted a cable which he suggested be sent to Washington through AFHQ pointing out the absolute necessity of securing a substantial tonnage of wheat in the next four months in order to feed the occupied portions of Italy and Sicily. A copy of this draft cable is attached to the original minutes.

The draft was discussed in some detail.

Col. Foley pointed out that the facts had been secured from the various Sub-Commissions. Lt Col Chandler objected to the assertion that the currency in circulation had increased by 3 or 4 hundred million lire since July 1943, (the total amount pumped into circulation by AGOT) as misleading. He thought large sums had been destroyed, removed to the mainland or otherwise withdrawn from circulation immediately prior to the occupation. As a result of the discussion which followed, Chief of Staff directed that the following words be placed in front of the fourth paragraph of the cable: "Recent rapid increase in currency situation illustrated by....."

He also directed that the word "billion" be replaced by the appropriate number of "millions" so that there could be no misunderstanding of the number intended.

Lt. Col. Chandler suggested that a statement be included in the cable indicating the quantity of wheat requested and the quantity received to date. It was agreed that this change should be made. Col. Evans explained that at present there was only 3 or 4 weeks supply of wheat on the island at the existing ration of 200 grams. 30,000 tons per mo. were needed to feed the island. However, it was estimated that 25% of the people were producers, or the families of producers, entitled to retain grain for their own use. Therefore, there would be approximately 3,000,000 persons to feed which would require roughly 20,000 tons per month on the basis of the best estimates available. It was a compromise figure. As altered, the prompt dispatch of the draft cable for approval by the DCCO and Gen. Joyce was recommended by the Council.

1

CONFIDENTIAL

Italian Servants were equally essential to the operation of the Allied Military Government. They showed that some strikes had been called and others threatened. Each time a serious situation was averted by promises of action about to be taken on the proposed wage increases. Brigadier Hamlyn stated that the crux of the difficult situation was food. If sufficient quantities of food could be brought in there would be some chance of controlling the Black Market and averting industrial and other disturbances. He did not oppose the increase in rations but he did oppose any general increase in wages to any or all groups at this time. He thought that the results produced by the proposed cables should be awaited before further action on wages was taken.

Col. Foley stated that a wage increase at the present time would render the task of securing authority from Washington for additional grain infinitely more difficult. Furthermore, if a wage increase was granted, it would have to be accompanied by a certain control of the Black Market or an inflation of considerable magnitude would result.

Col. Evans emphasized that, although food was the most important element in the situation, still the flour requested would only yield the present ration of 200 grams per day and would not raise the present standard of living. Rather more flour or a wage increase to government employees was necessary to accomplish this result. He also pointed out that, to increase the ration of C.C.R.R. to 400 grams daily, would only take 18 tons of flour per day. This amounted to one day's supply in a month and was therefore, negligible.

The Council was then polled and agreed to recommend to D.C.C.A.O. that the ration of the C.C.R.R. be placed upon a par with that of the other Italian soldiers which was at present 400 grams per day. Lt. Col. Chandler was directed to prepare the necessary order raising the ration so that it would be available in the event that D.C.C.A.O. decided to accept the recommendation of the Committee.

Several members then expressed the opinion that an increase in wages to the public employees in the various fields in which they operated was imperative. Colonel Denamore pointed out that many employees had received a month's wages in advance which they had spent. This borrowing against the future had augmented the necessity for an increase.

The Labor Sub-Commission again emphasized the belief that, while a wage increase in accordance with the proposed formula was needed now, under no circumstances should any discrimination be shown by giving an increase to the C.C.R.R. or any other group without including the rest.

Colonel Foley stated that now was the time to hold the line pending action on the request for flour. If an increase was granted in wages, the former could never subsequently be restored.

Col. Evans emphasized that the flour requested would only yield the present ration of 200 grams per day and would not raise the present standard of living. Either more flour or a wage increase to Government employees was necessary to accomplish this result. He also pointed out that, to increase the ration of C.C.R.R. to 400 grams daily, would only take 18 tons of flour per day. This amounted to one day's supply in a month and was therefore, negligible.

The Council was then polled and agreed to recommend to D.C.G.A.O. that the ration of the C.C.R.R. be placed upon a par with that of the other Italian soldiers which was at present 400 grams per day. Lt. Col. Charles was directed to prepare the necessary order raising the ration so that it would be available in the event that D.C.G.A.O. decided to adopt the recommendation of the Committee.

Several members then expressed the opinion that an increase in wages to the public employees in the various fields in which they operated was imperative. Colonel Denmore pointed out that many employees had received a month's wages in advance which they had spent. This borrowing against the future had augmented the necessity for an increase.

The Labor Sub-Commission again emphasized the belief that, while a wage increase in accordance with the proposed formula was needed now, under no circumstances should any discrimination be shown by giving an increase to the C.C.R.R. or any other group without including the rest.

Colonel Foley stated that now was the time to hold the line pending action on the request for flour. If an increase was granted in wages, the former scale could never subsequently be restored.

The Chairman then directed that:

- (a) Colonel Bain prepare a one page brief of his arguments in support of the full proposed wage increase.
- (b) Brigadier Harlyn prepare a one page brief of his arguments opposing the increase at this time.
- (c) Colonel Adams prepare a one page brief of his reasons for recommending an increase to the C.C.R.R. only at this time.

The Chairman announced that he would take these papers together with the whole problem to Brindisi to be dealt with there by the conference and the D.C.G.A.O.

185

The Chairman said that it was necessary for each Sub-Commission to have an extract of those parts of the long-term directive which were applicable to it in order to enable it to prepare its own directive. These abstracts could be secured from Colonel Albright.

186.

Due to extreme shortage of clerks and typewriters, all notes between personnel in Headquarters should be written in long hand where a copy was not essential. Furthermore, action is being taken to distribute the existing facilities where they would do the most good.

CONFIDENTIAL

- 4 -

- 187 Lt Col Clough announced that a two minute silence would be observed at Headquarters at noon on November 11th.
- 188 The meeting adjourned at 1635 hours. ---

171. The meeting was called to order at 1500 hours.

172. The minutes of the last meeting were approved.

173. The following reports were made on the items on which action was requested at the last meeting:

- (a) 155 (a) and 164 (a) - Colonel Kirk reported that the suggested plan for stamping out the black market had been submitted to the Legal Division and that there was no legal objection to it. Acting will be taken to put the plan into effect.
- (b) 155 (j) and 164 (b) - Colonel Kirk reported that steps had been taken to comply with the Geneva Convention and to remove any civilian internees from prison and to lodge them elsewhere. On November 5th, 70 internees had been placed in a comfortable home. Four in Argentina were soon to be transferred. Arrangements are being made with No. 1 District to remove eight or nine internees lodged in Simoes. Colonel Kirk also reported that the JAG of 7th Army had relinquished all interest in civilian internees and the problem is now handled wholly by AIG. The Chief Staff Officer directed the Chief Legal Officer, the Chief Security Officer and the Director of Public Safety to cooperate in handling this problem.

- (c) 166 - 168 - D.C.C.O.C. directed Lt. Colonel Clough to follow up the various reports referred to in order to ensure their prompt preparation and proper distribution and handling.

174. Explanation of the New A.C.C. structure and functions.

The Acting C.O.S. outlined the substance of a directive which had been received by General Joyce from A.P.H.S. He said that the directive would shortly be distributed to the members of the Council in the form of a basic directive from Major General Joyce. This directive set forth the purpose and functions of A.C.C. Generally. The Acting C.O.S. emphasized the importance of not making any long term commitments of any kind without the approval of higher authority; as A.C.C. had no long term objectives. On this point he read extracts from the basic directive. He said that this directive should govern the objectives set forth in the various directives in process of preparation by the Sub-Commissions. The relations between A.C.C. and the Italian Government were also discussed.

D.C.C.A.O. stated that A.C.C. would operate with its new organization in about one week, but that it might have to carry on military government as AMG for some little time before it was handed over any territory for Allied Control. The Acting C.O.S. explained that four subjects should be covered on the directives being prepared by each Sub-Commission.

- (a) An explanation of how the Sub-Commission proposes to operate.
- (b) A statement of the relations between the Regions and the Sub-Commissions and the powers of the former, under A.C.C. conditions.
- (c) A similar statement regarding the powers of Regions under Military Government conditions.
- (d) A statement of the points of policy in which it was desired that AMG 15 Army Group should conform to H.Q., A.C.C. instructions. On this point Acting C.O.S. stated that Lt. Colonel Gerry of 15 Army Group had stated that he would cooperate to the full, where possible, in carrying out the policies formulated by A.C.C. In any case where this could not be done he would discuss the matter to work out a mutually satisfactory policy.

175. Proposed Wage Increase to Public Officials. 165 - The Acting Economic Director stated that he and Colonel Foley had prepared a rough draft of a document outlining their reasons for opposing the adoption of the Plan at once. He said that to avoid the inflation which was imminent it was essential not to raise any wages except as part of an integrated anti-inflation plan. The proposed plan involved the following points, which he believed should be con-

The Acting C.O.S. explained that four suggestions are being prepared by each Sub-Commission.

- (a) An explanation of how the Sub-Commission proposes to operate.
- (b) A statement of the relations between the Regions and the Sub-Commissions and the powers of the former, under A.C.C. conditions.
- (c) A similar statement regarding the powers of Regions under Military Government conditions.
- (d) A statement of the points of policy in which it was desired that the 15 Army Group should conform to H.Q., A.C.C. instructions. On this point Acting C.O.S. stated that Lt. Colonel Gerry of 15 Army Group had stated that he would cooperate to the full, where possible, in carrying out the policies formulated by A.C.C. In any case where this could not be done he would discuss the matter to work out a mutually satisfactory policy.

175. Proposed Wage Increase to Public Officials. 165 - The Acting Economic Director stated that he and Colonel Foley had prepared a rough draft of a document outlining their reasons for opposing the adoption of the Plan at once. He said that to avoid the inflation which was imminent it was essential not to raise any wages except as part of an integrated anti-inflation plan. The proposed plan involved the following points, which he believed should be considered, explored, and acting upon before any wage increase became effective:

- "(a) Facilitate increases in local agricultural and industrial production. In determining the goods and shipping space for local civilian supply, emphasis should be placed on those imports which will contribute most effectively to increasing local production.
- (b) Reexamining the rationing system in order to determine what relation it bears to subsistence requirements and whether it is as liberal as supplies permit. Every effective increase in rations deprives the black market of customers, drives down black market prices and reduces the cost of living.
- (c) Reexamining the JMWOT legal price list to ensure its being as realistic as possible. Prescribed prices may not be enforced if they bear no reasonable relationship to prevailing prices.
- (d) Examining the operation of the black market to determine its extent, main sources of supply, organization, and the factors giving rise to it. It is also necessary to determine the actual extent of the black market in individual commodities.

- (e) Pursue with energy the enforcement of price, rationing, and anti-black market regulations. The various devices, including posting of price lists, closing of shops of violators, imposition of severe fines and imprisonment, and confiscation of stocks must be employed energetically.
- (f) Increase the supply of transportation available to the civilian economy.
- (g) Eliminate unnecessary governmental expenditures, increase governmental revenues by taxation and borrowing from the public, and stimulate private savings in all forms.
- (h) Keep to a practical minimum the local purchases of civilian goods and services for our military operations and the personal expenditures of the members of our armed forces.

D.C.C.A.O. pointed out, for the benefit of those present who had recently arrived in Sicily, that AMG officers in varying numbers had been working to the best of their ability in this territory since July 10. He stated that he thought they had recognized the importance of each of the points raised and had exerted their best efforts to handle them. D.C.C.A.O. then reiterated his belief that, in the case of a matter as urgent as this one, it might be wise for those desiring to postpone action to review what had been done in the past four months by AMGOT. Each point brought forward was then discussed, D.C.C.A.O. explaining the steps which had been taken with regard to that point. He pointed out that it was, in his opinion, unlikely that much more could be accomplished and that it was a question of very serious import the answer to which had been long delayed. An immediate decision of some kind was required. If the increases were not given disturbances would probably result.

Colonel Evans presented the following figures on the grain situation which was agreed by all to be serious:

REGION I

Total called forward to date
Total delivered to date

14,893	tons of flour
5,724	" " "
9,169	" " "
7,000	" " "
16,169	" " "
1,150	" " "

Called forward for December

Due before January 1, 1943

Stocks on hand

REGION II

Total amount called forward to date 12,000 tons

they had recognized the importance of their best efforts to handle them. D.C.C.A.O. then reiterated his belief that, in the case of a matter as urgent as this one, it might be wise for those desiring to postpone action to review what had been done in the past four months by JAGOT. Each point brought forward was then discussed, D.C.C.A.O. explaining the steps which had been taken with regard to that point. He pointed out that it was, in his opinion, unlikely that much more could be accomplished and that it was a question of very serious import the answer to which had been long delayed. An immediate decision of some kind was required. If the increases were not given disturbances would probably result.

Colonel Evans presented the following figures on the grain situation which was agreed by all to be serious:

REGION I

Total called forward to date	14,825 tons of flour
Total delivered to date	5,724 " "
	9,169 " "
	7,000 " "
Called forward for December	16,169 " "
Due before January 1, 1948	1,150 " "
Stocks on hand	

REGION II

Total amount called forward to date	12,000 tons
" " delivered	8,100 "
Balance due	3,900 "
Stocks on hand about	5,000 "

2310

The heads of many Sub-Commissions stated that the public officials with whom they dealt were grossly underpaid particular emphasis being laid upon the C.C.R.R., the school teachers, the employees of the courts, and the employees of public utilities.

D.C.C.A.O. said that his JAGOT staff was fully alive to the possibilities of inflation and that all practicable steps have been taken by JAGOT to head it off.

It was decided to let the matter be decided after a conference between D.C.C.A.O., the Acting Economic Director, and Colonel Foley.

BASIS FOR DISCUSSION OF ITEM 2
ON THE AGENDA FOR

EXCO MEETING OF OCTOBER 22, 1943

1. The powers of specific AMCOF officers designated by position appear in the AMCOF Plan and Administrative Instruction 35 (Mar 1, 1943), the Proclamations, General Orders, and Administrative Instructions pertaining generally or to particular Division and directives issued to S.C.A.A.O.s.

2. No effort has been made to consider the directives issued to S.C.A.A.O.s (as they are not collected in one place) or the administrative instructions not appearing in the Manual.

3. The delegation of some of the following powers assigned to the C.O.A.A.O. in Proclamations and General Orders might be considered. (Plan included)

- | | | |
|-----|-----|---|
| No. | (a) | Proclamation 7 - Article I - V. C.O.A.A.O. to determine what laws are to be abolished. |
| No. | (b) | Proclamation 5 - Moratorium to be lifted by C.C.A.A.O. |
| No. | (c) | Article IV, Section 3 of Plan. 4 - C.O.A.A.O. makes rules of Procedure for Courts. |
| Yes | (d) | Proclamation 4 - Article VII Section 1-3 - C.C.A.A.O. receives petitions for review of Allied offenses and appoints those who actually do the reviewing. |
| No. | (e) | Article IX of Proclamation 4 - C.C.A.A.O. may make orders and rules. |
| Yes | (f) | Proclamation 6 - Article V Section 2; Article VI Section 1 and 2; Article VIII - C.C.A.A.O. issues orders and directions to Controller. |
| Yes | (g) | Article 12 of the Plan provides that courts will be public except when C.C.A.A.O. or court declare otherwise. |
| Yes | (h) | Article 13 of Plan provides that petitions for review are to go to U.C.A.A.O. |
| Yes | (i) | Article 14 (c) of the Plan provides that at direction of C.C.A.A.O. property belonging to any enemy national who is not present and has no representative may be taken over by C.C.P. |
| No. | (j) | Article 72 of Plan provides that existing Agricultural Regulations |

- laws are to be abolished.
- No. (b) Proclamation 5 - Mandatorum to be lifted by C.C.A.O.
- No. (c) Article IV, Section 3 of P... 4 - C.C.A.O. makes rules of Procedure for Courts.
- Yes (d) Proclamation 4 - Article VII Section 1-3 - C.C.A.O. receives petitions for review of Allied offences and appoints those who actually do the reviewing.
- No. (e) Article IX of Proclamation 4 - C.C.A.O. may make orders and rules. No
- Yes (f) Proclamation 6 - Article V Section 2; Article VI Section 1 and 2; Article VIII - C.C.A.O. issues orders and directions to Controller. Yes
- Yes (g) Article 42 of the Plan provides that courts will be public except when C.C.A.O. or court declare otherwise.
- Yes (h) Article 43 of Plan provides that petitions for review are to go to U.C.A.C.
- Yes (i) Article 44 (c) of the Plan provides that at direction of C.C.A.O. property belonging to any enemy national who is not present and has no representative may be taken over by C.P. 200
- No. (j) Article 72 of Plan provides that existing Agricultural Regulations will remain in effect until otherwise directed by C.C.A.O.
4. The delegation of some of the following powers assigned to other officers might be considered.
- Rec'd. (a) Proclamation 2, Article VII Sec. 3 - C.L.O. or S.L.O. of a Province reviews detention cases.
- Yes (b) Article IV Section 2 (E) - C.L.C. or any court may prohibit a lawyer from practicing before the Allied Courts.
- Yes (c) Proclamation 4, Article VII - Petitions for review of cases must be filed with court or C.L.O.; All records transmitted to C.L.O.; Records under 2 yrs or 50,000 lire fine are reviewed by C.C.A.O. on recommendation of C.L.O.
- 2 (d) Article III of Proclamation 6 - Controller may issue notices in writing for production of papers etc. Several of the sections and articles speak of "Controller" or "such person as may be designated by him" but Article VII gives him full powers of delegation to assistants.

Shaw-Watchman
 (c) Proclamation 4, Article III speaks of "senior Civil Police Officer in his territory" as the person to whom report should be made when an identity card is lost.

RCAD
 (f) Proclamation II, Article V, Section 1(3) speaks of privileged character of meetings of Courts authorized by C.L.Q.

File 546
 (s) Permits for meetings issued by or on authority of Commissioner of Civil Police thru C.P.O. of locality. (Proc. VII, Art. 5 (2))

?
 (n) General Order No. 2 - offense to disobey orders of C.P.O. or officer authorized by him.

General Order No. 2
 (i) General Order No. 2 - Finance Officials are to operate subject to direction of C.P.O.

sketch
 (j) Article 75 of AMOT Plan states that books will be reopened upon the approval of C.P.O.

to change
 (k) Article 44 of Plan, C.P. is empowered to take over certain property.
 5. Powers given to MG were not considered.

6. There are approximately 50 places (appearing on 51 different pages) in the Administrative Instructions contained in the Manual where changes might have to be made if certain delegations of power to R.C.O. were decided upon. (120, 123, 125, 129, 138, 140, 144, 146-7, 152, 157, 170, 180a, 183, 185, 190, 191, 192, 226, 227-8, 229-40, 253, 255-6, 263, 264, 268, 272, 277)

7. It is thought that each Division could review its own general and special administrative instructions with a view to determining the cases, if any, in which a further delegation of power is necessary.

To be discussed in EXCO today by order of Brig Gen. McSherry

AMCOT/9014/LAB

SUBJECT: General Wage and Salary Increase.
To : Executive Council

29 Oct. 43.

1. In accordance with your instruction, the following wage proposal is submitted as a temporary measure to be applied Island Wide pending conclusion of a more exhaustive study and analysis now under consideration:

a. Government Agencies. Employees of permanent and temporary status of the State, Provinces, Communes, Enti Para-Statale, and Public Institutions and Agencies (Aziende) which are administered by any of the foregoing governmental units shall receive a "temporary cost of living bonus" which shall be calculated on the base of present total salaries (base plus ordinary and extraordinary indemnities which normally represent an integral part of their total salary) as indicated in the attached table. Increases shall become effective 1 November 43.

b. Private Employers. Private employers are permitted to grant increases in both salaries and wages which shall not exceed the percentages indicated in the attached table. The table increases shall be applied to salaries and wages fixed by Collective Labor Contracts effective as of 1 Sept. 42. However, in the case of the cities of Palermo, Catania and Messina the percentage increases shall be based upon the contract wage plus the indemnity of Presenza. The above increases shall in no way affect or be affected by the Assegni Familiari.

- (1) Increases in salaries and wages received by employees since 1 Sept. 42 shall be deducted from any increase granted as a result of this proposal.
- (2) Increases in salaries and wages received by employees since 1 Sept. 42 which exceed the amount of increase granted by this proposal shall not be effected thereby.

2. The increases authorized under 1 (a) above shall be granted to persons now receiving pensions in accordance with the schedule in attached table.

3. Any disputes which arise between employer and employee or employees under Section 1 (b) above shall be adjusted in accordance with the machinery provided in A.M.C. General Order No. 8.

4. This proposal does not apply to persons directly employed by branches of the Allied Armed Forces or by contractors rendering service to said forces.

Junius R. Smith
JUNIUS R. SMITH,
Lt. Col., Q.M.C.,
Labor Sub-Commission of
Allied Commission.

Trade.

Deputy of Acting Director of Fine Arts.
Deputy of Director of Public Health.
Labour Sub-Commission
Acting Director of Information.

162. The meeting was called to order by the chairman at 1500 hours.

163. The minutes of the previous meeting were approved.

164. The following reports were made in the items on which action was directed at the last meeting;

(a) 155(c) Deputy Chief of Public Safety said that owing to the change over no action had been taken. D.C.C.A.O. directed that action be taken before the next meeting (Action Public Safety) **2303**

(b) 155 (j) - Deputy Chief of Public Safety said that owing to the change over no action had been taken. D.C.C.A.O. directed that action be taken before the next meeting. (Action Public Safety)

(c) 155 (k) Chief Legal Officer said he had discussed the Black-market plan with the Chief Police Officer and said that there was no objection to the plan from the legal point of view. D.C.C.A.O. directed that Chief Legal Officer and Deputy Chief of Public Safety were to consult together and report at the next meeting. (Action Chief Legal Officer and Public Safety)

165. Lt. Colonel Smith, deputising for the Acting Director of Labour, addressed the meeting in the subject of a proposed increase of wages and salaries of government employees. He pointed out that the last increase of salaries to government employees was on December 1st 1942 and since that date the legal food prices had risen at least 76%. The prices for clothing had also risen consistently and he argued that the present Salary Scale was insufficient to support life and that the proposed increases were quite essential. In the discussion that followed the point was made that the raising of salaries might have the effect of merely causing a rise in Black Market prices and that nobody would be better off at all except the "Black Marketeers". D.C.C.A.O. emphasized the emergency nature of the proposed increase. The increase was necessary to catch up with an existing situation. It was pointed out that 60% of private employees have already had their wages raised to a level equal to the proposed salary increase. Lt. Colonel Mennace (Finance) said that the proposal was of course, the start of the old vicious spiral of inflation but he supported it as an emergency measure and believed that as

- 2 -

such it was necessary. Finally the Council agreed to the proposal, but D.C.C.A.O. directed that the concurrence of Brigadier Houllyn must first be obtained. In the meantime the Legal Sub-Commission and the Labour Sub-Commission were to consult together as to the measures necessary for putting the proposal into effect if approved.

(Action Chief Legal Officer and Acting Director of Labour)

166. D.C.C.A.O. ordered each Sub-Commission to prepare, as soon as possible, a directive setting out its functions and aims, and details of organization and method. These directives to be submitted to D.C.C.A.O. who would submit them to General Joyce. When finally approved by General Joyce they would become the official directives of each Sub-Commission. D.C.C.A.O. emphasized to members of the Council that the work of A.C.C. was supervisory whereas A.C.C.'s work had been to direct. Sub-Commissions were to remember this when preparing their directives.

(Action all Sub-Commission Heads)

167. D.C.C.A.O. directed that the old A.C.C. Divisions were to prepare reports as at Nov. 1st 1943 showing what the divisions in A.C.C. had accomplished and which would give an indication of what could be expected from an Allied Military Government in the future. These reports would eventually be amalgamated and sent to London and Washington. In preparing these reports full use was to be made of the "A.C.C. Manual".

(Action Heads of A.C.C. Divisions)

168. D.C.C.A.O. said that A.C.C. was required to issue a monthly report of its activities on the 7th of each month. To enable this to be done, reports from Sub-Commissions must be in by the 5th of each month. Sub-commissions were directed to send their first reports in on 5th November.

(Action all Sub-commission Heads)

169. D.C.C.A.O. emphasized to members of the Council the prime importance of having really good men in the field and of not concentrating only on having an efficient Headquarters Staff.

170. The meeting adjourned at 1600 hours.

Captain Van Dusen - Secretary

153. The meeting was called to order by D.C.C.A.O. at 1500 hours.

154. The Secretary was directed by D.C.C.A.O. to make the following corrections to the minutes of the last meeting:

- (a) 148 (i) - The word "advisability" to be changed to read "necessity."
- (b) 148 (n) - The word "should" appearing in the third line to be changed to read "could."
- (c) 148 (o) - The word "additional" to be inserted before the word "hydroelectric" in the first line; and the word "November" to be substituted for the word "December" in the third line.
- (d) 148 (p) - The words "and a proposed method of enforcing" be eliminated.

155. The following reports were made on the items on which action was directed at the last meeting.

230

153. The meeting was called to order by D.C.C.A.O. at 1500 hours.

154. The Secretary was directed by D.C.C.A.O. to make the following corrections to the minutes of the last meeting:

- (a) 143 (i) - The word "advisability" to be changed to read "necessity."
- (b) 143 (n) - The word "should" appearing in the third line to be changed to read "could."
- (c) 145 (o) - The word "additional" to be inserted before the word "hydroelectric" in the first line; and the word "November" to be substituted for the word "December" in the third line.
- (d) 143 (p) - The words "and a proposed method of enforcing it" be eliminated. 230

155. The following reports were made on the items on which action was directed at the last meeting.

- (a) 143 (b) and 135 - C.L.O. stated that it was necessary under International Law to put all political prisoners in camps and not in jails. D.C.C.A.O. directed C.P.S. to see that action was taken accordingly at once. (Action C.P.S.)
- (b) 143 (c) and 136 - D.C.S.O. reported that the required action had been taken.
- (c) 143 (d) and 137 - D.L.D. reported that the survey of wages paid by governmental agencies had been completed and was available.
- (d) 143 (g) and 139 - C.L.O. stated that he had conferred with Major Chayton on the preparation of a general order covering the proposed Agricultural Re-Organization, but that he thought it was unwise at this time to set up an entirely new Agricultural system in view of the probability of the Badoglio Government coming into the picture shortly. D.C.C.A.O. stated that the new Agricultural Commission, when formed, would prepare recommendations which could later be taken up with the Italian Government.

- 2 -

- (e) 143 (h) and 140 - The issuance of this general order was postponed for the same reasons as those stated in the last paragraph.
- (f) 146 (1) and 142 - C.P.S. reported that all Questori have been instructed to insist upon the possession and use of all licenses required under Italian law before the occupation.
- (g) 148 (p) and 142 - D.O.F.O. reported that, since there was no officer available to replace Lt. Comar. Southard, he would rely on the Price Index now in process of preparation by D.L.D.
- (h) 143 (r) and 144 - D.C.S.O. reported that the required action had been taken.
- (i) 149 - D.L.D. reported that a telegram had been sent to ARHS as directed. D.O.C.A.O. stated that further action would be postponed until a reply to this message was received.
- (j) 150 - D.A.D. reported that, since he had been away for the greater part of the past week, he had not been able to prepare the memorandum requested. D.O.C.A.O. stated that he had discussed the question with several S.J.A.Os including all of those who were alleged to have grain surpluses. From these discussions he realized that the situation was serious. Various expedients were being tried in different provinces to collect more grain. Enna had offered rewards for the disclosure of grain hoards; which were confiscated when discovered. This procedure resulted in considerable resentment on the part of the populace of Enna. D.O.C.A.O. stated that he thought more grain would have to be imported than had originally been requested. D.O.C.A.O. directed C.P.S. to make periodic checks on the movement of travel carrying grain or flour at night. (Action C.P.S.)
- (k) 151 - D.A.D. stated that he still favored his original plan for attacking the black market in grain and flour. This plan involved sending C.C.R.R. to the country in pairs with directions to visit farms or houses in a specific area. Where grain was found, they were to make it clear to those in possession that no action was contemplated against them but that severe steps were to be taken against the sellers. In this way he hoped to ascertain who were the big operators. D.C.C.A.O. directed C.P.S. to discuss this plan at once with C.L.O. and his Chief Police Officer. (Action C.P.S. and C.L.O.)

Black
Market.Scheme
attached.

the memorandum requested. D.C.C.A.O. including all of un-
 cussed the question with several S.C.A.O.s from these discus-
 sions he realized that the situation was serious. Various
 expedients were being tried in different provinces to collect
 more grain. Buma had offered rewards for the disclosure of
 grain hoards; which were confiscated when discovered. This
 procedure resulted in considerable resentment on the part of
 the populace of Ema. D.C.C.A.O. stated that he thought more
 grain would have to be imported than had originally been
 requested. D.C.C.A.O. directed C.P.S. to make periodic checks
 on the movement of trucks carrying grain or flour at night.
 (Action C.P.S.)

(k) 151 - D.A.D. stated that he still favored his original plan for
 attacking the black market in grain and flour. This plan
 involved sending C.C.R.R. to the country in pairs with direc-
 tions to visit farms or houses in a specific area. Where grain
 was found, they were to make it clear to those in possession
 that no action was contemplated against them but that severe
 steps were to be taken against the soilers. In this way he
 hoped to ascertain who were the big operators. D.C.C.A.O. and
 directed C.P.S. to discuss this plan at once with C.L.O. and
 his Chief Police Officer. (Action C.P.S. and C.L.O.)

156. Delegation of authority by Division Chiefs to R.C.A.O.s. Owing to the
 uncertainty of events, D.C.C.A.O. stated that this matter should be dropped
 for the present, except in any special cases where some further delegation
 was imperative in order to enable the Regional Program to operate.

157. Labor Plans. D.L.D. asked whether these plans should be extended to
 Regions II and III. D.C.C.A.O. stated that the matter should be left in
 abeyance pending further clarification of the method of operation for the
 future.

158. Presentation of Wage Studies. D.C.C.A.O. directed that D.L.D. submit
 these studies to each Division. After agreement had been reached with the
 various Divisions then the studies should be presented to D.C.C.A.O.
 (Action D.L.D.)

159. Proposed Amalgamation in Provincial Administration. D.C.C.A.O. stated
 that in Region II all Provincial Administration was eliminated except S.C.A.O.

Black
Market.

Scheme
attached.

nd S.C.A.P.O.s. Larger areas formed the operating units to conserve staffs. However, no amalgamation would take place in Region I until the new S.C.A.O.s had become familiar with their present assignments.

160. D.C.C.A.O. told the meeting that Headquarters should be prepared to hand over the administration of Sicily to Region I very quickly. He explained that new personnel were coming to combine with these Headquarters and that every assistance should be given to these men to enable them to learn quickly that which they needed to know concerning the present organization. #

161. The meeting adjourned at 1620 hours.

The ban on the issue of licences for sporting guns is being relaxed and it is estimated that as a result of this, in the Province of Palermo alone, one million lire will be collected.

General Order No. 9 which deals with the circulation of motor vehicles has already been issued and the collection of motor vehicle taxes has been started.

LEMUEL L. BOLLES,
Colonel, Infantry,
Commissioner of Public Safety.
