1A¹³¹⁶HEADQUARTERS
ALLIED MILITARY GOVERNMENT
Interior Sub Commission

November 6, 1943

SUBJECT: Public Safety

TO : Public Safety Sub-Commission

The following points elicited during my recent visit to Caltanissetta, Agrigento, and other towns may interest you:

1. Agenti di Sicurezza. Reported to be working usefully.
2. Guardie Municipali. Effect negligible and only as watch and ward.
3. Curfew Regulations. Suspended in Caltanissetta since public cannot draw adequate water by day, and must be allowed night hours in which to draw.
4. Firearms. Several "frisking" raids carried out. Results show that few arms are being carried in towns.
5. Cattle and sheep theft. in flocks for sale is not infrequent. Army supply should be forbidden to purchase unless a birth certificate is produced for each animal. The Italian custom is that each animal must have a birth certificate.
6. Fire Services. None at all at Gela where a cotton warehouse value L. 150,000 was recently burnt out. Obvious difficulties of no water, and where water, no pumps, so bucket system prevails.
7. Priesthood. Working without any attempt to be politically subversive and restricting themselves to their religious spheres.

I realise that the above notes are of little depth, but I think you should have them.

R. G. B. Spicer
R. G. B. SPICER,
Lt. Colonel,
Deputy of Acting Director
of Interior.
