SUBJECT : Curfew abolished - Service on night duty
TO : A.C. Public Safety S.C.

URGENT

In reference to note No. AC/14048/P.S. of the 9th inst. from this Hon.Commission, we communicate that, as has been reported to the R.A.A.C. Command, curfew has been abolished in the province of Rome dating from the 10th inst.

For information we transcribe what the "Questura di Roma" has disposed for the night watch service.

""I assure to have imparted the opportune dispositions for the vigilance in consequence of the abolition of the curfew in the province of Rome starting from the 10th inst. also disposed for the intensification of night duty.

The actual service on vigilance is composed of patrol groups commanded by their respective P.S. Office, reinforced in the central districts by groups of the Ministry of Interior and in the peripheric districts by elements taken from the Police Auxiliary Battalion.

Care of this Questura is also the order to night service of 3 groups on foot of ten men each with duty to watch on central and peripheric districts. The service turns for those groups are two; from 2100 to 0100 and from 0100 to 0500. A party from the Questura composed of elements of the 1st Company does service from 2300 to 0300 h.

As for the swift party, under the direction

./.

1. Reference your letter 30 June 1945, AC/14048/PS.
2. As recently expressed to the Questura, Rome, my position in the matter is as follows:
 - a. If the curfew is lifted for either civilians or Allied military personnel, it should be lifted concurrently and for both groups.
 - b. There is no objection to lifting the curfew for military personnel, in fact, I am in favor of it.
 - c. There is only one reason which would favor retaining the curfew for civilians. The police forces in Rome are, as you know, weak in numbers and not too efficient. To clear the streets of the mass of civilians at the curfew hour makes much easier the work of the police. Furthermore, the mere presence of a suspicious character on the streets after curfew gives the police the necessary authority to apprehend him, merely charging him with violation of the curfew law and then proceeding with further investigation of the individual apprehended.
3. The viewpoints expressed in c, above, should be given full consideration before a decision is reached to abolish the curfew.

Subject : Curfew in the province of Rome

To : A.C. Public Safety S.C. - Rome -

We are re-examining the positions of all provinces restored to the Italian Administration in order to deliberate about the necessity to maintain in force the dispositions concerning curfew. We shall later refer on the matter.

In regard to the province of Rome it has been considered that the actual conditions of public safety in the Capital do not require the applications of such dispositions. On the contrary, the suppression of the curfew_ which causes heavy restrictions to personal independence _ might determine favourable conditions to normalize civilian life.

Before issuing dispositions in order to abolish, as trial, the curfew in the province of Rome, we beg you to let us know, at your earliest convenience, your opinion in regards.

Nel procedere ad una revisione in tutte le provincie restituite all'Amministrazione Italiana circa l'opportunità o meno di mantenervi in vigore il coprifuoco - in merito, si fa riserva di riferire ulteriormente -, questo Ministero ha preso in esame tale questione anche per quanto riguarda la provincia di Roma.

E' stato considerato che le attuali condizioni della sicurezza pubblica della Capitale non sono tali da richiedere il mantenimento in vigore del coprifuoco, con le gravi restrizioni alla libertà individuale che comporta, e che, con l'abolizione, si determinerebbe una condizione che potrebbe favorire la normalizzazione della vita cittadina.

Prima di impartire le disposizioni per abolire, in via di esperimento, il coprifuoco nella provincia di Roma, si gradirà conoscere in merito, con cortese urgenza, il parere di codesta On.le Commissione.

MINISTRY OF WAR

Cabinet

Subject : Temporary suspension of Curfew.

The Ministry of Agriculture suggest the possibility to suspend the curfew, during the summer time, in the rural localities and give the farmers an opportunity to protect their crops during the night against theft, and to continue their agricultural work.

Therefore in accordance with the above proposal, I authorize, always in agreement with Allied and Civil Italian Authorities, the competent Commanders to suspend the curfew during summer time in all localities under their control, except where there are military dumps under control.

These facilities may be granted also in those above mentioned localities if in the controlled places, the traffic will be forbidden for some hours of the day.

MINISTRY OF WAR

Cabinet

Prot. 134/133.

Reference to Circular 13350 we deem opportune to point out that the temporary suspension of curfew in some localities was granted only for summer time, already elapsed, therefore the curfew must be re-established.

2036

Il Ministro della Guerra

Roma, /8 ottobre 1944

104011

Signor Generale,

Rispondo alla Sua lettera ACC/1404/PS del 4 c.m.

Come risulta dalla circolare, citata da V.S. n.13350/I del 23 agosto c.a. - di cui allego copia - accogliendo una ben motivata proposta del Ministero dell'agricoltura e foreste, nello scorso agosto davo facoltà ai Comandi dipendenti di sospendere il coprifuoco nei soli centri rurali ove però ritenuto ciò necessario e sempre d'intesa con le Autorità Alleate, oltre quelle Italiane (civili).-

Conseguentemente nessuno dei predetti Comandi può aver disposto la sospensione del coprifuoco senza prima aver ottenuto il benestare dell'Autorità Alleata regionale.-

Inoltre l'accennata facoltà a poter sospendere il coprifuoco non è più in vigore in quanto essa era stata limitata al solo periodo estivo oramai trascorso.-

Tuttavia tale limitazione è stata ricordata ai Comandi interessati con lettera di cui allego copia.- 2035

Il Ministero dell'Agricoltura e delle Foreste, allo scopo di dare ai contadini la possibilità di attendere, nelle ore della notte, alla sorveglianza dei prodotti sulle aie e nei campi, esposti al continuo aggravarsi dei furti, ed anche per dar loro la possibilità di protrarre i lavori agricoli durante le predette ore notturne, ha rappresentata la convenienza di sospendere il coprifuoco nei centri rurali durante l'attuale periodo estivo.

Reference ACC/14048/PS dated 5 October 1944.

1. The curfew in the City of Rome, by agreement with the Military Commander and the Mayor, is from 12 midnight until 0500 hours in the morning.

2. In the Provinces of Roma, Frosinone and Littoria, which are the three Provinces of Lazio-Umbria Region under Italian administration, there is no curfew imposed at all. In isolated cases in communes where military units may be billeted or resting, the Commanding Officer of these units may have imposed a curfew in a limited area in conjunction with the local civil authority. Such cases, if they exist at all, are negligible.

Subject: Time for Curfew

Dealing with the return to the sun over and keeping in mind the approaching of the winter season, it is proposed that the curfew should begin at 9 P.M. and end at 5 A.M., in the Provinces which are under the administration of the Italian Government -

It is asked to this subcommission to express its opinion in regards to what above

Your Excellency.

- 1 I am informed that certain Prefects have been informed by a letter of the Ministry of War 13350/1/199 1.1 of 23 Aug that there is no necessity for a curfew in any commune in which there are no allied troops.
- 2 I have to request that where a curfew has been imposed by allied authority for military reasons that order should not be cancelled except after consultation with the appropriate military authority. The Prefects is not in a position to know whether or not the military reasons still exists, as it may, even if there are no allied troops in the particular commune, or whether the reason which has temporarily ceased may not be about to revive on the pending arrival (of which he was unaware) of further troops.
- 3 It is requested therefore that your letter be followed by an instruction to Prefects that before terminating any curfew order they will request the Regional Commissioner to obtain the approval of the appropriate Allied Military Commander.
- 4 I shall be obliged if Your Excellency will cause me to be supplied with a copy of the letter to which this letter refers and also of the draft of that which Your Excellency will propose to issue to Prefects in accordance with my request in paragraph 3 above.

I am, Your Excellency,
Yours truly

- 1 The Minister of War has been written to with regard to its letter to Prefects relaxing curfew instructions. He has been informed that orders reversing a curfew imposed at the request of a military authority should not be withdrawn except after consultation with the responsible military authority and that the proper channel for the Prefect who wishes to cancel any such order to approach the military authority is through the RC.
- 2 It is regretted that you should not have received notice of the proposed movement of the two bodies of CG HQ to which you refer. It is hoped that the present instructions will prevent any recurrence.

Thank you for your memo. The thing I am most concerned about is that the Regional Commissioner should be forewarned of any alteration in population regarding the security in his Region. The removal of armed forces (which is, of course, no concern of yours), & the removal of Carabinieri, are matters of policy about which Regional Commissioners should be informed, indeed consulted, before action is taken through his R.P.S.C.

1. It appears that the Ministry of War has addressed a letter (Ref. 13350/1/199.1.1 of 23 August) to all Prefects in this region, instructing them that there is to be no curfew in any comune unless there are Allied troops in the comune. This will be awkward, as troops come and go. It seems to be a matter which should have been passed through this headquarters.
2. During a recent tour, the Regional Commissioner learned that a further 700 CHER have been ordered forward from Bari (thus reducing the strength by 50% at one fell stroke) and that a further 150 have been ordered forward from Foggia (thus reducing the strength by 25%). This, too, will also be awkward and the plea by the Regional Public Safety Officer that a minimum should be set for the region compatible with maintaining law and order is thoroughly endorsed - his letter RS/5.1 of 13 September refers.
3. It appears from the foregoing and other incidents that the Italian authorities in Rome may not be fully aware of the necessity of sending copies of all important instructions through HQ ACC to the Regional Commissioner for his information. May it be impressed on all concerned, please, that this HQ must be kept properly advised.

1. By order of the Rome Area Allied Commander, curfew orders have been in force between the hours of 11 p.m. and 5 a.m.
2. Presumably as from 15th August, 1944 these orders will only remain effective so far as Allied Military personnel are concerned, and not civilians.
3. The matter has been discussed with Brig. Low, and it is recognised that from a public safety point of view particularly curfew for civilians between the hours of 11 p.m. and 5 a.m. should remain effective.
4. I suggest, therefore, that Prince Doria be asked to impose curfew immediately between the hours quoted above in the City and Governorate of Rome, and that the Prefects of Rome, Littoria and Frosinone Provinces be asked to issue similar orders in their respective provinces.

1. Your letter AAI/1401/15/GSI (b) refers. Following our recent discussion I have to inform you that instructions are being issued to Provincial Commissioners in King's Italy to co-operate with District and Area Commanders in this matter.
2. If the Commanders referred to, who are anxious as to the security of their ammunition and arms dumps, will consult the local Provincial Commissioner, he will in appropriate cases arrange with the Prefect for the imposition of curfew to restrict the movement of unauthorized persons by night.
3. Since the Provincial Commissioner will not normally be aware of the existence of these dumps, the initiative will have to come from the military Commander, but I know he can be assured of full co-operation from ACC either by the imposition of curfew or by any other local measures that appear desirable.

SUBJECT : Conference with BCS(I), AAI.

TO : Brig. M.S. Lach, Executive Commissioner.

1. In accordance with instructions which I received from the Chief Commissioner I went to HQ, AAI on Wednesday 3 May 1944 where I saw Brig. Airey, BCS(I), who wished to discuss several matters affecting Public Safety and Security.

2. Control of Movement.

The Brigadier indicated that having regard to military operations, he was of the opinion that passes for civilian movement into Army and Corps Areas ought to be reduced to the minimum and requested that until further notice permission for such travel should be given by AAI officers at the place of destination only. I agreed that this would be done and on the morning of 4 April 44, dispatched the following priority cable, through the RC & MI Section, to all Regional Commissioners:-

"My letter 316/76/CA, 26 April 44 'Control of Civilian Movement' refers. Paragraph 4(c) Discretion of Provincial Commissioners to authorise travel into Army and Corps Areas is temporarily suspended. All such travel permits must be approved by AAI officer of destination until further notice. Provincial Officers may still authorise travel to TONGIA Province as defined in Paragraph 4(c)."

3. Curfew.

The Military Authorities, particularly in No. 2 District, have been troubled by thefts of arms and ammunition from their dumps. This takes place mostly at night and Brig. Airey requested that the imposition of a curfew be considered by the Area Commanders and Provincial Commissioners in the areas affected as a means of curbing this problem. I explained that in King's Italy the curfew could be imposed by the local Prefect and that in most Provinces it was already in force.

The Brigadier said he would write to the Executive Commissioner on this matter and I assured him that if necessary a curfew would be imposed in King's Italy.

2. Control of Movement.

The Brigadier indicated that having regard to military operations, he was of the opinion that passes for civilian movement into Army and Corps Areas ought to be reduced to the minimum and requested that until further notice permission for such travel should be given by AMB officers at the place of destination only. I agreed that this would be done and on the morning of 4 April 44, dispatched the following priority cable, through the HQ & MJ Section, to all Regional Commissioners:-

"My letter 316/76/CA, 26 April 44 'Control of Civilian Movement' refers. Paragraph 4(c) Discretion of Provincial Commissioners to authorise travel into Army and Corps Areas is temporarily suspended. All such travel permits must be approved by AMB officer of destination until further notice. Provincial Officers may still authorise travel to FOGGIA Province as defined in Paragraph 4(c)."

3. Curfew.

The Military Authorities, particularly in No. 2 District, have been troubled by thefts of arms and ammunition from their dumps. This takes place mostly at night and Brig. Airey requested that the imposition of a curfew be considered by the Area Commanders and Provincial Commissioners in the areas affected as a means of combating this problem. I explained that in King's Italy the curfew could be imposed by the local Prefect and that in most Provinces it was already in force.

The Brigadier said he would write to the Executive Commissioner on this matter and I assured him that if necessary a direction would be sent to Provincial Commissioners in King's Italy, bringing the circumstances to their attention.

4. Brig. Airey discussed several minor matters affecting Security and Public Safety in No. 2 District and I suggested that all of these could be satisfactorily disposed of if a representative of I(b) and one of this Sub-Commission were to spend a few days on tour together in this area. This he agreed to and the necessary arrangements will be made as soon as possible.

To obtain a precise view of the situation enquiry will have to be made of the Regional Commissioners.

2 Below is stated in general terms what is believed to be the position but, even so this is subject to any variation which may be in effect locally.

- (a) Control of Movement. Railway travel is restricted to persons having permits from the Italian police. There is no general restriction as such of movement by road but the rationing of petrol and the licensing of vehicles does allow of some degree of control.
- (b) Curfew. Curfew restrictions which were in force have been maintained.
- (c) Radio Receiving Sets. A Fascist law controlling the use of private receiving sets capable of being tuned to foreign stations still exists though it is not in fact being enforced.
- (d) Arms and Ammunition. Sales and purchases of arms have to be notified to the police. Licenses from the police are required for the carrying of arms for personal protection and for sporting guns.
- (e) Registration of Aliens. Regions are the only bodies which can provide up-to-date information of the progress of registration.
