Sentences rendered under the so called government of the Italian Social Republic by any ordinary judicial authority and orders issued in pretrial investigation in penal proceedings for offences under Part 1 of Book 2, Art.415, 5€2 and for contraventions under Art. 650 and 656 of the Penal Code as well as sentences rendered and orders issued in pretrial investigations by military tribunals are void of any legal efficacy.

However, upon petition of the Procuratore Generale of the competent Court of Appeal or of the Procuratore Generale of the Supreme Military Tribunal, such Court or the Supreme Military Tribunal respectively may give effect to the sentence or to the order whenever it is ascertained that the offence was not inspired by a motive of hostility against the said government or against German authorities.

ART. 6.

Excepting the cases provided for by the preceding articles all judgments in civil and penal matters and acts of non contentious jurisdiction rendered by the ordinary judicial authority under the rule of the so called Italian Social Republic are hereby validated.

However, upon petition of the interested party and also of the Procuratore Generale in cases where the intervention of the public prosecutor (Pubblico Ministero) is admissible, the competent Court of Appeal may declare ineffective (inefficaci) such judgments in civil and penal matters and acts of noncontentious jurisdiction rendered by ordinary judicial authorities, in respect of which there is good reason to believe that the decision was influenced by the then prevailing political situation. Judgments in civil matters and acts of noncontentious jurisdiction rendered by ordinary judicial authorities in application of rules enacted by the government of the so called Social Republic may be equally declared ineffective (inefficaci) except where the decision would have been the same under the legal provisions enacted by the Italian Government or could stand on motives other than those set forth in the judgment.

The petition set out in the preceding article must be made within six months after the effective date of this law and the decision of the Court of Appeal shall be rendered in chambers after the Court has heard the Procuratore Generale and the parties.

If the judgment which has been declared ineffective was rendered on appeal the judgment given in the first instance shall remain in force provided that it was pronounced prior to the constitution of the so called government or has not been covered by the petition for declaration of inefficacy (inefficacia) set out in the preceding para.

The petition set out in the second para may be made also in cases where an appeal (ricorso) was lodged with the Court of Cassation against a sentence rendered by a Court of second instance and such appeal was rejected in full or in part.

Such petition for declaration of inefficacy may be made within the time limit established in Art.9, para 2, in respect of judgments rendered by the Section of the Supreme Court of Cassation transferred from Rome by order of the so called republican government. The petition shall be decided by the Court in joint session of the Sections sitting in chambers. If the petition is granted the original appeal in Cassation shall remain in effect and shall be adjudicated by the Court in ordinary proceeding. The First President shall have the power to grant, if necessary, new procedural delays for the regular hearing of the appeal.

ART. 7.

Declassified E.O. 12356 Section 3.3/NND No. 785016

Excepting the cases provided for by the preceding articles all judgments in civil and penal matters and acts of non contentious jurisdiction rendered by the ordinary judicial authority under the rule of the so called Italian Social Republic are hereby validated.

However, upon petition of the interested party and also of the Procuratore Generale in cases where the intervention of the public prosecutor (Pubblico Ministero) is admissible, the competent Court of Appeal may declare ineffective (inefficaci) such judgments in civil and penal matters and acts of noncontentious jurisdiction rendered by ordinary judicial authorities, in respect of which there is good reason to believe that the decision was influenced by the then prevailing political situation. The petition set out in the preceding article must be made within six months after the effective date of this law and the decision of the Court of Appeal shall be rendered in chambers after the Court has heard the Procuratore Generale and the parties.

If the judgment which has been declared ineffective was rendered on appeal the judgment given in the first instance shall remain in force provided that it was pronounced prior to the constitution of the so called government or has not been covered by the petition for declaration of inefficacy (inefficacia) set out in the preceding para.

The petition set out in the second para may be made also in cases where an appeal (ricorso) was lodged with the Court of Cassation against a sentence rendered by a Court of second instance and such appeal was rejected in full or in part.

Such petition for declaration of inefficacy may be made within the time limit established in Art.9, para 2, in respect of judgments rendered by the Section of the Supreme Court of Cassation transferred from Rome by order of the so called republican government. The petition shall be decided by the Court in joint session of the Sections sitting in chambers. If the petition is granted the original appeal in Cassation shall remain in effect and shall be adjudicated by the Court in ordinary proceeding. The First President shall have the power to grant, if necessary, new procedural delays for the regular hearing of the appeal.

ART. 7.

The provisions of the preceding article shall also apply to decisions rendered by bodies exercising special administrative jurisdiction ; the Court of Appeal, however, shall be substituted by the Court of Account in respect of decisions rendered by the latter or by the Consiglio di Prefettura, and by the State Council (Consiglio di Stato) in its juridical capacity in respect of decisions rendered by any other body with administrative jurisdiction.

The Ministry concerned may also request a declaration of inefficacy provided that it was not a party to the proceeding..

ART. 8.

Copies of any document which according to law must bear the name of the Head of the State shall be issued with such heading. After the effective date of this

decree in judicial proceedings the service of summons and documents bearing a formula other than that established by Art.475 of the Code of Civil Procedure shall be of no effect.

ART. 9.

In respect of territories which have not yet been liberated or if liberated have not yet been transferred to the administration of the Italian Government the delays established in this decree and commencing from its effective date shall commence from the date of the aforesaid transfer of administration.

The petition provided for by Art.6, last para, must be filed within six months from the date of transfer under the administration of the Italian Government of the territory where the Sections of the Supreme Court of Cassation transferred from Rome by order of the so called republican government have functioned. If, however, on such date the seat of the Court which rendered the judgment opposed by appeal in Cassation (on which the Sections have passed decision) has not yet been transferred to the administration of the Italian Government the aforesaid delays shall commence from the later date of transfer.

SUBJECT : Directive on Implementation of Italian legislation in Military Government Territory.

See 59A

TO : See Distribution List.

1. Italian legislation in Italian Government territory is promulgated by publication of Decrees in the Gazzetta Ufficiale of the Kingdom. In order to ensure the continuity of the Italian legal system over as much of Italian territory as is compatible with Allied Military interests and for the purpose of extending appropriate Italian legislation to Military Government Territory the procedure of implementation which has been applied in the past will now be followed in the newly liberated provinces of Military Government Territory administered under Regional Commissioners.

2. The legislation enacted by the Italian Government in Brindisi and Salerno and published in the Gazzetta Ufficiale - Special Series No.1/B to 6/B and 1 to 39 in force in Italian Government Territory has been collected and reprinted in book form. In accordance with the principle set out above it is now proposed to render the bulk of this legislation operative in the provinces of Military Government Territory by an endorsement of the Executive Commissioner, ACC. Such endorsement, reproduced on each copy of the reprinted collection, provides that all laws contained in the reprint shall become operative in Military Government Territory with the exception of certain enumerated decrees which have been reproduced for information only.

57B

3. A packet containing sufficient quantities of the reprint (each copy addressed to the regular Italian official recipients of the Gazzetta Ufficiale) will be forwarded to each Provincial Commissioner (for attention of the FLO) for delivery to the Prefect. Each packet will be accompanied by a form of receipt in triplicate (a sample copy enclosed herewith) which will be signed by the Prefect personally and on which each Prefect concerned will record at the request of the Provincial Commissioner the date of receipt of the reprint together with the confirmation that each copy of the reprint will be stamped or otherwise marked with the said date which will be the effective date of the reprinted legislation in the respective provinces. 1699
The Prefect having marked each copy of reprint with the aforesaid date will effect the distribution to Italian officials. One copy of the receipt, signed and dated by the Prefect, will be forwarded by the PC at once to the Legal Sub-Commission, HQ ACC, the second will be left with the Prefect and the third copy kept in the files of the Provincial Commissioner.

4. In the future all ordinary issues of the Gazzetta Ufficiale will bear an endorsement by the Executive Commissioner ordering that all decrees printed therein or in previous issues, with possible exception of certain enu-

over as much of Italian territory [illegible] interests and for the purpose of extending appropriate Italian legislation to Military Government Territory the procedure of implementation which has been applied in the past will now be followed in the newly liberated provinces of Military Government Territory administered under Regional Commissioners.

2. The legislation enacted by the Italian Government in Brindisi and Salerno and published in the Gazzetta Ufficiale - Special Series No.1/B to 6/B and 1 to 39 in force in Italian Government Territory has been collected and reprinted in book form. In accordance with the principle set out above it is now proposed to render the bulk of this legislation operative in the provinces of Military Government Territory by an endorsement of the Executive Commissioner, ACC. Such endorsement, reproduced on each copy of the reprinted collection, provides that all laws contained in the reprint shall become operative in Military Government Territory with the exception of certain enumerated decrees which have been reproduced for information only.

3. A packet containing sufficient quantities of the reprint (each copy addressed to the regular Italian official recipients of the Gazzetta Ufficiale) will be forwarded to each Provincial Commissioner (for attention of the PLO) for delivery to the Prefect. Each packet will be accompanied by a form of receipt in triplicate (a sample copy enclosed herewith) which will be signed by the Prefect personally and on which each Prefect concerned will record at the request of the Provincial Commissioner the date of receipt of the reprint together with his confirmation that each copy of the reprint will be stamped or otherwise marked with the said date which will be the effective date of the reprinted legislation in the respective province. The Prefect having marked each copy of reprint with the aforesaid date will effect the distribution to Italian officials. One copy of the receipt, signed and dated by the Prefect, will be forwarded by the PC at once to the Legal Sub-Commission, HQ ACC, the second will be left with the Prefect and the third copy kept in the files of the Provincial Commissioner.

4. In the future all ordinary issues of the Gazzetta Ufficiale will bear an endorsement by the Executive Commissioner ordering that all decrees printed therein or in previous issues, with possible exception of certain enumerated decrees, shall become operative in each province within Military Government Territory as of the date when the Prefect thereof shall first receive from the Allied Control Commission the copies of the issue containing said endorsement. In order to establish as a matter of record the effective date of certain decrees in a particular province, the obtaining of the fully completed receipts mentioned above is required.

5. The procedure designed for the delivery of the reprinted collection and set out in para. 3 above will be followed also in respect to each future issue of the Gazzetta containing the endorsement of the Executive Commissioner referred to above in para. 4.

6. The Gazzetta containing such endorsements will be sent out to each Provincial Commissioner (attention PLO), in packets containing sufficient quantities and with the necessary indications to enable the Prefect to effect distribution to Italian officials. Accompanying the overall packet will be a triplicate form of receipt in Italian and English on which each Prefect concerned will record at the request of the Provincial Commissioner the date of receipt of the relevant issue of the Gazzetta, together with his confirmation that each copy, before it is distributed, will be stamped, or otherwise marked with the said date.

Declassified E.O. 12356 Section 3.3/NND No. 785016

The three copies of the receipt bearing the Prefect's personal signature will be disposed of as follows: the first copy will be returned by the Provincial Commissioner to this sub-commission at soonest. The second copy of the receipt will be left with the Prefect and the third filed in the files of the Provincial Commissioner.

7. It must be clearly understood that whenever any issue of the Gazzetta contains decrees which have been excepted from implementation in Military Government Territory, that part of such issue is circulated in Military Government Territory, for information of the Italian officials only, and does not become effective therein.

8. It is not proposed to circulate the endorsed Gazette in Army areas.

9. The Regional Legal Officers will see that all Provincial Commissioners and Provincial Legal Officers become thoroughly familiar with this directive and exercise all possible care in putting it into effect.

Il posto assegnato allo stesso deve considerarsi in soprannumero e sarà riassorbito con la prima vacanza di organico dei posti di presidente di sezione.

Art. 3

La Sezione speciale di controllo si compone di una segreteria e degli uffici di controllo, uno per ciascun Dicastero.

La segreteria esercita le attribuzioni del segretariato generale della Corte dei Conti, nonchè quelle di cui al presente decreto.

Art. 4

Ciascun ufficio di controllo esercita il riscontro e la vigilanza sugli atti dell'amministrazione centrale per la quale è costituito e assolve gli altri compiti che possono essere ad esso demandati dal Presidente della Sezione.

A capo di ogni ufficio di controllo è posto un magistrato o un funzionario che rivesta almeno la qualifica di vice referendario: il Presidente della Sezione ne coordina l'azione.

Lo stesso magistrato o funzionario può essere posto, con ordinanza del Presidente della Sezione, a capo di più uffici di controllo.

Il Presidente della Sezione può però disporre con sua ordinanza la costituzione di uffici di controllo distaccati presso le varie amministrazioni centrali.

Il Presidente della Sezione speciale provvede con sue ordinanze a dettare le norme per il funzionamento della Sezione, l'ordinamento degli uffici, la re-

Se il Consiglio dei Ministri risolve che l'atto o decreto debba aver corso, la Sezione speciale di controllo è chiamata a deliberare e, qualora non riconosca cessate le cause del rifiuto, ne ordina la registrazione e vi appone il visto con riserva.

Art. 7

La Sezione speciale di controllo delibera in tutti i casi per i quali è richiesta la deliberazione della Corte sia a Sezioni separate che a Sezioni riunite.

Alla deliberazione partecipano il Presidente della Sezione, che presiede l'adunanza, ed i capi degli uffici di controllo e della segreteria, tutti con diritto a voto.

Il numero dei votanti non può essere minore di cinque e le deliberazioni sono prese a maggioranza assoluta di voti. In caso di parità di voti prevale quello del Presidente.

Il magistrato più elevato in grado o più anziano sostituisce il Presidente della Sezione, in caso di suo impedimento, nella presidenza dell'adunanza.

Le deliberazioni della Sezione speciale devono essere motivate.

Uno dei votanti disimpegna le funzioni di segretario.

Art. 8

Le registrazioni disposte con riserva e le relative deliberazioni saranno comunicate agli uffici di presidenza delle Camere entro quindici giorni dalla data di riapertura delle stesse.

vazioni sono soggetti alla sola tassa fissa di bollo di L. 20.

Art. 3

L'importo dei finanziamenti concessi non può essere pegnorato nè sequestrato neppure per credito alimentare.

E' altresì vietato, dalla data del decreto che autorizza il finanziamento e fino a cinque anni dopo la conclusione della pace, e salvo il caso che, su parere conforme dell'Istituto finanziatore, il Ministro delle Finanze vi dia preventiva adesione, l'esercizio di qualsiasi azione fallimentare e di ogni azione esecutiva sugli immobili, sugli impianti, sui macchinari, utensili ed apprestamenti in genere, destinati allo esercizio dell'Azienda, e sulle somme, anche se vincolate per legge, dovute a qualunque titolo dallo Stato all'Impresa sovvenzionata.

Art. 5

Presso le Conservatorie dei Registri immobiliari e presso i Consigli Provinciali dell'Economia e le Camere di Commercio sarà tenuto apposito registro nel quale, a cura dell'Istituto finanziatore e senza alcuna spesa, verrà annotato il privilegio di cui al precedente articolo 4. Per il recupero del credito, in surroga dell'Istituto, l'Amministrazione delle Finanze è autorizzata ad avvalersi della procedura e dei privilegi per la riscossione delle imposte dirette.

Art. 8

SUBJECT: Italian Legislation.

1. In the course of meetings between Sub-Commissions and their opposite numbers in the Italian Government and discussions on matters of policy it frequently becomes necessary for Sub-Commissions to consider the initiation and preparation of decree laws by the Italian Government and this directive lays down the procedure to be followed.

2. The method of preparation of decrees by the Italian Government is as follows:

Under the present Italian system of administration all legislative proposals emanating from the several Ministries of State are drafted by the originating department itself for submission to the legal adviser to the Cabinet of Ministers as a preliminary to consideration by that body. The draft bill or administrative decree when approved in principle by the Council of Ministers is examined as to its final legal form by the Minister of Justice before presentation to the King or Chief of Government for signature and publication in the Official Gazette.

3. When a Sub-Commission and a Ministry are agreed on a joint policy which necessitates a decree law it is the duty of the Ministry concerned to prepare the decree and not ACC. When considering the terms of the draft decree with the Ministry concerned the Sub-Commission should AT THIS STAGE consult the Legal Sub-Commission to see that the draft decree in fact carries out what the Sub-Commission has in mind.

4. It is then the duty of the Italian Ministry concerned to carry through the draft in accordance with the procedure outlined above. If any changes are made in the draft at a later stage the Ministry concerned should be asked to inform the Sub-Commission concerned and if any difficulty arises therein the latter should consult the Legal Sub-Commission. 4652

5. The decree only becomes effective in law on the date of its publication in the Gazetta Ufficiale and is NOT operative in territory still occupied by the Allied Forces. If the Sub-Commission concerned desires to make such decree operative in occupied territory the Legal Sub-Commission should be so informed in writing BEFORE, if possible, the date of publication in the Gazette.

6. Apart from the foregoing the Italian Government may initiate and prepare decrees on their own and not as the result of a common agreed policy.

6. Apart from the foregoing the Italian Government may initiate and prepare decrees on their own and not as the result of a common or agreed policy. The relationship between Sub-Commissions and Ministries should be such that Ministries will as a matter of course inform their opposite numbers of their intentions in this respect at the earliest stage so that any defects may be remedied and that any appropriate action may be taken thereon sooner rather than later.

7. Contrariwise when a Sub-Commission is considering the submission to the Executive Commissioner of proposals which involve the preparation of a new General or Regional Order, they should normally consult the Italian Government and ascertain their views so that continuity of policy may be established. This does not apply, of course, where the proposed Order is intended to deal only with a short term local situation in occupied territory and does not affect any question of overall or long term (post occupation) policy.

8. In order that co-ordination of views and requirements of Sub-Commissions can be handled, Sub-Commissions will, at the earliest practical time, advise the appropriate VP of any proposed decree. This decree may be initiated either by Sub-Commissions or by one of the Ministries of the Italian Government, the VP will then decide whether or not it is necessary for him to deal primarily with the appropriate Minister. The latter course will be adopted when a decree involves several Sub-Commissions and will avoid Italian Government being required to deal with several branches of the Control Commission over one decree.
