Local Resources Procedure in Army Areas I
Use of Port and Railway Premises and Materials II

I--- LOCAL RESOURCES PROCEDURE IN ARMY AREAS

1. Letter, Headquarters Allied Armies in Italy, above subject, dated 29 September 1944 is hereby rescinded.

2. The following considerations will govern in the procurement of local resources found in Army Areas:

a. Operational requirements of forward formations will have first call on all local resources lying within Army boundaries. In this connection attention is invited to AFHQ Administrative Memorandum Number 14, 1945, the provisions of which are not altered by this Memorandum.

b. Any balances remaining after the demands at (a) above have been satisfied will be made available to meet the requirements of the Allied Armed Forces and the civil administration.

c. Procurement of local resources will in all areas be restricted to the Service or Staff Sections normally responsible for their supply.

d. AMG/AC will be the sole authority for freezing stocks of commodities required by the Armed Forces.

e. Interchange of available resources between Armies will be arranged mutually.

3. In order to apply the considerations listed in paragraph 2 above the following instructions will be effective:

a. Operational requirements may be met to the limit of availability without reference to this headquarters.

b. Available balances of controlled or restricted items not required by Armies in Army Areas will be reported to AFLR Section, RAAC. Attention is invited to Section III, AFHQ Administrative Memorandum Number 46, 1944, which defines controlled and restricted items.

c. Services and Staff Sections of AFHQ/MTOUSA, including the Allied Navies and Air Forces wishing to investigate local resources in Army Areas will do so only after securing approval from the Army concerned; such approval to be specific as to the object of the investigation and the area to be investigated.

d. Services and Staff Sections of AFHQ/MTOUSA, including the Allied Navies and Air Forces, other than those under command of Armies, will only negotiate purchases of controlled and restricted resources in the execution of a release order issued by the AFLR Board.

RESTRICTED

AFHQ Administrative Memo #29 (Cont'd)

e. The control of electric power is vested in AFHQ.

f. Foodstuffs are not considered as operational requirements of forward formations, as fresh fruits and vegetables are provided as necessary by the normal provisioning services. It is the responsibility of the procurement officers of the provisioning services in Army Areas to coordinate with local AMG/AC officials in the determination and purchase of surpluses. The effect of such coordination will be to eliminate any purchases which would result in depriving the local population of its food supply. Where conditions are such that no surpluses exist and it is imperative that fresh produce be purchased, authority to exchange preserved food for fresh produce will be requested from AFHQ/MTOUSA. In this connection attention is invited to Section III, AFHQ Administrative Memorandum Number 42, 1944.

II-- USE OF PORT AND RAILWAY PREMISES AND MATERIALS

1. AFHQ Advance Administrative Echelon, Administrative Instruction Number 15, above subject, dated 11 December 1943, is hereby rescinded.

2. It is of the utmost importance that the essential railways and ports of Italy be rehabilitated with a minimum of delay. In order to assist in this effort the following orders on the use of railway and port transportation premises and materials, and the materials of contractors engaged on work on railways and ports are effective forthwith.

3. All railway premises, including transit sheds, sidings, station buildings, and yards, and all that portion of a port which is specifically set aside for Transportation purposes by agreement of Naval and Military Authorities are Reserved Transportation Areas. No depots or installations will normally be set up within Reserved Transportation Areas, and no stores or materials will be stored in them, except those which are required for port or railway operation. This does not apply to special installations such as Bulk Petrol or Cold Storage Plants.

4. No equipment or materials of an essentially railway nature or especially designed for railway or port working will be acquired from Reserved Transportation Areas (which, for the purpose of this paragraph, include private sidings and yards) by others than British Movements or US Transportation authorities controlling the area without application to such authorities. In case of such application the Movements or Transportation Branch of the staff will insure the proper coordination with the Director of Military Railways or with the Port Transportation Authorities, as the case requires.

5. General engineering stores or materials belonging to the Italian State Railways or to Port Authorities, which have been taken in hand on the effective date of this memorandum by the railways, the DMRS, or Port Authorities in rear of Army boundaries, will be treated as in paragraph 4 above. In newly liberated territories the provisions of Section I, above and Section III, AFHQ Administrative Memorandum Number 46, 1944, apply to all other than equipment and materials of an essential railway nature or especially designed for port working.

6. As a general rule, port and railway buildings will not be occupied as billets except by personnel of Transportation units engaged in repair or operation of ports or railways or by Transportation or Movements Staff. Other units, except as authorized by Army Commanders in their areas, will obtain permission from the proper Movements or Transportation authority prior to occupancy.

Declassified E.O. 12356 Section 3.3/NND No. 785016

AFHQ Administrative Memo 9 (Cont'd)

7. When railway premises are occupied by military units or when adjoining sites are occupied, railway employees who are properly identified will not be prevented from working on the premises or denied access to railway stores authorised and required for their work. All railway employees carry an identity card on the outside of which appear the words "Ferrovie Dello Stato". Except in Army Areas for operational reasons, the homes of railway employees will not be occupied by military personnel except on approval of Headquarters AFHQ/MTOUSA.

8. While it is not desired to restrict the operational actions of Army Commanders, it must be emphasised that interference with railway and port installations, or the diversion to other use of railway and port equipment, even in the forward areas, may have serious consequences on the reopening of forward railway communications and ports. Special railway and port equipment which is moved in Army Areas for operational requirements will be released and returned, where practicable, as soon as the operational needs permit.

SPECIAL ORDER OF THE DAY

Soldiers, Sailors and Airmen of the Allied Forces in the Mediterranean Theatre

Final victory is near. The German Forces are now very groggy and only need one mighty punch to knock them out for good. The moment has now come for us to take the field for the last battle which will end the war in Europe. You know what our comrades in the West and in the East are doing on the battlefields. It is now our turn to play our decisive part. It will not be a walk-over; a mortally wounded beast can still be very dangerous. You must be prepared for a hard and bitter fight; but the end is quite certain — there is not the slightest shadow of doubt about that. You, who have won every battle you have fought, are going to win this last one.

Forward then into battle with confidence, faith and determination to see it through to the end. Godspeed and good luck to you all.

SUBJECT : Economic Decrees.

TO : Regional Commissioner, TOSCANA, EMILIA, LIGURIA, PIEMONTE, LOMBARDIA, and VENEZIA Regions. (for distribution see Page 3)

1. The Italian Government has passed the following (and other) legislation for the financial improvement of economic conditions of State and private employees:

RDL No. 18/B of 6 Dec 43
RDL No. 23/B of 7 Dec 43
DLL No. 303 of 2 Nov 44
DLL No. 307 of 9 Nov 44
DLL No. 328 of 18 Nov 44.

2. These decrees provide for wage increases and allowances commencing at dates other than the effective date of commencement of operation of the law and in the case of the first two decrees for payments retrospective to 1 Nov 43.

3. In the provinces of FORLI and RAVENNA, provincial orders have already been issued bringing the above five decrees into operation, but without retroactive effect.

4. It has been decided that in the remaining provinces of Northern Italy, these five decrees will either not be implemented at all or will be implemented without the full retrospective date as stated hereafter.

5. RDL No. 18/B of 6 Dec 43 will be implemented in AMG Territory, but the increases and allowances granted by this decree will be retroactive only to the date of liberation of the provincial capital. The same principle applies to other financial decrees which are enumerated in para. 1 b hereof.

6. The decision whether or not to implement RDL No. 23/B of 7 Dec 43, DLL No. 303 of 2 Nov 44, DLL No. 307 of 9 Nov 44 and DLL No. 328 of 18 Nov 44, will depend upon the economic conditions found in any particular locality after liberation. In accordance with the wishes of the Italian Government, it has been decided to exclude these decrees from immediate implementation. If, however, the Provincial Commissioner of any province considers that the economic conditions of that province require the operation of all or any of these decrees he may recommend to this HQ (Labor Sub-Commission) that they be brought into effect and that payments thereunder be made from any date which he considers appropriate provided such date is not earlier than the liberation of the provincial capital.

7. In order to give effect to these decisions it has been necessary to devise a particular form of implementation order for publication in the Gazzetta

1. The Italian Government has passed the following (and other) legislation for the financial improvement of economic conditions of State and private employees:

RDL No. 18/B of 6 Dec 43
RDL No. 23/B of 7 Dec 43
DLL No. 303 of 2 Nov 44
DLL No. 307 of 9 Nov 44
DLL No. 328 of 18 Nov 44.

2. These decrees provide for wage increases and allowances commencing at dates other than the effective date of commencement of operation of the law and in the case of the first two decrees for payments retrospective to 1 Nov 43.

3. In the provinces of FORLI and RAVENNA, provincial orders have already been issued bringing the above five decrees into operation, but without retroactive effect.

5. RDL No. 18/B of 6 Dec 43 will be implemented in AMG Territory, but the increases and allowances granted by this decree will be retroactive only to the date of liberation of the provincial capital. The same principle applies to other financial decrees which are enumerated in para. 10 b hereof.

6. The decision whether or not to implement RDL No. 23/B of 7 Dec 43, DLL No. 303 of 2 Nov 44, DLL No. 307 of 9 Nov 44 and DLL No. 328 of 18 Nov 44, will depend upon the economic conditions found in any particular locality after liberation. In accordance with the wishes of the Italian Government, it has been decided to exclude these decrees from immediate implementation. If, however, the Provincial Commissioner of any province considers that the economic conditions of that province require the operation of all or any of these decrees he may recommend to this Hq (Labor Sub-Commission) that they be brought into effect and that payments thereunder be made from any date which he considers appropriate provided such date is not earlier than the liberation of the provincial capital.

7. In order to give effect to these decisions it has been necessary to devise a particular form of implementation order for publication in the Gazzetta Ufficiale. The purpose of this order is to prevent the automatic operation of the full retrospective effect of the decrees which any simple implementation order would produce.

8. This implementation order involves the publication by the Provincial Commissioner of a Provincial Order notifying the effective date upon which payment shall start under RDL No. 18/B of 6 Dec 43 and under certain other decrees mentioned in para. 10 b hereof. This date will be the date of liberation of the provincial capital.

If the Provincial Commissioner requests and obtains permission to bring into operation all or some of the decrees mentioned in para. 6, he will have to

3256

Declassified E.O. 12356 Section 3.3/NND No. 795016

issue a further Provincial Order to this effect. The date of commencement of payments must be stated. This can be at the discretion of the Provincial Commissioner but must not be earlier than the date of liberation of the provincial capital.

9. It is pointed out that considerable difficulties are likely to be caused if an attempt is made to bring these decrees or any of them into operation in any province by means of a Special Provincial Order published before the official procedure for the implementation of Italian decrees has become operative in that province. It is strongly recommended that the implementation procedure be brought into operation in all areas at or before the time when it is desired to give effect to these decrees. If, however, it is considered essential to give effect to the decrees at a date when the general implementation procedure cannot be put into operation then application for leave to do so will be submitted to this HQ together with the proposed form of Provincial Order.

10. Attention is also drawn to certain other decrees of a financial nature which have been enacted by the Italian Government:

a. DLL No. 13 of 25 Jan 45 provided a thirteenth month payment for employees during the year 1944. It is intended that this payment should be granted in the provinces of FORLI and RAVENNA, but that in provinces to be occupied in the future the decree will be excluded from operation. This decree is, therefore, specifically excluded in the northern areas.

b. RDL No. 12 of 13 Jan 44
RDL No. 103 of 23 Mar 44
RDL No. 113 of 13 Apr 44
RDL No. 121 of 23 Mar 44
RDL No. 122 of 5 Apr 44
RDL No. 131 of 9 May 44
RDL No. 156 of 2 Jun 44
DLL No. 276 of 20 Jul 44
DLL No. 301 of 19 Oct 44
DLL No. 351 of 19 Oct 44
DLL No. 360 of 19 Oct 44
DLL No. 386 of 2 Nov 44
DM of 28 Sept 44
DLL No. 400 of 4 Dec 44
DLL No. 424 of 5 Nov 44
DLL No. 434 of 22 Nov 44
DLL No. 28 of 4 Jan 45.

These decrees all create or increase pay or allowances to various classes of employees of the public administration, and all provide for payments with retroactive dates. These decrees will all be implemented in AMG Territory, but the payments will date from the liberation of the provincial capital.

c. DLL No. 38 of 1 March 45 introduced an economic price in place of a political price for bread and paste. This decree will not be implemented in RAVENNA or FORLI or in any future territory.

11. The Italian Government is understood to be considering further legis-

procedure cannot be put into operation then application for decree to be [illegible] be submitted to this H[illegible] together with the proposed form of Provincial Order.

10. Attention is also drawn to certain other decrees of a financial nature which have been enacted by the Italian Government:

a. DLL No. 13 of 25 Jan 45 provided a thirteenth month payment for employees during the year 1944. It is intended that this payment should be granted in the provinces of FORLI and RAVENNA, but that in provinces to be occupied in the future the decree will be excluded from operation. This decree is, therefore, specifically excluded in the northern areas.

b. RDL No. 12 of 13 Jan 44
RDL No. 103 of 23 Mar 44
RDL No. 113 of 13 Apr 44
RDL No. 121 of 23 Mar 44
RDL No. 122 of 5 Apr 44
RDL No. 131 of 9 May 44
RDL No. 156 of 2 Jun 44
DLL No. 276 of 20 Jul 44
DLL No. 301 of 19 Oct 44
DLL No. 351 of 19 Oct 44
DLL No. 360 of 19 Oct 44
DLL No. 386. of 2 Nov 44
DM of 28 Sept 44
DLL No. 400 of 4 Dec 44
DLL No. 424 of 5 Nov 44
DLL No. 434 of 22 Nov 44
DLL No. 28 of 4 Jan 45.

These decrees all create or increase pay or allowances to various classes of employees of the public administration, and all provide for payments with retroactive dates. These decrees will all be implemented in AMG Territory, but the payments will date from the liberation of the provincial capital.

c. DLL No. 38 of 1 March 45 introduced an economic price in place of a political price for bread and paste. This decree will not be implemented in RAVENNA or FORLI or in any future territory.

11. The Italian Government is understood to be considering further legislation for salaries, wages and allowances. It is not, however, the present intention of the Government to publish a consolidated text of all legislation so that it will be necessary to refer to all the existing decrees to calculate the total salaries and allowances payable. This will apply in AMG Territory as much as in Italian Government Territory.

12. Attached hereto are copies of:

a. The implementation order to be published in Gazzetta Ufficiale to give effect to the decisions set out above;

b. Form of Provincial Order to be issued by Provincial Commissioners at the time when the proc[illegible]ure for the implementation of Italian decrees is

brought into effect, which will fix the date for the commencement of payments under all the decrees above mentioned excluding RDL 23/A DLL 303, DLL 307 and DLL 328.

c. Form of Provincial Order to be used if this Hq on the recommendation of the SCAO or Regional Commissioner authorizes the implementation of RDL No. 23/B, DLL No. 303, DLL No. 307 and/or DLL No. 328. It is framed to implement all three decrees, but can of course be modified to implement one or two only.

13. This directive cancels directive AC/4039/5/L of 2 January 1945 concerning the implementation of DLL No. 328.

whatever period, may be retained in the theater for use in either combat units or rear areas, whether such personnel were formerly assigned to this theater or not. G-2 Section, AFHQ, will notify the Replacement and Training Command MTOUSA as to results of such screening and as to limitations, if any, of assignment.

b. The Replacement and Training Command MTOUSA is responsible for determination as to whether or not an individual is to be retained for duty in this theater, and for the administration, processing and handling of all US recovered personnel, and will coordinate with Commanding General, AAF/ATC on matters pertaining to Army Air Force personnel.

c. The Replacement and Training Command MTOUSA and AAF/ATC will consider the following points in determining which recovered personnel are not to be returned to the United States:

(1) Length of time overseas
(2) Length of time out of US control
(3) General physical condition
(4) General mental and psychological condition
(5) Special training or technical abilities
(6) Overall replacement level in the theater
(7) Number of sorties flown (For Air Corps personnel)
(8) If the man meets the minimum requirements for rotation, he should normally be returned to the United States
(9) Security considerations as noted in paragraph 5 b.

The Commanding General, AAF/ATC is authorized to determine whether or not Army Air Force personnel will be returned to the zone of the interior.

d. Personnel to be retained in this theater and whose last assignment was to a unit now stationed in this theater will be classified as MTU's. Those classified as limited assignment will be disposed of in accordance with current directives.

i. If personnel are not eligible for combat duty, they may be retained for other duty within ETOUSA or returned to the zone of the interior at the discretion of the Commanding General, Replacement and Training Command ETOUSA.

j. Security Screening

a. Consideration of security will not ordinarily prevent assignment to combat duty in ETOUSA of personnel who have not previously served in this theater.

b. The return to combat duty in this theater will be governed by the security considerations involved in each individual case. The final decision will ensure the protection of:

(1) Persons and/or organizations within enemy or enemy held territory who may have assisted escapees

(2) Escaped personnel who might be subject to criminal prosecution by the enemy for acts alleged to have been committed within enemy controlled territory

(3) Escaped personnel who may be readily identified by the enemy as former prisoners of war

(4) Security of unusual and extraordinary methods or circumstances of escape.

c. In those cases where further retention in this theater is considered inadvisable for reasons of security, an appropriate remark will be made on officers' qualification card (WD AGO Form 66-1, 66-2, or 66-3), and an enlisted man's service record under "Remarks Administrative".

6. Evacuation of Seriously Ill - Seriously ill personnel will be evacuated to the United States through medical channels as soon as condition permits, and full report of circumstances made to this headquarters by the most expeditious means. The return of sick and wounded recovered prisoners of war by aircraft is encouraged. Other repatriates who require hospitalization will be sent to the nearest replacement depot for disposition when released from the hospital.

7. United States Representatives to Allied Prisoner of War Repatriation Units. The Commanding Generals, AAFME, Twelfth Air Force, Eighteenth Air Force, Continental Air Forces, Services of Supply, Replacement and Training Command ETOUSA, and other commanders who may be later designated by this headquarters will each detail (in

1629

addition to other duties will suffice) one officer to serve as liaison officer to Allied prisoner of war repatriation units, that may be set up in the future. 6. Processing of Personnel Within the Theater

a. Preliminary Interrogation. Advance intelligence echelons will interrogate repatriates only to the extent necessary to secure information of immediate tactical value, such as enemy plans, order of battle, installations, equipment, etc. A certificate will be given to each individual which will show that an interrogation has been made and that the individual is not to be interrogated further until a place of detailed interrogation is reached.

b. Medical Examinations and Records.

(1) Each former prisoner of war will be given a thorough medical examination at the earliest practicable moment. Such examination will make special reference to the existence of infectious or contagious diseases and mental afflictions, and appropriate reference will be made to treatment furnished by the enemy and to any illnesses or injuries suffered while in custody. Complete statements of such injuries, including affidavits from the individuals concerned, where possible, and from enemy or Allied personnel cognizant of the circumstances, will be obtained and forwarded to this headquarters in duplicate. Medical records, which will be improvised locally and likewise forwarded to this headquarters in duplicate, will contain the information obtained under the provisions of this paragraph.

(4) No effort should be made to effect full settlement of pay accounts of an officer or an enlisted person while in a casual status, i.e., awaiting evacuation to the United States or transfer to another unit, when such evacuation or transfer is contemplated within sixty (60) days. However, if it is reasonably certain that a person will be in a casual status for more than sixty (60) days, immediate action should be taken to settle his account in full, in accordance with instructions contained in sub-paragraph (5) below.

(5) Pay accounts of all other personnel will be brought up to date as soon as possible after rejoining their former units or when they have been assigned to new units in a permanent status. In order to accomplish this end, local commanders will, upon the arrival of such permanently assigned personnel, promptly prepare a letter addressed to the Office of Special Settlement Accounts, 27 Pine Street, New York 5, New York, requesting the pay data information pertaining to each individual. 1631

effect and amounts due the United States) indicates that no overpayment will result. Partial payments within the above limitations may be made monthly thereafter, if the individual is still awaiting evacuation or transfer, or if full settlement of his pay account is being held in abeyance pending verification of pay data in accordance with sub-paragraph (5) above. (Note: Every effort will be made to effect full settlement of individual accounts within ninety (90) days. Commanders will exercise discretion in approving requests for maximum partial payments, in order that there will be no abuse of this privilege which will result in overpayments.)

(b) When preparing vouchers for partial payments to enlisted personnel, the following will be added to the certificate of the Personnel Officer, on WD Form 366 or WD FD Form 56: "The amount paid to each enlisted person on this payroll has been authorized by CONFIDENTIAL letter, Headquarters MTOUSA, AG 383.6/470 A-O, dated 31 March 1945, subject: 'Repatriation of American Personnel', and each payment has been entered in the respective individual's service record."

(f) In the event that individual pay records of officers and enlisted personnel have been lost or are not otherwise available, temporary records will be prepared and action taken as described above.

This procedure, together with the reason therefor, will be carefully explained to all repatriates.

f. A temporary service record will be prepared for enlisted men as outlined in paragraph 13, AR 345-105, WD TM 12-230, and Section II, TOUSA Circular Number 13, 1945. Subject : Clandestine correspondence

To : Directorate of the Judicial prisons - Rome
and for information
To : A.C. Public Safety Sub-Commission
(Letter AC/14057 dated 16/3/45 refers.)

Following the ministerial letter n. 132346 dated 24th instant further 5 letters written by prisoners are forwarded, which lack the visa of the Directorate and which have been sent to us by the Allied Commission.

Also in regard to these letters you will make close investigations in order to ascertain in which way they could have been sent clandestinely and will report those responsible.

Besides which you will forward the biographic records of the prisoners who wrote the letters and report the disciplinary measures which have been adopted in their regard.

We enclose a letter signed "Luigino" and addressed to Pietro Noviello - Aversa - which seems to be written by a prison guard. In case the letter has not been written by a prisoner and ~~whether~~ there are no objections, this letter can be regularly mailed.

A.G.R. IV.
No. 500/71625.
Subject: Use of cyphers.
A.C. P.S. 3/C.

The Prefecture of Foggia has reported as follows:-

"In the last days of January last the Questore informed me that the Allied officer in charge of telegraph censorship at Foggia had stopped a cypher telegram addressed to the Questura at Catanzaro and that he would not forward it if he was not in possession of the cypher. The request was made by a civil employee at the Censor Office.

I hastened to interest the A.C. District Commissioner explaining that it was not possible to give a copy of the cypher for obvious reasons of secrecy, given also the fact that censorship is undertaken by civilians under the direction of the Allied censor.

The aforementioned censor officer, on the instructions of the A.C., insisted on the previous request or at least that the cypher should be explained verbally to the censor.

I therefore ask the Ministry to approach the appropriate Allied Sub-Commission so that the question may be resolved without prejudice to the secrecy of correspondence in cypher".

Will the sub-Commission please communicate its opinion on this question.

FOR THE MINISTER.

SUBJECT: Children in Rome

TO : Commanding General
Rome Area Allied Command

1. The Italian authorities are faced with a considerable problem in respect of the large number of children who are avoiding school and generally running loose.

2. The problem is entirely a matter for the Italians to solve but there is a direction in which your assistance would be much appreciated.

3. Rest Camps and other places where soldiers congregate are always a big attration to the children. The Italian Police Agencies are reluctant to act because, out of mistaken kindness, soldiers are apt to "protect" the children. It is thought that if you would consider some means of pointing out to the soldiers that the Italian Police are acting in the ultimate interest of the children themselves, the Police would be able to deal with the problem more effectively.

SUBJECT: Italian State Employees in AMG Territory

TO : All Regional Finance Officers and
Senior Finance Officers.

1. It has been decided that all establishment questions affecting individual members of the Italian civil service at present employed in AMG territory shall in future be dealt with by direct correspondence between the parent ministry and the dependent provincial State office. This arrangement is limited to matters having individual application only, for example, seniority in grade, promotion, increments of salary, rates of travelling and subsistence allowances, retirement and pension, marriage and birth premiums, etc.

2. In AMG territory no instructions or directions of general application affecting a section or category of officials may be issued without prior consent of the Allied Commission. Hence the grant of any general increase in pay or allowances, or of any bonus or indemnity to a group or section of employees must be approved by the Allied Commission.

3. Where salary, wage or pension changes of general application have been authorised in Italian Government territory, other than by decree, and it is considered desirable that like treatment shall be applied in AMG territory, the proper Italian ministry will furnish copies of the relative circular or instruction to the Finance Sub-Commission. If extension to AMG territory is approved the circular instructions will be sent through Allied official channels to Regional Finance Officers for delivery to the respective provincial State offices. By this arrangement Finance Officers will know that the salary or pension changes are authorised in AMG territory, and the instructions will be delivered without postal delays.

4. These arrangements do not confer on the Italian Government any authority to finance provincial State offices or to issue credit or direct payment orders in AMG teritory; except as already provided for expenditures chargeable to the budgets of the ministries of War, Marine and Air, the State Railways, the State Monopoly and to capitolo 202 in the budget of the Ministry of the Treasury.

SUBJECT : Case of LASCIAMANDARE Mario.

TO : Public Safety Sub-Commission.

1. Reference your Inter Office Memo AC/14057/PS of 21 March 1945. Article 80 C.P.P. provides that where a prisoner sends to the Director of the Prison a formal document of the nature involved in this case that document shall be deemed to have been sent to the appropriate judicial authority and the Director of the Prison shall in fact transmit it accordingly.

2. I am advised that the document in this case is not an application for the appointment of counsel but is an official notification to the court concerned that LASCIAMANDARE Mario has in fact appointed the Avvocato named to be his counsel. I think, however, that this should be verified as it is obviously undesirable that the prisoner should be deprived of the assistance of counsel through a confusion by the Director of the Prison as to the correct channels to follow.

3. LASCIAMANDARE Mario was arrested in company with four other persons named SPIGO Salvatore, CASILI Luciano, CASILI Renato and DARIO Vittorio. The charge was collaboration with the Germans. The exact date of his arrest is not known but it was probably in June 1944. The arresting authority is not known but these five prisoners were held at the disposition of the Allied Authorities. The relevant documents in the case were handed over to the Procuratore del Regno of Rome on 29 August 1944 against a signature and the Procuratore was informed that these prisoners were held at the disposition of the Italian Authorities.

4. It appears, however, that LASCIAMANDARE Mario has now been in prison for some 9 months and no action has yet been taken about him since the Italian officials still seem to regard him as at the disposition of the Allied Authorities. The Allied Authorities have now no evidence against him and unless the Italian Authorities are in a position to proceed forthwith with the case I am of opinion that it is the responsibility of the Allied Authorities to take steps to secure his immediate release. I am aware, of course, that Viterbo is in Italian Government Territory and that we are not officially in a position to issue any orders in the matter but I feel that we cannot adopt a completely passive attitude and allow the man to be held permanently in prison at the disposition of nobody in particular and with nobody prepared to take any executive action about him. Please advise me what action is being taken.

21 March 1945

SUBJECT : Request of prisoner LASCIANDARE Mario

TO : Legal Sub-Commission

1. Attached papers sent to Public Safety Sub-Commission after having been received at Headquarters Lazio-Umbria Region from the prison at Viterbo. They represent a request by the subject prisoner LASCIANDARE Mario for the appointment of a defense counsel. The request is directed to this Sub-Commission and refers to what is evidently an article of Italian law.

2. This office does not believe that this or any other prisoner at Viterbo is at the disposition of Allied authorities. Viterbo Province is under Italian Government control and Allied Courts are not being held, Neither does the under signed know of any provision where-in Public Safety Sub-Commission is concerned in the possible appointment of a counsel.

3. If this is true can you so state as a basis for our reply to the Viterbo prison director.

1. By order of the Duce on 19 January, published in the press on 13 February, factory workers were informed that during the so-called 'dangerous' alarms, all activity in the factory was to cease, while during the less dangerous alarms the work would continue, and the workers would be given extra pay for the added risk. As was easily foreseeable, the workers continue to leave the benches upon the sound of the alarm or even a noise that could be that of an aeroplane, as a worker who a few months ago was in danger of his life during a bombardment, feels no safer because of some extra pay.

2. The same order adds that the factories shall provide spotters to warn the workers when the planes are in sight. This proves how useless customary observation posts are considered. Besides, a spotter cannot possibly give the alarm in time, and he may be a saboteur with the power to stop a whole factory. The result is that the workers, if possible, work even less than before, since even during the so-called less dangerous alarms factories have been shelled. Even night work, which has been

D.E.P.S., AFHQ undertook to notify demanding services of the date on which the breakdown of the above bids would be available and the location of the factory at which production would be effected. As the demands exceeded the availability, a reduction of allocation against bids would have to be made after consideration of the rolling program and services would be informed of the quantities which could be made available.

D.E.P.S., AFHQ reported that the supply of furnace pig would be exhausted towards the end of July or early in August, and it was agreed that D.E.P.S. and CE, MTOUSA would mutually arrange the submission of requisitions on UK or US for this material.

72. NAIL PRODUCTION:

CE, PBS representative requested that a record be made in the minutes of his objection to the control of nail production.

The Committee decided that as the information now available was insufficient to permit of a detailed allocation of nails for the month of April, all services, including A.C., operating nail factories would forward the estimated availabilities of their production for the month of May to reach AFLMS fourteen days prior to the date of the next meeting.

D.E.P.S., AFHQ undertook to circulate a catalogue of the sizes and types of nails produced in factories operating under his control.

As an interim measure and as the only bidding services for nails were American and British, it was agreed that the March/April production should be divided by mutual agreement between D.E.P.S., AFHQ and CE, MTOUSA.

73. SCREWS AND BOLTS:

It was recommended to the Board that the production of screws and bolts becomes controlled. All services, including A.C., were requested to submit details of their production of these items to AFLMS fourteen days before the date of the next meeting in order that the availabilities could be circulated to all members.

74. PAINT:

In view of a protest submitted by DCS, AFHQ, the Committee decided that it was inadvisable to make an allocation of the paint production pending a further consideration of this matter by AFHQ. It was agreed that Ord. (Br), AFHQ and CE, MTOUSA would, in consultation with the Chairman, mutually decide the allocation to be made for April and that their May allocation would be decided at the next meeting of the Committee.

75. AMMONIA GAS:

STANDARD OPERATING PROCEDURE FOR SUPPLY SECURITY CONTROL

1. Fencing:

a. Motor Parks not within a guarded building will be surrounded by barbed wire fencing with one entrance and one exit which will be guarded by military personnel. Special Orders preventing unauthorized persons from entering or leaving the park will be issued.

b. Ration Rooms whether they are within a mess hall or warehouse will be fenced with ordinary chicken wire wherever a probable means of entry other than a door is noticed. Door will be kept locked when room is not occupied by military personnel and only one key should be in the possession of the responsible military representative.

c. Supply Rooms (same as above)

2. Guard Towers:

a. Guard towers will be erected in the case of extremely large motor parks where lack of sufficient military guards prevails or where large quantities of supplies are stored under canvas.

3. Guards:

a. Motor parks or garages will have guards posted 24 hours per day. During the daylight hours dispatcher may be utilized as guard provided that the motor park has only one means of entrance.

b. Ration rooms and warehouses will be guarded constantly. Guard may be a Charge of Quarters who will make tours of the premises at irregular and frequent intervals during hours of darkness.

4. Entrances and Exits:

a. Entrances and exits of all installations will have guards posted whenever practicable. If not practicable due to lack of personnel, entrances and exits will be kept locked at all times and opened only after identification of authorized personnel.

b. Office furniture such as typewriters and adding machines will be placed under lock and key upon leaving the respective office where the item is in use. Guards at exits will be instructed to examine all parcels that appear large enough to cover equipment of this type.

6392

Declassified E.O. 12356 Section 3.3/NND No. 785016

c. In addition to General Orders, Special Orders will be issued from time to time depending upon the necessity, locality and situation.

5. Flood lights:

a. Flood lights will be utilized on all open car parks, entrances and exits which are in function during the night. Lights will be erected high enough so that the maximum exposed area will be illuminated.

6. Traffic Control:

a. In car parks, motor pools, supply installations and exposed supply dumps, a one way traffic will be maintained wherever practicable. This will be in coordination with the entrance and exit instructions, thereby prohibiting any vehicle from exiting without surveillance from the appointed guard.

7. Pass System:

a. Pass system will be initiated in any military installation where a group of more than 15 laborers is employed. Passes should bear the name printed and the signature of both the laborer and officer authorizing the bearer entrance to the installation.

8. Guards and Laborers:

a. Guards will be checked at frequent intervals to satisfy the responsible officer that guards are fully aware of their responsibilities. Laborers who physically handle U. S. supplies must be cautioned and checked for all possible means of pilferage. A physical search prior to daily departure of each laborer will be made by an officer or the commander of the guards. Vehicles will be checked for loads, and guards will be mounted on the rear of each truck whenever possible.

9. Checks and Tallies:

a. A simple debit and credit system will be maintained on all items stocked in warehouses and a daily or weekly running inventory should be made wherever practicable.

10. Vehicle Movement of Supplies:

a. Supplies will be moved in small convoys. When drawing rations or other supplies from a warehouse, the following will apply:

(1) A checker will be posted at the tail gate of the vehicle in order to prevent loss while loading.

(2) A checker within the depot will check off items prior to their loading and a signature will be obtained as an acknowledgement that the items listed thereon were received and were all in apparent good condition.

Declassified E.O. 12356 Section 3.3/NND No. 795016

(3) Armed guard will travel on rear of the truck to prevent pilferage while in transit.

(4) The consignee will check all loads received by him during the unloading and will report all shortages, overages and damages immediately to the consignor.

11. Showdown Inspection of Troops.

a. Inspection will not only be made physically, but whenever possible, the Enlisted Men's Form 492 will be used as a basis for determining unauthorized items of government property in the hands of troops. Disciplinary action will be taken upon the initiation of a Statement of Charges for loss of property.

12. Illegal Disposition of Government Property.

a. The following is extracted from Provost Marshal General Security Instructions for the information and guidance of all concerned:

* * *

"15. Illegal Disposition of Government Property.

a. Articles of War 84 and 94 prohibit the sale, wrongful disposition, misappropriation or diversion of United States government property to unauthorized persons. In this connection, particular attention is directed to the fact that abandonment, misappropriation or barter in any way of Army rations, gasoline and oils, captured material, clothing and equipment and Army Exchange supplies of all types fall under the provisions of these articles and Army Regulations.

b. All military personnel who observe any act of abandonment, pilferage or illegal diversion of United States government property will, without delay, apprehend the offender, obtain the name, grade, organization and serial number of the offender. They will also obtain similar information concerning witnesses, if any, and submit a detailed report of the incident to the appropriate commander having courts-martial jurisdiction. If apprehension is not possible, all information available will be obtained, and a similar detailed report of the incident will be made. The information obtained from military offenders will be checked against their War Department Identification Cards and Tags. When there is no doubt as to the veracity of information given, the individual will be turned over to the Military Police.

c. Negligence on the part of any United States military personnel in reporting crimes of this nature will be considered dereliction of duty and will be punished accordingly.

d. All commanders having courts-martial jurisdiction will issue such additional instructions as may be necessary to enforce compliance with the foregoing and will take strict disciplinary action in all cases."

SUBJECT : Imposta Generale sull'Entrata.

1. Brief history of the Business Transaction or Turn-Over Tax, i.e. Imposta Generale sull'Entrata

The Turnover Tax was enacted on 6th January 1940 to replace the then existing sales tax. It applied to all transactions in goods and services including public utilities and imports.

The tax rate was originally 2% on income in monetary value, or other form received by any person as compensation for the transfer of goods and services. It was increased to 3% on 1st July 1943. In certain cases it could be increased as much as 6% and later to 8% to equalise the tax burden of different businesses.

The tax was assessed and collected by one or two methods viz.:

(a) Agreement between the Ministry of Finance and individual taxpayers or groups of taxpayers in the same industry, called 'concordato', based on their liability to Income Tax on general income. Under this method they were not required to charge sull'Entrata to their customers separately on each transaction.

(b) For small purchases the vendor affixes special sull'Entrata stamps purchased by him in bulk from the Post Office, to the invoice for sale, or, for larger transactions, pays the tax in cash at the Post Office. In this last event the invoice is enforced "tax paid" and a receipt is attached to the invoice as proof of payment.

With a few exceptions, ⅓ of the tax was borne by the seller, and ⅔ by the purchaser.

Under decree of 5th December 1944 the rate of the tax was increased from 3% to 4% and the whole of the 4% may be passed on to the purchaser. The same rate is due for goods imported from abroad. For part in lapse of luxury goods the rate of tax is increased from 8% to 12%. One important difference in the new decree is that instead of the tax becoming payable as and when the goods are sold to the consumer the retailer has now to pay the tax within five days of receiving the invoice from the wholesaler. He may still pass the tax on to the consumer and in the event of the goods becoming unsaleable, machinery exists for reclaiming the tax paid.

The exemption from tax of certain foodstuffs such as wheat, maize, rice and barley is withdrawn. Also special extra taxes have been imposed on certain [illegible]

raising public utilities and imposts.

The tax rate was originally 2% on income in monetary value, or other form received by any person as compensation for the transfer of goods and services. It was increased to 3% on 1st July 1943. In certain cases it could be increased to as much as 6% and later to 8% to equalise the tax burden of different businesses.

The tax was assessed and collected by one or two methods viz.:

Under this method they were not required to charge sull'Entrata to their customers separately on each transaction.

(b) For small purchases the vendor affixes special sull'Entrata stamps purchased by him in bulk from the Post Office, to the invoice for sale, or, for larger transactions, pays the tax in cash at the Post Office. In this last event the invoice is endorsed "tax paid" and a receipt is attached to the invoice as proof of payment.

With a few exceptions, 1% of the tax was borne by the seller, and 2% by the purchaser.

Under decree of 5th December 1944 the rate of the tax was increased from 3% to 4% and the whole of the 4% may be passed on to the purchaser. The same rate is due for goods imported from abroad. For certain types of luxury goods the rate of tax is increased from 8% to 12%. One important difference in the new decree is that instead of the tax becoming payable as and when the goods are sold to the consumer the retailer has now to pay the tax within five days of receiving the invoice from the wholesaler. He may still pass the tax on to the consumer and in the event of the goods becoming unsaleable, machinery exists for reclaiming the tax paid.

The exemption from tax of certain foodstuffs such as wheat, maize, rice and barley is withdrawn. Also special rates have been imposed on certain goods according to the conditions under which they enter into consumption. 6393

The following transactions are EXEMPT :-

(a) Sale of goods subject to Monopoly or Revenue Stamps.
(b) Amounts received from the sale of bread and milk in their natural state to consumers.
(c) Gifts to religious or charitable institutions for assistance or education, hygiene or public welfare or assistance by local authorities for maintenance in hospitals.
(d) Amounts received for exportation of materials, goods, and freights for international service.
(e) Amounts received from railways, tramways and inland shipping by private companies.

Declassified E.O. 12356 Section 3.3/NND No. 785016

(f) Amounts received by the State, Provinces or Communes as taxes or contributions.

(g) Amounts received by the State for management of public services and lotteries.

(h) Amounts received from the sale of a periodical or newspaper having a political character.

(i) Amounts received as capital, such as money received from the sale of buildings, land, securities, shares or loans.

(j) Interest on capital or dividends from capital invested in State and Civil Company securities and banking deposits.

7. Bearing on the exemption of the Allies to the tax the following extracts from Executive Memorandum No. 83 (Revised) 23 January 1945 are important.

4. Duties on Goods Imported.

(A) No duties, taxes, imposts or fees of any kind are chargeable on goods imported for the use of the Allied Forces; Allied Nationals employed by them and Allied Forces' welfare organisations or on goods imported under Allied auspices for distribution free of charge for civilian relief purposes and not for sale. Officers dealing with the latter should give a written certificate to the Customs that the goods are for free distribution for civilian relief.

(B)(1) The Italian Government have agreed to exempt temporarily from all Customs duties, charges and Ilbanco fees, all goods imported by the Allied Nations for commercial or civilian use except alcohol; tobacco, mechanical lighters and lighter flints; cigarette papers and tubes; matches and petroleum.

(2) Tobacco, mechanical lighters and lighter flints, cigarette papers and tubes must be handed over to the State Monopoly Administration for distribution.

Matches must be handed over to the sole authorised distributors, the Consorzio Industrie Fiammiferi (CIF).

Petroleum distribution for non-military use is the responsibility of the Comitato Italiano Petroli (CIP).

For all these goods special arrangements exist whereby the duty is collected by the State Monopoly, CIP and CIF respectively.

Alcohol must not be released for civilian or commercial use unless all the import duties have been paid.

It is emphasised that the directions in this sub-paragraph relate to goods imported for commercial or civilian use. The same procedure, however, should be applied to similar goods imported for the use of the Allied Forces should they be diverted to commercial

(C) Imported goods not covered by the exemptions in paras 4(A) and 4(B) continue to be subject to all duties, taxes, imposts, fees and rights prescribed by the existing Italian laws, which must be paid at the time and in the manner prescribed thereby.

6. Duties on Goods Exported.

The Statutory export duties and licence fees will be charged on all goods exported, except on goods certified in writing by the Allied officer responsible for shipment as being shipped, under Allied auspices, to Allied Government Departments.

Declassified E.O. 12356 Section 3.3/NND No. 785016

3. Officers of this Commission are liable to meet the question of this tax in the following circumstances :-

(a) Goods imported for distribution to Italian civil population

In no circumstances do the Allies pay tax or recover tax on their selling prices on goods imported under Allied Governments auspices or when Allied property is disposed of to any Italian organisation. As therefore the tax is not applicable until the goods have been taken over from Allied Hands by the approved Italian organisation which handles them on behalf of the Italian State, the incidence of the tax has only to be considered when it is necessary to fix a price above which such goods must not be sold.

(b) Local purchases for Allied use.

Under the Italian Government agreement, no tax is payable on such purchases but the seller is entitled to have his bill or invoice endorsed by authorised officers of the unit or organisation purchasing the goods, to the effect that they have been purchased on behalf of an Allied organisation.

(c) In contracts with Italian firms for goods for Allied use

The same principle applies - the contractor must not include in his price any portion for Italian taxation; but he is however personally liable to Italian Income tax on any profit he may make from the contract.

(d) Disposal of reconditioned or salvaged goods.

The same principle applies as in 3(a).

(e) Requisitioned hotels and services

Any purchases, supplies or repairs are ultimately paid for by the Italian Government, who then recovers the tax payable from the Italian owner or manager, but no portion of the tax is borne by Allied organisations.

4. Effect on Price Fixing

With certain exemptions the tax is cumulative - that is, on every sale until the goods reach the consumer, the 4% Imposta sull'Entrata is payable, the vendor having the right to recover the tax in the selling price.

It should be borne in mind with respect to goods imported under Allied auspices that duty is not chargeable until the first sale of the goods by the central Italian Agency responsible for handling them.

The tax is also payable on any amounts included in the invoices in respect of transportation and packing charges.

Payments for services rendered by the professions, public houses, itinerant artisans, services, transportation of persons, certain trades such as barbers, tailors, laundresses, furriers, mills, olive presses, ovens etc., are liable to the tax, and require to be eliminated from any costings or charges to Allied

dressed by authorised officers of the unit or organisation purchasing the goods, to the effect that they have been purchased on behalf of an Allied organisation.

There are other Italian State or local taxes which may be payable in addition to Imposta sull'Entrata, viz. :

(a) IMPOSTE DI FABBRICAZIONE - State Taxation

This is a manufacturing tax imposed on sugar, alcohol, beer, mineral oils, etc. For home produced goods the tax is payable at the moment the goods leave the place of production; thereafter sull'Entrata Tax is applied. Imposta di Fabbricazione is chargeable on articles imported from abroad if the tax is due on similar articles manufactured in Italy. It is payable in addition to Customs duty.

(b) STAMP TAX - State Taxation.

Stamp Tax is payable :

(i) on goods exempt from Imposta sull'Entrata;

(ii) on receipts separate from the invoice, when Imposta sull'Entrata was paid on the invoice.

A decree fixing some of the rates on an "ad valorem" basis is expected to be issued shortly.

Attached hereto is an alphabetical schedule of goods specifically mentioned in the original law and subsequent amending laws, Ministerial decrees and circulars which :

(b) are liable in addition to either Imposta di Fabbricazione or Imposta di Consumo.

NOTES

i. Goods liable to Imposta di Fabbricazione (Production Tax) on leaving the place of production, and which on subsequent moves are liable to Imposta sull'Entrata, are indicated by I di F.

ii. Goods liable to Imposta sull'Entrata, and to Imposta di Consumo in the Commune in which sold, are indicated by I di C.

iii. Attention is drawn to liability to Stamp Tax in respect of certain transactions as explained in para. 4(5).

iv. In the case of some goods the rate of tax chargeable is determined according to the manner in which they "enter into consumption". Various interpretations of the phrase are included in the law. These are shown in the lettered list below; the letter being used on the schedule to show the definitions appropriate to the rate of tax.

Via del Tritone 125
R o m a .

13th March, 1945.

To : Hq. of the British Military Police - Via Genova - Rome.

The undersigned Ernesto Stacchini son of the late Giovanni, resident in Rome, via del Tritone 125, denounces to the Command the following matter:

Sunday evening 11th instant, at about 2000 hrs, returning from a shooting party, he put his car (covered truck 1100 Fiat) as usual in the garage of Via S.Nicolò da Tolentino.

The garage is property of Forti and has been requisitioned by the Allied Command. Some British soldiers commanded by a sergeant are there on duty. There remained, as night guards, two ex employees of the firm Forti.
In the car there war three shooting-rifles of great value.

The undersigned, due to the necessity to leave the rifles in the car in order to bring them to an artificier for cleaning, informed one of the two night guards, certain Domenico and handed to him the keys (after having carefully closed the car) in case of removal of the car in the interior of the garage.

Yesterday morning the undersigned went at 0800 hrs. to the garage in order to draw the car, but had the surprise to learn that the night guard had gone home, having finished his duty hours, carrying with him the keys of the car.

After two hours it has been possible to trace the guard and to return into possession of the keys.

However, one rifle had been stolen from the car.

The Guard has been immediately informed, but took no notice and only last evening, after the usual return of the car to the garage, he expressed his surprise at the robbery of the rifle, affirming that . . . he had found the car open (while it had been carefully closed) and to have three witnesses for that.

He has then informed the undersigned, that the British sergeant did no longer want the car in the garage.

Requested who had visited the garage during Sunday night, he answered that there have been many Allied soldiers and that he could not be responsible for their actions. 6376

Alltogether from those circumstances serious doubts arise against this guard, who could have acted also in agreement with others.

Declassified E.O. 12356 Section 3.3/NND No. 785016

The rifle stolen was the best of the three. It has been removed from the case, so that if the contents would not have been immediately controlled, doubts could have immediately arisen that the robbery had been effected outside the garage.

The rifle is an English "Scott", made for the Stanzani Brothers of Bologna, as indicated along the barrels, of the value of 100.000 Lire.

The undersigned is requesting the Command kindly to make investigations for the recovery of the rifle and for the punishment of those responsible.

Thanking you. Respectfully

Sgd. Ernesto Stacchini

On.le Comando
Polizia Militare Inglese

Il sottoscritto Ernesto Stacchini fu Giovanni domiciliato a Roma, via del Tritone 125, denuncia a codesto On.le Comando il seguente fatto :

Domenica sera 11 corrente, alle ore 20 circa, di ritorno da una partita di caccia, riportò nel solito garage di Via S.Nicolò da Tolentino la propria automobile (autofurgone coperto 1100 Fiat).

Il garage è di proprietà Forti ed è stato requisito dal Comando Alleato. Vi prestano servizio alcuni militari inglesi al comando di un sergente. Sono rimasti, come guardiani notturni, due ex dipendenti della Ditta Forti.

Nella macchina si trovavano tre fucili da caccia di grande prezio.

Il sottoscritto, nella necessità di lasciare i fucili nella macchina per consegnarli ad un armaiolo per la pulitura, ne avvertì uno dei guardiani notturni a nome Domenico e lasciò a costui le chiavi (dopo aver accuratamente chiuso l'automobile) per l'eventualità di spostamento della macchina stessa nell'interno del garage.

ROMA

Recatosi, il sottoscritto, ieri mattina per il ritiro della macchina, alle ore 8, ebbe la sorpresa di apprendere che il guardiano di notte era andato a casa per aver terminato l'orario, portandosi via le chiavi della macchina.

Dopo due ore è stato possibile rintracciare questo guardiano e riavere le chiavi.

Dalla macchina, però, era stato rubato un fucile.

Mandato ad avvertire subito il guardiano, questi non si dava per inteso e soltanto ieri sera, al rientro consueto della macchina in garage, ha espresso la sua sorpresa per il furto del fucile, affermando di ..... aver trovato la macchina aperta (mentre era stata accuratamente chiusa) e di avere in proposito ben tre testimoni.

Ha poi avvertito il sottoscritto che, da quella sera, il sergente inglese non voleva più avere la macchina nel garage.

A richiesta di chi avesse frequentato il garage domenica notte, ha risposto che erano stati tanti i militari alleati e che lui non poteva risponderne.

Da tutto il complesso di queste circostanze, emergono dubbi assai gravi a carico di questo guardiano, il quale potrebbe aver agito in accordo anche con altri.

Il fucile rubato era il migliore dei tre. Esso è stato tolto dal proprio astuccio cosicchè, se non si fosse subito controllato il contenuto, sarebbe potuto ~~subito~~ crearsi il dubbio di un furto fuori del garage.

Il fucile è di marca "Scott" inglese, fabbricato per i fratelli Stanzani di Bologna, come è indicato lungo le canne, del valore di lire centomila.

Il sottoscritto prega codesto On.le Comando di voler esperire le indagini atte a rintracciare il fucile e a punire i colpevoli.

Ringrazia e porge distinti ossequi.

The primary purpose of these M/T Dispatching Orders is to ensure the safe delivery of the load. The diversion of the green copy to any other purpose, such as depot accounting, defeats this purpose and should not be permitted. Until the green copy has been matched with the original at the port, the correct delivery of the truck load has not been shown.

We have a communication to make from the S. African Government to Mrs. Sara MORANTE, Via San Crisante 16, Aquila. Before we do so it is necessary for us to establish her national status. As this lady is quite unknown to us and ordinary postal communications are fraught with delay, we should appreciate it if your officer in Aquila could interview this lady and report on her national status (No. of passport, date and place of issue, particulars of the naturalisation certificate if any, place of birth, and if she is born in Italy the place of birth of her father or, if she is a British subject by marriage, the place of birth and national status of her husband). We should appreciate it if your officer could also ask her if she is expecting the remittance of funds from S. Africa and in that case inform us the degree of relationship of the person she is expecting to remit to her.

Memorandum on the condition at the Laguna di Lesina.

Dr.Aldo Vicentini (Via Clitunno 35,Rome) as one of the joint-owners, received last month from Avv.Raffaele Galante (Ripalta Prov.of Foggia) the following news on the conditions at the Laguna di Lesina:

"Until September 1943 things proceeded as usual; normal functioning of fishing, of the Cooperative Society, of our administration.

With the political events of September 1943, there was at first, an interruption of the operations, but immediately after the Armestice there appeared a seditious movement among the fishermen against the management of the market, movement which culminated with the invasion of the premises and offices, and with the asportation of all which they were able to take away. This movement was practically and effectively against the right of joint-ownership.

While on our part we tried to put things in order again, a group of tradesmen (not local),with the assistance of fishermen of Lesina, succeeded in winning over to their side the AMGOT of Sansevero, retailing nonsense of every description (as for example, the joint-ownership absorbed 25% of the catch of fish subtracting it from the Allied Forces and from the population). The officer in charge Major Talbot immediately issued an order whereby it was forbidden to the Reali Carabinieri and to our guards to sequestrate or to make reports and abolished the percentage in our favour.

I went to the AMGOT but I could obtain anything more than the recognition to the joint-ownership of the 1 per cent, as a protection of the rights, until the Province of Foggia should not be transferred to the Italian Government, a thing that seemed then to be likely to happen very soon.

Since then there has been no control and the fishermen do exactly as they please, objecting to any interference and refusing to pay the 1 per cent too that had been assigned.

634.0

Declassified E.O. 12356 Section 3.3/NND No. 795016

We were not idle and continued to take steps with the authorities, and only in Last June, by means of Col.Temperley, Head of A.C.C. at Lucera, were we able to have our case examined.

The result was that the A.C. was convinced that an illegality had been made, they took measures to remedy it with an order signed by Col.Temperley to the effect that any preceding order should be cancelled, and that everything should be as it was before Major Talbot's order; with the normal percentage on fishing and the renewal of control.

Almost at the same time, however, the province of Foggia was transferred to the Italian Government. We asked the Prefect General Cotronei to take steps to put things in order as charged by the A.C., but nothing has been done up to now.

The Prefect promised to take an interest in our case, meetings have been held, other meetings have been promised, but anarchy in Lesina is complete and we now receive only the percentage of 1% on ficticious prices and quantities which are greatly inferior to the actual!.

It is pointed out that the jointownership had already deduced its percentage from 20% to 12%.

OFFICERS EM'S WACS NAVY

GI NIGHT SCHOOL

An Information and Education School Center will be opened at No. 10 Piazza Borghese for soldier students who wish to study during part of their leisure time. The school will be open to all members of the US Armed Forces (Officers, EM, WACS, NAVY) in the Rome Area.

Registration will be held on Thursday and Friday, March 8 and 9 from 1900 to 2030 hours at No. 10 Piazza Borghese, the building of the Faculty of Economics of the University of Rome. It is but a short distance from the Red Cross Enlisted Men's Corso Club. Follow Via Fontanella Borghese past the Corso Club toward the Tiber River. Piazza Borghese is near the Cavour Bridge.

Courses offered are the most popular in a recently conducted interest survey. They include language classes in Italian, French, German, and Spanish, and classes in Literature, Psychology, History of Art, and History of Rome. Other courses will be organized from time to time in subjects a substantial number of soldiers are interested in, provided text books and instructors can be obtained. Courses in Social Problems, Archeology, Economics, and Mathematics may be offered. Classes will meet twice each week, for sessions of 1½ hours and will be continued for a period of 12 weeks. Students who complete the courses satisfactorily can receive credits which will be recognized by universities, colleges, and high schools in the United States through arrangements made by the Armed Forces Institute.

The school is an experiment arising out of the demand of soldiers for a chance to take advantage of their leisure time. It will be continued only as long as their interest is sustained. Remember, the registration dates are March 8 and 9 from 1900 to 2030 hours. Classes will begin the next week on Monday, March 12.

TO : All Concerned

Paragraph 6g, letter this headquarters, file and subject as above, dated 18 November 1944, is rescinded and the following substituted therefor:

"6g. Pay and Pay Records

(1) Any payments that have been received from the enemy by officers or enlisted men under the terms of the Geneva Prisoners of War Convention, during the period they were interned by the enemy, will not be deducted from their pay accounts.

(b) For enlisted personnel

Individual Pay Record, WD AGO Form 28
Service Record, Remarks Financial, WD AGO Form 24

(3) No full settlement of pay and allowance accounts of personnel for whom battle casualty reports have been submitted (even if such personnel were erroneously shown on battle casualty reports) will be made until clearance has been obtained from the Office of Special Settlement Accounts, 27 Pine Street, New York 5, New York.

(4) No effort should be made to effect full settlement of pay accounts of an officer or an enlisted person while in a casual status, i.e., awaiting evacuation to the United States or transfer to another unit, when such evacuation or transfer is contemplated within sixty (60) days. However, if it is reasonably certain that a person will be in a casual status for more than sixty (60) days, immediate action should be taken to settle his account in full, in accordance with instructions contained in paragraph (5), below.

Declassified E.O. 12356 Section 3.3/NND No. 785016

(5) Pay accounts of all other personnel will be brought up to date as soon as possible after rejoining their former units or when they have been assigned to new units in a permanent status. In order to accomplish this end, local commanders will, upon the arrival of such permanently assigned personnel, promptly prepare a letter addressed to the Office of Special Settlement Accounts, 27 Pine Street, New York 5, New York, requesting the pay data information pertaining to each individual. The letter will contain the name, grade and army serial number of each person concerned, and the original and two (2) copies thereof will be routed through the Office of the Fiscal Director, this headquarters, attention: Receipts and Disbursements Branch, APO 512, United States Army.

(6) Partial Payments.

(a) During the period an officer or an enlisted person is in a casual status, or is awaiting full settlement of his account in accordance with sub-paragraph (5) above, he may, if he so desires, be given a partial payment as follows:

Officers (including warrant officers, flight officers, members of the Army Nurse Corps and WAC) - - Not to exceed $100.00

Enlisted Personnel - - Not to exceed $ 50.00

(b) In exceptional circumstances, with the specific approval of the local commander, an additional payment of $50.00 in the case of an officer and $25.00 in the case of an enlisted person, may be made, provided the pay account of the individual (after considering all allotments in effect and amounts due the United States) indicates that no overpayment will result. Partial payments within the above limitation may be made monthly thereafter, provided the individual is still awaiting evacuation or transfer, or, full settlement of his pay account is being held in abeyance pending verification of pay data in accordance with sub-paragraph (5), above.

(NOTE: Every effort will be made to effect full settlement of individual accounts within ninety (90) days. Commanders will exercise discretion in approving requests for maximum partial payments, in order that there will be no abuse of this privilege which will result in overpayments.)

(c) When preparing vouchers for partial payments to enlisted personnel, the following will be added to the certificate of the Personnel Officer, on WD Form 366 or WD FD Form 56: "The amount paid to each enlisted person on this payroll has been authorized by CONFIDENTIAL letter, Headquarters MTOUSA, subject: 'Repatriation of American Personnel', dated 12 November 1944, as amended, and each payment has been entered in the respective individual's Service Record."

(e) Partial payments made to enlisted personnel will be entered and initialed by the responsible personnel officer in the individual pay records (WD AGO Form 28) and in individual service records (WD AGO Form 24) under the caption "Remarks - Financial".

(f) In all cases the pay data card (WD AGO Form 77) of the officer or the individual pay record (WD AGO Form 28) and the Service Record (WD AGO Form 24) of the enlisted person will be marked "Notice: Full Settlement of this Pay Account will not be made prior to receipt of a statement of account from the Office of Special Settlement Accounts".

(g) In the event that individual pay records of officers and enlisted personnel have been lost or are not otherwise available, temporary records will be prepared and action taken as described above.

(h) Disbursing officers will forward immediately after processing, one (1) copy of each voucher covering partial payments of personnel coming under the provisions of this letter, to the Office of the Fiscal Director, Headquarters MTOUSA, Attention: Receipts and Disbursements Branch, APO 512, United States Army. (i) In the event personnel (officers or enlisted) are transferred from this theater prior to the time full settlement of their accounts are effected, local commanders will forward one (1) copy of all group orders or individual orders involved, to the Office of the Fiscal Director, this headquarters, Attention: Receipts and Disbursements Branch, APO 512."

I -- UNAUTHORIZED USE OF MILITARY LONG DISTANCE NETWORK

1. Cases have recently been observed where military personnel, having established a call through the military long distance telephone network, permit unauthorized civilians to use the line.

2. This practice will cease.

II - - TRAFFIC DISCIPLINE

1. Collisions have occurred between military vehicles and trains at railway level crossings.

2. In the case of railway level crossings unprotected by gates or barriers, drivers of all military vehicles will satisfy themselves that no train is approaching from either direction before crossing the railway; if necessary they will bring their vehicles to a halt, well clear of the rails, in order to do so.

3. This action will be the individual responsibility of each vehicle driver, even though the vehicle may be part of a convoy.

4. Where railway level crossings are protected by gates or barriers, drivers will stop when they observe that such barriers are about to be lowered or placed, and will not continue to cross in defiance of these obstructions.

5. The provisions of this instruction will be brought to the notice of all drivers of military vehicles.

III --DAMAGE TO UNDERGROUND CABLES AND OVERHEAD WIRE AND CABLE ROUTES

1. The Main State Telephone Cable and the principal open wire Routes have frequently been damaged by units working on roads, culverts, bridges, water rains, and power lines. These damages have seriously interrupted vital Theatre Wire Communications for appreciable periods of time.

2. To prevent unnecessary damage to underground cables, no digging, grading, excavating, or blasting will be done along the main roads until the officer in charge of the proposed construction has coordinated his plans with the responsible Signal Officer in the area concerned.

3. Headquarters of Army Groups, Armies, Base Sections, Districts and similar commands maintain open wire and cable route diagrams and records giving the exact route and location of each cable and open wire line in the respective territories. This information will be made available to Engineer and other units who may have occasion to work near the signal cable and open wire installations.

4. The following types of construction are those most likely to damage signal facilities and, depending on conditions, may require special consideration. Where necessary the Signal Officer will arrange for an emergency crew to be present, or to stand by during the construction period for repairs to any unavoidable damage.

a. Road and bridge repairs.

b. Blasting operations on or near roads and railway routes.

c. Repairs and extensions of water mains and pipe lines.

d. Rehabilitation of power transmission lines.

5. When cable, open wire, or potential damage is discovered by military personnel, a report will immediately be made to the nearest Signal Officer, Wire Chief, or Fault Control for relay to the responsible Signal Officer or his representative. Fault Controls, which deal with troubles pertaining to all military land line communications in Italy, are located in Bari, Foggia, Ancona, Naples, Rome and Florence, and may be contacted through the military long distance network by asking the operator for "FAULT CONTROL".

Naples, 15 February 1945

Subject: Refugees.

To : Regional Public Safety Officer, Southern Region A.C.

1. In view of a current enquiry at Sessa Aurunca regarding the loss by refugees of property including mattresses, camera and a bicycle, information is requested from the files of Public Safety Division AMG 5th Army.

2. Briefly the details are that the property was illegally taken from refugees entering the AMG refugee centre at Sessa Aurunca on or about March 1944, and suggestions have been made that the Allied officer in charge of the centre may have some information as to the disposal of this property.

3. It is requested therefore that a copy of this letter be forwarded to Lt. Col. Wilcox of Public Safety Sub-Commission H.Q. A.C., who it is understood was of the Public Safety Division AMG 5th Army at the material date with a request for any information or recollection he may have of an enquiry or passage of correspondence through that office, relating to the subject matter.

4. The writer is familiar with the refugee centre at Sessa and the circumstances surrounding its formation, staff, and methods of passing refugees, and has some vague recollection of correspondence passing between AMG 5th Army and AMG 10 Corps that may assist this enquiry.

SUBJECT : Subscription in Aid of the Homeless in Devastated Areas.

TO : Deputy Chiefs of Staff, All Sections, Directors of all Sub-Commissions.

1 Lost Winter's flotsam, was established for months on a belt stretching across Italy which, because of the destruction wrought, has become known as a Devastated Area. In this region between 150,000 and 200,000 men, women and children are practically destitute and among them are many who put up a continous resistance to the enemy and gave protection to over 6,000 escaped Allied prisoners. The majority now live in mountain communes, some of which are difficult to reach because of snow. Windows are broken, there is little fuel and little protection from the weather. Thousands are sleeping on bare floors, crowded, cold and dirty. Food, clothing, medicines and other welfare aids have been sent, AC having given its utmost aid to the Italian authorities.

2 An Italian Committee, organized by Prince Doria, Sindaco of Rome, and by His Excellency Zenotti-Bianco, head of the Italian Red Cross, under the Presidency of On. Casperotto, Minister of Aviation, is carrying on a city-wide drive in Rome for blankets, clothing, shoes, money, for these people.

3 The Committee has not asked the Allies for subscriptions, but AC is concerned to help these people in any way possible. There is a supply of civilian type blankets from which purchases can be made but a large amount of money is needed and anything else we can contribute.

4 I should be glad if you would encourage your Allied staff to give all they can to this excellent cause - money, old clothing, especially underwear, shirts and battle dress or uniforms are particularly required. Any uniforms will be dyed by AC before being released to the Italian Red Cross for issue. Perhaps you yourself would receive contributions or appoint one or more officers in your Section or Sub-Commission to receive them. Lists of all contributions, not for publication, together with cash and clothing will be sent by the Head of each Section or Sub-Commission to Civil Affairs Section, Devastated Areas branch on or before 17 February 45.
