SUBJECT: Freezing and
Releasing of
Controlled Materials.
Availability Reports

By Ministry of Industry, Commerce
and Labour in Italian Government
Territory.

TO : All Concerned

1. As from the 1st November 1944, the duties named under above subject-heading, i.e. freezing and releasing of Controlled Materials and Availability Reports, will be undertaken by the Italian Ministry of Industry, Commerce and Labour, in territory under Italian Government Authority.

2. The directions contained in our letter, reference ACC/5300/IC of 22 April 1944, now become non-operative with the exception of paras 6 and 7b, i.e., "6. Demands by Subcommittees or other Agencies. Subcommittees or other Agencies needing controlled materials for purposes outside the sphere of Provinces or Regions will submit their demands on Forms ACC-MAT No. 40 in triplicate directly to Industry & Commerce Subcommittee, in accordance with the procedure outlined above".

(NOTE: For Industry & Commerce Subcommittee, read:
"Commerce Subcommittee")

"7b. Where it is known that wanted materials are not available in Italy, proper requisitions for import should be initiated".

3. For your guidance and information, the following are attached:

- i) copies of letter of instructions from the Ministry of Industry, Commerce and Labour to the Uffici Provinciali del Commercio e dell'Industria.
- ii) copies of English translation of i) above.
- iii) copies of Appendix "4" (List of Controlled Materials, divided into two categories. Category 1 includes materials required to be blocked by ATLAS and Category 2, those required to be blocked by the Italian Government for purposes of rehabilitation of Italian industry, etc. in addition to items 3254)

at other agencies holding copies of the same. The sphere of Provinces or Regions will submit their demands on Forms ACC-MAT No. 10 in triplicate directly to Industry & Commerce Subcommission, in accordance with the procedure outlined above".

(NOTE: For Industry & Commerce Subcommission, read: "Commerce Subcommission")

"7b. Where it is known that wanted materials are not available in Italy, proper requisitions for import should be initiated".

3. For your guidance and information, the following are attached:

i) copies of letter of instructions from the Ministry of Industry, Commerce and Labour to the Uffici Provinciali del Commercio e dell'Industria.

ii) copies of English translation of 3 i) above.

iii) copies of Appendix "1" (List of Controlled Materials, divided into two categories. Category 1 includes materials required to be blocked by AFMS and Category 2, those required to be blocked by the Italian Government for purposes of rehabilitation of Italian industry, etc., in addition to items under Category 1). See para 4, sub-para (viii) below, for further reference to Category 2.

3350

iv) copies of Appendix "A" (Declaration of Factories' Availabilities).

v) copies of Appendix "B" (Declaration of Wholesalers' Availabilities).

vi) copies of Appendix "C" (Declaration of Materials blocked by the former Ministry of War Production).

vii) copies of Appendix "D" (Demand Form, - equivalent to ACC Form MAT 10).

viii) copies of Appendix "E" (Form for monthly demands collected and passed by the Uffici Provinciali del Commercio e dell'Industria, to the Ministry).

ix) copies of Appendix "F" (Release Order, issued by the Uffici Provinciali del Commercio e dell'Industria).

- x) copies of Circolare No. 2 of the 5th October 1944, with text of proposed Decree attached.
- xi) copies of English translation of ix) above.
- NOTE: Circolare No. 2 of 5 October 1944 advises Prefects of the preparation of the Legislative Decree suppressing the Consigli and the Uffici Provinciali dell'Economia on the one hand and reintroducing the Camere di Commercio, Industria ed Agricoltura and the Uffici Provinciali del Commercio e dell'Industria, on the other; the latter being the executive organisation of the Ministry of Industry, Commerce and Labour. It will be noted that the Camere now include Agriculture which, before Fascism, was a separate organisation.

4. The main points of enclosure, para 3 i) and ii) above, can be summarised as follows:

- i) Allied Forces have been compelled to block essential war materials and this work has hitherto been done through the agency of AMG/ACC.
- ii) On behalf of ACC, the Ministry of Industry, Commerce and Labour, through the Uffici del Commercio e dell'Industria, will do this blocking as from 1 November 1944, in the Provinces under the authority of the Italian Government.
- iii) HQ ACC, Commerce Subcommittee, will make available to the Ministry, such quantities of materials for civilian needs as will have been released by AFIRS at the monthly meetings of the appropriate Committees. The subsequent release of these controlled materials for civilian needs will be done by the Ministry.
- iv) There will be no interruption in the continuity of freezing Controlled Materials as Provinces now under AMG control become released to Italian Government authority. Thus, the Ministry of Industry, Commerce and Labour, through the Uffici del Commercio e dell'Industria, will merely extend the functions they are taking over from ACC.
- v) In the Provinces under Italian Government authority, factories and merchants producing or possessing controlled materials, will declare to the Uffici del Commercio e dell'Industria, what quantities they have on hand on the last day of each month. Fac-

- Authority of the Italian Government.
- iii) HQ ACC, Commerce Subcommittee, will make available to the Ministry, such quantities of materials for civilian needs as will have been released by AFIRS at the monthly meetings of the appropriate Committees. The subsequent release of these controlled materials for civilian needs will be done by the Ministry.
- iv) There will be no interruption in the continuity of freezing Controlled Materials as Provinces now under AMG control become released to Italian Government authority. Thus, the Ministry of Industry, Commerce and Labour, through the Ufficio del Commercio e dell'Industria, will merely extend the functions they are taking over from ACC.
- v) In the Provinces under Italian Government authority, factories and merchants producing or possessing controlled materials, will declare to the Ufficio del Commercio e dell'Industria, what quantities they have on hand on the last day of each month. Factories will also pass to the Ufficio del Commercio e dell'Industria particulars of their estimated output for the following month. Manufacturers will also submit demands for estimated requirements for raw materials to cover a period of six months production.
- All this information will be sent to the Ministry and, by it, passed to HQ ACC.
- vi) All demands for civilian needs will be collated by the Ufficio Provinciale del Commercio e dell'Industria and forwarded to the Ministry, where they will be examined, collated and passed to Commerce Subcommittee for submission as bids at the monthly meetings of the appropriate committees of AFIRS.
- vii) Particulars of the materials allocated at these meetings, (sub-para vi) above), will then be passed to this Subcommittee back to the Ministry of Industry, Commerce and Labour, which will re-allocate to the appropriate Ufficio del Commercio e dell'Industria, through a Board consisting of representatives from the interested Ministries. Release Orders will be made out and sent to the individual civilian applicants by the Ufficio del Commercio e dell'Industria.

viii) As ~~as materials of category 2 are examined~~, the Ufficio del Commercio e dell'Industria must henceforth advise the firms owning such controlled materials that duly authorized Agents of Allied Armed Forces have the right of acquiring the quantities necessary for their needs. Purchasing Orders or similar documents of authority issued by the competent Commands, must be endorsed beforehand by the Ufficio del Commercio e dell'Industria. The Ufficio will then inform the Ministry immediately of the delivery which has taken place.

5. Therefore, all requests pending and Forms MAT 10 ready for dispatch to this HQ on and after 1 November, in Italian Government Territory, will be passed at once to the appropriate Ufficio del Commercio e dell'Industria, for action.

6. No further requests for controlled materials will be accepted by ACC officials from sources in Italian Government Territory, who will instruct applicants to contact the Ufficio del Commercio e dell'Industria of their Province. It is understood that the terms detailed in this letter come into force as and when Provinces come under Italian Government control, without further instructions from this HQ.

7. Any queries which may arise as a result of this change of channelling and after reading the foregoing, should be addressed direct to Commerce Sub-commission (Materials Division), for clarification.

SUBJECT: Procedure: Warehousing and Distribution of Imported Supplies.

TO : Distribution as below

1. To date food has represented all but a small tonnage of imports for the civilian population. Food Sub-Commission has been responsible for the Warehousing and Forwarding of these supplies, as well as some of the other imports. Food Sub-Commission has developed an organization for this purpose.
2. In order to regularize the procedure and extend the same responsibilities to all imports (including medical supplies) the following directions are issued for the guidance of all concerned.
3. In order that supplies may not be diverted, but be allocated to the proper purpose for which they were originally intended and ordered, it is necessary that all incoming supplies be identified as carried on a particular order or requisition. The following are, therefore, functions of the Requisition Division:
 - a. Obtaining and receiving all shipping documents and data.
 - b. Determining the requisition on which shipments apply.
 - c. Notifying appropriate sub-commission, Warehousing and Forwarding Division, and Prices Section of Commerce Sub-Commission of expected arrivals.
 - d. In order that supplies may be properly received and handled at the ports, the present Warehousing section of Food Sub-Commission will be designated the Warehousing and Forwarding Division, (officer in charge, Capt. Robert H. Klein, Room 473609, Room 39, Ministry of Corporations Building, Rome.).
4. The functions of said Division will be as follows:
 - a. The Division will keep the appropriate sub-commission informed of any changes in advice given by Requisition Division as to expected arrivals at ports.
 - b. The Division will receive instruction from the various sub-commissions as to disposition of incoming supplies.
 - c. The Division will instruct the Port Liaison Officers (or officers responsible for such activities) regarding disposition of incoming supplies.
