Para 8: delete whole para. and substitute therefor:

"Attachment of AMF Officers.

Colonel Fiske, VP Establishment Section, stated that the Commanding General PBS had suggested that AME officers stationed at the Headquarters of Base Sections, Districts and Areas might profitably be attached to the staffs of these formations as G-5 Sections. AFHQ forwarded the suggestion with the comments of G-4 Section. After consideration the Commission replied to the effect that attachment did not appear practicable but that the closest possible cooperation with respective military formations was enjoined upon all AME personnel."

PART I

1. Acting President's Opening Address.

The Right Hon. Mr. Harold Macmillan opened the meeting by welcoming all those present and expressed his regret at the absence of the Chief Commissioner owing to illness.

He said that the New Deal for Italy was not a new policy but merely a development of the policy which had been followed since the moment the Armistice was signed. Briefly this policy was to foster the development of Italian responsibility until the Italian Government was able fully to take over the government of the country itself. Recent developments were merely a logical conclusion to the policy adopted and followed since those early days.

Mr. Macmillan said that it was clear to him that there could be no possible distinction between the work of AMG and AC. There were differences in their functions but their work must be treated as a whole in order to make for effective planning and in order to obtain continuity from the first impact of AMG until the final taking over of the territory by the Italian Government. The functions of AMG were three-fold. Firstly, to take from the military the burden of civil administration; secondly, to assist so far as possible in the rehabilitation of the country and the suffering of the civilian population; and thirdly, to prepare the ground for the transfer of that territory to the Italian Government and the teaching of the Italians to take over their work themselves. These were very heavy tasks and he had every sympathy with those in the Regions who had to undertake them.

The Acting President then expressed his appreciation to those

Briefly this policy was to foster the development of Italian responsibility until the Italian Government was able fully to take over the government of the country itself. Recent developments were merely a logical conclusion to the policy adopted and followed since those early days.

Mr. Macmillan said that it was clear to him that there could be no possible distinction between the work of AMG and AO. There were differences in their functions but their work must be treated as a whole in order to make for effective planning and in order to obtain continuity from the first impact of AMG until the final taking over of the territory by the Italian Government. The functions of AMG were three-fold. Firstly, to take from the military the burden of civil administration; secondly, to assist so far as possible in the rehabilitation of the country and the suffering of the civilian population; and thirdly, to prepare the ground for the transfer of that territory to the Italian Government and the teaching of the Italians to take over this work themselves. These were very heavy tasks and he had every sympathy with those in the Regions who had to undertake them.

The Acting President then expressed his appreciation to those who had been working for the past months in Italian Government Territory. Theirs had been a difficult and delicate task, herding over the government to the Italians and at the same time well knowing that they could do the job much better themselves.

He then referred to those officers who had had the rather tiresome task of waiting to go into the Northern Regions. They had been engaged either in planning or on attachment to Regions already in operation. This delay in going forward was regrettable but was entirely due to operations.

Mr. Macmillan went on to say that it was fashionable to believe that there was going to be a great deal of political trouble and even revolution in the North. However, he was of the opinion that we should find a great deal of invigorating and beneficial aspects of Italian life in that territory and that the people would be more active and powerful than any we had yet come across in Italy.

He stressed the importance of the great need for coordination between Regions, between Regions and HQ, and between Sections and Sub-Commissions. He was confident that the questions we had been studying would be successfully overcome and we could have confidence in the knowledge that we have so many officers going into the Northern Regions with experience in dealing with similar problems. Moreover, it was more than likely that the conditions of a slow retreat would not necessarily come about and that the destruction of the Italian

production potential would not be so serious as hitherto. He said that he thought that we should find better conditions than was at one time thought possible.

2. Withdrawal of officers from Italian Government Territory.

Brigadier M.S. Lush, Executive Commissioner, said that the Chief Commissioner had asked him to express his sincere regrets at being unable to attend the meeting and to extend to those present his gratitude for the abundant help and assistance given to him during the nine months he had been the Chief Commissioner. He also wished to extend a welcome to those who were present at a Regional Commissioners' Conference for the first time.

The Executive Commissioner then turned to the problem of the withdrawal of AC officers from Italian Government territory which was in implementation of the directive recently received from the Chief Chiefs of Staff. He said that there were two points which the Chief Commissioner wished to emphasize. One was that if we were to carry out the policy of the directive, it should be implemented to the maximum, and particularly the withdrawal of officers. Orders had therefore been issued that, subject to the approval of AFHQ, the maximum possible number of officers would be carried out by 1 April to the maximum possible number. Unfortunately a cable had just been received from AFHQ saying that no withdrawal was to take place until the Staff Sections at AFHQ had considered the effect of the withdrawal on the military services.

The Executive Commissioner then went on to refer to a directive on the subject issued that day by HQ A.C. The Chief Commissioner wished it to be stressed that the total withdrawal of officers from Italian Government territory was a policy which he intended to fulfill so far as AFHQ would allow.

Executive Commissioner next referred to that part of the directive which related to the consultation by AC officers with Italian authorities. He said that such consultation would be restricted to discussions at a high level and Heads of Sections and Sub-Commissions should strictly adhere to this policy. Contact with the Italian Government should be preserved but only at the highest level.

Referring to the question of the distribution of AC officers, the Executive Commissioner said that he would only deal with this matter briefly as VP Establishment Section would go into it in detail later. He said that the distribution of officers had been studied at the basis had been given to the number required, to the

Referring to the question of the distribution of AC officers, the Executive Commissioner said that he would only deal with this matter briefly as VP Establishment Section would deal with it in detail later. He said that the distribution of officers had been studied at great length, that emphasis had been given to the number required for Northern Regions not yet occupied, second priority being given to the Regions now under AF. It was necessary also to find over 200 officers for AUSTRIA.

He stated that the policy for the North would be for a close follow-up of the Army spearheads by Provincial teams. It had been accepted by everyone concerned that the principle of a close and rapid follow-up of the Army AGs by provincial teams was the most efficient form of effecting the initial act of military government. A great deal of planning had been done for NW and NE Italy and, as had already been pointed out by the Acting President, it was probable that we should find circumstances very different from those we had envisaged, which brought out the necessity for elasticity in our planning.

He said that a forward static HQ of Allied Commission was not contemplated. He stressed the importance of coordination between Northern Regions themselves and between the Regions and HQ A.C. who must be kept fully informed. All Sub-Commission officers going to Regions would come under Regional control and Heads of Sub-Commissions should remember this when sending officers forward.

-3-

ACTION

Finally, the Executive Commissioner said that the policy of AFHQ in NW Italy where the military problem might not be so important, was to give priority to the civil needs. In NE Italy, if military operations had to be undertaken, the civil requirements would of necessity have to take second priority.

3. Statement on Political Situation.

Mr. H. Horkinson said that the British Prime Minister in his speech of 18 January 1945 foreshadowed an unhappy state of affairs when - probably at a time when the Northern Regions would be stripped bare of food by the retreating Germans - these elements would be thrown upon the "fragile structure of the Italian Government in Rome with consequences which could not be accurately foreseen and certainly not measured".

The experience of GREECE showed that the existence of organized groups of politically conscious patriots was a factor with which to reckon seriously. He suggested that during the last year forces had been coordinated in the North of Italy which after liberation would present a problem different from any which the Allied Commission had handled in the past in connection with patriots.

Intelligence reports from the North show that the various Committees of National Liberation and the military commands operating under the orders of the Committees had learnt a good deal about the art of government in the year-long struggle against the Fascist and the Germans. In many districts "shadow" Governments had been set up and the various portfolios had been distributed amongst the leaders of the different parties. In most cases the Committees represented the six parties which, up till last December, were represented in the Government in Rome. In some of the Committees however the action party was not represented and in others the Republican party formed part of the Committee. On the whole it seemed that for the time being there was a remarkable degree of unity of purpose in the Committees and party differences had been sunk in the common desire to chase the Germans from Italy and punish their Fascist collaborators. These Committees were assisted in their operations by the Allied authorities and the giving of such assistance had necessarily implied recognition of the value of these operations. Arrangements had been made between the Supreme Allied Commander and the CLNAI defining the extent to which the Allied military authorities were prepared to recognise the Committees.

Under these arrangements when the enemy withdraw from territory

handled in the past in connection with patriots.

Intelligence reports from the North show that the various Committees of National Liberation and the military commands operating under the orders of the Committees had learnt a good deal about the art of government in the year-long struggle against the Fascist and the Germans. In many districts "shadow" Governments had been set up and the various portfolios had been distributed amongst the leaders of the different parties. These Committees were assisted in their operations by the Allied authorities and the giving of such assistance had necessarily implied recognition of the value of those operations. Arrangements had been made between the Supreme Allied Commander and the CLNAI defining the extent to which the Allied military authorities were prepared to recognise the Committees.

Under these arrangements when the enemy withdrew from territory occupied by them the CLNAI would endeavour to maintain law and order and to continue the safeguarding of the economic resources of the country until such time as Allied Military Government was established. Immediately upon the establishment of Allied Military Government and would hand over CLNAI would recognise Allied Military Government and would hand over to that Government all authority and powers of local government and all components of administration previously assumed. As the enemy withdrew all components of the General Command of the Volunteers of Liberty in liberated territory would come under the direct command of the Supreme Allied Commander and would obey any order issued by him or by Allied Military Government issued on his behalf, including orders to disarm and surrender their arms when required to do so.

The attitude of the Allied military authorities was therefore made quite clear. But there were other considerations which should be borne in mind when we came to implement the policy indicated in the above arrangements. It was in the interest of the Allies that there should be stable Government in Italy and it was our policy to strengthen the legitimate Italian Government in every way possible and to prevent developments which would result in political disturbances throughout the country. The Italian Government in Rome, which it was our policy to support, might not have the entire confidence of the Committees of

ACTION

-4-

Liberation in the North, or at any rate their influence there was subject to fluctuation. To begin with, the traditional scorn of the North Italian for the Southerner. There was the feeling that the population in the North had contributed more generously to the defeat of the Germans than the South had been able to do and had suffered far more heavily at their hands. There was criticism of the slow progress made by the Bonomi Government in the reconstruction of the country, in the solution of the pressing economic problems of food supply and inflation and above all in the punishment of former Fascists. The Italian Government was well aware of this antipathy and in an agreement signed at the time the arrangements previously mentioned were made, they go much further than the Supreme Allied Commander in recognizing the CMIAI as their representatives in the struggle in the North. They have succeeded by this agreement in exacting a certain measure of recognition of their own legitimacy by the Committees in the North but the possibility cannot be overlooked that the Committees of Liberation or the component political parties would not abide by this agreement if circumstances seemed favourable for a political upheaval, which would either bring the Committees out as the Government of Italy or would wrest from the Government in Rome a measure of autonomy which might be in effect complete independence from Rome. The Italian Government was therefore anxious to establish as much contact as possible with the Committees in the North in order to be able to explain to them what was being accomplished in liberated Italy and what the Government proposed to do in the North when the Germans have been driven out. The Allied Governments were generally in favour of the establishment of such contacts and hoped that after liberation the Rome Government would be able to absorb representatives from the North and thereby become representative and therefore stronger.

The problem facing the Allied Commission therefore was as follows: we must endeavour on the liberation of the North to reconcile the needs of Military Government with the aspirations of the political leaders of the Committees of Liberation to self-government. At the same time, we must bolster the authority of the Italian Government in Rome in order that it may be able to administer the Northern territories once Allied Military Government was withdrawn. The solution of this problem might well be found to lie in the absorption at a very early date of members of the local Committees of National Liberation into the civil administration operating under Allied Military Government. If Regional Commissioners arrived in the North and bluntly informed the

The solution of this problem might well be found to lie in the absorption at a very early date of members of the local Committees of National Liberation into the civil administration operating under Allied Military Government. If Regional Commissioners arrived in the North and bluntly informed the Committees of National Liberation that their task was accomplished and that they might now disperse and if, after that, Prefects, Sindaci and other administrative officers were imported from the South or even from other localities in the North, the disappointment, the antagonism even, of the Committees of Liberation would be great. The danger of setting up local administrations composed of Italians who would not be acceptable to the patriot organisations who had been struggling against the Germans for so long could not be over emphasised. It was not implied that every local Committee of National Liberation should automatically be confirmed as the local administration, but it was urged that Regional Commissioners should, wherever possible, decide to make appointments in favour of the members of the Committees rather than in favour of strangers from other parts of Italy. If the local Committees of Liberation were installed at once as the local administration, many of the problems of maintaining law and order would never arise. It would be easier to collect arms from the patriots and to disarm them. It would be easier to exploit the local resources of the country in the work of reconstruction and the work of feeding the population. It would be easier to bring together the former patriot organisations and the Italian Government and it would be easier to prepare the ground against the time when the Government in ROE could take over the administration of the North.

ACTION

Mr. Hopkinson realised that the lack of precise information about personalities in the North due to the clandestine nature of their activities in recent months would make it difficult for Regional Commissioners to assess the relative claims of members of the Committees of Liberation to participate in local government. But in order in some measure to offset this disability, he hoped to be able to compile in the next few weeks a sort of "who's who" which might prove useful to Regional Commissioners in the task of selection.

In a discussion which followed Brigadier Upjohn, VP Civil Affairs Section, said a letter had been received from the Prime Minister which suggested an opposite view to the account given by Mr. Hopkinson. The letter suggested that certain named Prefects be put forward for appointment in the North. He thought this was a dangerous policy.

Col. Poletti, R.C. LAZIO-UMBRIA Region, considered that men coming up to fill appointments in the North would cause resentment and trouble in the local administrations. AMG must be absolutely free to decide appointments on the spot. Brig. Dunlop, R.C. SOUTHERN Region, said Bonomi wanted to appoint career men as Prefects. The CLN should be asked for names.

The Executive Commissioner said that in making the initial appointments in AMG territory AMG officers should be bound by the policy enunciated by Mr. Hopkinson: the decision of the Italian Government to send to the North men of administrative experience and known to the Government, was natural and we could and probably would fall back on some of the men so selected. But we could not accept the principle of naming the Prefects before liberation. He also emphasized the necessity of Army AMG consulting Provincial and Regional Commissioners when making appointments in local government.

4. Personnel and Transport.

Personnel.

The Deputy Executive Commissioner, Col. Piske, referred to memorandum, 7002/98/EC of 7 March, which was issued to the meeting. We now had approximately 900 British and 700 American officers which included 200 British officers for AUSIRLI. It was recently decided that Allied Commission would furnish 168 American officers for the same purpose. As a result American officers had been reduced to 532. Taking the foregoing figures as a basis, an allocation of officers in Regions had been drawn up. We should have the services of the they were needed.

The Deputy Executive Commissioner, Col. Pike, referred to memorandum, 7002/98/EC of 7 March, which was issued to the meeting. We now had approximately 900 British and 700 American officers which included 200 British officers for Australia. It was recently decided that Allied Commission would furnish 168 American officers for the same purpose. As a result American officers had been reduced to 532. Taking the foregoing figures as a basis, an allocation of officers in Regions had been drawn up. We should have the services of the officers earmarked for Australia until such time as they were needed. We would get approximately 60 additional American officers from combat and military formations and these officers were being trained and made available for military government. A training school would commence next week, taking 25 officers at a time and on completion of their training all these officers would be observed into Allied Commission. *Col 9A*
Planned to their own, subsequently employed in mil. govt duties when their transport were required & when they could be released.

The Deputy Executive Commissioner stated that our W.D. transport was below establishment. Our T/O had been increased by 750 but this meant increasing the number of requisitioned vehicles and we were endeavouring to obtain restoration of authority for hiring which would be a satisfactory solution to the problem. Vehicles from the South were being serviced and re-allocated to Northern Regions according to their needs.

Brig. Grafton-Smith, Chief Financial Adviser, said there was no financial obstacle to the Commission hiring vehicles.

The Executive Commissioner summing up stated that if officers for AUSTRIA had to be released before we went into the North officers for the central Regions would be found from Sections and Sub-Commissions at HQ. A further pruning of HQ was necessary, as to the transport problem, we were endeavouring to obtain renewal of powers of requisitioning if only for an initial period of 60 to 90 days.

5. (a) Assignment of Officers.

Col. Bowman, R.C. EMILIA Region, and Regional Commissioners of Northern Regions raised points concerning assignment of officers. After some discussion Executive Commissioner said that a period would be set aside later for a discussion between Regional Commissioners, SCIO's and Establishment Section to discuss in detail.

(b) Policy on Implementation of Italian Government's Decrees in N. Italy.

R.C. EMILIA Region, raised the question of the implementation of Italian Government decrees in N. Italy territory. Executive Commissioner stated that Heads of Sections advised the Chief Commissioner as to whether decrees should apply to AMG territory or not; this was a policy decision made by HQ.

VP Civil Affairs Section pointed out there was nothing automatic about implementation of this policy with respect to any particular decree. It was not feasible to have a decree implemented in one Region and not in another. If there was doubt about any decree, it need not be implemented until after consultation. The procedure for implementing decrees in FIFTH and EIGHTH Army was compared and it was agreed that the method adopted by FIFTH Army was preferable and would be adopted by EIGHTH Army.

(c) Disposition of Truck Pool

Brig. Dunlop, R.C. SOUTHERN Region, stated there were 366 trucks in the South organised into four transport pools under Allied officers and asked that these trucks be transferred to the Italians as soon as possible. Executive Commissioner said that everything possible would be done to obtain a decision on this from AFHQ before 1 April 1945.

(d) Turnover of Food Distribution.

Col. Kirkwood, R.C. TONGUE, Region, referred to the attention to Col. Kirkwood, R.C. TONGUE, Region, referred to the attention to hand over food warehouses to Italian control. He did not like exporting responsibility for food distribution in his hands under these conditions until the Italians had taken over. Food Sub-Commission, Transport-ation Sub-Commission and the Regions were all concerned in such a hand-over.

Executive Commissioner said that before action was taken a survey should be made by the Regions. He warned Regions that in any question of handing over it was the responsibility of the R.C. to ensure that proper distribution of food etc would be carried out. On the other hand R.C. must be fully consulted by HQ R.C. before any handover arrangements were made by it.

ACTION(e) Pay of Statal and Parastatal Employees

Col. French, R.C. ABRUZZI-MARCHE Region, stated that the salaries of State employees were not sufficient for existence. He cited several examples of the difference between salaries and cost of living which left the worker heavily in debt. In AMG territory State employees did not get the bonuses which were allowed in IG territory. Many deputations had asked for help. He asked if it was not possible to raise salaries in AMG territory.

Mr. Braine, Labour Sub-Commission, said that the Government had recently concluded an agreement providing for substantial increases for State employees, which would apply throughout the country, including the North after liberation. The new agreement *would consolidate the* bonuses and indemnities hitherto granted for special reasons and in certain localities.

(f) Allowances and rations for civil employees

The question of inadequate allowances and rations for civilians, both driven away from HQ overnight and clerks who lived away from their homes, was raised.

VP Establishment Section referred to AMI Routine Order 252 of 1944, and read this to the meeting. A recommendation had been made that all civilians be placed on the same basis. Allowances of 135 - 250 lire per day, based on wage rates, had been proposed.

(1) Provision of Supplies for Regions.

R.C. TOSCANA Region alleged there was lack of coordination between Sub-Commissions and cited the instances of sulphur and cerber sulphate. The transaction involved Industry, Transportation and Agriculture Sub-Commissions. Executive Commissioner stated that overall responsibility in a case of this sort was in Economic Section and R.C. should apply to the Section whose duty it was to coordinate.

(j) Titles of Regional and Provincial Commissioners.

R.C. TOSCANA Region put forward the suggestion that Regional Commissioners and Provincial Commissioners be designated Regional and Provincial Governors. R.C. LIGURIA Region complained it was too late to make an alteration but suggested that the Executive Officer should be called Deputy Regional Commissioner.

It was agreed that the use of "governor" was not desirable but Executive Commissioner would submit suggestion of "Regional Region" to the Chief Commissioner.

PART IIIHQ AC SectionsACTION.6. (a) Economic Section.(i) 300 gram ration and price of bread and pasta.

C-1. Legg, Food Sub-Commission, reported that an Administrative Memorandum had been prepared setting out the basis formula on which the economic price of bread had been established. The 300 gram ration became effective throughout all Italian Government territory on 1 March and in AMG territory on 12 March. It comprised 200 grams bread and 80 grams pasta per diem issued weekly or bi-monthly. All cereals to be milled for human consumption would be controlled by the Consorzio Agrario through the medium of the local Consorzio. All expenses relative to the milling, transportation etc. of the grain would be borne by the Consorzio. The price for milling had been established at between 60-70 lire per quintal. The price of flour ex-mill was 1396.50 lire per quintal. In AMG territory the Provincial Commissioner would approve the price of bread as submitted to him by the Consorzio. The Administrative Memorandum referred to would be sent out that day.

Econ Sec

It was stated that the price would vary with local economic conditions, in LEGGE the economic price found its level at 15.5 lire per kilo, BARI 16.5, NAPLES 17.00. There would be price fixing committees in Provinces which would arrive at the cost of transport etc.

Chief Financial Adviser asked Regional Commissioners if the Government bonus of about 95 lire was sufficient to fix the cost at 16 lire per kilo. He thought the price would go up to 18.00. Brig. Dunlop said it would take some little time before they could work out the costs.

Col. Legg said that the 'impact' ration in Northern Provinces would depend on the transportation available to move forward the stockpiles. It was hoped to establish an 'impact' ration of 100 grams from imported grain on the ground, and

Col. Legg said that the 'impact' ration in Northern Provinces would depend on the transportation available to move forward the stockpiles. It was hoped to establish an 'impact' ration of 100 grams from imported supplies plus whatever supplies were found on the ground, and to establish a 200 gram ration in LIGURIA. Also to strike a medium between the lowest and highest price of bread not higher than 18. Regional Commissioners should establish a price for bread immediately on entering the North and for their guidance further study would be given to the subject.

It was thought that the reaction of the population to an immediate rise in price, even to 16 lire per kilo would be severe. A/VP Economic Section asked if we could subsidise the price from AMG funds. Chief Financial Adviser said he was very much against this. Col. Legg said that the 'impact' ration would be made from imported white flour whereas the local flour was of very poor quality and this might help matters. It was decided that Economic Section would hold a separate meeting to discuss the price of cereals and bread.

(ii) Granai del Popolo for 1945.

Director, Agriculture Sub-Commission, said the Italian Government was still considering two plans for 1945 collection.

- 9 -

ACTION.

The first was for full amassing as for last year. The alternative was partial amassing which would consist of setting an amassing figure of so many quintals per hectare according to the Province.

After views had been expressed by Regional Commissioners the Executive Commissioner announced that this could be discussed at the Economic Section meeting. See 6(a)(1) above.

(iii) Inter-provincial movement of foodstuffs.

Col. Legg, Food Sub-Commission, said this question was raised because in recent months there has been a growing tendency for some Provinces to export foodstuffs to other areas on a barter basis. The practice was contrary to established policy for inter-provincial movement of goods and adversely affected urban and populous centres. It was harmful to the national economy and should be abolished. A new directive on inter-regional trade had been prepared and would be issued forthwith.

Executive Commissioner said the intention was to raise provincial availabilities to a regional level and from a regional to a national level and Regional Commissioners must work to this end.

(iv) Derequisitioning procedure of industrial plants and prevention of their requisitioning.

Lt.Col. Maskrey, Industry Sub-Commission, spoke of the heavy requisitioning of industrial plants by the military authorities. It was not coordinated and whilst it was appreciated that billets etc. were necessary much wastage occurred. AFHQ had just issued an Admin Memo on the subject. (v) Payment for goods and services requisitioned by Allied Forces including IO/AMG.

Brig. Grafftey-Smith referred to two orders issued by AFHQ, neither of which had proved clear or effective. A large number of unpaid requisitions had accumulated, particularly on the American side, although a recent order issued by AFHQ allowed for a much more liberal policy of payment. AFHQ proposed that the Army should continue to pay for what it wished to be maintained in continuous production and that AMG should pay, out of its own funds, for requisitions required to maintain local economy.

- 10 -

ACTION.

Col. Poletti asked what was the position regarding the requisitioning of living premises as hardship was being caused by non-payment. Word would be passed around in the North that the Allies were not paying for requisitions and we should probably find it difficult to satisfy our requirements.

Executive Commissioner ruled that Economic Section would consider the matter and submit a letter to AFHQ for the Chief Commissioner's signature.

(vi) Taxation and financial stabilization plans of the Italian Government.

Commander Lawler said there were 12 points on which the Italian Government was working in an effort to stabilize the financial position of the country. He explained each point at length and stated that in addition the Italian Government was taking certain other steps to stabilize its financial position, including two bond issues. The Government had appointed a Commission to consider the subject and it was hoped that within a few weeks sufficient progress would be made for the Government to formulate its ideas.

Replying to a question, Col. Thomas said that he did not think there would be any increase in tonnage but it would ensure that the right tonnage was carried in the schooners.

After he had explained briefly the procedure Executive Commissioner commented that the chief fault in the past had been that there was insufficient elasticity.

Brig. Dunlop made the point that a number of schooners had probably been driven northwards and he might want to use them quickly when we arrived there. He instanced the delays and disappointments occasioned by schooner control in the past. It was thought that some interim expedient could be adopted in the early stages.

Executive Commissioner stated that the whole question of schooner traffic would be taken up with 6-in-C Med.

(viii) Definition of the tasks of the Regional Food Officer.

Col. Legg, Food Sub-Commission, said the Regional Food Officer had often been made responsible to the Regional Commissioner for the whole of Economics and Supply of a Region and it was considered that the responsibilities of Economics and Supply should be divided between the various specialist officers of the Region. The food problem in the North would be of such proportions that the undivided attention of the Regional Food Officer would be required.

Regional Commissioners were of opinion that the Regional Food Officer was over-burdened but it was agreed that economic activities must be coordinated in Regions by one officer.

Executive Commissioner ruled that Regional economic activities would be coordinated by an officer, preferably other than the Regional Food Officer, appointed by the Regional Commissioner. The Regional Executive Officer was considered to be most suitable for the purpose.

(12) Labour Policy in AMG Territory.

Mr. Braine, Director, Labour Sub-Commission stated that the labour policy in AMG territory was to ensure that re-adjustment of wages and working conditions was carried out in an orderly manner to avoid industrial unrest, to ensure proper employment on work of reconstruction in industry, essential services and relief schemes, and to coordinate in the administration of public assistance and welfare. In the solution of labour problems in ITALY Labour Offices were used to a considerable extent and the Employers Associations had agreed with the Italian Government and Allied Commission to cooperate in their operation. Positive action would have to be taken to avoid industrial unrest in the North and to see that negotiations were commenced in an orderly fashion. AMG should encourage representatives from CGIL, Workers Associations and Employers Associations.

It was thought that for some time after liberation there would be a sufficient margin to provide for an upward trend of wages to meet rising prices and yet keep within the limits existing here. The policy of workers organisations and CGIL was to provide a new basic wage structure with local and independent variations according to length of service, proficiency, etc., coupled with sliding scale cost of living bonuses. When that was worked out the problem of individual bonuses and indemnities would disappear.

Employees of the Armed Forces would come under the Army rules and conditions, whose policy was to set up a wage scale a little in advance of wages paid in private industry.

The Meeting adjourned at 1800 hrs until the following day.

The Meeting resumed at 0900 hrs, 9 March 1945.

Withdrawal from the South.

Before proceeding with the Agenda the Executive Commissioner said he wished to emphasize that it was hoped to withdraw all but a few technical officers from the South by 1 April. Regional Commissioners were to plan but must not take other action until permission of AMG had been received.

6. (b) Civil Affairs Section.(i) Holding of local elections in AMG territory.

Brig. Upjohn, VP Civil Affairs Section, stated that Combined Chiefs of Staff had directed that holding of local elections be encouraged in territory returned to the Italian Government. Was it desirable to implement the decree in AMG territory and hold local elections there? Some considerations to be borne in mind were the possibilities of strife and disorder, difficulties of transportation to the polling stations, etc. He considered that it would be desirable to hold elections in AMG (not Army) territory and might increase the prestige of Allied Commission and might be invaluable in the industrial North to announce that elections would be held.

Deputy Director, Local Government Sub-Commission, then explained the system of Italian local government, the procedures for compiling electoral lists, and the holding of elections, from which it appeared that by law it would be at least four months after implementation before elections could be held.

Development of AC Public Relations in the Field.

PRO said that most criticism arose from lack of proper understanding and appreciation of the Commission's functions. This could be countered by furnishing positive information, but Public Relations staff was limited and he had to rely on reports from Regional Commissioners for facts.

Executive Commissioner stressed the news value, from the Commission's point of view, of those areas which had been liberated for some time where the results of rehabilitation work could be observed.

Arising out of this there was discussion on the activities of FWE. It was felt that Regional Commissioners should know what policy and propaganda was being put out in their Regions.

The Acting President, summarising, said that when the Armies were moving forward FWE was paramount in its own sphere but in the event of a surrender or collapse in the North it should cease its activities or they should be transferred to AC guidance. He directed that the PRO should work out a standing arrangement with FWE which could be referred to AFHQ.

- (ii) Certain technical officers.

The Provinces of UMBRIA (TERRI and PERUGIA) will continue under Allied Military Government; the Provincial staffs will remain and will pass to command of Regional HQ, MARCHE-UMBRIA (formerly ABRUZZI-MARCHE) Region.

(e) ABRUZZI-MARCHE REGION. All Allied Commission officers will be withdrawn from the Provinces of ABRUZZI (TERAMO, AQUILA, PESCARA, CHIETI), with the exception of a Transportation Officer (Truck pool.) at AQUILA. The Provinces of the MARCHE (AScoli, MACERATA, ANCONA, PESARO) will remain under Allied Military Government with Provincial staffs. The Region, which in future will be known as MARCHE-UMBRIA Region, will absorb the Provinces of PERUGIA and TERRI, under Allied Military Government, with their Provincial staffs. The Regional Commissioner will also act as Allied Commission Liaison Officer for the Provinces of ABRUZZI.

Details of officers to be retained will be found in Appendix "A".

3. Duties of the Allied Commission Liaison Officers in Italian Government territory will be to watch over the Allied and Italian interests in furtherance of the Allied war effort, and to assist the Allied authorities in their relations with Italian local authorities. They will give advice to the Allied military authorities on any matter pertaining to Italian civil affairs, but will no longer be concerned with the assumption of advice or guidance to the Italian authorities. Neither will they assume functions which are properly those of military authorities. Personnel will normally confine their activities to the neighbourhood of the HQ in which they are located, but in cases of necessity they will of course deal with all matters arising from civil affairs affecting Allied interests within the Regional boundaries.

ADRE MEMOIRE FOR COMMUNICATION TO THE ITALIAN
GOVERNMENT BY THE ACTING PRESIDENT OF THE
CONFERENCE OF THE NEW DIRECTIVE ON THE
FUNCTIONS OF THE ALLIED COMMISSION.

1. In accordance with the Declaration of the President of the United States of AMERICA and the Prime Minister of the United Kingdom of GREAT BRITAIN, the Allied Governments propose to relax the control of the Italian Government under the Armistice in the matter of day to day administration and only to exercise such control when Allied military interests require.

2. The Political Section of the Allied Commission is being abolished as of 1 March 1945. The Italian Ministry of Foreign Affairs will deal with the Chief Commissioner on matters of major policy, and on matters of minor policy and routine business it will address itself to whatever Section (Economic or Civil Affairs) of the Commission may be appropriate to the subject involved. Matters involving the travel of diplomatic and other public officials will hereafter be dealt with on behalf of the Commission by the Office of the Executive Commissioner.

3. The Italian Government will continue, as at present, to have direct relations with foreign diplomatic representatives accredited to the Quirinal. The Allied

Commission

Commission should be kept generally informed by the Italian Government of any negotiations in which they engage with other Governments. Facilities for the use of secret bags will be granted to the Italian Government for use in correspondence with their diplomatic representatives abroad. Undeposited cypher facilities cannot be allowed for the present.

Insofar as these negotiations have to do with economic and financial matters, the Economic Section and its Finance Sub-Commission should be kept informed of their progress.

It would be convenient if the Italian Government would furnish a periodic summary of all negotiations completed or pending with other Governments.

4. The Allied Commission will limit its dealings with respect to territory under the jurisdiction of the Italian Government to consultation with and advice to the Ministers of the Italian Government.

5. The advisory functions of the Sub-Commissions of Education, Monuments and Fine Arts, Local Government, Legal and Labour in territory under the jurisdiction of the Italian Government will be performed only when requested by the Italian Government.

6. It will no longer be necessary for the Italian Government to obtain the approval of the Allied Commission for decrees and other legislation enacted by the Italian Government in the territory under the jurisdiction of the Italian Government.

Nevertheless the Allied Commission should be informed of proposed decrees some time before their enactment, in order to enable the Chief Commissioner to consult with the Italian Government as to their application to territory under the jurisdiction of Allied Military Government (AMG), and to lay plans for their effective implementation in such territory when appropriate.

7. It will no longer be necessary for the Italian Government to obtain approval of the Allied Commission for Italian appointments, whether to national or local offices, in territory under the jurisdiction of the Italian Government except with regard to the attached list (Appendix "A") of positions having military significance. The Italian Government will have the right to alter appointments made previously by AMG authorities.

8. The Allied Commission officers stationed in the field in the territory under the jurisdiction of the Italian Government will be withdrawn. As a first step it is intended to abolish by April 1, 1945, the Regional

Offices of the Allied Commission for Sicilia, Sardegna, Southern and Lazio-Umbria Regions. Representatives of the Allied Commission will, however, be sent into territory under the jurisdiction of the Italian Government when necessary and certain specialist officers with economic functions will remain in such territory for a limited period.

9. It is the desire of the Allies to encourage free trade in knowledge and learning with the Italian people. Arrangements will be facilitated for the flow between Italy and the United Nations of books and other publications of a scientific, political, philosophical and artistic nature, and for the movement of scholars, artists and professional men between Italy and the United Nations.

10. The Allies welcome the decision to hold local elections in territory under the jurisdiction of the Italian Government as soon as may be.

11. The Allied Nations desire to make concessions with regard to Italian prisoners of war now or hereafter held in Italy, other than those captured since the Armistice was signed. Provided that arrangements can be made for the services of such persons to continue to be made available on terms satisfactory to the Supreme Allied Commander, their status as prisoners of war will be terminated.

12. It is essential that the Italian Government formulate and implement appropriate economic controls and take all other steps possible both in order to ensure that maximum production and effective and equitable distribution and control of consumption of local resources possible under existing conditions be secured and as a prerequisite to increased economic assistance.

13. In the joint programme of essential Italian imports, now being prepared by the Inter-Ministerial Committee for Reconstruction and the Economic Section of this Commission, there will be some supplies for which the combined United States-United Kingdom military authorities will assume responsibility for procurement (Category "A") and other supplies for which they will not assume responsibility (Category "B"). A definition of the supplies which fall into Category "A" follows:

(a) Those quantities of agreed essential supplies, necessary to prevent disease and unrest prejudicial to military operations, such as, food, fuel, clothing, medical and sanitary supplies.

(b) Those supplies, the importation of which will reduce military requirements for the import of essential civilian supplies for the purposes referred to in this paragraph, such as,

fertiliser,

fertiliser, raw materials, machinery and equipment.

- (c) These materials essential for the rehabilitation of such of the Italian communication facilities, power systems and transportation facilities as will directly further the Allied military effort.

14. The programme for which the military authorities assume responsibility will be maintained for the duration of combined (United States-United Kingdom) operations in Italy. For this period, and within the limits defined in paragraph 13, Italy will be treated as a whole. The date of the termination of military responsibility will be fixed by the Allied Nations.

15. In addition to the programme of supplies for which the military assume responsibility for procurement (Category "A") the Allied Commission will assist the Italian Government in the preparation of programmes of supplies designed to rehabilitate Italian industry. Such programmes, referred to as Category "B" will be handled under procedures already notified. The purchasing of supplies in Category "B" programmes will be undertaken immediately without reference to the present difficult shipping position in order that the supplies so purchased may be called forward as and when shipping space becomes available.

16. The Allies desire that industrial rehabilitation in Italy be carried out by the Italian Government to the fullest extent permitted by Italian resources and such supplies as it may be possible to import under the terms of paragraphs 13, 14 and 15 above, and subject to the limitation in paragraph 19 below. The sole exception to this principle is to be made in the case of industries involving the production or repair of munitions or other implements of war, which will be rehabilitated only to the extent required by the Supreme Allied Commander in the discharge of his military mission, and to the extent necessary to further the Allied military effort in other theatres. The priority order in which Italian industry will be rehabilitated (after the rehabilitation of industries essential for Allied military purposes) will be determined by the Italian Government, with the assistance and advice of the Allied Commission.

17. The prime responsibility for the control of inflation in Italy, including the imposition and administration of the appropriate financial controls and economic controls, and appropriate utilization of supplies, rests with the Italian Government. In this connection, as in others, the Allied Commission stands ready to advise and assist.

18. The extent to which exports are to be stimulated and the development of machinery to handle export trade are for determination by the Italian Government. For the time being, the Italian export programme will necessarily be limited by certain shipping, military, financial and supply factors. The applicability of these factors to individual programmes will be worked out between the Italian Government and the Economic Section of the Allied Commission along the lines already discussed by the Economic Section with the Inter-Ministerial Committee for Reconstruction.

19. Nothing contained in the above should be taken as constituting a commitment by the Allied Nations with respect to shipping. Any supplies to be imported into Italy must be transported within such shipping as may be allocated from time to time by the Allied Nations.

4. The object of the conference will be to discuss the present and the future, and not to record the activities of the Commission in the past.

5. The meeting will be divided into three parts:

Part I. Opening address by the Acting President, followed by the Chief Commissioner, on the subject of the New Deal for Italy.

Part II. Discussion of problems that Regional Commissioners would like to raise.

Part III. Discussion of problems that Vice Presidents of Sections would like to raise.

6. There will be no set agenda, and, except in regard to Part I, it is desired that the meeting should be of a purely business nature. Regional Commissioners in Part II of the meeting will be asked to raise their points in the following order:

NEW DIRECTIVE FROM COMBINED CHIEFS OF STAFF ON THE ALLIED COMMISSION.

PAN 437.

Following is Directive from Combined Chiefs of Staff.

1. In order to implement the joint declaration of the President and the Prime Minister of 25 September, 1944, the US and UK Governments have agreed to relax the control of the Italian Government under the armistice and surrender instrument and only to exercise such control when military needs require it, thus devolving in the Italian Authorities a greater sense of responsibility. The rights under the armistice and surrender instrument will be held in reserve in the matter of day to day administration, subject to overriding military needs and the requirements of the campaign in Italy.

In the light of this agreed US-UK policy, you should take action as rapidly as possible in conformity with the following paragraphs:

POLITICAL SECTION.

2. (a) The Political Section of the Allied Commission will be abolished. The Allied Commission will obtain advice from the US and UK Ambassadors in Rome. There is no intention, however, to make any change in the responsibility of the Combined Chiefs of Staff, acting through the Allied Commission; the Combined Chiefs of Staff, will, therefore, as occasion requires, continue to transmit directives in regard to the combined views of the two Governments on matters of major policy, and such other matters as are within the scope of the activities of the Allied Commission.
- (b) The Italian Government shall be permitted to have direct relations with foreign diplomatic representatives accredited to the Quirinal, provided that the Allied Commission is kept generally informed by the Italian Government of any negotiations in which they engage with other governments.

In the light of this agreed US-UK policy, you should take action as rapidly as possible in conformity with the following paragraphs:

POLITICAL SECTION

2. (a) The Political Section of the Allied Commission will be abolished. The Allied Commission will obtain advice from the US and UK Ambassadors in Rome. There is no intention, however, to make any change in the responsibility of the Combined Chiefs of Staff, acting through the Allied Commission; the Combined Chiefs of Staff, will, therefore, as occasion requires, continue to transmit directives in regard to the combined views of the two Governments on matters of major policy, and such other matters as are within the scope of the activities of the Allied Commission.
- (b) The Italian Government shall be permitted to have direct relations with foreign diplomatic representatives accredited to the Quirinal, provided that the Allied Commission is kept generally informed by the Italian Government of any negotiations in which they engage with other governments.
- (c) The Allied Commission shall abandon the practice of approving the decrees and other legislation enacted by the Italian Government in the territory under the jurisdiction of the Italian Government. Any new Italian Government will be requested to confirm that they will adhere to the obligations under the terms of surrender undertaken by their predecessors.
- (d) The Allied Commission shall abandon the practice of approving any Italian appointments in territory under the jurisdiction of the Italian Government except in regard to Service Ministers and such military appointments as you may determine.
- (e) The Allied Commission shall as soon as possible withdraw all its officers stationed in the field in the territory under the jurisdiction of the Italian Government. However, the Allied Commission should retain the right to send its representatives into territory under the jurisdiction of the Italian Government for any special tasks when Allied interests require it.

-2-

- (f) The US and UK Governments have agreed that the Italian Government will be advised that it is the Allied desire to encourage free trade in knowledge and learning with the Italian people. As far as the exigencies of the military situation permit you will facilitate any arrangements for the flow of books and other publications of a scientific, political, philosophical and artistic nature between ITALY and the United Nations and for the movement of scholars, artists and professional men between ITALY and the United Nations.
- (g) The US and UK Governments have agreed that in accordance with the terms of the MOSCOW declaration it is desirable to encourage the holding of elections for local public offices in territory under the jurisdiction of the Italian Government and you should be guided accordingly.
- (h) The status of Italian Prisoners of War now or hereafter held in ITALY other than those captured since the armistice was signed should be terminated by you upon adequate assurance being given by the Italian Government that their services will continue to be made available on terms satisfactory to you as Supreme Allied Commander subject to Combined Chiefs of Staff approval.

ADMINISTRATIVE SECTION

3. The internal organization of the Allied Commission is primarily your responsibility. In the reorganization of the Allied Commission it is desired that you give consideration to the following policies and objectives:
- (a) The Staff of Allied Commission Headquarters should occupy itself primarily with consultation and advice to the Italian Government at high levels.
- (b) As far as certain Sub-Commissions of the Allied Commission Headquarters are concerned such as Education, Arts and Monuments, Local Government, Labour and Legal, their advisory functions in respect of Italian Government territory should be exercised only when requested by the Italian Government. Jurisdiction of the Allied Commission should be exercised only in respect of territory under the jurisdiction of the Italian Government.

your responsibility. In order to give consideration to the following is desired that you give consideration and advice to the Italian Government at high levels.

- (a) The Staff of Allied Commission Headquarters should occupy itself primarily with consultation and advice to the Italian Government at high levels.
- (b) As far as certain Sub-Commissions of the Allied Commission Headquarters are concerned such as Education, Arts and Monuments, Local Government, Labour and Legal, their advisory functions in respect of Italian Government territory should be exercised only when requested by the Italian Government. Control should NOT be exercised in respect of territory under the jurisdiction of the Italian Government.
- (c) The Sections and Subcommissions of the Allied Commission Headquarters should be progressively civilianised to the fullest extent which in your opinion circumstances allow, except the Service Subcommissions and except to the extent that Subcommissions exercise functions with respect to territory under Allied Military Government (AMG).
- (d) To the extent feasible, officers of Allied Commission Headquarters dealing with AMG functions should be located at places other than Allied Commission Headquarters.

ECONOMIC SECTION.

4. It is necessary that the maximum production and effective and equitable distribution and control of consumption of local resources possible under existing conditions be secured. The Italian Government should be advised that to this end and as a prerequisite to increased economic assistance it must formulate and implement appropriate economic controls and take all other steps possible. In the event that these conditions are NOT met the Allied authorities will NOT hesitate to impose the necessary controls or take other appropriate measures.

the combined US-UK

5. For the duration of combined operations, the combined US-UK military authorities will be responsible for providing:

(a) These quantities of food, fuel, clothing, medicine, sanitary and other small essential supplies necessary to prevent disease and unrest prejudicial to such operations.

(b) These supplies such as fertilizer, raw materials, machinery and equipment, the transportation of essential machinery and equipment for the import of essential reduce military requirements referred to in this paragraph. As the time when combined military requirements civilian supplies for the purposes referred to in this paragraph will terminate will not be known when requisitions are being presented and considered, the importation of supplies under this sub-paragraph will not be excluded merely because the effect of such imports may not be felt during the period of combined military responsibility.

(c) Those supplies necessary for the restoration of such of the Italian power systems and transportation and communication facilities as will further the military effort against Germany and Italy.

To the extent contemplated by this paragraph 5, essential civilian supplies cannot be divorced from the military supply programs and Italy must be treated as a whole. It is understood that the date of termination of combined military responsibility for providing supplies as set out above will be decided by the Combined Chiefs of Staff on your recommendation.

The Allied Commission shall be advised to assist the Italian Government in the preparation of programmes of supplies designed to rehabilitate Italian industry. These supplies will be in addition to those to be provided as military responsibility. Such programmes when established by the Italian Government will not be subject to review by Allied Force Headquarters, but will be reviewed and recommended by the Committee for Civil Affairs Committee, which will be nominated directly with appropriate committees and committees for Allied Commission to the Combined Civil Affairs Committee and transmit the programme to the Combined Civil Affairs Committee and action by the appropriate civilian agencies of the United States and British Governments. The United States and British Governments will each make available such shares as may be mutually agreed by the Committee for Civil Affairs Committee. Procurement covering such programmes the provision of such of these programmes as may be approved by the Combined Civil Affairs Committee. Procurement covering such programmes should immediately be put in hand without reference to the present shipping position in order that the supplies may be called forward as and when shipping space becomes available. In this connection see Paragraph 8 below.

6. The Allied Commission shall be advised to assist the Italian Government in the preparation of programmes of supplies designed to rehabilitate Italian industry. These supplies will be in addition to those to be provided as military responsibility. Such programmes when established by the Italian Government will not be subject to concurrence by Allied Force Headquarters, but will be reviewed and transmitted directly with appropriate comments and recommendations by the Allied Commission to the Combined Civil Affairs Committee, which will transmit the programmes to the Combined Liberated Areas Committee for action by the appropriate civilian agencies of the UNITED STATES and British Governments. The UNITED STATES and British Governments will each make available such shares as may be mutually agreed of the cost of the provision of such of these programmes as may be approved by the Combined Liberated Areas Committee. Procurement covering such programmes should immediately be put in hand without reference to the present shipping position in order that the supplies may be called forward as and when shipping space becomes available. In this connection see Paragraph 8 below.

7. The questions raised by you in sub-paragraphs A, B and C of Paragraph 4 of RGP 778 are answered as follows:

(a) The prime responsibility for the control of inflation in ITALY, including the imposition and administration of appropriate financial and economic controls and appropriate utilization of supplies, must rest with the Italian Government. Your responsibility in this connection, other than with respect to the importation of supplies, is, through the Allied Commission, to advise and assist the Italian Government.

(b) It is desired that industrial rehabilitation in ITALY be carried out by the Italian Government to the fullest extent permitted by the Italian resources and such supplies as you may be authorized to import, consistent with the discharge by you of your military mission, with the exception that industries for the production or repair of munitions or other implements of war shall be rehabilitated only to the extent required by you in discharge of your military mission and as will further the military effort in other theatres. Except

-4-

for these industries the rehabilitation of which is essential to the discharge of your military mission and in furtherance of the military effort in other theatres, which rehabilitation should be given first priority, industries other than those excluded by the preceding sentence will be given such precedence in rehabilitation as may be determined by the Italian Government.

- (c) The extent of your responsibility with respect to the importation of supplies into ITALY is defined in Paragraphs 5 and 6 hereof. Except as is so defined, you have no responsibility for the importation of supplies into ITALY.
 - (d) Within the limitation of available shipping and subject to military considerations as determined by you, the extent to which experts are to be stimulated and the development of machinery to handle export trade are for determination by the Italian Government. The appropriate civilian agencies of the British and American Governments are currently considering methods by which the Italian Government may be assisted in these respects and as soon as decisions in this connection are reached, you will be advised with respect thereto.
8. Nothing herein contained shall constitute a commitment with respect to shipping. Any supplies to be imported into ITALY must be transported within such shipping as may be allocated from time to time.
- FINANCIAL SECTION.
9. The two Governments are discussing proposals for giving the Italian Government a greater measure of responsibility in financial matters; a further directive on these matters will follow.

Office of the Chief Commissioner

Ref: 4001/20

19 February 1945.

SUBJECT: New 003 Directive on the Allied Commission.

TO : Allied Forces Headquarters.
ATTN: G-5 Section.

1. It may be of interest to you to know the action which I propose to take as a result of the receipt of DAN 407, communicated to me by the Acting President:

(a) Para 2(A). I am making the US and British Embassies formally to nominate their representatives who, for many reasons, will require to have an office at this Headquarters. They will bear the same relation to me as POLAD and RAS/AFR bear to SACRED.

(b) Para 2(B).
(i) I have asked on more than one occasion whether the Italians might be allowed to use the usual cipher and code facilities to their representatives in the countries with which diplomatic relations have been resumed. I have had no answer to this request and I should be glad if this point could be cleared at once. A separate cable has been dispatched on this point.

(ii) I shall request the Italian Government to advise me of negotiations with other Governments in which the Italian Government may engage themselves.

(iii) It will be to our advantage and to the advantage of the Italian Government that direct relations should be resumed as soon as possible with the French, Yugoslav and Greek Governments and I shall urge the Italian Government to this end. It is expected that the Allied Embassies will take a similar position.

(c) Para 2(C), states "The Allied Commission shall abandon the practice

require to have an office at this Headquarters. They will bear the same relation to me as POLAD and INMILIN bear to SACMED.

(b) Para 2(f).

(i) I have asked on more than one occasion whether the Italians might be allowed to use the usual cipher and code facilities to their representatives in the countries with which diplomatic relations have been resumed. I have had no answer to this request and I should be glad if this point could be cleared at once. A separate cable has been dispatched on this point.

(ii) I shall request the Italian Government to advise me of negotiations with other Governments in which the Italian Government may engage themselves.

(iii) It will be to our advantage and to the advantage of the Italian Government that direct relations should be resumed as soon as possible with the French, Yugoslav and Greek Governments and I shall urge the Italian Government to this end. It is expected that the Allied Embassies will take a similar position.

(c) Para 2(G). states "The Allied Commission shall abandon the practice of approving the decrees and other legislation enacted by the Italian Government in the territory under the jurisdiction of the Italian Government. Any new Italian Government will be requested to confirm that they will adhere to the obligations under the terms of surrender undertaken by their predecessors".

26

(i) I interpret the words "in the territory" to mean "affecting the territory". Certain Italian decrees may affect Allied Military Government territory and since it is considered desirable to coordinate policy in territory which will be ultimately transferred, I shall cause informal consultations to be continued between the Allied Commission and the Italian Government, particularly in relation to economic decrees.

(ii) I also interpret this clause, read with 1(i), to vest in SACMED the right, when necessary, to exercise control in any decree affecting military needs and the requirements of the campaign.

(a) Para 2(D) The transfer of territory documents (Document "A") will now have to be amended in order to enable the Italian Government to remove officials previously nominated by AMG officials without reference to the Allied Commission. This will be taken up under separate cover. All Service Sub-Commissions desire to retain the right of vetoing military appointments. The technical posts of directors of telecommunications and Railroads will be considered as military appointments hitherto.

(e) Para 2(E)
(1) I attach draft directive which will be issued shortly in order to withdraw Allied officers of the Commission from the Islands and Southern Regions. (see Annexure "A").

(ii) It is essential that we should implement this clause to the maximum. There will be great temptation on the part of military formations and services, Italian local authorities and Allied Commission officers to regret the departure of Allied Commission officers and to retain a "small" number which will gradually grow and will lead us to fall between the two stools of (a) control, which necessitates many officers, and (b) decentral, which should need none. It is essential that military formations and services should be instructed not to ask for the retention of Allied Commission officers but to take their share in some of the difficulties which will have to be faced by Allies and Italians alike as a result of the CCS directive. The Allied Commission will be compelled to give up responsibilities and duties which have been of value to the Allied military formations; Allied officers who have been the proper middle between Allied military authorities and the Italian local governments will disappear. I would ask that a directive be issued to military formations and services on this and other matters arising out of the directive.

(iii) It may be thought necessary for the military authorities to assume responsibility for any necessary supervision of public utilities of military importance, e.g., railways, power, highways, through their own officers. This would impose an even more rigid military control than that which the present directive instructs us to remove.

some of the difficulties. Allies and Italians alike as a result of the CCS directive. The Allied Commission will be compelled to give up responsibilities and duties which have been of value to the Allied military formations. Allied officers who have been the proper media between Allied military authorities and the Italian local governments will disappear. I would ask that a directive be issued to military formations and services on this and other matters arising out of the directive.

(iii) It may be thought necessary for the military authorities to assume responsibility for any necessary supervision of public utilities of military importance, e.g., railways, power, highways, through their own officers. This would impose an even more rigid military control than that which the present directive instructs us to remove.

(iv) Allied military Government will continue in RAVENNA Command unless it is your desire that it should be removed. It would, of course, be an advantage to withdraw all officers but I assume that the local military authorities will insist on retention of MFC. JAG Courts in BARU will cease.

268

(v) I submit for consideration the withdrawal, insofar as is possible, of HQ 204 Sub-area from BRIGLIA and any other Sub-area Headquarters which are not absolutely essential.

(f) Para 2(F). The implementation of this clause depends upon the repeal or amendment of the "Enemy Act" so far as it affects Italy.

(g) Para 2(G). This has already been done and the Italian Government have the matter in hand. It is most probable that local government elections will take place throughout the major portion of liberated Italy in the spring.

(h) Para 2(H). The status of Italian POW in Italy is the subject of a separate memorandum which will be submitted to you.

-3-

- (4) Para 3(C). I interpret this to mean consultation between heads of Sections and Directors of Sub-Commissions on the one hand and ministers and Under-Secretaries on the other.
- (5) Para 3(B). This can be carried out but latitude will be necessary in respect of labour and wage matters which affect ASG territory.
- (k) Para 3(C). The process of civilisation is already in hand.
- (1) Para 3(D). My Deputy Chief Civil Affairs Officer is already located at a place other than Allied Commission Headquarters. Further separation is not feasible at the moment.
- (m) Para 4. It will be necessary to represent to the Italian Government the contents of this and other clauses in the directive. This will be done. I do not propose communicating the last sentence of this paragraph to the Italian Government, since it is not reconcilable with the spirit of the rest of the directive.
- (n) Para 5.
(i) The Italian Inter-ministerial Committee for Reconstruction and the Economic Section of the Allied Commission are now preparing a joint programme of essential Italian imports. The Italian Government will be informed of the three categories for which the US/UK military authorities assume responsibility.
- (ii) This clause gives a wider interpretation to Category A programme (disposal and unrest) than this Commission has yet received. In order to implement it, I propose to resubmit requisitions that have already been rejected and also to submit part of the new joint programme now being worked out with the Italian Government.
- (o) Para 6. Similarly this clause has a wider interpretation of the Category B programme and will be considered at the joint discussions.
- (p) Para 7(A). This will to some extent modify the work of price control now done by the Allied Commission. It is assumed to be a partial reply to recommendations made by the Anti-Inflation Committee in June 1944.

- (d) Para 7(a). This will to some extent modify the work of price control now done by the Allied Commission. It is assumed to be a partial reply to recommendations made by the Anti-Inflation Committee in June 1944.
- (e) Para 9. Has been made the subject of a separate telegram.

2. I attach memorandum (Annexure "B") which I propose to transmit to the Italian Government informing them of the terms of the "New Deal" as soon as I am instructed to make public the terms of the new directive.

HEADQUARTERS ALLIED COMMISSION

APO 394

Office of the Chief Commissioner

My Dear Mr. Prime Minister:

In order to implement the joint declaration of the President and the Prime Minister of 26 September 1944, the United States and United Kingdom Governments have agreed to relax the control of the Italian Government under the armistice and surrender instrument and only to exercise such control when Allied military interests require. The rights under the armistice and surrender instrument will be held in reserve in the matter of day to day administration, subject to overriding military needs and the requirements of the campaign in Italy.

2. In the light of this agreed US UK policy, the Allied Commission is taking certain steps and is following certain policies concerning which it is desirable that your Government be informed. These steps are described in the paras below, together with an indication of the new procedures which it is proposed to adopt in working with your Government under the new arrangements.

3. The Political Section of the Allied Commission is being abolished as of February 1945. Your Ministry of Foreign Affairs will thus have no direct counterpart in the Commission. It will deal with the Chief Commissioner on matters of major policy, and on matters of minor policy and routine business it will address itself to the Economic Section or the

under the Armistice and the matter of day to day administration, subject to overriding military needs and the requirements of the campaign in Italy.

3. The Political Section of the Allied Commission is being abolished as of February 1945. Your Ministry of Foreign Affairs will thus have no direct counterpart in the Commission. It will deal with the Chief Commissioner on matters of major policy, and on matters of minor policy and routine business it will address itself to the Economic Section or the Civil Affairs Section of the Commission, whichever may be appropriate to the subject involved. Matters involving the travel of diplomatic and other public officials will hereafter be dealt with on behalf of the Commission by the Office of my Executive Commissioner.

4. The Italian Government will continue, as at present, to have direct relations with foreign diplomatic representatives accredited to the Quirinal. It is necessary, however, that the Allied Commission be kept generally informed by the Italian Government of any negotiations in which they engage with other Governments.

Insofar as these negotiations have to do with economic and financial matters, this requirement will be met by keeping the Economic Section and its Finance Sub-Commission informed of the progress of such negotiations. On policy matters, this might appropriately be done through the weekly meetings held between the Economic Section and the Inter-Ministerial Committee for Reconstruction, at which the Ministry of Foreign Affairs is generally represented.

We may also wish to work out jointly an arrangement for the preparation by the Italian Government of a periodic summary of negotiations completed or pending with other Governments.

5. It will no longer be necessary for the Italian Government to obtain the approval of the Allied Commission for decrees and other legislation enacted by the Italian Government in the territory under the jurisdiction of the Italian Government.

I should, however, desire to work out with your Government a procedure for ensuring that this Commission is informed of proposed decrees some time before their enactment, in order to enable me to consult with you as to their applicability to territory under the jurisdiction of Allied Military Government (AMG), and to lay plans for their effective implementation in such territory when appropriate.

6. It will no longer be necessary for the Italian Government to obtain approval of the Allied Commission for Italian appointments, whether to national or local offices, in territory under the jurisdiction of the Italian Government, except with regard to the attached list.

6. It will no longer be necessary for the Italian Government to obtain approval of the Allied Commission for Italian appointments, whether to national or local offices, in territory under the jurisdiction of the Italian Government, except with regard to the attached list (Appendix "A") of positions having military significance.

7. The Allied Commission officers stationed in the field in the territory under the jurisdiction of the Italian Government will be withdrawn ²⁶¹ as soon as possible. Representatives of the Allied Commission will, however, be sent into territory under the jurisdiction of the Italian Government when it considers such action necessary.

In line with this policy, it is intended to abolish by 1945 the Regional Offices of the Allied Commission for Sicilia, Sardegna, Southern and Lacio-Umbria Regions.

-3-

For a limited period certain specialist officers on economic functions will remain in territory under the jurisdiction of the Italian Government. A list of such specialist officers, and their functions, will be notified to you shortly.

8. It is the desire of the Allies to encourage free trade in knowledge and learning with the Italian people. As far as the exigencies of the military situation permit, arrangements will be facilitated for the flow between Italy and the United Nations of books and other publications of a scientific, political, philosophical and artistic nature, and for the movement of scholars, artists and professional men between Italy and the United Nations.

9. It is the desire of the Allies to encourage the holding of elections for local public offices in territory under the jurisdiction of the Italian Government.

10. The Allied Nations desire to make concessions with regard to Italian prisoners of war now or hereafter held in Italy, other than those captured since the armistice was signed. Provided that the Italian Government can give an adequate assurance that the services of such persons will continue to be made available on terms satisfactory to the Supreme Allied Commander, their status as prisoners of war will be terminated.

11. The Allied Commission will limit its dealings with respect to territory under the jurisdiction of the Italian Government to consultation with and advice to the Ministers of the Italian Government.

12. It is our intention that, in respect of Italian Government territory, the functions of the Education, Monuments & Fine Arts, Local Government,

11. The Allied Commission will limit its dealings with respect to territory under the jurisdiction of the Italian Government to consultation with and advice to the ministers of the Italian Government.

12. It is our intention that, in respect of Italian Government territory, the advisory functions of the Education, Monuments & Fine Arts, Local Government, Legal and Labour Sub-Commissions should only be performed when requested by your Government.

13. It is essential that the Italian Government formulate and implement ²⁰⁰ appropriate economic controls and take all other steps possible both in order to ensure that maximum production and effective and equitable distribution and control of consumption of local resources possible under existing conditions be secured and as a prerequisite to increased economic assistance.

14. In the Joint programme of essential Italian imports, now being prepared by the Inter-Ministerial Committee for Reconstruction and the Economic Section of this Commission, there will be some supplies for which the combined US-UK military authorities will assume responsibility for procurement (Category "L") and other supplies for which they will not assume responsibility (Category "G"). For your information a definition of the supplies which fall into Category "L" follows:

- (a) Those quantities of agreed essential supplies necessary to prevent disease and unrest prejudicial to military operations, such as, food, fuel, clothing, medical and sanitary supplies.
- (b) Those supplies, the importation of which will reduce military requirements for the import of essential civilian supplies for the purpose referred to in this paragraph, such as, fertiliser, raw materials, machinery and equipment. When requisitions are being prepared and considered the time when/US-UK military responsibility will terminate will not be known. The importation of supplies under this sub-paragraph, therefore, will not be excluded solely because the effect of such imports may not be felt during the period of combined military responsibility.
- (c) Those materials essential for the rehabilitation of such of the Italian communication facilities, power systems and transportation facilities as will further the military effort against Germany and Japan.

15. The programme for which the military authorities assume responsibility will be maintained for the duration of combined (US-UK) operations in Italy.

The importation of supplies under this sub-paragraph, therefore, will not be excluded merely because the effect of such imports may not be felt during the period of combined military responsibility.

(c) These materials essential for the rehabilitation of such of the Italian communication facilities, power systems and transportation facilities as will further the military effort against Germany and Japan.

15. The programme for which the military authorities assume responsibility will be maintained for the duration of combined (US-UK) operations in Italy. For this period, and within the limits defined in para 14, Italy will be treated as a whole. The date of the termination of military responsibility will be fixed by the Allied Nations.

16. In addition to the programme of supplies for which the military assume responsibility for procurement (Category "A") it will be our intention to assist your Government in the preparation of programmes of supplies designed to rehabilitate Italian industry. Such programmes, which we refer to as Category "B", are to be handled under procedures already notified to you in my letter of . It has been agreed that the purchasing of supplies in Category "B" programmes should immediately be undertaken, without reference to the present difficult shipping position in order that the supplies

go purchased may be called forward as and when shipping space becomes available.

17. It is the desire of the Allies that industrial rehabilitation in Italy be carried out by the Italian Government to the fullest extent permitted by Italian resources and such supplies as it may be possible to import under the terms of Paras 14, 15 and 16 above, and subject to the limitation in para 20 below. The sole exception to this principle is to be made in the case of industries involving the production or repair of munitions or other implements of war, which should be rehabilitated only to the extent required by the Supreme Allied Commander in the discharge of his military mission, and to the extent necessary to further the military effort in other theatres. It is contemplated that the priority criteria which Italian industry will be rehabilitated (after the rehabilitation of industries essential for Allied military purposes) will be determined by the Italian Government, with the assistance and advice of the Allied Commission.

18. It is desired to make clear that the prime responsibility for the control of inflation in Italy, including the imposition and administration of the appropriate financial controls and economic controls, and appropriate utilization of supplies, rests with the Italian Government. In this connection, as in others, the Allied Commission stands ready to advise and assist you.

19. The extent to which exports are to be stimulated and the development of machinery to handle export trade are for determination by the Italian Government. For the time being, the Italian export programme will

In this connection, as in others, the Allied Commission stands ready to advise and assist you.

19. The extent to which exports are to be stimulated and the development of machinery to handle export trade are for determination by the Italian Government. For the time being, the Italian export programme will necessarily be limited by certain shipping, military, financial and supply factors which are controlled by the Allied Governments for purposes connected with the prosecution of the war. The applicability of these factors to individual programmes is to be worked out between your Government and our Economic Section, along the lines already discussed by the Economic Section with the Inter-Industrial Committee for Reconstruction.

20. Nothing in this letter should be taken as constituting a commitment by the Allied Nations with respect to shipping. Any supplies to be imported into Italy must be transported within such shipping as may be allocated from time to time by the Allied Nations.
