## COMITATO DI FRANZIGNE NAZIONALE PER LA LIGURIA

Presidenza -Affari Politici

Genova 10/10/45

N° 2240/GA/ru

SUBJECT: relation

This C.L.N. considers best to report to those Offices the following:

- after the insurrection, in agreement and confirmation with the Allied Military Government, were appointed respectively one Questore and Vice-Questore for the province of Genova, the lawyer Bianchi G.B. and prof. Gelasio Adamoli.
- The avv. Bianchi and Prof. Gelasio have esplicated their duties in the best possible manner inasmuch as the Allies had repeatedly expressed their full satisfaction.

Things stood like that up till a month ago, when to this C.L.N. came the news by accident of the arrival of a new Questore sent by Ministry of Interior.

This C.L.N. requested immediate explanations to Allied Mil. Command of the province and having had a confirmation of the news, provided to present its disappointment for not having been consulted beforehand, and for having provided for the replacement when it was not deemed necessary.

The Provincial Allied Command justified the situation affirming that, having the questore Bianchi hinted in an interview which he had for other reasons, to leave his Office when to Allied Mil. Command would succeed the "Amministrazione regia" it was found necessary to provide in that sense.

As the C.L.N. interpellated the avv. BIANCHI, same confirmed the non-official and definite character of his declaration adding that he was as ever at the disposal of the C.L.N.

As things stands presently, and having the C.L.N. pointed out to Allied Command that the provision adopted for Bianchi should however not be extended to Vice Questore Bianchi as Command pretended, the matter was subsequently and attentively examined between Provincial Allied Command and the C.L.N. Q.J.

.//.

resulting in an agreement which established for the Vice Questore to remain in service until the Region remained under Allied jurisdiction.

Notwithstanding such agreement, a few days ago, the Allied Regional Command communicated to the C.L.N. of the replacement of Questore and Vice Questore.

This C.L.N., by means of its President, pointed out the untimely political provision for being also contrary to agreement mentioned before. But decidedly the Reg. Command took up position in the contrary and confirmed that the decision be taken at once.

The Liburia C.L.N. was then obliged to examine with attention the question, and while confirming own's views regarding the inopportunity of the provision decided however, in order to avoid serious inconveniences, to take a non-resisting attitude voting for the purpose the following resolution.

" In reference to the communication forwarded by A.M.G. in Liguria regarding the replacement of the Questore and Vice Questore on career appointed by C.L.N., we declare to request that such a provision had been enforced without the opinion of this Committee, in opposition to previous agreement which stated that the replacement should take place on the moment when the passage of the Administration goes back to the Italian Government.

The C.L.N. decides to not create disorders, nor disturb the public opinion, and not to give any publication for the moment of its present position; at same time expresses its thanks to Questore Bianchi and Questore Adamoli for the work carried out under the protection and supervision on the C.L.N. ""

But as provisioned, soon after the publication in the press about the replacement of the Questura I vice questore, the population reacted by showing its dissatisfaction.

Only with an intense work of persuasion done by This C.L.N., either directly or by means of its concerns and peripherical C.L.N., it has been possible to avoid public demonstrations and suspension from work in public services and factory workers.

The awkward situation determined in the population and at the same midat of the questura, which followed the provision, can be better appreciated from the news given by the press, from the demands of resignation presented by old and new officials at the questura, dismissals from work and numerous orders of the day

0073

voted by concerns and workers amongst which are those of the Genoa docks; the railwaymen of the Genoa department; tramway-men; workers and employees of the Ansaldo factories; of the shipyards; The Ansaldo carpentering works; Cesura yards; the joint-stock company of naval engineering works "Suttar"; Bagnara establishments; the Agip-Foltezer factory; Piaggio factory; Gas society; Italim Marconi Company; the population of Ge/ Pontedecimo and Ge/Cornigliano through their C.I.N.; laborers of the St.Giorgio establishment; the population of St.Quirico and workers of the various engineering works in the "Levante cittadino"; Biasoli factory; Mennucci factory.

Nearly all these orders of the day issued by the a/m concerns are in our hands and given to us by commissions of the citizens concerned.

The seriousness of the situation which followed the provision is such that this C.I.N. finds it necessary from this moment to inform that Authority, and at same time points out its deepest regret for the fact that such a situation has arisen, besides that for the fact itself, its nevertheless a demonstration, be it occasional but equally sad, of the contrast between the C.I.N. and the Allied Mil.Command.

Questo C.L.N. ritiene opportuno portare a immediata notizia di cedesti Uffici quanto segue:

dopo l'insurrezione, di pieno accordo col Governo Militare Alleato, il quale appunto li confermò, vennero nominati rispettivamente a Questore e Vice Questore per la provincia di Genova l'avv. Bianchi G.B. e il prof. Galassio Adamoli.

Sia l'avv. Bianchi che il prof. Adamoli esplicarono nel miglior modo il loro compito tanto che anche gli stessi Alleati dichiararono più volte la loro piena soddisfazione.

Così stavano le cose circa un mese e mezzo fa, quando a questo C.L.N. giunse per via indiretta notizia dell'arrivo a Genova di un nuovo Questore inviato dal Ministero degli Interni.

Questo C.L.N. provvedeva subito a chiedere delucidazioni al Comando Militare Provinciale Alleato e avuta dalla stessa conferma della notizia provvedeva a far presente il suo disappunto perché, senza averlo previamente consultato e saputo che le circostanze lo richiedessero si era voluto provvedere in tal senso.

Il Comando Provinciale Alleato giustificava la situazione affermando che, avendo il questore avv. Bianchi accennato, in un colloquio intervenuto per altri motivi, che egli non intendeva rimanere in funzione quando, alla partenza del Comando Militare Alleato, fosse subentrata la Amministrazione regia, si è trovato nella necessità di provvedere in tale senso.

Per vedutosi da parte del C.L.N. a interpellare l'avv. Bianchi questi confermava il carattere non ufficiale e definitivo delle dichiarazione da lui emessa e dichiarava che, al riguardo, egli si rinetteva come sempre alla decisione del C.L.N.

Così stendo le cose e avendo fatto questo C.L.N. presente al Comando Alleato che in ogni caso, il provvedimento di sostituzione non poteva essere preso nei confronti del Vice Questore Adamoli, al quale invece il Comando pretendeva di estendere il provvedimento, venne attentamente esaminato e discussa la situazione e, fra il Comando Provinciale Alleato e questo C.L.N. intervenne una intesa in base alla quale rimase stabilito che Questore e Vice Questore sarebbero rimasti in funzione sino al passaggio della regione dal Governo Alleato al Governo Italiano.

Nonostante e contro gli interventi di tale accordo, invece, imprevvisamente, nei giorni scorsi venne comunicato a questo C.L.N. che il Comando Regionale Alleato aveva deciso di provvedere alla sostituzione del Questore e del Vice questore.

Questo C.L.N. a mezzo del suo Presidente, richiedeva l'attenzione di tale Comando sulla insopportunità politica del provvedimento, il quale inoltre era contrario agli accordi già intervenuti. Ma il Comando Regionale prendeva decisamente posizioni in contrario e confermava che non'altro la sostituzione doveva aver luogo immediatamente.

Il C.L.N. Liguria si vedeva allora costretto ad esaminare attentamente la questione e, pur confermandosi nella propria convinzione circa l'assoluta inopportunità del provvedimento decisa tuttavia, al fine di evitare più gravi inconvenienti, di assumere un atteggiamento di non resistenza votando, al riguardo, il seguente ordine del giorno:

"In riferimento alla comunicazione data dall'A.M.G. in Liguria in merito alla sostituzione, per il 5 ottobre p.v.dal Questore e del Vice questore nominati dal C.L.N., con Questore e Vice questore di carriera il C.L.N. si dichiara dolente che il provvedimento sia avvenuto senza il suo parere, anzi contro un accordo precedente, secondo il quale si stabiliva che la sostituzione degli uffici sarebbe avvenuta al momento del passaggio dell'amministrazione degli uffici al Governo italiano.

Il C.L.N. decide al fine di non suscitare disordini o turbamenti nell'opinione pubblica, di non dare nessuna pubblicazione, per il momento, a questa sua posizione; nel medesimo tempo ringrazia il questore Bianchi e il vice questore Adamoli per la loro opera svolta sotto l'egida dei C.L.N. e orientata secondo le direttive del C.L.N."

Come previsto, però, non appena resa pubblica a mezzo della stampa la notizia della sostituzione del questore e vice

u

This directive lays down the policy which will govern the actions of all officers of Allied Military Government in their relations with the Committees of National Liberation (CIL) - "Centro di Liberazione Nazionale" - Italy.

1. CIL's have been organized on a communal, provincial and regional basis throughout German occupied territory. Their activities are co-ordinated by an overall CIL for the whole of the area, known as the CILN - ("Comitato di Liberazione Nazionale Italiana Unita")

Headquarters located from the North show that the various committees of National Liberation have learned a good deal about the fact of government in the neo-fascist regime against the Fascist, and the Germans. In many districts, "shadow" governments have been set up, and the various parties have been distributed amongst the leaders of the different parties. On the whole it seems that for the time being there is a considerable degree of unity of purpose in the Committees, and party differences have been put aside in common desire to expel the Germans from Italy and to punish their fascist collaborators. These Soviets have been selected in their military operations by the administration and the giving of such assistance necessarily implies a degree of recognition of their position.

2. Relations with AMG. - The Supreme Allied Commander has had the order to establish a arrangement with the CILN. He has not given full details to the CILN, but under those military arrangements, the CILN will endeavor to maintain law and order and continue to arrest Soviet communists until such an establishment. The Supreme Commander has agreed that the CILN respects the rights and over to it all authority previously assumed.

3. To reduce all components of the General Council of Italy (GCI) will come under the direct command of the CILN, 45th Army Group, and will obey new orders issued by him (or by AMG on his behalf) including orders to disband and surrender their arms when required to do so. Upon the establishment of AMG, the SCAC first, and later the IC, is supreme and possesses full powers of government, and the CIL has no official standing in the conduct of affairs.

intelligence reports from the South, known as the CSMI - ("Comitato di informazione militare").  
National liberation forces from the North show that the various Committees of  
"Shame" struggle against the fascists, and the Germans. In many districts, in  
distributed amongst the leaders of the different parties, in fact, it has been  
Committees, and party differences have been null in the common desire to oppose the  
Germans from Italy and to punish their fascist collaborators. These Comi-  
tess have been associated in their military operations by the allied approach of  
and the giving of such assistance necessary justly in a degree of respect, in  
their position.

3. Military arrangements with AM. - The Supreme Allied Commander has made his orga-  
nization, but under those military arrangements, the CSMI will endeavor to  
be enlightened. Thereupon CSMI has agreed that the same will recognize the  
US, and its authority previously assumed.

(T.L.) AM gave under the direct command of the CSMI, 15th Army Group, and will  
only my order issued by him (or by AM on his behalf) including orders to do so,  
the SCAC First, and later the SC, upon the establishment of the  
army, and the CSMI has no official standing in the conduct of affairs.

But there are other considerations which should be borne in mind in  
implementing the policy indicated in the above arrangements. It is in the  
interest of the Allies that there should be a stable Government in Italy and  
very positions. The Italian Government in Rome may not have the entire confidence of  
the CSMI in the North and, at best, their influence there may be subject to  
fluctuation. This may be based on record records. There is also reason that  
the North has contributed more generously to the defense of the Germans than  
the South, and has suffered far more heavily for Italy. There is a condition of the  
war progress that may be helpful Government. In the reconstruction of the  
in the solution of the pressing economic problems of food supply and building,  
and above all to the punishment of former fascists. The Italian Government is  
well aware of this antipathy and has an agreement which goes further than that  
of the Supreme Allied Commander in recognizing the CSMI as the representative  
to the struggle in the North. The Government has succeeded in  
certain measure of recognition from the CSMI. In the North, but the possibility  
cannot be overlooked that they, or their component political parties may not  
adhere by this agreement if circumstances when favorable to do so.  
It is hoped that after liberation the new government will be able to  
absorb additional members from the North and thereby become more representative.

institutions of the Italian Government. The recognition of the G.I.M. as the representatives of the Government in the struggle against the enemy does not affect the Allies, who are not parties to the arrangement. Moreover, the Italian Government has no authority of any kind in Military Government Territory. Its arrangements with the G.I.M. are not operative in Military Government Territory and do not affect the relations between the A.M. and the U.S.

The problem facing A.M., therefore, is to reconcile the military arrangements of the Supreme Allied Commander with the aspirations of the political leaders of the G.I.M. to self-government, at the same time supporting the authority of the Italian Government in Rome in order that it may be able to administer the Northern Territories while A.M. is absent. The solution of this problem may well be found to lie in the conclusion at a very early date of G.I.M. accords into the Civil Administration. If Alliance Officers arrive in the North and bluntly inform the G.I.M. that they are welcomed and that they may now disagree and if, after that, G.I.M. and other administrative officers are appointed without the views of C.M. being considered, the administration will be granted and may well be disastrous. The danger of setting up local administrations composed of Italians who are not acceptable to the patriot organisations cannot be over emphasised. A.M. officers are not bound to accept the first suggestions of the G.I.M., who can always be instructed to submit alternative names. It, however, this principle is followed out, many of the problems of maintaining law and order will never arise. It will be easier to exploit the local resources of the country in the work of reconstruction and in the task of educating the population. It will be easier to bring together the former District organisations and the Regional Government, and it will be easier to remove the ground existing to the time when the Government in Rome can take over the administration.

While the foregoing paragraph lays down a principle which is calculated to reconcile the military arrangements of the Supreme Allied Commander with the aspirations of the G.I.M., there are several considerations in regard to the office of Project and Quartermaster.

First, as the official representative of the Government, he is normally appointed by the Government from career officials. Even in the present situation his practice has generally been followed. Similarly the Quartermaster have normally been appointed from Prime Stability personnel by the Central Government. Other appointments, such as the Simoco, etc., are normally local choice. For obvious reasons the Italian Government wishes to continue the customary practice in regard to Project and Quartermaster, and have raised it again very recently. It is the policy of the Allied Command to support the Government and it would be unwise to depart, entirely, from the usual practice. The Italian Government has, therefore, been advised that any specific nominations when they put forward for appointment to the post of Project or Quartermaster by A.M. will receive consideration. At the same time it has been pointed out that it would be quite useless to put any member who is not acceptable in the locality.

Secondly, the powers delegated to the Quartermaster and the Project Officer will not, by this arrangement, lose any of the powers delegated to them in the original Commission.

UDGE THAT THE FRENCH GOVERNMENT IS NOT IN A POSITION TO TAKE OVER THE ADMINISTRATION.

While the protecting arrangement left some principle which is calculated to reconcile the military movements of the Supreme Allies. Considered with the situation in the CMS, there are special considerations in regard to the office

of President and Governor, on the local representatives of the Government, a normally appointed by the Government, even in the present situation, has generally been followed. Similarly the Quisitors have normally been appointed from within the Central Government. Other

appointments, such as the Finance, such, are normally local choice. For various reasons the Italian Government wishes to continue the customary practice in regard to Presidents we Quisitors, and have revised it again very recently. It is the policy of the Allied Commission to support the Government and it would be unwise to depart, entirely, from the natural practice. The Italian Government has, therefore, been advised that any specific nomine whom they put forward for appointment to the post of Protect or Justice by AMG will receive considera-  
tion. At the same time it has been pointed out that it will be quite useless to start any nomine who is not acceptable to the locality.  
AMG, on the other hand, not, by his arrangement, lose any of the powers delegated to him. In other words, in presenting the policy of this Commission, to the Italian Inter, however, in order to obtain local acceptance for the Government nomine, endeavouring to reconcile the views of the IC with those of the Italian Government, this must be the primary object, though the protection will always depend finally on the SQA or RC.

IV. U.S. JUDGEANT OF THE SCQ OR RC.  
The action is, therefore, as follows: On arrival in a town take it seen  
6. Almost certainly that a Protect and Quisitor appointed by AMG will be found in office.  
This will be fully in accord with the agreement between the Supreme Alli-  
ance. This appointment should not be confirmed without  
local Commanders and CINAs, those appointments should be confirmed without  
that the Italian Inter should be consulted separately for the purpose of carrying on  
the project and, in view of the final appointment by AMG, Ministers should then  
be invited from the CIN, to whom it will be necessary to report to the Italian government, CIN  
right to the two Italian Inter to whom other sources, e.g., the  
and other sources. Unfortunately no thought has been given to those two Posts of  
Local Archibishop. The names of Government officials available, and local  
are to be used by this Headquarters as soon as possible to obtain a letter to allow  
such an appointment to be made. The possibility of such a letter being issued can be  
seen. The result will almost not be hurried out at the earliest opportunity can be  
seen. In the first place, the 10-14 days, to allow so that full consultation can be  
had with the Inter before the appointment is made. In reporting a question  
of importance is attached to the professional qualifications of the

ordinances. Small political appointments to this important office should be avoided.

The responsible SDAC or DC will inform this HQ of the following details:

- a) The only offices available are those which are out of store room in service.
- b) The present and future family appointed.
- c) It is suggested that these special circumstances apply only to the CIN's present and future. The Italian Government fully appreciates that our officials are normally local choices and his officers will appoint them which are suited to CIN's advice.

The CIN's must be treated with the courtesy due to their political position and their past labours. They should be received regularly by the HQ and given the opportunity of expressing their views. They are at liberty to make representations to the DC or the Prefect, both of whom should seek the advice and views of the CIN whenever they think it opportune. It is however entirely a matter for the DC to consider whether, in any particular case, the advice of the CIN is to be followed or rejected. It would of course be in keeping with this directive to accept such advice except where it is in conflict with the Policy of HQ.

10. It should be added that, when a member of a CIN is appointed to an administrative position, it is better that he should resign from the CIN. There may be occasions to this in individual cases and it is left to the discretion of the DC concerned. It is most desirable, however, that holders of administrative positions should be entirely divorced from the policies of the CIN.

11. It must be made plain to the Prefect and to other officials that they are the servants of HQ and owe no duties from the CIN. On the other hand, the HQ must give him full support in the conduct and the official administration. If he no longer has confidence in his officials, the DC should take steps to remove them. The CIN must not exercise executive functions or usurp the authority of the Prefect, e.g. by issuing ordinances or setting up commissions of enquiry. If, after they have been duly warned or ordered to desist, the CIN persists in attempting to be executive or otherwise violates the orders of the Supreme Allied Commander-in-Chief, then, as far as last resort, the CIN may ignore them completely. Such a situation is to be avoided and in case of absolute necessity, when all efforts to settle the matter failed and continuation is at a deadlock,

12. It should be added that in parts of German Occupied Territory, where the existing government is slight, the CINs have set up governing bodies in each commune, which has its own local system of universal suffrage. Such popularly elected bodies are older than the other levels. These bodies will not be given official recognition. The CIN's local authorities prohibited by former directives will be established as soon as possible. But every effort will be made to absorb into the membership of the official authorities the members of such an elected body at the same time. If in very special circumstances in former areas, the unofficial body is allowed to continue for a short time, it must be instructed that it derives its authority from HQ and not from popular mandate.
