MINISTRY OF INTERIOR

PRESS COMMUNICATION

The Allies make notice that the strict discipline prescribed in rationing fuel is systematically trespassed by users of vehicles, besides the working hours for which it has been assigned.

Notice is made also that on holidays a great number of vehicles were used for sea-side or country resorts. This fact bears that fuel is either stolen by the employees or bought at the black market.

The economic and moral prejudice owing to this fact is obvious.

That is why the Ministry of Interior has taken disposition for strict control on vehicles and will retire any license from those using vehicles out of the bounds of their authority.

People circulating on holidays are, evidently in a/m case except in cases of obvious necessity.

The licenses will also be retired from vehicles not placing their circulating permits in front of the car.

Vehicles without circulating permits will be requisitioned.

E' stato oggetto di rilievo da parte degli Alleati il fatto che la rigorosa disciplina del razionamento del carburante venga sistematicamente violata da utenti di autoveicoli che di questi fanno uso all'infuori dell'attività di impiego per la quale soltanto il carburante è assegnato.

E' stato altresì più volte rilevato, specialmente nei giorni festivi, largo impiego di autoveicoli per l'accesso a luoghi o a ritrovi di svago.

Cosicchè è da ritenere o che siavi distrazione di carburante dall'impiego consentito o che il carburante abusivamente usato sia di illecita provenienza.

Evidente è il pregiudizio economico ed anche morale che deriva, dai fatti lamentati, agli interessi nazionali.

Eppertanto il Ministero dell'Interno ha disposto che la Polizia eserciti rigorosa vigilanza e senz'altro ritiri la licenza di circolazione a tutti coloro che siano colti nell'impiego di autoveicoli fuori dei limiti della rispettiva autorizzazione.

Questa ipotesi è concretata senz'altro nel fatto di chi il giorno festivo circoli senza evidente imprescindibile necessità.

Sarà altresì ritirata la licenza relativa a veicoli che non portano in evidenza esposto il permesso di circolazione.

Riot still continued yesterday amongst the detainees at Regina Coeli. At about 1300hrs, two thousand four hundred detainees launched themselves in mass against the gates of the prison.

They were fired upon by the carabinieri and agents. Three detainees were slightly wounded.

In the meantime the political detainees were removed by the personnel of the prison and placed in the infirmary for safety.

An underground tunnel made by the detainees was discovered by the agents. This tunnel was to open out in Via San Francesco di Sales, to allow the detainees to escape. They were however warned by the carabinieri that if they tried to escape by this tunnel they would be fired upon by the police agents who were waiting on the other side. This made them even more furious and so they vented their feelings by throwing stones and any kind of missiles they found in their way against the agents and carabinieri, obliging them to retreat. For precaution the agents climbed on to the roofs of the prison so as to avoid any prisoner escaping from there.

In the meantime the General Director of the Institute, Com. Volpi, made a statement to our reporter, in which he declared that the revolt had been started by the Fascistians of Via Faraggi, tending to obtain the freedom of all the common detainees.

This revolt was due to the over-crowding of the prison which is holding over 3000 detainees. Com. Volpi stated that the Under-Secretary of Justice, Dr. VERONI had left for Milan in order to clear up the situation there. Even the Prison of San Vittore in Milan was in continuous revolt.

As the reporter was talking to Com. Volpi, a strong smell of gun was detected. The detainees had set fire to a section of the prison. The carabinieri were therefore forced not only

For precaution the agents climbed on to the roofs of the prison so as to avoid any prisoner escaping from there. In the meanwhile the General Director of the Institute, Comm. This revolt was due to the over-crowding of the prison which is holding over 3000 detainees. Comm. VOLPI stated that the Undersecretary of Justice, Dr. VEROLI had left for Milan in order to clear up the situation there. Even the Prison of San Vittore in Milan was in continuous revolt. As the reporter was talking to Comm. VOLPI, a strong smell of burn was detected. The detainees had set fire to a section of the prison. The carabinieri were therefore forced not only to guard the prison gates but to save some of the prisoners who risked the peril of being burnt.

The flames consumed a flat-top round one of the sections, which yesterday at 2300hrs, fell down into the entrance of many sections. Many of the detainees were wounded and had to be taken to the hospital of Santa Spirito.

After 2300 hrs. when things were still calm, 491.00hrs spread about another group of rebels were attempting to fire to the third section. This was however frustrated by the agents but intensified soon the detainees who set fire to the addresses surrounding the compound.

Any however have now given themselves up to the F.B. oficers; many others are still obstinate. Our correspondent FRABELLI has stated that Comm. VOLPI has answered that if they do not surrender they will be starved until they do.

The firing by the F.B. continued during the night. About 2300hrs. they fired against a group of detainees who were throwing roof tiles at the F.B. agents. The bullet entered

of cell of the third Section, wounding seriously a political detainee, whom it seems is a well known Teleoperator in Piaz-za Esqdra. He later died.

We must remember what THINI said on the 30 May last to the reporter, when another minor revolt occurred: that a concentration camp on an island should be made ready for the rioters and keep them there until they behave themselves. The camp was ready at that time. What are they waiting for?

HOW THE WAR AGAINST JAPAN WAS PREPARED

The Giornale del Mattino has interviewed M. De Gasperi on some questions reflecting upon the new war against Japan. The a/m Newspaper writes:

"The Eminent man of State, in his appassionate words, has made us see how this new page which opens upon the destiny of Italy is the conclusion of an intense work interwoven by the Italian diplomacy through all the Ambassadors amongst whom in a particular way Torchiani, who in the United States was able to enjoy the very sensible support of all the Americans of Italian origin."

It would seem to you my dear readers, that it is a simple thing to say to the United States Government and to the China Government, chiefly the interested parties in the war against Japan: - Do you want us to help you? We have little forces but anything will do. In any case our fleet has still a notable efficiency. Our pilots, if furnished with good equipment are amongst the best known in the world. And as we have a big population who are dying of hunger it will not be difficult to find volunteers who would fight with you in the Far East.

- At which conditions? - Without conditions. Italy, we know is the chief emissary of the International Fascism. We must expiate for a long time, this to deserve a small place in Heaven.

It results from Ciano's diary that Chamberlian sent his speeches to Mussolini to have them corrected before pronouncing them at the House of Lords. In the ears of the Italians there is still the sound of the praises that Churchill made on the Italian Fascism and of their Duce. The majority of the French political men - even democratic - had Mussolini in their hat. Even Switzerland used to expell systematically all the anti-fascists.

Yet even the Americans joked. There was certainly much more fascism in the Italo-American colony than in Italy.

... was exact... few exceptions

In the ears of the Italians there is still the sound of the praises that Churchill made on the Italian Fascism and of their Duce. The majority of the French political men - even democratic - had Mussolini in their hat. Even Switzerland used to expell systematically all the anti-fascists.

Not even the Americans joked. There was certainly much more fascism in the Italo-American colony than in Italy. Every Italo-American political man except a few exceptions has a fascist "Record" and this came about because the opinion of the middle class Americans were in favour of "The Saviour of Italy from Bolscevism".

During the Ethiopian war the women of Italy, if they could gave the fascist state false wedding rings or gave nothing at all. In America the collection of gold for Mussolini was intense. The collection of iron for Italy, violating the same law of embargo which in any case hit in a special way Ethiopia, gave unexpected results.

Everybody judged, as well as Deboni, that the "Italian Society has re-gained force and courage" with Fascism. And the exiled anti-fascists were simply tolerated.

But hereafter it is clear that we our selves are the only ones responsible for fascism, therefore we have to expiate. Expiate with voluptuousness. Put ourselves under God's punishment with that sort of pleasure that those who are to be hanged or who are to be flagellated to become saints say to prove.

For the reason our Government has perspired seven shirts in order to have our soldiers admitted to the honour and pleasure to die in Japan without conditions. There is certainly a hope in our ministries hearts. The hope that our dead in the East expedite the hour of the Grand Liberation. In the mean time lets pay and then we will see. We hope that no one will doubt of Mr. De Casperi's deep Cristianism and heroic sentiments.

All the Nation is crucified, and accepts it with happiness to redeem the world from fascist sin.
 - Will you permit us, if it does not cause much disturbance to sie for you? You think it wasn't easy. To have obtained it was a grand success of our diplomacy; success that gives some kind of excitement to our foreign Ministry and to his Ambassadors.

The reater whb is British, rather cold and does not understand our flagellant exaltation, stated yesterday:
 "Today Italy is in war with Japan. The importance of this is in the fact that Italy's collaboration with the Allied is un-conditional."

It has been attempted to subordinate Italy to the cession of the "status" of Allied, but the Italian Government has at last understood that the chief expiatories do not give conditions, they kill themselves in the temple and wait God's grace.

In order to give an idea of the Government's difficulties we re-produce the following article of Drew Pearson of the New York Progress of the 15th June:

"W. E. Alberto Tarchiani, Ambassador of Italy, recently proposed to the State Department that Italy would declare war to Japan, as today your correspondent has learned from the Highest Authority.

Tarchiani uncovered all his documents on the State Department's desk, declaring that Italy was disposed to line up in all & for all with the United States and Great Britain in the war against Japan.

He declared that Italy would be glad to furnish troops for the Pacific war and relieved all the ardent co-operation rendered by many Italian prisoners in America.

He stated that if Italy could have received a reasonable tonnage of ships and equipment for its troops Italy would

has at last understood that the case

In order to give an idea of the Government's difficulties
we re-produce the following article of Drew Pearson of the
New York Progress of the 15th June:

"Mr. Alberto Tarchiani, Ambassador of Italy, recently pro-
ceeded to the State Department that Italy would declare war
to Japan, as today your correspondent has learned from the
Highest Authority.

Tarchiani uncovered all his documents on the State
Department's desk, declaring that Italy was disposed to
line up in all & for all with the United States and Great

He declared that Italy would be glad to furnish troops
for the Pacific war and relieved all the ardent co-operation
rendered by many Italian prisoners in America.

He stated that if Italy could have received a reasonable
tonnage of ships and equipment for its troops Italy would
have been very happy to take place with the United Nations
for the whole duration of the War against Japan. 1940

Although the State Department Officials were pleased to
of the offer Tarchiani made, they thought it advisable to
confer with the British Authorities, who, as it is noted,
do not demonstrate to be very enthusiastic about Italy's
proposal.

At last Tarchiani was informed that the British and
American Governments, after consultation, that they would
be glad to approve an Italian declaration of War against
Japan, old Mussolini's associate in the case.

In any case the American and British were not disposed
to accept any of the other requests. In other words they
were not ready to furnish the transportation and equipments
to complete and Italian Force and transport it to the Pacific.
The ambassador Tarchiani was thanked, but did not receive

any further encouragements. Now it is to be seen what the Italian Government will do in these circumstances. What the Italian Government did has been seen. He has offered without conditions.

The "Press Italy of New York" commenting on Pearson's article, relieves bitterly: "It is useless to remember the dignity to persons who have totally thrown away their personal and National dignity. In the tragedy of Shakespeare Antonio it is shown to the Roman people the wounds on Cesare's body. In the "Savoiards" comedy, the Ambassador shows the kick Italy had because Churchill and Eden are still continuing".

None of us would have risked the life of an Italian Sailor taking a chance which can also exhaust. The Government risks and now that the thing has been already done (the Italian Democratic population has been informed of the new war through the newspaper) nothing else remains than to wish from the bottom of our hearts that the "three big men" will appreciate the voluntary expiatory sacrifice of a finished nation.

4. The former, was suspended from his position as Capo dell'Ufficio Speciale by the Provincial Commissioner on 7 June '45, the latter was removed from his position as Capo Gabinetto, an appointment of the former Questore only, to a Commissariato in the town, from which he has since absented himself on account of 'sickness'.

L'A.M.G. a Bologna

Abbiamo già segnalato in questo giornale l'intenzione delle Autorità Alleate di permettere la pubblicazione dei quotidiani Il Resto del Carlino e L'Avvenire d'Italia, già noti nel periodo fascista.

Ora ci viene segnalato da Bologna un fatto ancora più grave: l'avv. Trauzzi, del Partito d'Azione, già designato dal C.L.N. di Bologna alla carica di Questore, è stato rimosso da questa carica per provvedimento del Governatore militare alleato della città.

È stato chiamato a sostituirlo il dott. Iantaffi, Ispettore Generale di P. S., già collocato a riposo ed ora richiamato in servizio. Iantaffi è uno dei numerosi funzionari di polizia che avevano fatto carriera nell'amministrazione della polizia fascista; egli fu per parecchio tempo Ispettore generale per i servizi di censura postale.

Oggi, uomini di questo passato vengono sostituiti dagli Alleati e uomini politici di riconosciuta probità e benemerita patriottica, designati dal C.L.N.

Naturalmente, tanto per cominciare, il dott. Iantaffi ha cominciato col liberare dal carcere, dove erano stati cacciati ai primi di maggio, tutti i componenti l'Opera locale, riammettendoli in servizio.

Ben undici funzionari, quattro impiegati e cinquantasei agenti dovevano essere sospesi dal servizio in attesa del giudizio definitivo della Commissione provinciale per l'epurazione. L'epurazione in Questura era stata effettuata in seguito a determinazione di una commissione regolarmente costituita dall'allora Questore Trauzzi, il provvedimento dell'allontanamento dal servizio era stato adottato prima del 5 giugno e perciò, secondo le direttive del Governo Militare Alleato, di piena efficacia giuridica. Iantaffi si è affrettato invece a sostenere il provvedimento illegale.

Non vogliamo fare altri nomi per ora, di funzionari fascisti rimasti al loro posto a Bologna, né vogliamo dare altri esempi di questo genere, convinti che questo esempio basterà per richiamare l'attenzione del Governo Militare Alleato sull'impressione penosa creata da questo stato di cose a Bologna.

THE A.M.G. IN BOLOGNA.

We have already notified in this newspaper the intention of the Allied Authorities to allow the publication of the daily papers "Il Resto del Carlino" and "L'Avvenire d'Italia" already famous in the passed period.

Now we have received news from Bologna of a much more serious event: Avv. Trauzzi of the Action Party, already appointed Questore of Bologna by the C.L.N., has been removed from his office by the A.M.G. of Bologna.

In his place Dott. Jantaffi has taken the office of Questore. He was General Inspector of P.S. in retire ment, but has now returned to service.

Jantaffi is one of the numerous P.S. Officers who had made their career in the fascist police administration. He was for several years General Inspector in Censor Service.

Today, men with this past are placed by the Allies in the place of political men, well-known for their honesty and patriotic merits, and who had been named by C.L.N.

Naturally, to begin with, Dott. Jantaffi has begun by releasing from the prisons, where they had been thrown at the beginning of May, all the components of the local O.V.R.A. and putting them back into service.

Eleven officers, four clerks and 56 agents were to be suspended from service awaiting the final judgement by Provincial Commission of Epuration. Epuration in the Questura was effected after decisions taken in a regular ly formed commission set up by the then Questore Trauzzi. The disciplinary measures to send these men away were taken before June 5th '45 and therefore according to AMG orders, of full juridic efficaciousness.

Jantaffi instead hastened to show that these discipli-nary measures were illegal. We do not want to mention other names for the moment, of fascist police officers, who have remained in their offices at Bologna, nor do we wish to give other examples of this kind, convinced that this example will be enough to attract the attention of A.M.G. on the painful impression created by this state of affairs in Bologna. -

Nel No 73 dell'"Italia Libera" Edizione di Milano in data martedì 3 Luglio, I^a pagina, 8^a Colonna in un trafiletto intitolato "Fascisti nella Questura di Bologna" mi si accusa di filofascismo, anzi; addirittura di essere fascista e si accenna, falsandolo il mio passato.

Si dice, infatti, che io, già collocato a riposo, sono stato poi richiamato. Verissimo: ma non si dice che pur essendo il più giovane degli Ispettori Generali e, pur non avendo avuto nè limiti di servizio nè quelli di età, fui il primo ad essere collocato a riposo dallo pseudo governo repubblicano al quale erano noti i miei sentimenti, e la mia attività. Si dice poi, che io dirigevo il servizio di censura postale politica e che in tale qualità mi segnalai per provvedimenti a carico di supposti antifascisti. A parte che detto servizio era diretto dal Capo della Divisione politica polizia al Ministero, io come Ispettore Generale, ebbi fra gli altri, a guerra inoltrata, anche l'incarico di sorvegliare tale servizio di censura. Ma anche qui portai il mio spirito di non fascista proponendo ed attuando la radiazione dall'elenco dei censurati di migliaia di co migliaia di nominativi.

E' superfluo che si dica che essebdo periodo di guerra e praticandosi quindi la censura totale della corrispondenza, nessuno era così ingenuo di affidare segreti conspirativi alla posta. E pertanto, non un caso, dico non un caso da perseguire si presentò in quel periodo.

A Bologna si occupava di tale servizio il Commissario Murolo Umberto del quale molti antifascisti bolognesi hanno conosciuto i sistemi dato che dirigeva anche l'ufficio politico e che io dovetti richiamare più volte perchè non aveva ottenuto con la sollecitudine da me richiesta all'ordine di deponere dall'elenco dei censurandi i nominativi da me indicati. Verissimo: ma non si dice che pur essendo il più giovane degli Ispettori Generali e, pur non avendo avuto nè limiti di servizio nè quelli di età, fui il primo ad essere collocato a riposo dallo psuclo Governo repubblicano al quale erano noti i serissimi sentimenti, e la mia attività. Si dice poi, che io dirigeva il servizio di censura postale politica e che in tale qualità mi segnalai per provvedimenti a carico di supposti antifascisti. A parte che detto servizio era diretto dal Capo della Divisione politica polizia al Ministero, io come Ispettore di sorvegliare tale servizio di censura inoltrata, anche l'incarico di sorvegliare tale servizio di censura. Si dice infine che io mi sa rei segnalato per i miei provvedimenti a carico di supposti antifascisti. Ora io sfido chiunque a segnalarmi un solo nome, dico ~~uno~~ solo nome durante tutto il ventennio fascista di un oppositore di regime che abbia avuto da me tolto un capello, cioè abbia patito per causa mia il minimo provvedimento di polizia.

Io sono viceversa in grado di segnalare numerosissimi antifascisti da me aiutati. Mi limiterò a dire che ebbi il coraggio d'intervenire come teste a difesa nel famoso processo Zaniboni e che feci revocare l'ordine dato dal Ministero dell'Interno d'inviare al confino il Senatore Benarelli, noto oppositore. Quanto agli altri addebiti è noto all'E.V. che le sospensioni date ai funzionari di P. S. non erano legali nè erano scritte da rancori.

(2)

Esse non furono nemmeno notificate agli interessati anche perchè non ratificate dal Governo Alleato. D'altra parte io fui costretto a proporre il richiamo di quattro funzionari per l'impossibilità che avevo di mandare avanti la Questura e provi ordini del Commissario Provinciale della Polizia Alleata Maggiore Ray e consensi dell'E.V. Debbo, poi, far presente che il Commissario Andreazzi non fu mai, di fatto, allontanato dal servizio come non lo fu il Commissario Galeotti; che lo stesso Andreazzi non è squadrista essendo nato nel 1906, e non è seniore della m;v;s;n;

Per quanto riguarda i cosiddetti appartenenti all'O.V.P.A. si tratta di una ventina di individui, tutti agenti, meno un funzionario che facevano parte dell'ispettorato politico istituito dal Governo Badoglio dopo il 25 Luglio 1943. Detti individui si trovavano nelle carceri a disposizione del C.I.C. (Maggiore Ray) il quale dopo avermi interpellato se io avessi motivo di oppormi al loro rilascio dispose l'escarcerazione. Essi però non sono stati riarmati in servizio ma avviati a Roma a disposizione del Ministero e in attesa dei provvedimenti che il loro confronto potrà prendere l'Alto Commissario per la punizione dei delitti fascisti il solo competente.

Ciò premesso, non posso non far presente che, non una situazione simile, il mio compito già assai arduo, diventa sempre più gravoso. Del resto è noto anche all'E.V. che io ho assunto la direzione della Questura di Bologna in obbedienza agli ordini del Ministero, ma contro ogni mio desiderio.

R. QUESTURA BOLOGNA

Bologna, July 7th 1945

Subject: Attach against the Questere Gr. Uff. Dott. Jantaffi Michele

published in the Italia Libera of Milan

To : His Excellency the Prefetto
and Prev. Comm. Allied Police (Major WAY)

In No. 73 "Italia Libera" Milan edition, dated July 3rd, 1st page, 8th column in a paragraph entitled "Fascist in the Questura of Bologna", they accuse me of being pro-fascist, in fact that I am a fascist and they mention, falsing about my past.

They say, in fact, that I, already on the retired list have been called back to service. Quite true but they do not mention that I, although I was the youngest of the General Inspectors, and although I had not reached the limits of service or those of age, I was the first to be put on the retired list by the pseudo republican government, who had knowledge of any sentiments and of my activity.

They also say, that I directed the political censor service, and that in this office I made myself known for disciplinary measures against supposed antifascists. A part, that this service was directed by the Chief of the Political Police Division at the Ministry, I as General Inspector, had also between other things, some time after the war had begun, the appointment to supervise this censor service. But also here I brought my spirit of non fascist, by proposing and succeeding in having thousands of names, I say thousands of names crossed off the censor list. It is superfluous to say, that being in war time, and that therefore all feet being censored, no one was so stupid as to trust conspirator secrets to the post. And in fact not one case, I repeat not one case of such secrets ever were found.

At Bologna, who was encharged of this service was Commissario Umberto Mucio, whose systems, many anti-fascists, of Bologna knew well, because he also directed the political office, and I had to recall him several times, because he had not cancelled the names I had told him to, from the censor list. And finally they say that I marked myself for my disciplinary measures against supposed anti-fascists. Now, I defy anyone to give me only one name, I say only one name, during all the twenty years of fascism, of an opposer of the regime, who had one hair twisted by one, nameely who has in the least suffered for any disciplinary measure taken by me against them.

Instead I am able to give names of very many anti-fascist helped by myself? I limit myself to say that I had the courage to intervene as witness, in defence, in the famous case of Zaniboni, and I revoked the order given by the Ministry of Interior to send Senator

Instead I am able to give names of very many anti-fascist helped by myself. I limit myself to say that I had the courage to intervene as witness, in defence, in the famous case of Zaniboni, and I revealed the order given by the Ministry of Interior to send Senator SANARELLI to the confino, he was a well known opposer. As to the suspension charged against me, it is known by your excellency, that the suspension given to the officers of P.S. were not legal, nor were they without rancour. They were not even notified to the persons interested, also because they were not authorised by Allied Government; On the other hand I was obliged to propose the calling back into service of four officers, because otherwise the Questura could not function, but before doing this I was authorized to do so by Provincial Commissioner of Allied Police Major WAX, and I also had the consent of your excellency.

I must also make clear that Commissario Andreassi was never of fact, sent away from service, and the same thing is to be said of Commissario Galotta. Andreassi is not a squadrista, as he was born in 1908, and he is not Seniore of M.V.S.N. In regards to those who were said to belong to the O.V.R.A. they are about twenty individuals

all agents, except one officer who was on the staff in the political inspector's office set up by the Badoglio Government after July 25th-1943.

These individuals were in the prisons at disposal of C. I. ~~(Name)~~, who after having asked me if I had anything contrary to their release, ordered them to be left out. They have not been put back into service but they have been sent to Rome at disposal of the Ministry, and awaiting such measures, as may be taken against them, by Chief Commissario, who is the only competent person in fascist crimes.

With this, I must make present that with a situation of this kind, my work which is already very difficult, because evermore so.

On the other hand, your Excellency knows, that I took in charge the direction of Bologna Questure in obedience to the Ministry, but against my wish.

The prosecution against five Partisans of CRESCENZAGO (Province of Milano) charged with detainment of arms and ammunitions, has started in Milano. Owing to some incidents caused by the crowd, who broke through two heavy doors, American troops have garrisoned the Law Courts.

The prosecution has raised great interest as it is the first time that an order issued by the Allies to render up all arms was disobeyed.

The situation in Andria and Vineryno Murge is growing more serious. The Italian Authorities are unable to control the zone. The real rulers of the situation are the rioters who are controlling the roads to Andria.

The rioters are very well armed and organized. On the proceedings of the riot it is known that the Carabinieri who were on the traces of a band of criminals who were infesting all the zone of Vineryno Murge and Andria. Twenty days ago they plundered a train. The carabinieri began to arrest some of the more suspected, about fifteen criminals, among whom were some deserters. A demonstration was held in the village against the Carabinieri. One man was killed and another wounded, a Carabinieri was also wounded.

Reinforcements were called from Bari, Reggio and Andria, but the rioters (armed also with a small gun) repelled the assault of the police. The "Italia Nuova" is pointing out that KEHBI is solidly with these criminals and publishes part of a telegram sent by the Socialist Party at BARI to KEHBI. (From "Il Momento" 28th June)
