1. The Ministry of Grace and Justice is again being notified that approval of HQ AMG of the Region concerned must be obtained before any changes can be made in the staff personnel of prisons. Said Ministry knows that this is standard procedure in all AMG territory and, further, that direct attempts to make transfers or appointments will be accepted or refused at the discretion of the Allied authority concerned.

1. Every effort is being made to ensure some efficiency in the administration of St. Vittore Prison and the control of the prisoners.

2. It was found that too many people were trying to run the place. The Director was a sick man and was ineffective. Several other persons with obscure positions were giving various decisions and no useful results were being obtained.

3. This Division accordingly agreed to Sig. Tonini being appointed as temporary director and that he was to be allowed to do his job without ~~entire~~ ^{undue} interference. Better results were thus obtained.

4. It is now learnt that directions are being issued from Rome that will effect further changes and it is being suggested that the Director of Varese will be transferred to Milan. The prisoners have heard of this suggestion and they approve.

SUBJECT: Situation of the San Vittore Prisons.

11/20/10
er

The Allied Commission and Ministry has been notified of the abnormal conditions of St. Vittore prisons.

After the insurrection in 25-4-45 the fascist directorship was substituted by another issued from the National Liberation Committee. Difficulties arose as this new director was not of the job but the overcrowding, disorganization of the services, determined a new charge.

As Director was appointed Fr. Casalta with Pietro Ardisson as Gen. Inspector, but this appointment didn't change much the situation as it became more and more dangerous for want of discipline with the prisoners and for the need of more warders to enforce the jail regulations. This strenuous duty and responsibility caused the health of both men a break down.

The first to try to clear off was Ardisson and presently is the turn of director Casalta.

If Allied Authorities permit, there is in view to place again as director of the jail the same N.L. Committee even if only temporarily.

Meantime the personnel will be increased and the prison will receive special care after the clearing of some inmates to another which might be probably the military jail at Pizzighettone (Cremona) now I beg the superior Ministry:

1) to provide for a secretary on career for the administrative correspondence to direction jail St. Vittore, presently disengaged by non-technical personnel.

2) To place also at the disposal of this prison the a/m at Pizzighettone.

TO : A.C. Public Safety S.C.

Dr. Salvatore AURIEMMA, a Councillor of the Court of Appeal attached to this Ministry, lately called on Milan Prisons which, as the other Penal Institutes in Lombardia are presently in need of prison guards. to cover such lack and complying with a request by Cpt. DALAY (of the R.C. Lombardia Region), Dr. Auriemma authorised a new enrollment of Prison Guards for Lombardia.

The dispositions given by Dr. Auriemma are confirmed by this Ministry. Owing to the necessity of making services available the a/m enrollment will take place as soon as possible in accordance with service exigencies.

Referring to the a/m it is deemed necessary that the Prison Guard attend an accelerated training course. If Cap. Daley has nothing on the contrary, we should appoint the following:

- Dr. ARDISON, Director of Milan Prisons for teaching rules and regulations concerning the Prisons and the Corps;
- A magistrate, designed by the Attorney General, to teach all indispensable notions referring to laws and legal proceedings;
- An officer for military training.

Thus we beg the Attorney General and the Direction of Milan Prisons to get in touch as soon as possible with Cpt. Daley in order to come to an agreement regards all measures required to make both the enrollment and the course a success.

This Ministry trusts that owing to Cpt. Dalay 's initiative and the co-operation of the Attorney General and the Prisons Direction, it will be possible to fill the a/m lack of personnel.

SUBJECT : Prison Guards.

TO : A/AFSC Lombardia Region.

Ref. your PS/9.1 dated 23 July 1945.

1. This Sub Commission is aware of the difficulties coincident with shortages of guard personnel thruout the Northern Regions and has made this subject the object of extensive efforts with the Ministry of Grace and Justice. Recourse to the files of Capt. Daley, Prison officer, will acquaint you with the salient points of our efforts over an extended period of time.
2. Shortage of guard personnel is not only characteristic of the Regions under AMG control, but of almost every prison in Italian Government territory as well. Political and economic considerations peculiar to AMG territory have made your problems a bit more acute than thruout the South, but the degrees of shortages and resultant difficulties are quite similar.
3. Efforts by the Ministry to recruit new personnel have met with but partial success, and parallel the results of attempts by AMG Prison officers to institute a recruiting program in the Northern areas. To the extent that it is possible the Ministry has sent, and is sending, guard personnel into the North. The latest result of this program is embodied in our AC/14201/10/PS dated 25 July 45, which you should have in file, and is a direct result of the stated views of

- 2 -

this Sub-Commission as expressed to the Ministry
in our AC/14211/11/PS, dated 13 June 1945, (attached).

4. It is also suggested that you refer to
our AC/14201/10/PS, dated 26 May 1945, which should
also be in your prison files. This Sub-Commission
has not received comments, as suggested in Par.2,
relating to the adverse effect on prison administra-
tion caused by low salary schedules, but this matter
has since been taken up by Labor Sub-Commission and
your Regional Finance officer is in possession of
the new regulations which provide for significant
up-grading of salaries for all state employees.

1. The prison situation generally throughout the Region is far from satisfactory although extremely good work has been done in view of the existing facilities.

2. The guard position is, however, quite serious.

3. Career personnel are limited in numbers and are uncertain and somewhat apprehensive in the discharge of their duties.

4. The majority of guards are ex-partigiani. Some of them are of good type and are working well. They all, however, lack training and experience and unfortunately many of them have not a rigid sense of duty and have divided loyalties. Too many are subject to influence by their former partigiani or political leaders.

5. Efforts have been made to institute training schools and to recruit suitable personnel with, however, only moderate success.

6. Unfortunately the scale of pay and general condition of service do not encourage the right type of men.

7. As with the Questura there are not sufficient firm and reliable trained career men to form the framework upon which to build the guard organisation.

3034

-2-

8. It has been necessary in some cases to employ Carabinieri as prison Guards. This is not part of their duty and they are urgently required for their normal work.

9. A nucleus of trained men is urgently required for all the principal prisons with an assurance that in the near future trained personnel will be available to take over all prison duties.

10. Provided the question of wages in the North is satisfactorily settled, doubtless suitable personnel would be available as and when trained personnel are released.

11. At the present time it is necessary to employ men in the towns in which they are normally resident and this obviously has many disadvantages and is not normally allowed.

12. May this Office be informed if there is any such scheme in being in the South and if so when results may be expected please, in order that the future local plans may be determined.

del 13.6.1945

Oggetto: Personale di custodia per la regione
Lombarda.

In relazione al foglio sopra segnato, del quale si prende atto, si comunica a codesta Onorevole Commissione che la grave deficienza numerica del personale di custodia addetto ai vari stabilimenti carcerari esistenti nel territorio Amministrato dal Governo Italiano, ostacola, in maniera sensibile, la realizzazione del desiderio di questo Ministero di inviare al Nord agenti e sottufficiali.

Ad ogni modo, sacrificando anche impellenti necessità di servizio, allo scopo di venire incontro alle necessità prospettate con la nota alla quale si risponde, si è telegraficamente disposto l'invio alle carceri di Milano di 8 sottufficiali, provenienti da quelle di Firenze, Pistoia, San Gimignano e Volterra, nonché di tre agenti trasferiti alla detta sede da quest'ultimo istituto, salvo agli organi competenti dall'A.M.G. di dislocare il detto personale negli sta

bilimenti del Lombardo Veneto a seconda delle necessità.

Nei limiti del possibile, questo Dicastero non mancherà, come non ha mancato, di dare intera la sua cooperazione, facendo anche sforzi superiori alle attuali disponibilità del personale, pur di assecondare la richiesta di codesta Commissione.

SUBJECT : Guard Personnel for Lombardia Region.

TO : Ministry of Grace and Justice
attn: Sig. Volpe.

1. This Sub-Commission is in receipt of your communication N. 85220-15-C, dated 1 June 1945, in reply to our letter AC/14201/10/PS, dated 25 May 1945, on the subject of supplying prison guards for Lombardia Region. 9A 13A

2. In view of the position taken by your Ministry that it would be necessary for guards recruited by AMG prison officers to file regular applications with their Direction before their employment would be acceptable to the Ministry, the following is forwarded for your information and guidance.

(a) The prisons in the Northern regions are overcrowded and understaffed to a greater degree than in any other part of Italy.

(b) The immediate success of any recruiting program is absolutely essential in order to provide guard personnel at the most critical period in the history of the prisons of the North.

(c) Technical requirements, characteristic of Italian practices during normal times, cannot be permitted to hinder the essential aim of obtaining guards quickly and in sufficient numbers.

(d) Such provisions, mentioned in your communication, as "starting salaries" as "apprentices", irrespective of the position held, age restrictions between those of 20 and 26 years, and height limits of not more than 1.60 metres cannot, and will not, be given consideration when an applicant satisfies more essential qualifications. Neither will his married or unmarried status be considered if he is willing to accept the position offered him.

3026
All such appointments, of course, are temporary in nature and your Ministry assumes full jurisdiction when the Northern regions revert to Italian Government control.

- 2 -

(e) While hostilities have ceased, a state of emergency still exists. AMG public safety officers in the North must be accorded, and will exercise, full freedom of action in the selection of guard personnel for their areas. This is especially true in view of the admitted inability of your Ministry to supply guards that have been urgently requested.

(f) To the extent that your Ministry finds it possible to send guards into the North, and particularly into Lombardia and Venezia Regions, they will help solve a serious situation. This Sub-Commission will render all possible assistance in such a program and it is requested that your best efforts be expended to supply the need for this personnel. It is particularly necessary that experienced non-commissioned officers be sent into Lombardia and Venezia Regions to insure efficient supervision over such personnel as may be recruited by AMG officers, or sent by your Ministry into those areas.

(g) It is emphasized that immediate cooperation on the part of your Ministry is necessary in the solution of the prison situation in the North. This Sub-Commission will appreciate an expression of the sentiments and proposals of the Minister of Grace and Justice at the earliest opportunity.

Reply to AC/14201/10/PS dated 25/5/45

Subject : Prison guard personnel for the Lombardia Region.

To : A.C. P.S. S/C.

Ref. to a/m letter and in continuation of to-day's telephonical conversation with the Office, it is communicated that the 50 prison guards necessary for the prison service of the Lombardia Region, could be enrolled on the spot by the competent A.M.C. Offices.

These enrollments, however, not taking place according to the usual methods, have to be considered as temporary. Therefore those who will be assumed into service will be considered "apprentices" and will receive the starting salary.

Nevertheless, in order to settle, within the shortest possible time, the position of these men, it is necessary that they file a regular application for enrollment, on stamped paper (L.12), to the Direction, at which they are employed, enclosing the following documents, legalised according to the law:

1. Birth certificate (age not over 28 and not under 20, exception made of the increases fixed by the dispositions in force);
2. Call-up or discharge certificate;
3. Italian citizenship certificate;
4. Medical certificate, from which it appears that the applicant is in good health and without physical defects, not less than 1,60 height;
5. certificate of the 5th primary class;
6. Penal certificate;
7. Good conduct certificate issued by the Mayor of his last residence;
8. Certificate showing him to be unmarried.

The above applications together with the necessary documents have to be transmitted, as soon as possible, to this Ministry which, after investigation by the Attorney of the Kingdom of the district in which the applicant resides, will arrange his regular enrollment, effective from the date of his appointment as temporary prison guard.

Besides which, we inform you that 4 NCCs, whose names will be furnished are being transferred to the Milan prison.

With ref. to para 2 of the letter to which we are replying, we beg you to inform us, whether in addition to these 50 agents it is necessary to assign other personnel to the Lombardia region, if so, point please out where and how many agents.

1. Attached is a copy of letter sent to the Ministry of Grace and Justice requesting compliance with your request for prison guard personnel.
2. Scarcity of guards and transport, unwillingness of this personnel to move into strange surroundings where accommodations for their families are commonly unavailable, and other obstacles will, in our opinion, prevent satisfactory numbers of guards from being sent for your use.

It is therefore suggested that you continue your efforts to recruit guard personnel from local sources, as the most practical method of getting the job done. Toscana Region had considerable success in obtaining guards in this manner. Ceilings on salaries have been set and cannot be exceeded at this time. This Sub-Commission will be glad to receive your comments on the extent to which prison administration is being impaired by present salary levels, for use in immediate representation to the Labor Sub-Commission.
