 2. For example list A shows in Palmi a Total of 86 men - tried and untried - but list B shows under population 142 men. There are several differences between list A and B. Can you straighten us out on this ?

PRISONS

JUNE 1944.

There is no change in the location of the civil prisons in this Region as reported in detail under para. 16 of report for May 1944.

General conditions of prisons in respect of administration, sanitation, labour, records and food, satisfactory.

The question of overcrowding which does not affect this Region to any considerable degree, has been tackled firmly by prison directors and transfers from one prison to another have been undertaken expeditiously.

The co-operation of prison officials with ACC continues to be admirable.

No prison is in a state of requisition by any authority.

We have one prison damaged by war action and scheduled for urgent repair. This matter has been dealt with by special correspondence to H.Q.

General conditions of prisons in respect of administration, sanitation, labour, records and food; satisfactory.

No prisons have been requisitioned by any authority.

There are two damaged prisons - A small prison at Gallina, Reggio, was rendered uninhabitable by bombs at time of occupation. Damage confined to roof and ceilings and could be repaired at slight cost. Could 'house' 100 prisoners. Another small prison located at Palmi, Reggio, was damaged in the earthquake in 1908 and again during the invasion; this prison with a present population of 75, is very unsuitable. The circumstances of these two establishments form the subject of a special report.

Overcrowding is not considerable in the Region - the matter is being taken up with the prison directors concerned and their efforts will be watched carefully.

REF :

SUBJECT: Prisons, Calabria.

TO : The Prison Officer, Region VII.

Herewith report forms giving all necessary information and explanation of the general plan I have followed.

On 21st each month each prison sends 2 telegrams one for the Judicial Prison and one for the Gaols (Mendamentali) dependent on it showing:-

- A. Convicted Prisoners.
- B. Convicted Prisoners A.C.C. A.M.G.
- C. Prisoners awaiting trial by Civil Courts.
- D. Prisoners awaiting trial by A.C.C. A.M.G.
- E. Italian Military and Naval prisoners.

These telegrams show in total the actual population on the 21st each month. If therefore the figures are put down in tabular form on a sheet similar to attached (A) they are in handy form for reference. Again if another sheet (B) (attached) is prepared showing the total populations against the accommodation figures, overcrowding is easily seen.

Copies can be sent to hear HQ. with reports.

The telegrams will be sent to me this month as it will cause confusion if alterations are introduced so near the date of Dispatch.

If you will send a circular to each prison asking that in future the telegrams be sent to you, the matter will be adjusted.

I also enclose copy of list of Prisons and Gaols (6) *70*
Definite instructions on Nations are still awaited

Definite instructions on Nations are still awaited by Directors from the Italian Prison Commission (Divisione Generale per gli Prevenzione e Pena. Ministro Grazia Salerno.)

I enclose a copy of letter sent to them on the matter (D): *As per letter HQ.*

The only establishment with the exception of the County Gaols (Mendamentale) that has not been inspected is the Reformatory at Vibo Valentia.
