RPSO, Lombardia requested beds and mattress covers to solve the most critical case of prison overcrowding in the North. He asked for the loan of this material for two months from an abundant supply housed in Partigiani warehouses. It is not clear to this S/C why favorable consideration can not be given to the request for a 2 months loan of this material. Neither is it clear why this Italian property, urgently needed by an AMG Regional Public Safety officer to carry out his duties, is to be allocated to Allied Military uses. In any event, the blocking of material which is urgently required to fill an immediate need, in favor of future requirements of either the Italian or Allied Military, is questioned by this Sub-Commission.

SUBJECT : Arm-equipment for the Personnel.

Many episodes of riots and aggression are still compromising the discipline of Prisons and the safety of the jail guards and they assume sometimes phases of exceptional seriousness.

There are not only disorders inside the prisons with frequents mutinies, but very often also attacks on the outside and ambushes against the guards on external duty, causing panic amongst the personnel who have very few means of defence.

One of the causes that prevented the guards to successfully face the rioters, is the lack of arms or the old weapons which only some of the agents are provided with.

Accordingly the Administration both to reintegrate the supply of weapons that were lost on account of the war, and to provide the agents with modern weapons fit for the necessities of the time, has resolved to buy them from the Beretta Factory - Gardone, after the Ministry of War, that was timely asked, replied not to be able to furnish them owing to the scarcity of its stock.

The Beretta Factory can comply with the request which consists of 1000 mitras at the price of 2.800 lire each and 11.000 automatic pistols at the price of 1.400 lire each, but we are informed that the above Factory must be authorized by A.M.G.

Consequently we beg your Commission to point out to the competent military authorities the aforesaid urgent reasons in order to obtain the authorization in question.

Please inform us of your decisions, as soon as possible.

On Sept. 1944, units of the British Military Marine occupied the Civitavecchia prison, and before they left it, withdrew 100 iron beds, 100 woollen mattresses, 70 bedside tables, 2 writing desks, 2 stoves and 4 chairs.

The matter was dealt with personally by Captain Freeman as Superintendent of the jail establishments within the Lazio and Umbria.

We have reason to believe that the a/m material was taken towards Leghorn, for rigging up a military British Marine hospital.

Owing to the grave situation that this Administration finds itself after the destruction and damage caused by the war, the Honorouble Commission is begged, provided it is possible, to bring matters in such a way that material withdrawn is returned to Civitavecchia prison, where it is urgently needed for re-constructing its indispensable infirmary service.

SUBJECT : Disposal of Timber

TO : C.C.C. (Italy)
British Embassy, Rome.
(Attn Col. Fry)

1. In 1943 the carpenters shop working in the NOVO Prison, Syracuse, Sicily, completed certain woodwork for AFHQ, 55 Area. In January 1944 718 planks of pine wood were supplied to the prison by the Allied Military Authorities, but these were not used.

2. The Minister of Ivnoe and Justice is now making that the stock of wood in the prison workshop be made available to the Prison Directorate for repair purposes. Authority has been obtained from A.C.C. that to dispose of the timber locally. (BOS/1586 dated 18 December refers).

3. As this matter cannot be dealt with through A.C. channels, will you please arrange to dispose of the timber to the Italian Government. The Minister of Ivnoe and Justice will be informed of the action taken and it will be for him to secure the timber for Prison purposes.

SUBJECT: Noto (Sicily) prison.
Wood at disposal of the British Army.

During the last months of I943 and the first ones of I944, the carpenter-shop working in the Noto prison accomplished same works ordered by the British Military Forces and in particular by the A D O S H Q.55 Siracusa Area-.

The Direction of the Noto prison having moreover delivered tables and benches for the mess, asked said Command for the assignment of a part at least of the necessary wood, in order not to consume the whole wood supply existing in the prison stores.

On January I944, a/m Command was transferred from Siracusa and re-placed by the A.D.O.S.-7I Garrison the last one, owing to the delivery of the residual hand-made works which had been ordered, granted to the prison the assignment of 7I8 plates of pine wood.

The A D O S-7I Garrison Command with note .N.4I/29 dated 29th February I944, following request forwarded by the NOTO Jail Direction concerning the use to which said woodsupply should be destined, explained that the supply was to be deposited in the store at disposal of the British Army for eventual orders.

Since then, no further communications were received by the NOTO Jail Direction, also owing to the fact that no British Commands are placed at Siracusa any more.

We thus beg to warmly ask your Commission to unblock the 7I8 pine-wood plates which could be urgently used by the Prison Administration for the repairs of the Sicily Jail.

We shall appreciate a kind aknowledge of receipt.

OGGETTO casa di reclusione di Noto-Sicilia-
Legname a disposizione dell'Esercito Britannico

e per conoscenza:
Alla Direzione della casa penale di
NOTO

Negli ultimi mesi dell'anno 1943 e nei primi del 1944, la falegnameria attivata nello stabilimento penale di Noto espletò diverse commesse di lavoro per conto delle Forze Armate Inglesi e particolarmente per conto dell'ADOS-HQ-55 Area di Siracusa.

La direzione dello stabilimento penale di Noto avendo fornito, fra l'altro, tavole e panche da rancio, e preoccupata di non esaurire la scorta di legname esistente nei propri magazzini, chiese allo stesso Comando di essere rifornita, almeno in parte, del legname occorrente.

Nel gennaio 1944 il Comando predetto fu trasferito da Siracusa e sostituito dall'ADOS-71 GARRISON; tale Comando, ricevute le ultime consegne dei manufatti commissionati, concesse allo stabilimento penale in parola n.718 tavole di pino.

Il Comando dell'ADOS-71 GARRISON con lettera n.41 (ord. 29) del 29 febbraio 1944, a seguito di richiesta della direzione dello stabilimento penale di Noto circa l'uso cui destinare detto legname, dispose che esso fosse tenuto in deposito per conto e a disposizione dell'Esercito Britannico in attesa di istruzioni sulla sua utilizzazione.

D'allora in poi nessuna disposizione in merito è stata data allo stabilimento di Noto, anche perchè da tempo a Siracusa non esiste più alcun Comando Inglese.

Si rivolge, pertanto, viva preghiera a codesta On.le Commissione perchè voglia disporre lo sblocco delle 718 tavole fornite, in considerazione degli urgenti bisogni di legname dell'Amministrazione Carceraria per la sistemazione delle carceri della Sicilia.

Sarà gradito un cortese sollecito cenno di riscontro.

Nor is it considered likely, at this level, that MMIA will acquaint this office as to the disposal of the beds as undoubtedly they were military property. I will, however, endeavour to obtain the required information.

SUBJECT: Surgical material requested for Rome and Naples jail dispesaries.

The a/m judicial jail Directions have presented to this Ministry the necessity of re-opening aforesaid dispensaries which are at this moment absolutely inefficient, especially that of Naples, owing to past air-raids.

The Naples Allied Command, to whom was requested either the cession or sale of surgical or radiologic material needed for rigging out the jail dispensary in Naples, has urged the Direction of that Institute to write to this Ministry, and thus come to an agreement in regard, with the Allied Commission.

We beg you, therefore to valuate with the utmost comprehension, the exigencies of the Rome and Naples prisons, kindly informing us what material you are eventually disposed to furnish and what are terms for same. In particuler, the Naples jail Direction requeste instruments for high, middle and small surgery.

OGGETTO: Richiesta materiale chirurgico per le infermerie delle carceri di Roma e di Napoli.

Le Direzioni delle carceri giudiziarie segnate in oggetto hanno rappresentato a questo Ministero la necessità di riattivare le rispettive infermerie, che attualmente sono inefficienti, specie quella di Napoli, a causa dei danni determinati dai passati bombardamenti aerei.

Il Comando Alleato di Napoli, già richiesto per la cessione o vendita del materiale chirurgico o radiologico occorrente per l'attrezzatura dell'infermeria delle Carceri di Napoli, ha sollecitato la Direzione di quell'Istituto, a rivolgersi a questo Ministero, per prendere gli accordi del caso con codesta Commissione.

Si prega, quindi, codesta Commissione di voler valutare, con la massima comprensione, le esigenze delle infermerie delle Carceri giudiziarie di Napoli e di Roma, facendo conoscere quali materiali eventualmente sarebbe disposta a fornire e a quali condizioni. In particolare, la direzione delle Carceri di Napoli ha richiesto anche strumenti, per operazioni di alta, media e piccola chirurgia.

Si gradirà un cortese urgente riscontro in proposito.

SUBJECT: Assignment of vehicles to Ancona Penal Establishment.

At the moment the Ancona Penal House is faced with two serious problems: the want of water and transportation.

To the first we have hitherto made provision for supply with pressure tanks, kindly placed at our disposal by Allied Authorities, and to the second with utterly inadequate emergency transportation.

The seriousness of the situation has been taken under consideration by a/m Authorities and have, as appears in this Office, placed same before the Allied Commission, pointing out the necessity of definately assigning to Establishment in question, both pressure tank and police ~~Man~~ van.

This Ministry in letter N°19595, 31st of last July, informed the Allied Command, with the view of obtaining the cession of pressure tank.

We renew said request and beg that same in also granted, on payment, with regard to police ~~Man~~ van.

We stress the fact that, the vehicles in question serve solely to insure the service of the Ancona prison, in want of which, the aforesaid would find itself in the impossibility of carrying on its normal work.

Attualmente la casa penale di Ancona versa in gravi difficoltà, fra l'altro, per la mancanza d'acqua e di trasporti.

Alla prima si è finora sopperito con rifornimento mediante autobotte, cortesemente messa a disposizione dalle autorità alleate, ed alla seconda con l'uso di mezzi di fortuna assolutamente inadeguati.

La gravità della situazione è stata rilevata e presa in considerazione da parte di dette autorità che, per quanto risulta a quest'ufficio, hanno già prospettato a codesta On. Commissione la necessità di assegnare definitivamente allo stabilimento in parola un'autobotte ed un autocellulare.

Questo Ministero già precedentemente con la nota n. I9595 del 31 luglio u.s. ha interessato codesta On. Commissione allo scopo di ottenere la cessione dell'autobotte.

Con la presente rinnova tale richiesta e prega che ugua le cessione, sempre a pagamento, voglia disporsi anche per l'autocellulare.

The director of the local Civil Prison communicates by letter N.4279 of 11.7.45:

" Herewith report for the Authorities. We request your efficient intervention for solving the problem of water supply of this prison, in order to avoid unpleasant incidents.

At present the prison is supplied with water by an allied water tank, carrying an insufficient quantity for a prison lodging 240 detainees.

If the present shortage continues serious infectious diseases may arise, considering that the prison is overcrowded, the season is hot, and it is impossible to provide for regular laundry and cleanliness of persons and premises.

In these conditions perturbation of order among detainees may also arise.

The regular supply of water by the prison water plant will be possible only in some months time. The a/m vehicle is the only means for supplying water, at least partially, but will be withdrawn when Ancona returns to Italian Administration. May A.M.G. be approached for granting, or loaning, a water tank. The Director G.Nobile ".

Will your office please intervene and communicate results.

Permanendo l'attuale deficienza di acqua,con le carceri superaffollate e la stagione che si attraversa , la impossibilità di procedere al regolare cambio della biancheria e di permettere che i detenuti curino la pulizia personale e quella dei locali, favorirà senza dubbio il formarsi dell' ambiente adatto allo sviluppo di possibili gravi infezioni.

Nè si nasconde che potrebbero anche scoppiare disordini di una certa entità,fra i detenuti.

In considerazione di quanto esposto , poichè la regolare erogazione dell' acqua potabile tramite l'impianto idrico delle carceri si potrà effettuare solo tra qualche mese, e poichè col prossimo passaggio della città all' Amministrazione italiana, verrà a mancarci l'unico mezzo cui cui presentemente , sia pure in parte, ci si serve per l'approvvigionamento idrico delle carceri,prego le Autorità in indirizzo affinchè sia compiacciano richiedere al Comando Alleato locale la cessione , o il prestito di un autobotte.

Con ossequio - Il Direttore fto. G. Nobile"""

Prego pertanto la S.V. di voler interporre la sua autorità affinchè, in accoglimento della richiesta di cui sopra,venga ceduta o concessa in prestito alla Direzione delle Carceri una autobotte.

Gradirò un cortese riscontro al riguardo. 650/1

1. Reference is made to your AC/14209/2/PS of the 6th August, 45, on the subject named.
2. At the moment there are two (2) water catts on loan from AC for the purposes of supplying water to the Gaol and Civil Hospital.
3. When these are withdrawn, if they are when A.C. officers are called to Rome, it may be possible to effect a temporary arrangement with the Military in the area, but this in my view would not be satisfactory.
4. The best thing would be to sell or loan to the Commune two water catts, and hand them to the Fire Brigade to work and service. This in my view is the only concrete and sensible solution.

SUBJECT : Water supply for the Ancona jail.

The Direction of the Ancona judicial jail communicates:
The present need of water, though in a small measure, is assured at the moment through a pressure tank belonging to the local Allied Command. The a/m jail Direction has presented to this Ministry the serious hygienic and disciplinary situation that would arise in the Istitute, when following the return of said province to the Italian Government, the pressure of water came to be suspended.
In order therefore to prevent this grave situation, we beg the Allied Commission to kindly consider the possibility of selling us the pressure tank, and if that not possible, letting us have it until the water-main is in working order again.
An answer at your earliest convenience will be highly appreciated.

SUBJECT: Poggioreale Prison Infirmary.

Reference our verbal conversation had with your HQ., I send a copy of a report of Dr. FESTA Angelo surgeon of this Prison, with two lists of the surgical equipment necessary to re-organise the infirmary of this Prison.

The same papers have been sent to the Ministry of Grace and Justice so that it might apply to the Allied Commission, Rome for the delivery of a/m equipment, taking it from Allied Military Units which are being demobilized or repatriated.

This Office knowing the benevolence of your HQ and as it concerns a prison in your jurisdiction we beg you to intervene with the Allied Authorities of Rome, so that the request of our prison be accepted.

If this surgical equipment is received it would place the infirmary in an efficient state to function, and would simplify the duties of the Prison office towards the sick inmates.
I enclose copy of letter sent to the Ministry.

Oggetto infermeria del carcere di Poggioreale

Facendo seguito alla conversazione verbale avuta con codesto On/le Comando mi pregio rimettere copia di un esposto del Dott. Festa Angelo, chirurgo di questo carcere, con allegati due elenchi dei presidi chirurgici necessari per attrezzare l'infermeria di questo carcere.

Gli stessi documenti sono stati rimessi al Superiore Ministero di Grazia e Giustizia perchè interessi il Comando Alleato di Roma per la cessione dei suddetti presidi a questo carcere prelevandoli da reparti militari alleati in via di smobilitazione o di rimpatrio.

Questa Direzione intanto ben conoscendo la benevolenza di codesto On/le Comando e trattandosi di un carcere che trovasi nella giurisdizione del prefato Comando lo prega vivamente perchè voglia benignarsi interporre i suoi buoni uffici presso le autorità Alleate di Roma onde la richiesta di questo carcere sia accolta.

La cessione dei suddetti presidi chirurgici metterebbe in efficienza l'infermeria di questo carcere ed agevolerebbe i compiti della direzione e le condizioni dei detenuti ammalati. Allego copia della lettera inviata al Ministero. Con osservanza.

Il sottoscritto Dott. Angelo Festa, Chirurgo presso codesto Istituto di Pena, fa noto a V.S.I. quanto segue:

Le condizioni attuali della infermeria non sono adatte per la cura chirurgica dei detenuti infermi, per la mancanza di materiale sterile, ferri chirurgici, autoclave, sterilizzatrici e scarsezza di medicinali. In vista del prossimo riattamento del reparto danneggiato dalle bombe, occorre provvedere al più presto all'arredamento e alla fornitura di tutto il materiale che in precedenza esisteva e che consentivano tutti gli interventi operativi e la cura chirurgica; a tal uopo il sottoscritto unisce due elenchi, uno di materiale indispensabile per piccoli interventi, l'altro di tutto il necessario per interventi di qualsiasi natura, anche di alta chirurgia, che si praticavano in precedenza.

Il sottoscritto prega la V.S.I. di farsi interprete presso il Superiore Ministero per l'acquisto di tale materiale.

Con osservanza

OGGETTO:infermeria del carcere.

Mi pregio significare che fra breve sarà completamente ricostruita e preonta per l'uso quella parte della infermeria danneggiata dai bombardamenti aerei.

Però essa pur potendo essere adibita al ricovero dei detenuti infermi è completamente sprovvista dei presidi chirurgici e radiologici come può rilevarsi dall'unito esposto del Dott. Festa Angelo chirurgo di questo carcere,all'uopo egli unisce all'esposto due elenchi degli strumenti necessari ad attrezzare l'infermeria.

Questa Direzione compenetrandosi che la spesa per lo acqusto del materiale occorrente sarebbe di gran lunga oneroso per l'Amministrazione ha cercato di prendere accordi col locale Comando Alleato perchè questi si compiacesse di assegnare a questo carcere il necessario per l'attrezzatura dell'infermeria prelevandolo da reparti militari in via di smobilitazione o di rimpatrio.

Senonchè il predetto Comando pur accogliendo benevolmente la richiesta ha fatto presente che per la vendita di tutti i materiali delle forze Alleate sono competenti i singoli ministeri che devono prendere diretti accordi con il Comitato Centrale di Roma,pertanto rivolgo preghiera a codesto ONLe Ministero perchè si compiaccia prendere in considerazione la richiesta ed interessare direttamente la competente autorità.

Faccio altresì presente che il ripristino efficiente dell'infermeria in tutti i suoi servizi permetterebbe,come per il passato il ricovero in questo stabilimento dei detenuti di altre carceri abbisognevole di cure ed eviterebbe in modo assoluto il ricovero esterno dei detenuti quì ristretti.

In attesa di provvedimenti che codesto Ministero crederà opportuno adottare ossequio.

1. Reference is made to your signal dated 28th instant, subject as above.

2. Your offer of ~~a thousand~~ 500 single beds is appreciated and we are grateful for your interest. But, however, it is considered that, in view of the time lag which must arise, no useful purpose will be served in transporting single beds from Naples to Milan.

3. Further efforts will be made locally to obtain the release of a quantity of the thousands of double tier beds now lying idle in Milan, but which are blocked by M.M.I.A.

N. 133567/25-30

Subject : Supply of D.D.T. powder and other disinfectants for the Procida penal institution.

To : A.C. Public Safety Sub-Commission - Rome.

In occasion of a visit made by an official of this Ministry to the Procida penal institution, that Direction has pointed out the serious difficulties which are met in order to obtain from Allied Authorities of AMG Naples, the supply of D.D.T. powder and other disinfectants.

As in the a/m institution there are not only common prisoners but also a section with many prisoners sentenced by Allied Courts and another one for political prisoners, it is earnestly requested that the Naples A.M.G. be contacted for the supply requested by the Directorate of Procida.

1. With respect to Para 5 of communication of your Prison officer to the Minister of Grace and Justice thru this Sub-Commission, 3 April 1945, R-VIII/PS/9.4, regarding supplies of disinfectants the following is forwarded for your information.

2. DDT supplies are blocked for use where typhus is imminent or has already broken out, this provision pertaining not only to troops, but to refugee and displaced persons camps, or prisons and like concentrations of population. This is a logical result of the scarcity of the supply. Creosote bloks, in some quantity, are at present being released by MMIA to the Medical Officer, AMG. 5th Army (Capt. SUBJECT : Medical Supplies for Prisons.

TO : Regional Commissioner, Teramo Region
For R.P.S.O. Attention: Prison Officer.

1. Ref. Communication of Prison Officer, 3 April 1945, R-VIII/PS/9.4. 31A 31B

2. The reference to communication from Public Health Sub-Commission of 4 Feb 1945 (AC/3072/2/PH) pertained, it is pointed out, to requisition and delivery of medical supplies in liberated parts of Italy and represents the procedure common to teritory under Allied Commission jurisdiction. Under such a program an AMG officer is not in residence and does not enter the picture. However, this directive specifically calls attention to the necessity of extending all reasonable assistence to civilian institutions in the matter of medical supplies.

3. Advice given to the Minister of Grace and Justice by this Sub-Commission was to the effect that applications for medical supplies from directors of prisons in AMG territory should be directed to the Provinciale Medico thru the Regional Prison Officer. This advice was and is in line with Allied policy to afford reasonable assistance to civilian establishments. It presumes that the Regional Prison Officers are in a position to know the medical needs of prisons under their jurisdiction and are interested in using their good offices to facilitate delivery where otherwise impossible, inderse or veto applications because of their knowledge of factual conditions and acceptable standards, and in general maintain a measure of control.

4. The statement in your communication that "No Allied Officer has anything to do with medical supplies for Italians in AMG territory" is untenable because it prevents a regional prison officer from functioning as such. While the position of the Provinciale Medico is clearly understood by this Sub-Commission, it is held that the screening of applications for medical and other supplies by the Prison Officer is the safest means of insuring that such supplies are properly administered.

645

Said officer would be entirely within the limits of his duties in insisting that certain requisitions be made to provide a program acceptable to AMG authority. In any event a strict "hands-off" policy is liable to encourage the very conditions that AMG officials are trying to event.

5. In the event that the Regional Prison Officer of Tuscany Region finds it impossible to function in a capacity as above described, it is suggested that he make use of the liaison officer, recently appointed by the Ministry, as his representative.

6. The letters from the Ministry are enclosed and it is requested that their delivery to destination be facilitated.

SUBJECT : Medical Supplies for Prisons

TO : Minister of Grace and Justice thru Prison Officer, Public Safety Sub-Commission, Hqs. A.C.

1. Received this morning were the accompanying envelopes for distribution among the prison directors of the Region. I am sending the back to the Minister with the directive showing how medical supplies are distributed to the Italians.

2. No Allied Officer has anything to do with Medical Supplies for Italians in A.M.G. territory. Each Provinciale Medico makes his request up every two months and summits it to an Italian Regional Director, who, inturn, requests the supplies from the Area Dump in Florence, which is also run by the Italians. At no time are these supplies in our hands.

3. The point I would like to make clear is this. Many of these prison directors have made requests of me for medical supplies and I have referred them to their own provincial medical man. However, this does not please them. They prefer that I bring the supplies direct to the prison and unload it there. This is not my job. In the past I have done everything possible myself to keep these prisons in the best of condition but the time has come when the directors must start running their own prisons, alone. What they want is for me to indorse their requests so that the Provinciale Medico will be more inclined to give them what they want. No doubt they do not receive all that they need but medical supplies are not granted to the Italians sufficiently to cover all the needs and each prison has to accept what the Medico Provinciale can give. If prison directors and Medico Provinciales, two Italian Officials, cannot get together and settle their problems, I don't think that I have the right to interfer. My personal experiences are that most of these directors are a lazy, indolent bunch that await an Allied Officer to do all that is necessary. Perhaps I have spoiled them by doing too much of their work but I don't intend to in the future.

4. I suggest that Dr. Auriemma instruct each prison director that he take his request for medical supplies to the Medico Provinciale personally and talk to that official. The Regional Public Health Officer has told me that any steps I would take would be exceeding my authority.

5. A number of prisons need DDT and disinfecting. I have tried to get both with no success. DDT is only for the use of troops or where cases of typhoid actually break out. There are disinfectants but every request that I make is denied. MMIA has a large stock of creosole blocks in

Declassified E.O. 12356 Section 3.3/NND No. 785016

Florence that had been confiscated from Italian Military Stores. When I was in Rome I requested that they release some of these blocks to me but they refused. However, there are 120 Italian Military Prisoners in one of my Florence prisons that I am required to hold. This seems like a deliberate attempt not to co-operate. I have requested of Army disinfecting units to help me with some of my prisons. The only one that they agreed to do was at Livorno. Civilian prisons are not in their line and they refused to do any others.

6. The guard NAPOLETANO Armando, of Florence prison, may be transferred to Rome. In regards to staffing the prisons of Toscana I have started to hire new men for the service. Within the past month about 15 new men were taken on. Yesterday I authorized Dr. Mazzarisi, Director of Florence Prisons, To hire 50 new men, who were to meet qualifications that we had decided upon. These men were to receive a short period of traing in Florence and then to be transferred to other prisons where their services were need. I prefer to train new men rather than have Dr. Auriemma send me old broken down, incompetent guards that other directors do not want. Within the past two weeks I have had one prisoner killed attempting to escape and several other prison disturbances I feel that we should try to get a higher type of prison guard than the men that are already in service.

Subject : Mattress-cases.

To : A.C. Public Safety Sub-Commission - Rome.

As in many occasions the Commission has been able to ascertain, many prison institutions, especially of Southern Italy, are lacking the indispensible equipment for beds and clothing, but above all the shortage of straw-mattresses is strongly felt. So that many prisoners are obliged to sleep on the floor.

This Administration has made up to the present time every possible effort in order to obtain these items, but the result has been unsuccessful given the absolute lack on the market and in the manufactories of the cloth adapted for the manufacture.

As it has been noticed that for the purpose the tics of straw-mattresses made up in jute bags, for trench use, ~~mag~~ well adapted, we beg the Commission kindly to dispose the assignment against payment to this Administration of at least 50.000 of the a/m bags.

The manufacture of these straw-mattresses will be carrie d out in the local female judicial prisons at the expense of this Administration.

OGGETTO: Gusci di pagliericci. -

Come Codesta Commissione ha potuto, in varie occasioni, constatare, molti istituti penitenziari, specie dell'Italia Meridionale, sono sprovvisti di gran parte dell'indispensabile corredo per letti e di vestiario, ma sopratutto mancano dei pagliericci. Talchè moltissimi detenuti sono costretti a dormire sul pavimento.

Questa Amministrazione ha fatto sinora tutto il possibile per procurare tali effetti, ma ogni ricerca è rimasta infruttuosa, data l'assoluta irreperibilità sul mercato e presso le fabbriche, del tessuto adatto per la confezione.

Poichè si è riconosciuto che si prestano bene al bisogno, i gusci di pagliericci confezionati con i sacchetti di juta, da trincea, si rivolge preghiera a codesta Commissione affinchè voglia disporne la cessione a pagamento a questa Amministrazione di almeno 50.000 dei suddetti sacchetti.

La confezione dei pagliericci con gli stessi, verrebbe eseguita presso le locali carceri giudiziarie femminili a spese dell'Amministrazione.

N. 13403.1/3

Subject : Expenses for prisoners.

To : A.C. Public Safety Sub-Commission - Rome. 20A

With ref. to your letter AC/14209/2 dated 9/2/45, it is communicated that this Administration for the maintenance of prisoners uses two systems: either through contracts with outside firms or through the proper administration.

1) Contract. the obligations of the contractor are:
- the supply of food to the healthy prisoners, of medical supplies, treatment and food for the sick prisoners; treatment in the outside hospitals, supply of what is necessary for the general services and the household services (illumination, water, cleanness and personal hygieny, cleanness of the premises, recompenses for the prisoners employed with home-works, maintenance of the premises in use by the enterprise, writing-material used by the offices, supply of implements for the kitchen etc.)
Daily allowance: a) for each prisoner in the common institutions and for each day of presence, varies from 14,55 Lire to 20,10 Lire (net amount from registration and income tax) according to the economical conditions of the Regions and the numerical importance of the institution;
b) for each prisoner detained in the institutions for sick people, in the judicial asylums, in the judiciary reformatories the daily cost amounts to 27,60 Lire, net from registration and income tax.
c) for misled minors detained in private institutions the cost amounts to 20,00 Lire.

2) Proper administration. When the service is carried out directly by this Administration the expenses are always lower in comparison to those of contracts and are running from a minimum of 14,00 Lire to a maximum of 18,00 Lire.

OGGETTO: Assegni pei detenuti. -

In risposta alla richiesta 9 febbraio corrente n.AC/14209/2 P.S., comunicasi che l'Amministrazione pel mantenimento dei detenuti usa due sistemi: quello in appalto e quello in economia.

1) APPALTO. Gli obblighi dell'appaltatore sono:

-fornitura del vitto ai detenuti sani, dei medicinali, mezzi di cura e trattamento vittuario per gli infermi; cura negli ospedali esterni, fornitura di quanto occorre pei servizi generali e pei servizi domestici (illuminazione, acqua, pulizia ed igiene personale, nettezza dei locali, mercedi pei detenuti adibiti ai lavori domestici, manutenzione dei locali in uso dell'impresa, cancelleria per uso degli uffici, fornitura degli arnesi ed utensili per la cucina ecc. ecc.)

La diaria: a) per ogni detenuto negli istituti ordinari e per ogni giornata di presenza, varia da lire 14.55 a lire 20,10 (al netto di imposte di registro e di entrata) a seconda delle condizioni economiche delle regioni e della importanza numerica dell'istituto;

b) per ogni detenuto e internato negli istituti per minorati fisici, nei manicomi giudiziari, negli istituti di rieducazione per minorenni (riformatori giudiziari) la diaria è di £ 27,60 a giornata di presenza, al netto di imposte di registro e di entrata.

c) per ricovero di minorenni traviati in istituti privati è di lire 20,00.

2) ECONOMIA. Pel servizio in economia, la spesa è sostenuta direttamente dall'Amministrazione; ma, a conti fatti, si può ritenere che la retta per detenuto e per giornata di presenza è sempre alquanto inferiore a quella dell'appalto e va da un minimo di £ 14,00 ad un massimo di £ 18,00.

MINISTRY OF GRACE & JUSTICE

1st Feb 1945

N. 12671

Subject : Supply of blankets for agents and prisoners.

To : Director of the judicial prisons of Florence

By registered letter n. 12623, dated 7 December, 1945, this Ministry has already drawn your attention to the necessity to go to Prato in order to settle on the spot the question regarding the supply of 10.000 blankets for the Administration.

It is thought, however, that mentioned letter, copy of which is herewith enclosed, has not been received, as up-to-now no reply has been given to it.

In view of the exceptional cold weather and the subsequent serious conditions in the penal establishments caused by the deficiency of barracks equipment and above all by the lack of blankets, this Central Administration was obliged to accept the offer presented by the firm Citer of Rome (Piazza Cairoli n. 2), which engaged itself for the supply of 30.000 blankets.

That firm should have purchased mentioned quantity of blankets at Prato at the average price of L. 750 .- eachone, wool and cotton, and of L 1200 for the military type, containing a greater percentage of wool.

As foreseen the firm has not been able to furnish the material.

This stated, modifying and extending the charge entrusted to you with a/m letter, the task is given to you to go to Prato and to purchase at the best possible conditions 30.000 blankets, possibly of the military type, stipulating with the firm or firms one or more contracts, which will be immediately transmitted to this Ministry for approval.

The payment will be effected by this Central Administration by direct mandate, collectable at the Provincial Treasury Section of Rome, i.e. in order to spare time, in the interest of the same contractors, as soon as the delivery and relative test by this Directorate will have taken place.

This Ministry will provide for the transport of the purchased goods to Rome, for the immediate distribution to the establishments of Central and Southern Italy .

In this occasion you will also provide for the purchase of 5000 pull-overs (wool and cotton) and 5000 cotton under-wear necessary for the minors held in the re-education institutions; the purchase has to be effected with the same modalities pointed out for the blankets.

Would you please acknowledge receipt of the present letter.

OGGETTO: Provvista di coperte per agenti e detenuti. -

Questo Ministero già interessò la S.V. con Raccomandata del 7 dicembre us. n. 13623 affinchè Ella si recasse a Prato per espletare, su quella piazza, le pratiche preliminari per procurare all'Amministrazione 10.000 coperte.

Deve ritenersi, però, che detta Ministeriale -di cui, per intelligenza e norma della S.V. si rimette copia- non le sia pervenuta, in quanto nessun risscontro in merito si è finora avuto.

Intanto questa Centrale Amministrazione seriamente preoccupata, specie pel perdurare dell'eccessivo rigore invernale, dello stato di grave disagio risentito da tutti gli istituti del territorio liberato, a causa della deficenza di casermaggio in genere, e sopratutto dalla mancanza di coperte, è stata costretta ad accettare l'offerta presentatale dalla Ditta Citer di Roma (Piazza Cairoli n. 2), la quale si era impegnata di fornire 30.000 di tali effetti.

Tale Ditta avrebbe dovuto acquistare detto quantitativo di coperte, a Prato al prezzo medio di £ 750- ciascuna, del tipo misto di lana e cotone, e di £ 1200 del tipo casermaggio

Come però, era prevedibile, è trascorso il termine di consegna, senza che la Ditta avesse potuto eseguire la fornitura.

Ciò posto, modificando in senso estensivo l'incarico affidatole con la succitata Ministeriale, si dà ora, alla S.V. mandato di recarsi a Prato per procedere senz'altro, alle migliori condizioni possibili, all'adquisto di 30.000 (trentamila) coperte, possibilmente del tipo casermaggio, stipulando con la Ditta o le Ditte uno o più contratti, che trasmetterà sollecitamente a questo Ministero per l'approvazione.

Il pagamento sarebbe effettuato da questa Centrale Amministrazione con mandato diretto, esigibile presso la Sezione di Tesoreria Provinciale di Roma, e ciò, per risparmio di tempo, nell'interesse degli stessi fornitori, appena avvenuti la consegna e relativo collaudo da parte di codesta Direzione.

Questo Ministero provvederà, poi, al trasporto degli effetti acquistati, a Roma, per disporne la distribuzione immediata agli stabilimenti dell'Italia Centrale e Meridionale.

Con l'occasione la S.V. provvederà, anche all'acquisto di 5.000 maglioni (misti di lana e cotone) e 5000 maglie di cotone, occorrenti per i minorenni ricoverati negli istituti di rieducazione; acquisto da effettuarsi colle stesse modalità accennate per le coperte.

Intanto la S.V. vorrà accusare ricezione della presente, assicurandone il sollecito adempimento.

OGGETTO Provvista di coperte per agenti e detenuti.

In seguito alla distruzione del lanificio di Ancona e alle devastazioni e saccheggi perpetrate dalle truppe tedesche, quasi tutti gli istituti si trovano oggi completamente sprovvisti di coperte.

Non è possibile neanche di procurarle dal libero commercio perchè le Ditte del genere, anche dell'Italia Centrale, non ne dispongono. Risulta però che presso le varie Ditte esistenti a Prato, tali effetti non mancano, anzi talune di esse, come la Ditta Cosimo Bologna, ne dispongono in notevole quantità; la vendita però ne è bloccata per disposizione del Comando Alleato. Ciò stante si autorizza la S.V. a recarsi subito a Prato per assumere le opportune informazioni.

La S.V. preleverà presso la Ditta summenzionata, o presso altre, un campione scegliendolo tra quelle che, per l'uso carcerario, diano maggiore garanzia di qualità, durata e di pratica utilità, al fine di proteggere la persona dai rigori della stagione.

Il detto campione o più campioni che la S.V. riterrà di prelevare, e che all'occorrenza acquisterà con i fondi del casermaggio, dovranno essere urgentemente inviati a questo Ministero a mezzo di un agente.

La S.V. riferirà nel contempo circa le pratiche che occorre espletare e presso quale Autorità per ottenere l'immediato sblocco delle coperte e indicherà il relativo costo, avanzando concrete proposte.

Si avverte, infine, che il quantitativo di coperte che questo Ministero intenderebbe acquistare - anche ripartendolo tra varie ditte - si aggirerebbe sulle diecimila.

La S.V. vorrà frattanto assicurare lo adempimento immediato delle suddette disposizioni.

MINISTRY OF GRACE & JUSTICE

28 Jan 1945
N. 12577.2/1

Subject : Equipment and material for prisoners.

To : A.C. Land Forces Sub-Commission (M.M.I.A.)
and for information
To : A.C. Public Safety Sub-Commission
To : A.C. Industry Sub-Commission.

The serious situation of the prison institutions within liberated Italy, in regard to equipment, due to the war events, is well known to the Command.

As the Officers attached to the A.M.G. and A.C. Hqs. have been able to ascertain through special inspections, the prisoners pressed in the penal establishments and the minors sheltered in the re-education institutions, are lacking everything indispensible for their defence against the cold winter weather.

Infact almost all institutions ar short of pallets, clothing, blankets and shoes, so that the prisoners, obliged to sleep on the bare pavement, without possibility to cover themselves, in rags and bare-footed, are exposed to the most severe sufferings, to dirt and diseases.

Such a sad situation, which influences also injuriously the discipline and Hygiene of the institutions, seriously preoccupies this Administration, which has no remedies, both for the difficulties which are met to get the necessary materials and the inactivity of the proper manufacturing establishments, in consequence of the pillages carried out by the Germans.

This Administration has tried every possible mean in order to get from the market blankets, bed-linen, shirts and trousers, in order to remedy the a/m deficiences; i.e. it has made and continues to make the most intense researches on the markets of the liberated territory; but in spite of the many activities settled, and though making use of the assistance granted to it by the Ministry of Industry, Labour and Commerce, it succeeded to get only some thousands of blankets and linen for the manufactoring of 8000 sheets, 10.000 pillow-cases, 18.000 shirts and trousers and 18.000 towels, a quantity which is derisive in front of the need, which requires at lenst 50.000 blankets, 80.000 sheets, 70.000 mattress-cases and pillow-cases, 50.000 shirts and trousers, 40.000 clothes and 20.00 pairs of shoes, requested by the dependent institutions and pointes out as urgent and irreducible and only to meet the necessities of the moment.

Therefore, this Ministry applies to the Command, so that, in consideration of the serious situation, it would kindly examine the possibility of meeting the urgent needs of this Administration, and order the assignment of at least

30.000 blankets and 20.000 shoes and as many other pieces of linen and clothes possible to be assigand. These equipment articles, even if used, worn out or in a bad state, can be employed in order to lenify, during the winter, the sufferings of the persons at the present time living in the a/m institutions.

It would be appreciated to know, in regard to the present application, the decisions taken by the Command.

MINUTA materiale tessile-

In esito alla nota sopracitata, si comunica che i materiali tessili di cui all'elenco trasmesso con la precedente ministeriale n.39909 del 21 dicembre 1944, saranno assegnati alla casa di reclusione di Roma presso la sartoria della quale, che si sta riattivando, essi potranno essere trasformati in manufatti di casermaggio carcerario.

Tali manufatti, unitamente a quelli già confezionati risultanti dall'elenco stesso, potranno così essere distribuiti alle carceri giudiziarie locali che in conseguenza dei noti avvenimenti ne sono rimaste quasi prive, ed agli altri istituti carcerari che del pari ne hanno grande bisogno.

2. The director, who is also a physician, states that this list represents the minimum needs of the 50 or more sick prisoners at Soriano. The undersigned has visited the prison and finds a situation which is a tragic one. With an almost impossible condition as regards bedding, soap, transport, etc., it is urgently requested that the good offices of your division be used to facilitate the supply of the medicines in question.

3. The articles underlined in red are designated as those most urgently needed.

With reference to the request made by Major Hanbury at the meeting of the 9th instant a list of the raw and manufactured material which has come from the Prison at Ancona to that of Rome, is transmitted herewith.

It is most ernestly asked that the Commission should allow, in accordance with the instructions given with letter AC/14209/2/PS of the 23rd September last, that this material so urgently needed, as is known by the prison establishments especially that of Rome, should be used for the needs of the Administration.

An early reply would be much appreciated in order that instructions may be given to the dependent directorates.

REMARKS

Regarding the supplying of the battery in question: I feel that, if a battery is in the hands of a commercial concern in Rome, the Italian government should exercise its powers to force delivery at a reasonable price. The figure given my interpreter by the Director was L. 20,000. The battery needed is a 36 Amp 24 volt affair. Major Hawker, TCU div. informs me that he has none to supply. Also that four 6-volt auto batteries could be used, etc..

I've done all that I can. Will you speak to the Minister?.

DIRECTION OF REGINA COELI

To: Capt.Freeman,Prison Officer
Lazio-Umbria Region

SUBJECT: Repair of telephone installation

The firm SIELTE, contractors of telephone equipment to this Prison, has informed us that the present accumulator batteries are so worn out that it is impossible to function the telephone service. They have therefore requested a new battery.

Despite a thorough search in the local market it has not been possible to find one.

The Sielte firm has however indicated that they might be able to procure one, but at a price which I donot consider possible to accept. (L 20,000) !!

In informing you of the above, I wish to point out the serious inconvenience caused to this office by the lack of the telephone apparatus, and I warmly beg you to intervene, in as much as you may consider it possible and opportune, in order to resolve this notable deficiency from which we have now been suffering for some time.

SUBJECT: Prison requirements -

Herewith is a specific request which has been received from Soriano. It refers to items which I believe assential to the administration of the Soriano prison, and duplicates a request made from the same source a month or so ago.

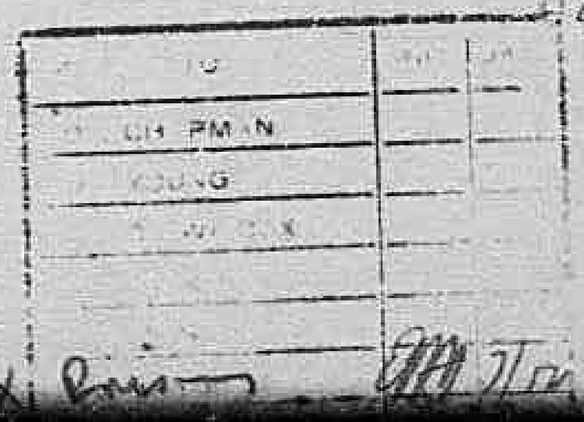

The undersigned observes little or no activity on the part of responsible Italian state authorities in actually obtaining and delivering supplies that have been endorsed by the undersigned as being essential to the administration and the inmates of the prisons concerned. To the extent that this request, also endorsed as above-mentioned, results in no objective evidence of the supplies being sought for and delivered where needed, it is again mentioned that considerable effort on the part of interested Allied personnel has achieved unsatisfactory results.

N. 94651/3421

13 September 44.

Note for His Excellency the Minister

The head-guard of the custody agents, Nobile Giovanni, actually at the judicial jail of Ancona, refers to have hidden the following material, in order to subtract it from the acquisitions which were carried out during the nazi-fascist domination in that town:

1. 1400 pieces of white baseno cloth (ml.40.000) locked up in premises of the Ancona establishment.
2. About 600 woollen suits and more than 300 pieces of cloth in a factory in the country, not precised.
3. About 10 qls. of hemp skeins and parcels of cotton in the RR.CC. barracks of Camerano.
4. An unprecised number of parcels of cotton in the questura of Ancona.
5. A condiderable quantity of suits and about 100 qls of hemp and wool skeins; about 30 qls. of woollen blue-black cloth in the stores of S.Palatia.
6. A considerable number of suits for internees, more that 300 pieces of cloth of various material; besides 500 white woollen blankets, in the jails of Osimo.
7. Other material (folding beds, straw matresses, furniture, blankets etc.) - is hidden in premises not indicated.

MINISTRY OF GRACE AND JUSTICE

Since, it is to be presumed, that said materials, hidden for months, are almost rotting (especially the cloths, cottons, blankets) and are, moreover, absolutely indispensable in order to satisfy, even in a very small part, the numberless and unceasing requests of clothes for agents and prisoners (who are without, since a very long time and are even wearing civilian clothes), it is deemed necessary to have them gathered in the judicial prisons of Rome where the distribution could be taken care of prior to their manufacturing, if necessary.

We therefore beg your excellency, to examine the necessity of asking the Allied Command to put this administration in a position to effect the recovery and transportation of these goods to the judicial jail of Rome.

Subject: Blanket shortage in prisons, Region II

To: Supt. of prisons, Region III (Through R.P.S.O) III 74

1) Both Superintendent of prisons, Region II, and the Italian Ministry of Justice, have recently asked that something be done about a blanket shortage in that region.

New Process File Process Slip

2) From reports recently received from prison directors, Region III on the forms supplied by the ministry and distributed through your office, it appears that the following surplus of blankets exists in your region, at the following prisons:

File
P.A.

Procida	295
Nisida	300
S. Maria C.V. (Giudiziario)	500
Pozzuoli	200
Benevento	100
Policri	133
	1528

The estimate of surplus was made by dividing the total capacity of each prison mentioned and subtracting the result from the number of blankets reported on hand.

3) Will you please check and report as to whether the indicated number of blankets are available for transfer? 620

This letter was prepared in an effort to meet the demand in 15-A. It was not sent because Italian authorities had a short drawing

P.A.

On the forms supplied by the ministry and distributed through your office, it appears that the following supplies of blankets exists in your region, at the following prisons:-

Procida	295
Nisida	300
S. Maria C.V. (Giudiziario)	500
Pozzuoli	200
Benevento	100
Portici	133
	1528

The estimate of supplies was made by doubling the total capacity of each prison mentioned and subtracting the result from the number of blankets reported on hand.

3) Will you please check and report as to whether the indicated number of blankets are available for transfer? 6200

This table was prepared in an effort to meet the demand in 15-A. It was not sent because Italian authority had a report showing what they considered a satisfactory number of blankets at Bari, which disagrees of 1000 of that requested, Brindisi is requisitioned, and a telegram received by the ministry from Capt Alden, indicates enough available blankets in Region II
